SECTION 4 - PRICE LIST

4.17 Promotions (continued)

4.17.74 AT&T Business Unlimited Calling Reduced MRC Promotion # 406 (continued)

- (E) Customers may add or remove Access Lines or relocate Service to a new address during the promotional offer period, if Customer also commits to restarting the term commitment agreement and the resulting number of lines is still eligible for this promotion. In such situations, the Company will adjust the per-line MRC to the new line size and the promotional benefit will be restarted and apply for 1 year from the date the term is restarted.
- (F) Customers may add or remove Access Lines (but may not relocate Service to a new address) after the promotional offer period if Customer also commits to restarting its existing 1-year term plan agreement and the resulting number of lines continues to meet the eligibility requirements of the promotion. When a Customer adds or removes Access Lines after the promotional offer period has ended, the Company will no longer apply the promotional rate on a monthly basis. Instead, Customers will receive a single payment based on the number of months remaining in the term immediately prior to this addition or removal of Access Lines. For an addition of Access Lines the single payment will be calculated by multiplying the number of Access Lines on which the Customer was receiving the promotional rate prior to this addition of Access Lines, multiplied by the difference between the promotional and non-promotional monthly recurring rate, multiplied by the number of months over which the Customer would have received the promotional rate had this addition or removal not occurred. For a removal of Access Lines, the single payment will be calculated by multiplying the number of Access Lines that the Customer is retaining after the removal of Access Lines, multiplied by the difference between the promotional and non-promotional monthly recurring rate, multiplied by the number of months over which the Customer would have received the promotional rate had the removal not occurred. The Company may provide the single payment to the Customer in the form of a check, bill credit or other means at the Company's discretion. Relocation of service to a new address after the promotional offer period has ended will result in a forfeiture of any remaining promotional benefits.
- .1 Example, if Customer adds lines: Customer subscribes to the promotion with three (3) lines and after the 5th month of the promotional benefit period, the Customer decides to add one (1) additional line. Customer must commit to a new 1-year term plan agreement and will receive a single payment based on the difference between current plan MRCs and the promotional MRCs based on the original three (3) lines multiplied by the seven (7) remaining months (the number of months remaining in the original term plan agreement promotion).
- .2 Example, if Customer removes lines: Customer subscribes to the promotion with four (4) lines with and after the 5th month of the promotional benefit period, the Customer decides to remove two (2) lines. Customer must commit to a new 1-year term plan agreement and will receive a single payment based on the difference between current plan MRCs and the promotional MRCs based on the remaining original two (2) lines multiplied by the seven (7) remaining months (the number of months remaining in the original term plan agreement promotion).

4.17.75 AT&T Business Unlimited Calling 2-Year & 3-Year Term Reduced MRC Promotion # 407
(continued)

- (E) Customers may add or remove Access Lines or relocate Service to a new address during the promotional offer period, if Customer also commits to restarting the term commitment agreement and the resulting number of lines is still eligible for this promotion. In such situations, the Company will adjust the per-line MRC to the new line size and the promotional benefit will be restarted and apply for the duration of the term commitment from the date the term is restarted.
- (F) Customers may add or remove Access Lines (but may not relocate Service to a new address) after the promotional offer period if Customer also commits to restarting its existing 2-year or 3-year term plan agreement and the resulting number of lines continues to meet the eligibility requirements of the promotion. When a Customer adds or removes Access Lines after the promotional offer period has ended, the Company will no longer apply the promotional rate on a monthly basis. Instead, Customers will receive a single payment based on the number of months remaining in the term immediately prior to this addition or removal of Access Lines. For an addition of Access Lines the single payment will be calculated by multiplying the number of Access Lines on which the Customer was receiving the promotional rate prior to this addition of Access Lines, multiplied by the difference between the promotional and non-promotional monthly recurring rate, multiplied by the number of months over which the Customer would have received the promotional rate had this addition or removal not occurred. For a removal of Access Lines, the single payment will be calculated by multiplying the number of Access Lines that the Customer is retaining after the removal of Access Lines, multiplied by the difference between the promotional and non-promotional monthly recurring rate, multiplied by the number of months over which the Customer would have received the promotional rate had the removal not occurred. The Company may provide the single payment to the Customer in the form of a check, bill credit or other means at the Company's discretion. Relocation of service to a new address after the promotional offer period has ended will result in a forfeiture of any remaining promotional benefits.
- .1 Example, if Customer adds lines: Customer subscribes to the promotion with five (5) lines with a 2-year term plan agreement and after the 5th month of the promotional benefit period, the Customer decides to add one (1) additional lines. Customer must commit to a new 2-year term plan agreement and will receive a single payment based on the difference between current plan MRCs and the promotional MRCs based on the original five (5) lines multiplied by the nineteen (19) remaining months (the number of months remaining in the original term plan agreement promotion).
- .2 Example, if Customer removes lines: Customer subscribes to the promotion with four (4) lines with a 3-year term plan agreement and after the 5th month of the promotional benefit period, the Customer decides to remove two (2) lines. Customer must commit to a new 3-year term plan agreement and will receive a single payment based on the difference between current plan MRCs and the promotional MRCs based on the remaining original two (2) lines multiplied by the thirty-one (31) remaining months (the number of months remaining in the original term plan agreement promotion).
