4. TERMS AND CONDITIONS

4.1 Undertaking of the Company

4.1.1 General

- A. The facilities of the Company will be available as soon as practicable upon receipt of an order for service. Interconnection of the Company's facilities with the facilities of other duly authorized and regulated communications common carriers, and with International Record Carriers ("IRCs"), will be permitted.
- B. The obligation of the Company to provide service is dependent upon its ability to procure, construct, and maintain facilities which are required to meet the Subscriber's order for service. The Company will make all reasonable efforts to secure the necessary facilities and will amend its Tariff accordingly, providing such new service will not adversely affect the Company's present services.

4.1.2 Availability

Service is offered and provided subject to the availability on a continuing basis of the necessary facilities and/or equipment. The Company reserves the right to provide services only to and from locations where the necessary facilities and/or equipment are available and the furnishing of services under this Tariff is limited to the capacity of the Company's facilities as well as facilities the Company may obtain from other carriers to furnish service from time to time as required at the sole discretion of the Company.

4. TERMS AND CONDITIONS (Continued)

4.2 Liability of the Company

4.2.1 Neither the Company nor its vendors, suppliers or licensors are liable for any damages arising out of or in connection with any: (A) act or omission by the Customer, or by another person or company; (B) providing or failing to provide services, including deficiencies or problems with any equipment, the network or the services; (C) content or information accessed while using the services, such as through the Internet; (D) interruption or failure in accessing or attempting to access emergency services, including through 911, E911 or otherwise; or (E) events due to factors beyond the Company's control, including acts of God (including, without limitation, weather related phenomena, fire or earthquake), war, terrorist attacks, riot, strike, or orders of governmental authorities.

4.2.2 If, for whatever reason, the Company is found to be responsible to the Customer for monetary damages relating to any services obtained through the Company under this tariff, the Company's liability will not exceed the amounts the Customer was charged for the affected services during the affected period.

4.2.3 The Company will make no refund of overpayments by a Subscriber unless the claim for such overpayment, together with proper evidence, is submitted in support of the alleged overpayment. In calculating refunds, any applicable discount will be adjusted based on the total monthly usage after all credits or adjustments have been applied.

4.2.4 Limitation of Liability ⁽¹⁾

The Company will not be liable for any consequential, incidental or indirect damages for any cause of action, whether in contract or tort. Consequential, incidental, and indirect damages include, but are not limited to, lost profits, lost revenues, and loss of business opportunity, whether or not the other party was aware or should have been aware of the possibility of these damages. This limitation of liability does not apply to claims arising from Subscriber's indemnification obligations listed herein.

⁽¹⁾ Approval of the above tariff language by the Public Utilities Commission of Ohio does not constitute a determination by the Commission that the limitation of liability imposed by the Company should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

4.7 Payment of Charges

4.7.1 Application of Charges

A. Monthly Recurring Charges

For billing of fixed charges, service is considered to be established upon the day in which the Company notifies the Subscriber of installation and testing of the Subscriber's service.

Unless otherwise specified elsewhere in this Tariff, monthly recurring charges will be billed in arrears and are due upon receipt. The rates charged to a Subscriber will be the rates in effect on the last day of the Subscriber's billing cycle.

After the minimum service period, the full monthly recurring charge applicable for any service provided under this Tariff will apply for each month, or partial month, per account.

B. Minute of Use Rates

Except as otherwise specified in this Tariff, charges will be billed monthly in arrears and are due upon receipt. Subscriber will be billed for all usage accrued beginning immediately upon access to the service. Subscribers will be billed for usage occurring during their specific 30-day billing cycle, which for purposes of computing charges shall be considered a month.

Unless specified otherwise for a particular service, all calls for which a minute of use rate applies will be billed in one-minute increments. Fractional minutes are rounded up to the next minute.

If the computed charge for a call includes a fraction of a cent, the fraction is rounded up to the whole cent (e.g., \$1.244 is rounded up to \$1.25).

A charge equivalent to the applicable state return check charge may be applied whenever a check or draft presented for payment of service is not accepted by the institution on which it is written.

Returned Check Charge - \$15.00

4.7.3 Surcharges

The company shall not assess separately any taxes, fees or surcharges, other than government-approved sales taxes imposed directly on the end users, without seeking Commission approval under the appropriate procedures required by the Commission. Generally, the Commission will not grant the inclusion of gross receipts tax as a separate item on the bill unless special circumstances so warrant and the Commission specifically approves same. The company shall not place a separate line item on a customer's bill without sending notice to all customers informing them of the new line item charges in accordance with Commission-adopted notice procedures.

The customer is responsible for the payment of all state, local and E9-1-1 taxes, surcharges, utility fees, or other similar fees for which the end user is directly responsible and that may be levied by a governing body or bodies in conjunction with or as a result of a service furnished under a tariff on file with the Public Utilities Commission of Ohio. 5.1.1 Solutions Service

Solutions Services are add-ons to the Company's interstate offering. These services are available only through Embarq LOC to Embarq LOC residential Customers who have selected the Company as their Primary Interexchange Carrier. Customers must subscribe to Solutions Service for both the interstate and intrastate long distance service. Applicable interstate rates are located in the Company's interstate Residential Schedules located at www2.embarq.com/tariffs.

(T)

Solutions Services are available for use by individuals residing at a single-family residence, including, but not limited to, a house, condominium, or apartment, where service is being provided. This service is not available in group or multi-family housing, including, but not limited to, housing associated with educational institutions or military barracks. A Customer's phone line may not be classified as a "business", "public" or "semi-public" line.

The term "Dial-1" does not include: 1) calls which are pay-for-use, including but not limited to calls to 900, 976, 555 and 700 numbers, 2) calls to Directory Assistance, 3) operator service calls, including emergency interrupt and intercept call **completion**, 4) usage from multi-party conference calls, and 5) inbound toll free service calls.

(C)
(T)

If the Company determines the service is not being used for individual residential service, or in any other way violates the restrictions of this service, the Subscriber will be ineligible for the service and the Company may terminate the Subscriber's account.

Operator Services and Directory Assistance are available with all Solutions Services under the terms and conditions specified in Section 7 of this Tariff. Calls placed **using Operator** Services are charged at the applicable rates for those services in lieu of the rates specified herein for Solutions Services, unless otherwise specified in the rates section for a particular Solutions Service.

(C)
(C)

The Solutions Service rates will apply as long as the Customer remains a Company and an Embarq LOC Customer and subscribes to all of the qualifying services. Customers who discontinue any or all of the qualifying services will no longer be eligible to subscribe to a Solutions Service and will be switched, upon notice, to Standard Weekends Option B as set forth in Section 5.1.2 of this Tariff, unless specified otherwise elsewhere in this Tariff for a particular service.

6.1.5 Enhanced Voice Solutions

A Customer's phone line may not be classified as a "residential," "public," or "semipublic" line or in housing associated with educational institutions. The term "Dial-1" does not include: 1) calls which are pay-for-use, including but not limited to calls to 900, 976, 555 and 700 numbers, 2) calls to Directory Assistance, 3) operator service calls, including emergency interrupt and intercept call completion, 4) usage from multi-party conference calls, and 5) inbound toll free service calls.

If the Company determines the service is not being used for business service or in any other way violates the restrictions of this service, the Subscriber will be ineligible for the service and the Company may terminate the Customer's account.

Calls placed using Operator Services are charged at the applicable rates for those services in lieu of the rates specified herein for Enhanced Voice Solutions. Enhanced Voice Solutions has minimum annual commitment (MAC's) levels with each level having one through three-year commitment terms. Enhanced Voice Solutions is available to single and multi-location customers for outbound calls which originate using switched access facilities and terminate using shared use facilities. A term plan will automatically renew for an equivalent term and minimum annual commitment level at the rates in effect under the prior term plan, unless either the Company or the customer provides written notification to cancel the plan, with such notification being received by the notified party not less than 45 days prior to the expiration of the term.

6.1.5 Enhanced Voice Solutions

An Enhanced Voice Solutions customer must commit to one of the following minimum annual commitment levels of contributory usage charges: (1) \$3,000, (2) \$6,000, or (3) \$12,000. Enhanced Voice Solutions is available on a one-year, two-year or three-year basis. Contributory usage charges are aggregated across outbound, toll free, switched data (inbound and outbound); all locations and all jurisdictions (intrastate, interstate and international) in order to meet the minimum annual commitment level.

The Company reserves the right, after the conclusion of the first three billing months of the Enhanced Voice Solutions customer's contract, to move the customer to a lower commitment level that is more directly comparable to the customer's current usage. Enhanced Voice Solutions customers terminating all Enhanced Voice Solutions services prior to fulfilling their term commitment will be assessed a termination liability in an amount equal to the underutilized portion of the MAC plus the full MAC for any remaining 12 month periods in their term plan agreement. The termination liability will be billed in one lump sum. Customers will not incur this termination liability for their former term plan commitment if they request a new MAC equal to or greater than the previous level and agree to sign a new term plan agreement for a period equal to or greater than the term of their current plan. The customer will, however, be assessed the termination liability if they terminate all Enhanced Voice Solutions service prior to fulfilling their new term commitments.

The rates in effect upon the commencement of the customer's term plan will remain in effect for the duration of the term plan. If the Company decreases the rates for Enhanced Voice Solutions during the term plan, the Customer will receive the lower rates on their first invoice following the effective date of the rate decreases. The Customer may add associated locations at any time during the term. All usage from subsequently-added associated locations will be exempt from any rate increases for the remainder of term.

7.3 Directory Assistance (DA)

7.3.1 General

The Company provides the service of connecting Customers to a nationwide Directory Assistance operator for a per-call charge for intrastate information requests. Customers can receive up to two numbers per request. In order to obtain two numbers, the Customer must request two numbers once the Customer reaches the live operator. The fee applies whether or not the Directory Assistance operator furnishes the requested telephone number(s), e.g., the requested telephone number is unlisted, non-published or no record can be found. Requests for information other than telephone numbers will be charged for as requests for telephone numbers.

National Directory Assistance Service gives a Customer the option of completing a call to the called station telephone number received from the Directory Assistance operator without hanging up and originating a new call. National Directory Assistance Service is offered when a Customer requests intrastate Directory Assistance. A call completion charge applies in addition to the Directory Assistance per-call charge if the Customer accepts the offer. When two numbers are requested from Directory Assistance only the second call can be completed. The call completion fee will not apply if the call cannot be completed.

When a Company Operator assists with a Directory Assistance call the appropriate operator handling charges will apply in addition to the Directory Assistance charge.

Requests will be limited to two (2) per call.

A credit allowance for Directory Assistance will be provided upon request if the Subscriber experiences poor transmission quality, is cut off, receives an incorrect telephone number or misdials the intended Directory Assistance number.

9. DATA SERVICES

9.1 TERMS AND CONDITIONS

(T)

In addition to the terms and conditions specified in Section 4 of this tariff, the terms and conditions specified following apply for Data Services.

9.1.1 Application for Service

(T)

Application for Service is the Company order process that includes technical, billing and other descriptive information provided by the Customer which allows the Company to provide requested communications services for the Customer and Customer's authorized users. Upon acceptance by the Company, the Application for Service becomes a binding contract between the Customer and the Company for the provision and acceptance of services.

An Application for Service may be changed by Customer upon written notice to the Company, subject to acceptance and confirmation by the Company, provided that a charge shall apply to any change when the request is received by the company after notification by the Company of the acceptance and confirmation. Such charge shall be the sum of the charges and costs for access facilities and other services and features and the lesser of (i) the monthly recurring rate for each service component that has been canceled as a result of the change times the appropriate minimum service period, plus the applicable installation or non-recurring charges, and (ii) the costs incurred by the Company in accommodating each change, less net salvage.

Costs incurred by the Company will include the direct and indirect cost of facilities specifically provided or used; the costs of installation, including design preparation, engineering, supply expense, labor and supervision, general and administrative, and any other costs resulting from the preparation, installation and removal effort.

If the Customer or applicant delays activation of his service during the period thirty (30) days preceding the scheduled installation date for a period of more than one (1) week, normal charges for local distribution facilities (LDF) shall apply from the scheduled date of installation. In the event that the Customer-induced delay exists for more than thirty (30) days after the scheduled installation date, the Company may consider the delay a cancellation of application for service.

If special construction has been started prior to cancellation, a charge equal to the costs incurred in the special construction, less net salvage, applies. In determining the charge, cancelled service is treated as discontinued as of the date on which it was to have started when the Company incurs any expense in connection therewith or in preparation therefore which would not otherwise have been incurred, provided that the Customer or applicant had advised the Company in writing not to proceed with the installation or special construction.

If the Company should assume a termination liability or other obligation for an access facility, that liability or obligation shall be the responsibility of the Company's Customer.

9.1 TERMS AND CONDITIONS (Continued)

(T)

9.1.1 Application for Service (Continued)

(T)

A. Cancellation of Application for Service

(T)

When the Customer or applicant has requested the Company to cancel the application for service prior to service installation, cancellation charges will apply. Cancellation charges for both the underlying services and Local Access Facilities will be based on the stage at which the Access Service Request ("ASR") is at, either the Pre-Access Service Request ("Pre-ASR") or the Post-Access Service Request ("Post-ASR") stage.

The Pre-ASR stage is when the ASR is complete but has not yet been sent to the Local Exchange Company ("LEC") or the Alternate Access Vendor ("AAV"). The Post-ASR stage is when the ASR is complete and has been sent to the LEC or AAV.

The amount of the cancellation charge will vary according to the category of service ordered and at which stage the cancellation occurred (Pre-ASR or Post-ASR). Categories of services are: (1) the Service Component based on IXC ordered and; (2) the Access Component based on type of access ordered. See Service Cancellation Charges in this Tariff.

B. Change of an Application for Service

(T)

An Application for Service may be changed by the Customer upon written notice to the Company, subject to acceptance and confirmation by the Company provided that a charge shall apply to any change when the request is received by the Company after notification by the Company of the acceptance and confirmation.

Such charge shall be the sum of the charges and costs for Private Line Service incurred by the Company in accommodating each change including the direct and indirect costs of facilities specifically provided or used; the costs of installation (including design preparation, engineering, supply expense, labor and supervision, general and administrative) and any other costs resulting from the preparation, installation and removal effort.

9. DATA SERVICES (Continued)

9.1 TERMS AND CONDITIONS (Continued)

(T)

9.1.2 Obligations of the Customer

(T)

In instances where the Company is connecting its service to the Customer's own Customer-provided communications system or equipment or to any service or equipment provided by others, the Customer must ensure that the equipment or system must provide answer supervision upon the delivery of the call to the switching equipment or to the equipment connected to the communications system. When service is directly connected to a communications system at a Customer's premises, answer supervision must be provided when the call terminates in or passes through the first Customer premise equipment on that communications system, such as but not limited to when a call is (1) answered by a local station; (2) answered by an attendant; (3) routed to a recorded announcement; or (4) routed elsewhere by the switching system.

The Customer must obtain an adequate number of facilities for Company Services to handle the Customer's expected demand in order to prevent interference or impairment of this service and or any other service provided by the Company considering (1) total call volume; (2) average call duration; (3) time-of-day characteristics and (4) peak calling period. The Company, without incurring any liability, may disconnect or refuse to furnish any toll free service to a Customer that fails to comply with these conditions. In case of disconnection, the Customer will be notified at least five days in advance of the disconnect. Notification may be by mail or in person.

In compliance with the obligations imposed on the Company by the **FCC**, Customer represents and warrants, on behalf of itself and its affiliates, subsidiaries, and agents, that it is not a reseller and that it does not intend to resell the services or engage in other activity that would require the Company to verify Customer's authorization as a reseller as required by 47 CFR 64.1195. If Customer or its affiliates, subsidiaries, or agents breach these representations or warranties, this agreement will terminate immediately and subject Customer to the liability imposed for termination by the Company for material breach. These provisions are not intended to prohibit resale, but are intended to prevent misrepresentations by resellers in an attempt to circumvent the rules or regulations of the FCC, or other governmental bodies with jurisdiction over the provision of communications services for resale.

(T)

9.1.6 Expedited Service Charge

9.1.9 Provision of Service with Non-Fiber Access Facilities

(T)

Private Line Services may be provided using non-fiber access facilities at the request of the Customer. However, in such cases, the Company may not meet the performance objectives and applicable standards for service set forth in this Tariff. Under no circumstances shall the Company be responsible for any direct, indirect, special, incidental or consequential damages arising directly or indirectly from the provision of service using such facilities, including without limitation any loss of Customer income or profits. The Customer shall indemnify and hold harmless the Company from any and all claims, actions, costs, expenses and damages associated with or arising out of Customer's use of such facilities.

9.1.10 Discontinuance of Service without Liability

(T)

A Customer will not be penalized for discontinuing a private line agreement if:

A. A revision in the Private Line Services Tariff provisions results in higher plan rates for the plan to which the Customer has committed. The Customer may request affected circuits be disconnected up to 30 days after the effective date of the higher Tariff rates without penalty. Otherwise, the Customer's existing agreement remains in effect and the new rates will be billed.

9.2 LOCAL ACCESS FACILITIES

(T)

9.2.1 General Description

(T)

In order to subscribe to the Company's data products with dedicated access, the Customer must gain entry to the Company's network by means of Local Access Facilities. Such Local Access Facilities will generally be ordered from local telephone companies in the Customer's name, by the Company, as agent. The Company will bill the Customer for these facilities.

Any special construction or non-standard charges assessed by the local telephone company supplying the Local Access Facility will also be the responsibility of the Customer. On occasions when alternative facilities are necessary (those provided in lieu of Company-designated access provided facilities), the Company will charge the Customer according to the rates and charges set forth in this Tariff unless Special Service Arrangements are involved as described in Section 9.1.H of this Tariff.

The Company's scope of work for alternative access facilities may include, but are not limited to, detailed assessment or engineering studies, alternative vendor interface and installation supervision.

Central Office Connection charges apply in all cases in which a Customer wishes to connect to the Company network. The applicable charges are determined based on the type of access interconnected.

Access Coordination will apply in those cases where the Company acts as the Customer's agent and orders Local Access Facilities. The applicable charges are determined based on the type of access ordered.

Local Access Facilities for 56 Kbps, T-1, T-3, OC-3, and OC-12 access require a minimum commitment period of one year, unless otherwise defined through a vendor-provided term plan offering (ordered by the Company on behalf of the Customer via a letter of agency from the Customer). Any termination liabilities incurred by the Company as a result of such plans shall be solely the responsibility of the Customer.

Charges for Local Access Facilities are applied based upon the applicable local exchange company's rates and charges.

The Company reserves the right to restrict interconnection at either the wire center serving the Company POP or the Company POP itself.

9.3 FRAME RELAY SERVICE

(T)

9.3.1 General Description

(T)

Frame Relay Service is a fast packet network that permits the transmission of data at speeds of 56 Kbps, 64 Kbps, 128 Kbps, 256 Kbps, 384 Kbps, 512 Kbps, 640 Kbps, 768 Kbps, 1.544 Mbps, or 44.210 Mbps using Permanent Virtual Circuits (PVCs) to connect multiple Local Area Networks (LANs). Frame Relay Service is currently available throughout the contiguous United States where Local Access Facilities are available.

There are three primary components to the monthly recurring pricing of Frame Relay Service: Local Access Facilities (dedicated), Access Channels (ports) and Permanent Virtual Circuits (PVCs).

Local Access Facilities must be obtained to access Frame Relay Service and are available at the following data speeds: 56 Kbps, T-1 and T-3.

Access Channel port speeds are selected to accommodate the various PVCs that will use that particular Access Channel. Access Channel data speeds range from 56 Kbps to T-3 (45 Mbps). The Access Channel must be large enough to accommodate the cumulative egress of all PVCs connected to a particular Access Channel.

PVCs interconnect the Customer's specific end-points on the interexchange network. PVCs use packet-switching technology to automatically route around network-related failures. PVCs are pre-defined for each pair of end-point devices so a virtual network path (circuit) is always available without any call set-up delay. This results in faster access to the network, better response time for end user applications, and a high degree of network security. The Company's PVCs are Frame Relay for LAN.

For service, the date the service is installed and available, or the date specified on the Customer's order form, whichever is later, will be the date on which all nonrecurring charges will be invoiced and invoicing for all recurring charges will commence.

Customers may subscribe to Frame Relay Service for one, two or three years.

(T)

9.3.2 Term Plan

(T)

Customers may subscribe to Frame Relay Service under one, two or three year term plans. The rates in effect for Frame Relay Service and Local Access Facilities at the time the Customer commits to a term plan will be fixed for the duration of the term plan. The term will begin on the first day of the month following the date the service is installed and available. Upon expiration, the term will be automatically extended at the term plan rates for successive ninety (90) day periods, unless sixty (60) days prior to the end of the term or each such extension either (a) the Customer or the Company provides written notice to the other that it does not want such extension, or (b) the Customer subscribes to another term plan for which the rates of the new term will apply.

If additional Customer sites are added to a Customer's Frame Relay Service after the initial subscription to a term plan, such sites will be incorporated into the Customer's term plan and will have the same termination date as the Customer's original term plan. Existing Customers may subscribe to a new term plan for Frame Relay Service of the same or greater value prior to the end of the Customer's existing term plan without incurring any termination liability if the new term plan extends beyond the old term plan termination date by at least one year or if the new term plan is for three years.

9.3.3 Termination Liability

(T)

To terminate Frame Relay Service the Customer must provide the Company with thirty (30) days prior written notice.

Customers terminating service prior to fulfilling their term commitment will be assessed a termination liability in an amount equal to a lump sum of fifty percent (50%) of the monthly recurring charges for each circuit cancelled multiplied by the number of months remaining in the term plan. Customer will not have any termination liability if another Company service of the same or greater monthly price and volume and a term no less than the remaining months of the term plan or one (1) year, whichever is greater, is ordered at the same time the notice of termination is received. Customer will also be liable for a pro-rata amount of any waived installation charges based on the number of months remaining in the term plan.

If service is terminated by the Company for cause and the Customer has subscribed to service under a term plan, the Customer will be charged the termination liability associated with the term plan.

9.4.3 Term Plan

(T)

Customers may subscribe to Private Line Services under one, two or three year term plans. The rates in effect for Private Line Services and Local Access Facilities at the time the Customer commits to a term plan will be fixed for the duration of the term plan. The term will begin on the first day of the month following the date the service is installed and available. Upon expiration, the term will be automatically extended at the term plan rates for successive ninety (90) day periods, unless sixty (60) days prior to the end of the term or each such extension either (a) the Customer or the Company provides written notice to the other that it does not want such extension, or (b) the Customer subscribes to another term plan for which the rates of the new term will apply.

If additional Customer sites are added to a Customer's Private Line Service after the initial subscription to a term plan, such sites will be incorporated into the Customer's term plan and will have the same termination date as the Customer's original term plan. Existing Customers may subscribe to a new term plan for Private Line Services of the same or greater value prior to the end of the Customer's existing term plan without incurring any termination liability if the new term plan extends beyond the old term plan termination date by at least one year or if the new term plan is for three years.

9.4.4 Termination Liability

(T)

To terminate Private Line Services the Customer must provide the Company with thirty (30) days prior written notice.

Customers terminating service prior to fulfilling their term commitment will be assessed a termination liability in an amount equal to a lump sum of fifty percent (50%) of the monthly recurring charges for each circuit cancelled multiplied by the number of months remaining in the term plan. Customer will not have any termination liability if another Company service of the same or greater monthly price and volume and a term no less than the remaining months of the term plan or one (1) year, whichever is greater, is ordered at the same time the notice of termination is received. Customer will also be liable for a pro-rata amount of any waived installation charges based on the number of months remaining in the term plan.

If service is terminated by the Company for cause and the Customer has subscribed to service under a term plan, the Customer will be charged the termination liability associated with the term plan.

(C)
(C)

Unless otherwise noted herein, Message Telecommunications Services (except **Basic Service**) are available only to a maximum of two residential phone lines, per location and calls are billed in one minute increments (fractional calls are rounded up to the next minute). (T)

The term "Dial-1" does not include: 1) calls which are pay-for-use, including but not limited to calls to 900, 976, 555 and 700 numbers, 2) calls to Directory Assistance, 3) operator service calls, including emergency interrupt and intercept call **completion**, 4) usage from multi-party conference calls, and 5) inbound toll free service calls. (C)

If the Company determines the service is not being used for business service or in any other way violates the restrictions of this service, the Subscriber will be ineligible for the service and the Company may terminate the Customer's account.

Calls placed **using Operator** Services are charged at the applicable rates for those services in lieu of the rates specified herein for Voice Solutions. (C)

(C)

The Company reserves the right, after the conclusion of the first three billing months of the Voice Solutions customer's contract, to move the customer to a lower commitment level that is more directly comparable to the customer's current usage.

Voice Solutions customers terminating all Voice Solutions services prior to fulfilling their term commitment will be assessed a termination liability in an amount equal to the underutilized portion of the MAC plus the full MAC for any remaining 12 month periods in their term plan agreement. The termination liability will be billed in one lump sum. Customers will not incur this termination liability for their former term plan commitment if they request a new MAC equal to or greater than the previous level and agree to sign a new term plan agreement for a period equal to or greater than the term of their current plan.
