NATIONAL DIRECTORY ASSISTANCE CALL COMPLETION TOLL SERVICE

A. DESCRIPTION OF SERVICE

National Directory Assistance Call Completion (NDACC) Toll Service is an Intrastate InterLATA Telecommunications Service that allows the Telephone Company to connect a call from a local service subscriber of the Telephone Company, to the requested telephone number when that call to the Telephone Company originates as a request for National Directory Assistance (NDA) information.

When the Telephone Company receives a customer request for NDA listing information, the Telephone Company will offer to complete the call to the requested number for a charge. The Telephone Company will not bill a per call charge to complete the call. All NDACC Toll Service charges will be based on a per minute rate. However, customers who use this service are subject to the tariff charges that apply for use of the basic NDA service as listed in Section 27 of The Telephone Company's General Exchange Tariff PUCO No. 8.

If the customer elects to have the Telephone Company complete the call, the Telephone Company will complete the call and bill the customer the per minute rate set forth in this tariff if the call is completed to a point within the originating customer's state but outside of the customer's LATA. The NDACC Toll Service charges will appear on the Telephone Company's portion of the customer's bill.
