## MEMORANDUM IN SUPPORT

On July 16, 2018, Seneca Wind LLC filed its application for a certificate of environmental compatibility and public need to construct a wind-powered electric generation facility in Seneca County, Ohio. On October 15, 2018 the OPSB filed a notice deeming the Application to be complete. Seneca Wind, LLC was also directed to serve the completed Application pursuant to OAC 4906-3-07, with their Certificate of Service being filed on October 22, 2018. It is from this notice that the Park Board files their petition.

The proposed facility and wind turbines to be located in Seneca County, Ohio are near nature preserves maintained by the Seneca County Park District. See **Exhibit “A”** attached hereto and incorporated by reference. Based on the information presented in the attached letter from Seneca County Park District Executive Director Sarah Betts (attached here to as **Exhibit “B”**), the Park Board requests permission to intervene in the proceedings on the grounds that it has extensive interest in the proceedings; that said Park Board’s interest is not and cannot be represented by another party, existing or otherwise, that its contribution of presenting to the Board the costs and benefits of the project is essential to a just and expeditious resolution of the issues involved in the proceeding and that it would not unduly delay the proceeding or unjustly prejudice an existing party.

Respectfully submitted,
