Re: American Transmission Systems, Inc. / Geauga County -138kV Transmission
Line Supply Project..
Case No. 07-171-EL-BTX

Dear Ms. Mitchell:

Thank you for your concerns regarding the proposed American Transmission Systems, Inc. / Geauga County -138kV Transmission Line Supply Project. As with the consideration of all transmission projects, local and surrounding businesses, residents, municipalities and officials are invited to discuss the present and long-term economical and environmental feasibility of such projects. The response we receive from these entities convey an interest in environmental, ecological and social implications associated with the proposed transmission line.

To date, American Transmission Systems held public information meetings on both March 5-6, 2007 in Huntsburg and Thompson Ohio that residents might be informed on the proposed project. Still at this time, American Transmission Systems has not submitted an application for the project before the Ohio Power Siting Board.

As we appreciate all input into the siting process, once an application is filed, your document will be shared with members of the Board and placed in an official docket for the case. Further, should you wish to view activity involving this application, please visit our web site at www.OPSB.ohio.gov.

Very truly yours,

Klaus Lambrecht, Chief
Ohio Power Siting Board

Dear Ohio Sitting Board,

I am a home owner on Clay St. in Geauga county, and have been informed that CEI plans to run a 138kv transmission line from Mosley road to route 322 and build a substation on Mayfield rd.

I understand that some home owners will lose their homes and that some residents will lose some portions of frontage of their property. Our home value will depreciate. For these reasons, the placement of the transmission line along Clay St is NOT acceptable, and the installation would have an extremely detrimental impact on the Clay St. homeowners

Please stop the plans that CEI is submitting to you, the Ohio Sitting Board in April, 2007.

I am opposed to this transmission line running down Clay St.

Thankyou for your time.

Sincerely,
K. Mitchell
