IV. Financial, Technical and Managerial Qualifications

Underlying carriers will perform all local switching, routing and call completion functions. The Applicant may install its own switching equipment in the future. Company personnel have experience working with underlying carriers of long distance and local services and with the installation of telecommunications switching and other equipment. Applicant's technical and managerial personnel are well qualified to direct the delivery and billing of the proposed services. The Applicant's key management personnel have solid backgrounds in successful business management and systems support for telecommunications services. Resumes of key personnel are included in Exhibit I.

IV. Financial, Technical and Managerial Qualifications, (cont'd.)

The Applicant is a start-up company that has not yet initiated operations in any state. The Applicant will rely on the financial resources of Robert Jankovics, the Company's president, for financial support during its start-up stage of operation to provide the services covered by this application. Mr. Jankovics owns 100% of the stock of Great American Telephone, Inc. A Balance Sheet for Great American Telephone, Inc. as of May 17, 2005, as well as an Affidavit by Mr. Jankovics attesting to his ability and willingness to finance the Company's operations, is included as Exhibit H.

V. Description of Services Offered and Service Territory

The Applicant initially proposes to provide local service using unbundled network combinations available from AT&T Ohio, United Telephone Company of Ohio d/b/a Embarq, and via resold services. The Applicant may eventually provide local services via its own switching facilities.

The Applicant understands the importance of effective customer service for local service consumers. Once it initiates operations, the Applicant's toll free customer service telephone number will be available with live operator response 24 hours per day, 7 days per week.

The Applicant's toll free telephone number for customer inquiries, complaints and repair is 1-888-835-8342. Customers may contact the company in writing at the headquarters address indicated below.

The contact for resolution of customer complaints with the Commission is:

Las Vegas, Nevada 89104
Telephone: 702-648-1863
Facsimile: 702-648-1866
Toll Free 888-835-8342

VI. Waivers and Regulatory Compliance

The Applicant requests that the Commission grant it a waiver of those regulatory requirements inapplicable to competitive local service providers such as Great American Telephone, Inc. Such rules are not appropriate or necessary for competitive providers and constitute an economic barrier to entry into the local exchange market.

A. Financial Record Keeping System

Great American Telephone, Inc. requests that it be exempt from record keeping regulations that require a carrier to maintain its financial records in conformance with the Uniform System of Accounts ("USOA"). The USOA was developed as a means of regulating telecommunications companies subject to rate base regulation. It was also designed as an evaluation tool with which investors and regulators alike could compare like characteristics of several telecommunications companies.

As a competitive carrier, the Applicant maintains its book of accounts in accordance with Generally Accepted Accounting Principles ("GAAP"). Neither the FCC, nor this Commission, have required interexchange carriers or CLECs to maintain records under the USOA for purposes of their interexchange or local operations. GAAP is the standard accounting method now utilized by competitive telecommunications companies, as well as a broad base of other industries. Any requirement to create an additional set of books would be a severe and unnecessary burden for the Applicant. Because the Applicant utilizes GAAP, the Commission will have a reliable means by which to evaluate the Company's operations and assess its financial fitness. Therefore, the Applicant hereby requests an exemption from the USOA requirements.

B. Local Exchange Directories

The Applicant requests that it not be required to publish local exchange directories. The Applicant will arrange with the incumbent LECs to include the names of Great American Telephone, Inc. customers in the directories published by the incumbent LECs. LEC-published directories will be distributed to Great American Telephone, Inc. customers. This approach will have a direct benefit to the customers of both Great American Telephone, Inc. and the incumbent LECs since customers will have to refer to only one directory for a universal listing of customer information. It would be an unnecessary burden on Great American Telephone, Inc. to require that it publish and distribute its own directory to all customers located within each exchange area, particularly since nearly all of these customers will be customers of the incumbent LECs. It is more efficient for Great American Telephone, Inc. to simply include its limited customer list in the existing directories of the incumbent LECs.

C. Reporting Requirements

The Applicant requests waivers of any reporting requirements that, while applicable to incumbent LECs, are not applicable to competitive providers such as Great American Telephone, Inc. As a provider of local service using unbundled network elements or resale, the Applicant cannot impact the service quality currently provided by the underlying LEC. Nor does the Applicant anticipate sufficient market share to alter the statistics of the Commission with respect to any of its indices. ILEC reporting requirements constitute an undue burden on a competitive provider, thereby requiring an inefficient allocation of its limited resources. In addition, the Applicant reserves the right to seek any regulatory waivers that may be required for Great American Telephone, Inc. to compete effectively in the Ohio local exchange services market.

VII. Public Interest Statement

The Applicant's provision of local service is targeted to business and residential customers and will provide a competitive alternative to the public. It will promote, through competition, the efficient use of the local exchange telecommunications networks. Customers will benefit by having alternatives from which to choose and from general improvements in price, features and options that are generated by competitive pressures. In addition, Great American Telephone, Inc. customers will benefit from consolidated billing options and a single point of contact for telecommunications needs.

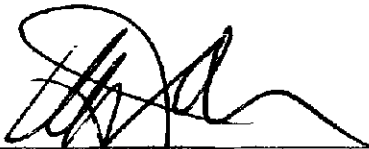

For the foregoing reasons, the public interest will be well-served by the grant of local authority to Great American Telephone, Inc.

VIII. Conclusion

This Application demonstrates that Great American Telephone, Inc. possesses the technical, financial and managerial resources to provide local exchange service in Ohio. Furthermore, granting this Application will promote the public interest by increasing the level of competition in the state's telecommunications market. Ultimately, competition will improve the service, options and pricing of service available to consumers in the state.

Wherefore, Great American Telephone, Inc. respectfully requests that the Commission grant Great American Telephone, Inc. authority to operate as a facilities-based provider of residential and commercial local exchange and interexchange resale telecommunications services in the State of Ohio, grant the waivers requested in this Application, and grant such other relief as it deems necessary and appropriate.

DATED this 10TH day of September, 2007.

TARIFF FORMAT

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially, however, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc., the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the page currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

From each joint use arrangement, one member will be designated as the Customer responsible for the manner in which the joint use of the service will be allocated. Inclusion of early termination liability by the Company in its tariff or a contract does not constitute a determination by the Commission that the termination liability imposed by the Company is approved or sanctioned by the Commission. Customers shall be free to pursue whatever legal remedies they may have should a dispute arise.

2.9 Transfers and Assignments

Neither the Company nor the Customer may assign or transfer its rights or duties in connection with the services and facilities provided by the Company without the written consent of the other party, except that the Company may assign its rights and duties:

In order to recover Company expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all intrastate calls that originate from any pay telephone used to access Company provided services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with service, applies for the use of the instrument used to access Company provided service and is unrelated to the service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (e.g., using the "#" symbol). The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.
