Re: Fremont Energy Center Construction Update

Dear Dr. Winget:

We appreciated your recent visit to the Fremont Energy Center ("FEC") on November 12, 2006. Per your request we have developed this letter to describe FEC's construction activity for year 2006.

During 2006 significant areas of activity included:

- o Completion of FEC's interconnection upgrades required by American Electric Power ("AEP") facilities.
- o Continued construction of FEC interconnection upgrades required by ATSI/First Energy facilities. Project completion scheduled year-end 2006.
- o Installation and testing of Generator Step-up Transformer ("GSU") for Unit 1 Combustion Turbine.
- o On-going site and equipment preservation program.

Please feel free to contact FEC for any additional information regarding the project. I can be reached at (419) 333-5116

Regards,

Kevin R. Florence
Plant Manager
Fremont Energy Center
