RE: TDS Telecom Companies Detariffing Filing – additional information

Dear Melissa,

Enclosed are the copies of the current tariffs and the affidavits per your request for Arcadia Telephone Company, Continental Telephone Company, Little Miami Communications Corporation, Oakwood Telephone Company, The Vanlue Telephone Company, and TDS Long Distance Company. Also enclosed is the narrative of each tariff sheet change per your request.

If you have any additional questions or need other information, just call me at the telephone number listed below.

Regards,

Karen Fehrman

LOCAL EXCHANGE SERVICE

B. Exchange Access Rates ^{1/}

Exchange Name: CONTINENTAL

EAS TO: Ayersville, Cloverdale, Kalida, Miller City, North Creek, Oakwood, & Ottawa

	Monthly Rate		*Tier Designation
	Current	Maximum	
<u>Business Service</u>			
Single Party - 1 st Line	\$ 45.54	\$45.54	Tier 1 Core
Single Party - 2 nd & 3 rd Line, each	45.54	91.08	Tier 1 Non Core
Single Party - 4 or more Lines, each	45.54	None	
PBX Trunk, each	78.35 ^{2/}	156.70 ^{2/}	Tier 1 Non Core
Key Trunk, each	67.41 ^{2/}	134.82 ^{2/}	Tier 1 Non Core
<u>Residence Service</u>			
Single Party - 1 st Line	\$21.25	\$21.25	Tier 1 Core
Single Party - 2 nd & 3 rd Line, each	21.25	42.50	Tier 1 Non Core
Single Party - 4 or more Lines, each	21.25	None	
Single Party Message, each	15.30 ^{3/4/}	15.30 ^{3/4/}	Tier 1 Core

^{1/} Includes Touch-Call Service. Effective August 6, 2007, the rates for Residential and Business customers who do not have Touch-Call Service will be grandfathered and will see no change in their monthly rate. Any subsequent change to service made by such a grandfathered customer, however, will result in the loss of the grandfathering exception and will require that customer to upgrade to Touch Call Service

^{2/} PBX and Key Trunk rates include trunk hunt or rotary service feature.

^{3/} Effective May 7, 2007 this service was grandfathered. The offering is no longer available to new subscribers. This service offering is experimental and is limited to the first 85 residential customers in the three (3) exchanges requesting this service. There will be no additional charge for the first thirty (30) outgoing calls within the local area per month. For messages in excess of thirty (30), there is an additional charge of \$0.08 per message. No service connection charge will apply for the first time that a customer transfers to or from this service.

^{4/} Message detail may be viewed by the customer at the company's office without charge. There will be an additional charge of \$0.04 per message if the customer requests the detail of each message printed on the monthly telephone bill. The appropriate service connection charges will also apply to set up or remove this option.

* Rates for Tier 1 Core Services are capped at current rates. Rates for Tier 1 Non Core Services are capped at current rates until 09/10/09. After 09/10/09, Tier 1 Non-Core rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and call waiting, which are limited to a ten percent increase per year until they cap at double the initial rate. This pricing flexibility is in accordance with O.A.C. 4901: 1-4 and Alt Reg Case 07-847-TP-ALT effective 09/10/07.

The appropriate service connection charges will also apply to set up or remove this option.

* Rates for Tier 1 Core Services are capped at current rates. Rates for Tier 1 Non Core Services are capped at current rates until 09/10/09. After 09/10/09, Tier 1 Non-Core rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and call waiting, which are limited to a ten percent increase per year until they cap at double the initial rate. This pricing flexibility is in accordance with O.A.C. 4901: 1-4 and All Reg Case 07-847-TP-ALT effective 09/10/07.

LOCAL EXCHANGE SERVICE

(T)

CENTREX SERVICE

APPROVED

A. General

1. Centrex Service is a central office-based, flat rate, business communications service which provides capabilities similar to those offered on Private Branch Exchange, but without requiring switching equipment on the customer's premises. Centrex integrates all of a business customer's lines in to a single telecommunications system. Centrex is not provided in association with public or semi-public telephone service. (D)
2. All Centrex lines shall be equipped with touch call signaling, but will not be subject to Touchcall rates as set forth in Section 5 of this tariff.
3. The minimum charge for services provided under this tariff shall be one (1) month.
4. Vacation rates for Centrex lines or services are not offered.
5. A Centrex customer must have a minimum of two (2) Centrex lines.
6. Centrex lines are not subject to Local Exchange Service Rates as set forth in Section 4 of this Tariff.
7. Centrex lines are not subject to the Rotary Service (Trunk Hunt) rates as set forth in Section 5 of this Tariff.
8. All station lines will be equipped with the standard system features as set forth in B.1.
9. Exchange lines terminating at different locations of the customer may be combined into a Centrex Service group arrangement; however, all exchange lines terminating in the group must be served by the same central office.

B. SYSTEM SERVICES

1. Standard Features Provided Per Line:

a. Call Hold

Allows a station user to place a call on hold in order to initiate a second call, answer a waiting call, consult privately with another party, or return to the previously held call.

b. Call Pick-up

Allows a station user to answer incoming calls to another station within a defined call pick-up group by dialing a code.

c. Call Transfer

Allows a station user to hold and transfer incoming, outgoing, and intragroup calls to another station by flashing the switchhook and dialing the transfer-to number.

d. Intercom Dialing

Allows a station user to call other stations within their Centrex groups by dialing abbreviated codes.

e. Station-To-Station Dialing

Allows Centrex to operate like a PABX/PBX with station-to-station dialing, and required "9" access to place outside calls.

f. Direct Inward Dialing

Allows a station user to directly receive incoming calls without the assistance of an attendant.

CENTREX SERVICE

(N)

B. SYSTEM SERVICES (Continued)

1. Standard Features Provided Per Line: (Continued)

g. Direct Outward Dialing

Enables a station user to call outside the Centrex group directly without the assistance of an attendant.

h. Business Group Automatic Identified Outward Dialing

Provides identification of the calling line or the Centrex Group billing/pilot number on billable calls directed to the public network.

i. 3-Way Calling

Allows a station user to add a third party to an existing call, and thus enables a simultaneous conference between parties at multiple locations.

j. Group Speed Dial 30

Allows the Centrex Group to establish a 30-number speed call list. It is group assignable and accessed by line. Group Speed Call can be accessed by anyone in the group.

k. Call Forwarding - Busy Line

Causes all calls to be redirected to an alternate station when the called station is busy.

l. Call Forwarding - No Answer

Allows all calls that terminate to a user's station to be redirected to an alternate station after a predetermined number of rings.

(N)

B. SYSTEM SERVICES (Continued)

1. Standard Features Provided Per Line: (Continued)

m. Regular Hunting

Is performed in a sequential fashion across all members of Multiline Group. The search for an idle station starts with the pilot number. If the first station is busy, the group is sequentially hunted until an idle station is found. If there are no idle stations available, the caller receives a busy signal.

n. Distinctive Ringing/Call Waiting Indication

Allows ringing patterns and tones to be used to distinguish between calls coming from inside the Business Group and calls coming from outside the Group. For example, with the Distinctive Call Waiting capability, one (1) Call Waiting tone would indicate that the waiting call is from inside the Business Group, while two (2) tones would indicate that the call is coming in on an outside line.

o. Semi-Restricted Line

Prevents the line from making calls to and/or receiving calls from stations outside the Centrex group. It may, however, make and/or receive outside calls indirectly via the attendant, Call Forwarding, Call Transfer, and Call Pickup features.

p. Full Restricted Line

Prevents the line from making calls to and/or receiving calls from stations outside the Centrex group. It is also prevented from making calls to and/or receiving calls from the attendant, thereby denying it indirect access to/from outside the Centrex group.

(N)

B. SYSTEM SERVICES (Continued)

1. Standard Features Provided Per Line: (Continued)

q. Toll Restriction

Blocks the completion of calls that are directed to the outside operator or to numbers outside the local calling area. A Toll Restriction list may be assigned to either an individual line or shared by multiple lines.

2. Optional Features Available Per Line:

a. Call Forward Variable -- All Calls

Allows a station user to have all incoming calls to a directory number. Activation, deactivation and the forward-to destination are controlled by the station user.

b. Call Waiting/Cancel Call Waiting

Provides a burst of tone to inform a station user with a call already in progress that another call is waiting to be answered. The station user may answer the waiting call by hanging up or flashing the switchhook.

The customer also has the option, when initiating a call from their line, not to be interrupted by the call waiting tone signal for the duration of that call. The calling party would receive a tone.

c. Voice-Data Protection

Allows a station user to inhibit intrusion features, such as Call Waiting and Operator Verification, which are directed to that line when it is busy.

CENTREX SERVICE

(N)

B. SYSTEM SERVICES (Continued)

2. Optional Features Selected Per Line: (Continued)

d. Speed Calling 8-Code

Enables a station user to call a list of up to 8 preselected directory numbers by dialing one-digit codes instead of the directory numbers.

e. Speed Calling 30-Code

Enables a station user to call a list of up to 30 preselected directory numbers by dialing one-digit codes instead of the directory numbers.

f. Direct Connect Service

Allows a station user to automatically place a call to a preselected directory number by lifting the receiver off the switchhook. No dialing is required for the calling party to reach the specified destination.

g. Warm Line

Provides a time-out option with either Direct Connect Service or Manual Line Service. The time-out interval may be set at 1 to 14 seconds. During the time-out interval, a station user will receive normal dial tone and can originate calls. However, after the time-out interval expires, a call is automatically set up and routed to the specified destination.

B. SYSTEM SERVICES (Continued)

3. Optional Features Available Per Group:

The following services are selected for use by the entire Centrex Group:

a. Intercept Announcements

Allows a special intercept recording to which members of the business Group are routed when they dial invalid and/or restricted codes.

b. Access Restrictions

Allows specific restrictions that are optionally imposed on the members of the Business Group, such as limited authorized access to WATS lines or limited access to the public telephone network.

c. Paging Access

Allows selected stations to have dial access to customer-provided loudspeaker paging equipment. A line or a tie-trunk is required to support the customer's paging equipment.

d. OutWATS Access

A form of Direct Distance Dialing service that allows a station user to place long distance calls to specified geographical areas at reduced rates. Each OutWATS call is screened to ensure that the call destination is within the band limits of the OutWATS station user.

CENTREX SERVICE

APPROVED

C. CONDITIONS

1. The Company will furnish one (1) alphabetical directory listing for each Centrex summary account, with out charge. Additional listings(s) are offered subject to the provisions set forth in Section 5, Sheet 4 of this Tariff.
2. The rates and charges shown for Centrex Service apply to the establishment of Centrex Service only. Other services may be furnished at the rates and charges set forth in the Tariffs of the Company.
3. Centrex lines that terminate in key system common equipment or other CPE that performs pooling or switching functions must be provided in a "squared" arrangement in order to retain Centrex tariff rates. A "squared" arrangement is one in which the number of Centrex lines equals the number of stations/lines served by the key system common equipment or the CPE switched/pooling equipment. If the number of stations served by the key system common equipment or the CPE switching/pooling equipment exceeds the number of Centrex lines, the Centrex lines will be rated at the appropriate Key Trunk, or PBX Trunks rate as found in Tariff M.P.S.C. No. 1 of this Tariff.
4. The business customer may choose to pay for the service on a month-to-month basis or under a service contract plan for the periods of 12, 24, 36, 48, or 60 months. A month-to-month business customer may, at any time, convert to a service contract plan by paying the applicable service period plan rate currently in effect.
5. The monthly rate for customers choosing the service period plan is guaranteed against Telephone Company Initiated changes during the selected service contract period.

TOTAL TALK PACK

APPROVED

A. General

1. Total Talk Pack is an optional service package. The package permits a customer to receive services and features for a flat monthly rate, for each Total Talk Pack subscriber line provided. Total Talk Pack includes the following services:¹
 - a. Residential or Business One-Party Line (includes Touch Tone capability) (C)
 - b. Three-Way Calling & Call Waiting (Custom Calling Services)
 - c. Caller ID Deluxe, Anonymous Call Rejection, & Priority Ringing (Advanced Calling Services)
 - d. Inside Wire Protection Plan (deregulated service)

B. Conditions and Limitations

1. Rules, regulations, and limitations as specified elsewhere in the Company's tariffs for each individual service will apply as part of this bundle.
2. Total Talk Pack customers may terminate their enrollment in the Plan at any time upon notice to the company.
3. Unless terminated by the Total Talk Pack customer or the Company, a customer will remain enrolled in the Plan, as amended from time-to-time, with any applicable changes in rate, for as long as the Plan continues to be offered by the Company.
4. Service Charges, as described in Section 6 of this tariff, apply to requests for new and additional Total Talk Pack lines, and moves of existing lines. Service Charges will not apply when the Total Talk Pack replaces existing Local Exchange Service or if the customer requests a change from the Total Talk Pack back to Local Exchange Service.
5. Total Talk Pack customers are not eligible for discounts or promotional offerings (outside of this bundle) associated with the Custom Calling and Advanced Calling Services included in the Plan, unless specifically provided for in a promotional offering.

¹ Customers must also subscribe to TDS Long Distance Corporation's Total Talk Pack.

MISCELLANEOUS SERVICE ARRANGEMENTS
900 SERVICES CALL BLOCKING

A. General

900 Services Call Blocking is an optional service providing residential and nonresidential subscribers with the capability to block the origination of direct dialed calls to all 900 services.

B. Regulations

- a. Call blocking of 900 services is provided where Telephone Company facilities permit.
- b. 900 services blocking is provided to residential customers at no charge for initial requests.
- c. 900 services blocking is to be provided to nonresidential customers free of charge, on a one-time basis, during a 60-day period after the inception of service.
- d. Charges associated with nonresidential customers' initial requests (after the sixty-day free enrollment period has expired) and subsequent requests, and residential customers' subsequent requests, for 900 services blocking will not exceed the company's service order charge.
- e. Residential customers obtaining service at a new location shall be afforded blocking of 900 services at no charge, even if they exercised an option to block services at a previous location at no charge.
- f. Nonresidential customers obtaining service at a new location shall be afforded blocking of 900 services at no charge during a 60-day period after the inception of service, even if they exercised an option to block 900 services at a previous location at no charge.
- g. Customers may elect to remove 900 services blocking free of charge. Requests by customers to remove 900 services blocking must be in writing.

MILEAGE CHARGES - Local Exchange Service (Cont'd)

C. Conditions

1. Measurement of mileage as applied in this Tariff on an air-line basis.
2. Mileage for off-premise station line service as set forth above is applicable to all classes and grades of service provided in the exchange, except public, and coin-box-type telephone service. Off premises stations are not provided with these services.
3. Mileage Charges are based upon the air-line mileage between the locations of the primary and off-premise station, or from the central office to the off-premise station, whichever is the least distance.
4. PBX/PABX stations may be provided at locations of individuals, firms or corporations other than the customer to the basic PBX/PABX service, provided that such individuals, firms or corporations have and retain an appropriate class and grade of service at locations where such PBX/PABX stations are furnished.
5. Tie lines are provided to connect two PBX/PABX systems for intercommunication. When PBX/PABX systems are not provided to the same customer, firm or corporation, both switchboards must additionally be connected to central office facilities by exchange trunks. (See Channels)
6. Customers desiring or requiring installations of special equipment or arrangements, in addition to that regularly provided, may be provided at charges and/or rates based upon costs incurred.

SUSPENSION OF SERVICE

APPROVED

A. General

Suspension of Service allows local exchange service to be temporarily suspended by request of the customer. This service is provided to customers whose requirements for telephone service is less than the normal 12-month period within a year.

B. Conditions

1. Service can be temporarily suspended for a minimum of one (1) month and a maximum of ten (10) months.
2. Suspension of Service is available on all one-party residence lines and up to three one-party business lines subject to the availability of facilities.
3. The customer must have at least one month of regular telephone service paid prior to the establishment of Suspension of Service.
4. The Company reserves the right to bill charges for the total number of suspended months requested prior to establishment of Suspension of Service.
5. Suspension of Service may begin and terminate on any day of the month, provided notice is given sufficiently in advance for arrangements to be made.
6. The Company will not provide installations, moves, changes, or maintenance during the period when the customer is billed at the reduced rate.
7. Only two suspension periods will be allowed and shall not exceed ten months in any one calendar year nor exceed ten continuous months at any time regardless of the year.
8. Bills are rendered at the reduced rate at regular billing dates during the period of suspension.
9. The customer's listing will be retained in the directory.
10. The Company assumes no liability for failure of a calling party to reach the customer during the period of suspension.
11. The Company reserves the right to refuse suspension of service in the case of a customer whose account is delinquent.

GENERAL EXCHANGE SERVICE TARIFFSMISCELLANEOUS SERVICE ARRANGEMENTSREMOTE CALL FORWARDING

A. General

1. Remote Call Forwarding is available only where Telephone Company facilities have been arranged for its provision. It is offered for use with all services except where the customer's station is a coin telephone.
2. Remote Call Forwarding (RCF) permits a customer in one exchange to arrange for calls made to a different telephone number in the same or different exchange (where RCF facilities are available) to be automatically forwarded and automatically billed to the customer's station. This station to which calls are forwarded may be either local exchange service, foreign exchange service, or Inward Wide Area Telecommunications Service (800 Service).
3. Transmission characteristics may vary depending on the distance and routing necessary to complete the remote forwarded call.
4. Remote Call Forwarding is not represented as suitable for satisfactory transmission of data.
5. Remote Call Forwarding should not be offered as a feature at the customer's station.
6. The Telephone Company will not provide identification of the originating telephone number to the Remote Call Forwarding customer.
7. Remote Call Forwarding is provided on the condition that the customer subscribe to sufficient RCF features and facilities to adequately handle calls to the RCF customer without interfering with or impairing any services offered by the Telephone Company. If in the opinion of the Telephone Company, additional Remote Call Forwarding features at the call forwarding location or facilities at the customer's station are needed, the customer will be required to subscribe for such additional RCF features and facilities. In the event the customer refuses to subscribe for such additional RCF features and facilities, said customer's RCF service shall be subject to termination.
8. One listing in the alphabetical and classified sections of the directory covering the exchange in which the call forwarding central office is located, is provided without additional charge.

RESALE AND SHARING TARIFF

A. GENERAL

1. Except where specifically noted herein, this tariff is not intended to apply to the resale of local exchange service by a Facilities-Based Local Exchange Carrier.
2. This tariff does not permit, by a Facilities-Based Local Exchange Carrier or any other entity, the purchase of local residential service for resale as business service. Such resale is prohibited.
3. The Telephone Company will permit the resale or sharing of local exchange service. Resale or sharing of local exchange service is provided on a non-residence individual lines or trunks. The customer's service may be extended to:
 - a. Tenants and guests of nursing homes, retirement homes or villages, apartments and/or apartment complex and other developments for residential use (i.e. Mobile Home Parks),
 - b. Persons temporarily subleasing a customers residential premises,
 - c. Patrons of non-residence customer's who resell or share their service or equipment.

For the purpose of this tariff "resale and sharing of local exchange service" shall be interpreted in the following manner:

- a. **RESALE** - The reselling by a customer of the customer's service to others for profit.
- b. **SHARING** - The shared use by a customer with others on a shared cost basis of the customers service.
- c. **LOCAL EXCHANGE SERVICE** - Telecommunications service provided within local exchange service areas in accordance with the tariffs. It includes the use of exchange facilities required to establish connections between stations within the exchange and between stations and the toll facilities serving the exchange.
- d. Other applicable interpretations are those set forth under title "Definitions" Chapter 4901:1-5-02 of the Code of Rules and Regulations.

GENERAL EXCHANGE SERVICE TARIFFSMISCELLANEOUS SERVICE ARRANGEMENTSTELEPHONE NUMBER REFERRAL SERVICE

A. General

1. When customers move to a new location outside the Telephone Company's service territory, the Company provides, without charge, a message that informs the caller to a disconnected number that the number has been disconnected or changed, and that the caller should consult the directory or call the operator.

Telephone Number Referral Service will provide a service to customers whose telephone service is being disconnected and are moving to a new location outside the Company's service territory. Dialing the customer's former number results in a prerecorded message which announces the new number.

2. The charge applies to each 90-day increment of service that is requested by the customer.
3. Customers will be billed in advance for this service.

B. Rates

PER CALL BLOCKING/PER LINE BLOCKING

A. GENERAL

1. Customers may prevent the disclosure of their telephone number or directory name and number when placing calls to a party with service that reveals the calling party's number or name and number, by subscribing to either Per Call Blocking or Per Line Blocking.
2. Per Call Blocking and Per Line Blocking are provided according to the availability of facilities, features and central office equipment in locations determined by the Company. The features described will only operate on calls originating and terminating within suitably-equipped offices, or similarly equipped offices of interconnecting Local Exchange Companies.

B. DESCRIPTION

1. Per Call Blocking
Enables customers to prevent the disclosure of their telephone number or name and number on a per call basis to the called party. This disclosure of the calling party's number or name and number can be prevented on a per call basis by dialing *67 (1167 from a rotary phone) before making a call. This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number or name and number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per the FCC Caller ID Order, Per Call Blocking is provided to all customers at no charge.

Per Call Blocking will be provided on calls originating from paystations used by the general public and party lines.

2. Per Line Blocking
Enables customers to prevent the disclosure of their telephone number or name and number to the called party. Per Line Blocking is applicable on all outgoing calls placed from the customer's line. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

ADVANCED CALLING SERVICES

A. GENERAL

1. The Company will offer Advanced Calling Services (ACS) to customers served by digital switches equipped with the new industry standard SS7 signaling protocol. These features are widely known as Custom Local Area Signaling Service (CLASS).
2. Advanced Calling Services (ACS) is comprised of a group of features described under B. which allows customers to efficiently manage the call flow generated over their Exchange Access Line(s). This management is possible only where the calling party's telephone number can be forwarded from the central office serving the called party. ACS features are optional services offered in addition to regular exchange service.
3. ACS is available to residence and business customers served by central offices where the Company has installed CLASS features and is furnished subject to the availability of facilities. Individual feature availability may differ by exchange.
4. ACS features will be functional under the following conditions:
 - a. When both the originating customer and the call terminating customer are served by the same central office.
 - b. When both the call originating customer and the call terminating customer are served from different central offices equipped for ACS and are linked by appropriate facilities.
 - c. Where the calling party's data can be forwarded from the central office originating the call to the terminating central office serving the called party.
 - d. If offering Caller ID - Deluxe, the Calling Name will be displayed only where the appropriate facilities are available to provide a match of Calling Name to Calling Number.
- 4A. Advanced Calling Services (ACS) may be offered to customers for trial use for a period not to exceed ninety (90) days. The dates of offering and duration of trial use will be determined by the Telephone Company. During trial use, the recurring charge for ACS will not apply to customers participating in the trial use offering. This offering is limited to one-party lines which are not already equipped with ACS added. A customer may participate only once during each trial use offering period. Customer requests for ACS trial use will be subject to availability of facilities.

Requests for promotional offerings will be filed with the Public Utilities Commission of Ohio not less than ten days prior to the effective date.

ADVANCED CALLING SERVICES

C. RATES, PAY-PER-USE SERVICES AND DISCOUNTS

1. The rates and discounts apply to both residential and non-residential customers and are in addition to the established rates and charges for associated services.

2. Features rates:

a. Monthly rates, per feature, per line:

	Current Monthly Rate	Maximum Monthly Rate	Trans Code
1) Anonymous Call Rejection	\$2.75		ACSAC
2) Call Rejection	2.75		ACSRJ
3) Call Return	3.50		ACSRT
4) Caller ID-Basic (Number Only) *Tier 1 Core	7.00	7.00	ACSID
5) Preferred Call Forwarding	2.75		ACSPF
6) Priority Ringing	2.75		ACSPR
7) Repeat Dialing	3.50		ACSRP
8) Special Call Acceptance	2.75		ACSSC
9) Caller ID-Deluxe (Name and Number)	9.00		ACSUD

b. Pay-Per-Use Services

	Per Successful Activation	Monthly Cap	Trans Code	Activation Code	Deactivation Code
1) Call Return ¹	\$0.50	\$ 7.00	ACSRM	*69	*89
2) Repeat Dialing ¹	\$0.50	\$ 7.00	ACSDM	*66	*86
3) Call Trace ² * Tier 1 Non Core					
Current Rates	\$4.00	\$12.00	ACSCT	*57	N/A
Maximum Rates	\$8.00	\$24.00	ACSCT	*67	N/A

- ¹ At the request of a customer that does not subscribe to the service on a monthly basis, access to this service on a Pay-Per-Use basis may be blocked. Such blocking will be provided at no charge to the customer.
- ² Call Trace will be offered on a subscription basis to all customers within the local service area. The customer will incur a usage charge each time Call Trace is successfully activated.

* Rates for Tier 1 Core services are capped at current rates. Rates for Tier 1 Non-Core services are capped at current rates until 09/10/09. After 09/10/09, Tier 1 Non-Core rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and call waiting, which are limited to a ten percent increase per year until they cap at double the initial rate. This pricing flexibility is in accordance with O.A.C. 4901:1-4 and All Reg Case No. 07-847-TP-ALT, effective 09/10/07.

MISCELLANEOUS SERVICE ARRANGEMENTS

INTEGRATED SERVICES DIGITAL NETWORK SERVICE- BASIC RATE INTERFACE**A. GENERAL**

Integrated Services Digital Network (ISDN) describes the end-to-end digital telecommunications network architecture which provides for the simultaneous access, transmission and switching of voice, data, and video services. These functions are provided via channelized transport facilities. The ISDN architecture consists of digital switching systems which connect Basic Rate Interface (BRI) lines to their serving central office. Caller ID - Number is included with this service.

BRI is an optional service arrangement which can be used in conjunction with a customer's Individual Line Business or Residence service. It uses the ISDN architecture to provide the customer with the capabilities of simultaneous access, transmission, and switching of voice, data, and video services via channelized transport. In addition, BRI provides the customer with access to Circuit Switched Voice (CSV) Service, Circuit Switched Data (CSD) Service, and Packet Switched Data Service.

A BRI arrangement obtains its capabilities from a properly equipped telephone company central office switch. The BRI arrangement may consist of up to two "B" channels and one "D" channel (2B+D).

"B" Channel: The "B" Channel is a bi-directional synchronous channel capable of supporting 64 kilobit per second (kbps) of digital transmission of information between users. The "B" Channel will be configured to offer voice service, data service or voice/data service. One Primary Directory Number with one Primary Directory Listing for the first "B" Channel ISDN Service line is provided. Additional listings may be provided as specified for Additional Listing Service in the Directory Listings section of this Company's tariff.

"D" Channel: The "D" Channel is a 16 kbps digital signaling channel that carries signaling and control for the "B" channel and has maximum packet transmission throughput of 9.6 kbps.

All ISDN Service lines consist of central office facilities, including the outside plant facilities, extended from the Company's switching equipment to the customer's demarcation point.

MISCELLANEOUS SERVICE ARRANGEMENTS

INTEGRATED SERVICES DIGITAL NETWORK- PRIMARY RATE INTERFACE**A. GENERAL DESCRIPTION**

1. Integrated Services Digital Network (ISDN) is a public network-based set of communications services that make it possible to send, receive, and modify information using regular telephone facilities. ISDN provides end-to-end digital communications and gives the ability to transmit data and voice over the same telephone line simultaneously. This functionality is provided via channelized transport facilities. The ISDN architecture provides for Primary Rate Interface (PRI) which is typically used when a customer wants to connect large quantities of digital lines to the network.
2. ISDN-PRI uses the ISDN architecture to provide the customer with the capability to transmit voice and data simultaneously over the same digital facility. Under various optional arrangements, PRI provides the customer with access to Circuit-Switched Voice Services and Circuit-Switched Data Services.

B. PRIMARY RATE INTERFACE (PRI) SERVICE ARRANGEMENT

1. An ISDN-PRI arrangement connects an ISDN-capable Telephone Company central office switch to ISDN-capable customer premise equipment (CPE). Depending on the application, that CPE might be a PBX, a router, a multiplexer, etc. The PRI ISDN arrangement provides a total of twenty-four digital communications channels within a single physical facility. Twenty-three of these channels are called Bearer, or B Channels and they carry the actual voice or data. Another channel, called the Delta or D Channel, is used to transport signaling for the other 23 channels. This configuration is known as 23B+D.
 - a. **B Channel** - The B Channel is a bi-directional synchronous channel capable of supporting digital transmission speeds of 64 kilobits per second (kbps). Each B Channel of a PRI may carry:
 - (1) Circuit-Switched Voice
 - (2) Circuit-Switched Data
 - b. **D Channel** - The D Channel is a 64 kbps digital signaling channel that carries signaling and control for the B Channels.

CONTINENTAL, OHIO

P.U.C.O. NO. 8
LOCAL EXCHANGE SERVICE TARIFF**APPROVED**

MISCELLANEOUS SERVICE ARRANGEMENTS

INTEGRATED SERVICES DIGITAL NETWORK- PRIMARY RATE INTERFACE**B. PRIMARY RATE INTERFACE (PRI) SERVICE ARRANGEMENT (Continued)**

2. **Primary Rate Access Facility** - The Primary Rate Access Facility provides a high capacity digital link over which the Primary Rate services are delivered. This facility is based on a 1.544 mbps DS1 carrier (T1 facility).
3. **Multiple PRI Arrangement** - There may be situations where more than 23 B Channels are needed at a particular customer premise. In those situations, multiple PRI facilities can be assigned to a PRI arrangement. With the multiple PRI arrangement, the D Channel in the first PRI facility is used to transport signaling for additional PRI facilities. The first PRI would be configured as 23B+D and the other PRIs would be configured as 24B. This use of Non-Facility Associated Signaling (NFAS) allows the overhead of the D Channel to be distributed over multiple PRI facilities, thereby increasing channel efficiency.
4. **D Channel Backup** - In Multiple PRI Arrangements, a second D Channel can be assigned (where available) as an automatic backup to the primary D Channel. This can be offered when more than one PRI is provided to the same customer in order to provide redundancy of the signaling channel.

C. CIRCUIT SWITCHED SERVICE DESCRIPTIONS

Circuit Switching is a switching arrangement in which an entire circuit or B Channel is dedicated to a given call. The circuit is connected on a per call basis and can carry circuit-switched voice or circuit-switched data. Circuit switched related services include:

1. **Clear Channel Capability** - A characteristic of the transmission paths on the "B" channel that allows the full bandwidth on the "B" channel, 64 kbps, to be available to the customer. However, ISDN interconnection to non-ISDN equipped central offices will be potentially subjected to analog transmission or sub-rated to 56 kbps.
2. **Dedicated Trunk Groups** - The B Channels of a PRI can be dedicated for calls to and from the public network: Incoming, Outgoing, 2-way, Direct Outward Dialing (DOD) or Direct Inward Dialing (DID).

MISCELLANEOUS SERVICE ARRANGEMENTS

APPROVED**INTEGRATED SERVICES DIGITAL NETWORK- PRIMARY RATE INTERFACE****C. CIRCUIT SWITCHED SERVICE DESCRIPTIONS (Continued)**

3. **Primary Rate Call-By-Call Service** - The Primary Rate Call-By-Call (CBC) feature offers access to additional services such as:

- Foreign Exchange,
- Tie Trunk,
- InWATS,
- and OutWATS

via the B Channels of an ISDN-PRI. With this feature, any B Channel on the PRI can be used to offer the above services on a per-call basis in addition to trunk calls to/from the public network (i.e., DOD/DID).

4. **Multiple Directory Numbers** - Each PRI includes an individual directory number. Additional directory numbers, a range of directory numbers, or several ranges of directory numbers can be optionally added.
5. **Advanced Calling Services** - ISDN-PRI can support access to the following Advanced Calling Services (also called CLASS services) from suitably equipped CPE:
- a. **Caller ID - Number** - This feature allows the central office and the customer's equipment to communicate the calling party's directory number on calls carried by the Primary Rate service. The number can then be made available to be displayed on a properly equipped telephone set or adjunct equipment.

INTEGRATED SERVICES DIGITAL NETWORK- PRIMARY RATE INTERFACED. TECHNICAL SPECIFICATIONS

1. **Transmission Specifications** - The Primary Rate Access Facility provides a high capacity digital link over which the Primary Rate services are delivered. This facility is based on a 1.544 Mbps DS1 carrier (T1 facility) whose characteristics are as follows:
 - Line Code = Bipolar 8 Zero Substitution (B8ZS)
 - Framing Format = Extended Super Frame (ESF)
 - Signaling = Q.931 Signaling
 - Data Rate = 64 kbps clear or kbps restricted
 - D Channel = 24th channel on the T1 facility
2. **Customer Premise Equipment (CPE) and Facilities** - Compatible CPE is required to utilize ISDN-PRI. All equipment used to interface with these services is required to conform with ISDN guidelines as referenced in the following Bellcore specifications:

<u>Document Number</u>	<u>Description</u>
TR-NWT-001268	ISDN Primary Rate Interface Call Control Switching and Signaling Generic Requirements for Class II Equipment
SR-NWT-002343	ISDN Primary Rate Interface Generic Guidelines for Customer Premises Equipment

The Telephone Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provisioning of ISDN services render any facilities provided by the customer obsolete or require modification of such equipment or system, or otherwise affect its use or performance.

E. REGULATIONS AND CONDITIONS

1. Unless specifically exempted, ISDN services shall be subject to all general regulations applicable to the provision of service by the Telephone Company as stated in the general tariff.
2. ISDN-PRI is provided at the option of the Company. These services are furnished subject to central office switching capacity, capability, and the availability of outside plant facilities.
 - a. The availability, functionality, and capabilities of ISDN-PRI may vary, or may not be available, dependent upon type of serving central office switch, related software controlling that switch and associated outside plant.
 - (1) Where facilities are not available, or unusual expenditures are involved in making them available, the customer may be required to pay additional charges to cover the unusual expenditure, or to contract for services beyond the normal service term, or both.
 - (2) Mileage Charges: Provision of the underlying PRI Access facility (T1) is mileage sensitive. As such, additional mileage charges may apply.
3. Payment for Service:
 - a. The minimum charge period for services provided under this tariff is one month.
 - b. The customer may choose to pay for the service on a month-to-month basis.
 - c. Suspension of service is not allowed.
4. Directory Listings: One directory listing is provided without charge for each ISDN-PRI customer. Additional listings may be provided as specified for Additional Listing Service in the Rates & Charges section of this ISDN-PRI tariff.

5. Billable Call Treatment: Normal toll charges (including InWATS and OutWATS charges) shall apply to calls that are made outside of the Local Service Area.
6. Customer Premise Equipment (CPE):
 - a. This tariff does not include terminal equipment on the customer's premises. Terminal equipment may be covered under a separate tariff, sold or leased separately by the Telephone Company (under a separate contract), or may be provided by the customer.
 - b. The customer is responsible for providing the power required for any and all CPE connected to an ISDN-PRI.
7. The Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure, or malfunctions of ISDN services or associated equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of the services after the Telephone Company has been notified, and has reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service affected for the period following notice from the customer until service is restored.
8. Service Establishment Charges do not apply for the establishment of the Communication Channels when the customer signs an agreement to subscribe to ISDN-PRI for a minimum of 3 years. If the customer discontinues service prior to the conclusion of the 3 year agreement, the customer will incur a disconnection charge equal to the Service Establishment Charges. The disconnection charge will not apply if the customer purchases other services from the Company which replace ISDN-PRI service.

DIRECT INWARD DIALING (DID) SERVICE

APPROVED

(N)

A. General

The Telephone Company will provide, subject to the availability of facilities, Direct Inward Dialing (DID) Service. DID service provides for the completion of local and toll calls to associated station numbers without intermediate handling by an attendant.

B. Rates

1. The rates and charges for central office trunk associated with Direct Inward Dialing (DID) Service are as found below:

	Monthly Rate	N R C
a. DID Facility Charge, Per Trunk	(1)	(1)
b. DID Software Translation Charge, Per Trunk	N/A	\$50.00
c. DID Number Assignment Charge (per number)	\$0.50	\$5.00 (2)

*Numbers sold in conjunction with DID Service only.

C. Conditions

1. The service is furnished subject to the availability of Central Office facilities and compatibility of customer-provided equipment.
2. The service includes central office switching equipment for in-dialing from the exchange and toll network directly to stations associated with customer premises equipment.

(1) See Section 4, Sheets No. 4-6 for associated PBX trunk rate and Section 6 for the installation charge.

(2) Not applicable if installed with initial installation. Subsequent installations are subject to non-recurring costs.

MISCELLANEOUS SERVICE ARRANGEMENTS

DIRECT INWARD DIALING (DID) SERVICE (Continued)

APPROVED

C. Conditions (Continued)

3. The rates herein contemplate the use of standard Telephone Company equipment and serving arrangements and are in addition to rates and charges for the service with which it is furnished. When equipment or service of a special type is requested and provided, rates and charges are related to the costs involved to meet the individual requirements of each case.
4. Operational characteristics of interface signals between the Telephone Company-provided connecting arrangements and the customer-provided equipment must conform to the rules and regulations the Telephone Company considers necessary to maintain proper standards of service.
5. The Telephone Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Telephone Company render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alternation of such equipment or system or otherwise affect its use or performance.
6. Directory listings will be provided in accordance with the regulations of the "Directory Listings" section of this Tariff. DID numbers furnished herein are not entitled to free directory listings.
7. Customer-provided equipment must be arranged by the customer to provide for the intercepting of assigned but unused station numbers.
8. The customer being provided DID service will be responsible for all toll calls billed to the DID numbers.
9. DID numbers will be sold in conjunction with DID service only.
10. The assignment of the telephone numbers and the sequence of numbers assigned to a DID service is determined by the Company based on the rules established in FCC order 00-104. The customer may request a sequential block of numbers to be placed into service at a later date. Non-Recurring Charges for DID numbers may apply to recover the cost of reserving the numbers. Reserved numbers can only be held for a maximum of six months. After six months, the reserved numbers must be placed into service for that specific customer or the numbers will be categorized as available for use by other customers.

DEDICATED DS1 SERVICE

APPROVED

A. General

Dedicated DS1 Service is a point-to-point intraexchange service that provides for simultaneous two-way transmission at 1.544 Megabits per second (Mbps). This service only transmits digital signals and uses only digital transmission facilities. Dedicated DS1 service and its features are offered subject to the availability of central office equipment and appropriate outside plant facilities. This service is specifically designed for customers that require dedicated DS1 facilities from a TDS TELECOM Central Office to their location.

B. Definitions

Clear Channel Capability - An optional feature of DTS that allows a customer to transport 1.536 Mbps on a 1.544 Mbps line with no constraint on quantity or bit sequence.

DS1 - Digital facility that is equivalent to 24 DS0s. Total transmission speed is 1.544 Mbps.

Digital Local Channel - A transmission path for Dedicated DS1 Service furnished from the Central Office to the demarcation point on the customer's premises.

C. Regulations

1. Dedicated DS1 Service is available for a minimum service period of one month.
2. Dedicated DS1 Service is available on a month-to-month basis or under variable rate periods, with rates based on lengths of 12 months, 36 months and 60 months.
3. Rates for Dedicated DS1 under contract will not be increased by Company Initiative until the contract period expires. Rates in effect at the time the service is installed will be applicable until the contract expires. Upon expiration of the customer's current payment period option, the customer may select a new payment period option at current rates or revert to current rates on a month-to-month basis.
4. For channelization of Dedicated DS1 Service, please see Digital Transport Service in this Section.

C. Regulations (Continued)

5. If the service is canceled by the customer prior to the completion of the service period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the contract times the monthly rate provided under the contract. Termination charges will not apply, however, if the customer replaces the service with comparable service and a contract length that is equal to or greater than the original contract period.
6. The rates listed in Paragraph D., following, assume the provision of a digital quality facility that uses existing exchange cable facilities compatible with this service. If such equipment, new facilities or changes to existing facilities are required for the provision of this service, a special construction charge based on the cost incurred to make the changes will apply in addition to the rates for Dedicated DS1 Service.
7. The two types of non-recurring charges associated with Dedicated DS1 Service include a Design Order Charge and an Installation Charge. The Design Order Charge applies once per order while the Installation Charge will apply for each Digital Local Channel installed.
8. The Installation Charge and Design Order Charge will not apply for the establishment of Dedicated DS1 Service when the customer signs an agreement to subscribe to the service for a minimum of 3 years. If the customer discontinues service prior to the conclusion of the 3 year agreement, the customer will incur a disconnection charge equal to the Design Order Charge and applicable Installation Charges. The disconnection charge will not apply if the customer purchases other services from the Company which replace Dedicated DS1 Service.

MISCELLANEOUS SERVICE ARRANGEMENTS

DIGITAL TRANSPORT SERVICE

APPROVED

A. General

Digital Transport Service (DTS) provides customers with a cost effective option to deliver voice grade service from the serving Central Office to a customer's premises. DTS is only provided with a DS1 Channel (1.544 Mbps) as provisioned in the Local Private Line tariff. DTS supports Direct Inward Dialing (DID) Service, Dedicated 800 Service, and Local Exchange Business Trunks. The primary users of this service include Internet Service Providers and owners of PBX Systems.

B. Definitions

DS0 - One voice grade circuit. This circuit generally has a 64 Kbps transmission speed.

DS1 - Digital facility that is equivalent to 24 DS0s. Total transmission speed is 1.544 Mbps.

C. Regulations

1. DTS is subject to the availability of central office equipment and appropriate outside plant facilities.
2. The rate structure for DTS requires charges for Trunk Terminations, DS1 facility, Digital Interface Termination and Subscriber Line Charges (SLC).
3. The Digital Interface Termination rate is available on a month to month basis or under variable rate periods with rates based on lengths of 12 months, 36 months and 60 months.
4. The total number of Trunk Terminations activated by the customer may not exceed the capacity of each DS1 facility.
5. Additional charges for Central Office services and features, such as telephone numbers associated with Direct Inward Dialing (DID) Service, are applicable when appropriate, as specified elsewhere in this tariff.

C. Regulations (Continued)

6. Calls will be subject to any applicable usage charges for services provisioned on the DTS channels. Message Telecommunications charges will apply to calls outside the Local Service Area. (T)
7. Touch-tone signaling is required for DTS. (T)
8. Unless specifically exempted, DTS is subject to all general regulations applicable to the provision of service by the Company as stated in the general tariff. (T)
9. As a result of any interface or technical changes required of the Company due to the possible future adoption of FCC rules under Part 68, the Company shall not be responsible if changes in any of the equipment, operations or procedures of the Company utilized in the provision of DTS render any customer premises equipment provided by a customer obsolete or require modification or alteration of such equipment or systems or otherwise affect its use or performance. MISCELLANEOUS SERVICE ARRANGEMENTS

SPECIAL SERVICE AND FACILITIES

APPROVED

A. General

Special service and facilities, not ordinarily used in the furnishing of telephone service and not otherwise mentioned in, provided for or contemplated by the tariff schedules of the Telephone Company, may be furnished or leased pursuant to special contract for such special service or facility for such period as may be agreed upon, not to exceed one year, provided such special service or facility or the use made thereof is not unlawful and does not interfere with the telephone service furnished by the Telephone Company. In the event any such special service or facility or the use made thereof interferes with the furnishing of the telephone service by the Telephone Company, the Telephone Company may terminate such contract and cease to furnish such special service or facility after thirty days written notice to the subscriber; and provided further that the Commission may terminate such contract whenever, in its opinion public interest requires such termination.

TOLL AND INTEREXCHANGE SERVICES

CONCURRENCE--LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICES

(T)

A. General

Long Distance Message Telecommunications Service, sometimes referred to as Message Toll Telephone Service, provides for the furnishing of facilities other than those for exchange service or mobile telephone service for telephone communications between local service areas, or between a local service area and a mobile service area, or between two mobile service areas.

B. Message Charges

1. Intrastate Service

Continental Telephone Company, hereinafter called the concurring company, except as otherwise specifically stated herein, assents to, adopts and concurs in the Message Toll Telephone Service Tariff filed with the Public Utilities Commission of Ohio by the The Ohio Bell Telephone Company, hereinafter called the issuing company, as such tariff now exists or as it may be revised, added to or supplemented by superseding sheets or issues (including such service as is also participated in by one or more other companies) and hereby makes itself a part thereto and obligates itself to observe each and every provision thereof.

2. Interstate Service

Continental Telephone Company concurs in the Long Distance Message Telecommunications Service Tariff filed with the Federal Communications Commission by the American Telephone and Telegraph Company Long Lines Department.
