and Construction of Greif 138 kV Extension ) Case No. 06-1199-EL-BLN  
Service to CitiGroup Data Center in )  
Delaware County, Ohio. )

ENTRY

The Ohio Power Siting Board finds as follows:

- (1) On November 18, 2006, the Ohio Power Siting Board (Board) approved a letter of notification application of CitiCorp of North America, Inc. (CitiCorp) for siting and construction of the Greif 138 kV Extension Service to CitiGroup Data Center project in Delaware County, Ohio.
- (2) On April 12, 2007, CitiCorp and American Electric Power, on behalf of Columbus Southern Power Company (CSP), filed a written request for the transfer of the certificate from CitiCorp to CSP pursuant to Section 4906.04, Revised Code. The parties state that the November 9, 2006 Staff Report filed in this case proposed approval of the project based on Staff's understanding that CitiCorp would convey the transmission line and a associated substation to CSP upon completion of the project. Upon receiving Board approval, CitiCorp will transfer the underground transmission line extension to CSP.
- (3) Section 4906.04, Revised Code, provides that a certificate may be transferred, with the approval of the Board, to a person who agrees to comply with the terms, conditions and modifications contained in the certificate.
- (4) The Board finds that it is not inconsistent with the original approval of the letter of notification in this case to have CSP assume the obligations of the certificate with the terms, conditions and modifications contained in the November 9, 2006 Staff Report. The request to transfer the certificate is reasonable and should be granted.

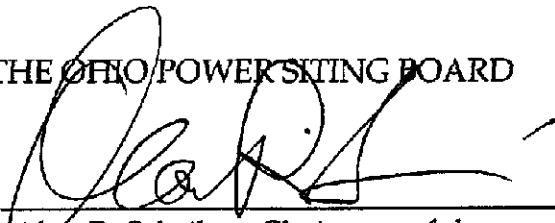

It is, therefore,

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.

ORDERED, That the request to transfer the certificate in this case to CSP is granted upon the terms set forth in finding (4). It is, further,

ORDERED, That a copy of this entry be served upon all parties and interested persons of record.
