EXHIBIT C

AT&T Communications of Ohio, Inc. (AT&T) is filing this application to streamline calling card. Currently, AT&T offers calling card rates that are associated with its specific Optional Calling Plans (OCPs). This filing removes the calling card component from specific OCPs. Customers placing calls through the use of their calling card will be charged the basic calling card rate which in Ohio is capped at \$.36 per minute of use and \$1.50 service charge per call. Customers will see a decrease in their calling card rates.

This filing increases the OCP rates for direct dialed calls.

The planned increase for Directory Assistance was canceled after the bill messages had already gone out.

The Non-Subscriber Service charge increase from \$2.50 to \$3.50 is the service charge for "dial around" calls. AT&T is unable to identify customers that "dial around", and is therefore unable to provide standard notice to those customers.
