Part I – Tariffs
Please indicate the Carrier Type and the reason for submitting this form by checking the boxes below.
NOTE: All cases are ATA process cases, tariffs are effective the day they are filed, and remain in effect unless the Commission acts to suspend.

Carrier Type	☐ ILEC	☒ CLEC	☐ CTS
Business Tier 2 Services	☐	☒	☐
Residential & Business Toll Services	☐	☒	☐
Other Changes required by Rule (Describe in detail in Exhibit C)	☐	☒	☐

Part II – Exhibits
Note that the following exhibits are required for all filings using this form.

Included	Identified As:	Description of Required Exhibit:
☒	Exhibit A	The existing affected tariff pages.
☒	Exhibit B	The proposed revised tariff pages.
☒	Exhibit C	Matrix or narrative summarizing all changes proposed in the application, and/or other information intended to assist Staff in the review of the Application.
☒	Exhibit D	Explanation of how the Applicant intends to comply with Rule 4901:1-6-05(G)(3) regarding disclosure of rates, terms, and conditions for detariffed services, including: • citation to the appropriate Web Page if any, in accordance with rule 4901:1-6-05(G)(4), and/or • copy of other materials and publications to be used to comply with 4901:1-6-05(G)(3).
☒	Exhibit E	One-time customer notice of detariffing and related changes consistent with rule 4901:1-06-16(B) , including where customers may find the information regarding such services as required by rule 4901:1-6-05(G)(3).
☒	Exhibit F	Affidavit that the Customer Notice described in Exhibit C has been sent to Customers.

Part III. – Attestation

Registrant hereby attests to its compliance with pertinent entries and orders issued by the Commission.

AFFIDAVIT

Compliance with Commission Rules and Service Standards

I am an officer/agent of the applicant corporation, Telecom Ventures, LLC (Name), and am authorized to make this statement on its behalf.

I attest that these tariffs comply with all applicable rules, including the Minimum Telephone Service Standards (MTSS) Pursuant to Chapter 4901:1-5 OAC for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules, including the Minimum Telephone Service Standards, as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on (Date) July 1, 2008 at (Location) 921 Eastwind Dr, Ste 104, Westerville, Ohio 43081

*(Signature and Title) /s/ Pamela K. Engle, Regulatory Manager (Date) July 1, 2008

- *This affidavit is required for every tariff-affecting filing. It may be signed by counsel or an officer of the applicant, or an authorized agent of the applicant.*

VERIFICATION

I, Pamela Engle
verify that I have utilized the Telecommunications Application Form for Detariffing and Related Actions provided by the Commission and that all of the information submitted here, and all additional information submitted in connection with this case, is true and correct to the best of my knowledge.

*(Signature and Title) /s/ Pamela K. Engle, Regulatory Manager (Date) July 1, 2008

**Verification is required for every filing. It may be signed by counsel or an officer of the applicant, or an authorized agent of the applicant.*

T	To signify a change in text but no change in rate or regulation.

APPLICATION OF TARIFF

This tariff sets forth the service offerings, rates, terms and conditions applicable to the furnishing of local intrastate end-user communications services by Telecom Ventures, LLC, to customers within the State of Ohio. Service will be provided only in those areas in which a valid interconnect agreement is in effect.

For Competitive Services, formally offered, pursuant to guidelines 89-563-TP-TELECOM VENTURES, LLC, Telecom Ventures, LLC has been granted authority to operate in all counties.

For Resale Local Services, TELECOM VENTURES, LLC is authorized to serve all counties in which Ameritech Ohio operates, including the exchange areas as indicated in Section 4.1. Services will be provided only in those areas in which a valid interconnect agreement is in effect, or where purchasing out of approved resale tariffs. A resale agreement is in effect, pursuant to Case No. 97-1342-TP-NAG.

For Resale Local Services, TELECOM VENTURES, LLC is authorized to serve all counties in which Verizon Ohio operates, including the exchange areas as indicated in Section 4.3. Services will be provided only in those areas in which a valid interconnect agreement is in effect, or where purchasing out of approved resale tariffs. A resale agreement is in effect, pursuant to Case No. 97-1556-TP-NAG.

For Resale Local Services, TELECOM VENTURES, LLC is authorized to serve all counties in which Sprint Ohio operates, including the exchange areas as indicated in Section 4.5. Services will be provided only in those areas in which a valid interconnect agreement is in effect, or where purchasing out of approved resale tariffs. A resale agreement is in effect, pursuant to Case No. 97-1456-TP-NAG.

Unbundled Local Services will be provided in the following exchange areas in the 614 area code, as valid interconnect agreements go into effect:

221	222	223	224	225	227	228	229	231	234	235	236	237

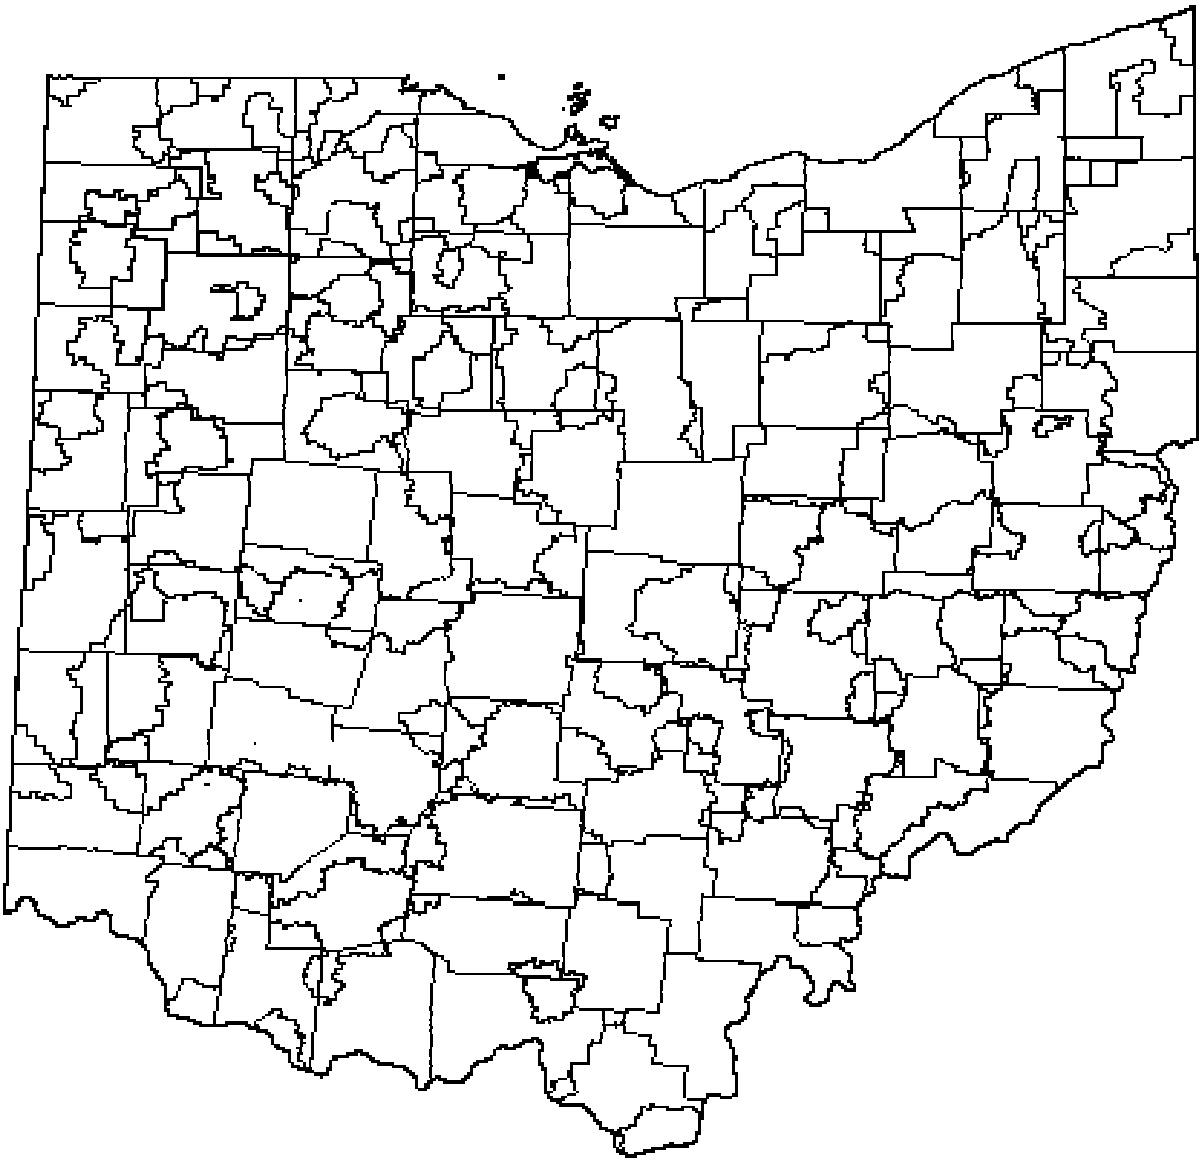
SERVICE AREA OF TELECOM VENTURES, LLC (SBC, VERIZON, AND SPRINT)



1.0 DEFINITIONS

For the purpose of this tariff, the following definitions will apply:

Access Services: The Company's intrastate telephone services offered pursuant to this tariff.

Access Service Request ("ASR"): The written request for access services executed by the Customer and the Company in the format devised by the Company. The signing of an ASR by the Customer and acceptance by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, by the duration of the service is calculated from the Service Commencement Date. Should a Customer use the Company's access service without an executed ASR, the Company will then request the Customer to submit one.

Account Codes: Permits Centrex Stations and attendants to dial an account code number of up to eight digits. For use when placing calls over facilities arranged for Automatic Message Accounting (AMA) recording. The account or project number must be input prior to dialing the called number.

Advance Payment: Part or all of a payment required before the start of service.

Alternative Operator Services: Alternative Operator Services are those services provided by the carrier in which the customer to provide the alternative operator services; however, the carrier does not directly contract with the end user to provide the services even though it is the end user who actually pays for the processing of the operator assisted calls.

Automatic Number Identification ("ANI"): Allows the automatic transmission of a caller's billing account telephone number to a local exchange company, interexchange carrier or a third party subscriber. The primary purpose of ANI is to allow for billing of toll calls.

Bit: The smallest unit of information in the binary system of notation.

Collocation: An arrangement whereby the Company's switching equipment is located in a local exchange Company's central office.

Communications Services: The Company's intrastate toll and local exchange switched telephone service offered for both intraLATA and interLATA use.

Customer or Subscriber: The person, firm or corporation which orders service and is responsible for the payment of charges and compliance with the Company's regulations.

1.0 DEFINITIONS (cont'd)

Dedicated Inbound Calls: Refers to calls that are terminated via dedicated access facilities connecting the Customer's premises and the Company's Point of Presence ("POP"). This service is offered to the extent facilities are available and where the Company and the Customer jointly arrange for the establishment of dedicated access facilities connecting the Customer's trunk-compatible PBX or other suitable equipment to the Company's POP. The Customer shall be responsible for all costs and charges associated with the dedicated access facilities.

Dedicated Outbound Calls: Refers to service that is offered to the extent facilities are available in those cases where the Company and the Customer jointly arrange for the establishment of dedicated access facilities connecting the Customer's trunk-compatible PBX or other suitable equipment to the Company's POP. The customer shall be responsible for all costs and charges associated with the dedicated access facilities.

Deposit: Refers to a cash or equivalent of cash security held as a guarantee for payment of the charges.

DID Trunk: A form of local switched access that provides the ability for an outside party to call an internal extension directly without the intervention of the Company operator.

Dial Pulse or ("DP"): The pulse type employed by rotary dial station sets.

Direct Inward Dial or ("DID"): A service attribute that routes incoming calls directly to stations, by-passing a central answering point.

Direct Outward Dial or ("DOD"): A service attribute that allows individual station users to access and dial outside numbers directly.

Dual Tone Multi-Frequency or ("DTMF"): The pulse type employed by tone dial station sets.

Duplex Service: Service which provides for simultaneous transmission in both directions.

End Office: With respect to each NPA-NXX code prefix assigned to the Company, the location of the Company's "end office" for purposes of this tariff shall be the point on interconnection associated with that NPA-NXX code in the Local Exchange Routing Guide ("LERG"), issued by Bellcore.

Exchange Telephone Company or Telephone Company: Denotes any individual, partnership, association, joint-stock company, trust, or corporation authorized by the appropriate regulatory bodies to engage in providing public switched communication service throughout an exchange area, and between exchange areas within the LATA.

1.0 DEFINITIONS (cont'd)

Fiber Optic Cable: A thin filament of glass with a protective outer coating through which a light beam carrying communications signals may be transmitted by means of multiple internal reflections to a receiver, which translates the message.

Hearing Impaired: Those persons with communication impairments, including those hearing impaired, deaf, deaf/blind, and speech impaired persons who have an impairment that prevents them from communicating over the telephone without the aid of a telecommunications device for the deaf.

Hunting: Routes a call to an idle station line in a prearranged group when the called station line is busy.

In-Only: A service attribute that restricts outward dial access and routes incoming calls to a designated answer point.

IXC or Interexchange Carrier: A long distance telecommunications services provider.

Kbps: Kilobits per second, denotes thousands of bits per second.

LATA: A Local Access and Transport Area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No: 82-0192; or any other geographic area designated as a LATA in the National Exchange Carrier Association, Inc. Tariff F.C.C. No. 4.

Local Interconnection Trunking Service: A local circuit administration point, other than a cross-connect or an information outlet, that provides capability for routing and re-routing circuits.

Mbps: Megabits, denotes millions of bits per second.

Minimum Point of Presence ("MPOP"): The main telephone closet in the Customer's building.

Monthly Recurring Charges: The monthly charges of the Customer for services, facilities and equipment, which continue for the agreed upon duration of the service.

Multi-Frequency or ("MF"): An inter-machine pulse-type used for signaling between telephone switches, or between telephone switches and PBX/key systems.

Non-Proprietary Calling Card: Refers to a calling card or travel card which can be billed by any carrier and used on any network, such as an Ameritech card issued in conjunction with local services; as opposed to a card issued by an IXC which can only be used on that carrier's network and billed by that carrier.

Non-Recurring Charge ("NRC"): the initial charge, usually assessed on a one-time basis, to initiate and establish service.

1.0 DEFINITIONS (cont'd)

("NPA"): Numbering plan area of area code.

Off-Net: A means for carrying traffic to or from the Customer's premises, where the Company leases Other Telephone Company's facilities to deliver traffic to Customer location. Off-Net traffic consists of all traffic that is not considered to be On-Net traffic.

On-Net: A means for carrying traffic to or from the Customer's premises, where the Company connects to the MPOP in a Customer building or on a Customer's premises using only Company-owned fiber. On-Net traffic is delivered to Customer exclusively over facilities of the Company.

Other Telephone Company: An Exchange Telephone Company, other than the Company.

PBX: Private Branch Exchange.

Point of Presence ("POP"): Point of Presence.

Recurring Charges: The monthly charges to the Customer for services, facilities and equipment which continue for the agreed upon duration of the service.

Service Commencement Date: The first day following the date on which the Company notified the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service which does not conform to standards set forth in the Service Order or this tariff, in which case the Service Commencement Date is the date of the Customer's acceptance. The Company and Customer may mutually agree on a substitute Service Commencement Date.

Service Order: The written request for Network Services executed by the Customer and the Company in the format devised by the Company. The signing of a Service Order by the Customer and acceptance by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date.

Shared: A facility or equipment system or subsystem that can be used simultaneously by several Customers.

Shared Inbound Calls: Refers to calls that are terminated via the Customer's Company-provided local exchange line.

1.0 DEFINITIONS (cont'd)

Shared Outbound Calls: Refers to calls in Feature Group (FGD) exchanges whereby the Customer's local telephone lines are presubscribed by the Company to the Company's outbound service such that "1 + 10-digit number" calls are automatically routed to the Company's or an IXC's network. Calls to stations within the Customer's LATA may be placed by dialing "10XXX" or 101XXXX" with :1 + 10-digit number".

Tandem: A class 4 switch facility to which NPA and NXX codes are subtended.

Three-Way Calling: Allows a station line user to add a third party to an existing conversation.

Traditional Operator Services: Traditional Operator Service are those services provided by the carrier in which the end user has a customer relationship with the carrier, contracts with the customer/end user to provide the services, and the customer/end user pays for the actual processing of the operator assisted calls.

Two Way: A service attribute that includes outward dial capabilities for outbound calls and can also be used to carry inbound calls to a central point for further processing.

Usage Based Charges: Charges for minutes or messages traversing over local exchange facilities.

User or End User: A Customer, Joint User, or any other person authorized by a Customer to use service provided under this tariff.

2.0 REGULATIONS

2.1 Undertaking of the Company

2.1.1 Scope

The Company undertakes to furnish communication service pursuant to the terms of this tariff in connection with one-way and/or two-way information transmission originating from points within the State of Ohio, and terminating within a local calling area as defined herein.

2.1.2 Shortage of Equipment or Facilities

A) The company reserves the right to limit or to allocate the use of existing facilities, or of additional facilities offered by the Company, when necessary because of lack of facilities, or due to some other cause beyond the Company's control.

B) The furnishing of service under this tariff is subject to the availability on a continuing basis of all the necessary facilities and is limited to the capacity of the Company's facilities as well as facilities the Company may obtain from other carriers to furnish service form time to time as required at the sole discretion of the Company.

2.0 REGULATIONS (cont'd)

2.1 Undertaking of the Company (cont'd)

2.1.3 Terms and Conditions

A) Service is provided on the basis of a minimum period of at least six months, 24-hours per day. For the purpose of computing charges in this tariff, a month is considered to have thirty (30) days.

B) Customers may be required to enter into written service orders which shall contain or reference s specific description of the service ordered, the rates to be charged, the duration of the services, and the terms and conditions in this tariff. Customers will also be required to execute any other documents as may be reasonable requested by the Company.

C) Except as otherwise stated in the tariff, at the expiration of the initial term specified in each Service Order, or in any extension thereof, service shall continue on a month to month basis at the then current rates unless terminated by either party upon thirty (30) days written notice. Any termination shall not relieve the Customer of its obligation to pay any charges incurred under the service order and this tariff prior to termination. The rights and obligations which by their nature extend beyond the termination of the terms of the service order shall survive such termination.

D) Service may be terminated upon written notice to the Customer if:

1) the Customer is using the service in violation of this tariff; or

2) the Customer is using the service in violation of the law.

E) This tariff shall be interpreted and governed by the laws of the State of Ohio without regard for its choice of laws provision.

2.0 REGULATIONS (cont'd)

2.1 Undertaking of the Company (cont'd)

2.1.3 Terms and Conditions (cont'd)

F) Any Other Telephone Company may not interfere with the right of any person or entity to obtain service directly from the Company. No person or entity shall be required to make any payment, incur any penalty, monetary or otherwise, or purchase any services in order to have the right to obtain service directly from the Company.

G) To the extent that either the Company or any Other Telephone Company exercises control over available cable pairs, conduit, duct space, raceways, or other facilities needed by the other to reach a person or entity, the party exercising such control shall make them available to the other on terms equivalent to those under which the Company makes similar facilities under its control available to its' Customers. At the reasonable request of either party, the Company and the Other Telephone Company shall jointly attempt to obtain from the owner of the property access for the other party to service a person or entity.

H) The Company hereby reserves its rights to establish service packages specific to a particular Customer. These contracts may or may not be associated with volume and/or term discounts and will be filed with the Public Utilities Commission of Ohio for approval.

2.0 REGULATIONS (cont'd)

2.1 Undertaking of the Company (cont'd)

2.1.4 Limitations on Liability

A) Except as otherwise stated in this section, the liability of the Company for damages arising out of either: (1) the furnishing of its services including, but not limited to mistakes, omissions, interruptions, delays, or errors, or other defects, representatives, or use of these services or (2) the failure to furnish its service, whether caused by acts or omission, shall be limited to the extension of allowances to the Customer for interruptions in service as set forth in Section 2.7.

B) Except for the extension of allowances to the Customer for interruptions in service as set forth in Section 2.7, the Company shall not be liable to a Customer or third party for any direct, indirect, special, incidental, reliance, consequential, exemplary or punitive damages including, but not limited to, loss of revenue or profits, for an reason whatsoever including, but not limited to, any act or omission, failure to perform, delay, interruption, failure to provided any service or any failure in or breakdown of facilities associated with the service.

C) The liability of the Company for errors in billing that result in overpayment by the Customer shall be limited to a credit equal to the dollar amount erroneously billed or, in the event that payment has been made and service has been discontinued, to a refund of the amount erroneously billed.

2.0 REGULATIONS (cont'd)

2.1 Undertaking of the Company (cont'd)

2.1.4 Limitations on Liability (cont'd)

D) The Company shall be indemnified and saved harmless by the Customer from and against all loss, liability, damage and expense, including reasonable counsel fees, due to:

1) Any act or omission of: (a) the Customer, (b) any other entity furnishing service, equipment or facilities for use in conjunction with services or facilities provided by the Company; or (c) common carriers or warehousemen, except as contracted by the Company;

2) Any delay or failure of performance or equipment due to causes beyond the Company's control including, but not limited to, acts of God, fires, floods, earthquakes, hurricanes, or other catastrophes; national emergencies, insurrections, riots, wars or other civil commissions; strikes, lockouts, work stoppages or other labor difficulties; criminal actions taken against the Company; unavailability, failure or malfunction of equipment or facilities provided by the Customer or third parties; and any law, order, regulation or other action of any governing authority or agency thereof ;

3) Any unlawful or unauthorized use of the Company's facilities and services;

4) Libel, slander, invasion of privacy or infringement of patents, trade secrets, or copyrights arising from or in connection with the material transmitted by means of Company-provided facilities or services; or by means of the combination of Company-provided facilities or services;

5) Breach in the privacy or security of communications transmitted over the Company's facilities.

6) Changes in any of the facilities, operations or procedures of the Company that render any equipment, facilities or services provided by the Customer obsolete, or require modification or alteration of such equipment, facilities or services, or otherwise affect their use or performance, except where reasonable notice is required by the Company and is not provided to the Customer, in which event the Company's liability is limited as set forth in paragraph (A) of this Subsection 2.1.4.

7) Defacement of or damage to Customer premises resulting from the furnishing of services or equipment on such premises or the installation or removal thereof;

2.0 REGULATIONS (cont'd)

2.1 Undertaking of the Company (cont'd)

2.1.4 Limitations on Liability (cont'd)

D) (cont'd)

8) Injury to property or injury or death to persons, including claims for payments made under Workers' Compensation law or under any plan for employee disability or death benefits, arising out of, or caused by, any act or omission of the Customer, or the construction, installation, maintenance, presence, use or removal of the Customer's facilities or equipment connected, or to be connected to the Company's facilities;

9) Any non-completion of calls due to network busy conditions;

10) Any calls not actually attempted to be completed during any period that service is unavailable;

11) And any other claim resulting from any act or omission of the Customer or patron(s) of the Customer relating to the use of the Company's services or facilities.

E) The Company does not guarantee nor make any warranty with respect to installations provided by it for use in an explosive atmosphere.

F) The Company makes no warranties or representations, EXPRESS OR IMPLIED, either in fact or by operation of law, statutory or otherwise, including warranties of merchantability or fitness for a particular use, except those expressly set forth herein.

G) Failure by the Company to assert its rights pursuant to one provision of this tariff does not preclude the Company from asserting its rights under other provisions.

H) Approval of the above tariff language by the PUCO does not constitute a determination by the Commission that the limitation of liability imposed by the Carrier should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

2.0 REGULATIONS (cont'd)

2.1 Undertaking of the Company (cont'd)

2.1.5 Notification of Service Affecting Activities

The Company will provide the Customer reasonable notification of service-affecting activities that may occur in normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements and routine preventative maintenance. Generally, such activities are not specific to an individual Customer but affect many Customers' services. No specific advance notification period is applicable to all service activities. The Company will work cooperatively with the Customer to determine the reasonable notification requirements. With some emergency or unplanned service-affecting conditions, such as an outage resulting from cable damage, notification to the Customer may not be possible.

2.1.6 Provision of Equipment and Facilities

A) The Company shall use reasonable efforts to maintain only the facilities and equipment that it furnishes to the Customer. The Customer may not nor may the Customer permit others to rearrange, disconnect, remove, attempt to repair, or otherwise interfere with any of the facilities or equipment installed by the Company, except upon the written consent of the Company.

B) The Company may substitute, change or rearrange any equipment or facility at any time and from time to time, but shall not thereby alter the technical parameters of the service provided the Customer.

C) Equipment the Company provides or installs at the Customer Premises for use in connection with the services the Company offers shall not be used for any purpose other than that for which the equipment is provided.

2.0 REGULATIONS (cont'd)

2.1 Undertaking of the Company (cont'd)

2.1.6 Provision of Equipment and Facilities (cont'd)

D) Except as otherwise indicated, Customer provided station equipment at the Customer's Premises for use in connection with this service shall be so constructed, maintained and operated as to work satisfactorily with the facilities of the Company.

E) The Company shall not be responsible for the installation, operation, or maintenance of any Customer provided communications equipment. Where such equipment is connected to the facilities furnished pursuant to this tariff, the responsibility of the Company shall be limited to the furnishing of facilities offered under this tariff and to the maintenance and operation of such facilities. Subject to this responsibility, the Company shall not be responsible for:

1) the through transmission of signals by Customer provided equipment or for the quality of, or defects in, such transmission; or

2) the reception of signals by Customer-provided equipment; or

3) network control signaling where such signaling is performed by Customer-provided network control signaling equipment.

2.0 REGULATIONS (cont'd)

2.1 Undertaking of the Company (cont'd)

2.1.7 Non-routine Installation

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

2.1.8 Special Construction

Subject to the agreement of the Company and to all of the regulations contained in this tariff, special construction of facilities may be undertaken on a reasonable efforts basis at the request of the Customer. Special construction is construction undertaken:

A) where facilities are not presently available, and there is no other requirement for the facilities so constructed;

B) of a type other than that which the Company would normally utilize in the furnishing of its services;

C) over a route other than that which the Company would normally utilize in the furnishing of its services;

D) in a quantity greater tan that which the Company would normally construct;

E) on an expedited basis;

F) on a temporary basis until permanent facilities are available;

G) involving abnormal costs; or

H) in advance of its normal construction.

Lack of cable pairs is not considered special construction.

2.0 REGULATIONS (cont'd)

2.1 Undertaking of the Company (cont'd)

2.1.9 Ownership of Facilities

Title to all facilities provided in accordance with this tariff remains in the Company, its partners, agents, contractors or suppliers.

2.1.10 Universal Emergency Telephone Number Service

A) This tariff does not provide for the inspection or constant monitoring of facilities to discover errors, defects or malfunctions in the service, nor does the Company undertake such responsibility.

B) 911 information consisting of the names, addresses and telephone numbers of all telephone customers is confidential. The Company will release such information via the Data Management System only after a 911 call has been received, on a call by call basis, only for the purpose of responding to an emergency call in progress.

C) The 911 calling party, by dialing 911, waives the privacy afforded by non-listed and non-published service to the extent that the telephone number, name, and address associated with the originating station location are furnished to the Public Safety Answering Point.

D) After the establishment of service, it is the Public Safety Agency's responsibility to continue to verify the accuracy of and to advise the Company of any changes as they occur in street names, establishment of new streets, changes in address numbers used on existing streets, closing and abandonment of streets, changes in police, fire, ambulance or municipal and county boundaries, incorporation of new cities or any other similar matter that may affect the routing of 911 calls to the proper Public Safety Answering Point.

2.0 REGULATIONS (cont'd)

2.1 Undertaking of the Company (cont'd)

2.1.10 Universal Emergency Telephone Number Service (cont'd)

E) The Company assumes no liability for any infringement or invasion of any right of privacy or any person or persons, caused, or claimed to be caused, directly or indirectly by the use of 911 Service. The Public Safety Agency agrees, except where the events, incidents, or eventualities set forth in this sentence are the result of the Company's gross negligence or willful misconduct, to release, indemnify, defend and hold harmless the Company from any and all loss or claims whatsoever, whether suffered, made, instituted, or asserted by the Public Safety Agency or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage, or destruction of any property, whether owned by the customer or others. The Public Safety Agency also agrees to release, indemnify, defend and hold harmless the Company for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion, or use of 911 Service features and the equipment associated therewith, or by any services furnished by the Company in connection therewith, including, but not limited to, the identification of the telephone number, address, or name associated with the telephone used by the party or parties accessing 911 Service hereunder, and which arise out of the negligence or other wrongful act of the Public Safety Agency, its user, agencies or municipalities, or the employees or agents of any one of them, or which arise out of the negligence, other than gross negligence or willful misconduct, of the Company, its employees or agents.

2.2 Prohibited Uses

A) The services the Company offers shall not be used for any unlawful purpose or for any use as to which the Customer has not obtained all required governmental approvals, authorizations, licenses, consents and permits.

B) The Company may require applicants for service who intend to use the Company's offerings for resale and/or for shared use to file a letter with the Company confirming that their use of the Company's offerings complies with relevant laws and the Public Utilities Commission of Ohio's regulations, policies, orders, and decisions.

C) The Company may block any signals being transmitted over its Network by Customers which cause interference to the Company or other users. Customer shall be relieved of all obligations to make payments for charges relating to any blocked Service and shall indemnify the Company for any claim, judgement or liability resulting from such blockage.

2.0 REGULATIONS (cont'd)

2.2 Prohibited Uses (cont'd)

D) A Customer, joint user, or authorized user may not assign, or transfer in any manner, the service or any rights associated with the service without the written consent of the Company. The Company will permit a Customer to transfer its existing service to another entity of the existing Customer has paid all charges owed to the Company for regulated communications services. Such a transfer will be treated as a disconnection of existing service and installation of new service, and non-recurring installation charges as stated in this tariff will apply.

2.3 Obligations of the Customer

2.3.1 General

The Customer shall be responsible for:

A) the payment of all applicable charges pursuant to this tariff;

B) damage to or loss of the Company's facilities or equipment caused by the acts or omissions of the Customer, or the noncompliance by the Customer, with these regulations; or by fire or theft or other casualty on the Customer Premises, unless caused by the negligence or willful misconduct of the employees or agents of the Company;

C) providing at no charge, as specified from time to time by the Company, any needed equipment, space and power to operate Company facilities and equipment installed on premises of the Customer, and the level of heating and air conditioning necessary to maintain the proper operating environment on such premises;

D) obtaining, maintaining, and otherwise having full responsibility for all rights-of-way and conduit necessary for installation of fiber optic cable and associated equipment used to provide Communications Services to the Customer from the cable building entrance or property line to the location of the equipment space described in Section 2.3.1(C). Any and all costs associated with the obtaining and maintaining the rights-of-way described herein, including the costs of altering the structure to permit installation of the Company provided facilities, shall be borne entirely by, or may be charged by the Company to the Customer. The Company may require the Customer to demonstrate its compliance with this section prior to accepting an order for service.

2.0 REGULATIONS (cont'd)

2.3 Obligations of the Customer

2.3.1 General (cont'd)

E) providing a safe place to work and complying with all laws and regulations regarding the working conditions on the premises at which Company employees and agents shall be installing or maintaining the Company's facilities and equipment. The Customer may be required to install and maintain Company facilities and equipment within a hazardous area if, in the Company's opinion, injury or damage to the Company employees or property might result from installation or maintenance by the Company. The Customer shall be responsible for identifying, monitoring, removing and disposing of any hazardous material (e.g. friable asbestos) prior to any construction or installation work;

F) complying with all laws and regulations applicable to, and obtaining all consents, approvals, licenses and permits as may be required with respect to, the location of Company facilities and equipment in any Customer premises or the rights-of-way for which Customer is responsible under Section 2.3.1(D); and granting or obtaining permission for Company agents or employees to enter the premises of the Customer at any time for the purpose of installing, inspecting, maintaining, repairing, or upon termination of service as stated herein, removing the facilities or equipment of the Company;

G) not creating or allowing to be placed any liens or other encumbrances on the Company's equipment or facilities; and

H) making Company facilities and equipment available periodically for maintenance purposes at a time agreeable to both the Company and the Customer. No allowance will be made for the period during which service is interrupted for such purposes.

2.0 REGULATIONS (cont'd)

2.3 Obligations of the Customer

2.3.2 Liability of the Customer

A) The Customer will be liable for damages to the facilities of the Company and for all incidental and consequential damages caused by the negligent or intentional acts or omissions if the Customer, its officers, employees, agents, invites, or contractors where such acts or omissions are not the direct result of the Company's negligence or intentional misconduct.

B) To the extent caused by any negligent or intentional act of the Customer as described in (A), preceding, the Customer shall indemnify, defend and hold harmless the Company from and against all claims, actions, damages, liabilities, costs and expenses, including reasonable attorney's fees, for (1) any loss, destruction or damage to property of any third party, and (2) any liability incurred by the Company to any third party pursuant to this or any other tariff of the Company, or otherwise, for any interruption of, interference to, or other defect in any service provided by the Company to such third party.

C) The Customer shall not assert any claim against any other Customer or user of the Company's services for damages resulting in whole or in part from or arising in connection with the furnishing of service under this tariff including, but not limited to, mistakes, omissions, interruptions, delays, errors or other defects or misrepresentations, whether or not such other Customer or user contributed in any way to the occurrence of the damages, unless such damages were caused solely by the negligent or intentional act or omission of the other Customer or user and not by any act or omission of the Company. Nothing in this tariff is intended either to limit or to expand Customer's right to assert any claims against third parties for damages of any nature other than those described in the preceding sentence.

2.0 REGULATIONS (cont'd)

2.4 Customer Equipment and Channels

2.4.1 General

A user may transmit or receive information or signals via the facilities of the Company. The Company's services are designed primarily for the transmission of voice-grade telephonic signals, except as otherwise stated in this tariff. A user may transmit any form of signal that is compatible with the Company's equipment, but the Company does not guarantee that its services will be suitable for purposes other than voice-grade telephonic communication except as specifically stated in this tariff.

2.4.2 Station Equipment

A) Terminal equipment on the user's premises and the electric power consumed by such equipment shall be provided by and maintained at the expense of the user. The user is responsible for the provision of wiring or cable to connect its terminal equipment to the Company MPOP.

B) The Customer is responsible for ensuring that Customer-provided equipment connected to Company equipment and facilities is compatible with such equipment and facilities. The magnitude and character of the voltages and currents impressed on Company-provided equipment and wiring by the connection, operation, or maintenance of such equipment and wiring shall be such as not to cause damage to the Company-provided equipment and wiring or injury to the Company's employees or to other persons. Any additional protective equipment required to prevent such damage or injury shall be provided by the Company at the Customer's expense, subject to prior Customer approval of the equipment expense.

2.0 REGULATIONS (cont'd)

2.4 Customer Equipment and Channels (cont'd)

2.4.3 Interconnection of Facilities

A) Any special interface equipment necessary to achieve compatibility between the facilities and equipment of the Company used for furnishing Communication Services and the channels, facilities, or equipment of others shall be provided at the Customer's expense.

B) Communication Services may be connected to the services or facilities of other communications carriers only when authorized by, and in accordance with, the terms and conditions of the tariffs of the other communications carriers which are applicable to such connections.

C) Facilities furnished under this tariff may be connected to customer provided terminal equipment in accordance with the provisions of this tariff. All such terminal equipment shall be registered by the Federal Communications Commission pursuant to Part 68 of Title 47, Code of Federal Regulations; and all User-provided wiring shall be installed and maintained in compliance with those regulations.

D) Users may interconnect communications facilities that are used in whole or in part for interstate communications to services provided under this tariff only to the extent that the user is an "end user" as defined in Section 69.2(m), Title 47, Code of Federal Regulations (1992 edition).

\

2.0 REGULATIONS (cont'd)

2.4 Customer Equipment and Channels (cont'd)

2.4.4 Inspections

A) Upon suitable notification to the Customer, and at a reasonable time, the Company may make such tests and inspections as may be necessary to determine that the Customer is complying with the requirements set forth in Section 2.4.2(B) for the installation, operation, and maintenance of Customer-provided facilities, equipment, and wiring in the connection of Customer-provided facilities and equipment to Company-owned facilities and equipment.

B) If the protective requirements for Customer-provided equipment are not being complied with, the Company may take such action as it deems necessary to protect its facilities, equipment, and personnel. The Company will notify the Customer promptly if there is any need for further corrective action. Within ten days of receiving this notice, the Customer must take this corrective action and notify the Company of the action taken. If the Customer fails to do this, the Company may take whatever additional action is deemed necessary, including the suspension of service, to protect its facilities, equipment and personnel from harm.

If harm to the Company's network, personnel or services is imminent, the Company reserves the right to shut down Customer's service immediately, with no prior notice required.

2.0 REGULATIONS (cont'd)

2.5 Customer Deposits and Advance Payments

2.5.1 Advance Payments

To safeguard its interests, the Company may require a Customer to make an advance payment before services and facilities are furnished, where special construction is involved. The advance payment will not exceed an amount equal to the nonrecurring charges(s) and or (1) month's charges for the service or facilities. In addition, the advance payment may also include an amount equal to the estimated non-recurring charges for the special construction and recurring charges (if any) for a period to be set between the Company and the Customer. The advance payment will be credited to the Customer's initial bill. Advance payments do not accrue interest. An advance payment may be required in addition to a deposit.

2.5.2 Deposits

To safeguard its interest, the Company may require the Customer to make a deposit to be held as a guarantee for the payment of charges in accordance with Rule 4902:1-17 of the Ohio Administrative Code. A deposit may be required if the customer's financial condition is not acceptable to the Company or is not a matter of general knowledge. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount equal to two (2) month's charges for tariffed services plus 30% of the monthly estimated charge for a specified customer.

In compliance with MTSS 4901:1-5-14,residential customers have the option of providing a third-party guarantor in lieu of a deposit.

2.0 REGULATIONS (cont'd)

2.5 Customer Deposits and Advance Payments (cont'd)

2.5.2 Deposits (cont'd)

B) A deposit may be required in addition to an advance payment.

C) Upon discontinuance of service, the Company, within forty-five (45) days, shall automatically refundthe Customer's deposit plus accrued interest, or the balance, if any, in excell of the unpaid bills including any penalties assessed for service furnished by the Company.

D) Deposits held for 180 days or longer will accrue interest in accordance with Rule 4901:17-05 of the Ohio Administrative Code. Deposits held for less than 180 days will not accrue interest.

2.6 Payment Arrangements

2.6.1 The Customer is responsible for the payment of all charges for facilities and services furnished by the Company to the Customer.

A) Taxes

The Customer is responsible for the payment of federal excise taxes, state and local sales and use taxes and similar taxes imposed by governmental jurisdictions, all of which shall be separately designated on the Company's invoices. The Company will not separately charge for the Ohio gross receipts tax on the Company's invoice for local services. Any taxes imposed by a local jurisdiction (e.g., county and municipal) will only be recovered from those Customer's residing in the affected jurisdictions.

2.0 REGULATIONS (cont'd)

2.6 Payment Arrangements (cont'd)

2.6.1 Payment for Service (cont'd)

A) Taxes (cont'd)

Certain telecommunications services, as defined in the Ohio Revised Code, are subject to state sales tax at the prevailing tax rates, if the services originate, or terminate in Ohio, or both, and are charged to a subscriber's telephone number or account in Ohio.

2.6.2 Billing and Collection of Charges

The Customer is responsible for payment of all charges incurred by the Customer or other users for services and facilities furnished to the Customer by the Company.

A) Non-recurring charges are due and payable within thirty (30) days after the date the invoice is mailed to the Customer by the Company.

B) The Company shall present invoices for recurring charges monthly to the Customer, in advance of the month in which service is provided, and recurring charges shall be due and payable within thirty (30) days after the date the invoice is mailed to the Customer by the Company. When billing is based upon Customer usage, usage charges will be billed monthly for the preceding billing period.

C) When service does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have thirty (30) days.

D) Billing of the Customer by the Company will begin on the Service Commencement Date, which is the day on which the Company notifies the Customer that the service or facility is available for use, except that the Service Commencement Date may be postponed by mutual agreement of the parties, or if the service or facility does not conform to standards set forth in this tariff or the Service Order. Billing accrues through and includes the day that the service, circuit, arrangement or component is discontinued.

Telecom Ventures LLC bills and billing practices will comply with MTSS 4901:1-5-15.

2.0 REGULATIONS (cont'd)

2.6 Payment Arranagements (cont'd)

2.6.2 Billing and Collection of Changes (cont'd)

E) If any portion of the payment is received by the Company after the date due, or if any portion of the payment is received by the Company in funds which are not immediately available upon presentment, then a late payment penalty shall be due to the Company. A late payment charge of 1.5% per month, for bills not paid within 30 days of receipt, is not applicable to subsequent rebilling of any amount to which a late payment charge has already been applied. Late payment charges are to be applied without discrimination.

F) The Customer should notify the Company of any disputed items on an invoice. If the Customer and the Company are unable to resolve the dispute to their mutual satisfaction, the Customer may file a complaint with the Public Utilities Commission of Ohio in accordance with the Commission's rules of procedure.

The address of the Company is as follows:

Telecom Ventures LLC
1335 Dublin Rd, Rivers Edge, Suite 200A
Columbus, Ohio 43215
Toll free number: 800-206-1554

The address of the Commission is as follows:

Public Utilities Commission of Ohio
180 East Broad Street, Tenth Floor
Columbus, Ohio 432 15-3793
` Toll free number: 800-686-7826

G) If service is disconnected by the Company (in accordance with Section 2.6.3 following) and later re-installed, re-installation of service will be subject to all applicable installation charges. If service is suspended by the Company (in accordance with Section 2.6.3 following) and later restored, restoration of service will be subject to the rates in Section 2.5.

2.6 Payment Arrangements (cont'd)

2.6.3 Disconnection of Local and Toll Service

A) Disconnection of Service Other Than Toll Service For Non-Payment

1) For purposes of this section, (i.e., Section A), all regulated telephone services provided by Telecom Ventures, LLC, except toll service (if any), shall be defined as local service.

2) Telocom Ventures, LLC will adher to all standards citied in MTSS 401:1-5-17 for disconnectionns of customer services.

3) Partial payments by a customer to Telecom Ventures, LLC will be apportioned by Telecom Ventures, LLC's regulated local service charges first before being applied by Telecom Ventures, LLC to any toll charges and will be apportioned to regulated telephone service charges first before being applied to charges for non-regulated services.

4) As cited in MTSS Rule 4901:1-5-17(A), Local Services can only be disconnected for nonpayment of local charges regulated by the Public Utilities Commission of Ohio.

5) As cited in MTSS Rule 4901:1-5-17(B), Toll Services may be disconnected for nonpayment of toll service

a) When Telecom Ventures, LLC disconnects toll service for nonpayment of toll debt, the method of toll disconnection with Telecom Ventures, LLC utilizes:

i) must not funtion as a vehicle by which the (non-paying) toll subscriber is denied access, through presubscription, to any other toll service provider besides the one whose provision of toll service has precipitated the toll disconnection;

ii) must be available from Telecom Ventures, LLC, by tariff, on a nondiscriminatory basis to all toll service providers; and

iii) may consist of either a dePICing mechanism or else a selective toll blocking service.

6) The Company cannot disconnect the local or toll service of a Customer who pays the Company the total amount due (or an amount agreed upon between the Company and the Customer) on his/her account by the close of business on the disconnection date listed on the disconnection notice, as cited in MTSS 4901:1-5-17(F).

2.0 REGULATIONS (cont'd)

2.6 Payment Arrangements (cont'd)

2.6.3 Disconnection of Local and Toll Service (cont'd)

B) Disconnection of Service for Cause Other Than Non-Payment

1) Pursuant to MTSS 4901:1-5-17(D) (E), a Customer's service may be refused or disconnected after notification, or attempting to notify through any reasonable means when any of the following conditions exist:.

a) a violation of or noncompliance with the Company's rules or tariffs on file with the Commission;

b) a failure to comply with municipal ordinances or other laws pertaining to telecommunications services; or

c) a refulsal by the Customer to permit the Company access to its facilities;

d) a Customer has commited a fraudulent practice as set forth and defined in the Company's tariffs on file with the Commission.

2) Pursuant to MTSS 4901:1-5-17(G), no notice is required prior to disconnection when:

a) An emergency may threaten the health or safety of a person, or the Company's distribution system.

i) If disconnection occurs, the Company shall act promptly to restore service as soon as possible.

b) A Customer's use of telecommunications equipment adversely affects the Company's equipment, its service to others, or the safety of the Company's employees or Customers; or

c) A Customer tampers with facilities or equipment owned by the Company.

2.0 REGULATIONS (con'td)

2.6 Payment Arrangements (cont'd)

2.6.4 Payment Schedule and Disconnection procedures for Non-Payment

A) As cited in MTSS 401:1-5-17(K), a Customer's bill shall not be due earlier than fourteen (14) days from the date of the postmark on the bill.

B) If the bill is not paid by the due date, it then becomes past due.

C) The Company will not disconnect the service:

1) sooner than fourteen (14) days after the due date of the bill; and

2) without sending a written notice of disconnection, postmarked at least seven (7) days prior to the date of disconnection of service.

D) The Company may disconnect service during its normal business hours; however, no disconnection for past due bill may be made after 12:30 pm on the day preceding a day that all services necessary for reconnection are not available.

2.0 REGULATIONS (cont'd)

2.6 Payment Arrangements (cont'd)

2.6.5 Reconnection of Local and Toll Service

A) Unless prevented by circumstances beyond the Company's control or unless a Customer requests othrwise, the Company shall reconnect previously disconnected service by 5:00 pm on the next business day following either:

1) Receipt by the Company of the full amount in arrears for which service was disconnected, or upon verification by the Company that conditions which warranted disconnection of service have been eliminated; or

2) Agreement by the Company and the Customer on a deferred payment plan and a payment, if required, under the plan.

B) Before restoring service, the Company may not insist upon payment of any amount that has not been included on a notice of disconnection.

(THIS PAGE RESERVED FOR FUTURE USE)

2.0 REGULATIONS (cont'd)

2.6 Payment Arrangements (cont'd)

2.6.6 Cancellation of Application for Service

Where the Company permits the Customer to cancel an application for service prior to the start of service or prior to any special construction, no charges will be imposed except for those specified below.

Where the Company has notified a Customer or prospective customer of the possiblity that special expenses may be incurred in connection with provisioning their service, and then the Company does incur such expenses. Expenses could include special construction, or where special arrangements of facilities or equipment have begun before the Company received a cancellation notice. The charge will be equal to the costs actually incurred, less net salvage.

2.6.7 Changes in Service Request

If the Customer makes or request material changes in circuit engineering, equipment specifications, service parameters, premises locations, or otherwise materially modifies any provision of the application for service, the Customer's installation fee shall be adjusted accordingly.

2.6.8 Returned Check Charge

A charge will be assessed for all checks returned by drawee bank or other financial institution for: Insufficient or uncollected funds, closed account, apparent tampering, missing signature or endorsement, or any other insufficiency or discrepancy necessitating return of the instrument at the discretion of the drawee bank or other financial institution.

Minimum charge $ 1.00 Maximum charge $50.00

Current Charge as shown in Sections 7.1.1, 7.1.2, 7.1.3 is **$25.00**

2.0 REGULATIONS (cont'd)

2.7 Allowances for Interruptions in Service

2.7.1 General

A) Pursuant to MTSS 4901:1-5-16, the Company shall make an adjustment to the Customer's bill in accordance with Section 2.7.1 following, whenever a Customer's service is interrupted and remains out of service for morethan twenty-four (24) consecutive hours after being reported to the Company or after being found by the Company to be out of service..

B) The length of the service interruption will be computed on a continuos basis, including Saturdays, Sundays and Holidays.

C) See Section 2.7.3 for limitations to this allowance.

2.0 REGULATIONS (cont'd)

2.7 Allowance for Interruptions in Service (cont'd)

2.7.2 Application of Credits for Interruptions in Service (cont'd)

A) For calculating credit allowances, every month is considered to have thirty (30) days.

C) If an out-of-service condition exceeds 24 (twenty-four) hours but is less than 48 (forty-eight) hours, the Company shall credit the Customer for at least the pro rata portion of the monthly charges for all regulated local services rendered inoperative during the interruption.

C) If an out-of-service condition exceeds 48 (forty-eight) hours but is less than 72 (seventy-two) hours, the Company shall credit the Customer for at least one-third of one month's charges for any regulated local services rendered inoperative.

D) If an out-of-service condition exceeds 72 (seventy-two) hours but is less than 96 (ninety-six) hours, the Company shall credit the Customer for at least two-thirds of one month's charges for any regulated local services rendered inoperative.

E) The Company will provide a Customer who experiences an out-of-service condition fo at least ninety-six (96) hours, a credit equal to at least one month's charges for any regulated local services rendered inoperative.

2.0 REGULATIONS (cont'd)

2.7 Allowance for Interruptions in Service (cont'd)

2.7.3 Limitations on Allowances

A) This allowance does not apply if the out-of-service conditions:

1) occurs as a result of a negligent or willful act on the part of the Customer;

2) occurs as a result of a malfunction of customer-owned telephone equipment or inside wire;

3) occurs as a result of a military action, war, insurrection, riot, or strike; or

4) cannot be repaired due to the Customer missing a repair appointment.

2.0 REGULATIONS (cont'd)

2.7 Allowance for Interruptions in Service (cont'd)

2.7.4 Use of Another Means of Communications

If the Customer elects to use another means of communications during the period of interruption, the Customer must pay the charges for the alternative service used.

2.0 REGULATIONS (cont'd)

2.8 Cancellation of Service/Termination Liability

If a Customer cancels a service order or terminates services before the completion of the term for any reason other than a service interruption (as defined in Section 2.7.1) or where the Company breaches the terms in the service contract, Customer may be requested by the Company to pay to company termination liability charges, which are defined below. These charges shall become due and owing as of the effective date of the cancellation or termination and be payable within the period set forth in Section 2.6.2. There is no Cancellation/Termination Liability for Residential and Month to Month customers.

2.8.1 Termination Liability

Customer's termination liability for cancellation of service shall be equal to:

A) all unpaid non-recurring charges reasonably expended by Company to establish service to Customer, plus;

B) any disconnection, early cancellation or termination charges reasonably incurred and paid to third parties by Company on behalf of Customer, plus;

C) the difference in the rates of the appropriate term minus the rates of the term contracted, for the length of time the Customer kept their contracted service with Telecom Ventures, LLC. For Example: A customer signs a 36 month term and cancels their service 24 months after the start. The Customer would be liable for 24 months at a 24 month term rate, minus the amount that has been paid for the 36 month term.

2.9 Customer Liability for Unauthorized Use of the Network

Unauthorized use of the network occurs when a person or entity that does not have actual, apparent, or implied authority to use the network, obtains the Company's services provided under this tariff.

2.9.1 Customer Liability for Fraud and Unauthorized Use of the Network

A) The Customer is liable for the unauthorized use of the network obtained through the fraudulent use of a Company calling card, if such a card is offered by the Company, or an accepted credit card, provided that the unauthorized use occurs before the Company has been notified.

2.0 REGULATIONS (cont'd)

2.9 Customer Liability for Unauthorized Use of the Network (cont'd)

2.9.1 Customer Liability for Fraud and Unauthorized Use of the Network (cont'd)

B) A Company calling card is a telephone calling card issued by the Company at the Customer's request, which enables the Customer or user(s) authorized by the Customer to place calls over the network and to have the charges for such calls billed to the Customer's account.

An accepted credit card is any credit card that a cardholder has requested or applied for and received, or has signed, used, or authorized another person to use to obtain credit. Any credit card issued as a renewal or substitute in accordance with this paragraph is an accepted credit card when received by the cardholder.

C) The Customer must give the Company written or oral notice that an unauthorized use of a Company calling card or an accepted credit card has occurred or may occur as a result of loss, and/or theft.

D) The Customer is responsible for payment of all charges for calling card services furnished to the Customer or to users authorized by the Customer to user service provided under this tariff, unless due to the negligence of the Company. This responsibility is not changed due to any use, misuse, or abuse of the Customer's service or Customer-provided equipment by third parties, the Customer's employees, or the public.

The liability of the Customer for unauthorized use of the Network by credit card fraud will not exceed the lesser of fifty dollars ($50.00) or the amount of money, property, labor, or services obtained by the unauthorized user before notification to the Company.

2.0 REGULATIONS (cont'd)

2.10 Use of Customer's Service by Others

2.10.1 Resale and Sharing

SECTION 2.10 IS AVAILABLE ONLY TO CARRIERS WHICH ARE CERTIFIED BY THE PUBLIC UTILITIES COMMISSION OF OHIO TO PROVIDE INTRASTATE LOCAL EXCHANGE SERVICES.

There are no prohibitions or limitations on the resale of services. Any service provided under this tariff may be resold to or shared with other persons at the option of Customer, subject to compliance with any applicable laws of the Public Utility Commission of Ohio regulations governing such resale or sharing. The Customer remains solely responsible for all use of services ordered by it or billed to its telephone number(s) pursuant to this tariff, for determining who is authorized to use its services, and for notifying the Company of any unauthorized use.

Rates for Resale and Sharing Service are the same as the tariffed Retail Rates for Telecom Ventures, LLC found in Section 7.0.

2.10.2 Joint Use Arrangements

Joint use arrangements will be permitted for all services provided under this tariff. From each joint use arrangement, one member will be designated as the Customer responsible for the manner in which the joint use of the service will be allocated. The Company will accept orders to start, rearrange, relocate, or discontinue service only from the Customer. Without affecting the Customers ultimate responsibility for payments of all charges for the service, each joint user shall be responsible for the payment of the charges billed to it.

2.0 REGULATIONS (cont'd)

2.11 Transfers and Assignments

Neither the Company nor the Customer may assign or transfer its rights or duties in connection with the service and facilities provided by the Company without the written consent of the other party, except that the Company may assign its rights and duties:

A) to any subsidiary, parent company or affiliate of the Company; or

B) pursuant to any sale or transfer of substantially all the assets of the Company; or

C) pursuant to any financing, merger or reorganization of the Company.

2.0 REGULATIONS (cont'd)

2.12 Notices and Communications

A) The Customer shall designate on the service order an address to which the Company shall mail or deliver all notices and other communications, except that Customer may also designate a separate address to which the Company's bills for service shall be mailed.

B) The Company shall designate on the service order an address to which the Customer shall mail or deliver all notices and other communications, except that Company may designate a separate address on each bill for service to which the Customer shall mail payment on that bill.

C) Except as otherwise stated in this tariff, all notices or other communications required to be given pursuant to this tariff will be in writing. Notices and other communications of either party, and all bills mailed by the Company, shall be presumed to have been delivered to the other party on the third business day following placement of the notice, communication or bill with the U.S. Mail or a private delivery service, prepaid and properly addressed, or when actually received or refused by the addressee, whichever occurs first.

D) The Company or the Customer shall advise the other party of any changes to the addresses designated for notices, other communications or billing, by following the procedures for giving notice set forth herein.

3.0 APPLICATION OF RATES

3.1 Introduction

The regulations set forth in this section govern the application of rates for services contained in other sections of this tariff.

3.2 Usage Based Charges

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

3.2.1 Calls are measured in durational increments identified for each service. All calls which are fractions of a measurement increment are rounded-up to the next whole unit.

3.2.2 Timing on completed calls begins when the calls is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s). Timing for operator service person-to-person calls start with completion of the connection to the person called or an acceptable substitute, or to the PBX station called.

3.2.3 Timing terminates on all calls when the calling party hangs up or the Company's network receives an off-hook signal from the terminating carrier.

3.2.4 Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.

3.2.5 All times refer to local time.

3.0 APPLICATION OF RATES

3.3 Rates Based Upon Distance

Where charges for a service are specified based upon distance, the following rules apply:

3.3.1 Distance between two points is measured as airline distance between the rate centers of the originating and terminating telephone lines. The rate center is a set of geographic coordinates, as reference in Local Exchange Routing Guide issued by Bellcore, associated with each NRA-NXX combination (where NRA is the area code and NXX is the first three digits of a seven-digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated 800 or WATS access line), the Company will apply the rate center of the Customer's mail billing telephone number.

3.3.2 The airline distance between any two rate centers is determined as follows: .

A) Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced Bellcore document.

B) Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.

C) Square each difference obtained in step (B) above.

D) Add the square of the "V" difference and the square of the "H" difference obtained in step (C) above.

E) Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.

F) Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

G) FORMULA =

$$\sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

4.0 SERVICE AREAS

4.1 SBC Exchange Service Areas

Exchange Services are provided (pursuant to Section 5.1) in limited geographic areas. Exchange Services bearing the following NPA-NXX designations are provided at the following locations and in the following areas:

Customer Exchange	Local Calling	Extended Local Calling *
Aberdeen	Aberdeen Ripley Maysville, KY	(None)

4.0 SERVICE AREAS (cont'd)

4.4 Verizon Exchange Classification

4.4.1 For the purpose of determining exchange service monthly base rates, exchanges are classified in rate groups according to the total exchange access lines in a local service area. The local service area is the area within which customers make calls without the payment of message toll charges and may include one or more exchanges.

4.4.2 Rate Group Classification and Limits:

Exchange Rate Group	Total Exchange Access Lines In Local Service Area		
Schedule I	1	to	3,000
Schedule II	3,001	to	6,000
Schedule III	6,001	to	12,000
Schedule IV	12,001	to	24,000
Schedule V	24,001	to	48,000
Schedule VI	48,001	and	over

4.5A Verizon Calling Areas

Geographically-defined Local Calling Areas are associated with each Exchange Service provided pursuant to Section 5.1.

For resale and unbundled local service, the local calling zones will mirror Verizon as detailed in Section 4.5.

A) Metropolitan Areas

1) The exchange areas included in the Cleveland Metropolitan Area are as follows:

Cleveland	North Royalton
Bedford	Olmstead Falls
Berea	Strongsville
Brecksville	Terrace
Chagrin Falls	Trinity
Gates Mills	Victory
Hillcrest	Wickliffe
Independence	Willoughby
Montrose	

2) The exchange areas included in the Columbus Metropolitan Area are as follows:

Columbus	Hilliard
Alton	Lockbourne
Canal Winchester	New Albany
Dublin	Reynoldsburg
Gahanna	Westerville
Grove City	West Jefferson
Groveport	Worthington
Harrisburg	

4.0 SERVICE AREAS (cont'd)

A) Metropolitan Areas (cont'd)

3) The exchange areas included in the Dayton Metropolitan Area are as follows:

Dayton	Fairborn
Beavercreek	Miamisburg-West Carrollton
Bellbrook	Vandalia
Centerville	

4) The exchange areas included in the Toledo Metropolitan Area are as follows:

Toledo	Holland
Maumee	Perrysburg
Whitehouse	

5) The exchange areas included in the Cincinnati Metropolitan Area are as follows:

Cincinnati	Bethany
Bethel	Clermont
Hamilton	Harrison
Little Miami	Newtonsville
Reily	Shandon
Williamsburg	

4.0 SERVICE AREAS (cont'd)

4.8 Sprint Exchange Classification

4.8.1 For the purpose of determining exchange service monthly base rates, exchanges are classified in rate groups according to the total exchange access lines in a local service area. The local service area is the area within which customers make calls without the payment of message toll charges and may include one or more exchanges. For the purpose of this regulation, "main telephone" is the total number of main stations, equivalent main stations, Centrex main stations, PBX trunk lines and Key System trunk lines.

4.8.2 Rate Group Classification and Limits:

Exchange Rate Group	Total Exchange Access Lines In Local Service Area		
Schedule 1	1	to	2,000
Schedule 2	2,001	to	4,000
Schedule 3	4,001	to	6,000
Schedule 4	6,001	to	12,000
Schedule 5	12,001	to	25,000
Schedule 6	25,001	to	50,000
Schedule 7	50,001	to	100,000
Schedule 8	100,001	to	200,000
Schedule 9	200,001	to	750,000

4.0 SERVICE AREAS (cont'd)

4.11 Sprint Calling Areas

Geographically-defined Local Calling Areas are associated with each Exchange Service provided pursuant to Section 5.1.

For resale and unbundled local service, the local calling zones will mirror Sprint as detailed in Section 4.8.

A) Metropolitan Areas

1) The exchange areas included in the Cleveland Metropolitan Area are as follows:

Cleveland	North Royalton
Bedford	Olmstead Falls
Berea	Strongsville
Brecksville	Terrace
Chagrin Falls	Trinity
Gates Mills	Victory
Hillcrest	Wickliffe
Independence	Willoughby
Montrose	

2) The exchange areas included in the Columbus Metropolitan Area are as follows:

Columbus	Hilliard
Alton	Lockbourne
Canal Winchester	New Albany
Dublin	Reynoldsburg
Gahanna	Westerville
Grove City	West Jefferson
Groveport	Worthington
Harrisburg	

4.0 SERVICE AREAS (cont'd)

A) Metropolitan Areas (cont'd)

3) The exchange areas included in the Dayton Metropolitan Area are as follows:

Dayton	Fairborn
Beavercreek	Miamisburg-West Carrollton
Bellbrook	Vandalia
Centerville	

4) The exchange areas included in the Toledo Metropolitan Area are as follows:

Toledo	Holland
Maumee	Perrysburg
Whitehouse	

5) The exchange areas included in the Cincinnati Metropolitan Area are as follows:

Cincinnati	Bethany
Bethel	Clermont
Hamilton	Harrison
Little Miami	Newtonsville
Reily	Shandon
Williamsburg	

5.0 LOCAL EXCHANGE SERVICE

5.1 Service Offerings

The following Network Services for residence and / or business customers are offered in this tariff:

Standard Residence Line
Standard Business Line
Key System Line
PBX Trunk
ISDN Lines
ISDN PRI
Centrex
Directory Assistance
Traditional Operator Service
Message Telecommunications Service
Custom Calling Features
Main Number Retention
Non Published Service
Calling Party's Number (CPN) Blocking
900/976 Blocking/Unblocking
Vanity Number Service
Service Order and Change Charges
IntraLATA Presubscripton
Maintenance Visit Charges
Directory Listings
Emergency Services

All services offered in this tariff are subject to service order and change charges where the Customer requests new services or changes in existing services, as well as indicated Non-Recurring and Monthly Recurring Charges. Charges for Local Calling Service and Measured Telecommunications Service are assessed on a measured rate basis and are additional to the charges shown for Standard Residence/Business Line, Key System Line, Centrex Line, as are other service charges.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.2 Standard Residence Line

The Standard Residence Line provides a Customer with a single, analog, voice-grade telephonic communications channel which can be used to place or receive one call at a time. Standard Residence Lines are provided for the connection of Customer-provided wiring and single station sets or facsimile machines. Call blocking per call is included with the basic rate. See Section 5.11 (G) for a description of call blocking.

Standard Residential Lines

Non-recurring Charges	Minimum	Maximum
First Line Per Order	$ 10.00	$ 85.00
Each Additional Line Per Order	$ 10.00	$ 50.00

Monthly Recurring Charges Per Line	Minimum	Maximum
Network Access Lines	$ 10.00	$ 50.00

5.2.1 Service options are in addition to the monthly line rate.

Minimum and Maximum Rates for Residential Measured Service Option[1]
These also apply to areas listed in Section 4.1

Mileage	1st minute		Each additional minute	
	Minimum	Maximum	Minimum	Maximum
1 - 10	0.0100	0.2000	0.0080	0.2000
11 - 22	0.0100	0.2000	0.0080	0.2000
23 +	0.0100	0.2000	0.0080	0.2000

[1] These rates will apply to calls between exchanges specified in Section 4.1, 4.5, and 4.8 as Local Calling Plus calls. However, the Measured Service Option is not required to take advantage of Local Calling Plus.

5.0 **LOCAL EXCHANGE SERVICE** (cont'd)

5.2 **Standard Residence Line** (cont'd)

5.2.1 (cont'd)

Minimum and Maximum Rates for Residential Metered Service Option

Per Call Rate	Minimum	Maximum
All Calls	0.0100	0.2000

Minimum and Maximum Rates for Residential Flat Rate Service Option

Per Month Rate	Minimum	Maximum
Flat Rate Per Line	1.00	10.00

5.2.2 A 911 service charge and an Access charge per FCC order per month, per line will be charged in addition to the line charge and service option charge. Refer to Section 7.3 for Rates.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.3 Standard Business Line

The Standard Business Line provides a Customer with a single, analog, voice-grade telephonic communications channel which can be used to place or receive one call at a time. Standard Business Lines are provided for the connection of Customer-provided wiring and single station sets or facsimile machines. Call blocking per call is included with the basic rate. See Section 5.11 (G) for a description of call blocking.

Minimum and Maximum Non-Recurring Charge for Business Lines

	Per line per order	
	Minimum	**Maximum**
1st line	$10.00	$85.00
Each additional line	$5.00	$60.00

Minimum and Maximum Monthly Recurring Charge for Business Lines

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.6 ISDN Lines

5.6.1 ISDN – BRI (Basic Rate Interface)

ISDN-BRI service provides 2 B+D switched access to the public switched network for the transmission of circuit switched voice, circuit switched data and packet switched data on an incoming and outgoing basis. It provides a customer with the ability to intergrate current voice and data channel services utilizing ISDN Lines Service.

Circuit Switched Voice provides the ability to originate and receive switched voice calls oner a 64 Kbps channel.

BRI lines have two 65 Kbps B channels. Each channel can have a separate phone number that can be used as a regular phone line, or the two B channels can be combined to create a single, higher bandwidth channel.

BRI has one 16Kbps data or D channel used primarily for signaling and data transmission.

A) ISDN – BRI is available with the fillowing standard features:

1) 2 B+D Channel
2) National ISDN Standard
3) 56/64/112/128 Kbps Dialed Data
4) Simultaneous Voice-Data Calling
5) Call Forwarding
6) Call Forwarding – Busy
7) Call Forwarding – Don’t Answer
8) Touch Tone
9) 3 Way Conference Calling

Reference Section 5.11 for definitions of these features.

1st Line	$10.00	$85.00
Each Additional Line	$5.00	$60.00

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.7 Centrex

Centrex service provides a Business Customer with multiple individual voice-grade telephone communication channels, each of which can be used to place or receive one call at a time. Centrex lines are provided for connection of Centrex-compatible Customer-provided station sets to the public switched telecommunications network. Call blocking per call is included with the basic rate. See Section 5.11 (G) for a description of call blocking.

Minimum and Maximum Non-Recurring Charge

	Per line per order	
	Minimum	**Maximum**
1st line	$10.00	$85.00
Each additional line	$5.00	$60.00

Per Month Rate	Minimum	Maximum
All Calls	0.0100	0.2000

5.7.2 A 911 service charge and an Access charge per FCC order per month, per line will be charged in addition to the line charge and service option charge. Refer to Section 7.3 for Rates.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.8 Directory Assistance

Provides for identification of telephone directory numbers, via an operator or automated platform. Customers are provided with a maximum of 2 listings for each call to Directory Assistance.

Minimum Per Call $0.10 Maximum Per Call $5.00

5.9 Traditional Operator Service

Provides for live or automated operator treatment when Customer dials "0". Services include, but are not limited to, bill to originating telephone number, calling card, collect or to a third party. The process of rating a call is as follows:

A) MTS Portion of Calls

Minimum and Maximum Rates for MTS portion of call

Mileage	1st minute		Each additional minute	
	Minimum	Maximum	Minimum	Maximum
1 - 10	0.06	0.32	0.06	0.16
11 - 22	0.06	0.40	0.06	0.22
23 - 55	0.06	0.48	0.06	0.28
56 - 124	0.06	0.57	0.06	0.37
125 - over	0.06	0.58	0.06	0.39

B) Application of Rate Discount

* Day - Monday through Friday; 8:00 a.m. up to but not including 5:00 p.m.
* Evening - Monday through Friday; 5:00 p.m. up to but not including 11:00 p.m., discounted 10% from Day Rate.
* Night/Weekend - Monday through Friday; 11:00 p.m. up to but not including 8:00 a.m.; All day Saturdays and Sundays, discounted 20% from Day Rate.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.9 Traditional Operator Service (cont'd)

C) Minimum and Maximum Surcharges

	Minimum	**Maximum**
Calling card	$ 0.00	$ 5.00
Credit card	$ 0.00	$ 5.00
Station to station (customer dialed)	$ 0.00	$ 5.00
Operator dialed (collect, bill to 3rd party)	$ 0.00	$ 7.50
Person to Person	$ 0.00	$ 9.50

D) Calculation of Charge

1) The billing elements used to determine message charges are as follows: length of time of call, time of day, and applicable operator service charge.

2) Charges for the time portion of the billing element are applied on the basis of whole minute intervals. The billing interval for this element is determined by rounding up partial minutes to the next whole minute.

3) Time of day discounts apply as found in Section 5.9 (B).

4) Chargeable time begins when connection is established between the calling party and the desired telephone, communications system attendant or directly dialed station.

5.10 Message Telecommunications Service

Message Telecommunication Service (MTS) is a communications service which is available for use by customers twenty-four (24) hours a day. MTS enables a User of an exchange access line to place calls to any station on the public switched telecommunications network bearing an NPA-NXX designation associated with points outside the Customer's Local Calling Area, but within the boundaries of the LATA where the Customer (or the Customer's end user) is located. Customers must arrange for intraLATA and interLATA service from the interexchange carriers of their choice. Customers may choose the Company as their carrier for intraLATA calls and interLATA calls.

MTS calls are billed in one (1) minute increments with an initial billing period of one (1) minute. The total number of minutes will be rounded at end of Billing Period to the nearest minute. Fractional cents will be rounded to the nearest cent.

Rates are set forth in Section 5.9 (A, B, and D).

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.11 SBC Custom Calling Features

A) Call Waiting: permits the end-user engaged in a call to receive a tone signal indicating a second call is waiting; and, by operation of the switch hook, to place the first call on hold and answer the waiting call. The customer may alternate between the two calls by operation of the switch hook, but a three-way conference call cannot be established.

B) Call Forwarding: permits the end-user to automatically forward (transfer) all incoming calls to another telephone number, and to restore it to normal operation at their discretion.

C) Three-Way Calling: permits the end-user to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The end-user initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming.

1) This feature is available on an unlimited monthly basis or on a Pay Per Use basis.

2) This feature will be available on a Pay Per Use basis only from equipped central offices to residence and non-residence customers. However, this feature is not available on a Pay Per Use basis to PBX customers.

3) At the request of the customer, access to the feature on a Pay Per Use basis may be blocked. Such blocking will be provided at no charge to the customer.

D) Call Screening: allows the end-user to automatically block incoming calls from up to ten customer pre-selected telephone numbers (including numbers from which a customer has just received a call). The list of numbers can be changed at any time. Callers whose numbers have been blocked will hear a recorded message and no usage charges will apply. The calling party's number will not be delivered or announced to the call recipient under any circumstances.

E) Caller ID: provides the customer with a caller's information such as telephone number. However, the calling party may utilize blocking services which will prevent the disclosure of their telephone number. In such instances, a privacy indication will appear on the customer-provided display device instead of the calling party's telephone number.

F) Caller ID with Name: provides the customer with caller's information such as telephone number and name. However, the calling party may utilize blocking services which will prevent the disclosure of their telephone number. In such instances, a privacy indication will appear on the customer-provided display device instead of the calling party's telephone number.

Caller ID must accompany this feature.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.11 SBC Custom Calling Features (cont'd)

G) Calling Party's Number (CPN) Blocking

1) Free Per Call Blocking

Per call blocking enables customers to prevent, at any time, the disclosure of a customer's CPN, or telephone number, by using an activation code. Use of this activation code will prohibit the disclosure of the CPN for the ensuing call only and does not block the CPN of subsequent calls, unless the activation code is again utilized. Per call blocking shall be provided to all customers at no charge.

2) Subscription Per Line Blocking

Enrollment into subscription per line blocking prevents the disclosure of the subscriber's CPN, or telephone number, to the called party. Subscription per line blocking is applicable on all outgoing calls placed from the subscriber's line. Subscription per line blocking shall be provided at no monthly charge on an option-in or positive enrollment basis, to non-published subscribers. A nonrecurring service order charge will be assessed by the company to non-published customer, only after the company has afforded these same customers a 90-day window of opportunity to enroll into subscription per line blocking free of charge. Subscription per line blocking shall be provided to all published customers for a charge not to exceed the company's rate for non-published service. Applicable service order charges may be assessed to published customers and to non-listed customers requesting subscription per line blocking service. The 90 day window will only be offered to those customers that were not offered per line blocking previously.

H) Speed Calling (8 or 30): permits the customer to place calls to other telephone numbers by dialing a one or two digit code rather than the complete telephone number. The feature is available as an eight code list or a thirty code list. Either code list may include local and/or toll telephone numbers. To establish or change a telephone number in a code list, the customer dials an activating code, receives a second dial tone and dials either a one or two digit code (for the eight code and thirty code lists, respectively) plus the telephone number.

I) Busy Line Transfer (Call Forwarding Busy): permits the forwarding of incoming calls when the end-user's line is busy. The forwarded number is fixed by the end-user service order.

J) Alternate Answer (Call Forwarding No Answer): permits the forwarding of incoming calls when the end-user's line remains unanswered after end-user-designated number of rings. The number of rings and the forwarded number are fixed by the customer service order.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.11 SBC Custom Calling Features (cont'd)

K) Automatic Call Back: enables a customer to return the last incoming call, whether or not it was answered. The customer dials an activation code, *69, and the last incoming call is automatically dialed. If the line is busy when the customer activates the service, a confirmation announcement is heard, the customer hangs up, and a queuing process begins. For the next thirty (30) minutes both the calling and called parties' lines are checked periodically. The call set-up is made when both the originating and terminating lines are idle. After activation of the feature, the originating and terminating customer may place other calls without affecting the Automatic Call Back service status. Up to ten calls may be held in queue for the customer's Automatic Call Back activation.

1) Automatic Call Back is available on a Universal Pay Per Use basis. An Automatic Call Back activation is considered complete and billable after the feature is activated by dialing the first code, regardless of whether or not the call is returned, except in those cases where the calling number is not available from the network.

2) This feature will be available on a Pay Per Use basis only from equipped central offices to residence and non-residence customers. However, this feature is not available on a Pay Per Use basis to PBX customers.

3) At the request of the customer, access to the feature on Pay Per Use basis may be blocked. Such blocking will be provided at no charge to the customer.

4) This feature is available on an unlimited monthly basis or on a Pay Per Use basis.

L) Automatic Call Back Block: prohibits a customer who subscribes to Automatic Call Back from returning a call by activating the Automatic Call Back code. By dialing an activation code, *67, before placing a local call or by utilizing per line blocking, a customer may "block" the called party from returning a call to them, using an Automatic Call Back. This service is free to all customers who subscribe to a one-party line, and is available on a per call basis only when utilizing *67. After activating the Automatic Call Back Block code and placing the call, the line reverts back to normal status and future calls will not be blocked from being returned by Automatic Call Back subscribers unless utilizing per line blocking. The caller must activate the code before placing each call in order to have Automatic Call Back Block activated unless utilizing per line blocking.

M) Touch Tone Non-Hunt: Touch tone service on a single line that does not roll to another station if the called line is busy.

N) Touch Tone Hunt: Touch tone service to a line that rolls to another station in the event that the called line is busy.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.11 SBC Custom Calling Features (cont'd)

O) Toll Restriction Blocking: permits customer to request blocking of 0+ and 1+ dialing. Blocking only restricts calls in which a 0 or 1 are the first digit dialed 411, 611, 911 and seven digit local calls are not restricted.

P) Repeat Dialing: enables a customer to reach a called party whose number is busy without having to continually redial the telephone number. The busy number will automatically be dialed, for a thirty (30) minute period, until it becomes available. The caller can make and receive calls during the 30 minute period that the busy number is being dialed. The caller will receive a special ring back when both numbers are freed for use. The feature can also be used to recall a called party after the conversation has been terminated.

1) This feature will be available on a Pay Per Use basis only from equipped central offices to residence and non-residence customers. However, this feature is not available on a Pay Per Use basis to PBX customers.

2) At the request of the customer, access to the feature on a Pay Per Use basis may be blocked. Such blocking will be provided at no charge to the customer.

3) This feature is available on an unlimited monthly basis or on a Pay Per Use basis.

Q) Talking Call Waiting: allows a residential customer to know who is calling while they are on the telephone with another party Talking Call Waiting enhances Call Waiting by allowing the customer to hear who is calling after hearing the call waiting tone while the customer is on the line. Any and all names will be voiced to the subscriber. This includes "private" or "unknown" to be voiced in the appropriate situation. Talking Call Waiting subscribers will hear both a call waiting tone plus the name of the calling party on an incoming call. The customer then presses the switch hook-flash to place the current call on hold and talk to the call waiting party. Subsequent switch hook-flashes will allow the subscriber to "toggle" between the two parties, placing one on hold so that they can speak to the other party.

1) This feature is available on a monthly subscription basis and must be subscribed to in conjunction with Call Waiting Service.

2) Customers with more than one line will need to subscribe to the service for each line they wish to have Talking Call Waiting made available. This service requires no additional adjunct or telephone display equipment.

3) This feature is not available on ISDN.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.11 SBC Custom Calling Features (cont'd)

R) Privacy Manager: available to residential and business customers. Intercepts calls that are marked "private", "out of area", or "unavailable" on Caller ID units. When unidentified callers dial the subscriber's number, they will receive an announcement informing them that the party they are calling does not accept calls from unidentified callers. They will receive a prompt to state their name or the company they represent and the service will then attempt to connect the call. Only if the caller states their name will the call be connected.

The subscriber's Caller ID CPE will display the platform number and the name of the service. When the subscriber picks up the phone, they will receive a recording identifying the caller by name and will have three options: Press 1 to accept the call, Press 2 to deny the call or Press 3 to play the sales call refusal to the caller.

If the subscriber dial 2, the caller will continue to hear the recording as if the party they are calling were not at home. Forwarding or don't answer will not take place in this scenario as the call has been rejected. If the subscriber dials 3, the calling party will hear a recording stating that the called party does not accept phone solicitations and to please place this person's name and number on a "do not call" list.

If the subscriber has an answering machine or network Voice Mail which intercepts the call, the Privacy Manager feature will identify that the call has been answered and connect the caller to the answering system. The service will identify the call as being answered by an answering system and immediately connect the caller.

The subscriber can override the Privacy Manager platform through the use of a personal identification number which is changeable through a VRU. The subscriber would establish this PIN in the event they receive frequent calls from friends and family that register as "unknown", "private", or "unavailable", i.e., cellular phones, payphones, and some long distance calls. The subscriber would then provide the PIN to those callers who would invoke the PIN upon being intercepted by the platform which would enable the caller to bypass the Privacy Manager platform and the call would be directly connected. The subscriber would hear a distinctive ring and upon answering the call, would not hear any of the Privacy Manager messages or prompts

This service will be available when facilities permit. Subscriber's need to have Caller ID with Name as well as Touch Tone service to subscribe to the Privacy Manager. This service will be provisioned on a line-by-line basis and customers with more than one line would need to have the service activated on each line if they want the ability to intercept unknown and blocked calls to each line.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.11 SBC Custom Calling Features (cont'd)

S) Billed Number Screening Service (Collect and/or 3rd Party Call Block) is an arrangement which prevents the charging of collect and/or third party billed calls to a customer's telephone number.

1) The following options are available with Billed Number Screening Service.

a) Option 1 - No Collect or Third Party Billing, per line screened.
b) Option 2 - No Third Party Billing, per line screened.
c) Option 3 - No Collect Billing, per line screened.

2) The Telephone Company makes no guarantee and assumes no liability arising out of the use or misuse of Billed Number Screening Service by any other entities, including, but not limited to, Interexchange Carriers. the Telephone Company is fully responsible for calls charged to number, which should have been prevented by Billed Number Screening Service, that originate and terminate within the Telephone Company's service territory, and are not carried over any other carrier's network or facilities.

T) Multi-Ring Service enables a customer to have as many as three telephone numbers associated with a single exchange service. Customers subscribing to this service will be able to receive calls dialed to two or three separate telephone numbers without having a second or third exchange service. A distinctive ringing pattern will be provided for each of the additional telephone numbers to facilitate identification of incoming calls. A distinctive Call Waiting tone for each additional telephone number will be provided, where facilities permit, to customers subscribing to Call Waiting as defined in Part A of this Section 5.11.

5.12 Verizon Custom Calling Features

A) Call Waiting: permits the end-user engaged in a call to receive a tone signal indicating a second call is waiting; and, by operation of the switch hook, to place the first call on hold and answer the waiting call. The customer may alternate between the two calls by operation of the switch hook, but a three-way conference call cannot be established.

B) Call Forwarding: permits the end-user to automatically forward (transfer) all incoming calls to another telephone number, and to restore it to normal operation at their discretion.

C) Three-Way Calling: permits the end-user to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The end-user initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming.

1) This feature is available on an unlimited monthly basis or on a Pay Per Use basis.

2) This feature will be available on a Pay Per Use basis only from equipped central offices to residence and non-residence customers. However, this feature is not available on a Pay Per Use basis to PBX customers.

3) At the request of the customer, access to the feature on Pay Per Use basis may be blocked. Such blocking will be provided at no charge to the customer.

D) Call Blocking: allows a customer to manually program up to twelve (12) known numbers or the last incoming call even if the number is unknown from calling his telephone number. The list is customer changeable. Blocked calls are routed to a recorded announcement which specifies that the called party is not accepting calls. If the customer wished to review the numbers contained on his Call Block screening list, the telephone number of an incoming call added to the screening list by dialing "1" will be announced as a "private" number by the automated voice response message system. Only numbers manually added to the screening list will be announced by the automated voice response system. the activation code is *60 for touch calling and 1160 for rotary dialing.

E) Caller ID: provides the customer with a caller's information such as telephone number. However, the calling party may utilize blocking services which will prevent the disclosure of their telephone number. In such instances, a privacy indication will appear on the customer-provided display device instead of the calling party's telephone number.

F) Caller ID with Name: provides the customer with caller's information such as telephone number and name. However, the calling party may utilize blocking services which will prevent the disclosure of their telephone number. In such instances, a privacy indication will appear on the customer-provided display device instead of the calling party's telephone number.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.12 Verizon Custom Calling Features (cont'd)

G) Caller ID Blocking

1) Selective Blocking (per call) will be provided on all eligible lines at no charge in all exchanges where Caller ID Number is offered by the Company. Customer may prevent the delivery of their telephone number by using Selective Blocking prior to dialing the called party's telephone number. This is accomplished by dialing the access code for Selective Blocking (*67 for touch call lines and 1167 for rotary lines) prior to placing the call.

2) Complete Blocking (per line) will be provided when requested by the customer in all exchanges where Caller ID Number is offered by the Company. Complete Blocking will be provided at no charge to any Non-Published Telephone Service customers, law enforcement agencies, and community service and crisis intervention agencies requesting the service. All other customers may request Complete Blocking at a monthly charge.

Deactivation of the blocking of the number is available to both Published and Non-Published customers, at their discretion. To deactivate the privacy status, the customer dials *82 (1182 from a rotary dial phone) before placing a call. This allows delivery of the telephone number to the called party. After completion of the call, the line reverts back to the private status.

No business, organization or other person may use Complete Blocking or Selective Blocking where the primary purpose is to make telephone solicitation calls. The term "telephone solicitation" means the initiation of a telephone message primarily for the purpose of encouraging a person to purchase, rent, or invest in property, goods, or services or to donate to any charity or similar organization or entity without that person's prior express invitation or permission.

H) Speed Calling (8 or 30): permits the customer to place local message toll calls to a pre-selected group of telephone numbers by dialing abbreviated codes. Speed calling is provided in capacities of eight or thirty telephone numbers.

I) Call Forwarding Busy - Fixed: this service, permanently activated, permits the customer to have incoming calls redirected to a preselected telephone number at another location on a different premises when such incoming calls encounter a normal busy line condition. Where a toll message charge is applicable to the call to be forwarded, such charges will be billed to the Call Forwarding customer.

J) Call Forwarding No Answer - Fixed: this service, permanently activated, permits the customer to have incoming calls redirected to a preselected telephone number at another location on a different premises when such incoming calls encounter a no answer condition after a specific number of rings, such number of rings to be specified when this service is ordered. Where a toll message charge is applicable to the call to be forwarded, such charges will be billed to the Call Forwarding customer.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.12 Verizon Custom Calling Features (cont'd)

K) Automatic Call Return: allows the customer to return the last incoming call, whether or not it was answered. To return the call, the activation code is *69 for touch calling and 1169 for rotary dialing. If the line is busy, the call is queued for up to 30 minutes or until both numbers are idle. When the called line is free, the customer will hear a distinctive ring (short-short-long) indicating that the network is attempting to set up the call. If the customer wishes to cancel the activation, he may dial *89 for touch calling and 1189 for rotary dialing. Calls may be placed and received during the time the service has been activated.

1) Automatic Call Return is available on a Universal Pay Per Use basis. An Automatic Call Back activation is considered complete and billable after the feature is activated by dialing the first code, regardless of whether or not the call is returned, except in those cases where the calling number is not available from the network.

2) This feature will be available on a Pay Per Use basis only from equipped central offices to residence and non-residence customers. However, this feature is not available on a Pay Per Use basis to PBX customers.

3) At the request of the customer, access to the feature on Pay Per Use basis may be blocked. Such blocking will be provided at no charge to the customer.

4) This feature is available on an unlimited monthly basis or on a Pay Per Use basis.

L) Automatic Call Back Block: prohibits a customer who subscribes to Automatic Call Back from returning a call by activating the Automatic Call Back code. By dialing an activation code, *67, before placing a local call or by utilizing per line blocking, a customer may "block" the called party from returning a call to them, using an Automatic Call Back. This service is free to all customers who subscribe to a one-party line, and is available on a per call basis only when utilizing *67. After activating the Automatic Call Back Block code and placing the call, the line reverts back to normal status and future calls will not be blocked from being returned by Automatic Call Back subscribers unless utilizing per line blocking. The caller must activate the code before placing each call in order to have Automatic Call Back Block activated unless utilizing per line blocking.

M) Touch Tone: push button dialing that creates specific tones for each button on a telephone.

N) Rotary Line Service: an arrangement whereby two or more individual lines or exchange trunk lines furnished to a customer at a given location, are grouped so that calls to the 1st number of the grouped lines are automatically routed to the 1st non-busy line of the lines so grouped and a busy signal is not given unless all the grouped lines are busy.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.12 Verizon Custom Calling Features (cont'd)

O) Toll Restriction: a central office service arrangement whereby calls dialed over residence and business individual lines or trunk lines, to other than the local toll free service area, receive a recorded restriction announcement or, where trunk lines are employed, are automatically routed to the PBX customer's attendant position.

This service will not allow 1+, 0+, 0-, 1010XXX 1+, 1+NPA+555+1212, 1+555+1212, 411 (when charges apply) and 900 calls.

P) Automatic Busy Redial: allows the customer to redial the last number dialed. The customer dials the activation code (*66 on a touch call or 1166 on a rotary dial phone). A 30 minute queuing process begins where the network continually tests the busy/idle status of both parties until they are available. A distinctive ring (short-short-long) lets the customer know that Automatic Busy Redial is setting up the call.

1) This feature will be available on a Pay Per Use basis only from equipped central offices to residence and non-residence customers. However, this feature is not available on a Pay Per Use basis to PBX customers.

2) At the request of the customer, access to the feature on a Pay Per Use basis may be blocked. Such blocking will be provided at no charge to the customer.

3) This feature is available on an unlimited monthly basis or on a Pay Per Use basis.

Q) Cancel Call Waiting: permits the customer with Call Waiting to inhibit the operation of call waiting for one call. Call Waiting is automatically restored to the customer's line upon a disconnect.

1) This features is available on a monthly subscription basis and must be subscribed to in conjunction with Call Waiting Service.

2) Customers with more than one line will need to subscribe to the service for each line they wish to have Talking Call Waiting made available. This service requires no additional adjunct or telephone display equipment.

3) This feature is not available on ISDN.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.12 Verizon Custom Calling Features (cont'd)

R) Distinctive Ring: allows distinctive ringing to be applied to an individual line where each of two numbers, a main number and a "Distinctive Ring" number, will have a uniquely distinctive ring for customer identification. Because two telephone numbers are associated with one telephone line, only one conversation can be conducted at a time.

S) Billed Number Screening Service (Collect and/or 3rd Party Call Block): is an arrangement which prevents the charging of collect and/or third party billed calls to a customer's telephone number.

1) The following options are available with Billed Number Screening Service.

a) Option 1 - No Collect or Third Party Billing, per line screened
b) Option 2 - No Third Party Billing, per line screened
c) Option 3 - No Collect Billing, per line screened

2) The Telephone Company makes no guarantee and assumes no liability arising out of the use or misuse of Billed Number Screening Service by any other entities, including, but not limited to, Interexchange Carriers. The Telephone Company is fully responsible for calls charged to a number which should have been prevented by Billed Number Screening Service, that originate and terminate within the Telephone Company's service territory, and are not carried over other carrier's network or facilities.

T) VIP Alert: allows a customer to program up to twelve (12) telephone numbers of selected callers enabling the customer to distinguish certain incoming calls from all others by a distinctive ring tone. If a customer also subscribes to Call Waiting, calls from the selected numbers will be distinguished by a distinctive call waiting tone.

U) Special Call Forwarding: allows a customer to prespecify telephone numbers (maximum of 12) from which calls are to be forwarded. During the period that Special Call Forwarding is activated, only calls from any of the prespecified numbers will be forwarded.

V) Special Call Acceptance: allows a customer to select specific telephone numbers (maximum of 12) from which calls are to received. All other calls are intercepted and routed to a recorded announcement that informs the caller that the customer is not accepting calls.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.12 Verizon Custom Calling Features (cont'd)

W) Call Waiting ID: allows a Caller ID/Call Waiting subscriber who is offhook on an existing call to receive caller identification information on a new incoming call. Once the customer receives the Caller ID data, the customer may ecide whether to ignore the waiting call, interrupt the current call and flash to answer the waiting call, or end the current conversation in order to be connected to the new caller. These options are the same as the existing Call Waiting service except that the subscriber has the ability to identify the waiting caller. The customer must be using Call Waiting ID compatible equipment and not have activated Cancel Call Waiting. Customers must subscribe to Call Waiting and Caller ID (Number and Name or Number Service) at the tariffed rates for each service. The customer must specifically subscribe to Call Waiting ID service, even though there are no additional rates or charges.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.13 Sprint Custom Calling Features

A) Enhanced Call Waiting: provides the subscriber, already on an existing call, with a tone signal indicating that an unanswered call is waiting to be completed to the subscriber's number. The subscriber may then hold the existing call and alternately talk on both calls until one has been terminated. Enhanced call waiting also adds the option to cancel call waiting. Cancel call waiting can be activated before or during a call by dialing an access code and then stays in effect for the duration of the call. Incoming calls receive a busy signal while cancel call waiting is in effect.

B) Basic Call Forwarding: permits a subscriber to transfer all incoming calls to another telephone number by dialing a code and the telephone number of the service to which the calls are to be transferred. Due to transmission limitations, it is recommended that the calls be transferred only within the subscriber's local calling area.

C) Three-Way Calling: permits the subscriber to add a third party to an existing connection, thereby establishing a three-way conversation or conference. Due to transmission limitations, it is recommended that only one of the parties included in such a call be outside the local calling area of the subscriber initiating the call.

1) This feature is available on an unlimited monthly basis or on a Pay Per Use basis.

2) This feature will be available on a Pay Per Use basis only from equipped central offices to residence and non-residence customers. However, this feature is not available on a Pay Per Use basis to PBX customers.

3) At the request of the customer, access to the feature on Pay Per Use basis may be blocked. Such blocking will be provided at no charge to the customer.

D) Selective Call Rejection: allows the subscriber to prevent incoming calls from a pre-selected list of up to twelve numbers whether or not the number is known. The subscriber can create a screening list by entering known numbers or activating the addition of the number of the last call received. Incoming rejected calls are routed to an announcement indicating that the called party is not accepting calls from that number.

E) Caller ID: provides the customer with a caller's information such as telephone number. However, the calling party may utilize blocking services which will prevent the disclosure of their telephone number. In such instances, a privacy indication will appear on the customer-provided display device instead of the calling party's telephone number. Caller ID includes anonymous call rejection, which allows the subscriber to reject calls from parties who have blocked the delivery of their number.

F) Caller ID with Name: provides the customer with caller's information such as telephone number and name. However, the calling party may utilize blocking services which will prevent the disclosure of their telephone number. In such instances, a privacy indication will appear on the customer-provided display device instead of the calling party's telephone number. Caller ID with Name includes anonymous call rejection, which allows the subscriber to reject calls from parties who have blocked the delivery of their number.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.13 Sprint Custom Calling Features (cont'd)

G) Caller ID Blocking: allows the subscriber to prevent the delivery of the subscriber's directory number on a per call basis (per call block) or per line basis (per line block). Per call block will block the delivery of the subscriber's number for one call only and may be activated from all individual access lines (except those with per line block) by dialing an activation code prior to placing a call. Per line block will automatically block delivery of the subscriber's telephone number on all calls and will be provided, upon request, at no charge to subscribers of non-published telephone number service, and at a monthly charge to customers not subscribing to non-published telephone service.

H) Abbreviated Dialing (Speed Calling) 8 or 30: provides the subscribers with the capability of placing local and message toll calls to frequently called numbers by dialing abbreviated codes. This arrangement is available in either 8 or 30 repertoire.

I) Call Forwarding Busy: allows the subscriber to have calls forwarded to another station when the called station is busy. The subscriber can continue a conversation while incoming calls are answered elsewhere. The forwarded number is fixed by the customer service order..

J) Call Forwarding No Answer: permits the forwarding of incoming calls when the end-user's line remains unanswered after end-user-designated number of rings. The number of rings and the forwarded number are fixed by the customer service order.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.13 Sprint Custom Calling Features (cont'd)

K) Return Call: enables a customer to return the last incoming call, whether or not it was answered. The customer dials an activation code, *69, and the last incoming call is automatically dialed. If the line is busy when the customer activates the service, a confirmation announcement is heard, the customer hangs up, and a queuing process begins. For the next thirty (30) minutes both the calling and called parties' lines are checked periodically. The call set-up is made when both the originating and terminating lines are idle. After activation of the feature, the originating and terminating customer may place other calls without affecting the Automatic Call Back service status.

1) Return Call is available on a Universal Pay Per Use basis. A Return Call activation is considered complete and billable after the feature is activated by dialing the first code, regardless of whether or not the call is returned, except in those cases where the calling number is not available from the network.

2) This feature will be available on a Pay Per Use basis only from equipped central offices to residence and non-residence customers. However, this feature is not available on a Pay Per Use basis to PBX customers.

3) At the request of the customer, access to the feature on Pay Per Use basis may be blocked. Such blocking will be provided at no charge to the customer.

4) This feature is available on an unlimited monthly basis or on a Pay Per Use basis.

L) Automatic Call Back Block: prohibits a customer who subscribes to Automatic Call Back from returning a call by activating the Automatic Call Back code. By dialing an activation code, *67, before placing a local call or by utilizing per line blocking, a customer may "block" the called party from returning a call to them, using an Automatic Call Back. This service is free to all customers who subscribe to a one-party line, and is available on a per call basis only when utilizing *67. After activating the Automatic Call Back Block code and placing the call, the line reverts back to normal status and future calls will not be blocked from being returned by Automatic Call Back subscribers unless utilizing per line blocking. The caller must activate the code before placing each call in order to have Automatic Call Back Block activated unless utilizing per line blocking.

M) Touch Tone: push button dialing that creates specific tones for each button on a telephone.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.13 Sprint Custom Calling Features (cont'd)

N) Toll Restriction: is a central office service arrangement whereby calls dialed over residence and business lines or trunks to other than the local toll free service area, receive a recorded restriction announcement or are automatically routed to the PBX customer's attendant position.

Toll restriction is available only where facilities and conditions permit and is only available for individual residence and business services.

Toll restriction will not allow 1+, 0+, 0-, 1-1XXXX, 900/976 type service, 700 code toll calls, 1+411 local information, 555 Toll information and any 1+ Local Calling Plan Calls.

Toll Restriction does not provide restriction of nonchargeable calls to numbers such as repair service, 911, or 1+8XX toll free.

The Company shall not be liable to the customer or any other person or entity for damages of any nature or kind arising out of, resulting from, or in connection with the provision of the service, including without limitation, the inability to access the operator, Directory Assistance, or any non toll free number and any 1+ Local Calling Plan Numbers for any purpose.

O) Repeat Dialing: enables a customer to reach a called party whose number is busy without having to continually redial the telephone number. The busy number will automatically be dialed, for a thirty (30) minute period , until it becomes available. The caller can make and receive calls during the 30 minute period that the busy number is being dialed. The caller will receive a special ring back when both numbers are freed for use. The feature can also be used to recall a called party after the conversation has been terminated.

1) This feature will be available on a Pay Per Use basis only from equipped central offices to residence and non-residence customers. However, this feature is not available on a Pay Per Use basis to PBX customers.

2) At the request of the customer, access to the feature on a Pay Per Use basis may be blocked. Such blocking will be provided at no charge to the customer.

3) This feature is available on an unlimited monthly basis or on a Pay Per Use basis.

P) Signal Ring: allows multiple directory numbers to be assigned to a single line. These lines have one primary directory number and up to 3 secondary directory numbers. Each directory number has its own distinctive ringing pattern. An additional listing charge applies for each additional directory number associated with this feature.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.13 Sprint Custom Calling Features (cont'd)

Q) Billed Number Screening Service (Collect and/or 3rd Party Call Block): is an arrangement which prevents the charging of collect and/or third party billed calls to a customer's telephone number.

1) The following options are available with Billed Number Screening Service.

a) Option 1 - No Collect Billing, per line screened
b) Option 2 - No Third Party Billing, per line screened
c) Option 3 - No Collect or Third Party Billing, per line screened

2) The Telephone Company makes no guarantee and assumes no liability arising out of the use or misuse of Billed Number Screening Service by any other entities, including, but not limited to, Interexchange Carriers. The Telephone Company is fully responsible for calls charged to a number which should have been prevented by Billed Number Screening Service, that originate and terminate within the Telephone Company's service territory, and are not carried over any other carrier's network or facilities.

R) Selective Call Acceptance: allows a subscriber to accept calls from up to 12 calling parties whether or not the number is known. the subscriber can create a screening list by entering known numbers or activating the addition of the number of the last call received. Unaccepted callers will be connected to an announcement indicating that the called party is not accepting calls from that number.

S) Selective Call Forward: permits the subscriber to have only calls from up to 12 selected telephone numbers forwarded. If a call is placed from a number on the screening list, the call will be forwarded to the subscriber programmed number. Calls not on the screening list will terminate in the normal manner.

T) Call Hold: allows the subscriber to place a call on hold, and then continue the conversation either from the same telephone or from a more convenient location. Call hold is activated by flashing the switchhook, dialing an access code, then hanging up. the call is resumed when the handset of the same telephone, or another telephone on the same line, is picked up.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.13 Sprint Custom Calling Features (cont'd)

U) Wake-Up: allows a subscriber to program from a telephone the time to be called by an automated wake-up service. The feature is activated and deactivated by an access code. When the feature is activated, the subscriber may program one "ring back" time within the succeeding 24 hour period, and must repeat this activation sequence for each succeeding 24 hour period. If a wake up call is not answered or fails for any reason, tow more attempts are made at approximately 5-minute intervals. After the third attempt is made, and the call is unanswered, the event is recorded and no further attempt is made.

V) Talking Call Waiting allows a residential or single line business customer to know who is calling while they are on the telephone with another party. Talking Call Waiting enhances Call Waiting by allowing the customer to hear the name associated with the directory listing of the calling number after hearing the call waiting tone while the customer is on the line Any and all names will be voiced to the subscriber. This includes "private", "unknown", or "unavailable" to be voiced in the appropriate situation. Talking Call Waiting subscribers will hear both a call waiting tone plus the name of the calling party on an incoming call. The customer then presses the switch hook-flash to place the current call on hold and talk to the call waiting party. Subsequent switch hook-flashes will allow the subscriber to "toggle" between the two parties, placing one on hold so that they can speak to the other party.

1) This feature is available on a monthly subscription basis and must be subscribed to in conjunction with Call Waiting Service.

2) Customers with more than one line will need to subscribe to the service for each line they wish to have Talking Call Waiting made available. This service requires no additional adjunct or telephone display equipment.

3) This feature is not available on Centrex, DID Service, PBX Trunks, ISDN BRI or ISDN PRI.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.13 Sprint Custom Calling Features (cont'd)

W) Privacy ID: available to residential and business customers. Intercepts calls all unidentified calls, including but not limited to those that are marked "private", "out of area", or "unavailable" on Caller ID units. When unidentified callers dial the subscriber's number the call is intercepted before the telephone rings The caller will receive a prompt to state their name or the company they represent and the service will then attempt to connect the call. Only if the caller states their name will the call be connected.

The subscriber has the option to accept the call, reject the call, play an announcement to the calling party or forward the call to voicemail.

The subscriber may provide calling parties with a Personal Identification Number (PIN). Use of the PIN allows the calling party to bypass Privacy ID.

This service will be available where facilities permit. Subscriber's need to have Caller ID with Name as well as Touch Tone service to subscribe to the Privacy ID. This service will be provisioned on a line-by-line basis and customers with more than one line would need to have the service activated on each line if they want the ability to intercept unknown and blocked calls to each line.

Call Blocking is available only for customer-dialed, station-to-station calls.

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.14 Main Number Retention

Main Number Retention is an optional feature by which a Customer, who was formerly a customer of another certified local exchange carrier at the same premises location, may retain its main telephone numbers and main fax numbers for use with the Company-provided Exchange Services. Main Number Retention service is only available in areas where the Company maintains some form of number retention arrangements with the Customer's former local exchange carrier.

Current Cost	Non-Recurring Charges		Monthly Recurring Charges	
Per retained number	$ 13.60	$ 16.80	$ 1.70	$ 2.10

5.15 Non Published Service

This service provides for suppression of printed and recorded directory listings

	Monthly Recurring Charges	
	Minimum	Maximum
Per listing	$ 0.25	$ 5.00

5.16 900/976 Blocking/Unblocking

This service provides the option of blocking, or subsequent unblocking, all 900 and 976 calls on a per line basis. The Company will provide for per-line blocking where the Company's switching facilities permit.

	Monthly Recurring Charges	
	Minimum	Maximum
Per line	$ 5.00	$ 15.00

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.17 Vanity Number Service

Vanity Number Service is an optional feature by which a new Customer may request a specific or unique telephone number and fax number for use with the Company provided Exchange Services. This service provides for the assignment of a customer requested telephone number other than the next available number from the assignment control list.

Vanity Number Service is furnished subject to the availability of facilities and the requirements of Exchange Service as defined by the Company. The Company reserves all rights to the Vanity Numbers assigned to Customer's and may, therefore, change them if required.

Monthly Recurring Charge	Minimum	Maximum
Per number	$0.00	$25.00

5.18 Service Order and Change Charges

Non-recurring charges apply to processing Service Orders for new service and for changes in service.

Service Order Charges for New Service	Minimum	Maximum
Per Order	$ 5.00	$ 50.00

Change in Service Charges		
Per Change	$ 5.00	$ 50.00

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.19 IntraLATA Presubscription

5.19.1 IntraLATA Presubscription Charges

A) Application of Charges

After a subscriber's initial selection for a presubscribed intraLATA toll carrier and as detailed in the Service Requirements Form, for any change thereafter, an IntraLATA Presubscription Change Charges as set forth in Section 5.17.1B will apply.

B) Non Recurring Charges

Per Business or Residence Line, Trunk, or Port

Initial line, trunk or port	$5.00
Additional line, trunk or port	$1.50

5.19.2 Carrier Toll-Restriction Service(s)

A) DePICing Service

DePICing Service limits the customer's toll access to 10-/xxx, and 0- dialing until the customer selects a different provider or until the toll service provided request removal of the DePICing Service

Monthly Recurring Charge	Minimum	Maximum
Per line, trunk, or port	$1.00	$5.00

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.19 IntraLATA Presubscription (cont'd)

5.19.2 Carrier Toll Restriction Service(s) (cont'd)

B) Selective Carrier Denial

Selective Carrier Denial limits Telecom Ventures, LLC's customer access to the requesting toll service provider's facilities, including 10-XXX and 0- dialing. After subscribing to this service, the carrier provides Communication Options with a list of subscribers who should be denied access to the carrier's facilities and a list of previously denied subscribers who should regain access.

Monthly Recurring Charge	Minimum	Maximum
Per line, trunk, or port	$1.00	$10.00

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.20 Maintenance Visit Charges

Maintenance Visit Charges apply when the Company dispatches personnel to a Customer's premises to perform work necessary for resolving troubles reported by the Customer and the trouble is found to be caused by the Customer's facilities.

Maintenance Visit Charges will be credited to the Customer's account in the event trouble is not found in the Company facilities, but the trouble is later determined to be in those facilities.

The time period for which the Maintenance Visit Charges is applied will commence when Company personnel are dispatched at the Customer premises and end when work is completed. The rates for Maintenance of Service vary by time per Customer request.

Duration of Time / per Technician	Minimum	Maximum
First Hour	$ 50.00	$ 184.00
Each Additional Half (1/2) Hour	$ 25.00	$ 92.00

For After Hours Work Charges refer to Sections 6.26.4 and 7.2.

5.21 Directory Listings

For each customer of Company-provided Exchange Service(s), the Company shall arrange for the listing of the Customer's main billing telephone number in the directory(ies) published by the dominant Local Exchange Carrier in the area at no additional charge. At a Customer's option, the Company will arrange for additional listings for an additional charge.

Monthly Recurring Charge	Minimum	Maximum
Non-Recurring Charge	$0.50	$10.00
Monthly Recurring Charge	$0.50	$10.00

5.0 LOCAL EXCHANGE SERVICE (cont'd)

5.22 Emergency Services (Enhanced 911)

Allows Customers to reach appropriate emergency services including police, fire and medical services. Enhanced 911 has the ability to selectively route an emergency call to the primary E911 provider so that is reaches the correct emergency service located closest to the caller. In addition, the Customer's address and telephone information will be provided to the primary E911 provider for the display at the Public Service Answering Point (PSAP).

Counties TELECOM VENTURES, LLC proposes to service:

All Ohio Counties.

6.1 Application of Tariff

This tariff applies to interexchange reseller service provided by TELECOM VENTURES, LLC (dba TELECOM VENTURES, LLC LONG DISTANCE)

COMMUNICATION OPTIONS provides service from switch centers in Ohio and gathers traffic from locally provided business lines, FX lines, and 800 lines.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.2 Definition of Terms

Certain terms used generally throughout this tariff for interexchange resale communications service furnished by TELECOM VENTURES, LLC as defined below.

Alternative Operator Service: Alternative operator services are those services provided by the carrier in which the customer and the end user are totally separate entities. the company contracts with the customer to provide the Alternative operator services; however, the carrier does not directly contract with the end user to provide the services even though it is the end user who actually pays for the processing of the operator assisted calls.

Authorized User: The term, authorized user, denotes a person, firm or corporation who is authorized by the member to utilize the TELECOM VENTURES, LLC Network.

Business Line: A communications service provided by a telephone operating company which allows a subscriber of TELECOM VENTURES, LLC LONG DISTANCE access to the telephone dial network.

Calling Card Call: A billing arrangement by which the charge for a call may be billed to a certain telephone company issued calling card number.

Carrier or Company: Whenever used in this tariff. "Carrier" or "Company" refers to TELECOM VENTURES, LLC , unless otherwise specified or clearly indicated by the context.

Central Office End: The term "Central office end" denotes that end of foreign exchange channel at which subscriber has a dial access to a telephone company central office.

Channel: The term "Channel" denotes a path for electrical transmission between two or more points, the path having bandwidth and termination of subscriber's own choosing.

Closed End: The term "Closed end" refers to the termination point where the dedicated access line described in Section 6.20 hereof is located.

Collect Call: A billing arrangement by which the charge for a call may be charged to the called party, provided the called party accepts the charge.

Credit Card Call: A billing arrangement by which a call may be charged to an authorized credit card number, such as American Express, Discover, MasterCard, or VISA.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.2 Definition of Terms (cont'd)

Daytime: The term "Daytime" denotes 8:00 a.m. to but not including 5:00 p.m. local time at the originating terminal on Monday through Friday, excluding TELECOM VENTURES, LLCE recognized National holidays.

Dedicated Access Line (DAL): The term "Dedicated Access Line" (DAL) denotes a dedicated communications channel which terminates on a general access port provided by TELECOM VENTURES, LLC.

Designated Location: The term "Designated Location" or "Location" refers to a terminal device (e.g., handset, PBX, facsimile machine) having a unique telephone number, and to which the subscriber represents to the carrier that subscriber has a regular and continuing requirement for communications which are related directly to the business of the subscriber at the Designated Location (e.g., including but not limited to Affiliates, Subsidiaries, Subcontractors, Suppliers, Customers, and other regular business contacts).

Distant City: The term "Distant City" refers to a TELECOM VENTURES, LLC termination point opposite a closed end.

End User: Any person, firm, partnership, corporation, or other entity furnished telecommunications services under the provisions and regulations of the Company's tariff. If end user is typically a member of the transient public and, if so, does not negotiate directly with the Company for provisioning or termination of service.

Evening: The term "Evening" denotes 5:00 p.m. to but not including 11:00 p.m. local time at the originating terminal on Sunday through Friday and anytime on TELECOM VENTURES, LLC recognized National holidays except when a lower rate would normally apply.

Exchange Area: The term "Exchange Area" denotes a geographically defined area wherein the telephone industry through the use of maps or legal descriptions sets down specified areas where individual telephone companies hold themselves out to provide telecommunications services.

Foreign Exchange Services (FX): The term "Foreign Exchange" (FX) provides subscribers with the capability of local dialing in a remote exchange via private line service.

General Access Port (GAP): The term "General Access Port" (GAP) denotes an entrance or exit device on a switching machine which provides a means of connection between that switching machine and a termination point of service.

Holidays: TELECOM VENTURES, LLC recognized holidays are New Year's Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.2 Definition of Terms (cont'd)

Intercity Mileage: The term "Intercity Mileage" denotes the mileage, measured as the shortest distance between any two of the carrier's network terminal offices using the telephone industry standard rate centers ("V" and "H") associated with the said carrier's offices, and specified in Regulations 3.3 hereof.

Inward WATS Extension Service: The term "Inward WATS Extension Service" refers to an incoming service offered to members who elect to have all of their calls routed to a specific number. Members can select any previously unused seven digit number in place of an access code and TELECOM VENTURES, LLC will route their calls to the dedicated phone number provided by the member in his application for inward WATS service. (The dedicated number is supplied to the member by his Local Exchange Company,)

Member: The term "Member" denotes the person, firm, company or corporation, or other entity, having communications requirement of its own, which contracts service under this tariff and is responsible for the payment of charges as well as compliance with the COMMUNICATION OPTIONS regulation. "Member" can be replaced by Subscriber or Customer, each being deemed a synonym.

Nighttime: The term "Nighttime" denotes 11:00 p.m. to but not including 8:00 a.m. local time at the originating terminal Monday through Friday, anytime on Saturday, and all day Sunday except 5:00 p.m. to 11:00 p.m.

Normal Work Hours: The term "Normal Work Hours: denotes the time after 8:00 a.m. and before 5:00 p.m. Monday through Friday excluding COMMUNICATION OPTIONS recognized holidays.

Off-Network Access Line (ONAL): The term :Off-Network Access Line" denotes a facility leased by TELECOM VENTURES, LLC and used in common by subscribers to gain entrance and/or exit to and from the carrier's network.

Other Common Carrier (OCC): The term "Other Common Carrier" denotes a specialized or other type of common carrier authorized by the Federal Communications Commission to provide domestic or international communications service.

Person to Person Call: A service whereby the person originating the call specifies to the company operator a particular person to be reached, or a particular station, room number, department, or office to be reached through a PBX attendant.

Premises: The term "Premises" denotes a building or buildings on contiguous property (except Rights-of-way, etc.) not separated by a public highway.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.2 Definition of Terms (cont'd)

Quick Line Service: The term "Quick Line Service" refers to a dial-up service option wherein TELECOM VENTURES, LLC supplies or arranges for the supply of a network accessing dialer so that a subscriber dials all phone numbers as if the TELECOM VENTURES, LLC network were not tom be involved.

Rate Center: A geographic location from which the vertical and horizontal coordinates are used in calculation of airline mileage.

Regular Billing: The term "Regular Billing" denotes a standard bill sent in normal monthly TELECOM VENTURES, LLC billing cycle. This billing consists of one bill for each account assigned to the member with explanatory detail showing the derivation of charges.

Special Billing Arrangement: The term "Special Billing Arrangement" denotes an arrangement under which TELECOM VENTURES, LLC will, at the request of a member, provide additional billing functions such as separate breakdowns of overall total billing into sub-bills to facilitate member's internal accounting procedures.

Subscriber: The person, firm, partnership, corporation, or other entity who subscribes to the services offered in this tariff.

Subscriber End: The term "Subscriber End" denotes that end of a foreign exchange channel at which a member is connected by a local distribution facility to COMMUNICATION OPTIONS network terminal office.

Subscriber Terminal: The term "Subscriber Terminal" denotes the termination of the TELECOM VENTURES, LLC DAL at the members' premises.

Switch: The term "Switch" denotes an electronic device which is used to provide circuit sharing, routing, and control.

Third Party Billed Call: A billing arrangement by which the charges for a call may be billed to a number that is different from the calling number and the called number.

Traditional Operator Services: Traditional Operator Services are those services provided by the company in which the end user has a customer relationship with the company, the company contracts with the customer/end user to provide the services, and the customer/end user pays for the actual processing of the operator assisted calls.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.2 Definition of Terms (cont'd)

Travel Access: Travel Access to the TELECOM VENTURES, LLC network can be utilized whenever a member is at a location that cannot access a TELECOM VENTURES, LLC switch site on a toll-free basis. TELECOM VENTURES, LLC travel access feature uses AT&T and OHIO BELL provided 800 lines to access the TELECOM VENTURES, LLC NETWORK from any of the lower 48 states, Puerto Rico, and/or the Virgin Islands.

Travel Access utilization is exactly the same as local network utilization with respect to procedures. Rates for travel access service vary from dial-up service only in the per minute rate. (See Section 6.19).

Transparent Access: As used by TELECOM VENTURES, LLC access means that users access the TELECOM VENTURES, LLC network as they would AT&T with 1+area code+number called only, omitting the access and security code numbers in their manual dialing routine.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.3 Description of Service

TELECOM VENTURES, LLC is an interexchange reseller providing intercity telecommunications service for transmission of voice, data, and facsimile, and other special service on a switched and dedicated basis. TELECOM VENTURES, LLC stands ready to provide technical assistance to the member to the extent of properly matching the members equipment with that of TELECOM VENTURES, LLC n order to help him meet his requirements for interexchange communications service.

6.4 Undertaking of TELECOM VENTURES, LLC

A) The facilities of TELECOM VENTURES, LLC will be available as soon as possible after receipt of an order for service.

B) The obligation of TELECOM VENTURES, LLC to provide service is dependent upon its ability to procure, construct, and maintain facilities which are required to meet the members order for service.

6.5 TELECOM VENTURES, LLC liability

A) TELECOM VENTURES, LLC liability for damages arising out of mistakes, omissions, interruptions, delays, errors, or defects in the transmission occurring in the course of furnishing service and not caused by the negligence of the member, commences upon activation of service and in no event exceeds an amount equivalent to the proportionate charge to the member for the period of service during which such mistakes, omissions, interruptions, delays, errors, or defects in the transmission occur unless otherwise determined in a court of law, for the purpose of computing such amount a month is considered to have 30 days.

B) In no event will TELECOM VENTURES, LLC be responsible for consequential damages or lost profits suffered by a member on account of interrupted or unsatisfactory service unless TELECOM VENTURES, LLC is found to have been grossly negligent.

C) TELECOM VENTURES, LLC is not liable for any act or omission of any company or companies furnishing a portions of the service. No agents or employees of other carriers shall be deemed to be agents or employees of TELECOM VENTURES, LLC.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.5 TELECOM VENTURES, LLC liability (cont'd)

D) TELECOM VENTURES, LLC shall be indemnified and held harmless by the member against:

1) Claims for liable, slander, infringement of copyright or unauthorized use of any trademark, trade name or service mark arising out of the material, data, information, or other content transmitted by the customer over the TELECOM VENTURES, LLC facilities and

2) Claims for patent infringement arising from combining or connecting the TELECOM VENTURES, LLC facilities with apparatus and systems of the customer, and

3) All other claims arising out of any act or omission of the customer in connection with any service provided by TELECOM VENTURES, LLC.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.6 Obligations of the Member

A) TELECOM VENTURES, LLC shall be indemnified and held harmless by the member against claims of liable, slander, or the infringement of copyright, or for the unauthorized use of any trademark, trade name, or service mark, arising from the material transmitted over the channel, against claims for infringement of patents arising from, combining with, or using in connection with, service furnished by TELECOM VENTURES, LLC, apparatus and systems of the member, against all other claims arising out of any act or omission of the member in connection with the service provides by TELECOM VENTURES, LLC.

1) The facilities provided hereunder by TELECOM VENTURES, LLC for dedicated access line service may be terminated in member provided terminal equipment or member provided communications systems. When such terminations are made, the member shall comply with the minimum protective criteria which shall be no less stringent than the criteria generally accepted in the telephone industry or other appropriate criteria as may be prescribed by TELECOM VENTURES, LLC.

B) The member shall be liable for:

1) TELECOM VENTURES, LLC will not be responsible for loss due to theft, fire, flood, or other destruction of TELECOM VENTURES, LLC equipment or facilities on subscriber's premises.

2) Reimbursing TELECOM VENTURES, LLC for damages to facilities or equipment caused by the negligence or willful acts of the subscriber's officers, employees, agents or contractors.

3) Charges incurred with interconnect or local operating companies for service or service calls made to the members premises or on the members leased or owned telephone equipment unless TELECOM VENTURES, LLC specifically authorizes said visit or repairs in advance of the occurrence and TELECOM VENTURES, LLC agrees in advance to accept the liability for said repairs or visit.

4) Payment for all TELECOM VENTURES, LLC service charges incurred through usage or direct action on the part of the member and or his/her authorized users.

C) TELECOM VENTURES, LLC reserves the right of entrance for its employees, agents, or contractors, to the premises of the member at any reasonable hour for the purpose of installing, inspecting, repairing, or upon termination of service removing TELECOM VENTURES, LLC equipment. It shall be the responsibility of the member to make any necessary arrangements with the owners of the premises for the entrance of TELECOM VENTURES, LLC employees, agents, or contractors.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.7 Use of Service

Neither subscribers, nor their authorized users may use the services furnished by TELECOM VENTURES, LLC for any unlawful purpose.

6.8 Application for Service

TELECOM VENTURES, LLC will require a subscriber to sign an application form furnished by TELECOM VENTURES, LLC and to establish his credits as provided in these regulations as a condition precedent to the initial establishment of such service. TELECOM VENTURES, LLC acceptance of an order for service to be provided to an applicant whose credit has not been duly established to the sole and exclusive satisfaction of TELECOM VENTURES, LLC may be subject to the provisions as described in Section 6.10. This application shall state the date on which service is to be provided, the type of facilities required, and any special arrangements related thereto.

TELECOM VENTURES, LLC will also require a signed authorization from a member for additions to or changes in the existing service of such member.

An application for service canceled by the member or TELECOM VENTURES, LLC prior to the establishment of the service applied for, is subject to provisions of Regulation 6.12.

6.9 Minimum Service Period

A minimum period for service will be one month (30 days) unless otherwise stated.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.10 Advanced Payments and Deposits

6.10.1 Advanced Payments

The Company may require a Customer to make an advance payment for special construction before a specific service or facility os furnished. In general, the advance payment will not exceed an amount equal to the non-recurring charge(s) for special construction for the service or facility. The advance payment will be credited to the Customer's initial bill..

6.10.2 Deposits

To safeguard its interest, the Company may require the Customer to make a deposit to be held as a guarantee for the payment of charges in accordance with Rule 4902:1-17 of the Ohio Administrative Code, MTSS 4901:1-5-13 and 401:1-5-14. A deposit may be required if the customer's financial condition is not acceptable to the Company or is not a matter of general knowledge. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount equal to two (2) month's charges for tariffed services plus 30% of the monthly estimated charge for a specified customer, or: two (2) month's charges for a service or facility which has a minimum payment period of one month.

In compliance with MTSS 4901:1-5-14, residential customers have the option of providing a third-party guarantor in lieu of a deposit.

6.11 Payment of Charges

For billing of fixed charges, service is considered to be established on the day following the day in which TELECOM VENTURES, LLC notified the member of completion of installation and testing of the dedicated access lines, channels and equipment, or completion of installation and testing of the member's access code (for dial-up service).

All recurring charges which are determinable in advance, including minimum charges, are billed monthly in advance. Charges based on actual usage during a month will be billed monthly in arrears. Installation and other non-recurring charges are payable by the billing due date. The member will be billed for all usage accrued beginning immediately upon access to the service. For the purpose of computing charges, a month is considered to consist of 30 days.

6.11.1 Late Payment Charge

Member bills for telephone service are due when they are rendered. A customer is in default unless payment is made by the date specified on the bill.

If payment is not made within one month of the date of the bill, a late payment charge of one and one-half (1 1/2%) per monthly billing period will be applied to all amounts previously billed under this company's tariff(s) not including arrears.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.11 Payment of Charges (cont'd)

6.11.2 Returned Check Charge

A customer charge may be assessed for all checks returned by the drawee bank for uncollected, insufficient funds, closed account, apparent tampering, missing signature or endorsement, or any other insufficiency or discrepancy necessitating return of the instrument at the discretion of the drawee bank. Minimum $1.00 Maximum $50.00.

Current charge as shown in Section 7.2 is **$25.00**

6.12 Cancellation of Application for Service

When a Customer cancels an application for service prior to the start of service, or prior to any special construction, no charges will be imposed except for those specified below:.

Where the Company has notified a Customer or prospective customer of the possibility that special expenses may be incurred in connection with provisioning their service, and then the Company does incur such expenses. Expenses could include special construction, or where special arrangements of facilities or equipment have begun before the Company received a cancellation notice. The charge will be equal to the costs actually incurred, less net salvage.

6.13 Disconnection of Service

5) As cited in MTSS Rule 401:1-5-17(B), Toll service may be disconnected for nonpayment of toll service

a) When Telecom Ventures, LLV disconnects toll service for nonpayment of toll debt, the method of toll disconnection which Telecom Ventures, LLC utilizes:

i) must not function as avehicle by which the (non-paying) toll subscriber is denied access, through presubscription, to any other toll service provider besides the one whose provision of toll service ehas precipitated the toll disconnection;

ii) must be available from Telecom Ventures, LLC by tariff, on a nondiscriminatory basis to all toll service providers; and

iii) may consist of either a dePICing mechanism or else a selective toll blocking service.

.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.14 Interruption of Service

It shall be the obligation of the member to notify TELECOM VENTURES, LLC of any interruption in service.

When the service provided by Telecom Ventures, LLC under this tariff is interrupted for sixty (60) continuous minutes or more for dedicated access line service, or for eight (8) continuous hours for dial-up service, credit is allowed on demand to Telecom Ventures, LLC computed as set forth below, provided such interruption is not shown by Telecom Ventures, LLC to have been caused by negligence or willful act of the member, or anyone at a member terminal location, or is not caused by the failure of the member's equipment or power supply.

Credit is computed by multiplying the monthly rate for service by the ratio that the number of hours (including fractional parts calculated to the nearest tenth of an hour) in the period of interruption bears to 720 (For the purpose of this computation, each month shall be consifdered to have 720 hours). The monthly bill on which the credit will be based for private line service shall be the actual billing for the month during which the interruption occurred.

The monthly bill on which the credit will be based for message service shall be the non-usage billing for the month during which the interruption occurred. An interruption is measured from the time Telecom Ventures, LLV detects trouble, or the member notified Telecom Ventures, LLC of the interruption by telephone, until the trouble is cleared. Each interruption is considered separatelyu for purposes of establishing credi allowance. Interruption shall be accumulated to the nearest half hour period.

6.15 Special Member Arrangements

In cases where a member requests special arrangements which may include engineering, installation, construction, facilities, assembly, purchase, or lease of facilities, and/or other special services not offered under this tariff, TELECOM VENTURES, LLC at its' option, will provide the requested services. The charges for these services will be passed through from the LEC. contracts for special services will be submitted to the PUCO for review and approval.

6.16 Directory Assistance

Directory Assistance Services, as provided by the company consists of supplying or attempting to supply listed telephone numbers to persons who call the directory assistance bureau. The charges billed to the customer, pursuant to this tariff, shall reflect only those directory assistance calls billed to the company by the Local Exchange Carrier. Directory Assistance personnel cannot complete calls to requested telephone number. MINIMUM PER CALL $0.10 MAXIMUM PER CALL $5.00.

Current charge shown in Section 7.2 is **$0.65 per call**

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.17 General Description of Service and Rates

A) Service is to be offered on a metered use basis.

B) Where dedicated facilities are required to access TELECOM VENTURES, LLC, TELECOM VENTURES, LLC will arrange for such facilities to be placed, and

1) Billed to the member directly from the third party

2) Billed and administered by TELECOM VENTURES, LLC

C) The following is a list of TELECOM VENTURES, LLC services and the references for the description and appropriate rates.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.22 Inward WATS Extension: Focus, Focus 100, Focus Elite, Focus Corporate

Inward WATS extension is a dial in service allowing members to originate calls from any location in the lower 48 states, Alaska, Hawaii, Canada, The Virgin Islands and Puerto Rico.

Authorized user of inward WATS extension service may include the general public since the member elects to dedicate one telephone number at his/her location to be accessed by the calling party after dialing a TELECOM VENTURES, LLC 800 access number. TELECOM VENTURES, LLC then routes the call to the members previously dedicated number supplied by the member upon application for TELECOM VENTURES, LLC membership.

All calls are billed at 1/10 minute increments, after the first 30 seconds

A) One time processing fee

	Minimum	Maximum
Per Account	$5.00	$50.00

B) Inward WATS extension service is subject to the calling period discounts stated in 6.18.5.

C) Programming fee to change destination number is

	Minimum	Maximum
Per change	$1.00	$50.00

D) Specialized blocking fee is

	Minimum	Maximum
Per Change	$5.00	$150.00

E) Focus is a flat rate inward WATS service provided to small users, $10.00 to $250.00 per month. This provides the small volume user with a flat rate per minute for inward WATS calls made within the continental United States.

	Peak	Off-Peak
Minimum Rate	0.0400	0.0100
Maximum Rate	0.5000	0.4900

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.22 Inward WATS Extension: Focus, Focus 100, Focus Elite, Focus Corporate (cont'd)

F) Focus 100 is a flat rate inward WATS service provided to medium users, $250.00 to $500.00 per month. This provides the medium volume user with a flat rate per minute for inward WATS calls made within the continental United States.

Minimum Rate	0.04	0.04	0.04
Maximum Rate	0.15	0.15	0.15

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.24 Traditional Operator Services

6.24.1 Class of Service

Three classes of traditional operator services are offered:

A) Traditional Operator Station to Station Traditional operator station to station calls allow for completion of traditional operator assisted service to the desired telephone number when the calling party does not specify a particular person to be reached, or a particular station, department, or office to be reached through a communications system attendant.

B) Customer Dialed Calling Card Customer dialed calling cards allow for completion on non-operator assisted calls when one of the following dialing sequences is utilized:

1. 0 + NPA + NXX-XXXX + Credit Card

2. 00 + NPA + NXX-XXXX + Credit Card

3. Calling party inserts a credit card into a card reader (Where equipment is available) dials the digit ZERO (0), or double ZERO (00), plus NPA-NXX-XXXX

4. In addition, a call is considered as customer dialed calling card when the calling party dials:

   0 + NPA + NXX-XXXX or
   00 + NPA + NXX-XXXX or
   The calls originates from a non touch tone phone, and the credit card number is given to the operator if TELECOM VENTURES, LLC does not have automatic recording equipment to record the credit card number, and the call is not classified as person to person.

C) Person to Person Service Person to person service allows the person originating the call to specify to a TELECOM VENTURES, LLC operator a particular person to be reached, or a particular station, department, or office to be reached through the communications system attendant. When, after the telephone, or communications system has been connected and while the connection remains established, the person originating the call requests or agrees to talk to any other person, station, department, or office to be reached through a communications attendant, the classification of the call remains person to person. When the person originating the call wishes the TELECOM VENTURES, LLC operator to make arrangements in advance with a particular party or station for the establishment of a connection at a specific time (appointment call), the call is classified as person to person.

6.24 Traditional Operator Services (cont'd)

6.24.1 Class of Service (cont'd)

6.24.2 Rating a Call

For traditional operator station to station, customer dialed calling cards and traditional person to person calls, the process of rating a call is as follows:

A) MTS Portion of Call

Minimum and Maximum Rates for MTS portion of call

Mileage	1st minute		Each additional minute	
	Minimum	Maximum	Minimum	Maximum
1 - 10	0.06	0.32	0.06	0.16
11 - 22	0.06	0.40	0.06	0.22
23 - 55	0.06	0.48	0.06	0.28
56 - 124	0.06	0.57	0.06	0.37
125 - over	0.06	0.58	0.06	0.39

B) Surcharges

Minimum and Maximum Surcharges All Mileage Ranges

	Minimum	Maximum
Calling card	$0.00	$1.25
Credit card	$0.00	$1.25
Station to station (customer dialed)	$0.00	$1.25
Operator dialed (collect, bill to 3rd party)	$0.00	$1.75
Person to Person	$0.00	$3.20

6.24.3 Calculation of Charges

A) The billing elements used to determine message charges are as follows: length of time of call, time of day, and applicable operator service charge.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.24 Traditional Operator Services (cont'd)

6.24.3 Calculation of Charges (cont'd)

B) Charges for the time portion of the billing element are applied on the basis of whole minute intervals. the billing interval for this element is determined by rounding up partial minutes to the next whole minute.

C) Time of day discounts apply as found in Section 6.18.2.

D) Chargeable time begins when connection is established between the calling party and the desired telephone, communications system attendant or directly dialed station.

E) Chargeable time ends when the connection is terminated.

F) Regulations and discounts for the hearing impaired as found in the Service Requirements Form also apply for operator assisted calls.

6.24.4 Reversal of Charges

Charges for traditional person to person, traditional operator station to station and customer dialed calling card calls may be billed against or collected from the called station if the charges are accepted at the called station. This collect call may be billed to a calling card or third party number. In the case of a public or semi-public Telecom Ventures, LLCn telephone, the charges must be billed to a credit card or third party number, or the call may be re-originated from the called station. The regularly established rates apply except that: When the called station does not accept the charges and the calling party requests the TELECOM VENTURES, LLC operator to place the call later, on a collect basis, the classification of the call is changed to person to person and the rates and regulations applicable to person to person apply.

6.24.5 Bill to Third Party

Bill to third party denotes a billing arrangement by which a call may be charges to an authorized station as determined by TELECOM VENTURES, LLC other than the station originating the call or the station where the call is terminated. Bill to third party calls may be traditional person to person or traditional operator station to station as designated by the calling party.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.25 Alternative Operator Services

6.25.1 Description of Services

A) General

The carrier endeavors to provide high quality service. Service including operator assistance, is available 24 hours a day, 7 days a week, subject to routine maintenance and outages beyond the control of the carrier. Carrier's switching equipment is designed and engineered to provide high quality transmission of voice and data with a minimum level of impairment such as noise and echo. However, overall quality may vary somewhat due to the variability in quality of the connections provided by the local telephone companies and other interexchange carriers which is beyond the company's control.

In the future, the Company may be using a name other than Telecom Ventures, LLC. Until such time that a filing have been completed at the Ohio Secretary of State, the Company will brand its services as Telecom Ventures, LLC.

B) Timing of calls

1) Time duration of calls is measured and billed in one minute increments, fractional minutes of use are rounded up to the next full minute.

2) Chargeable time for end user dialed calling card or credit card calls will begin when the local exchange company signals that the called party has answered. For operator station and person-to-person calls, chargeable time will not begin until the final connection is established between the calling party and the called party. No charge will apply to collect calls not accepted by the billing party. No charge will apply to person-to-person calls for which the designated party or agreed alternate is unavailable. In all cases, chargeable time ends when either party disconnects.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.25 Alternative Operator Services (cont'd)

6.25.1 Description of Services (cont'd)

C) Determination of Mileage

1) Calls are measured from the rate center of the subscriber's terminal or switch location to the rate center of the destination of the call.

2) The distance between the rate centers of the subscriber's switch and the destination point is calculated by using the vertical ("V") and horizontal ("H") coordinates found in AT&T TARIFF FCC NO. 10, in the following manner:

STEP 1 Obtain the "V" and "H" coordinates for the subscriber's switch and the destination point.

STEP 2 Obtain the difference between the "V" coordinates of each of the rate centers. Obtain the difference between the "H" coordinates.

STEP 3 Square each of the differences obtained in STEP2.

STEP 4 Add the squares of the "V" difference and "H" difference obtained in STEP 3.

STEP 5 Divide the sum of the squares obtained in STEP 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

STEP 6 Obtain the square root of the whole number obtained in STEP 5. Round to the next higher whole number if any fraction is obtained. This is the mileage between the rate centers.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.25 Alternative Operator Services (cont'd)

6.25.1 Description of Services (cont'd)

D) Comcall

1) Service is a one-way multipoint service oriented toward the lodging industry, hospitals, universities, and business establishments. The service enables guests, patron, patients, employees, and other authorized end users to place operator assisted long distance calls within Ohio from Subscriber premises. The caller may select a billing method in accordance with his or her preference. Calls are initially intercepted by TELECOM VENTURES, LLC operator who will obtain the appropriate billing information, or the caller may enter billing information directly. The call will then be connected.

2) Service is available 24 hours per day, 7 days a week from subscriber premises.

3) No deposits are required for Comcall.

4) Minimum call duration is one minute. Charges are based on the usage charges for the initial minute and additional minutes, time-of-day discounts, and applicable service charges.

5) Comcall rates and charges are as follows:

Minimum and Maximum Rates for Intercity Usage Charges

Mileage	1st minute		Each additional minute	
	Minimum	Maximum	Minimum	Maximum
1 - 10	0.23	0.32	0.11	0.16
11 - 22	0.29	0.35	0.15	0.21
23 - 55	0.32	0.38	0.19	0.25
56 - 124	0.35	0.41	0.23	0.29
125 - over	0.38	0.44	0.25	0.31

6) Surcharges

Maximum Surcharges All Mileage Ranges

	Maximum
Customer Dialed Calling Card Calls	$1.70
Operator Handled Calls	$2.50
Person to Person Calls	$4.80

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.26 Miscellaneous and Special Services

6.26.1 Field Check Out and Survey Visit Charge

This field charge is to cover the appropriate cost to carrier involved in visiting subscriber's premises to determine if subscriber-provided equipment will properly interface with carrier's system and to make minor adjustments, etc. Each such visit will be provided on a per hour basis.

Minimum Per Hour Charge	$10.00
Maximum Per Hour Charge	$60.00

6.26.2 Special Billing Arrangement

This charge will provide for any form of special or additional rendering of bills.

Monthly Charge	Minimum Cost	Maximum Cost
Reports	$2.00	$12.00
Billing on disk	$10.00	$60.00
Billing on tape	$10.00	$60.00

6.26.3 Trouble Shooting at Customer's Premises

This charge is to cover the cost to CO of a visit to member's premises to determine what equipment is the cause of a malfunction. This charge applies in cases where TELECOM VENTURES, LLC identifies the trouble to be caused by customer provided equipment and is unrelated to any malfunction by TELECOM VENTURES, LLC. This charge applies from the time TELECOM VENTURES, LLC personnel are dispatched until the problem is identified.

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.26 Miscellaneous and Special Services(cont'd)

6.26.3 Trouble Shooting at Customer's Premises (cont'd)

Each such visit will be billed based on full rates of Section 6.26.1, minimum one (1) hour. Any additional time over the first hour will be billed in one half (1/2) hour increments at one half (1/2) of the full rate.

A charge also applies when the local telephone company, upon consent of the customer and at the request of TELECOM VENTURES, LLC, makes a trouble shooting visit to the customer's premises and determines that trouble is caused by customer provided equipment. Such service call expense will be the responsibility of the customer and will be billed directly by the LEC or will be a direct pass through from the LEC to the customer.

The customer will be responsible for any charges when TELECOM VENTURES, LLC, acting as customer's agent, requests that the vendor of the customer-provided equipment make a trouble shooting visit to customer's premises. The customer will be billed directly by the vendor of the customer provided equipment.

6.26.4 After Hours Work Charge

This charge is to cover the additional costs incurred by TELECOM VENTURES, LLC when performing standard tariff services outside of normal work hours. This charge applies to each hour expended rounded to the nearest half hour. It applies in addition to the standard tariff charges for the work requested.

Each such visit will be billed based on full rate following, minimum one (1) hour. Any additional time over the first hour will be billed in one half (1/2) hour increments at one half (1/2) of the full rate.

Minimum Charge After Hours Per Hour	$10.00
Maximum Charge After Hours Per Hour	$150.00

6.0 INTEREXCHANGE SERVICE TARIFF (cont'd)

6.27 Service Promotions

The company may from time to time engage in special promotional trial service offerings of limited duration designed to attract new customers or to increase existing customer awareness of a particular tariff offering. Requests for promotional offerings will be presented to the Commission for its review, in accordance with rules and regulations established by the Commission, and will be included in the Company's tariff as an addendum to the company's pricing list.

8.0 END USER ACCESS FEES

8.1 Intrastate Access Fee in Sprint Areas of Ohio

TELECOM VENTURES, LLC will provide End User Access Service to end users who obtain local exchange service from the TELECOM VENTURES, LLC under its NEC PUCO Tariff No. 1. End users who obtain local exchange service from TELECOM VENTURES, LLC under its tariffs are subject to the Intrastate Access Fee (IAF) specified in Section 8.1.G as set forth in Section 8.1.F following.

A) General Description

End User Access Service as described in this section relates to the use by an ender user of an end user common line.

Use of a subscriber line is provided twenty-four hours a day, seven days a week.

B) Limitations

1) A telephone number is not provided with End User Access.
2) Detail billing is not provided with End User Access.
3) Directory listings are not included with End User Access.
4) Intercept arrangements are not included with End User Access.

C) Undertaking of the Company

TELECOM VENTURES, LLC will provide use of End User Access at rates and charges as set forth in 8.1.H following, as follows:

1) Use of a common line by an end user with local exchange service in connection with Intrastate Access Services provided under this tariff. Such use will be provided when the end user obtains local exchange service.

2) TELECOM VENTURES, LLC will be responsible for contacts and arrangements with customers for the billing of End User Access rates.

3) Use of a common line by an End User for access for MTS/WATS-type, operator-DDD, operator-person, collect, third number, credit card, and/or other like calls.

4) Use of a common line by a Customer for access to an intrastate service arrangement (e.g., Toll Free Code Service, NPA+555+1212 service, 900 Service, intrastate InWATS and OutWATS Service, and other similar arrangements).

5) Use of a common line requires the facilities at the End User and IC premises to have the necessary on-hook and off-hook supervision.

8.0 END USER ACCESS FEES (cont'd)

8.1 Intrastate Access Fee in Sprint Areas of Ohio (cont'd)

D) Obligations of the End User

1) When the end user is provided with a local exchange service that is not identified as Centrex, Business or Residence service, it shall provide TELECOM VENTURES, LLC any requested information necessary for TELECOM VENTURES, LLC to determine the appropriate charges.

E) Payment Arrangements and Credit Allowances

1) Minimum Period

The minimum period for which End User Access is provided to an end user and for which charges are applicable is the same as that in the NEC PUCO Tariff No. 1.

2) Cancellation of Application

End User Access is cancelled when the order for the associated local telephone exchange service is cancelled. No cancellation charges apply.

3) Changes to Orders

When changes are made to orders for the local exchange service associated with End User Access, any necessary changes will be made for End User Access. No charges will apply.

4) Allowance for Interruptions

When there is an interruption to a common line, requested End User Access credit allowances for interruptions will be provided as set forth for credit allowance for interruptions in Section 2.7 preceding.

F) Rate Regulations

IAF per month charges will be billed to the end user of the associated local exchange service. The rate applications are described in (1) through (10) following.

1) The IAF residence subscriber regulations are designated as either primary or non-primary. The primary rate is assessed to the residential subscriber line which is any or all of the following: a) the only line provided at that service location; or b) the line designated as primary be the billed party or parties at that service location at the point of ordering the service. In most cases only one line at a service location can be classified as primary, all others are considered to be non-primary.

8.0 END USER ACCESS FEES (cont'd)

8.1 Intrastate Access Fee in Sprint Areas of Ohio (cont'd)

F) Rate Regulations (cont'd)

2) When an end user is provided more than one local business exchange service by TELECOM VENTURES, LLC and when the local business exchange is not covered by (8) following, the IAF for a multi-line business subscriber applies to each such local business exchange service.

3) Wen an end user is provided only a single individual local business exchange service within the state by TELECOM VENTURES, LLC, the Individual Line Business Subscriber IAF applies to the individual line business.

4) When an end user is provided a local residence exchange service by TELECOM VENTURES, LLC, the IAF applies to each such local residence exchange service on a Primary and Non-Primary basis.

5) For each local exchange service provided as Remote Call Forwarding (RCF) residential service or Remote Call Forwarding business service, IAF charges do no apply.

6) When an end user is provided a local exchange service that is not identified as Centrex, Business or Residence service (e.g., Local Service), TELECOM VENTURES, LLC will designate the service as either Centrex, Business or Residence Service. The IAF for Business Subscriber or Residential Subscriber in accordance with the designation will apply.

7) When an end user is provided with Centrex CO or Centrex CO-like services, the Multi-line Business Subscriber IAF applies for each line or trunk. Centrex CO and Centrex CO-like services a) are provided using switches located at Sprint/United or TELECOM VENTURES, LLC central offices and b) line Customer main stations to Sprint/ United or TELECOM VENTURES, LLC switch with subscriber loops.

8) When an end user is provided Integrated Services Digital Network/Primary Rate Interface (ISDN/PRI) or enhanced Service Provider (ESP) link arrangement, the Multi-line Business Subscriber IAF is multiplied by five and applies for each such ISDN/PRI arrangement.

9) When an end user is provided Integrated Services Digital Network/Basic Rate Interface (ISDN/BRI), the Non-primary Residential Subscriber IAF is assessed for each such facility.

10) In response to competition in an exchange, Sprint may reduce or waive the IAF in a manner that is not unreasonable discriminatory. TELECOM VENTURES, LLC will follow that reduction or waiver.

8.2 Intrastate Access Recovery Charge (ARC) in Verizon Areas of Ohio

For Ohio Intrastate application the following regulations and rates apply.

A) Regulations

TELECOM VENTURES, LLC will provide End User Access Service to end users who obtain local exchange service from the TELECOM VENTURES, LLC under its NEC PUCO Tariff No. 1. End users who obtain local exchange service from TELECOM VENTURES, LLC under its tariffs are subject to the Intrastate Access Fee (ARC) specified in Section 8.2.G following.

B) Limitations

1) A telephone number is not provided with End User Access.
2) Detail billing is not provided with End User Access.
3) Directory listings are not included with End User Access.
4) Intercept arrangements are not included with End User Access.

C) Undertaking of the Company

TELECOM VENTURES, LLC will provide use of End User Access at rates and charges as set forth in 8.2 following, as follows:

1) Use of a common line by an end user with local exchange service in connection with Intrastate Access Services provided under this tariff. Such use will be provided when the end user obtains local exchange service.

2) TELECOM VENTURES, LLC will be responsible for contacts and arrangements with customers for the billing of End User Access rates.

3) Use of a common line by an End User for access for MTS/WATS-type, operator-DDD, operator-person, collect, third number, credit card, and/or other like calls.

4) Use of a common line by a Customer for access to an intrastate service arrangement (e.g., Toll Free Code Service, NPA+555+1212 service, 900 Service, intrastate InWATS and OutWATS Service, and other similar arrangements).

5) Use of a common line requires the facilities at the End User and IC premises to have the necessary on-hook and off-hook supervision.

8.0 END USER ACCESS FEES (cont'd)

8.2 Intrastate Access Recovery Charge (ARC) in Verizon Areas of Ohio (cont'd)

D) Obligations of the End User

1) When the end user is provided with a local exchange service that is not identified as Centrex, Business or Residence service, it shall provide TELECOM VENTURES, LLC any requested information necessary for TELECOM VENTURES, LLC to determine the appropriate charges.

E) Payment Arrangements and Credit Allowances

1) Minimum Period

The minimum period for which End User Access is provided to an end user and for which charges are applicable is the same as that in the NEC PUCO Tariff No. 1.

2) Cancellation of Application

End User Access is cancelled when the order for the associated local telephone exchange service is cancelled. No cancellation charges apply.

3) Changes to Orders

When changes are made to orders for the local exchange service associated with End User Access, any necessary changes will be made for End User Access. No charges will apply.

4) Allowance for Interruptions

When there is an interruption to a common line, requested End User Access credit allowances for interruptions will be provided as set forth for credit allowance for interruptions in Section 2.7 preceding.

F) Rate Regulations

Intrastate ARC per month charges will be billed to the end user of the associated local exchange service. The rate applications are described in (1) through (8) following.

1) Residence service is considered a line that is used primarily for social, not business, purposes.

8.0 END USER ACCESS FEES (cont'd)

8.2 Intrastate Access Recovery Charge (ARC) in Verizon Areas of Ohio (cont'd)

F) Rate Regulations (cont'd)

2) When an end user is provided local business exchange service by TELECOM VENTURES, LLC and when the local business exchange is not covered by parts 7 or 8 following, the ARC for a business subscriber applies to each such local business exchange service.

3) When an end user is provided a local residence exchange service by TELECOM VENTURES, LLC, the ARC applies to each such local residence exchange service.

4) For each local exchange service provided as Remote Call Forwarding (RCF) residential service or Remote Call Forwarding business service, ARC charges do no apply.

5) When an end user is provided a local exchange service that is not identified as Centrex, Business or Residence service (e.g., Local Service), TELECOM VENTURES, LLC will designate the service as either Centrex, Business or Residence Service. The ARC for Business Subscriber or Residential Subscriber in accordance with the designation will apply.

6) When an end user is provided with Centrex CO or Centrex CO-like services, the Business ARC applies for each line or trunk. Centrex CO and Centrex CO-like services a) are provided using switches located at GTE/Verizon or TELECOM VENTURES, LLC central offices and b) line Customer main stations to GTE/Verizon or TELECOM VENTURES, LLC switch with subscriber loops.

7) When an end user is provided Integrated Services Digital Network/Primary Rate Interface (ISDN/PRI), the Business ARC is multiplied by five and applies for each such ISDN/PRI arrangement.

8) When an end user is provided Integrated Services Digital Network/Basic Rate Interface (ISDN/BRI), the Residential ARC is assessed for each such facility.

8.7 **Service Provider Number Portability - Location Routing Number (SPNP - LRN)**

A) Service Provider Number Portability - Location Routing Number (SPNP - LRN)

SPNP-LRN depends on AIN/IN technology. LRN is a 10-digit number used to uniquely identify a switch that has ported numbers. The LRN for a particular switch must be a native NPA-NXX assigned to the local exchange provider for that switch and serves as a network address. Telecommunications Carriers routing telephone calls to an end-user that has ported their telephone number from one Telecommunications Carrier to another must perform a database query to obtain the LRN that corresponds to the dialed telephone number. The N-1 telecommunications provider (the next to the last terminating carrier) is responsible for determining the LRN for the call being terminated. The database query is performed for all calls where the NPA-NXX of the Telecommunications Carrier routes the call to the appropriate Telecommunications Carrier based on the LRN.

SPNP-LRN will be initially deployed in Cleveland by May 15, 1998, and will continue through a phased in deployment which will complete December 1998 according to FCC Docket No. 95-116, as published in the Local Exchange Routing Guide (LERG). Subsequent deployment in additional switches beyond initial deployment pursuant to FCC Docket No. 95-116 and PUCO Case No. 95-845-TP-TELECOM VENTURES, LLC, will be accomplished through receipt of a bona fide request.

B) General

Service Provider Number Portability (SPNP) is only available to telecommunication carriers for use in the provision of a telecommunications service as specified and to the extent required by the Telecommunications Act of 1996, Pub. L. No. 104-104, 110 Stat. 56 (1996) ("the Act") and the rules and regulations of the Federal Communications Commission and the Public Utilities Commission of Ohio.

Service Provider Number Portability is a service arrangement provided by the Company to Telecommunication Carriers whereby a customer, who switches subscription to local exchange service from the Company to a Telecommunication Carrier is permitted to retain for their use the existing Company assigned telephone number provided that the customer's service location remains within the same Company rate center.

C) Rules and Regulations

SPNP service is only available to Telecommunication Carriers.

SPNP service and facilities will only be provided where technically feasible, subject to the availability of facilities and pursuant to FCC Docket No. 95-116 and PUCO Case No. 95-845-TP-TELECOM VENTURES, LLC, and may only be furnished from properly equipped central offices. SPNP service and facilities are not offered for Mass-Calling NXX Codes, NXX Codes 555, 976, 950, FX service, or Ameritech Telecom Ventures, LLCn telephone service.

General Regulations as found in Section 2 of this Tariff apply to this Sub-Section. The term "customer", which appears in Section 2 is the equivalent of the term "telecommunication carrier" as used in this Sub-Section.

8.0 REGULATIONS (cont'd)

8.7 **Service Provider Number Portability - Location Routing Number (SPNP - LRN)**

C) Rules and Regulations (cont'd)

Telecommunications Carriers will be assessed Local Number Portability (LNP) Query Charges as defined in F.C.C. No. 2, Section 6, as SPNP-LRN becomes available in an area if the Company performs an LNP database query on behalf of the Telecommunications Carrier.

Interim Arrangements (SPNP-Remote and SPNP-Direct) are only available to Telecommunications Carriers in areas where SPNP-Location Routing Number (LRN) is available. Telecommunications Carriers shall migrate from Interim Arrangements to SPNP-LRN as soon as practicable, but no later than 120 days from the last day which the F.C.C. has mandated SPNP-LRN be available in a particular Metropolitan Statistical Area (MSA). The parties shall provide long-term number portability to each other in accordance with rules and regulations prescribed by the F.C.C. and/or the P.U.C.O.

D) Responsibilities of the Company

The Company's sole responsibility is to comply with the service request it receives from the Telecommunication Carrier and to provide SPNP in accordance with its tariff. In the event that the Company becomes aware that a dispute of discrepancy may have occurred, it may insist that the Telecommunication Carrier provide to the Company a signed letter of Authorization from the end-user.

The Company is not responsible for the allocation of charges for resold or shared SPNP service or for misdialed calls.

E) Responsibilities of the Telecommunication Carrier

The Telecommunication Carrier is solely responsible to obtain a signed letter of authorization from the end-user for the handling of the disconnection of the end-user's service with the Company, the provision of service by the Telecommunication Carrier and the provision of SPNP service. Should a dispute or discrepancy arise regarding the authority of a Telecommunication Carrier to act on behalf of the end-user, the Telecommunication Carrier is responsible for providing a signed letter of authorization, to the Company. In the event that the Telecommunication Carrier is unable to provide such authorization, the Company may either refuse to disconnect the end-user's service and establish SPNP service as requested by the Telecommunication Carrier or, where the conversion from end-user to SPNP service has already occurred, may choose to restore the end-user's prior service with the Company and terminate SPNP service for that particular end-user. In such event, the Telecommunication Carrier is responsible to compensate the Company for its cancellation costs if the end-user's service had not been disconnected and SPNP service had not yet been established or to pay all applicable restoral costs for terminating the SPNP service and restoring the end-user's prior service with the Company.

The Telecommunication Carrier is responsible for coordinating the provision of service with the Company to assure that its switch is capable of accepting SPNP ported traffic.

8.0 REGULATIONS (cont'd)

8.7 Service Provider Number Portability - Location Routing Number (SPNP - LRN) (cont'd)

E) Responsibilities of the Telecommunication Carrier (cont'd)

The Telecommunication Carrier is solely responsible to provide equipment and facilities that are compatible with the Company's service parameters, interfaces, equipment and facilities. The Telecommunication Carrier is required to provide sufficient terminating facilities and services at the terminating end of an SPNP call to adequately handle all traffic to that location and is solely responsible to ensure that its facilities, equipment and services do not interfere with or impair any facility, equipment or service of the Company or any of its end-users. In the event that the Company determines in its sole judgement that Telecommunication Carrier will likely impair or is impairing, or interfering with any equipment, facility or service of the Company or any of its end-users, the Company may either refuse to provide SPNP service or terminate it in accordance with other provisions of the Company's tariff.

The Telecommunication Carrier is responsible for providing an appropriate intercept announcement service for any telephone numbers subscribed to SPNP service for which it is not presently providing local exchange service or terminating to an end-user.

The Telecommunication Carrier is responsible for designating to the Company at the time of its initial service request for SPNP service on of the following options for the handling and processing of Calling Card, Collect, third party, and other operator handled non-sent paid calls from or to SPNP assigned telephone numbers: (1) the Connecting-Carrier may request that the Company block all such calls; (2) the Telecommunication Carrier may accept billing from the Company for such calls; or (3) the Telecommunication Carrier may negotiate a separate, detariffed billing and collection agreement with the Company establishing the call handling, processing and billing responsibilities of the parties.

F) Limitations of Service

The Company is not responsible for adverse effects on any service, facility or equipment from the use of SPNP service.

End-to-end transmission characteristics may vary depending on the distance and routing necessary to complete calls over SPNP facilities and the fact that another carrier is involved in the provisioning of service. Therefore, end-to-end transmission characteristics cannot be specified by the Company for such calls.

The Company is not responsible to the Telecommunication Carrier if necessary changes in protection criteria or in any of the facilities, operation, or procedures of the Company renders any facilities provided by a Telecommunication Carrier obsolete or renders modification of the Telecommunication Carrier's equipment necessary except as otherwise required by the Public Utilities Commission of Ohio.

8.0 REGULATIONS (cont'd)

8.0 END USER ACCESS FEES (cont'd)

8.8 Rate Regulations

EUCL, and LNP per month rates will be billed to the end user of the TELECOM VENTURES, LLC IPC per-line rates will be billed to the presubscribed interexchange carrier of the associated local exchange service. In the event that the end user chooses not to presubscribe to an interexchange carrier, or has no interexchange carrier selection option, (e.g. individual direct inward dialing (DID) lines), the IPC will be billed to the end user. The rate applications are described in (A) through (N) following.

A) The EUCL residence subscriber rates, as described in (A) following are assessed on a Primary and Non-Primary basis.

The EUCL residence subscriber rate regulations are designated as either primary or non-primary. The primary rate is assessed to the residential subscriber line which is any or all of the following: 1) the only line provided at that service location; or 2) the line designated as primary by the billed party or parties at that service location at the point of ordering the service. In most cases only one line at a service location can be classified as primary, all others are considered to be non-primary.

B) When an end user is provided more than one local business exchange service in a state by the same Telephone Company and when the local business exchange service is provided as a multi-party service under the NEC tariff, each party is deemed to be a user of an EUCL and the EUCL Multi-line Business Subscriber - line or trunk rate and the IPC Multi-line Business rate, as set forth in Sections 8.3 and 8.4 for the number of parties involved for each such party.

C) When an end user is provided more than one local business exchange service in a state by the same Telephone Company and when the local business exchange service is provided under the NEC tariff and is not covered by (B) preceding or (K) following, the EUCL Multi-line Business Subscriber - line or trunk rate and the IPC Multi-line Business rate as set forth in Sections 8.3 and 8.4 applies to each such local business exchange service.

D) When an end user is provided a single local business exchange service in a state by the same Telephone Company and when the local business exchange service is provided as a multi-party service under the NEC tariff, each party is deemed to be a user of an EUCL and the EUCL Single Line Business Subscriber - line or trunk rate as set forth in Section 8.3 applies to each such party.

E) When an end user is provided only single local business exchange service in a state by the same Telephone Company under the NEC tariff, the EUCL Single Line Business Subscriber - line or trunk rate as set forth in Section 8.3 applies to each single line business.

F) When an end user is provided a local residence exchange service in a state by the same Telephone Company and when the local residence exchange service is provided as a multi-party service under the NEC tariff, each party is subject to the EUCL Residence Subscriber rates on an Primary and Non-Primary basis as set forth in Section 8.3.

G) When an end user is provided a local residence exchange service in a state by the same Telephone Company under the NEC tariff, the EUCL Residential Subscriber - line or trunk rate as set forth in Section 8.3 applies to each such local residence exchange service on an Primary and Non-Primary basis.

8.0 END USER ACCESS FEES (cont'd)

8.8 Rate Regulations (cont'd)

H) For each local exchange service provided as Remote Call Forwarding (RCF) residential service or Remote Call Forwarding business service, under the general NEC tariff, EUCL charges do not apply.

I) When an end user is provided a local exchange service which is not identified as Centrex, Business or Residence service (e.g., Farm Service, Local Service), the Telephone Company will designate the service as either Centrex, Business or Residence Service. The EUCL and IPC charges as set forth in Section 8.3 and 8.4 for Business Subscriber or Residence Subscriber in accordance with the designation will apply.

J) IPC charges shall be waived for end users who subscribe to toll blocking.

K) When an end user is provided with Centrex CO or Centrex CO-like services under the NEC tariff of the Telephone Company, the EUCL Multi-line Business rate and the IPC Centrex TELECOM VENTURES, LLC or TELECOM VENTURES, LLC-like rate as set forth in Sections 8.3 and 8.4 applies for each business line or trunk. Centrex CO and Centrex CO-like services (1) are provided using switches located at Telephone Company central offices and (2) link Customer main stations to the Telephone Company switch with subscriber loops.

L) When an end user is provided an Integrated Services Digital Network/Primary Rate Interface (ISDN/PRI) under the NEC tariff of the Telephone Company, the EUCL Multi-line Business rate and the IPC Multi-line Business rate as set forth in Sections 8.3 and 8.4 is multiplied by five and applies for each such ISDN/PRI arrangement.

M) When an end user is provided Integrated Services Digital Network/Basic Rate Interface (ISDN/BRI), the EUCL Non-Primary Residence subscriber rate as set forth in Section 8.3 is assessed for each such facility.

N) When an end user is provided an ISDN line, the Line Port Charge (LPC) as set forth in Section 8.5 will be assessed per ISDN line. The LPC recovers the additional cost of the line card.
