1. DEFINITIONS AND ABBREVIATIONS

The following terms, whether or not capitalized in this Tariff, shall have the meanings set forth below:

900 Call Restriction – Allows customers to restrict 900 prefix outgoing calls from being placed over their exchange access lines.

Auto Redial – Enables the customer to automatically redial the last outgoing telephone number. When the telephone number is busy, the Company's equipment will keep trying to call the number being redialed for a maximum of 30 minutes.

Business – When used in relation to service, means service provided in offices, stores, factories and all other places for business use.

Call Blocker – Enables the customer to block calls from preselected telephone numbers and/or the last incoming call (without knowing the number). To block specified telephone numbers, the customer builds a screening list. To block an unknown number after receiving a call, the customer enters a code to add the number to their screening list. If facilities are unavailable to provide incoming call screening via the customer's list, standard call completion will occur. Customers whose telephone numbers are blocked are directed to a Company recorded announcement.

Call Forwarding – Automatically routes incoming calls to a designated answering point selected by the subscriber, regardless of whether the user's station is idle or busy. The subscriber may change the designated answering point using the telephone key pad.

Call Forwarding-Busy Line – Automatically routes incoming calls to a pre-designated answering point when the called line is busy.

Call Forwarding-Busy Line/Don't Answer – Allows incoming calls that encounter a busy condition or are not answered after a predetermined number of rings to be automatically forwarded to a predesignated telephone number within the exchange or the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e. g., tolls charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded.

Call Forwarding-Don't Answer – Automatically routes incoming calls to a pre-designated answering point when the called line is not answered after a preset number of rings.

Call Return – Enables a Customer to automatically redial the telephone number of the last incoming call. If that telephone number is busy, the Company's equipment will keep trying to call the number being redialed for a maximum of 30 minutes.

Call Transfer – Provides the capability to transfer or add a third party, using the same line.

1. DEFINITIONS AND ABBREVIATIONS (continued)

Call Transfer Disconnect – Enables business customers to add on another line to an established call creating a three-way call. The Call Transfer Disconnect subscriber may disconnect from the three-way call and allow the other two parties to continue talking, thereby freeing their line for the purpose of originating another call. The Call Transfer Disconnect feature cannot be used to expand a calling scope and is, therefore, not available to customers subscribing to an optional flat-rate local, toll or expanded calling plan. Call Transfer Disconnect cannot be used to avoid toll charges. Call Transfer Disconnect customers are responsible for any toll or other charges associated with calls they originate.

Call Waiting – Provides the user with a burst of tone to indicate that another call is waiting. The second call can either be answered by flashing the switchhook or hanging up the phone and being rung back by the caller.

Call Waiting ID – Allows for the display of the name and/or number of a new caller when user is already talking on the telephone and receives another phone call on the customer's CPE and allows the customer to decide to answer the new incoming call or not.

Call Waiting ID Options – Allows Call Waiting ID customer to identify the name and/or number of an incoming caller when already talking on the telephone and receive another phone call on customer's CPE. The customer may decide how to handle the second caller from a menu choice known as *Disposition Codes* appearing on the customer's CPE as menu options.

Cancel Call Waiting – Allows a user to cancel the Call Waiting feature on a per call basis by dialing a specific two digit code.

Caller ID – Number – Identifies the 10-digit number of the calling party before the call is answered. Specialized answering equipment is required to display the calling party information. The calling party may block the display of their number by dialing a code prior to placing the call.

Caller ID – Name – Identifies the name associated with the calling number before the phone is answered. This feature requires Caller ID – Number.

2. RULES AND REGULATIONS (continued)

2.6 Responsibility of the Customer (continued)

2.6.3 Credit Allowances (continued)

E. Credit Allowance – Directory

Subject to the provision of Section 2.4 of this Tariff, the Company shall allow, for errors or omissions in alphabetical telephone directories (excluding the use of bold face type), or in information records, an amount within the following limits:

1. In the event that the Company omits a Customer's listing for the white pages of the telephone directory or lists an incorrect phone number, the Company will issue the Customer a credit for the equivalent of not less than three (3) months local service charges. This credit will not apply in cases where the Customer has provided the Company with its listing information after the deadline for directory publication.
2. For listings in alphabetical telephone directories furnished at additional charge, as set forth herein, an amount not in excess of the charge for that listing during the effective life of the directory in which the error or omission occurred.
3. For listings in the information records furnished at additional charge, as set forth herein, an amount not in excess of the charge for the listing during the period of omission or error.

F. All credit allowances will be in accordance with Ohio MTSS 4901:1-5-18.

2.6.4 Cancellation by Customer

- A. Customer may cancel service any time after meeting the minimum service period without any termination charges. Termination charges will apply if Customer cancels prior to the expiration of a one-year or other fixed term service contract. Such termination charge will be equal to one month's usage as projected in the Company's proposal for service, or the actual average monthly usage to date, whichever is higher, plus the monthly account charge for the remainder of the contract period.
- B. If Customer orders service requiring special facilities dedicated to the Customer's use and then cancels the order before the service begins, or before completion of the minimum service period, or before completion of some other period mutually agreed upon by Customer and the Company, a charge will be made to Customer for the nonrecoverable portions of expenditures or liabilities incurred expressly on behalf of Customer by the Company and not fully reimbursed by installation and monthly charges. If based on the order, any construction has either begun or been completed, but no service provided, the nonrecoverable cost of such construction shall be borne by Customer.

1. DEFINITIONS AND ABBREVIATIONS

The following terms, whether or not capitalized in this Tariff, shall have the meanings set forth below:

900 Call Restriction – Allows customers to restrict 900 prefix outgoing calls from being placed over their exchange access lines.

Auto Redial – Enables the customer to automatically redial the last outgoing telephone number. When the telephone number is busy, the Company's equipment will keep trying to call the number being redialed for a maximum of 30 minutes.

Business – When used in relation to service, means service provided in offices, stores, factories and all other places for business use.

Call Blocker – Enables the customer to block calls from preselected telephone numbers and/or the last incoming call (without knowing the number). To block specified telephone numbers, the customer builds a screening list. To block an unknown number after receiving a call, the customer enters a code to add the number to their screening list. If facilities are unavailable to provide incoming call screening via the customer's list, standard call completion will occur. Customers whose telephone numbers are blocked are directed to a Company recorded announcement.

Call Forwarding – Automatically routes incoming calls to a designated answering point selected by the subscriber, regardless of whether the user's station is idle or busy. The subscriber may change the designated answering point using the telephone key pad.

Call Forwarding-Busy Line – Automatically routes incoming calls to a pre-designated answering point when the called line is busy.

Call Forwarding-Busy Line/Don't Answer – Allows incoming calls that encounter a busy condition or are not answered after a predetermined number of rings to be automatically forwarded to a predesignated telephone number within the exchange or the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e. g., tolls charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded.

Call Forwarding-Don't Answer – Automatically routes incoming calls to a pre-designated answering point when the called line is not answered after a preset number of rings.

Call Return – Enables a Customer to automatically redial the telephone number of the last incoming call. If that telephone number is busy, the Company's equipment will keep trying to call the number being redialed for a maximum of 30 minutes.

Call Trace – Enables a Customer to initiate a trace of the last incoming call by dialing an activation code before receiving another call. If a trace is successful, the Company's equipment will record the incoming call detail (not the conversation). The call detail may be provided only to law enforcement authorities upon proper request. The results of the trace will not be provided to the Customer directly. For further action to be taken, the Customer can contact the Company via the telephone number provided in the Call Trace announcement. At its sole option, the Company will set up a tracing arrangement at no charge to the customer when in the judgment of the Company, the unwanted call(s) present a serious threat of bodily harm or destruction of property and Call Trace is not available or is not otherwise a suitable solution. In such situations, the Telephone Company, not the customer, will perform the entire call trace function.

1. DEFINITIONS AND ABBREVIATIONS (continued)

Call Transfer – Provides the capability to transfer or add a third party, using the same line.

(MT)

Call Transfer Disconnect – Enables business customers to add on another line to an established call creating a three-way call. The *Call Transfer Disconnect* subscriber may disconnect from the three-way call and allow the other two parties to continue talking, thereby freeing their line for the purpose of originating another call. The Call Transfer Disconnect feature cannot be used to expand a calling scope and is, therefore, not available to customers subscribing to an optional flat-rate local, toll or expanded calling plan. Call Transfer Disconnect cannot be used to avoid toll charges. Call Transfer Disconnect customers are responsible for any toll or other charges associated with calls they originate.

Call Waiting – Provides the user with a burst of tone to indicate that another call is waiting. The second call can either be answered by flashing the switchhook or hanging up the phone and being rung back by the caller.

Call Waiting ID – Allows for the display of the name and/or number of a new caller when user is already talking on the telephone and receives another phone call on the customer's CPE and allows the customer to decide to answer the new incoming call or not.

Call Waiting ID Options – Allows Call Waiting ID customer to identify the name and/or number of an incoming caller when already talking on the telephone and receive another phone call on customer's CPE. The customer may decide how to handle the second caller from a menu choice known as Disposition Codes appearing on the customer's CPE as menu options.

Cancel Call Waiting – Allows a user to cancel the Call Waiting feature on a per call basis by dialing a specific two digit code.

Caller ID – Number – Identifies the 10-digit number of the calling party before the call is answered. Specialized answering equipment is required to display the calling party information. The calling party may block the display of their number by dialing a code prior to placing the call.

Caller ID – Name – Identifies the name associated with the calling number before the phone is answered. This feature requires Caller ID – Number.

2. RULES AND REGULATIONS (continued)

2.6 Responsibility of the Customer (continued)

2.6.3 Credit Allowances (continued)

E. Credit Allowance – Directory

Subject to the provision of Section 2.4 of this Tariff, the Company shall allow, for errors or omissions in alphabetical telephone directories (excluding the use of bold face type), or in information records, an amount within the following limits:

1. In the event that the Company omits a Customer's listing for the white pages of the telephone directory or lists an incorrect phone number, the Company will issue the Customer a credit for the equivalent of not less than three (3) months local service charges. This credit will not apply in cases where the Customer has provided the Company with its listing information after the deadline for directory publication.
2. For listings in alphabetical telephone directories furnished at additional charge, as set forth herein, an amount not in excess of the charge for that listing during the effective life of the directory in which the error or omission occurred.
3. For listings in the information records furnished at additional charge, as set forth herein, an amount not in excess of the charge for the listing during the period of omission or error.

F. All credit allowances will be in accordance with Ohio MTSS 4901:1-5-18.

2.6.4 Cancellation by Customer

- A. Customer may cancel service any time after meeting the minimum service period without any termination charges. Termination charges will apply if Customer cancels prior to the expiration of a fixed term service contract.
- B. If Customer orders service requiring special facilities dedicated to the Customer's use and then cancels the order before the service begins, or before completion of the minimum service period, or before completion of some other period mutually agreed upon by Customer and the Company, a charge will be made to Customer for the nonrecoverable portions of expenditures or liabilities incurred expressly on behalf of Customer by the Company and not fully reimbursed by installation and monthly charges. If based on the order, any construction has either begun or been completed, but no service provided, the nonrecoverable cost of such construction shall be borne by Customer.

4.2.10 Business First Bundle (1) (continued)

Footnotes for Business First Bundle:

- (1) Business First bundle equipped with basic line is provided within the exchange areas set forth in Section 3.

Customer must subscribe all lines at a given location to the Business First bundle.

The installation charges as tariffed in Section 4.2.10C apply to installation of the Business First bundle.

The only features available are those set forth in Section 4.2.10. Customer may drop any of those features at conversion at no charge, and may drop or add back any of those features following conversion, subject to the feature add/change charge, as tariffed in Section 4.2.10C. Birch 3 Feature Value Package or Birch 7 Feature Value Package features packages are not available with the Business First bundle.

Business First bundle lines will automatically be blocked for 900/976 calling. The Customer may request that 900/976 access be unblocked.

Usage Sensitive Features (USF) will be included with all local lines. The USF includes Auto Redial and Call Return, for which the Customer will be charged \$.50 per usage use, with a maximum per month fee of \$4.00 per USF type.

- (2) Call Waiting not available on lines equipped with Series Completion Hunting.
- (3) The Long Distance Block of Time allotment applies to all Domestic 1+ Direct Dialed minutes of use, and pools at the Customer's location level. Overage usage rate per minute is \$.045. All Rules and Regulations found in the Company's Interexchange Tariff will apply to long distance services.

All other types of calls, (Operator Assisted Long Distance calls, OS/DA, International, Toll Free, Calling Card, etc.) will be rated at the standard rates according to the Rules and Regulations found in the Company's Interexchange Tariff.

- (4) Business First bundle is initially available to new and existing Birch business Customers only with a term commitment. Once the term expires, if Customer does not sign up for a new term, the pricing will default to the month-to-month rate tariffed in 4.2.10A.

4.4 Directory Services

4.4.1 Directory Listings

Listings are regularly provided in connection with all classes of Exchange Service, unless the customer subscribes to Nonpublished or Nonlisted Service. The contract period for directory listings where the listing is printed in the directory is the directory period. Where the listing has not been printed in the directory, the period is one month. The Company will provide each Customer with a copy of a single comprehensive printed directory, on an annual basis, free of charge.

In the absence of gross negligence or willful misconduct, no liability for damage arising from publishing a non-published or non-listed telephone number in the directory or disclosing said number to any person shall attach to the Company. Where such a number is published in the directory, the Company's liability shall be limited to and satisfied by a refund of any monthly charges which the Company may have made for such listing. The subscriber indemnifies and save the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a non-listing or non-published listing.

The Nonrecurring Charge is applicable only when the request for service is subsequent to the initial installation of the exchange access line or Birch line or trunk.

4.5.7 *Birchual* Office Services

Birchual Office Service is a service whereby calls placed to a business customer's telephone number (the *Birchual* Office number) in one exchange are automatically forwarded to a telephone number (the terminating number) in another exchange. The *Birchual* Office number does not involve telephone equipment, a physical location, or manual input to initiate the forwarding of calls to the terminating number. When a *Birchual* Office number is called, it is intercepted at the local central office and automatically routed to whatever terminating number the customer designates. The forwarded calls can be local or toll, depending on the type of service to which the customer subscribes. The *Birchual* Office customer is responsible for any local usage or toll charges incurred between the customer's *Birchual* Office number and the terminating number. The *Birchual* Office number includes one path, which allows for one call to be forwarded at a time. Additional paths can be ordered to allow additional calls to be forwarded simultaneously. *Birchual* Office Service is available to Birch business customers only.

Birchual Office Service is available in the following packages:

- Local *Birchual* Office Service
- Long Distance *Birchual* Office Service

A. Local *Birchual* Office Service

- The *Birchual* Office number and the terminating number are within the same local calling area.
- Unlimited local calling will be allowed between the *Birchual* Office number and the terminating number.

	<u>Monthly Rate</u>	<u>Service Charge (1)</u>

C. Regulations

1. A *Birchual* Office number cannot terminate on a public or semi-public service (coin telephone).
2. *Birchual* Office Service does not provide caller identification of the originating number to the terminating number.
3. A *Birchual* Office number is not suitable for data transmission.
4. The *Birchual* Office path is not released when the call is forwarded.
5. *Birchual* Office Service is subject to the availability of facilities.
6. *Birchual* Office Service cannot be suspended (vacation service).
7. Calls will only be allowed to be forwarded to a business line.
8. Collect and third-party calls will be billed to the *Birchual* Office number.
9. Custom calling features are not available on a *Birchual* Office number.
10. The *Birchual* Office number cannot terminate to another such number, whether a *Birchual* Office number or the same such service of another service provider.
11. Call Forward Variable should not be offered on the terminating line. Customers are allowed to have Call Forward Busy/No Answer on the terminating number for voice mail purposes.
12. *Birchual* Office can terminate to a distinctive ring number. The distinctive ring number must be different than the *Birchual* Office number.
13. *Birchual* Office may only be used for the communications of a single end use. It may not be used to aggregate the long distance communications of multiple end users for resale or to provision communications services for others.

D. Directory Listing

One listing in the directory covering the exchange in which the *Birchual* Office number is located is provided without additional charge. Additional listings and other Directory Listing products may be purchased for the *Birchual* Office number.

- (1) The Service Charge applies to an order for new *Birchual* Office Service, to change the *Birchual* Office number, to change the number to which the number is forwarded, and to add additional paths, whether ordered at the time of conversion of service or on a subsequent order. Only one Service Charge will apply per request, regardless of the number of additions or changes made by the request. The Service Charge will not apply to convert the service and its existing path(s) to Birch or on outside moves of customer's other service if there is no *Birchual* Office number or terminating number change.
- (2) The customer may select Birch long distance service, or another long distance carrier from the Birch-approved long distance carrier list, to carry the traffic from the *Birchual* Office number to the terminating number. When Birch is selected as customer's long distance carrier for service other than its *Birchual* Office Service, as well as for its *Birchual* Office Service, the *Birchual* Office number long distance usage will be invoiced at the customer's plan rate, as applicable, and any usage will contribute to the customer's volume commitment, if any. When Birch is selected as the customer's long distance carrier for its *Birchual* Office Service only, the default Birch long distance rate, as set forth in the Company's Interexchange Tariff.
