**TARIFF FORMAT**

- A. Page Numbering** - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc., the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
  - 2.1
  - 2.1.1
  - 2.1.1(A)
  - 2.1.1(A)(1)
  - 2.1.1(A)(1)(a)
  - 2.1.1(A)(1)(a)(I)
  - 2.1.1(A)(1)(a)(I)(i)
  - 2.1.1(A)(1)(a)(I)(i)(1)
- D. Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

The Customer may have service discontinued upon written or verbal notice to the Company. The Company shall hold the Customer responsible for payment of all bills for service furnished until the cancellation date specified by the Customer.

**SECTION 2 - RULES AND REGULATIONS, (CONT'D.)****2.14 [Reserved for Future Use]****2.15 Public Pay Telephone Surcharge**

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. The Public Pay Telephone Surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

**SECTION 3 - DESCRIPTION OF SERVICES AND RATES****3.3 Calculation of Distance**

Usage charges for all mileage sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call. The serving wire centers of a call are determined by the area codes and exchanges of the origination and destination points. The distance between the Wire Center of the Customer's equipment and that of the destination point is calculated by using the "V" and "H" coordinates found in Telcordia's V&H Tape and NECA FCC Tariff No. 4.

- Step 1 - Obtain the "V" and "H" coordinates for the Wire Centers serving the Customer and the destination point.
- Step 2 - Obtain the difference between the "V" coordinates of each of the Wire Centers. Obtain the Difference between the "H" coordinates
- Step 3 - Square the differences obtained in Step 2.
- Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the Wire Centers.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

### **EXHIBIT C**

SNET America, Inc. d/b/a AT&T Long Distance East ("applicant") files this application pursuant to the Commission's January 19, 2011 Entry in Case No. 10-1010-TP-ORD in order to remove from the Commission's records its remaining tariff sheets that were issued and effective April 2, 2008 (See Exhibit A).

The applicant has conferred with the Commission Staff and a consensus was reached that no customer notice is required in connection with this filing. The applicant filed a detariffing application on April 2, 2008 in Case No. 08-326-TP-ATA pursuant to the Commission's September 19, 2007 Entry in Case No. 06-1345-TP-ORD. That filing accomplished the detariffing of all of the applicant's services at that time. Customer notice was not provided then as the applicant did not have any customers in the state of Ohio as of April 1, 2008. The same is true as of today, and therefore, there is no customer notice in connection with this filing.

In addition, because there will be no remaining tariff pages, there is no Exhibit B to this application.
