**SECTION 3 - DESCRIPTION OF SERVICE, Continued**

**3.10 SELECTIVE ACCESS POLICY, LOCAL TOLL SERVICE**

Company, when providing toll service, may “universally” block access to all toll providers for nonpayment of regulated toll charges, so long as the blocked customer is not denied the right to select, through a presubscribed interexchange change (PIC) mechanism, any other 1+ presubscribed toll service provider who is obligated to provide such service under the terms of the Selective Access Policy.

Under the terms of the Selective Access Policy, Company, when providing toll service, may not deny establishment of 1+ presubscribed toll service on the grounds that the customer has failed to establish creditworthiness, if:

- (a) the customer is able to establish creditworthiness using one of the means for doing so available under the Commission rules, or
- (b) Company, when providing toll service, exercising its own discretion, does not require the customer to establish creditworthiness (through any of the means available for doing so under the Commission rules), or
- (c) Company, when providing toll service, attempts to require the customer to establish creditworthiness using credit establishment procedures which do not comport with the Commission’s credit establishment policies and/or are not set forth within a Commission approved tariff.

When a prospective customer, who has previously been universally blocked for nonpayment of toll charges by another carrier, seeks to select Company as his or her 1+ carrier of choice, Company may, subject to Tariffed toll deposit policies and the Commission’s rules on establishment of service, require a deposit for toll service. This deposit shall be determined in accordance with Commission rules, but Company may negotiate a lower deposit.
