

BEFORE

THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Application of)
Duke Energy Ohio, Inc., for Approval) Case No. 11-5905-EL-RDR
to Adjust Rider DDR.)

**DUKE ENERGY OHIO, INC.'S
APPLICATION TO ADJUST AND SET
RIDER DDR**

Pursuant to R.C. 4909.18, Duke Energy Ohio, Inc., (Duke Energy Ohio) requests approval to adjust the rate for its pilot decoupling rider, Rider DDR.

Duke Energy Ohio is an Ohio corporation engaged in the business of supplying electric transmission, distribution, and generation service to customers in southwestern Ohio, all of whom will be affected by this Application, and is a public utility as defined by R. C. 4905.02 and 4905.03. Duke Energy Ohio serves incorporated communities and unincorporated territory within its entire service area, which includes all or parts of Adams, Brown, Butler, Clinton, Clermont, Hamilton, Montgomery, and Warren Counties in Ohio.

In support of its Application, Duke Energy Ohio states as follows:

1. This Application is made pursuant to the Finding and Order issued by the Public Utilities Commission of Ohio (Commission) on November 22, 2011, in Case Nos. 11-3549-EL-SSO, wherein the Commission adopted and approved the Stipulation filed by the Parties that included an agreement the Duke Energy Ohio would subsequently file for approval of a distribution decoupling mechanism to adjust rates between rate cases. Subsequent to the Commission's approval of the Stipulation in that proceeding, Duke Energy Ohio did file an application for approval of a pilot

- decoupling mechanism. That application was approved by the Commission in a Finding and Order on May 30, 2012 in Case No. 11-5905-EL-RDR.
2. In its Finding and Order in Case No. 11-5905-EL-RDR, the Commission approved the proposed decoupling mechanism and directed the Company to accrue positive or negative differences in a balancing account specific to each rate class and to submit an application to adjust Rider DRR by March 1 of each year.
 3. At the conclusion of the pilot, Duke Energy Ohio is to provide a report to the Commission discussing the results of the pilot and justification for extending or terminating the program.
 4. Attachment 1 to this Application shows the calculation of the proposed rider rates. The proposed rider rates are (\$0.000085) per kWh for all residential rates, \$0.000744 per kWh for Rate EH, and (\$0.000231) per kWh for Rate DM. The current rider rates are \$0.000168 per kWh for all residential rates, \$0.000678 per kWh for Rate EH, and (\$0.001151) per kWh for Rate DM.
 5. Page 1 of Attachment 1 shows the Rider DDR rate calculations. The revenue requirement has three components: revenues required to true-up calendar year 2014 base distribution revenues against the approved base distribution revenues, a part-year true-up of the current Rider DDR rates from last year's filing, and the remaining part-year true-up from the 2013 filing.
 6. Pages 3 through 14 of Attachment 1 show the detailed decoupling revenue calculations for 2013 by month. Page 2 summarizes the numbers contained on pages 3 through 14.

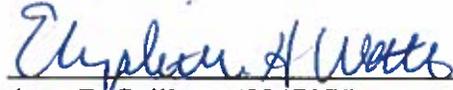

7. Page 15 of Attachment 1 shows the customer counts by rate and month for the period January through December 2014.
8. Page 16 of Attachment 1 shows the weather normalized actual kWh by rate and month for the period January through December 2014.
9. Page 17 of Attachment 1 shows the base distribution rates that are included in the calculations on pages 3 through 14.
10. Page 18 of Attachment 1 shows the calculation of the base distribution revenue per customer , excluding customer charges, as approved in Case No. 12-1682-EL-AIR. These reference numbers are used in the 2014 decoupling calculations. Base distribution rates that were approved in Case No. 12-1682-EL-AIR were effective May 6, 2013.
11. Page 19 of Attachment 1 shows the Rider DDR revenues for the period January 2014 through December 2014. The Rider DDR rates filed in February 2014 and approved in Case No. 11-5905-EL-RDR are effective for the period July 2014 through June 2015.
12. Pages 20 and 21 of Attachment 1 show the calculation of the three percent cap on rates for Rider DDR for 2013 and 2014. For the calendar year 2014 decoupling true-up, the Rate EH cap rate is used in the rate calculation on page 1 to partially recover the Rate EH decoupling balance from the previous two filings.
13. Page 22 of Attachment 1 shows the kWh forecast for January 2015 through December 2016. Numbers from this page appear on page 1 in the calculation of the proposed Rider DDR rates to be effective beginning July 1, 2015.

14. Page 23 of Attachment 1 shows the forecast kWh sales numbers from the February 2013 decoupling filing. This page also calculates the allowed revenue from the 2013 filing for the period to be recovered during the months of January 2014 through June 2014. These allowed revenue numbers appear in column B on page 1.
15. Page 24 of Attachment 1 shows the forecast kWh sales numbers from last year's decoupling filing. This page also calculates the allowed revenue from last year's filing for the period to be recovered during the months of July 2014 through December 2014. These allowed revenue numbers appear in column BB on page 1. The Company intends to include a true-up of the period January 2015 through June 2015 in next year's filing.
16. Page 25 of Attachment 1 shows the unrecovered decoupling balances associated with Rate EH, excluding carrying charges. The Finding and Order in Case No. 11-5905-EL-RDR dated May 30, 2012 authorizes carrying charges on balances carried forward at the long term cost of debt. Carrying charges will be calculated and recovered in a future true-up filing. Currently, the balance carried forward for Rate EH exceeds the annual three percent cap that is allowed to be charged.
17. These rates for Duke Energy Ohio customers subject to Rider DDR are just and reasonable and should be approved. A copy of the proposed tariff sheet is included as Attachment 2 to this Application.

WHEREFORE, Duke Energy Ohio respectfully requests that the Commission approve the new decoupling distribution rider rate for Rider DDR as proposed in this Application.

Respectfully submitted,

Duke Energy Ohio, Inc.

¹ Decoupling rates that address January - December 2012 base distribution revenues were effective with July 2013 billing. Rates are to be collected during the period July 2013 - June 2014.
² Per Order in Case No. 11-5905-EL-RDR dated June 11, 2013. Partial year revenues calculated on page 23 of this work paper.
³ For January through April 2013, base revenues as allowed in Case No. 08-709-EL-AIR are the reference. Test year was Jan-Dec 2008.
 For May through December 2013, and for 2014, base revenues from 12-1685-EL-AIR are used. Test year was Jan-Dec 2012.
⁴ Three percent cap in effect for Rate EH. Cap calculated on page 21. For Rate EH, the three percent cap is used to begin recovering prior year carry-forward balance. See page 25.

¹ The Finding and Order in Case No. 11-5905-EL-RDR dated May 30, 2012 authorizes carrying charges on balances carried forward at the long term cost of debt. Carrying charges are not included on this schedule, but will be included in future true-up calculations.

RIDER DDR

DISTRIBUTION DECOUPLING RIDER

APPLICABILITY

Applicable to all customers taking service under the Company's rate schedules listed below.

DECOUPLING RIDER RATES

As a three-year pilot program or until the Company's next distribution rate case, applicable customers shall be assessed a monthly charge or credit which reflects an adjustment to rates that will effectively remove Duke Energy Ohio's distribution-related through-put incentive.

CHARGES/CREDITS

Beginning July 1, 2015, the following Rider DDR rates apply:

| <u>Tariff Sheet</u> | <u>DDR Charge/Credit</u> (Per kWh) |
|--|---------------------------------------|
| Rates RS, RS3P, RSLI, Residential Service All kWh | (\$0.000085) |
| Rate ORH, Optional Residential Service With Electric Space Heating All kWh | (\$0.000085) |
| Rate TD, Optional Time-of-Day Rate All kWh | (\$0.000085) |
| Rate TD-2013, Optional Time-of-Day Rate For Residential Service With Advanced Metering All kWh | (\$0.000085) |
| Rate CUR, Common Use Residential Service All kWh | (\$0.000085) |
| Rate EH, Optional Rate For Electric Space Heating All kWh | \$0.000744 |
| Rate DM, Secondary Distribution Service, Small All kWh | (\$0.000231) |

Filed pursuant to an Order dated _____ in Case No. 11-5905-EL-RDR before the Public Utilities Commission of Ohio.

Issued:

Issued by James P. Henning, President
