Re: American Transmission Systems, Inc. / Geauga County -138kV Transmission
Line Supply Project
Case No. 07-171-EL-BTX

Dear Ms. Majiwski:

Thank you for your concerns regarding the proposed American Transmission Systems, Inc. / Geauga County -138kV Transmission Line Supply Project. As with the consideration of all transmission projects, local and surrounding businesses, residents, municipalities and officials are invited to discuss the present and long-term economical and environmental feasibility of such projects. The response we receive from these entities convey an interest in environmental, ecological and social implications associated with the proposed transmission line.

To date, American Transmission Systems held public information meetings on both March 5-6, 2007 in Huntsburg and Thompson Ohio that residents might be informed on the proposed project. Still at this time, American Transmission Systems has not submitted an application for the project before the Ohio Power Siting Board.

As we appreciate all input into the siting process, once an application is filed, your document will be shared with members of the Board and placed in an official docket for the case. Further, should you wish to view activity involving this application, please visit our web site at www.OPSB.ohio.gov.

Very truly yours,

Klaus Lambeck, Chief
Ohio Power Siting Board

GEAUGA COUNTY 138 kV TRANSMISSION LINE PROJECT

Public Information Meeting

Monday March 5, 2007, 6:30 p.m. to 8:30 p.m.

Huntsburg Township Gymnasium, 12394 Madison Road, Huntsburg Township

Comments or Questions

To whom it may concern:

We are extremely upset about the proposed power lines that are to run down Clay Street from Thompson Township to Huntsburg Township. This invasion would cause total destruction of a residential area. Not only will families lose their homes but we will lose property value and worst of all, our health will be at risk. These high power lines are, by study, shown to cause higher risk for childhood leukemia, Alzheimer's disease, Lou Gehrig's disease and many forms of cancer. (You cannot justify this action by any means) Our lives and well being are at stake. We urge you to survey a less populated area that would cause less damage. Use the time to do what is right.

It is expected that there will be a large turnout for the meeting. Please direct questions to and share your comments on the project with CEI's and ATSI's representatives. In addition, please add your questions or comments about the project on this form and leave it with our representatives when you leave the meeting. This will help supply a record of the questions and comments and provides the best opportunity for us to identify your questions and to consider your comments.
