1. LISTING SERVICES

(T)

A. General Provisions

1. The alphabetical directory is an alphabetical list of customers, joint users and others for whom directory listings are provided. It is designed solely for the purpose of informing calling persons of the telephone numbers of customers and others listed therein. Accordingly, listings are intended solely for purposes of identification and are limited to information which is essential to such identification.

2. The rates and regulations in this paragraph 1 for directory listings apply to primary and additional listings in the alphabetical directory.

3. An alphabetical directory may include the listings for one or more exchange areas. More than one alphabetical directory may be included in directory book. In alphabetical directories selected by the Telephone Company, the pages are divided into two groups, one group of non-residence listings and one group of listings consisting solely of names of individuals.

a. Non-residence primary listings consisting solely of names of individuals will appear in both groups at no charge.

b. Non-residence additional listings consisting solely of names of individuals will appear in both groups without charge for the additional appearance.

c. Special types of additional listings will appear in both groups without charge for the additional appearance under the following conditions:

(T)

(1) Alternate listings, provided that they are indented under non-residence primary or regular additional listings that are listings consisting solely of names of individuals; and

(2) all other special types of additional listings, provided that they are listings consisting solely of names of individuals and are indented under non-residence primary or regular additional listings.

A. General Provisions (cont'd)

5. The Telephone Company will refuse a listing which does not constitute a legally authorized or adopted name, or any listing which, in the opinion of the Telephone Company, is likely to mislead or deceive calling persons as to the identity of the listed party, or is intended for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. The Telephone Company, upon notification to the customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.
6. The length of any listing is limited by the use of abbreviations, where, in the opinion of the Telephone Company, the clearness of the listing and the identification of the listed party is not impaired thereby. Where more than one line is required to properly list the party, no additional charge is made.
7. In connection with non-residence service, a designation, i.e., an abbreviated descriptive term characterizing the listed party's business in a general way, may be furnished as part of the listing unless the character of the listed party's business is already apparent from the form of the corporate or firm name, in which case the designation is unnecessary and is not furnished.

1. BILLING NAME AND ADDRESS (BNA) SERVICES

Interexchange

Billing and Collection Service, except for Recording Services, are deregulated. Recording Services other than BNA Services, while subject to regulation by the Public Utilities Commission of Ohio, are detariffed.

A. Description

BNA is a service whereby the Telephone Company will provide billing information to an Interexchange Carrier (IXC), to the extent the names and addresses are available in Ohio Bell's customer information data bases. The "customer" for BNA service is an IXC and the BNA information is for use by the IXC in connection with its business.

B. Regulations

The name and address information will be obtained by the Telephone Company from its customer information data bases. The name and address information will be provided for the calling number shown in the recorded customer message detail to the extent a name and address exists in the Telephone Company customer information data bases (e.g., some calling number names and addresses may be confidential). If the name and address information for a specific calling number is confidential due to legal, national security, end user or regulatory requirements, the name and address information will not be provided unless the IXC is the Primary or Dial Up Interexchange Carrier or the IXC secures written permission from the end user and/or other party imposing the confidentiality requirement, for the Telephone Company to provide the information as requested by the IXC.

The request for name and address information will be provided in accordance with specifications provided by the Telephone Company.

At the request of an IXC, magnetic tape processing of the bill name and address information will be provided to the IXC. The Telephone Company will supply the magnetic tapes and the magnetic tapes will be provided without the return of previously supplied tapes. Unless specified otherwise by the IXC, the magnetic tapes will be sent to the IXC via first class U. S. Mail Service or other appropriate means. If expedited delivery is requested by the IXC, such expenses will be charged to the IXC. However, the IXC may pick up the magnetic tapes at a location designated by the Telephone Company or request that the detail on the magnetic tapes or in a data file be data transmitted to the IXC.

OPTION A

The monthly price consists of two elements: a monthly fixed price which includes eighty hours of usage and a variable price for usage above eighty hours. The monthly variable price component is computed by adding all usage occurrences in fifteen-minute increments over eighty hours and rounding the total up to the next hour, then applying the variable hours sum (over eighty hours) to the price per hour-of-use matrix.

2. Payment Plans

• **Term Payment Plans**

The minimum service period is twelve months. Optional contract periods of thirty-six months and sixty months are available.

• **Single Payment Option (SPO)**

The monthly recurring fixed price per port may be prepaid for periods of twelve, thirty-six or sixty months. The prepayment charges in no way constitute a purchase and the Company retains ownership of all equipment covered by prepayment. The following conditions apply:

- Customers who prepay will have an allowance applied. The prepayment will be calculated using the loan amortization method at the annual rate specified in Part 2, Section 3 of this tariff. The allowance will be based on the number of months of the prepayment period. The prepayment amount (principle) is the total outstanding recurring charges less the payment allowance.
- Monthly recurring prices per hour of use (if applicable) will continue to apply per the contract option chosen.
- Customers who change the length of a payment period will be credited any unused portion of the prepayment amount.
- Customers who prematurely disconnect the service will have termination charges deducted from the prepayment amount and any balances credited to their bill.

3. Termination Charges

Termination liability will apply to AAVS ports that are disconnected prior to the expiration of the contracted service period. The charge is fifty percent of the remaining fixed monthly recurring charges or any minimum billing guarantees that would have been incurred by the customer if the service had been in service for the contract period. If a video port has been in service for more than the contract period, no termination charges apply.

Option A

The monthly price consists of two elements: a monthly fixed price which includes eighty hours of usage and a variable price for usage above eighty hours. The monthly variable price component is computed by adding all usage occurrences in fifteen-minute increments over eighty hours and rounding the total up to the next hour, then applying the variable hours sum (over eighty hours) to the price per hour-of-use matrix.

Option B

- The monthly price consists of two elements: a monthly fixed price and a variable price for all hourly usage. The monthly usage bill will be computed by adding all usage occurrences in fifteen-minute increments and rounding the total up to the next hour, then applying the total hours to the price per hour-of-use matrix.
- Billing from fixed and hourly usage must total a minimum amount that is determined by the contract length. If the billing does not meet \$23,760 for a twelve month contract, or an average of \$19,680 per year for a sixty or thirty-six month contract, the differential amount will be billed at the end of the contract period.
- Customers may move from Option B to Option A at any point once the customer has met the minimum revenue commitment described above.

2. Payment Plans

- **Term Payment Plans**

The minimum service period is twelve months. Optional contract periods of thirty-six months and sixty months are available.

- **Single Payment Option (SPO)**

The monthly recurring fixed price per port may be prepaid for periods of twelve, thirty-six or sixty months. The prepayment charges in no way constitute a purchase and the Company retains ownership of all equipment covered by prepayment. The following conditions apply:

- Customers who prepay will have an allowance applied. The prepayment will be calculated using the loan amortization method at the annual rate specified in Part 2, Section 3 of this tariff. The allowance will be based on the number of months of the prepayment period. The prepayment amount (principle) is the total outstanding recurring charges less the payment allowance.
- Monthly recurring prices per hour of use (if applicable) will continue to apply per the contract option chosen.
- Customers who change the length of a payment period will be credited any unused portion of the prepayment amount.
- Customers who prematurely disconnect the service will have termination charges deducted from the prepayment amount and any balances credited to their bill.

3. Termination Charges

Termination liability will apply to AVS ports that are disconnected prior to the expiration of the contracted service period. The charge is fifty percent of the remaining fixed monthly recurring charges or any minimum billing guarantees that would have been incurred by the customer if the service had been in service for the contract period. If a video port has been in service for more than the contract period, no termination charges apply.
