RE: TDS Telecom Companies Detariffing Filing – additional information

Dear Melissa,

Enclosed are the copies of the current tariffs and the affidavits per your request for Arcadia Telephone Company, Continental Telephone Company, Little Miami Communications Corporation, Oakwood Telephone Company, The Vanlue Telephone Company, and TDS Long Distance Company. Also enclosed is the narrative of each tariff sheet change per your request.

If you have any additional questions or need other information, just call me at the telephone number listed below.

Regards,

Karen Fehrman  
Manager – Tariffs  
TDS Telecom

SCHEDULE OF RATES

APPROVED

BASIC LOCAL EXCHANGE RATES

- A. The classifications and rates set forth in this section apply to the total service area of the Oakwood Telephone Company as depicted on Section 11, Original Sheet 8, P.U.C.O. No. 3. The authorized rates entitles subscribers to toll free calling to subscribers of the Arthur Mutual Telephone Company, the Grover Hill and Continental Exchanges of the Continental Telephone Company in addition to other subscribers of the Oakwood Exchange.

	Monthly Rate <sup>1,2</sup>		*Tier Designation
	Current	Maximum	
1. Residence			
a) One Party - 1st Line	\$12.77	\$12.77	Tier 1 Core
b) One-Party - 2nd & 3rd Line, each	12.77	25.54	Tier 1 Non-Core
c) One-Party - 4 or more Lines, each	12.77	None	
2. Business			
a) One Party - 1st Line	21.07	21.07	Tier 1 Core
b) One-Party - 2nd & 3rd Line, each	21.07	42.14	Tier 1 Non-Core
c) One-Party - 4 or more Lines, each	21.07	None	
3. PBX Systems & Key Systems			
a) PBX Trunk Access Line, each	31.32	62.64	Tier 1 Non-Core
b) Key System Trunk Access Line, each	26.22	52.44	Tier 1 Non-Core

<sup>1</sup> Includes Tel-Touch Service.

<sup>2</sup> Effective August 6, 2007, the rates for residential and business customers who do not have Tel-Touch Service will be grandfathered and will see no change in their monthly rate. Any subsequent change to service made by such grandfathered customer, however, will result in the loss of the grandfathering exception and will require that customer to upgrade to Tel-Touch service.

(M) Material previously appeared in Section 1, Sheet 8.

\* Rates for Tier 1 Core Services are capped at current rates. Rates for Tier 1 Non Core Services are capped at current rates until 09/10/09. After 09/10/09, Tier 1 Non-Core rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and call waiting, which are limited to a ten percent increase per year until they cap at double the initial rate. This pricing flexibility is in accordance with O.A.C. 4901: 1-4 and AR Reg Case 07-849-TP-ALT effective 09/10/07.

**H. CUSTOM CALLING SERVICES (Continued)**

**19. Toll Restriction with PIN override**

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. In addition, the customer will have the ability to override the restriction on a per call basis by using a Personal Identification Number (PIN). To activate the override, the customer dials a code, the PIN, waits for a dial tone and then dials the toll number. When a restricted call is attempted without the PIN, from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

**20. Call Transfer Enhanced**

This feature enables a customer to transfer multiple incoming or outbound calls to a third party with either a Screened Transfer or a Blind Transfer. A Screened Transfer enables the transferring party to announce a call to the third party prior to completing the transfer. If the third party chooses not to take the call, the transferring party may disconnect the third party and return to the caller. Otherwise, the transferring party may disconnect, completing the transfer and returning the line to an idle state. A Blind Transfer enables the transferring party to immediately disconnect after dialing the third party, prior to the third party answering the call. After disconnecting, the transferring party may either originate or receive a new call, even though the transferred call is still in progress. In addition, this feature enables a customer to establish a 3-way conference call while enabling any party (including the originator of the call) to drop out of the conference while leaving the other two parties connected. The customer is responsible for all applicable long distance charges for originating or terminating calls that will apply for the duration of the call, even if the customer drops off the call.

**SUSPENSION OF SERVICE**

**A. General**

Suspension of Service allows local exchange service to be temporarily suspended by request of the customer. This service is provided to customers whose requirements for telephone service is less than the normal 12-month period within a year.

**B. Conditions**

1. Service can be temporarily suspended for a minimum of one (1) month and a maximum of ten (10) months.
2. Suspension of Service is available on all one-party residence lines and up to three one-party business lines subject to the availability of facilities.
3. The customer must have at least one month of regular telephone service paid prior to the establishment of Suspension of Service.
4. The Company reserves the right to bill charges for the total number of suspended months requested prior to establishment of Suspension of Service.
5. Suspension of Service may begin and terminate on any day of the month, provided notice is given sufficiently in advance for arrangements to be made.
6. The Company will not provide installations, moves, changes, or maintenance during the period when the customer is billed at the reduced rate.
7. Only two suspension periods will be allowed and shall not exceed ten months in any one calendar year nor exceed ten continuous months at any time regardless of the year.
8. Bills are rendered at the reduced rate at regular billing dates during the period of suspension.
9. The customer's listing will be retained in the directory.
10. The Company assumes no liability for failure of a calling party to reach the customer during the period of suspension.
11. The Company reserves the right to refuse suspension of service in the case of a customer whose account is delinquent.

C. Rates and Charges

1. The monthly rate will be based upon 50% of the regular rate for basic local one-party exchange service. All other local services will be zero rated except for the following:
  - a) 911/E911 applicable surcharges will be billed at the full rate.
  - b) The Federal Subscriber Line Charge will be discounted 50% per the National Exchange Carrier Association FCC Tariff No. 5, Section 4.5.5.
2. Non-recurring charges do not apply for reconnection to regular full service.
3. Personal Greeting Service

(N)

This optional service is available for customers who prefer to leave a personalized greeting for incoming calls while they are on Suspension of Service.

Monthly Rate: \$3.50

900 SERVICES CALL BLOCKING

A. General

900 Services Call Blocking is an optional service providing residential and nonresidential subscribers with the capability to block the origination of direct dialed calls to all 900 services.

B. Regulations

- a. Call blocking of 900 services is provided where Telephone Company facilities permit.
- b. 900 services blocking is provided to residential customers at no charge for initial requests.
- c. 900 services blocking is to be provided to nonresidential customers free of charge, on a one-time basis, during a 60-day period after the inception of service.
- d. Charges associated with nonresidential customers' initial requests (after the sixty-day free enrollment period has expired) and subsequent requests, and residential customers' subsequent requests, for 900 services blocking will not exceed the company's service order charge.
- e. Residential customers obtaining service at a new location shall be afforded blocking of 900 services at no charge, even if they exercised an option to block services at a previous location at no charge.
- f. Nonresidential customers obtaining service at a new location shall be afforded blocking of 900 services at no charge during a 60-day period after the inception of service, even if they exercised an option to block 900 services at a previous location at no charge.
- g. Customers may elect to remove 900 services blocking free of charge. Requests by customers to remove 900 services blocking must be in writing.

GENERAL EXCHANGE SERVICE TARIFFS

PER CALL BLOCKING/PER LINE BLOCKING

**APPROVED**

A. GENERAL

1. Customers may prevent the disclosure of their telephone number or directory name and number when placing calls to a party with service that reveals the calling party's number or name and number, by subscribing to either Per Call Blocking or Per Line Blocking.
2. Per Call Blocking and Per Line Blocking are provided according to the availability of facilities, features and central office equipment in locations determined by the Company. The features described will only operate on calls originating and terminating within suitably-equipped offices, or similarly equipped offices of interconnecting Local Exchange Companies.

B. DESCRIPTION

1. Per Call Blocking

Enables customers to prevent the disclosure of their telephone number or name and number on a per call basis to the called party. This disclosure of the calling party's number or name and number can be prevented on a per call basis by dialing \*67 (1167 from a rotary phone) before making a call. This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number or name and number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per the FCC Caller ID Order, Per Call Blocking is provided to all customers at no charge.

Per Call Blocking will be provided on calls originating from paystations used by the general public and party lines.

2. Per Line Blocking

Enables customers to prevent the disclosure of their telephone number or name and number to the called party. Per Line Blocking is applicable on all outgoing calls placed from the customer's line. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per Line Blocking will be provided at no monthly charge on an optional basis to customers of non-published service.

**ADVANCED CALLING SERVICE**

**A. GENERAL**

1. The Company will offer Advanced Calling Services (ACS) to customers served by digital switches equipped with the new industry standard SS7 signaling protocol. These features are widely known as Custom Local Area Signaling Service (CLASS).
2. Advanced Calling Services (ACS) is comprised of a group of features described under B. which allows customers to efficiently manage the call flow generated over their Exchange Access Line(s). This management is possible only where the calling party's telephone number can be forwarded from the central office serving the called party. ACS features are optional services offered in addition to regular exchange service.
3. ACS is available to residence and business customers served by central offices where the Company has installed CLASS features and is furnished subject to the availability of facilities. Individual feature availability may differ by exchange.
4. ACS features will be functional under the following conditions:
  - a. When both the originating customer and the call terminating customer are served by the same central office.
  - b. When both the call originating customer and the call terminating customer are served from different central offices equipped for ACS and are linked by appropriate facilities.
  - c. Where the calling party's data can be forwarded from the central office originating the call to the terminating central office serving the called party.
  - d. If offering Caller ID - Deluxe, the Calling Name will be displayed only where the appropriate facilities are available to provide a match of Calling Name to Calling Number.
- 4A. Advanced Calling Services (ACS) may be offered to customers for trial use for a period not to exceed ninety (90) days. The dates of offering and duration of trial use will be determined by the Telephone Company. During trial use, the recurring charge for ACS will not apply to customers participating in the trial use offering. This offering is limited to one-party lines which are not already equipped with ACS added. A customer may participate only once during each trial use offering period. Customer requests for ACS trial use will be subject to availability of facilities.

Requests for promotional offerings will be filed with the Public Utilities Commission of Ohio not less than ten days prior to the effective date.

**SCHEDULE OF RATES**

(T)

**ADVANCED CALLING SERVICES**

**APPROVED**

**C. RATES AND DISCOUNTS**

1. The rates and discounts apply to both residential and non-residential customers and are in addition to the established rates and charges for associated services.

2. Features rates:

a. Monthly rates, per feature, per line:

	Monthly Rate		Trans Code	
	Current	Maximum		
1) Anonymous Call Rejection	\$2.75		ACSAC	(C)
2) Call Rejection	2.75		ACSRJ	(C)
3) Call Return	3.50		ACSRT	
4) Caller ID-Basic (Number Only) *Tier 1 Core	7.00	7.00	ACSID	(C)
5) Preferred Call Forwarding	2.75		ACSPF	
6) Priority Ringing	2.75		ACSPR	
7) Repeat Dialing	3.50		ACSRP	
8) Special Call Acceptance	2.75		ACSSC	
9) Caller ID-Deluxe (Name and Number)	9.00		ACSUD	
10) Call Trace *Tier 1 Non-Core	4.00	8.00	ACSCT	(C)

\* Rates for Tier 1 Core Services are capped at current rates. Rates for Tier 1 Non Core Services are capped at current rates until 09/10/09. After 09/10/09, Tier 1 Non-Core rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and call waiting, which are limited to a ten percent increase per year until they cap at double the initial rate. This pricing flexibility is in accordance with O.A.C. 4901: 1-4 and Alt Reg Case 07-849-TP-ALT effective 09/10/07.

DIRECT INWARD DIALING (DID) SERVICE

A. General

The Telephone Company will provide, subject to the availability of facilities, Direct Inward Dialing (DID) Service. DID service provides for the completion of local and toll calls to associated station numbers without intermediate handling by an attendant.

B. Rates

- a. The rates and charges for central office trunk associated with Direct Inward Dialing (DID) Service are as found below:

	Monthly Rate	<u>NRC</u>
1. DID Facility Charge, Per Trunk	(1)	(1)
2. DID Software Translation Charge, Per Trunk	N/A	\$50.00
3. DID Number Assignment Charge (Blocks of 10 numbers) -	\$5.00	\$50.00 (2)

\*Numbers sold in conjunction with DID Service only.

C. Conditions

- a. The service is furnished subject to the availability of Central Office facilities and compatibility of customer-provided equipment.
- b. The service includes central office switching equipment for in-dialling from the exchange and toll network directly to stations associated with customer premises equipment.

- (1) See Section 1, Sheet No. 8 for associated PBX trunk rate and Section 1 for the installation charge.
- (2) Not applicable if installed with initial installation. Subsequent installations are subject to non-recurring costs.

DIRECT INWARD DIALING (DID) SERVICE

C. Conditions (Continued)

- c. The service must be provided on a minimum of 10 lines in a trunk group arranged for inward service.
- d. The rates herein contemplate the use of standard Telephone Company equipment and serving arrangements and are in addition to rates and charges for the service with which it is furnished. When equipment or service of a special type is requested and provided, rates and charges are related to the costs involved to meet the individual requirements of each case.
- e. Operational characteristics of interface signals between the Telephone Company-provided connecting arrangements and the customer-provided equipment must conform to the rules and regulations the Telephone Company considers necessary to maintain proper standards of service.
- f. The Telephone Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Telephone Company render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alternation of such equipment or system or otherwise affect its use or performance.
- g. Directory listings will be provided in accordance with the regulations of the "Directory Listings" section of this Tariff. DID numbers furnished herein are not entitled to free directory listings.
- h. Customer-provided equipment must be arranged by the customer to provide for the intercepting of assigned but unused station numbers.
- i. The customer being provided DID service will be responsible for all toll calls billed to the DID numbers.
- j. DID numbers will be sold in conjunction with DID service only.

TOTAL TALK PACK

APPROVED

A. General

1. Total Talk Pack is an optional service package. The package permits a customer to receive services and features for a flat monthly rate, for each Total Talk Pack subscriber line provided. Total Talk Pack includes the following services:<sup>1</sup>

- a. Residential or Business One-Party Line (includes Touch Tone capability) (C)
- b. Three-Way Calling & Call Waiting (Custom Calling Services)
- c. Caller ID Deluxe, Anonymous Call Rejection, & Priority Ringing (Advanced Calling Services)
- d. Inside Wire Protection Plan (deregulated service)

B. Conditions and Limitations

- 1. Rules, regulations, and limitations as specified elsewhere in the Company's tariffs for each individual service will apply as part of this bundle.
- 2. Total Talk Pack customers may terminate their enrollment in the Plan at any time upon notice to the company.
- 3. Unless terminated by the Total Talk Pack customer or the Company, a customer will remain enrolled in the Plan, as amended from time-to-time, with any applicable changes in rate, for as long as the Plan continues to be offered by the Company.
- 4. Service Charges, as described in Section 1 of this tariff, apply to requests for new and additional Total Talk Pack lines, and moves of existing lines. Service Charges will not apply when the Total Talk Pack replaces existing Local Exchange Service or if the customer requests a change from the Total Talk Pack back to Local Exchange Service.
- 5. Total Talk Pack customers are not eligible for discounts or promotional offerings (outside of this bundle) associated with the Custom Calling and Advanced Calling Services included in the Plan, unless specifically provided for in a promotional offering.

<sup>1</sup> Customers must also subscribe to TDS Long Distance Corporation's Total Talk Pack.

TELEPHONE NUMBER REFERRAL SERVICE

(N)

## A. General

1. When a customer moves to a new location outside the Telephone Company's service territory, the Company provides, without charge, a message that informs the caller to a disconnected number that the number has been disconnected or changed, and that the caller should consult the directory or call the operator.

Telephone Number Referral Service will provide a service to customers whose telephone service is being disconnected and are moving to a new location outside the Company's service territory. Dialing the customer's former number results in a prerecorded message which announces the new number.

2. The charge applies to a 90-day increment of service and can be continued for an additional 90-day period at the customer's request.
3. Customers moving to a new location outside the Company's service area will be billed in advance for this service.

## B. Rates

	<u>Transaction Code</u>	<u>Nonrecurring Charge</u>
1. Nonrecurring charge per telephone number, per 90 days of service	TNRS	\$ 20.00

## C. Conditions

1. Telephone Number Referral Service will be offered where facilities and conditions permit.
2. Telephone Number Referral Service may be cancelled by the customer at any time during the 90-day period.

GENERAL EXCHANGE SERVICE

(T)

CENTREX SERVICE

APPROVED

A. General

1. Centrex Service is a central office-based, flat rate, business communications service which provides capabilities similar to those offered on Private Branch Exchange, but without requiring switching equipment on the customer's premises. Centrex integrates all of a business customer's lines in to a single telecommunications system. Centrex is not provided in association with public or semi-public telephone service.
2. All Centrex lines shall be equipped with touch call signaling, but will not be subject to Touchcall rates as set forth in Section 5 of this tariff.
3. The minimum charge for services provided under this tariff shall be one (1) month.
4. Vacation rates for Centrex lines or services are not offered.
5. A Centrex customer must have a minimum of two (2) Centrex lines.
6. Centrex lines are not subject to Local Exchange Service Rates as set forth in Section 4 of this Tariff.
7. Centrex lines are not subject to the Rotary Service (Trunk Hunt) rates as set forth in Section 5 of this Tariff.
8. All station lines will be equipped with the standard system features as set forth in B.1.
9. Exchange lines terminating at different locations of the customer may be combined into a Centrex Service group arrangement; however, all exchange lines terminating in the group must be served by the same central office.

CENTREX SERVICE

(N)

B. SYSTEM SERVICES

1. Standard Features Provided Per Line:

a. Call Hold

Allows a station user to place a call on hold in order to initiate a second call, answer a waiting call, consult privately with another party, or return to the previously held call.

b. Call Pick-up

Allows a station user to answer incoming calls to another station within a defined call pick-up group by dialing a code.

c. Call Transfer

Allows a station user to hold and transfer incoming, outgoing, and intragroup calls to another station by flashing the switchhook and dialing the transfer-to number.

d. Intercom Dialing

Allows a station user to call other stations within their Centrex groups by dialing abbreviated codes.

e. Station-To-Station Dialing

Allows Centrex to operate like a PABX/PBX with station-to-station dialing, and required "9" access to place outside calls.

f. Direct Inward Dialing

Allows a station user to directly receive incoming calls without the assistance of an attendant.

ISSUED: 03/31/94

LOCAL EXCHANGE SERVICE TARIFFS

CENTREX SERVICE

(N)

B. SYSTEM SERVICES (Continued)

1. Standard Features Provided Per Line: (Continued)

g. Direct Outward Dialing

Enables a station user to call outside the Centrex group directly without the assistance of an attendant.

h. Business Group Automatic Identified Outward Dialing

Provides identification of the calling line or the Centrex Group billing/pilot number on billable calls directed to the public network.

i. 3-Way Calling

Allows a station user to add a third party to an existing call, and thus enables a simultaneous conference between parties at multiple locations.

j. Group Speed Dial 30

Allows the Centrex Group to establish a 30-number speed call list. It is group assignable and accessed by line. Group Speed Call can be accessed by anyone in the group.

k. Call Forwarding - Busy Line

Causes all calls to be redirected to an alternate station when the called station is busy.

l. Call Forwarding - No Answer

Allows all calls that terminate to a user's station to be redirected to an alternate station after a predetermined number of rings.

LOCAL EXCHANGE SERVICE TARIFFS

CENTREX SERVICE

(N)

B. SYSTEM SERVICES (Continued)

1. Standard Features Provided Per Line: (Continued)

m. Regular Hunting

Is performed in a sequential fashion across all members of Multiline Group. The search for an idle station starts with the pilot number. If the first station is busy, the group is sequentially hunted until an idle station is found. If there are no idle stations available, the caller receives a busy signal.

n. Distinctive Ringing/Call Waiting Indication

Allows ringing patterns and tones to be used to distinguish between calls coming from inside the Business Group and calls coming from outside the Group. For example, with the Distinctive Call Waiting capability, one (1) Call Waiting tone would indicate that the waiting call is from inside the Business Group, while two (2) tones would indicate that the call is coming in on an outside line.

o. Semi-Restricted Line

Prevents the line from making calls to and/or receiving calls from stations outside the Centrex group. It may, however, make and/or receive outside calls indirectly vial the attendant, Call Forwarding, Call Transfer, and Call Pickup features.

p. Full Restricted Line

Prevents the line from making calls to and/or receiving calls from stations outside the Centrex group. It is also prevented from making calls to and/or receiving calls from the attendant, thereby denying it indirect access to/from outside the Centrex group.

CENTREX SERVICE

(N)

B. SYSTEM SERVICES (Continued)

1. Standard Features Provided Per Line: (Continued)

q. Toll Restriction

Blocks the completion of calls that are directed to the outside operator or to numbers outside the local calling area. A Toll Restriction list may be assigned to either an individual line or shared by multiple lines.

2. Optional Features Selected Per Line:

a. Call Forward Variable -- All Calls

Allows a station user to have all incoming calls to a directory number. Activation, deactivation and the forward-to destination are controlled by the station user.

b. Call Waiting/Cancel Call Waiting

Provides a burst of tone to inform a station user with a call already in progress that another call is waiting to be answered. The station user may answer the waiting call by hanging up or flashing the switchhook.

The customer also has the option, when initiating a call from their line, not to be interrupted by the call waiting tone signal for the duration of that call. The calling party would receive a tone.

c. Voice-Data Protection

Allows a station user to inhibit intrusion features, such as Call Waiting and Operator Verification, which are directed to that line when it is busy.

CENTREX SERVICE

(N)

B. SYSTEM SERVICES (Continued)

2. Optional Features Selected Per Line (Continued)

d. Speed Calling 8-Code

Enables a station user to call a list of up to 8 preselected directory numbers by dialing one-digit codes instead of the directory numbers.

e. Speed Calling 30-Code

Enables a station user to call a list of up to 30 preselected directory numbers by dialing one-digit codes instead of the directory numbers.

f. Direct Connect Service

Allows a station user to automatically place a call to a preselected directory number by lifting the receiver off the switchhook. No dialing is required for the calling party to reach the specified destination.

g. Warm Line

Provides a time-out option with either Direct Connect Service or Manual Line Service. The time-out interval may be set at 1 to 14 seconds. During the time-out interval, a station user will receive normal dial tone and can originate calls. However, after the time-out interval expires, a call is automatically set up and routed to the specified destination.

CENTREX SERVICE

(N)

B. SYSTEM SERVICES (Continued)

3. Optional Features Selected Per Group:

The following services are selected for use by the entire Centrex Group:

a. Intercept Announcements

Allows a special intercept recording to which members of the business Group are routed when they dial invalid and/or restricted codes.

b. Access Restrictions

Allows specific restrictions that are optionally imposed on the members of the Business Group, such as limited authorized access to WATS lines or limited access to the public telephone network.

c. Paging Access

Allows selected stations to have dial access to customer-provided loudspeaker paging equipment. A line or a tie-trunk is required to support the customer's paging equipment.

d. OutWATS

A form of Direct Distance Dialing service that allows a station user to place long distance calls to specified geographical areas at reduced rates. Each OutWATS call is screened to ensure that the call destination is within the band limits of the OutWATS station user.

CENTREX SERVICE

APPROVED

C. CONDITIONS

1. The Company will furnish one (1) alphabetical directory listing for each Centrex summary account, with out charge. Additional listings(s) are offered subject to the provisions set forth in Section IV, Page 12 of this Tariff.
2. The rates and charges shown for Centrex Service apply to the establishment of Centrex Service only. Other services may be furnished at the rates and charges set forth in the Tariffs of the Company.
3. Centrex lines that terminate in key system common equipment or other CPE that performs pooling or switching functions must be provided in a "squared" arrangement in order to retain Centrex tariff rates. A "squared" arrangement is one in which the number of Centrex lines equals the number of stations/lines served by the key system common equipment or the CPE switched/pooling equipment. If the number of stations served by the key system common equipment or the CPE switching/pooling equipment exceeds the number of Centrex lines, the Centrex lines will be rated at the appropriate Key Trunk, or PBX Trunks rate as found in Tariff M.P.S.C. No. 1 of this Tariff.
4. The business customer may choose to pay for the service on a month-to-month basis or under a service contract plan for the periods of 12, 24, 36, 48, or 60 months. A month-to-month business customer may, at any time, convert to a service contract plan by paying the applicable service period plan rate currently in effect.
5. The monthly rate for customers choosing the service period plan is guaranteed against Telephone Company initiated changes during the selected service contract period.

INTEGRATED SERVICES DIGITAL NETWORK (ISDN) SERVICE  
BASIC RATE INTERFACE (BRI)

(N)

A. GENERAL

Integrated Services Digital Network (ISDN) describes the end-to-end digital telecommunications network architecture which provides for the simultaneous access, transmission and switching of voice, data, and video services. These functions are provided via channelized transport facilities. The ISDN architecture consists of digital switching systems which connect Basic Rate Interface (BRI) lines to their serving central office. Caller ID - Basic is included with this service.

BRI is an optional service arrangement which can be used in conjunction with a customer's Individual Line Business or Residence service. It uses the ISDN architecture to provide the customer with the capabilities of simultaneous access, transmission, and switching of voice, data, and video services via channelized transport. In addition, BRI provides the customer with access to Circuit Switched Voice (CSV) Service, Circuit Switched Data (CSD) Service, and Packet Switched Data Service.

A BRI arrangement obtains its capabilities from a properly equipped telephone company central office switch. The BRI arrangement may consist of up to two "B" channels and one "D" channel (2B+D).

**"B" Channel:** The "B" Channel is a bi-directional synchronous channel capable of supporting 64 kilobit per second (kbps) of digital transmission of information between users. The "B" Channel will be configured to offer voice service, data service or voice/data service. One Primary Directory Number is provided with each "B" Channel. One Primary Directory Listing is provided per ISDN-BRI arrangement. Additional listings may be provided as specified for Additional Listing Service in the Directory Listings section of this Company's tariff.

**"D" Channel:** The "D" Channel is a 16 kbps digital signaling channel that carries signaling and control for the "B" channel and has maximum packet transmission throughput of 9.6 kbps.

All ISDN Service lines consist of central office facilities, including the outside plant facilities, extended from the Company's switching equipment to the customer's demarcation point.

INTEGRATED SERVICES DIGITAL NETWORK (ISDN)  
PRIMARY RATE INTERFACE (PRI)

**A. GENERAL DESCRIPTION**

1. Integrated Services Digital Network (ISDN) is a public network-based set of communications services that make it possible to send, receive, and modify information using regular telephone facilities. ISDN provides end-to-end digital communications and gives the ability to transmit data and voice over the same telephone line simultaneously. This functionality is provided via channelized transport facilities. The ISDN architecture provides for Primary Rate Interface (PRI) which is typically used when a customer wants to connect large quantities of digital lines to the network.
2. ISDN-PRI uses the ISDN architecture to provide the customer with the capability to transmit voice and data simultaneously over the same digital facility. Under various optional arrangements, PRI provides the customer with access to Circuit-Switched Voice Services and Circuit-Switched Data Services.

**B. PRIMARY RATE INTERFACE (PRI) SERVICE ARRANGEMENT**

1. An ISDN-PRI arrangement connects an ISDN-capable Telephone Company central office switch to ISDN-capable customer premise equipment (CPE). Depending on the application, that CPE might be a PBX, a router, a multiplexer, etc. The PRI ISDN arrangement provides a total of twenty-four digital communications channels within a single physical facility. Twenty-three of these channels are called Bearer, or B Channels and they carry the actual voice or data. Another channel, called the Delta or D Channel, is used to transport signaling for the other 23 channels. This configuration is known as 23B+D.
  - a. **B Channel** - The B Channel is a bi-directional synchronous channel capable of supporting digital transmission speeds of 64 kilobits per second (kbps). Each B Channel of a PRI may carry:
    - (1) Circuit-Switched Voice
    - (2) Circuit-Switched Data
  - b. **D Channel** - The D Channel is a 64 kbps digital signaling channel that carries signaling and control for the B Channels.

GENERAL EXCHANGE TARIFF

**APPROVED**

**INTEGRATED SERVICES DIGITAL NETWORK (ISDN)**  
**PRIMARY RATE INTERFACE (PRI) (Continued)**

(N)

**B. PRIMARY RATE INTERFACE (PRI) SERVICE ARRANGEMENT (Continued)**

2. **Primary Rate Access Facility** - The Primary Rate Access Facility provides a high capacity digital link over which the Primary Rate services are delivered. This facility is based on a 1.544 mbps DS1 carrier (T1 facility).
3. **Multiple PRI Arrangement** - There may be situations where more than 23 B Channels are needed at a particular customer premise. In those situations, multiple PRI facilities can be assigned to a PRI arrangement. With the multiple PRI arrangement, the D Channel in the first PRI facility is used to transport signaling for additional PRI facilities. The first PRI would be configured as 23B+D and the other PRIs would be configured as 24B. This use of Non-Facility Associated Signaling (NFAS) allows the overhead of the D Channel to be distributed over multiple PRI facilities, thereby increasing channel efficiency.
4. **D Channel Backup** - In Multiple PRI Arrangements, a second D Channel can be assigned (where available) as an automatic backup to the primary D Channel. This can be offered when more than one PRI is provided to the same customer in order to provide redundancy of the signaling channel.

**C. CIRCUIT SWITCHED SERVICE DESCRIPTIONS**

Circuit Switching is a switching arrangement in which an entire circuit or B Channel is dedicated to a given call. The circuit is connected on a per call basis and can carry circuit-switched voice or circuit-switched data. Circuit switched related services include:

1. **Clear Channel Capability** - A characteristic of the transmission paths on the "B" channel that allows the full bandwidth on the "B" channel, 64 kbps, to be available to the customer. However, ISDN interconnection to non-ISDN equipped central offices will be potentially subjected to analog transmission or sub-rated to 56 kbps.
2. **Dedicated Trunk Groups** - The B Channels of a PRI can be dedicated for calls to and from the public network: Incoming, Outgoing, 2-way, Direct Outward Dialing (DOD) or Direct Inward Dialing (DID).

**C. CIRCUIT SWITCHED SERVICE DESCRIPTIONS (Continued)**

3. **Primary Rate Call-By-Call Service** - The Primary Rate Call-By-Call (CBC) feature offers access to additional services such as:

- Foreign Exchange,
- Tie Trunk,
- InWATS,
- and OutWATS

via the B Channels of an ISDN-PRI. With this feature, any B Channel on the PRI can be used to offer the above services on a per-call basis in addition to trunk calls to/from the public network (i.e., DOD/DID).

4. **Multiple Directory Numbers** - Each PRI includes an individual directory number. Additional directory numbers, a range of directory numbers, or several ranges of directory numbers can be optionally added.
5. **Advanced Calling Services** - ISDN-PRI can support access to the following Advanced Calling Services (also called CLASS services) from suitably equipped CPE:
- a. **Caller ID - Basic** - This feature allows the central office and the customer's equipment to communicate the calling party's directory number on calls carried by the Primary Rate service. The number can then be made available to be displayed on a properly equipped telephone set or adjunct equipment.

**D. TECHNICAL SPECIFICATIONS**

1. **Transmission Specifications** - The Primary Rate Access Facility provides a high capacity digital link over which the Primary Rate services are delivered. This facility is based on a 1.544 Mbps DS1 carrier (T1 facility) whose characteristics are as follows:

- Line Code = Bipolar 8 Zero Substitution (B8ZS)
- Framing Format = Extended Super Frame (ESF)
- Signaling = Q.931 Signaling
- Data Rate = 64 kbps clear or kbps restricted
- D Channel = 24th channel on the T1 facility

2. **Customer Premise Equipment (CPE) and Facilities** - Compatible CPE is required to utilize ISDN-PRI. All equipment used to interface with these services is required to conform with ISDN guidelines as referenced in the following Bellcore specifications:

<u>Document Number</u>	<u>Description</u>
TR-NWT-001268	ISDN Primary Rate Interface Call Control Switching and Signaling Generic Requirements for Class II Equipment
SR-NWT-002343	ISDN Primary Rate Interface Generic Guidelines for Customer Premises Equipment

The Telephone Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provisioning of ISDN services render any facilities provided by the customer obsolete or require modification of such equipment or system, or otherwise affect its use or performance.

**E. REGULATIONS AND CONDITIONS**

1. Unless specifically exempted, ISDN services shall be subject to all general regulations applicable to the provision of service by the Telephone Company as stated in the general tariff.
2. ISDN-PRI is provided at the option of the Company. These services are furnished subject to central office switching capacity, capability, and the availability of outside plant facilities.
  - a. The availability, functionality, and capabilities of ISDN-PRI may vary, or may not be available, dependent upon type of serving central office switch, related software controlling that switch and associated outside plant.
    - (1) Where facilities are not available, or unusual expenditures are involved in making them available, the customer may be required to pay additional charges to cover the unusual expenditure, or to contract for services beyond the normal service term, or both.
    - (2) Mileage Charges: Provision of the underlying PRI Access facility (T1) is mileage sensitive. As such, additional mileage charges may apply.
3. Payment for Service:
  - a. The minimum charge period for services provided under this tariff is one month.
  - b. The customer may choose to pay for the service on a month-to-month basis.
  - c. Suspension of service is not allowed.
4. Directory Listings: One directory listing is provided without charge for each ISDN-PRI customer. Additional listings may be provided as specified for Additional Listing Service in the Rates & Charges section of this ISDN-PRI tariff.

PRIMARY RATE INTERFACE (PRI) (Continued)

E. REGULATIONS AND CONDITIONS (Continued)

5. Billable Call Treatment: Normal toll charges (including InWATS and OutWATS charges) shall apply to calls that are made outside of the Local Service Area.
6. Customer Premise Equipment (CPE):
  - a. This tariff does not include terminal equipment on the customer's premises. Terminal equipment may be covered under a separate tariff, sold or leased separately by the Telephone Company (under a separate contract), or may be provided by the customer.
  - b. The customer is responsible for providing the power required for any and all CPE connected to an ISDN-PRI.
7. The Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure, or malfunctions of ISDN services or associated equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of the services after the Telephone Company has been notified, and has reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service affected for the period following notice from the customer until service is restored.
8. Service Establishment Charges do not apply for the establishment of the Communication Channels when the customer signs an agreement to subscribe to ISDN-PRI for a minimum of 3 years. If the customer discontinues service prior to the conclusion of the 3 year agreement, the customer will incur a disconnection charge equal to the Service Establishment Charges. The disconnection charge will not apply if the customer purchases other services from the Company which replace ISDN-PRI service.

Keith Keck, President  
Oakwood, Ohio 45873

P. U. C. O. NO. 1

RESALE AND SHARING TARIFF

A. GENERAL

1. Except where specifically noted herein, this tariff is not intended to apply to the resale of local exchange service by a Facilities-Based Local Exchange Carrier.
2. This tariff does not permit, by a Facilities-Based Local Exchange Carrier or any other entity, the purchase of local residential service for resale as business service. Such resale is prohibited.
3. The Telephone Company will permit the resale or sharing of local exchange service. Resale or sharing of local exchange service is provided on a non-residence individual lines or trunks. The customer's service may be extended to:
  - a. Tenants and guests of nursing homes, retirement homes or villages, apartments and/or apartment complex and other developments for residential use (i.e. Mobile Home Parks),
  - b. Persons temporarily subleasing a customers residential premises,
  - c. Patrons of non-residence customer's who resell or share their service or equipment.

For the purpose of this tariff "resale and sharing of local exchange service" shall be interpreted in the following manner:

- a. RESALE - The reselling by a customer of the customer's service to others for profit.
- b. SHARING - The shared use by a customer with others on a shared cost basis of the customers service.
- c. LOCAL EXCHANGE SERVICE - Telecommunications service provided within local exchange service areas in accordance with the tariffs. It includes the use of exchange facilities required to establish connections between stations within the exchange and between stations and the toll facilities serving the exchange.
- d. Other applicable interpretations are those set forth under title "Definitions" Chapter 4901:1-5-02 of the Code of Rules and Regulations.

The Telephone Company will continue to offer Local Exchange Service to subscribers of the reseller/sharer customer at applicable rates and charges as filed under the General Exchange Tariff then on file with the Public Utilities Commission of Ohio.

APPROVED

ISSUED: September 11, 1996

EFFECTIVE: November 1, 1996

IN ACCORDANCE WITH ORDER NO. 96-969-TP-ATA  
ISSUED BY THE PUBLIC UTILITIES COMMISSION OF OHIO  
BY: JOSEPH D. KIRK, PRESIDENT  
OAKWOOD, OHIO

P. U. C. O. NO. 1

## RESALE AND SHARING TARIFF

- (3) The Telephone Company will not be responsible for the manner in which the use of service or charges are allocated to others by a customer who resells or shares service. All applicable rates and charges for such service will be billed to the customer.
- (4) Service orders will be accepted by the Telephone Company only from the customer; provided, however, that the Telephone Company will respond to repair and maintenance requests from others and, in such circumstances, the customer is responsible for any maintenance of service charge that may be billed by the Telephone Company.
- (5) Resale or STS access line service will be provided on a measured rate basis pursuant for rates set forth in the local exchange tariff. Where measured (or message) service is not available, the reseller or STS provider shall pay the appropriate flat business individual or trunk rate. Should the Company acquire the capability to offer measured (or message) rate service, it will file an application pursuant to section 4909.18 Revised Code, to institute measured (or message) service charges for resellers and STS providers.

## C. REGULATIONS

## 1. Access Line

Resale and Sharing of local exchange service shall be provided on a Non-Resident Access Line or trunks basis only.

## 2. Inter-Connection

- (a) Inter-connection of the resale/sharing facilities with the Telephone Company network shall be in accordance of FCC's Part 68 Standards for interconnection.
- (b) CPE and intrasystem wiring used in the reseller/sharing operation shall meet FCC part 68 Standards.

## 3. Restrictions

The following restrictions shall be applicable to Resale and Sharing operations:

- (a) A reseller/sharer may provide service only within a single building, or a contiguous complex of buildings under common ownership or management (such complex may be intersected by public thoroughfares provided that the property segments created would be continuous in the absence of the thoroughfares);
- (b) Where separate buildings are involved, they must have a related business purpose (e.g., industrial park, shopping center, university, etc.);

ISSUED March 3, 1987 BY THE PUBLIC UTILITIES COMMISSION OF OHIO  
Keith Keck, President  
Oakwood, Ohio 45873

P. U. C. O. NO. 1

RESALE AND SHARING TARIFF

- (c) Direct interconnection of PBXs serving different resale/sharing systems is prohibited; and
- (d) Participation in reselling/sharing systems shall be limited to occupants of a building or contiguous complex of buildings which compose a resale/sharing system.

4. Directory

- (a) The Telephone Company shall provide one (1) copy of the Local Telephone Directory on a periodic basis. Any additional copies will be provided at the expense of the resale/sharer customer.
- (b) Directory listings for the subscribers of the resale/sharing customer will be provided at the rates for non-residence additional listings as set forth in the General Exchange Tariff on file with The Public Utilities Commission of Ohio. The Telephone Company will place listings of residential customers of STS providers in the residential section of the directory, when so notified by the STS provider.

D. RATES AND CHARGES

The Rates and Charges for the provision of local resale and sharing are those rates set forth in the Commission approved General Exchange Tariff (filed with The Public Utilities Commission of Ohio), as each now exists, and as each may be revised, added to, or supplemented by order of The Public Utilities Commission of Ohio.

- 1. Non-Residence Access Line
- 2. Local Telephone Directory
- 3. Non-Residence Additional Listings
- 4. Other recurring and non-recurring tariff items required to accommodate the customer (i.e. Service Order Charges).

RESALE AND SHARING TARIFF

E. PAYMENT FOR SERVICES AND FACILITIES

1. The Telephone Company will endeavor to mail its bills for telephone service on or before the same date each month. All bills for local service one month in advance; toll charges for all calls originated by the customer or accepted by him as "collect", "third number", or "special billed" calls; or miscellaneous charges for facilities or services are due upon presentation of the bill. If the bill is not paid within fifteen (15) calendar days following the date of the bill (the date the bill is mailed to the customer) the account will be considered delinquent. Bills are payable at the office of the Telephone Company or any agency authorized by the Telephone Company to receive such payment.
2. The failure of the customer to promptly pay the delinquent bill (regular billing or special toll billing) may subject the customer's service to either temporary suspension or discontinuance of service pursuant to the provisions of Paragraph No. 3 following:
  - a. If the customer's service is temporarily suspended for non-payment it may not be restored until all amounts due (at the time of payment) are paid in full, including the reconnection of service charge. Upon receipt of all amounts due (including the reconnection of service charge) or, upon agreement to satisfactory payment arrangements by the parties involved, the Telephone Company will restore the service as soon as possible.
3. The Telephone Company is responsible for providing actual notice to the subscriber before service is discontinued pursuant to provisions set forth under "Procedure for Disconnection of Service".
4. Each month is considered to have thirty (30) days for the purpose of computing charges, and shall be the basis for computing fractional portions of monthly billing, pro rated charges and adjustments to customer accounts.
5. Failure to receive a bill will not exempt a subscriber from prompt payment of any sum or sums due the Company.

ISSUED March 3, 1987 BY THE PUBLIC UTILITIES COMMISSION OF OHIO  
Keith Keck, President  
Oakwood, Ohio 45873

P. U. C. O. NO. 1

## RESALE AND SHARING TARIFF

6. If a temporarily suspended service is reconnected prior to the completion of an order to discontinue the service, the Telephone Company will give a pro rata credit for the entire period of time the service was temporarily suspended; except, in the case where service is reconnected within the day after the day it was temporarily suspended, no credit will be given. Subsequent to the completion of an order to discontinue a customer's telephone service, the Telephone Company will re-establish the service only on the basis of a new application for service; in such case, the restoral of service charge is not applicable.

## F. PROCEDURE FOR DISCONNECTION OF SERVICE

1. Telephone Service will not be discontinued or denied without prior approval of the Commission, except:
  - a. Where a customer has neglected or refused payment of an overdue bill and the Company has exhausted all reasonable efforts for collection;
  - b. When some condition exists on a customer's premises, whether or not of his making, that is causing disruption of service to others;
  - c. Where the Company is served with an order which has been legally issued by a government agency which the Company has reason to believe has jurisdiction to issue such an order.
2. Prior to taking any action to temporarily disconnect or permanently terminate a customer resale/sharing service, for any cause whatsoever, except at the request of the customer, actual notice will be given to the customer.

Such actual notification shall be accomplished by personal visit or telephone message. A mailed notice shall include the date the notice was given (mailed) by the Company. It shall inform the customer that his telephone service is subject to temporary disconnection or permanent termination, five (5) working days from the date the notice is actually received. It shall also convey the reason(s) for disconnecting or terminating the customer's telephone service, and request the customer to contact the telephone company immediately. Verbal, either face-to-face or telephone notice shall convey the same information.

P. U. C. O. NO. 1

RESALE AND SHARING TARIFF

3. The Telephone Company will not take action to temporarily disconnect or permanently terminate a customer's resale/sharing service unless the customer has received the above stated actual notice, and has not contacted the Company within the five (5) days notice period; or if, through such contact by the customer, satisfactory arrangements have not been made for continued telephone service.
4. In the event the customer indicates that he can not, or will not, pay his overdue bill, and/or refuses to negotiate reasonable payment arrangements, the Telephone Company may immediately disconnect his service.
