1. REGULATIONS

1.1 Services by Contract Only

SBC-ASI will offer all services on an individual contract basis only.

Limitation of liability language in the contract does not constitute a determination by the PUCO that the limitation of liability imposed by SBC-ASI should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate liability and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

Services will be provided where facilities permit.

1.2 Services Offered

1.2.1 Switched Multi-megabit Data Service (1)

SBC-ASI offers the high-speed data service of Switched Multi-megabit Data Services at 56 kilobits per second and 1, 4, 10, 16, 25, and 34 megabits per second.
