

**Duke Energy Ohio
Case No. 19-1471-EL-BLN
Staff SECOND Set of Data Requests
Date Received: October 25, 2019
STAFF-DR-02-006**

REQUEST:

The application states an Earthwork Permit from the Hamilton County Soil and Water Conservation District will be submitted in August 2019 for the proposed three (3) acres of potential ground disturbance associated with the Project.

However, coordination letters submitted in the application from the County state this is not needed. Please clarify this. If an Earthwork Permit is needed, please provide a copy of the permit.

RESPONSE:

An Earthwork Permit from the Hamilton County Soil and Water Conservation district is not required based on direct communication – the email response is attached as STAFF-DR-02-006 Attachment 1.

Subject: RE: F684/Elmwood Place I-75 Widening Transmission Improvement Project

Cori,

Upon review, the F684 Road Improvement Project in Elmwood Place should be exempt from requiring a Hamilton County Earthwork Permit. The total area disturbed is below 1 acre. The use of the construction matting on the unpaved areas will limit the disturbance. On figure 4.03, the installation of a gravel pad and adding gravel to the existing road also constitute a minor disturbance.

The project will still need to follow the requirements of the Hamilton County Earthwork Regulations even though an Earthwork Permit is not needed.

Contact the District with any further questions, or if any issues arise when the project starts.

Regards,

Aaron Habig

Aaron,

It was a pleasure speaking with you today. When you get a chance can you please review that attached KMZ and let me know if the proposed Elmwood Place I-75 Widening Transmission Improvement Project will require an Earth Moving Permit through the Hamilton County SWCD. The Project involves the removal and replacement of roughly 46 wooden structures with updated steel structures.

Thanks for your help and feel free to let me know if you have any questions.

Best,

Cori
