DEFINITIONS

Certain terms used generally throughout this tariff are defined below.

Account Codes: Permits Centrex Stations and attendants to dial an account code number of up to eight digits. For use when placing calls over facilities arranged for Automatic Message Accounting (AMA) recording. The account or project number must be input prior to dialing the called number.

Advance Payment: Part or all of a payment required before the start of service.

Automatic Number Identification (ANI): Allows the automatic transmission of a caller's billing account telephone number to a local exchange company, interexchange carrier or a third party Subscriber. The primary purpose of ANI is to allow for billing of toll calls.

Bit: The smallest unit of information in the binary system of notation.

Call Back/Camp On: Permits a station line encountering an all-trunk-busy condition the option of being notified when a trunk becomes idle.

Call Forwarding: Allows an incoming call to be sent elsewhere.

Call Forwarding Station: Allows calls directed to a station line to be routed to a user defined line inside or outside the Customer's telephone system.

Call Forwarding System: Permits calls attempting to terminate to a busy station line to be re-directed to a predetermined line inside or outside the Customer's telephone system.

Call Forwarding Remote: This optional feature allows a user to activate/deactivate the Call Forwarding - All Calls feature or change the forwarded to telephone number from a remote location.

DEFINITIONS

Call Forwarding Busy: Allows incoming calls to a busy station to be routed to a preselected station line or attendant within the same system or outside the system. Intercom calls can be arranged to be forwarded to a number different from DID calls.

Call Forwarding Don't Answer: Allows incoming calls to be automatically routed to a preselected station line or attendant in the same system or outside the system, when the called station is not answered after a preset number of rings. Intercom calls can be arranged to be forwarded to a number different from DID calls.

Call Forwarding Variable Limited: When this feature is activated by a station line user or the attendant, incoming calls to the activated station line or attendant position will be automatically routed to any other selected station line, within the same Centrex system, or to the attendant position. The attendant may also activate this feature for a station line user.

Call Forwarding Variable Unlimited: The same as Call Forwarding Variable Limited except that incoming calls may be automatically routed to a telephone number outside the Centrex system or to station lines within the same Centrex system. The attendant may not activate this feature to a telephone number outside the Centrex system for a station line use. Calls forwarded outside the Centrex system are subject to the appropriate charges for local and toll messages.

Call Hold: Allows the user to hold one call for any length of time provided that neither party goes on hook.

Call Park: Allows a station line to park a call against its own line number. The parked call can be retrieved from any station line by dialing a feature code and the line number against which the call is parked.

Call Pickup: Allows a station line to answer incoming calls to another station line within a defined call pickup group. Call pickup is provided on individual station lines within a Customer group.

DEFINITIONS

Call Transfer: Allows a station line user to transfer any established call to another station line in outside the customer group without the assistance of the attendant.

Call Waiting: Permits a line in the talking state to be alerted by a tone when another call is attempting to complete to the line. Audible ringing is returned to the originating line. The Service also pr a hold feature that is activated by a switchhook flash.

Central Office: A local telephone company switching system where telephone exchange customer loops are terminated for purposes of interconnection to each other and to trunks.

DEFINITIONS

Dial Pulse (or "DP"): The pulse type employed by rotary dial station sets.

Direct Inward Dial (or "DID"): A service attribute that routes incoming calls directly to stations, by-passing a central answering point.

DID Trunk: A form of local switched access that provides the ability for an outside party to call an internal extension directly without the intervention of the company operator.

Direct Outward Dial (or "DOD"): A service attribute that allows individual station users to access and dial outside numbers directly.

Do Not Disturb: Permits the attendant to cut off a single station line and selected groups of station lines from receiving incoming and station-to-station calls.

DSX-1 Panel: Distribution equipment used to terminate and administer DS 1 (1.544 Mbps) circuits.

Dual Tone Multi-Frequency (or "DTMF"): The pulse type employed by tone dial station sets.

Duplex Service: Service that provides for simultaneous transmission in both directions

DEFINITIONS

Fiber Optic Cable: A thin filament of glass with a protective outer coating through which a light beam carrying communications signals may be transmitted by means of multiple internal reflections to a receiver, which translates the message.

Hunting: Routes a call to an idle station line in a prearranged group when the called station line is busy.

In-Only: A service attribute that restricts outward dial access and routes incoming calls to a designated answer point.

Joint User: A person, firm or corporation that is designated by the Customer as a user of services furnished to the Customer by CenturyTel Acquisition and to whom a portion of the charges for the service will be billed under a joint user arrangement as specified herein.

Kbps: Kilobits per second, denotes thousands of bits per second.

Last Number Redial: Enables a station line user to redial the last called number by use of an access code rather than dialing the entire number.

LATA: A Local Access and Transport Area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192; or any other geographic area designated as a LATA in the National Exchange Carrier Association, Inc. Tariff F.C.C. No. 4.

Local Exchange Carrier or ("LEC"): Denotes any individual, partnership, association, joint-stock company, trust or corporation engaged in providing switched communication within an exchange.

Mbps: Megabits, denotes millions of bits per second.

Multi-Frequency or ("MF"): An inter-machine pulse-type used for signaling between telephone switches, or between telephone switches and PBX/key systems.

Recurring Charges: The monthly charges to the Customer for services, facilities and equipment, that continue for the agreed upon duration of the service.

DEFINITIONS

Service Commencement Date: The first day following the date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service that does not conform to standards set forth in the Service Order or this tariff, in which case the Service Commencement Date is the date of the Customer's acceptance. The Company and Customer may mutually agree on a substitute Service Commencement Date.

Service Order: The request for Network Services executed by the Customer and the Company in the format devised by the Company. The signing of a Service Order by the Customer and acceptance by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date.

Shared: A facility or equipment system or subsystem that can be used simultaneously by several Customers.

Speed Calling: Permits a station line user to dial selected numbers by using fewer digits than normally required. This is accomplished through the assignment of abbreviated codes to frequently called numbers. The speed calling list is Customer-changeable.

Standalone Switched Long Distance Service Customer: Refers to Customers who do not subscribe to the Company's local exchange service and whose local telephone lines are presubscribed by the local exchange company to the Company's long distance service, such that "I + interLATA" calls are automatically routed to the Company's network.

Standalone Switched Toll Free Service Customer: Refers to Customers who do not subscribe to the Company's local exchange service but do subscribe to the Company's Toll Free Service which permits calls to be completed to the Customer's location without charge to the calling party.

Station: Allows a station line user to add, change or delete telephone numbers from a speed calling list. The list is dedicated to the individual station line user.

System: Allows shared use of speed calling list. A control station will add, change or delete telephone numbers from the list for the group.

Three-Way Calling: Allows a station line user to add a third party to an existing conversation.

Two Way: A service attribute that includes outward dial capabilities for outbound calls and can also be used to carry inbound calls to a central point for further processing.

User or End User: A Customer, Joint User, or any other person authorized by a Customer to use service provided under this tariff.

REGULATIONS

2.2 Prohibited Uses

- (A) The services the Company offers shall not be used for any unlawful purpose or for any use as to which the Customer has not obtained all required governmental approvals, authorizations, licenses, consents and permits.
- (B) The Company may require applicants for service who intend to use the Company's offerings for resale and/or for shared use to file a letter with the Company confirming that their use of the Company's offerings complies with relevant laws and Ohio Public Utility Commission regulations, policies, orders, and decisions.
- (C) The Company may require a Customer to immediately shut down its transmission of signals if said transmission is causing interference to others.
- (D) A Customer, joint user, or authorized user may not assign, or transfer in any manner, the service or any rights associated with the service without the written consent of the Company. The Company will permit a Customer to transfer its existing service to another entity if the existing Customer has paid all charges owed to the Company for regulated communications services. Such a transfer will be treated as a disconnection of existing service and installation of new service, and non-recurring installation charges as stated in this tariff will apply.

REGULATIONS2.4 Customer Equipment and Channels2.4.1 General

A User may transmit or receive information or signals via the facilities of the Company. The Company's services are designed primarily for the transmission of voice-grade telephonic signals, except as otherwise stated in this tariff. A User may transmit any form of signal that is compatible with the Company's equipment, but the Company does not guarantee that its services will be suitable for purposes other than voice-grade telephonic communication except as specifically stated in this tariff.

2.4.2 Station Equipment

- (A) Terminal equipment on the User's Premises and the electric power consumed by such equipment shall be provided by and maintained at the expense of the User. The User is responsible for the provision of wiring or cable to connect its terminal equipment to the Company Point of Connection.
- (13) The Customer is responsible for ensuring that Customer-provided equipment connected to Company equipment and facilities is compatible with such equipment and facilities. The magnitude and character of the voltages and currents impressed on Company-provided equipment and wiring by the connection, operation, or maintenance of such equipment and wiring shall be such as not to cause damage to the Company-provided equipment and wiring or injury to the Company's employees or to other persons. Any additional protective equipment required to prevent such damage or injury shall be provided by the Company at the Customer's expense.

REGULATIONS2.5 Payment Arrangements2.5.1 Payment for Service

The Customer is responsible for the payment of all charges for facilities and services furnished by the Company to the Customer and to all Users authorized by the Customer, regardless of whether those services are used by the Customer itself or are resold to or shared with other persons.

(A) Taxes

The Customer is responsible for the payment of all state, local and E911 taxes, surcharges, utility fees, or other similar fees (i.e., gross receipts tax, sales tax, municipal utilities tax) that may be levied by a governing body or bodies in conjunction with or as a result of the service furnished under this tariff. These charges may appear as separate line items on the Customer's bill, as opposed to being included in the rates contained in the tariff. Any such line item charges will be reflected in the Company's tariff. The Company shall not assess separately any fees or surcharges, other than government approved sales taxes, without first seeking Commission approval under the appropriate procedures required by the Commission's Local Service Guidelines, Case No. 95-845-TP-COI.

2.5.2 Billing and Collection of Charges

- (A) In the case of Non residential service, Non-recurring charges are due and payable from the Customer within 30 days after the date an invoice is mailed to the Customer by the Company.

In the case of local residential service, the Company will offer the Subscriber the option of deferred payment of installation charges over a period of three months.

REGULATIONS2.5 Payment Arrangements (Cont'd)2.5.2 Billing and Collection of Charges (Cont'd)

- (B) In accordance with Minimum Telephone Service Standards Rule 15 of MTSS, the Company shall present invoices for Recurring Charges monthly to the Customer, in advance of the month in which service is provided, and Recurring Charges shall be due and payable within 30 days after the invoice date. When billing is based on Customer usage, charges will be billed monthly for the preceding billing periods.
- (C) When service does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have 30 days.
- (D) Billing of the Customer by the Company will begin on the Service Commencement Date, which is the first day following the date on which the Company notifies the Customer that the service or facility is available for use, except that the Service Commencement Date may be postponed by mutual agreement of the parties, or if the service or facility does not conform to standards set forth in this tariff or the Service Order. Billing accrues through and includes the day that the service, circuit, arrangement or component is discontinued.
- (E) If any portion of the payment is received by the Company after the date due, or if any portion of the payment is received by the Company in funds that are not immediately available, then a late payment penalty shall be due to the Company. The late payment penalty shall be the portion of the payment not received by the date due, multiplied by the lesser of the highest percentage allowable by the Public Utilities Commission of Ohio or a late factor of 1.5% per month. Any late payment fee will not include interest on a previously-charged late payment fee.

2.5.3 Deposits

- (A) The Company may require a Customer to make a deposit to be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount equal to:
- (1) two month's charges for a service or facility that has a minimum payment period of one month; or
 - (2) the charges that would apply for the minimum payment period for a service or facility that has a minimum payment period of more than one month; except that the deposit may include an additional amount in the event that a termination charge is applicable.
- (B) After 12 months of satisfactory payment history or when a service or facility is discontinued, the amount of a deposit, if any, will be applied to the Customer's account and any credit balance remaining will be refunded. Before the service or facility is discontinued, the Company may, at its option, return the deposit or credit it to the Customer's account.
- (C) Deposits held will accrue interest at a rate determined by the Company, without deductions for any taxes on such deposits.
- Interest will not accrue on any deposit after the date on which reasonable effort has been made to return it to the Customer.

REGULATIONS2.5 Payment Arrangements (Cont'd)2.5.5 Disconnection of Service Other Than Toll Service

- (A) For purposes of this section, all regulated telephone service provided by the Company, except toll service (if any) shall be defined as local service.
- (B) The Company may disconnect its Customer's local service for nonpayment of charges incurred for local service. Such disconnection must be conducted pursuant to all applicable minimum telephone service standards. All practices of the Company pertaining to either the provision of its own toll service, if any, or as a duly authorized agent for another toll service provider shall also conform to the minimum telephone service standards.
 - (1) Disconnection notices issued by the Company must inform the Subscriber facing local service disconnection of the total amount which the Subscriber would need to pay in order to avoid disconnection of local service. It must also inform the Subscriber of the Company's legal obligation to provide "local only" service to Customers whose local service charges are paid, even while their toll service is disconnected for nonpayment of outstanding toll debt.
- (C) The Company is prohibited from disconnecting any Customer's local service for nonpayment of charges incurred by the Customer for toll service.
- (D) Partial payments by a Customer to the Company will be apportioned by the Company to the Company's regulated local service charges first, before being applied by the Company to any toll charges and will be apportioned to regulated telephone service first, before being applied to charges for non regulated services.

REGULATIONS2.5 Payment Arrangements (Cont'd)2.5.7 Changes in Service Requested

If the Customer makes or requests material changes in circuit engineering, equipment specifications, service parameters, premises locations, or otherwise materially modifies any provision of the application for service, the Customer's installation fee shall be adjusted accordingly.

2.6 Allowances for Interruptions in Service

Interruptions in service that are not due to the noncompliance with the provisions of this tariff by the Customer or the operation or malfunction of the facilities, power or equipment provided by the Customer, will be credited to the Customer as set forth in 2.6.1 for the part of the service that the interruption affects.

2.6.1 Credit for Interruptions

- (A) A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this tariff. An interruption period begins when the Customer reports, or the Company discovers, a service, facility or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility or circuit is operative. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

For calculating credit allowances, every month is considered to have 30 days. A credit allowance for fixed recurring fees only is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.

2.10 Customer Liability for Unauthorized Use of the Network

2.10.1 Unauthorized Use of the Network

Unauthorized use of the Network occurs when a person or entity that does not have actual, apparent, or implied authority to use the Network, obtains the Company's services provided under this tariff.

2.10.2 Liability for Calling Card Fraud

- (A) Unless otherwise determined by the Commission, the Customer is liable for the unauthorized use of the Network obtained through the fraudulent use of a Company calling card, provided that the unauthorized use occurs before the Company has been notified.
- (B) A Company calling card is a telephone calling card issued by the Company at the Customer's request, which enables the Customer or user(s) authorized by the Customer to place calls over the Network and to have the charges for such calls billed to the Customer's account.
- (C) The Customer must give the Company written notice that an unauthorized use of the Company calling card has occurred or may occur as a result of loss, theft or other reasons.
- (D) The Customer is responsible for payment of all charges for services furnished to the Customer or to users authorized by the Customer to use service provided under this tariff. This responsibility is not changed due to any use, misuse, or abuse of the Customer's service or Customer-provided equipment by third parties, the Customer's employees, or the public.

REGULATIONS2.10 Customer Liability for Unauthorized Use of the Network (Cont'd)2.10.2 Liability for Calling Card Fraud (Cont'd)

- (E) The Customer is liable for all charges incurred as a result of unauthorized use of the Network, including incidental and consequential damages. In addition, the Customer is responsible for payment of any charges related to the suspension and/or termination of service and any charges for reconnection of service.

2.10.3 Liability for Credit Card Fraud and Other Unauthorized Use

- (A) The Customer is liable for the unauthorized use of the Network obtained through the fraudulent use of a credit card, provided: (1) the card is an accepted credit card, and (2) the unauthorized use occurs before the Company has been notified.

An accepted credit card is any credit card that a cardholder has requested or applied for and received, or has signed, used, or authorized another person to use to obtain credit. Any credit card issued as a renewal or substitute in accordance with this paragraph is an accepted credit card when received by the cardholder.

- (B) The liability of the Customer for unauthorized use of the Network by credit card fraud will not exceed the lesser of \$50 or the amount of money, property, labor, or services obtained by the unauthorized user before notification to the Company.
- (C) The Customer must give the Company written notice that an unauthorized use of the credit card has occurred.

REGULATIONS2.11 Special Conditions Governing Operator Services2.11.1 Obligations of the Company

In compliance with the Ohio Public Utilities Commission rules and regulations, when providing operator services, the Company will:

- (A) Identify itself, audibly, and distinctly, to the Customer at the beginning of each call before the Customer incurs any charges and also a second time prior to connecting the call before the Customer incurs any charges, otherwise referred to as double branding; and
- (B) Inform the Customer, upon request, of the rates to be charged and explain the method of billing and collection used by the Company at no charge. In addition, explain the methods by which complaints concerning rates, charges, or collection practices will be resolved; and
- (C) Permit the Customer to terminate the call at no charge before the call is connected; and
Not bill for unanswered or incomplete telephone calls; and
- (D) Not engage in call splashing (billing rates other than from the actual call origination) unless the Customer requests to be transferred to another provider of operator services, the Customer is informed prior to incurring any charges that the rates for the call may not reflect the rates from the actual originating location of the call, and the Customer then consents to be transferred; and

APPLICATION OF RATES3.1 Introduction

The regulations set forth in this section govern the application of rates for services contained in other sections of this tariff.

3.2 Charges Based on Duration of Use

3.2.1 Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- (A) Calls are measured in durational increments identified for each service. All calls that are fractions of a measurement increment are rounded-up to the next whole unit.
- (B) Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s). Timing for operator service person-to-person calls start with completion of the connection to the person called or an acceptable substitute, or to the PBX station called.
- (C) Timing terminates on all calls when the calling party hangs up or the Company's network receives an off-hook signal from the terminating carrier.
- (D) Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.
- (E) All times refer to local time.

APPLICATION OF RATES

3.3 Rates Based Upon Distance

3.3.1 Where charges for a service are specified based upon distance, the following rules apply:

- (A) Distance between two points is measured as airline distance between the rate centers of the originating and terminating telephone lines. The rate center is a set of geographic coordinates, as referenced in the National Exchange Carrier Association, Inc. Tariff FCC No.4, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated 800 or WATS access line), the Company will apply the Rate Center of the Customer's main billing telephone number.

APPLICATION OF RATES3.3 Rates Based Upon Distance (Cont'd)

3.3.1 (Cont'd)

(B) The airline distance between any two Rate Centers is determined as follows:

- (1) Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the NECA tariff referenced in Section 3.3.1(A).
- (2) Compute the difference between the "V" coordinates of the two Rate Centers; and the difference between the two "H" coordinates.
- (3) Square each difference obtained in step (2) above.
- (4) Add the square of the "V" difference and the square of the "H" difference obtained in step (3) above.
- (5) Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.
- (6) Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.
- (7) FORMULA=

$$\frac{J(V1.V2)2+(H1 \quad H2)2}{10}$$

3.4 Minimum Call Completion Rate

A Customer can expect a call completion rate (number of calls completed/number of calls attempted) of not less than 99.5% during peak use periods for the Company services.

EXCHANGE ACCESS SERVICE

5.1 General

- 5.5.1 Exchange Access Service provides a Customer with a telephonic connection to, and a unique telephone number address on the public switched telecommunications network. Each Exchange Access Service enables users to:
- (A) receive calls from other stations on the public switched telecommunications network;
 - (B) access other services offered by the Company as set forth in this tariff;
 - (C) access certain interstate and international calling services provided by the Company;
 - (D) access (at no additional charge) the Company's operators and business office for service related assistance;
 - (E) access (at no additional charge) emergency services by dialing 0- or 9-1-1; and
 - (F) access services provided by other common carriers that purchase the Company's Switched Access services as provided under the Company's Federal and State tariffs, or that maintain other types of traffic exchange arrangements with the Company.

Each Exchange Access Service is available on a "Full" service basis, whereby service is delivered to a demarcation/connection block at the Customer's premises.

The following Exchange Access Services are offered:

Basic Line Service⁽¹⁾

(1) Service to basic line customers with four or more access lines will receive tier 2 treatment for all access lines in accordance with rule 4901: 1-6-05 of the Administrative Code.

EXCHANGE ACCESS SERVICE5.3 Custom Local Area Signaling Services (CLASS)5.3.1 Per Call Blocking

Per Call Blocking (Calling Number Delivery Blocking) - Enables customers to prevent the disclosure of their telephone number on a per call basis to the called party. The disclosure of the calling party's number can be prevented on a per call basis by dialing *67 from a touchtone phone, or *67 from a rotary dial phone, to activate the block. This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number. Per call blocking will be available on a universal basis to all eligible customers. All public and semi-public payphones of CenturyTel Acquisition will be equipped with Per Call Blocking.

5.3.2 Per Line Blocking

Per Line Blocking (Calling Number Delivery Suppression) - Enables Customers to prevent the disclosure of their telephone number on all outgoing calls, without the necessity of an activation code. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number. Per line Blocking will be provided at no monthly charge on an optional basis to published and non-published customers at their discretion. To deactivate the privacy status, the customer would dial *82 from a touch-tone phone or 1182 from a rotary dial phone before placing a call. After completion of the call, the line reverts back to the privacy status. Law enforcement, domestic shelters and other special agencies will be offered free Per Line Blocking. Per Line Blocking will not be available to public, semi-public, two-party and four-party service customers.

EXCHANGE ACCESS SERVICE5.3 Custom Local Area Signaling Services (CLASS)5.3.3 Call Return

Call Return (Automatic Recall) - Enables a customer to return the last incoming call whether or not it was answered. The customer dials the activation code of *69 from a touch-tone phone, or 1169 from a rotary dial phone, and the last incoming call is announced. If the incoming call was placed from a line designated as "private", a fast busy tone will be heard preventing the activation of the Call Return feature. Office-wide Call Return-Block -to-Private prevents Call Return activation when a local or toll calling party blocks their number. To activate the Call Return function the customer would then dial "1 ". If the line is busy when the customer activates the service, a confirmation announcement is heard, the customer hangs up, and a queuing process begins. For the next thirty minutes both the calling and called parties' lines are checked periodically. The call setup is made when both the originating and terminating lines are idle. After activation of the feature, the originating and terminating customers may place other calls without affecting the call return service status. Up to 30 calls may be held in queue for the Customer's Call Return activation. The callbacks may be to areas where the toll charge would be applicable. This feature cannot be activated for all telephone numbers such as numbers with the 800 or 900 prefixes, or PBX extensions.

MISCELLANEOUS SERVICE9.4 Payphone Service Provider Telephone (PSP)

Access line service for *Payphone Service Provider (PSP)* telephones is an exchange line service provided at the request of a subscriber for telecommunications use by the general public. This

access line service is provided on a flat rate basis. This access line service is provided for use with *PSP* non-coin-operated public telephones or *PSP* coin-operated public telephones. *PSP* telephones may utilize "store and forward" technology to complete 0+ local; intraLATA and interLATA collect only. Standard features included are Flex ANI, Dial Around, Call Restriction, Call Screening, & Operator Screen Blocking. The subscriber shall be responsible for the installation, maintenance and operation of *PSP* telephones used in connection with this service. *PSP* telephones must be connected to the Company network in compliance with Part 68 of the FCC Rules and Regulations. The service is provided for use by the subscriber but may be used by others when so authorized by the subscriber, provided that all such usage is subject to the provisions of this Tariff. This service is not subject to concessions. Access line service for *PSP* telephones can not be included on accounts containing other classes of service. This access line provides screening information to prevent the operator from allowing toll charges against the subscriber's line; the operator also can not perform coin collecting functions. The Company is not responsible for refunds of coins deposited in *PSP* coin-operated telephones. Customer-provided public telephones may only be connected to access line service for *PSP* telephones. The subscriber to this service will be responsible for any and all toll charges billed to the subscriber's account. Providers

of public voice facsimile services which are transmitted over the public switched network are required to obtain Access Line Service for *PSP* telephones service for connection to the network. The term "Voice Facsimile service" refers to the use of devices providing facsimile service with associated voice capability so that the end user is able to make conventional voice calls as well as electronic transmittals over the same instrument. Provision for such services are subject to the rates and regulations set forth herein for Access Line Service for *PSP* Telephones. For customers subscribing to Caller ID - Deluxe, as specified in Section 13.6.5 of this Tariff if the incoming call originates from a customer provided public telephone, the name information transmitted will always be "Pay Phone."

SPECIAL ARRANGEMENTS

10.1 Special Construction

10.1.1 Basis for Charges

Where the Company furnishes a facility or service for which a rate or charge is not specified in the Company's tariffs, charges will be based on the costs incurred by the Company and may include:

- (A) non-recurring type charges;
- (B) recurring type charges;
- (C) termination liabilities; or
- (D) combinations thereof.

10.1.2 Termination Liability

To the extent that there is no other requirement for use by the Company, a termination liability may apply for facilities specially constructed at the request of the Customer.

- (A) The termination liability period is the estimated service life of the facilities provided.
- (B) The amount of the maximum termination liability is equal to the estimated amounts for:

SPECIAL ARRANGEMENTS

10.1 Special Construction (Cont'd)

10.1.2 Termination Liability (Cont'd)

(B) (Cont'd)

(1) Cost of installation of the facilities provided including estimated costs for rearrangements of existing facilities and/or construction of new facilities as appropriate, less net salvage. Cost installed includes the cost of:

(a) equipment and materials provided or used,

(b) engineering, labor and supervision, (c)

transportation, and

(d) rights-of-way;

(2) license preparation, processing, and related fees;

(3) tariff preparation, processing, and related fees;

(4) cost of removal and restoration, where appropriate; and

(5) any other identifiable costs related to the specially constructed or rearranged facilities.

(C) The applicable termination liability method for calculating the unpaid balance of a term obligation. The amount of such charge is obtained by multiplying the sum of the amounts determined as set forth in Section 11.1.2(B) preceding by a factor related to the un-expired period of liability and the discount rate for return and contingencies. The amount determined in section 11.1.2(B) preceding shall be adjusted to reflect the re-determined estimate net salvage, including any reuse of the facilities provided. This product is adjusted to reflect applicable taxes.

SPECIAL ARRANGEMENTS10.2 Individual Case Basis (ICB) Arrangements

Arrangements will be developed on a case-by-case basis in response to a bona fide request from a Customer or prospective Customer to develop a competitive bid for a service offered under this tariff. Rates quoted in response to such competitive requests may be different than those specified for such services in this tariff. ICB rates will be offered to the Customer in writing and on a nondiscriminatory basis. Such ICBs will be filed with and approved by the Public Utilities Commission of Ohio under the guidelines of Case No. 95-845-TP-COI.

INTEREXCHANGE SERVICE111 Toll Blocking Policy

CenturyTel Acquisition, when providing toll service, may "universally" block access to all toll providers for nonpayment of regulated toll charges, so long as the blocked customer is not denied the right to select, through a presubscribed interexchange change (PIC) mechanism, any other 1+presubscribed toll service provider who is obligated to provide such service under the terms of the Selective Access Policy.

11.1.1 Under the terms of the Selective Access Policy, CenturyTel Acquisition when providing toll service, may not deny establishment of 1+ presubscribed toll service on the grounds that the customer has failed to establish creditworthiness, if:

- (a) the customer is able to establish creditworthiness using one of the means for doing so available under the Public Utilities Commission of Ohio's (PUCO) rules, or
- (b) CenturyTel Acquisition, when providing toll service, exercising its own discretion, does not require the customer to establish creditworthiness (through any of the means available for doing so under the PUC's rules), or
- (c) CenturyTel Acquisition, when providing toll service, attempts to require the customer to establish credit worthiness using credit establishment procedures which do not comport with the PUCO's credit establishment policies and/or are not set forth within a PUCO approved tariff.

11.1.2 When a prospective customer, who has previously been universally blocked for nonpayment of toll charges by another carrier, seeks to select CenturyTel Acquisition as his or her 1+ carrier of choice, CenturyTel Acquisition may, subject to our tariffed toll deposit policies and the Commission's rules on establishment of service (See Rules 4901:1-5-05, Ohio Administrative Code, [O.A.C.]), require a deposit for toll service.

INTEREXCHANGE SERVICE

11.1 Toll Blocking Policy (cont.)

- 11.1.3 CenturyTel Acquisition may furnish credit information, acquired from CenturyTel Acquisition's own experiences with the customer, to consumer reporting agencies within the meaning of the Federal Fair Credit Reporting Act. CenturyTel Acquisition will follow all requirements that consumer reporting agencies must follow in issuing credit reports within the meaning of the Federal Fair Credit Reporting Act.
- 11.1.4. Upon payment by the customer of all past due toll debt to CenturyTel Acquisition will remove the block and all 1 + dialing capabilities, including 10-XXX, will be restored.

USE OF CUSTOMER'S SERVICE BY OTHERS

12.1 Resale and Sharing

SECTION 12.1 IS AVAILABLE ONLY TO CARRIERS WHICH ARE CERTIFIED BY THE PUBLIC UTILITIES COMMISSION OF OHIO TO PROVIDE INTRASTATE LOCAL EXCHANGE SERVICES

Any service provided under this tariff may be resold to or shared with other persons at the option of the Customer, subject to compliance with any applicable laws or Ohio Public Utility Commission regulations governing such resale or sharing. The Customer remains solely responsible for all use of services ordered by it or billed to its telephone number(s) pursuant to this tariff, for determining who is authorized to use its services, and for notifying the Company of any unauthorized use.

Rates for Resale and Sharing service are the same as the tariffed Retail Rates for CenturyTel Acquisition, LLC, found in Section 13 of this tariff.

12.2 Joint Use Arrangements

Joint use arrangements will be permitted for all services available for resale and sharing pursuant to this tariff. From each joint use arrangement, one member will be designated as the Customer responsible for the manner in which the joint use of the service will be allocated. The Company will accept orders to start, rearrange, relocate, or discontinue service only from the Customer. Without affecting the Customer's ultimate responsibility for payments of all charges for the service, each joint user shall be responsible for the payment of the charges billed to it.
