

ArcelorMittal USA, LLC

Alternative Energy Portfolio Status Report

Case No: 13-1912-EL-ACP

To whom it may concern:

Per the most recent findings regarding our motion for protective order, included in this filing is a revised redacted version of ArcelorMittal USA, LLC's 2012 Annual Alternative Energy Portfolio Status Report.

If you have any questions or require additional information, please contact me at (219) 399-4898.

Thank you,

Sidney Gibson

Project Analyst, Energy Procurement

I. 2012 ANNUAL ALTERNATIVE ENERGY PORTFOLIO STATUS REPORT

a. Baseline Calculation

ArcelorMittal USA, LLC had no Ohio retail electric sales for 2009, 2010 or 2011. Our 2012 baseline calculation is simply our projected sales for the year of 2012.

b. 2012 Renewable and Solar Energy Resource Benchmarks and Demonstration of Compliance

Compliance requirements for 2012 have not been met. Our company's electricity sourcing manager, responsible for OH compliance matters, left the organization during the time AEPS obligations were to be met. Due to the transition/re-staffing process, our OH compliance obligations were not met in a timely fashion. We have been extremely busy working to handle the changes as best we can given the circumstances. To ensure that future changes do not have the same impact on our OH compliance matters, we are developing an internal procedure for future compliance years.

Attachment A contains a compliance payment calculation based on the baseline described above (I A). We request a confirmation of the compliance payment value so that we may move forward with payment.

II. PLAN FOR COMPLIANCE WITH FUTURE ANNUAL ADVANCED AND RENEWABLE ENERGY BENCHMARKS

Attachment B contains our future projections as they pertain to our alternative energy compliance. For the 2012 and 2013 years, the baseline is as mentioned above (I A). For the 2014 year, the baseline is an average of year 2012 and 2013 sales. For the remaining years, the baseline is calculated using the average of the previous 3 years' sales projections.

III. CONCLUSION

- a. ArcelorMittal USA, LLC respectfully requests that the Commission find that ArcelorMittal USA, LLC has complied with the 2012 ACP reporting requirements. In addition, ArcelorMittal USA, LLC would like confirmation of the proposed Compliance Payment value in order to move forward and secure 2012 compliance.
