K. EMERGENCY SERVICE PROVIDER DATABASE SERVICE (ESPDS)

(N)

1. General

- a. The Company will provide Emergency Service Provider Database Service (ESPDS) to the customer (city, county, or municipality) solely for the purpose of delivering or assisting in the delivery of emergency notification. Customers ordering this service are required to provide written certification to the Company showing that they have the capability and authority to provide the service for which the data is intended.
- b. The extract will include published, non-published, listed, and non-listed information including listed information of Competitive Local Exchange Carriers (CLECs), if present. The extract will consist of listed name, listed address (if present) and ten-digit telephone number.
- c. ESPDS is available by, and must be ordered by, one of the following primary criteria:
 1. City/Municipality Name and State
 2. County Name and State

Customers may specify incorporated municipalities, unincorporated municipalities, or both. The information contained in all extract files will be sorted by telephone number in ascending sequence. Extracts will only be provided for the customer's jurisdictional area for which emergency services or emergency support services are authorized. Foreign listings, Foreign Exchange, Foreign Central Office, and Multiple Listings will be excluded from the extract.

- d. The information provided by ESPDS may not be used, in whole or part, to provide Basic 911 or E911 Service. Misuse of the data provided pursuant to this tariff or failure to comply with any other provisions of this tariff will be cause for immediate suspension of the service provided hereunder.
- e. Any information shared between the Company and the ESPDS customer is considered confidential and proprietary.

3. Regulations

- a. Emergency services providers and emergency support services providers requesting this service must meet the current network standards and must cooperate with the Company's network operations center (NOC) to avoid network problems associated with the use of data obtained through this service.

Geographically focused calling patterns that result from the use of data provided hereunder may cause problems, including congestion, in the Company's network. One or more of the following must be used by the ESPDS customer to prevent network congestion problems:

1. The ESPDS customer's calling platforms should be equipped within reorder tone (RO) and "No circuit Available" (NCA) announcement detection capability. Each platform should provide the capability to automatically throttle back call origination when a threshold of RO and NCA is reached. The throttling algorithm should allow for reduction call origination to the point where 99 percent of call origination reaches neither NCA nor RO.
2. The ESPDS customer's calling platforms should be designed with a call gapping mechanism to allow specification of, at most, one originating call per a specified time interval to any specific NPA-NXX code. The gaps should be capable of any time interval between 0 and 10 seconds. This is intended to give the ESPDS subscriber the capability of preventing excessive simultaneous call origination.
3. If the Company's NOC center determines that the call volume is having a negative impact on the Company's network, the NOC will request the ESPDS customer to throttle the outgoing calls generated by the event to a specified number of simultaneous calls. The ESPDS customer must implement each request within ten minutes of receipt from the Company's NOC center.
- b. The Company's NOC center must be notified of the target location and size of the event at the launch of an emergency call origination exceeding 1000 calls. The Company will provide a contact number to the ESPDS customer for this purpose. The subscriber will also provide the name(s) of the carrier(s), which will be utilized by the customer for the emergency call origination and the number of simultaneous calls.
- c. Each ESPDS customer must provide Company's NOC center up-to-date contact information for 7 days per week, 24 hours per day, and contact information for three levels of management escalation.
- d. The ESPDS customer agrees to work cooperatively with the Company's NOC in order to avoid network congestion than may affect the ability of customers to call out of an affected area. This includes implementation of call gaps on the calling platform at intervals recommended by the Company's NOC.

3. Regulations (Continued)

- e. The Company's NOC will utilize protective controls including those outlined in Section 2.1.11 of the Company's Intrastate Access Service Tariff, in order to minimize congestion and to allow the customers the ability to call out of an affected area. The traffic originated based upon the ESPDS customer's use of the data provided hereunder may be affected by these controls. The Company will not be liable for the intentional or unintentional blockage of any traffic in any way related to the ESPDS customer's use or the use by its agents or contractors of the data provided hereunder.
- f. The Company does not guarantee the completion of mass calling on its network.
- g. With respect to the database extract file provided by this service, the ESPDS customers, providers of emergency services, providers of emergency support services, and their employees shall:
 - 1. Hold the information in confidence and protect it in accordance with the security regulations by which it protects its own proprietary or confidential information.
 - 2. Restrict disclosure of the information solely to those employees with a need to know and not disclose it to any other parties.
 - 3. Be responsible for determining the information it will use from the data provided by this service
 - 4. Use the information only in connection with delivering or assisting in the delivery of emergency services and
 - 5. Notify the Company immediately if there is confirmed or suspected misuse of the data by any party or parties.
- h. Any published, listed, or non-published number or any information provided by the Company shall be used only by an ESPDS customer for the sole purpose of delivering or assisting in the delivery of emergency services. Any use involving the reproduction, publishing, reselling, disclosing, tampering with, or providing access to information in the database for any purpose other than the provision of emergency support services is strictly prohibited and any known violations must be reported to the Company immediately. Information obtained by the ESPDS customer pursuant to this tariff may be provided to the ESPDS customer's client(s) as a part of the call attempts/completions reports only upon execution by the ESPDS customer's client(s) of a written agreement limiting use of the information and providing for its protection in the same manner as is set forth in this tariff regarding use and protection of the information by the ESPDS customer. The Company does not transfer right, title or interest (including intellectual property rights), if any, which it may have in and to ESPDS.

- i. The data shall be secured by the ESPDS customer from unauthorized usage.
- j. The company shall not be required to modify its network operations or protocols to accommodate any emergency services providers' or emergency support providers' equipment, systems or data processors.
- k. Emergency Service Providers Data service may not be used for any purpose which violates federal or state laws, statutes, regulatory orders or tariffs.
- l. The emergency services provider or emergency support services provider agrees to hold harmless and indemnify the Company, its employees, directors, officers, agendas, and subcontractors from and against any and all claims or suits which arise out of or result from the provision of the database extract file, specifically including, but not limited to, all claims or suits resulting from or allegedly resulting from errors or omission in the file or the use of such information by the ESPDS customer, emergency services providers, or the emergency support services providers.
- m. Each emergency services provider or emergency support services provider agrees to release, defend, indemnify and hold harmless the Company, its agents and subcontractors from any and all losses, claims, demands, suits, and other actions, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person: 1) for any personal injury to or death of any person or persons, or any loss, damage or destruction of any property, whether owned by the customer or others, and which arises out of the negligence or other wrongdoing act of the Company, the customer, its user agencies or municipalities or employees or agents of any one of them, or 2) for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly, but the installation, operation, failure to operate, maintenance, removal, presence, condition, location, or use of the service and the equipment associated therewith, including, but not limited to, the identification for the telephone number, service address or name associated with the telephone number used by the party or parties utilizing the service hereunder, or 3) arising out of any action or omission of the customer, in the course of using services provided pursuant to this Tariff.
- n. In the event the data is enhanced, modified, and/or merged with data obtained from other sources by the ESPDS customer, all restrictions, regulations, and limitations contained in this tariff remain applicable to the ESPDS customer.
