LARGE FILING SEPERATOR SHEET

CASE NUMBER: O7-1312-TP-BLS

FILE DATE: $12 / 28 / 2007$

SECTION: Part lof 3

NUMBER OF PAGES: 199

DESCRIPTION OF DOCUMENT: Application

Re: AT\&T Ohio
Case No. 07-1312-TP-BLS

Dear Ms. Jenkins:

Enclosed for filing is AT\&T Ohio's application for approval of an alternative form of regulation of basic local exchange service and other Tier 1 services in 11 of its exchanges. The application includes confidential supporting information which is submitted for filing under seal. A motion for a protective order addressing that confidential information accompanies this filing.

Thank you for your courtesy and assistance in this matter. Please contact me if you have any questions.

Enclosures
Very truly yours,
cc: Office of the Ohio Consumers' Counsel

Tins is to oortify that the forages appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business

## BEFORE <br> THE PUBLIC UTILITIES COMMISSION OF OHIO

)
For Approval of an Alternative Form of
Regulation of Basic Local Exchange
Case No. 07-1312-TP-BLS
And Other Tier 1 Services Pursuant to Chapter 4901:1-4, Ohio Administrative Code.

## APPLICATION

The Ohio Bell Telephone Company d/b/a AT\&T Ohio ("AT\&T Ohio"), the applicant in this proceeding, is a telephone company providing public telecommunications service to approximately $2,544,781$ retail access lines in its local service area in the State of Ohio.

Applicant submits this application pursuant to Section 4927.03, Revised Code, for approval of an alternative form of regulation for Basic Local Exchange Service and other Tier 1 Services pursuant to Chapter 4901:1-4, Ohio Administrative Code.

Exhibits 1 through 5 are attached to this application and are incorporated herein.

The applicant requests the Commission to consider the proposals set forth in this application and to approve the applicant's alternative regulation proposal for Basic Local Exchange Service and other Tier 1 Services.

Respectfully submitted,
AT\&T Ohio

Secretary

## MEMORANDUM IN SUPPORT OF APPLICATION

Introduction
AT\&T Ohio ${ }^{1}$, by its attorneys, submits this memorandum in support of its application filed in the captioned case. This application, filed pursuant to R. C. §4927.03 and Section 4901:1-4-09 of the Commission's rules, includes the forms, affidavits, supporting information and detailed analysis, proposed tariff revisions, and the proposed legal notice called for by that rule, as explained below. ${ }^{2}$

## Exhibit 1 - Compliance With Elective Alternative Regulation Commitments

As demonstrated by the affidavit of Connie Browning, the President of AT\&T Ohio, the applicant fully complies with the elective alternative regulation commitments as required by divisions (A) and (B) of Section 4901:1-4-06 of the Commission's rules. AT\&T Ohio is in compliance with those requirements, as reflected in the rules and in the Company's application filed in Case No. 02-3069-TP-ALT which established its current elective alternative regulation plan.

[^0]Exhibit 2 - Exchange Areas/County Matrix
As a guide to those reviewing the application, there is included in this filing a matrix identifying the exchanges included in the application and the county or counties in which each exchange is located. The identification of the competitive market test proposed for each exchange is shown in the exchange-specific sections of Exhibit 3.

Exhibit 3 - Supporting Information and Detailed Analysis
In this exhibit, AT\&T Ohio identifies the telephone exchange areas for which it seeks alternative regulation for basic local exchange service ("BLES") and other tier one services. The summary sheet for each exchange specifies the competitive market test proposed by the applicant for each telephone exchange area that is the subject of this application.

This exhibit presents the supporting information and detailed analysis demonstrating that the applicant meets, on a telephone exchange basis, at least one of the competitive market tests as set forth in Section 4901:1-4-10(C) of the Commission's rules. This information is contained within the affidavit of Connie Browning, the President of AT\&T Ohio, attesting to the veracity of the data upon which the application is premised, in compliance with the applicable rule, Ohio Admin. Code § 4901:1-4-09(B)(3).

The four competitive market tests are as follows:
(1) An applicant must demonstrate in each requested telephone exchange area that at least twenty-five per cent of total residential access lines are provided by unaffiliated CLECs, and at least twenty per cent of total company access lines have been lost since 1996 as reflected in the applicant's annual report filed with the commission for 1996.
(2) An applicant must demonstrate in each requested telephone exchange area that at least twenty per cent of total residential access lines are provided by unaffiliated CLECs, and the presence of at least two unaffiliated facilities-based CLECs providing BLES to residential customers.
(3) An applicant must demonstrate in each requested telephone exchange area that at least fifteen per cent of total residential access lines are provided by unaffiliated CLECs, the presence of at least two unaffiliated facilities-based CLECs providing BLES to residential customers, and the presence of at least five alternative providers serving the residential market.
(4) An applicant must demonstrate that in each requested telephone exchange area that at least fifteen per cent of total residential access lines have been lost since 2002 as reflected in the applicant's annual report filed with the commission in 2003, reflecting data for 2002; and the presence of at least five unaffiliated facilities-based alternative providers serving the residential market.

Ohio Admin. Code § 4901:1-4-10(C)(1)-(4).

AT\&T Ohio compiled the information necessary to meet the specified competitive tests using several sources. In collecting information on CLEC and alternative provider activity in its exchanges, AT\&T Ohio first reviewed and documented publicly available data, such as websites, carrier tariff filings, information on wireless licenses, and Commission certification case and interconnection agreement filings. In some cases, carriers provide web tools that permit an inquiry about the availability of their services in specific areas by using telephone numbers or zip codes. Those tools were used to identify the presence of a carrier in an AT\&T Ohio exchange.

To confirm the information available from publicly-available sources, AT\&T Ohio reviewed internal data from billing and E 9-1-1 records, white pages listings, and ported telephone number information. In order to demonstrate that it meets test 4, where that test is applied, AT\&T Ohio examined its own line loss since 2002, relying on the annual report for that
year, and compared that information to comparable data as of September 30, 2007. Using the same process as in Case Nos. 06-1013-TP-BLS and 07-259-TP-BLS, the 2007 line count data was obtained by performing the same query on the same access line database that is used to develop the year end residence access line counts for each exchange that appear on Schedule 28 of the Annual Report. In order to demonstrate that it meets test 3 , where that test is applied, AT\&T Ohio developed CLEC line counts using the same process utilized in Case Nos. 06-1013-TP-BLS and 07-259-TP-BLS. The volumes for residential Local Wholesale Complete (LWC), residential UNE-P and residential resale (resold lines) were developed from billing data for each CLEC for each central office switch location (identified by Common Language Location Identification or "CLLI" code). CLEC lines served by CLEC switches were counted using residence E911 data provided by Intrado, a third party vendor. This data has been collected and reviewed for each exchange for which relief is sought.

The Commission should count VoIP providers and the lines they serve for purposes of Test 3. This approach would be consistent with the Commission's rules, including the definition of "competitive local exchange carrier" in Ohio Admin. Code § 4901:1-4-01(E). As the Commission has recognized, a number of carriers provide wholesale services to others. In the recent Embarq case, the Commission adopted what it described as a "conservative approach" and said it would "consider only one facilities-based alternative service provider who is in partnership with Level 3 to be providing residential services in all of the four exchanges for the purpose of satisfying the Test 4 requirements." United Telephone Company d/b/a Embarq, Case No. 07-760-TP-BLS, Opinion and Order, December 19, 2007, pp. 26-27. AT\&T Ohio submits that this approach should be extended to Test 3 as well in order to conservatively but
more accurately depict the competitive landscape. Thus, the Commission should count the lines identified by AT\&T Ohio that are facilitated by Global Crossing, Level 3, and Sprint. The offering of wholesale services to VoIP and other providers by these carriers is widespread. For example, on January 8, 2004 Global Crossing and XO Communications, Inc. announced a fiveyear network and access services agreement. See Attachment $1 .{ }^{3}$ In its 2006 10-K report to the United States Securities and Exchange Commission, Sprint Nextel Corporation stated, in its business overview, that it provides "switching and back office services to cable companies, which enable them to provide local and long distance service over cable facilities." See Attachment $2 .{ }^{4}$ All providers and lines should be counted where there is evidence of their presence in an exchange.

In Case Nos. 06-1013-TP-BLS and 07-259-TP-BLS, AT\&T Ohio sent CLECs and wireless service providers separate "Accessible Letters" regarding the use and treatment of data that might be considered to be proprietary, giving them an opportunity for comment and feedback. AT\&T is relying on the letters from Case No. 07-259-TP-BLS for this proceeding. The Accessible Letters are included in this filing as Attachments 3 and 4.

In most cases, AT\&T Ohio has identified more competitors than the minimum number required by the Commission's rules. In some cases, even more competitors could be identified, but AT\&T Ohio limited its filing to making an appropriate showing that it meets the requirements of the applicable competitive tests.

[^1]The competitive proof for each exchange is organized on a summary sheet, which names several carriers that provide service in the exchange and notes what other verification was done to confirm their presence. Working from left to right, the sheet indicates certification number (for CLECs) and the interconnection agreement number (for all carriers), confirming the accomplishment of these prerequisite steps by the competing carrier. This information is specific to each carrier and was obtained from Company and publicly available Commission records. In most instances, the underlying carrier is clear. In some cases, AT\&T Ohio's records contain different names for a single carrier. For example, when $\mathrm{MCL} /$ WorldCom is listed on the summary sheet, the certificate number indicates that the reference is specifically to MCImetro Access Transmission Services, Inc. Similarly, the records reflect the fact that Comcast Phone provided telephone service in the 2001-2004 timeframe in partnership with Insight, the underlying cable provider in some exchanges. ${ }^{5}$

Having identified the carrier, the next two columns indicate how each carrier is providing service, through their own facilities or through facilities obtained from AT\&T Ohio. A check-mark ( $\sqrt{ }$ ) in the Own Facilities column indicates that the carrier is facilities-based and that it provides its own switching (or obtains it from someone other than AT\&T Ohio). Those carriers may lease other facilities from AT\&T Ohio, such as unbundled loops, but since they do not use AT\&T Ohio's switching, these carriers (rather than AT\&T Ohio) are responsible for creating the E911 listings for their customers. All wireless carriers fall within this category. Other facilities-based carriers obtain the use and control of facilities, including switching,

[^2]provided by AT\&T Ohio. These carriers utilize Local Wholesale Complete (LWC), or in a few cases may still rely on old UNE-P arrangements. In either case, the presence of these facilitiesbased arrangements is denoted by a check-mark $(\sqrt{ })$ in the column titled Lease AT\&T Facilities. For exchanges submitted under Test 3, CLECs reselling AT\&T Ohio services (as opposed to leasing AT\&T Ohio facilities) may be included as alternative providers. Such carriers are indicated by the word "Resale" in the lease facilities column. Both the Own Facilities and Lease AT\&T Facilities columns are supported by the sheets titled "CLEC Lines in Service" which quantify residence E911 listings and residence LWC, UNE-P and resale arrangements.

Another indicator of the ability of CLECs to serve residence customers in a given exchange is the inclusion of residence services in the carrier's approved tariff. The CLEC's tariff, as posted on the Commission's web site, was reviewed to ensure that it contains basic local exchange service for residence customers and the service areas were verified where possible. The reference to the specific exchange under review is included in the "Tariff Authority" column. In the case of a wireless or VoIP carrier, since they are not required to file tariffs with the PUCO, this column is marked "n/a" (not applicable).

Another indication of presence for wireless carriers is data contained in an independent web site (www.WirelessAdvisor.com) that lists carriers by area. That web site was consulted to be sure wireless carriers had a license to operate in the specific exchange area. The presence of that license is indicated by a check-mark $(\sqrt{ })$ in the Licensed Wireless Providers column.

For all carriers, AT\&T Ohio checked to see if the carrier indicates via their own web site that they provide residence service in the exchange. Many, but not all, carriers allow customers to enter a zip code, telephone number or street address to search for available services. If AT\&T Ohio was able to successfully complete such a web search, a check-mark $(\sqrt{ })$ was placed in the Carrier Website column.

Company records were consulted to confirm the presence of residential white page listings and ported telephone numbers from AT\&T Ohio. The "White Page Listings" sheets summarize residence white page listings by carrier. These sheets were developed by extracting residential white page listing information by carrier and by NPANXX code, which were then assigned to the correct exchange using Local Exchange Routing Guide (LERG) data. One carrier that is listed on the summary sheets is Talk America, which was acquired at the parent company level during December 2006 by Cavalier Telephone Corporation. As a result, the company is listed as "Talk America (Cavalier)" on the summary sheets while the CLEC lines pages display "Talk America" and the White Page Listing sheets display "CAVALIER TELEPHONE."

Ported numbers are those formerly AT\&T Ohio telephone numbers that have been reassigned, or "ported," from an AT\&T Ohio switch onto the switch of another carrier. Clearly the presence of ported numbers indicates that another carrier is serving customers via its own switch. The data were developed by querying the Local Service Management System for the volume of customer numbers ported out of AT\&T Ohio's switches. The use of ported number information, however, has two limitations. First, number porting is most common
between wireline carriers. While some customers have disconnected their wireline connection and ported their wireline number to a wireless phone, this arrangement is an exception rather than the rule. Many customers merely disconnect their wireline connection, or chose not to order one in the first place, and instead rely on the number assigned by their wireless provider. Therefore, while the presence of ported numbers demonstrates a carrier's presence in the exchange, the lack of ported numbers does not prove that the carrier is not present. The second limitation is AT\&T's inability to distinguish between residence and business numbers in the ported number database. The quantities included on the Ported Numbers sheets therefore reflect both residence and business telephone numbers.

In summary, if a particular CLEC has not only accomplished the prerequisites of becoming certified, having tariffs approved by the Commission and entering into an interconnection agreement with AT\&T Ohio, but has also incurred the cost of facilities to serve residential customers, indicated publicly that they are providing service and has entered the names, addresses and telephone numbers of residential customers into the directory white pages, the Commission can rest assured that the carrier is providing residential basic local exchange service in the exchange. Similarly for wireless carriers, the fact that they have incurred the costs of obtaining a license and facilities, entered into an interconnection agreement, indicated publicly that they provide service and perhaps ported some former AT\&T Ohio telephone numbers onto their switch is strong evidence of the availability of service to residential customers in an exchange.

There are three instances where the Ported Numbers sheets look different than those for the other exchanges. Since most exchanges are uniquely served by one or more central office switches, the data was extracted by the CLLI code assigned to each switch, using the same process that was used in Case Nos. 06-1013-TP-BLS and 07-259-TP-BLS. Unfortunately, this process cannot produce exchange ported number information for the Canal Winchester/Groveport and Barnesville/Somerton exchanges due to the way AT\&T Ohio's network is engineered. In these instances, each pair of exchanges is served by a single switch designed by a single CLLI code. In this proceeding, this limitation was overcome by extracting the data for these exchanges using both the CLLI codes and the first 6 digits (NPA-NXX) of the telephone numbers. Since the NPA-NXXs are uniquely assigned to individual exchanges by the North American Numbering Plan Administrator (NANPA), the Ported Number sheets for Somerton, Canal Winchester and Groveport display the NPA-NXX data that was used to drive the data to the specific exchanges. While the CLEC Lines in Service sheets for these exchanges do not look different from those for the other exchanges, the same process was used to allocate the count of lines into the correct exchange.

## Exhibit 4 - Proposed Tariff Modifications

AT\&T Ohio modified the structure of its tariff to implement the pricing flexibility rules set forth in division (A) of Section 4901:1-4-11 of the Commission's rules on January 2, 2007, as a result of Case No. 06-1013-TP-BLS. That restructuring included the appropriate tariff modifications for Lifeline service. The tariff modifications proposed in this case merely add the additional eleven exchanges to the 144 exchanges approved by the Commission in the Company's two previous cases.

## Exhibit 5 - Proposed Legal Notice

AT\&T Ohio's proposed legal notice notifying the public of the filing of the application is included in the application. That notice provides that objections can be filed with the Commission consistent with division ( F ) of Section 4901:1-4-09 of the Commission's rules. The public notice will be published within seven days of the filing of the application in the legal notice section of a newspaper of general circulation in each county corresponding to the exchanges for which BLES alternative regulation is being requested, pursuant to Section 4901:1-4-09(B)(5) of the Commission's rules. AT\&T Ohio has conferred with the Commission staff regarding the content of the legal notice prior to commencing with the publication of the public notice, also in accordance with the applicable rule.

Conclusion

AT\&T Ohio has complied with all aspects of the Commission's rules in preparing and filing its application and it requests that the Commission grant its application on an automatic basis in accordance with the applicable rule.

Respectfully submitted,

## Global Crossing and XO Communications, Inc. Sign Five-Year Network and Access Services Agreements

- Deals yield significant synergies and savings for both companies.
- XO Communications signs $\$ 100$ million network service agreement with minimum $\$ 50$ million purchase commitment and provisions for up to $\$ 50$ million during five-year term of the contract.
- Global Crossing to purchase $\$ 70$ million of local access and private line data services with provisions to buy substantially more over five-year term.

## FOR IMMEDIATE RELEASE: THURSDAY, JANUARY 8, 2004

Florham Park, NJ and Reston, VA - Global Crossing and XO Communications, Inc. announced today two commercial agreements focused on bringing both companies more effective pricing and services to better serve their customers while leveraging their individual strengths. Global Crossing will benefit from XO's altemative local and metro access facilities, while XO Communications will take advantage of Global Crossing's network capabilities, enabling both companies to deliver seamless connectivity to their customers.

In the first agreement, XO Communications, a national broadband telecommunications services provider, agreed to purchase from Global Crossing voice termination and private line termination services for a guaranteed minimum of $\$ 50$ million over the next five years. The agreement contains provisions for Global Crossing to sell up to an additional $\$ 50$ million in services to $\times 0$ Communications. The new agreement amends the scope of a previous agreement for private line services between the two companies.

In a separate deal, Global Crossing and XO Communications have amended the scope of an existing agreement for the purchase of local access and private line data services. Under the revised agreement, Global Crossing will purchase a guaranteed minimum of $\$ 70$ million in services from XO Communications over the next five years. The revised agreement is structured to facilitate the purchase of additional services over and above the committed amount during the term of the agreement.
"These two agreements effectively leverage the synergies between our companies to benefit customers and boost our strong competitive positioning, ${ }^{\text {n }}$ said John Legere, chief executive officer of Global Crossing. "XO recognizes the outstanding quality and performance capabilities of our global network. Simultaneously, the access services provided by XO enable us to recognize substantial costs savings in excess of 40 percent, and to streamline and optimize our access delivery, further enhancing our ability to provide a top-of-the-line customer experience."
"We're pleased to enter such mutually beneficial commercial arrangements with Global Crossing," said Carl Grivner, chief executive officer of XO Communications. "Global Crossing appreciates that XO offers an unmatched combination of high quality services, complementary network solutions and overall value. This is a win-win for XO and Global Crossing."

Today's announcement expands a beneficial business relationship that has developed between XO Communications and Global Crossing over the past few years. The network services agreements became effective upon Global Crossing's emergence from Chapter 11.

## ABOUT XO COMMUNICATIONS

XO Communications, Inc. is a leading broadband telecommunications services provider offering a complete portfolio of telecommunications services, including: local and long distance voice, Internet access, Virtual Private Networking (VPN), Ethernet, Wavelength, Web Hosting and Integrated voice and data services.

XO Communications has assembled an unrivaled set of facilities-based broadband networks and Tier One Internet peering relationships in the United States. XO Communications currently offers facilities-based broadband telecommunications services within and between more than 60 markets throughout the United States.

## ABOUT GLOBAL CROSSING

Global Crossing provides telecommunications solutions over the world's first integrated giobal IPbased network. Its core network connects more than 200 cities and 27 countries worldwide, and delivers services to more than 500 major cities, 50 countries and 5 continents around the globe. The company's global sales and support model matches the network footprint and, like the network, delivers a consistent customer experience worldwide.

Global Crossing IP services are global in scale, linking the world's enterprises, governments and carriers with customers, employees and partners worldwide in a secure environment that is ideally suited for IP-based business applications, allowing e-commerce to thrive. The company offers a full range of managed data and voice products including Global Crossing IP VPN Service, Global Crossing Managed Services and Global Crossing VolP services, to more than 40 percent of the Fortune 500, as well as 700 carriers, mobile operators and ISPs.

Please visit www.globalcrossing.com for more information about Global Crossing and www. xo.com for more information about XO Communications.

# SPRINT NEXTEL CORPORATION SECURITIES AND EXCHANGE COMMISSION ANNUAL REPORT ON FORM 10-K 

Part I

## Item 1. Business

## Overview

## The Corparation

Sprint Nextel Corporation, incorporated in 1938 under the laws of Kansas, is mainly a holding company, with its operations primarily conducted by its subsidiaries. Unless the context otherwise requires, references to "Sprint Nextel," "we," "us" and "our" mean Sprint Nextel Corporation and its subsidiaries. On May 17, 2006, we spun-off to our shareholders our local communications business, which is now known as Embarg Corporation and is comprised primarily of what was our Local segment prior to the spin-off. The results of Embarg for periods before the spin-off are presented as discontinued operations and we have recast information for our Wireless and Long Distance segments for the periods presented. For information regarding our segments, see note 14 of the Notes to Consolidated Financial Statements at the end of this annual report on Form 10-K. On August 12, 2005, a subsidiary of our company merged with Nextel Communications, Inc. and, as a result, we acquired Nextel.

We are a global communications company offering a comprehensive range of wireless and wireline communications products and services that are designed to meet the needs of individual consumers, businesses and government customers. We have organized our operations to meet the needs of our targeted customer groups through focused communications solutions that can incorporate the capabilities of our wireless and wireline services to meet their specific needs. We are one of the three largest wireless companies in the United States based on the number of wireless subscribers. We own extensive wireless networks and a global long distance, Tier 1 Internet backbone.
We offer digital wireless service in all 50 states, Puerto Rico and the U.S. Virgin Islands, in part through commercial affiliation arrangements between us and third-party affiliates, each referred to as a PCS Affiliate. We, together with the four remaining PCS Affiliates and resellers of our wholesale wireless services, served about 53.1 million wireless subscribers at the end of 2006.
We, together with the PCS Affiliates, provide wireless code division multiple access, or CDMA, based personal communications services, or PCS, under the Sprint ${ }^{48}$ brand name. The PCS Affiliates offer digital wireless service mainly in and around smaller U.S. metropolitan areas on wireless networks built and operated at their expense, in most instances using spectrum licensed to and controlled by us. We also offer numerous sophisticated data messaging, imaging, entertainment and location-based applications, marketed as Power Vision ${ }^{\text {SM }}$, that utilize high-speed evolution data optimized, or EVDO, technology.
We also offer digital wireless services under our Nexte ${ }^{\infty}$ and Boost Mobile ${ }^{\text {® }}$ brands using integrated Digital Enhanced Network, or iDEN ${ }^{\text {a }}$, technology. Both brands feature our industry-leading walkietalkie services, which give subscribers the ability to communicate instantly, as well as a variety of digital wireless mobile telephone and wireless data transmission services.
We are one of the nation's largest providers of long distance services and one of the largest carriers of Internet traffic. We operate an all-digital long distance and Tier 1, Internet Protocol, or IP, network, over which we provide a broad suite of wireline communications services targeted to domestic business customers, multinational corporations and other communications companies. These services include domestic and international data communications using various protocols such as multiprotocol label switching, or MPLS, technologies, IP, asynchronous transfer mode, or ATM, frame relay, managed network services and voice services. We also provide switching and back office services to cable companies, which enable them to provide local and long distance telephone service over their cable facilities.

# AT\&T OHIO - (REGULATORY) PUCO Case No. 05-1305-TP-ORD 

Date: February 22, 2007
Number: CELO7-004
Category: Other
Contact: NA

The purpose of this Accessible Letter is to update CLECAM06-218, issued on July 20, 2006, to advise CLECs that, as part of a potential docket, The Ohio Bell Telephone Company ("AT\&T Ohio") plans to again provide to the Commission, subject to the confidentlality rules of the Public Utilities Commission of Ohio ("PUCO") and proprietary agreements, data that may constitute CLECproprietary information. Specifically, AT\&T Ohio intends to request the PUCO to open one or mare additional dockets regarding, per the rules established in PUCO Case No. 05-1305-TP-ORD, and to obtain pricing flexibility for Basic Local Exchange Service ("BLES") in its Ohio exchanges that were not granted pricing flexibility in the case just concluded, Case No. 06-1013-TP-BLS. AT\&T Ohio intends to file its direct testimony concurrent with its Application. AT\&T Ohio may also provide rebuttal and Ilve testimony in the docket. In addition, AT\&T Ohio may need to respond to data requests from the PUCO Staff and other parties.

To satisfy the directive of Rule 4901:01-4-10(A) that AT\&T Ohlo demonstrate at least one of the competitive market tests has been met, the data AT\&T Ohio will present, as part of testimony and data request responses, may include CLEC-specific information. AT\&T Ohio will only file such information under the highest degree of protection available under Ohio Commissions rules and will not disclose any CLEC proprietary information publicly. Any provision of CLEC proprietary information to parties will be subject to a Proprietary Agreement. Moreover, any disclosure of CLEC proprietary information to the PUCO or its Staff will be subject to the protections afforded by Ohio Administrative Code Section 4901-1-24.

Many of AT\&T Ohio's interconnection agreements require AT\&T Ohio to provide CLECs with notice before disclosure of proprietary information as part of a pending docket. (See the General Terms and Conditions of your interconnection agreement with AT\&T Ohio). Because specific terms and conditions in AT\&T Ohio's numerous interconnection agreements vary significantly, AT\&T Ohio hereby provides notice to all CLECs in Ohio at this time to comply with any potential contractual obligations; receipt of this letter does not necessarily mean that any AT\&T Ohlo's testimony or data responses will include data affecting each CLEC in Ohio.

AT\&T Ohio makes no judgment whether any future testimony or data request responses will contain CLEC proprietary information and specifically reserves all rights as to this issue. AT\&T Ohio requests that any such objections be served on AT\&T Ohio's counsel (Jon Kelly) by email (jon.kelly@att.com) or fax (614 223-5955).

AT\&T Ohio also reserves the right to make any modifications to the above information. Should any modifications be made to the information, these modifications wili be reflected in a subsequent letter.

Date: February 22, 2007<br>Effective Date: March 2, 2007<br>Subject: (BUSINESS PROCESSES) PUCO Case No. 05-1305-TP-ORD<br>Related Letters: N/A<br>Attachment: No<br>States Impacted: Ohio<br>Response Deadline: N/A<br>Contact: N/A<br>Conference Call/Meeting: N/A

The purpose of this Accessible Letter is to update CLECAM06-218 to advise Wireless Providers that, as part of a potential docket, The Ohio Bell Telephone Company ("AT\&T Ohlo") plans to again provide to the Commission, subject to the confidentiality rules of the Public Utilities Commission of Ohio ("PUCO") and proprietary agreements, data that may constitute proprietary information. Specifically, AT\&T Ohio intends to request the PUCO to open one or more dockets regarding, per the rules established in PUCO Case No. 05-1305-TP-ORD, and to obtain pricing flexibility for Basic Local Exchange Service ("BLES") in its Ohio exchanges that were not granted pricing flexibility in the case just concluded, Case No. 06-1013-TP-BLS. AT\&T Ohio intends to file its direct testimony concurrent with its Application. AT\&T Ohlo may also provide rebuttal and live testimony in the docket. In addition, AT\&T Ohio may need to respond to data requests from the PUCO Staff and other parties.

To satisfy the directive of Rule 4901:01-4-10(A) that AT\&T Ohlo demonstrate at least one of the competitive market tests has been met, the data AT\&T Ohio will present, as part of testimony and data request responses, may include carrier-specific information. AT\&T Ohlo will only file such information under the highest degree of protection available under Ohio Commissions rules and will not disclose any carrier proprietary information publicly. Any provision of proprietary information to parties will be subject to a Proprietary Agreement. Moreover, any disclosure of proprietary information to the PUCO or its Staff will be subject to the protections afforded by Ohlo Administrative Code Section 4901-1-24.

Many of AT\&T Ohio's wireless interconnection agreements require AT\&T Ohio to provide Wireless Providers with notice before disclosure of proprietary information as part of a pending docket. (See the General Terms and Conditions of your wireless interconmection agreement with AT\&T Ohio). Because specific terms and conditions in AT\&T Ohio's numerous wireless interconnection agreements vary significantly, AT\&T Ohio hereby provides notice to all Wireless Providers in Ohlo at this time to comply with any potential contractual obligations; receipt of this letter does not necessarily mean that any AT\&T Ohio's testimony or data responses will include data affecting each carrier in Ohio.

AT\&T Ohio makes no judgment whether any future testimony or data request responses will contain proprietary information and specifically reserves all rights as to this issue. AT\&T Ohio requests that any such objections be served on AT\&T Ohio's counsel (Jon Kelly) by emall (jon.kelly@att.com) or fax (614 223-5955).

AT\&T Ohio also reserves the right to make any modifications to the above information. Should any modifications be made to the information, these modifications will be reflected in a subsequent letter.

## AFFIDAVIT OF CONNIE BROWNING

Connie Browning, being first duly cautioned and sworn, deposes and says as
follows:

1. I am President of The Ohio Bell Telephone Company d/b/a AT\&T Ohio ("AT\&T Ohio"), where my office address is 150 E . Gay St., Room 4-A, Columbus, Ohio 43215.
2. This affidavit is made in compliance with the Public Utilities Commission of Ohio's rule set forth in Section 4901:1-4-09(B)(1) of the Ohio Administrative Code.
3. As required by that rule, I hereby verify that the applicant, AT\&T Ohio, fully complies with the elective alternative regulation commitments as required by paragraphs (A) and (B) of rule 4901:1-4-06 of the Administrative Code, related to advanced services and lifeline service, and as applicable to large ILECs such as AT\&T Ohio.

This concludes my affidavit.

Sworn to and subscribed before me this $20^{t h}$ day of December, 2007.

## AFFIDAVIT OF CONNIE BROWNING

Connie Browning, being first duly cautioned and sworn, deposes and says as follows:

1. I am President of The Ohio Bell Telephone Company d/b/a AT\&T Ohio ("AT\&T Ohio"), where my office address is 150 E . Gay St., Room 4-A, Columbus, Ohio 43215.
2. This affidavit is made in compliance with the Public Utilities Commission of Ohio's rule set forth in Section 4901:1-4-09(B)(3) of the Ohio Administrative Code and supports the application which this affidavit accompanies.
3. As required by that rule, I hereby attest to the veracity of the data upon which the application is premised, which is incorporated in this affidavit.
4. The application includes the required supporting information and detailed analysis demonstrating that the applicant meets, on a telephone exchange area basis at least one of the competitive market tests, as set forth in paragraph (C) of rule 4901:1-4-10 of the Administrative Code.

This concludes my affidavit.

Sworn to and subscribed before me this 20 day of December, 2007.

Billing for Data Sent or Received. Mobile Web 2.0 is included in all Nationwide Calling Plans. Unless you subscribe to the V CAST VPak, V CAST Mobile TV Select or Premium Calling Plans, data sent or received using Mobile Web (including advertising), Get It Now ${ }^{B}$, and other data applications will be aggregated at the end of each month, rounded up to the nearest whole megabyte, and billed at $\$ 1.99$ per megabyte.

Rates are rounded to the nearest whole megabyte. One megabyte is equal to 1024 kilobytes. Application charges apply in addition to charges for data sentreceived.

Calling Plan Information

Important Calling Plan Information
Anytime Minutes, National IN Calling, Night \& Weekend Minutes and Per-Minute Rate are for use from within the Nationwide Rate and Coverage Area.

- Unlimited Domestic Long Distance. (Airtime applies.)
- No domestic roaming charges. (Coverage not available in all areas)
- Unlimited Night \& Weekend Minutes Night Hrs: (M-F) 9:01 p.m.-5:59 a.m.
Wknd Hrs: 12:00 a.m. Sat.-11:59 p.m. Sun.

## International Roaming

Make or receive calls while traveling internationally with rates starting as low as $69 \mathrm{c} / \mathrm{minute}$. While at home, some international destinations can be reached using 10 -digit direct dialing; intemational long distance rates apply in addition to ainime charges. Please visit www.verizonwireless.com/international for a list of North American Dialing Pattern countries and rates.

## Mobile Web 2.0

Mobile Web 2.0 is included in all Nationwide Calling Plans. Megabyte charges apply to Basic and Select Plans. Unless you subscribe to the V Cast VPak, V CAST Mobile TV Select or Premium Calling Plans, megabytes sent or received using Mobile Web (including advertising) will be aggregated each month, rounded up to the next megabyte, and billed at $\$ 1.99 \mathrm{MB}$.

Rates are rounded to the nearest whole megabyte. One megabyte is equal to 1024 kilobytes. Application charges apply in addition to charges for data sent/received.

## 411 Connect (1)

$\$ 1.49$ per call plus airtime.

## Detailed Billing

$\$ 1.99$ per manth per number.

## Required Equipment

GPS-capable CDMA tri-mode or all-digital phone with Verizon Wireless software.

## Minimum Term, Activation and Early Termination Fees

- One- or two-year minimum term required per line.
- Activation Fee/line: $\$ 35$, except $\$ 25$ for secondary Family SharePlan@ lines with two-year minimum term.
- Activation fees may vary or be waived for business customers that have a Major Account Agreement with Verizon Wireless.
- Early Termination Fee: Up to $\$ 175$ per line.

## Taxes, Surcharges and Fees

- Tolls, taxes, surcharges and other fees, such as E911 and gross receipt charges, vary by market and as of September 1, 2007, add between $4 \%$ and $34 \%$ to your monthly bill and are in addition to your monthly access fees and airtime charges.
- Monthly Federal Universal Service Charge on interstate \& international telecom charges (varies quarterly based on FCC rate) is $11 \%$ per line.
- The Verizon Wireless monthly Regulatory Charge will increase from 4⿷ to $7 \mathbb{C}$ per line effective 11/15/07.
- Monthly Administrative Charge (subject to change) is $70 ¢$ per line.
- The Federal Universal Service, Regulatory and Administrative Charges are Verizon Wireless charges, not taxes. For more details on these charges, call 1-888-684-1888.

Important Information:
For more information, refer to the Customer Agreement or speak with a Sales Representative. Service is subject to the Customer Agreement, which you should read before activating service. Credit approval required. Billing, shipping and end-user address must be within the Verizon Wireless licensed and service areas where the wireless phone number is issued.
In some rare instances, dialing ${ }^{* 228}$ may alter your Calling Plan's Airtime Rate and Coverage Area. The accuracy of the roaming indicator on your phone cannot be guaranteed. Charges for calls will be based on the cell sites used and time of day at the telephone switching office that carries your call, which may be different than the time of day shown on your phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to next full minute. Unused allowance minutes lost. Charges start when you first press SEND or the call connects to a network on outgoing calls, and when the call connects to a network (which may be before it rings) on incoming calls. Time may end several seconds after you press END or the call otherwise disconnects. For calls made on our network, we only bill for calls that connect (which includes calls answered by machines). Calls to 'toll-free' numbers are toll-free; you will be billed airtime. Billing for airtime and related charges may sometimes be delayed. Delayed aittime will be applied against the included airtime for the month when you actually made or received the call, even though such charges may show up on a later bill. This may result in charges higher than you'd expect in the later month.

## Family SharePlan

Minimum of two lines required. Maximum of five lines. Only one line is the primary line. All lines must be activated on the same billing account and in the same market.

## National IN Calling

You can talk with any of our customers anytime from within the America's and North America's Choice (in the United States and Puerto Rico) Rate and Coverage Area. If Caller ID is not present or Caller ID Block is initiated, National IN Calling does not apply to incoming calls and will apply to outgoing calls only. National IN Calling is not available to customers whose wireless exchange restricts the delivery of Caller ID or with fixed wireless devices with usage substantially from a single cell site. National IN Calling does not apply if Call Forwarding or No Answer/Busy Transfer features are activated or to data usage, including Push to Talk calls, Picture Messaging or Video Messaging, calls to check your Voice Mail and calls to Verizon Wireless customers using any of the VZGlobal services. National IN Calling does not apply in those areas of Louisiana and Mississippi where your phone's roaming indicator flashes.

## Internet Access

Mobile Office Kits, PC Cards, PDAs or other wireless modem devices may not be used for Internet access without a subscription to seiect VZEmail or VZAccess plans.

Connecticut Customers: If you have any questions about your bill or concerns about your service, please call Customer Care at: 1-800-922-0204 or dial *611 from your wireless phone. If you are a Connecticut customer and we cannot resolve your issue, you have the option of contacting the Department of Public Utility Control (DPUC): Online: www.state.ct.us/dpuc Phone: 866-381-2355; Mail: Connecticut DPUC, 10 Franklin Square, New Britain, CT 06051.

Last Update 11/01/07

## Verizon Wireless Printer Friendly Coverage Map

These Coverage Locator depictions apply to the following calling plans:
Nationwide Calling Plans, America's Choice initiated (activated) on or after 2/21/2005, BroadbandAccess and INpulse.
These Coverage Locator maps are not a guarantee of coverage and may contain areas with no service. These maps reflect a depiction of predicted and approximate wireless coverage of the Verizon Wireless Network and the network of other carriers. The coverage areas shown do not guarantee service availability, and may include locations with limited or no coverage. Even within a coverage area. there are many factors, including a customer's equipment, terrain, and proximity to buldings, toliage, and weather that may impact service. An all-digital device will not operate or be able to make 911 calls when digital serviee is not available. Some of the coverage area includes networks run by other carriers; some of the coverage depicted is based on their information and public sources and we cannot ensure its accuracy.

## Latest News <br> New Solutions for Your Business

First Communications is expanding its network throughout the Midwest including metropolitan areas in Ohio, Michigan and Illinois. As we enhance our infrastructure, we continue to release new telecommunications solutions, including FirstComplete $(\mathbb{B}$, our new Dynamic T1 service. FirstComplete (®) combines high speed internet connectivity with local and long distance services all through one T1 connection. This flexible service utilizes the unused voice lines in the circuit to maximize bandwidth at speeds up to ten times faster than DSL. Our FirstComplete © service provides all the voice and data needs for any small to medium size business.

Call us today at 1.888 .266 .1237 to find out more about FirstComplete (B)
FirstSpeed BPL, First Communications revolutionary new IP product, is ready for your business.
(cllick here)
In-building FirstSpeed BPL is a broadband Internet connection delivered through the existing electrical infrastructure of a building. In addition to connectivity, the tremendous bandwidth allows the overlay of integrated IP applications, such as voice, television and security systems.

## First Communcanows

First Communications offers local and long-distance phone service, tollfree service, conference calling, Internet access, and dedicated and private line services. First Communications' goal is simple: To be a company easy to do business with; to build long lasting customer relationships by concentrating on the individual communication needs of our customers; and to measure our performance not only by how many customers we acquire, but by how many we retain and completely satisfy.

THE SAGE SERVICE DIFFERENCE
Service that is centered around you. Free long distance calling between Sage residential customers. Phone service that lets you pick the features you want, and only the features you want. Sage offers truly customized plans that bring you REAL savings.

TESTIMONIAL: Amy, Schertz, TX
I want to commend Sage on the excellent customer service that i recently received. The technician and everyone that I spoke with in Customer Service were very courteous and professional.
it is truly refrsshing for a company to actually care about the customer. I will not hesitate to recommend Sage to all my friends.

TESTIMONIAL: Fandall and Tina, Frisco, TX
Just a little note of appreciation for your service. After a couple of months with Sage service, I have saved more than $\$ 100$. Even with additional calls during the holiday season, my bill was about hall of what it had been with SBCP.

Billing for Data Sent or Received. Mobile Web 2.0 is included in all Nationwide Calling Plans. Unless you subscribe to the V CAST VPak, V CAST Mobile TV Select or Premium Calling Plans, data sent or received using Mobile Web (including advertising), Get it Now (B), and other data applications will be aggregated at the end of each month, rounded up to the nearest whole megabyte, and billed at $\$ 1.99$ per megabyte.

Rates are rounded to the nearest whole megabyte. One megabyte is equal to 1024 kilobytes. Application charges apply in addition to charges for data sent/received.

## Calling Plan Information

Important Calling Plan Information
Anytime Minutes, National IN Calling, Night \& Weekend Minutes and Per-Minute Rate are for use from within the Nationwide Rate and Coverage Area.

- Unlimited Domestic Long Distance. (Airtime applies.)
- No domestic roaming charges. (Coverage not available in all areas)
- Unlimited Night \& Weekend Minutes Night Hrs: (M-F) 9:01 p.m.-5:59 a.m.
Wknd Hrs: 12:00 a.m. Sat.-11:59 p.m. Sun.

## International Roaming

Make or receive calls while traveling internationally with rates starting as low as $69 \mathrm{c} / \mathrm{minute}$. While at home, some international destinations can be reached using 10-digit direct dialing; international long distance rates apply in addition to airtime charges. Please visit www, verizonwireless.com/international for a list of North American Dialing Pattern countries and rates.

Mobile Web 2.0
Mobile Web 2.0 is included in all Nationwide Calling Plans. Megabyte charges apply to Basic and Select Plans. Unless you subscribe to the V Cast VPak, V CAST Mobile TV Select or Premium Calling Plans, megabytes sent or received using Mobile Web (including advertising) will be aggregated each month, rounded up to the next megabyte, and billed at $\$ 1.99 / \mathrm{MB}$.

Rates are rounded to the nearest whole megabyte. One megabyte is equal to 1024 kilobytes. Application charges apply in addition to charges for data sent/received.

## 411 Connect ${ }^{(8)}$

\$1.49 per call plus airtime.

## Detailed Bllling

$\$ 1.99$ per month per number.

## Required Equipment

GPS-capable CDMA tri-mode or all-digital phone with Verizon Wireless software.

## Minimum Term, Activation and Early Termination Fees

- One- or two-year minimum term required per line.
- Activation Fee/line: $\$ 35$, except $\$ 25$ for secondary Family SharePlan© lines with two-year minimum term.
- Activation fees may vary or be waived for business customers that have a Major Account Agreement with Verizon Wireless.
- Early Termination Fee: Up to $\$ 175$ per line.

## Taxes, Surcharges and Fees

- Tolls, taxes, surcharges and other fees, such as E911 and gross receipt charges, vary by market and as of September 1, 2007, add between $4 \%$ and $34 \%$ to your monthly bill and are in addition to your monthly access fees and airtime charges.
- Monthly Federal Universal Service Charge on interstate \& international telecom charges (varies quarterly based on FCC rate) is $11 \%$ per line.
- The Verizon Wireless monthly Regulatory Charge will increase from 4 © to 7 © per line effective 11/15/07.
- Monthly Administrative Charge (subject to change) is $70 ¢$ per line.
- The Federal Universal Service, Regulatory and Administrative Charges are Verizon Wireless charges, not taxes. For more details on these charges, call 1-888-684-1888.

Important Information:
For more information, refer to the Customer Agreement or speak with a Sales Representative. Service is subject to the Customer Agreement, which you should read before activating service. Credit approval required. Billing, shipping and end-user address must be within the Verizon Wireless licensed and service areas where the wireless phone number is issued.
In some rare instances, dialing *228 may alter your Calling Plan's Airtime Rate and Coverage Area. The accuracy of the roaming indicator on your phone cannot be guaranteed. Charges for calls will be based on the cell sites used and time of day at the telephone switching office that carries your call, which may be different than the time of day shown on your phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to next full minute. Unused allowance minutes lost. Charges start when you first press SEND or the call connects to a network on outgoing calls, and when the call connects to a network (which may be before it rings) on incoming calls. Time may end several seconds after you press END or the call otherwise disconnects. For calls made on our network, we only bill for calls that connect (which includes calls answered by machines). Calls to 'toll-free' numbers are toll-free; you will be billed airtime. Billing for airtime and related charges may sometimes be delayed. Delayed airtime will be applied against the included airtime for the month when you actually made or received the call, even though such charges may show up on a later bill. This may result in charges higher than you'd expect in the later month.

Family SharePlan
Minimum of two lines required. Maximum of five lines. Only one line is the primary line. All lines must be activated on the same billing account and in the same market.

## National IN Calling

You can talk with any of our customers anytime from within the America's and North America's Choice (in the United States and Puerto Rico) Rate and Coverage Area. If Caller ID is not present or Caller ID Block is initiated, National IN Calling does not apply to incoming calls and will apply to outgoing calls only. National IN Calling is not available to customers whose wireless exchange restricts the delivery of Caller ID or with fixed wireless devices with usage substantially from a single cell site. National IN Calling does not apply if Call Forwarding or No Answer/Busy Transfer features are activated or to data usage, including Push to Talk calls, Picture Messaging or Video Messaging, calls to check your Voice Mail and calls to Verizon Wireless customers using any of the VZGlobal services. National IN Calling does not apply in those areas of Louisiana and Mississippi where your phone's roarning indicator flashes.

## Internet Access

Mobile Office Kits, PC Cards, PDAs or other wireless modem devices may not be used for intemet access without a subscription to select VZEmail or VZAccess plans.

Connecticul Customers: If you have any questions about your bill or concerns about your service, please call Customer Care at: 1-800-922-0204 or dial *611 from your wireless phone. If you are a Connecticut customer and we cannot resolve your issue, you have the option of coniacting the Department of Public Utility Control (DPUC): Online: www.state.ct.us/dpuc Phone: 866-381-2355; Mail: Connecticut DPUC, 10 Franklin Square, New Britain, CT 06051.

No Coverage
VZW Store

These Coverage Locator depictions apply to the following calling plans:
Nationwide Calling Plans, America's Choice initiated (activated) on or after 2/21/2005, BroadbandAccess and INpulse.
These Coverage Locator maps are not a guarantee of coverage and may contain areas with no service. These maps reflect a depiction of predicted and approximate wireless coverage of the Verizon Wireless Network and the network of other carriers. The coverage areas shown do not guarantee service availability, and may include locations with limited or no coverage. Even within a coverage area. there are mary factors, including a customer's equipment, terrain, and proximity to buildings, foliage, and weather that may impact service. An all-digital device will not operate or be abie to make 911 calls when digital service is not avallable. Some of the coverage area includes networks fun by other carriers; some of the coverage depleted is based on their information and public sources and we cannot ensure its accuracy.

Latest News
New Solutions for Your Business
First Communications is expanding its network throughout the Midwest including metropolitan areas in Ohio, Michigan and Illinois. As we enhance our infrastructure, we continue to release new telecommunications solutions, including FirstComplete (B), our new Dynamic T1 service. FirstComplete (B) combines high speed internet connectivity with local and long distance services all through one T1 connection. This flexible service utilizes the unused voice lines in the circuit to maximize bandwidth at speeds up to ten times faster than DSL. Our FirstComplete (®) service provides all the voice and data needs for any small to medium size business.

Call us today at 1.888.266.1237 to find out more about FirstComplete ©
FirstSpeed BPL, First Communications revolutionary new IP product, is ready for your business.
(click here)
In-building FirstSpeed BPL is a broadband Internet connection delivered through the existing electrical infrastructure of a building. In addition to connectivity, the tremendous bandwidth allows the overlay of integrated IP applications, such as voice, television and security systems.

## Frast Commintianons

First Communications offers local and long-distance phone service, tollfree service, conference calling, Internet access, and dedicated and private line services. First Communications' goal is simple: To be a company easy to do business with; to build long lasting customer relationships by concentrating on the individual communication needs of our customers; and to measure our performance not only by how many customers we acquire, but by how many we retain and completely satisfy.

## COME SEE THE SAGE SERVICE DIFFERENCE

Service that is centered around you. Free long distance calling between Sage residential customers. Phone service that lets you pick the features you want, and only the features you want. Sage offers truly customized plans that bring you REAL savings.

TESTIMONIAL: Larry, Clare, MI
This is the first time I have written a letter to thank someone. I recently helped my sister get her phone service transferred to Sage, and I had the good tortune to speak with a lady name Rosa. She was courteous, polite, and knowledgeable, and took a genuine interest in helping me.

I can assure you that my family and I will be Sage customers for a long time.
TESTIMONIAL: Vanika, Madison, WI
I want to thank Sage for making my experience with Customer Service so enjoyable. Your employees are top notch and always professional. I have never had so many positive experiences with a telephone company.

Thank you for providing me with great service. Your company will go a long way.

Billing for Data Sent or Received. Mobile Web 2.0 is included in all Nationwide Calling Plans. Uniess you subscribe to the V CAST VPak, V CAST Mobile TV Select or Premium Calling Plans, data sent or received using Mobile Web (including advertising), Get It Now®, and other data applications will be aggregated at the end of each month, rounded up to the nearest whole megabyte, and billed at $\$ 1.99$ per megabyte.

Rates are rounded to the nearest whole megabyte. One megabyte is equal to 1024 kilobytes. Application charges apply in addition to charges for data sent/received.

Calling Plan Information

Important Calling Plan Information
Anytime Minutes, National IN Calling, Night \& Weekend Minutes and Per-Minute Rate are for use from within the Nationwide Rate and Coverage Area.

## Nationwide Basic Calling Plans - Verizon Wireless

- Unlimited Domestic Long Distance. (Airtime applies.)
- No domestic roaming charges. (Coverage not available in all areas)
- Unlimited Night \& Weekend Minutes Night Hrs: (M-F) 9:01 p.m.-5:59 a.m.
Wknd Hrs: 12:00 a.m. Sat.-11:59 p.m. Sun.

## International Foaming

Make or receive calls while traveling internationally with rates starting as low as $69 \mathrm{c} / \mathrm{min} u t e$. While at home, some international destinations can be reached using 10 -digit direct dialing; international long distance rates apply in addition to airtime charges. Please visit www.verizonwireless.com/international for a list of North American Dialing Pattern countries and rates.

## Mobile Web 2.0

Mobile Web 2.0 is included in all Nationwide Calling Plans. Megabyte charges apply to Basic and Select Plans. Unless you subscribe to the V Cast VPak, V CAST Mobile TV Select or Premium Calling Plans, megabytes sent or received using Mobile Web (including advertising) will be aggregated each month, rounded up to the next megabyte, and billed at $\$ 1.99 / \mathrm{MB}$.

Rates are rounded to the nearest whole megabyte. One megabyte is equal to 1024 kilobytes. Application charges apply in addition to charges for data sent/received.

## 411 Connect®

$\$ 1.49$ per call plus airtime.

## Detailed Billing

$\$ 1.99$ per month per number.

## Required Equipment

GPS-capable CDMA tri-mode or all-digital phone with Verizon Wireless software.

## Minimum Term, Activation and Early Termination Fees

- One- or two-year minimum term required per line.
- Activation Fee/line: $\$ 35$, except $\$ 25$ for secondary Family SharePlan@ lines with two-year minimum term.
- Activation fees may vary or be waived for business customers that have a Major Account Agreement with Verizon Wireless.
- Early Termination Fee: Up to $\$ 175$ per line.

## Taxes, Surcharges and Fees

- Tolls, taxes, surcharges and other fees, such as E911 and gross receipt charges, vary by market and as of September 1, 2007, add between $4 \%$ and $34 \%$ to your monthly bill and are in addition to your monthly access fees and airtime charges.
- Monthly Federal Universal Service Charge on interstate \& international telecom charges (varies quarterly based on FCC rate) is $11 \%$ per line.
- The Verizon Wireless monthly Regulatory Charge will increase from $4 \oplus$ to 7 \& per line effective 11/15/07.
- Monthly Administrative Charge (subject to change) is $70 ¢$ per line.
- The Federal Universal Service, Regulatory and Administrative Charges are Verizon Wireless charges, not taxes. For more details on these charges, call 1-888-684-1888.

## Important Information:

For more information, refer to the Customer Agreement or speak with a Sales Representative. Service is subject to the Customer Agreement, which you should read before activating service. Credit approval required. Billing, shipping and end-user address must be within the Verizon Wireless licensed and service areas where the wireless phone number is issued.
In some rare instances, dialing *228 may alter your Calling Plan's Airtime Rate and Coverage Area. The accuracy of the roaming indicator on your phone cannot be guaranteed. Charges for calls will be based on the cell sites used and time of day at the telephone switching office that carries your call, which may be different than the time of day shown on your phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to next full minute. Unused allowance minutes lost. Charges start when you first press SEND or the call connects to a network on outgoing calls, and when the call connects to a network (which may be before it rings) on incoming calls. Tirne may end several seconds after you press END or the call otherwise disconnects. For calls made on our network, we only bill for calls that connect (which includes calls answered by machines). Calls to 'toll-free' numbers are toll-free; you will be billed airtime. Billing for airtime and related charges may sometimes be delayed. Delayed airtime will be applied against the included airtime for the month when you actually made or received the call, even though such charges may show up on a later bill. This may result in charges higher than you'd expect in the later month.

## Family SharePlan

Minimum of two lines required. Maximum of five lines. Only one line is the primary line. All lines must be activated on the same billing account and in the same market.

## National IN Calling

You can talk with any of our customers anytime from within the America's and North America's Choice (in the United States and Puerto Rico) Rate and Coverage Area. If Caller ID is not present or Caller ID Block is initiated, National IN Calling does not apply to incoming calls and will apply to outgoing calls only. National iN Calling is not available to customers whose wireless exchange restricts the delivery of Caller ID or with fixed wireless devices with usage substantially from a single cell site. National IN Calling does not apply if Call Forwarding or No Answer/Busy Transfer features are activated or to data usage, including Push to Talk calls, Picture Messaging or Video Messaging, calls to check your Voice Mail and calls to Verizon Wireless customers using any of the VZGlobal services. National IN Calling does not apply in those areas of Louisiana and Mississippi where your phone's roaming indicator flashes.

## Internet Access

Mobile Office Kits, PC Cards, PDAs or other wireless modern devices may not be used for Internet access without a subscription to select VZEmail or VZAccess plans.

Connecticut Customers: If you have any questions about your bill or concerns about your service, please call Customer Care at: 1-800-922-0204 or dial *611 from your wireless phone. If you are a Connecticut customer and we cannot resolve your issue, you have the option of contacting the Department of Public Utility Control (DPUC): Online: www.state.ct.us/dpuc Phone: 866-381-2355; Mail: Connecticut DPUC, 10 Franklin Square, New Britain, CT 06051.

**ACN-2-ACN Free Calling includes outbound, direct dialed, voice calls and is limited to ACN residential customers in the U.S. and Canada only, with typical residential calling patterns as defined by ACN. ACN's Acceptable Use Policy for $A C N-2-A C N$ Free Calling can be found here. $A C N$ reserves the sole right to disconnect, or switch to another plan, any user who abuses the Acceptable Use Policy. ACN Advantage Data/Fax Line does not qualify for this feature.

Add an ACN calling card to your service for FREE! Get the added convenience of making calls from virtually anywhere in the country for just 30 cents a minute.**
** There is a 25 cent surcharge on each ACN calling card call. An FCC mandated surcharge of 24 cents is assessed for all ACN calling card calls placed from a pay phone. Calling card calls placed to international locations are assessed a $\$ 2.50$ charge per call.

New Solutions for Your Business
First Communications is expanding its network throughout the Midwest including metropolitan areas in Ohio, Michigan and lllinois. As we enhance our infrastructure, we continue to release new telecommunications solutions, including FirstComplete ©, our new Dynamic $T 1$ service. FirstComplete (®) combines high speed internet connectivity with local and long distance services all through one T1 connection. This flexible service utilizes the unused voice lines in the circuit to maximize bandwidth at speeds up to ten times faster than DSL. Our FirstComplete (®) service provides all the voice and data needs for any small to medium size business.

Call us today at 1.888 .266 .1237 to find out more about FirstComplete © ${ }^{8}$
FirstSpeed BPL, First Communications revolutionary new IP product, is ready for your business.
(click here)
In-building FirstSpeed BPL is a broadband Internet connection delivered through the existing electrical infrastructure of a building. In addition to connectivity, the tremendous bandwidth allows the overlay of integrated IP applications, such as voice, television and security systems.

## Finst Commancanows

First Communications offers local and long-distance phone service, tollfree service, conference calling, Internet access; and dedicated and private line services. First Communications' goal is simple: To be a company easy to do business with; to build long lasting customer relationships by concentrating on the individual communication needs of our customers; and to measure our performance not only by how many customers we acquire, but by how many we retain and completely satisfy.

THE SAGE SERVICE DIFFERENCE
Service that is centered around you. Free long distance calling between Sage residential customers. Phone service that lets you pick the features you want, and only the features you want. Sage offers truly customized plans that bring you REAL savings.
TESTIMONIAL: Randall and Tina, Frisco, TX
Just a little note of appreciation for your service. Atter a couple of months with Sage service, I have saved more than $\$ 100$. Even with additional calls during the holiday season, my bill was about half of what it had been with $\mathrm{SBC}(8)$.

TESTIMONIAL: Larry, Clare, MI
This is the first time I have witten a letter to thank someone. I recently helped my sister get her phone service transferred to Sage, and I had the good fortune to speak with a lady name Rosa. She was courteous, polite, and knowledgeable, and took a genuine interest in helping me.

I can assure you that my family and I will be Sage customers for a long time.
calling

BIlling for Data Sent or Received. Mobile Web 2.0 is included in all Nationwide Calling Plans. Unless you subscribe to the V CAST VPak, V CAST Mobile TV Select or Premium Calling Plans, data sent or received using Mobile Web (including advertising), Get It Now(b), and other data applications will be aggregated at the end of each month, rounded up to the nearest whole megabyte, and billed at $\$ 1.99$ per megabyte.

Rates are rounded to the nearest whole megabyte. One megabyte is equal to 1024 kilobytes. Application charges apply in addition to charges for data sentreceived.

Calling Plan Information

Important Calling Plan Information
Anytime Minutes, National IN Calling, Night \& Weekend Minutes and Per-Minute Rate are for use from within the Nationwide
Rate and Coverage Area.
http://www.verizonwireless.com/b2c/store/controller?item=planFirst\&action=viewPlanList\&sortOption=... $\quad 12 / 14 / 2007$

- Unlimited Domestic Long Distance. (Airtime applies.)
- No domestic roaming charges. (Coverage not available in all areas)
- Unlimited Night \& Weekend Minutes

Night Hrs: (M-F) 9:01 p.m.-5:59 a.m.
Wknd Hrs: 12:00 a.m. Sat.-11:59 p.m. Sun.

## International Roaming

Make or receive calls while traveling internationally with rates starting as low as $69 \phi /$ minute. While at home, some international destinations can be reached using 10-digit direct dialing; international long distance rates apply in addition to airtime charges. Please visit www.verizonwireless.com/international for a list of North American Dialing Pattern countries and rates.

## Mobile Web 2.0

Mobile Web 2.0 is included in all Nationwide Calting Plans. Megabyte charges apply to Basic and Select Plans. Unless you subscribe to the V Cast VPak, V CAST Mobile TV Select or Premium Calling Plans, megabytes sent or received using Mobile Web (including advertising) will be aggregated each month, rounded up to the next megabyte, and billed at $\$ 1.99 / \mathrm{MB}$.

Rates are rounded to the nearest whole megabyte. One megabyte is equal to 1024 kilobytes. Application charges apply in addition to charges for data sent/received.

## 411 Connect 8

$\$ 1.49$ per call plus airtime.

## Detailed Billing

$\$ 1.99$ per month per number.

## Required Equipment

GPS-capable CDMA tri-mode or all-digital phone with Verizon Wireless software.

## Minimum Term, Activation and Early Termination Fees

- One- or two-year minimum term required per line.
- Activation Fee/line: $\$ 35$, except $\$ 25$ for secondary Family SharePlan ${ }^{\text {® }}$ lines with two-year minimum term.
- Activation fees may vary or be waived for business customers that have a Major Account Agreement with Verizon Wireless.
- Early Termination Fee: Up to $\$ 175$ per line.

## Taxes, Surcharges and Fees

- Tolls, taxes, surcharges and other fees, such as E911 and gross receipt charges, vary by market and as of September 1, 2007, add between $4 \%$ and $34 \%$ to your monthly bill and are in addition to your monthly access fees and airtime charges.
- Monthly Federal Universal Service Charge on interstate \& international telecom charges (varies quarterly based on FCC rate) is $11 \%$ per line.
- The Verizon Wireless monthly Regulatory Charge will increase from $4 ¢$ to $7 ¢$ per line effective 11/15/07.
- Monthly Administrative Charge (subject to change) is $70 ¢$ per line.
- The Federal Universal Service, Regulatory and Administrative Charges are Verizon Wireless charges, not taxes. For more details on these charges, call 1-888-684-1888.

## Important Information:

For more information, refer to the Customer Agreement or speak with a Sales Representative. Service is subject to the Customer Agreement, which you should read before activating service. Credit approval required. Billing, shipping and end-user address must be within the Verizon Wireless licensed and service areas where the wireless phone number is issued.
In some rare instances, dialing *228 may alter your Calling Plan's Airtime Rate and Coverage Area. The accuracy of the roaming indicator on your phone cannot be guaranteed. Charges for calls will be based on the cell sites used and time of day at the telephone switching office that carries your call, which may be different than the time of day shown on your phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to next full minute. Unused allowance minutes lost. Charges start when you first press SEND or the call connects to a network on outgoing calls, and when the call connects to a network (which may be before it rings) on incoming calls. Time may end several seconds after you press END or the call otherwise disconnects. For calls made on our network, we only bill for calls that connect (which includes calls answered by machines). Calls to 'toll-free' numbers are toll-free; you will be billed airtime. Billing for airtime and related charges may sometimes be delayed. Delayed airtime will be applied against the included airtime for the month when you actually made or received the call, even though such charges may show up on a later bill. This may result in charges higher than you'd expect in the later month.

## Family SharePlan

Minimum of two lines required. Maximurn of five lines. Only one line is the primary line. All lines must be activated on the same billing account and in the same market.

## National IN Calling

You can talk with any of our customers anytime from within the America's and North America's Choice (in the United States and Puerto Rico) Rate and Coverage Area. If Caller ID is not present or Caller ID Block is initiated, National IN Calling does not apply to incoming calls and will apply to outgoing calls only. National IN Calling is not available to customers whose wireless exchange restricts the delivery of Caller ID or with fixed wireless devices with usage substantially from a single cell site. National IN Calling does not apply if Call Forwarding or No Answer/Busy Transfer features are activated or to data usage, including Push to Talk calls, Picture Messaging or Video Messaging, calls to check your Voice Mail and calls to Verizon Wireless customers using any of the VZGlobal services. National IN Calling does not apply in those areas of Louisiana and Mississippi where your phone's roaming indicator flashes.

## Internet Access

Mobile Oftice Kits, PC Cards, PDAs or other wireless modem devices may not be used for internet access without a subscription to select VZEmail or VZAccess plans.

Connecticut Customers: If you have any questions about your bill or concerns about your service, please call Customer Care at: 1-800-922-0204 or dial *611 from your wireless phone. If you are a Connecticut customer and we cannot resolve your issue, you have the option of contacting the Department of Public Utility Control (DPUC): Online: www.state.ct.us/dpuc Phone: 866-381-2355; Mail: Connecticut DPUC, 10 Franklin Square, New Britain, CT 06051.

Last Update 11/01/07

## Verizon Wireless Printer Friendly Coverage Map

Mapped Coverage<br>Voice and Messaging<br>Mapped Location<br>44255

These Coverage Locator depictions apply to the following calling plans:
Nationwide Calling Plans, America's Choice initiated (activated) on or after 2/21/2005, BroadbandAccess and INpulse.

These Coverage Locator maps are not a guarantee of coverage and may contain araas with no sevice. These maps reflect a depiction of predicted and approximate wireless coverage of the Verizon Wireless Network and the network of other carriers. The coverage areas shown do not guarantee service avallability, and may include locations with limited or no coverage. Even within a coverage area. there are many factors, including a customer's equipment, terrain, and proximity to buildings, foliage, and weather that may impact service. An all-digital device will not operate or be able to make 911 calls when digital service is not avallable. Some of the coverage area includes networks run by other carriers; some of the coverage depicted is based on their information and public sources and we cannot ensure its accuracy.

New Solutions for Your Business

First Communications is expanding its network throughout the Midwest including metropolitan areas in Ohio, Michigan and Illinois. As we enhance our infrastructure, we continue to release new telecommunications solutions, including FirstComplete $®_{B}$, our new Dynamic T1 service. FirstComplete (B) combines high speed internet connectivity with local and long distance services all through one T1 connection. This flexible service utilizes the unused voice lines in the circuit to maximize bandwidth at speeds up to ten times faster than DSL. Our FirstComplete $\otimes^{\otimes}$ service provides all the voice and data needs for any small to medium size business.

Call us today at 1.888 .266 .1237 to find out more about FirstComplete (ß)

## FirstSpeed BPL, First Communications revolutionary new IP product, is ready for your business. <br> (click heres)

In-building FirstSpeed BPL is a broadband Internet connection delivered through the existing electrical infrastructure of a building. In addition to connectivity, the tremendous bandwidth allows the overlay of integrated IP applications, such as voice, television and security systems.

Ftas Communcamons
First Communications offers local and long-distance phone service, tollfree service, conference calling, Internet access, and dedicated and private line services. First Communications' goal is simple: To be a company easy to do business with; to build long lasting customer relationships by concentrating on the individual communication needs of our customers; and to measure our performance not only by how many customers we acquire, but by how many we retain and completely satisty.

## New Solutions for Your Business

First Communications is expanding its network throughout the Midwest including metropolitan areas in Ohio, Michigan and Illinois. As we enhance our infrastructure, we continue to release new telecommunications solutions, including FirstComplete ${ }^{(®)}$, our new Dynamic T1 service. FirstComplete (©) combines high speed internet connectivity with local and long distance services all through one T1 connection. This flexible service utilizes the unused voice lines in the circuit to maximize bandwidth at speeds up to ten times faster than DSL. Our FirstComplete © service provides all the voice and data needs for any small to medium size business.

Call us today at 1.888.266.1237 to find out more about FirstComplete (®)
FirstSpeed BPL, First Communications revolutionary new IP product, is ready for your business.
(click here)
In-building FirstSpeed BPL is a broadband Internet connection delivered through the existing electrical infrastructure of a building. In addition to connectivity, the tremendous bandwidth allows the overlay of integrated IP applications, such as voice, television and security systems.

## First Communtininhs

First Communications offers local and long-distance phone service, tollfree service, conference calling, Internet access, and dedicated and private line services. First Communications' goal is simple: To be a company easy to do business with; to build long lasting customer relationships by concentrating on the individual communication needs of our customers; and to measure our performance not only by how many customers we acquire, but by how many we retain and completely satisfy.
