**Tariffing**

Under option 1, LECs that package or bundle regulated local services with toll and/or unregulated services shall tariff only the regulated components of a package or bundle of services either as a package at a separate, single rate for the regulated components or individually at individual tariffed rates. The unregulated services and any rate(s) associated with the unregulated service components of any package or bundle of services shall not be tariffed.

**SECTION 3 – SERVICE DESCRIPTIONS (continued)****3.4 Directory Listings**

The Company shall provide a single directory listing, termed the primary listing, in the telephone directory published by the local exchange provider in the Customer's exchange area of the Station number which is designated as the Customer's main billing number. Directory listing of additional Company Station numbers, other than the Customer's main billing number, associated with a Customer's service will be provided for an additional monthly recurring charge per listing.

3.4.1 The Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clearness of the listing or the identification of the Customer is not impaired thereby. When more than one line is required to properly list the Customer, no additional charge is made.

3.4.2 The Company may refuse a listing which is known not to constitute a legally authorized or adopted name, contains obscenities in the name, or any listing which, in the opinion of the Company, is likely to mislead or deceive calling persons as to the identity of the listed party, or is a contrived name used for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. The Company, upon notification to the Customer, will withdraw any listing, which is found to be in violation of its rules with respect thereto.

3.4.3 Each listing must be designated Government, Business, or Residence to be placed in the appropriate section of the directory. In order to aid the user of the directory, and to avoid misleading or deceiving the calling party as to the identity of the listed party, only business listings may be placed in the Business Section and only residential listings in the Residential Section. The Company, upon notification to the Customer, will withdraw any listing that is found to be in violation of its rules with respect thereto.

3.4.4 In order for a listing to appear in an upcoming directory, the Customer must furnish the listing to the Company in time to meet the directory publishing schedule.

**SECTION 2 - RULES AND REGULATIONS (continued)****2.5 Payment Arrangements (continued)****2.5.4 Cancellation of Application for Service**

Where, prior to cancellation by the Customer, the Company incurs any expenses in installing the service or in preparing to install the service that it otherwise would not have incurred, a charge equal to the costs the Company incurred, less net salvage, shall apply, but in no case shall this charge exceed the sum of the charge for the minimum period of services ordered, including installation charges, and all charges others levy against the company that would have been chargeable to the Customer had service begun.

The special charges described will be calculated and applied on a case-by-case basis.

**2.6 Allowances for Interruptions in Service**

Interruptions in service which are not due to the negligence of or noncompliance with the provisions of this rate sheet by, the Customer or the operation or malfunction of the facilities, power, or equipment provided by the Customer, will be credited to the Customer as set forth in 2.6.1 for the part of the service that the interruption affects.

The Company will calculate the credit allowance after the Customer notifies the Company of service interruption. The amount of the allowance will depend on the length of the outage and the service impacted. Service Outage conditions are defined as complete loss of call origination and/or receipt capability. Credit Allowances, if any, will be deducted from the charges payable by the IXC and will be expressly indicated on the next invoice. A Service Outage begins when the IXC reports the outage to The Company.

A Service Outage ends when the affected circuit and/or associated Company equipment is fully operational in accordance with the technical specifications.

Credit allowances do not apply to outages (i) caused by the IXC; (ii) due to failure of equipment provided by the IXC; (iii) during any period in which The Company is not given access to the service premises; (iv) failures of LEC facilities or equipment which are carrying the failures resulting from the activities or negligence of LEC employees; (v) inability to gain access to the IXC's equipment; and (vii) due to mutually agreed upon maintenance and repair.

Credit Allowances received by the Company from the LEC for Off-Net facility outages, which affects the IXC's Switched Services, will be passed through to the IXC in the form of a credit on the next invoice.

Interruptions, of 24 hours or more, are reported to or detected by the Company, and which are not due to the negligence or willful act of the Customer are credited to the Customer at the pro rata monthly charge involved for each 24 hours or fraction thereof of interruption. Credit is not allowed for interruptions to service of less than 24 hours. Credit allowances for service outages that exceed 24 hours in duration will be rounded up to the next whole 24 hours.

For calculating credit allowances every month is considered to have 30 days. A credit allowance for up to 48 hours is applied pro rate basis against the monthly recurring charges. A credit of at least one third of a month will be made for interruptions of 48 to 72 hours, and a credit of at least two-thirds of a month will be made for interruptions of 72 to 96 hours, with a full month credit for interruptions in excess of 96 hours. Only those facilities on the interrupted portion of the circuit will receive credit.

All requirements for credit allowances for interruptions of service will be consistent with 4901:1-5-16 of the Commission's Minimum Telephone Service Standards.

**5.3 Billing of Access Minutes**

When recording originating calls over FG Access with multi-frequency address signaling, usage measurement begins when the first wink supervisory signal is forwarded from the Customer's facilities. The measurement of originating call usage over FG Access ends when the originating FG Access entry switch receives disconnect supervision from either the originating End User's Local Switching Center -(indicating that the originating End User has disconnected), or the Customer's facilities, whichever is recognized first by the entry switch.

For terminating calls over FG Access with multi-frequency address signaling, the measurement of access minutes begins when a seizure signal is received from the Carrier's trunk group at the Point of Presence within the LATA. The measurement of terminating call usage over FG Access ends when a disconnect signal is received, indicating that either the originating or terminating user has disconnected.

When recording originating calls over FG Access with SS7 signaling, usage measurement begins when the transmission of the initial address message by the switch for direct trunk groups and with the receipt of an exit message by the switch for tandem trunk groups. The measurement of terminating FG Access call usage ends when the entry switch receives or sends a release message, whichever occurs first.

For terminating calls over FG Access with SS7 signaling, the measurement of access minutes begins when the terminating recording switch receives the initial message from the terminating End user. On directly routed trunk groups or on tandem routed trunk groups, the Company switch receives the initial address message and sends the indication to the Customer in the form of an answer message. The measurement of terminating FG Access call usage ends when the entry switch received or sends a release message, whichever occurs first.
