SECTION 3. DESCRIPTION OF SERVICE AND RATES (CONT'D.)

3.3 Calculation of Distance

Usage charges for mileage sensitive services vary based on the type of service subscribed to by the Customer. For services utilizing switched access, mileage measurements for rate schedules are based on the distance in airline miles between rate centers associated with the originating and terminating stations. For services utilizing dedicated access, mileage measurements for rate schedules are based on the distance in airline miles between the CNS network access point associated with the station utilizing Dedicated Access Origination/Termination and the rate center associated with the called/calling station.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by BellCore (Bell Communications Research), in the following manner:

Step 1: Obtain the "V" and "H" coordinates for the serving wire center or network access point serving the Customer's location and the called/calling station.

Step 2: Obtain the difference between the "V" coordinates. Obtain the difference between the "H" coordinates.

Step 3: Square the differences obtained in Step 2.

Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5: Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating locations of the call.

Formula:
$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

SECTION 3. DESCRIPTION OF SERVICE AND RATES (CONT'D.)

3.4 Call Timing

- 3.4.1** Long distance usage charges are based on the actual usage of the Company's network. Chargeable time begins when the calling and the called station are connected.
- 3.4.2** Chargeable time ends when the calling service point terminates, thereby releasing the network connection.
- 3.4.3** No charges apply to unanswered calls.

SECTION 3. DESCRIPTION OF SERVICE AND RATES (CONT'D.)

3.5 Public Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

March 14, 2008

Dear Customer:

Beginning on April 2, 2008, the prices, service descriptions, and the terms and conditions for certain telecommunication services that you are provided by Custom Network Solutions, Inc. will no longer be on file at the Public Utilities Commission of Ohio (PUCO). These services include:

Interexchange Long Distance Services
Directory Assistance Services

This modification does not automatically result in a change in the prices, terms, or conditions of those services to which you currently subscribe. Custom Network Solutions, Inc. must still provide a customer notice at least fifteen days in advance of rate increases, changes in terms and conditions and discontinuance of existing services. Additionally, you will be able to view the Company's future service offerings in a pricing guide online at www.cnsny.net or you can request a copy of this information by contacting Custom Network Solutions at 210 Route 4 East, Paramus, NJ 07652 or by calling 1-800-809-0663.

Since these services will no longer be on file with the Commission, this means that the agreement reached between the Customer and the Company, instead of the document on file at the PUCO, will now control new services or changes in service. This agreement, whether it is verbal or written, will still be subject to consumer protections required and enforced by the PUCO.

For any new services or changes in service, it will be important that you carefully review and confirm the price, terms and conditions.

If you have any questions about this matter, please call us at the toll free number 800-809-0663 or visit us at www.cnsny.net.

Sincerely,

A handwritten signature in black ink, appearing to read "Marc Rozar", is written over the printed name.
