| | | | | | | Hello- | | | |
| | | | | | | We recently had a terrible experience with Dominion and feel helpless. In November, we were | | | |
| | | | | | | notified on our billing statement's last page that our previous supplier had dropped our | | | |
| | | | | | | coverage. We did not miss any payments or give them any cause to drop us. We missed this | | | |
| | | | | | | notification because we have electronic statements and it was the very last page and not easily | | | |
| | | | | | | noticed. This resulted in us being placed on the monthly variable rate, the highest rate at the | | | |
| | | | | | | time. Therefore, our bills for our most expensive months of the year were at the highest | | | |
| | | | | | | , | | | |
| | | | | | | possible rate. We called and complained and were to be placed on the monthly standard rate | | | |
| | | | | | | (which should be the default), but were billed at that monthly variable rate again after being | | | |
| | | | | | | assured we would not pay that rate! I was outraged. When I called to talk to them again, they | | | |
| | | | | | | insisted they told us that we would have 2 months of the MVR before the standard choice | | | |
| | | | | | | would take effect. We would have selected another provider at that time if we had known this. | | | |

Customer called DEO and was told she was assigned to Quake. Customer states she was on the SSO rate 2 months ago. Customer would like to know why she was assigned to Quake, how to cancel and go back on the SSO rate, and how to find supplier rates. I advised DEO only places customers on the SSO for 2 months and automatically assigns customers to MVR after the 2 months is over. Customer can contact DEO and request to be back on SCO rate. When the locked in rate ended in Sept 2017 the customer called DES to be placed on the SCO rate and they said he would need to call back in December after his contract ended in November, but DES cannot do that because only DEO can. The bill he got he is stuck with because it is his responsibility to call the correct place to be on the SCO rate. Customer did not know until today that DES and DEO are 2 different companies. Customer states DES cancelled his contract at the expiration and for 2 bills he was put on the SSO rate and then suddenly he was placed on Shipley. I explained DEO's SSO to MVR after contracts end. Concern will be documented. | 15261 Oak Grove Drive | Doylestown | 44230 |

| | | | | | | Customer states his contract with Direct Energy ends on 4/1/18. Customer would like to know if he needs to cancel this before he enrolls with another supplier. Customer would like to know if he cancels if he will go on SCO rate. I advised it usually takes 2 billing cycles for a company to be removed from bill. Since the customer contract ends on 4/1 recommends contacting company to see if cancellation can occur when contract expires. Customer can contact the company he would like to enroll with now, but again will take approximately 2 billing cycles to see enrollment on account. I advised if customer cancels without enrollment into another company, he will be placed on the SSO rate | | | |

| | | | | | On 4/24/2018 Mr. Jordan called and said he wanted the SCO. The Agent set up to drop Santana and start the SCO on 5/11/2018. Mr. Jordan said Santana said would not drop until 6/11/2018. So he said he would have a cancellation fee if he dropped it before 6/11 so the Agent "dropped the drop" so he could keep Santana till the end of his contract | | | |
| | | | | | When Santana eventually sent their drop order, the customer was then assigned a MVR rate Supplier because there was not a Supplier or SCO chosen at that time of the drop on 6/11/2018. | | | |

| Subtotal | Count | | | | 1106 Bell Ridge Rd., Akron OH 44303. On 9/12/2013 I called IGS, then my supplier, and asked to be switched to the SCO rate; the IGS confirmation number of that request is DE0646646. I have contemporaneous notes of that call which specify my request for the SCO. I believe I also called DEO on or about that date to make the same request, but have no confirmation number for that call and DE0 tells me they do not use such confirmation numbers. When auditing bills recently I noticed that DEO's bills showed my rate as "MVR" rather than "SCO," with gas still supplied from IGS. This is not the rate I had requested in 2013. I believe either IGS or DEO made a mistake in 9/2013 by assigning me to the MVR instead of the SCO. I may be due a correction for the difference between the MVR rate and the SCO rate from 9/2013 to 9/2018, a 5 year period. When our bill review uncovered this issue I telephoned DEO on 10/19/18 and again requested to be put on the SCO rate. On that call I explained that my contemporaneous notes from 2013 did record my request to be on the SCO, that I clearly was on the MVR instead, and was told by the DEO agent that this was an error on the part of IGS, not DEO. I telephoned IGS whose agents (first Maria, then Heidi) offered to research the issue. On 11/9/18, an IGS supervisor named Andy told me the issue was being handled by their agent Shaun Bowers (888-330-8361 x 5769). Shaun Bowers and I spoke by telephone several times. He explained that IGS had correctly contacted DEO in 9/2013. He and I together attempted called DEO customer service on 11/15/18 and spoke with "T.C." who ofered to connect us with the Energy Choice Department; after 20 minutes on hold we abandoned this call and agreed to try again on the morning of 11/28/18, after the Thanksgiving holidays. On 11/28/2018 Sahun Bowers and I did reach DEO customer service by phone. The first agent we reached helped us speak to supervisor Lincoln (badge number 0539). Lincoln told us DEO's records in his computer system only go back 36 months and | | | |

| | | | | | | Caller states he was with Volunteer Energy for the last several years and decided to switch. States he called NOPEC and was told to call DEO and be put on the SSO for two months and then NOPEC could enroll him. States he did this and called DEO today and was told he didn't respond to a post card and/or letter and is now with DTE and to call the PUCO for a number to DTE. Caller states he just wants to cancel the DTE enrollment and be enrolled with NOPEC. | | | |
|----------|----------------------------|-------|-------------------------|-----------------------------------|----------------|---|-----------------------|----------|-------|
| | | | | | | Explained to caller DTE is one of the SCO suppliers for DEO. Advised further enrollments with NOPEC can only be done during the open enrollment period. Advised I'm not sure why DEO customer service told him to call the PUCO. Advised caller what SCO rate is, misunderstood him when he said the NOPEC rate was \$6. Asked why he would want to enroll at a rate twice as much as the DEO SCO, he states he doesn't, then he stated the rate for NOPEC is \$3.66 MCF. | | | |
| | | | | | | Caller thought NOPEC was a supplier, advised him it is a gov agg program. He also said he wanted to stay on the SCO and that he imagined the rate would change at the end of year. ******Explained its a monthly variable rate. **** | | | |

I explained that customer who are with a supplier and then returned to DEO are billed on the SSO (MVR) for up to two billing cycles and if they have not called back to be placed on the SCO rate or with another supplier they are assigned a supplier for the MVR and she was assigned to ONG. She needs to call DEO and asked to be placed on the SCO rate or sign up with another supplier. The MVR is extremely high and she needs to contact DEO to get off of it. | 00265053 | Justin Crasi | East Ohio Gas Company T | Competition Issues / | | customer called, stated that he was on the SSO rate with DEO, he wanted to go on the NOPEC rate and he called them. a NOPEC rep told him that he had to first wait to be switched from the SSO to the SCO before they could put him on the NOPEC rate. he says that he waited, and then he received a bill with charges from North American Power and Gas at a price of \$8/mcf. he says that this wasn't supposed to happen and that they are now threatening to charge him for two more cycles after he contacted DEO to cancel with this NAP&G. he says he will cancel his gas service for the summer months since they will not waive the charges by this supplier. i advised NOPEC gave him the wrong info and he would have had to request the SCO or be automatically assigned the MVR. i advised there may be nothing he can do to dispute those charges. | 6002 Ellen Avenue | Cleveland | 44102 |
