AFFIDAVIT

Compliance with Commission Rules and Service Standards

I am an officer/agent of the applicant corporation, Verizon Select Services, Inc., and am authorized to make this statement on its behalf.
(Name)

I attest that these tariffs comply with all applicable rules, including the Minimum Telephone Service Standards (MTSS) Pursuant to Chapter 4901:1-5 OAC for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules, including the Minimum Telephone Service Standards, as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

I declare under penalty of perjury that the foregoing is true and correct.

SECTION 2 - REGULATIONS (Continued)**2.6 Restoration of Service**

The use and restoration of Service shall in all cases be in accordance with the priority system specified in Part 64, Subpart D, of the Rules and Regulations of the Federal Communications Commission.

2.7 Payment and Billing

2.7.1 Payment for Prepaid Calling Service is made in advance by Customer at the time Prepaid Calling Service is initially purchased or replenished.

2.7.2 The security of Customer's Authorization Codes for Prepaid Calling Service is the responsibility of Customer. All calls placed using Customer's Authorization Codes shall be deducted from Customer's account.

2.7.3 If notice from Customer of a dispute as to charges is not reported to a customer service representative or received in writing by Carrier within one year after the date the charges are incurred, the billing will be considered correct.

2.7.4 Carrier shall promptly investigate all disputed charges and shall report its findings and disposition to Customer.

2.7.5 Customer is responsible for payment of all charges for services furnished. Upon nonpayment of any sum due or upon a violation of any of the conditions governing the furnishing of Service, Carrier may discontinue furnishing Service without incurring any liability.

2.7.6 The charges for calls are due upon presentation of the bill and are billed and collected by Carrier or its agent. All bill payments shall be credited within one business day of receipt by Carrier. (C)
(C)

2.7.7 Monthly Charges

A. Monthly charges may be billed a month in advance of service or in the current month and reflect the rates in effect as of the date of the invoice. Customer's invoice may contain charges from previous periods for service provided from the date of installation through the current invoice period or to reflect changes in rates.

B. Monthly charges for all access service components billed by Carrier are billed in advance of service and reflect the rates in effect as of the date of the invoice. Customer's first invoice may contain charges from previous periods for service provided from the date of installation through the current invoice period.

C. For the purpose of computing partial month charges, a month is considered to consist of 30 days.

SECTION 2 - REGULATIONS (Continued)**2.7 Payment and Billing (Continued)**

2.7.8 Customer shall be responsible for the payment of all charges for service provided under this Tariff, including unauthorized charges placed from its equipment. Customer shall be responsible for the payment of all excise, sales, use or other similar taxes that may be levied by a governing body or bodies in conjunction with or as a result of the service furnished under this Tariff.

2.7.9 Carrier requires a minimum service commitment of 90 days for DS-0 and DS-1 services, unless specified otherwise. For DS-3 service, a minimum service commitment of one year is required. For Large Business Voice Service, a minimum service commitment of one year is required.

2.7.10 Handling of Complaints

(N)

Carrier will promptly investigate any Customer complaint and provide an interim report to the PUCO Staff within ten business days of the date of receipt of the complaint. Carrier will provide an interim report to Customer when Customer complains directly to Carrier. Carrier will provide an interim report to Customer and PUCO Staff when the complaint has been referred to Carrier from the PUCO Staff. Depending upon the nature of the complaint, the resolution of some complaints may not be resolved within ten business days under this situation, Carrier will provide an interim report to Customer and Staff. If Customer disputes the report, Carrier will inform Customer that the PUCO Staff is available to mediate the complaint. Carrier will provide to Customer the necessary information for Customer to contact PUCO's Public Interest Center.

(N)

2.8 Deposits

2.8.1 General

The fact that a deposit has been made in no way relieves Customer from complying with the requirement for prompt payment of bills on presentation. At such time as the Service is terminated, the amount of the deposit will be credited to Customer's account and any credit balance which may remain will be refunded. Such a deposit may be refunded or credited to Customer at any time prior to termination of the Service at the option of Carrier.

2.8.2 Credit Limits/Toll Usage Limits

When Customer's credit history is not known, Carrier may perform a credit assessment. Carrier may set toll usage limitations on applicants for service and existing Customers whose financial condition cannot be verified or is otherwise unacceptable to Carrier. Any required deposit or toll usage limits may be increased or decreased by Carrier as it deems appropriate in light of changing conditions. Deposit amount shall not exceed 230% of the statewide average bill amount for the class and type of service involved. Any initial or additional deposit assessed by Carrier shall be based only on the credit history for the same class of service as Customer is seeking to establish.

SECTION 2 - REGULATIONS (Continued)**2.8 Deposits (Continued)**

(N)

2.8.3 Carrier will not deny service on credit worthiness grounds unless applicant is allowed to establish financial responsibility through every means available as provided in PUCO 4901:1-5 and 4901:1-17. When Carrier determines applicant must show financial responsibility, Carrier must inform applicant of all options available to meet the requirement.

2.8.4 If Carrier decides to furnish credit information acquired from its own experience with its own Customers to consumer reporting agencies, Carrier will comply with all of the requirements that consumer reporting agencies must follow in issuing credit reports within the meaning of the Federal Fair Credit Reporting Act.

(M)

2.9 Advance Payments

Other than the purchase price of Prepaid Calling Service, Carrier does not require or collect advance payments.

SECTION 2 - REGULATIONS (Continued)**2.10 Taxes****2.10.1 General**

Service may be subject to state and/or local taxes at the prevailing rates, if service originates and terminates in the state. Taxes are not included in the rates and charges listed herein.

Federal, state and local sales, use excise and other taxes, where applicable, shall be added to the charges contained herein, unless Customer provides a properly executed certificate of exemption from such taxes. It shall be the responsibility for Customer to pay these taxes and to accept the liability of any such unpaid taxes that may become applicable.

2.10.2 Prepaid Calling Service

Service may be subject to state and/or local taxes at the prevailing rates if service originates and terminates in the state. Taxes are included in the rates and charges listed herein.

The tariffed rate does not include federal excise tax or state and local tax, which are required by law to be paid at the point of sale. The tariffed rate does include state and local taxes, which are required by law to be paid on usage of the underlying telecommunication service when that service originates and terminates within a particular tax jurisdiction.

SECTION 2 - REGULATIONS (Continued)**2.11 Credit Allowances for Interruptions****2.11.1 Application - General**

A credit allowance is applicable to that portion of a call which is interrupted due to poor transmission (e.g., noisy circuit condition), one-way transmission (one party is unable to hear the other), or involuntary disconnection (cut-off) of the call caused by components of service. Customer may also be granted credit for reaching a wrong number.

To receive the proper credit, Customer must notify Carrier within 30 days and furnish the called number, the trouble experienced (e.g., cut-off, noisy circuit, reached wrong number, etc.), the class of call, and the approximate time the call was placed. Customer will receive credit equivalent to one minute. Charges will apply to the re-established call.

Credit allowances for a call does not apply for interruptions that are due to the failure of power, equipment or systems not provided by Carrier.

2.11.2 Private Line Service

Customer will receive a credit for downtime of greater than 30 minutes. Network downtime is calculated in minutes, and subtracted from total monthly minutes. Monthly minutes are determined by multiplying the number of days in a month by 1,440. Network downtime is defined as the number of minutes from a Customer reported outage, not determined to be the fault of the Customer, until Customer accepted cleared outage report. The percentage figure obtained by dividing the number of minutes of total network availability by the total monthly minutes is used to determine monthly network availability.

2.11.3 Frame Relay Service

Customer will receive a credit for downtime of greater than 30 minutes for Frame Relay Service. Network downtime is calculated in minutes, and subtracted from total monthly minutes. Monthly minutes are determined by multiplying the number of days in a month by 1,440. Network downtime is defined as the number of minutes from a Customer reported outage, not determined to be the fault of the Customer, until Customer accepted cleared outage report. The percentage figure obtained by dividing the number of minutes of total network availability by the total monthly minutes is used to determine monthly network availability.

SECTION 2 - REGULATIONS (Continued)**2.12 Application for Service/Changed or Canceled Orders**

(M)

2.12.1 Carrier will charge for cancellation and change orders prior to the establishment of service. The amount of the charge will vary according to the status of the service order and the stage when cancellation occurred. In addition to any cancellation charge imposed by the Carrier, Customer will also be responsible for any charges incurred by Carrier which are imposed by a local access service provider for cancellation of an access service order.

2.12.2 Customer may change an application for service upon written notice to Carrier, subject to acceptance and confirmation by Carrier. A charge shall apply to any change when the request is received by Carrier after notification by Carrier of the acceptance and confirmation. The charge will include the sum of the charges and costs incurred by Carrier for the service involved, including direct and indirect costs.

(M)

2.13 Termination Liability**2.13.1 Private Line Service**

(T)

In the event of early termination of contract plans, and unless otherwise stated, Customer must pay a lump sum equal to 100% of the remaining discounted monthly rate for the unexpired portion of the first year of the agreement, plus 50% of the monthly discounted charges for the remainder of the term. Customer will not be liable for termination charges(T) for a specified service if a new service of the same type, and of equal or greater charges, is ordered, and the order is received by Carrier, during the same calendar year in which the original service is discontinued by Customer, provided that the expiration date of the contract plan for the new service is on or after the expiration date of the terminated plan. In addition, no termination charge will be applied for Customer converting from a specified(T) service to a more advanced service provided that the expiration date for the contract plan for the new service is on or after the expiration date of the terminated plan, and the new service provides an equal or greater number of sites to be connected. Customer will also(C) be liable for a pro rata amount of any waived installation charges based on the number of months remaining in the term plan.

(C)

2.13.2 Frame Relay Service

(N)

Customers terminating service prior to fulfilling their term commitment will be assessed a termination liability in an amount equal to (a) 100% of the MRC for each local access facility, port and PVC service terminated multiplied by the number of months remaining in the first year of the term plan, plus (b) 50% of the MRC for each circuit canceled multiplied by the number of months remaining in the term plan after the first year under this provision. Customer will not have any termination liability if another service of the same or greater monthly price and volume and a term no less than the remaining months of the term plan or one year, whichever is greater, is ordered at the same time the notice of termination is received. Customer will also be liable for a pro rata amount of any waived installation charges based on the number of months remaining in the term plan.

SECTION 2 - REGULATIONS (Continued)**2.17 Other Rules**

Demonstration or promotional calls of up to 10 minutes may be offered to existing or prospective Customers to demonstrate new services, at no charge to Customer. Such offerings will be limited to specific locations and dates and may include originating and/or terminating restrictions.

2.18 Toll Blocking

Carrier may cause to have blocked, access to all toll providers for non payment of regulated toll charges, so long as the blocked Customer is not denied the right to select, through a presubscribed interexchange carrier (PIC) mechanism, any other 1+ presubscribed toll service provider who is obligated to provide such service under the terms of the Selective Access Policy.

Under the terms of the Selective Access Policy, Carrier may not deny establishment of 1+ presubscribed toll service on the grounds that Customer has failed to establish creditworthiness, if:

- A. Customer is able to establish creditworthiness using one of the means for doing so available under the Public Utilities Commission of Ohio's (PUCO) rules, or
- B. Carrier, exercising its own discretion, does not require Customer to establish creditworthiness (through any of the means available for doing so under the PUCO's rules), or
- C. Carrier attempts to require Customer to establish creditworthiness using credit establishment procedures which do not comport with the PUCO's credit establishment policies and/or are not set forth within a PUCO approved tariff.

When a prospective Customer, who has previously been universally blocked for nonpayment of toll charges by another carrier, seeks to select Carrier as his or her 1+ carrier of choice, Carrier may, subject to our tariffed toll deposit policies and the Commission's rules on establishment of service (See Rules 4901:1-5-14 and 4901:1-5-15, Ohio Administrative Code, [O.A.C.]), require a deposit for toll service. This deposit shall be in accordance with Rule 4901:1-5-14 (A) (3), O.A.C., but Carrier may negotiate a lower deposit.

If applicant has an unpaid bill to another provider and requests Carrier service, Carrier may consider the unpaid bill as part of the determination as to the requirements to establish creditworthiness. (N)
I
(N)

Carrier may furnish credit information, acquired from Carrier's own experiences with Customer, to consumer reporting agencies within the meaning of the Federal Fair Credit Reporting Act. Carrier will follow all requirements that consumer reporting agencies must follow in issuing credit reports within the meaning of the Federal Fair Credit Reporting Act.

Upon payment by Customer of all past due toll debt to Carrier, Carrier will notify Customer's local carrier that the block can be lifted and all 1+ dialing capabilities, including 10-XXX, will be restored.

SECTION 3 - DESCRIPTION OF SERVICE**3.1 Availability of Service**

Carrier offers resold interexchange telecommunications service to any person or company who desires to be a Customer, subject to the terms and conditions of this Tariff. Service is available 24 hours per day, seven days per week.

3.2 Service Limitations - Prepaid and Postpaid Calling Service

- 3.2.1 Calls to 700, 800, 888, 900, 950, or 976 numbers and calls to Directory Assistance shall not be completed using the service.
- 3.2.2 When placing a call, the prepaid card must have a sufficient balance to make a completed call. At the beginning of each call, an announcement will indicate the balance available on the prepaid card. (C)
- 3.2.3 Customers shall be given notice one minute before the available account balance is depleted based upon the applicable rates for the call in progress. When the balance of available time is depleted, the call shall be terminated.
- 3.2.4 Prepaid calling accounts shall expire as specified in Section 3.5.

3.3 Timing of Calls For Prepaid and Postpaid Calling Service

- 3.3.1 Usage sensitive charges are based on the actual usage of Carrier's network. Such charges are measured in conversation minutes or units.
- 3.3.2 Chargeable time for Customer shall begin when the called party answers, as determined by hardware answer supervision, provided that such capabilities are available from the local telephone company. If hardware answer supervision is not available, then Carrier will employ software answer supervision, and up to 60 seconds of ringing will be allowed before billing. Chargeable time for a call shall end upon disconnection by either party.
- 3.3.3 The initial billing period (minimum call duration) is one minute or one unit.

SECTION 3 - DESCRIPTION OF SERVICE (Continued)

3.3 Timing of Calls For Prepaid and Postpaid Service (Continued) (T)

- 3.3.4** Unless otherwise specified in this tariff, for billing purposes usage is measured and rounded to the next higher one minute or one unit increment after the initial period.
- 3.3.5** Carrier's equipment shall track call duration for rating purposes on a real-time basis, and the total charges for each call, including applicable taxes, shall be deducted from the available balance of the account.
- 3.3.6** No charges apply for incomplete calls. If Customer believes it has been incorrectly billed for an incomplete call, Carrier shall, upon notification, investigate the circumstances of the call and issue a credit when appropriate.

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.4 Time Periods and Service Charges**

Rates are stated in terms of Initial Periods, Additional Periods and Service Charges.

The specific rate elements used to determine the applicable charges for a call are indicated on the respective rate schedules.

3.4.1 Initial Period

Initial Period rates are for connections of one minute or any fraction thereof.

3.4.2 Additional Periods

Additional Period rates are for each additional minute or any fraction thereof that the connection continues beyond the Initial Period.

3.4.3 Customer Dialed Direct Station-to-Station

Only Initial Period and Additional Period rates apply.

3.4.4 Customer Dialed Calling Card Station-to-Station, Operator Assisted Station-to-Station, Operator Assisted Calling Card, Person-to-Person

Initial Period and Additional Period rates apply in addition to Service Charges, if applicable.

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.4 Time Periods and Service Charges (Continued)****3.4.5 Service Charges and Surcharges**

A Service Charge applies to each Customer Dialed Calling Card Station-to-Station, Operator Assisted Station-to-Station or Person-to-Person call. This charge is added to the Initial Period and Additional Period charges.

The Service Charges, as specified in Section 4.5 of this tariff, will be applicable to all Customers except those exempted, as specified in Section 3.5.4A.3.. There are no Rate Period discounts applicable to the Service Charges.

A surcharge, as specified in 4.5, will be assessed to all non-coin calls made from a payphone to compensate the payphone service provider, pursuant to FCC Ruling CC Docket 96-128.

3.4.6 Chargeable Time

Chargeable time for all Station-to-Station calls begins when connection is established between the calling station and the called station and ends when the calling station hangs up, thereby releasing the network connection. If the called station hangs up but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the network or by an Operator.

Chargeable time for Person-to-Person calls begins when connection is established between the calling person and the particular person or station specified or an agreed alternate and ends when the calling station hangs up, thereby releasing the network connection. If the called station hangs up but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the network or by an Operator.

Peak/Off-Peak times are specified in Section 4.4 of this tariff based upon the time in the originating location.

Federal, state and local taxes and related surcharges and fees are added to the service where applicable. The price per minute and applicable surcharge will be prominently displayed on the calling card or accompanying material. The Distributor II Prepaid Calling Service account shall expire six months after the date of first use unless a specific date is stated on the back of the card or accompanying material. This service may be offered in conjunction with Carrier's International Distributor II Prepaid Calling Service.

Rates are found in Section 4.2.20.

T. Co-Branded Retail Prepaid Calling Service

Co-Branded Retail Prepaid Calling Service allows retail Customers to originate domestic outbound, direct dial long distance calls via a toll free access number. Customers will be able to originate calls from the coterminous United States, Alaska, Hawaii and the U.S. Territories, as well as 72 other countries. Calls are rated on a flat rate (not time-of-day or distance sensitive) basis, and are rounded to the next higher full minute. A connection fee may be assessed at the beginning of each completed call, where applicable. A maintenance fee may be deducted at the end of the first call and every week thereafter. In addition, a payphone surcharge will be assessed, where applicable, on calls made from a public payphone. The price per minute and applicable surcharge will be prominently displayed on the calling card or accompanying material. The Co-Branded Retail Prepaid Calling Service account shall expire six or 12 months after the date of first use unless a specific date is stated on the back of the card or accompanying material. The expiration policy will be printed on the back of the card. This service may be offered in conjunction with Carrier's Interstate and international Co-Branded Retail Prepaid Calling Service. (T)

Rates are found in Section 4.2.21.

U. 1-800 Use the VZ Service (T)

1-800 Use the VZ Service allows Customer to use Carrier's toll free dial-around service by using a Carrier provided 800 number. This service provides multilingual language access and may be used from payphones or any location. Charges may be billed in one of the following methods: calling card, collect, billed-to-third number, person-to-person, or most commercial credit cards. Service is available 24 hours a day, seven days a week. (T)

To access 1-800 Use the VZ Service, Customer must: (T)

- Dial the 800 number,
- Choose desired language (English, Spanish or live operator has access to 12+ dialects),
- Inform automated or live operator of destination number and payment method, call is completed.

Rates are found in Section 4.2.22.

(N)

3.5 Service Offerings (Continued)**3.5.1 Prepaid and Postpaid Calling Service (Continued)****V. Postpaid Conference Service****1. General**

Postpaid Conference Service is available to Customers who access Carrier's network by dialing a Carrier provided toll free number. Upon Customer request, Carrier will establish an account and issue valid PINs. Conferences may be set-up at any time or in the more traditional "Meet Me" (scheduled) mode. All instruction commands to add participants by name and telephone number are accepted by advanced voice recognition technology and recorded for automatic conference set-up. Additional conference calling management options are available through a website for authorized Customers.

Customer accounts will be set up with three PINS: moderator, participant, and web account management. Conference Services are available 24 hours a day, seven days a week where facilities and systems permit.

This service provides domestic origination and termination for all services. International origination and termination for all services is available for select foreign countries. This service is an add-on to Carrier's Interstate offering found in Federal Rate Schedule 1. International services are found in Federal Rate Schedule 2 located on Carrier's website at www.verizon.com/tariffs.

Rates are found in Section 4.2.23.

2. Description of Service

Customer subscribing to the service has access to a specified number of conferencing ports and are available at any time. Customer simply uses a pre-assigned, customer-specific dial-in telephone number and enters their passcode.

Customer must notify participants that a conference call has been scheduled, and provide them with the access number and passcode. Participants are placed on hold until Customer arrives and starts the conference call. Once Customer arrives, participants on hold are notified and then placed into the conference. Service options and enhancements are available at no charge.

- Announcements for Entry and Exit - The system will sound a tone when participants enter or exit a conference.
- Customer Controlled Options - Allows Customer to change their PIN and establish roll call options.
- Attendant Request - Assistance for private or group consultation upon Customer request.
- Conference Lock/Unlock - Allows Customer to lock a conference once all participants are present to keep the conference private.
- Mute/Unmute - Customer can mute or unmute all lines in the conference except for Customer's line. Participants can mute or unmute their own lines to help control distractions and interruptions.
- Participant Count - System automatically tracks the number of participants on a conference and announces the count privately to Customer or participant requesting information.

4. Application of Rates and Charges

As part of the conference set-up, Customer is requested to enter a valid PIN to whose account a per-minute, per-leg and set-up charges will be billed. Set-up charges include any private labels Customer may request. Carrier will accept the preferred account number for billing after validation of Carrier database.

Charges for each leg of the conference begins when Customer number answers. On a "Meet Me" conference call, charges begin when Customer's dial-in call is answered by the conference bridge. Charges for each leg ceases when either Customer hangs up or when the last participant hangs up.

(N)

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.5 Service Offerings (Continued)****3.5.2 Long Distance Message Telecommunications Service**

For the purpose of rate application, one of the following classes of Service may apply to a given call:

Customer Dialed Direct Station-to-Station
Operator Assisted Station-to-Station
Customer Dialed Calling Card Station-to-Station
Operator Assisted Calling Card Station-to-Station
Person-to-Person

Carrier may refuse to accept Calling Cards for which validation is not received from the issuing carrier.

Collect Calls are permissible between all stations except that the Collect Call option is not available for calls to a public or semi-public coin station.

A. Customer Dialed Direct Station-to-Station

The Customer Dialed Direct Station-to-Station class of Service applies:

1. when the person originating the call dials the telephone number desired without the assistance of an Operator and the call is billed to the calling station. It does not include calls from public or semi-public coin telephones, or
2. should equipment capability preclude 1. above, and the caller dials the Operator who places a Station-to-Station call in which the call is billed to the calling station.

B. Operator Assisted Station-to-Station

The Operator Assisted Station-to-Station class of Service applies when calls are completed with the assistance of an Operator.

Operator transfer service provides call transfer of 0-calls, dialed by the customer, to Carrier's operator. The transfer will only be completed by the local exchange carrier's operator upon the request of the customer. If Carrier's operator then completes a call for the customer, a surcharge per call will be assessed at the Operator Assisted Station-to-Station or Person-to-Person Rates in Section 4.5. This service is offered where technically feasible.

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.5 Service Offerings (Continued)****3.5.2 Long Distance Message Telecommunications Service (Continued)****C. Customer Dialed Calling Card Station-to-Station Service (T)**

The Customer Dialed Calling Card Station-to-Station Service applies when the person originating the call: (T)

1. dial the Carrier provided 800 number; (C)
2. at voice prompt:
 - enter personal 14 digit calling card number;
 - enter area code and number Customer wishes to call, or
 - for international calls, dial 011 + country code + city code + phone number;
3. for incorrect dialed calls, press ### and redial; or
4. press 0 to speak with a Customer Service Representative. (C)

D. Operator Assisted Calling Card Station-to-Station Service (T)

The Operator Assisted Calling Card Station-to-Station Service provides for the person originating the call to dial the Carrier provided 800 number, press 0 to speak to an Operator, and place a calling card station-to-station call. (T)
(C)
(C)

If the call originator requests Carrier's operator to complete a call when equipment the caller is using allows customer-dialed calls, a per call surcharge will be assessed at operator assisted calling card call completion rates found in Section 4.5.

Call completion charges will not apply for the hearing and speech impaired or where equipment does not allow customer-dialed calls.

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.5 Service Offerings (Continued)****3.5.2 Long Distance Message Telecommunications Service (Continued)****E. Person-to-Person**

The Person-to-Person class of Service applies when the person originating the call specifies the particular party to be reached by an Operator. Carrier does not undertake to bring a called party to a station who cannot be readily reached at the called station. That party may be:

1. a person.
2. a mobile station through miscellaneous Common Carrier attendant.
3. a station, department, or office through a PBX attendant.

After the called station has been reached, if the calling party requests or agrees to speak to a party other than the party initially specified, the call is still classified as Person-to-Person. The calling party is responsible for identifying the party at the called station.

Person-to-Person also applies when the call originator requests an Operator to make arrangements with a called party to establish a call at a specified time.

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.5 Service Offerings (Continued)****3.5.3 Reversal of Charges (Collect) Calling Card or Bill to Third Number Service**

Operator Assisted Station-to-Station or Person-to-Person calls will be billed in one of the following ways:

- A. Collect - call is billed to the called station;
- B. Calling Card - call is billed to a calling card;
- C. Third Number - call is billed to a third number.

The regularly established Operator Assisted Station-to-Station or Person-to-Person rates apply.

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.5 Service Offerings (Continued)****3.5.4 Directory Assistance Service**

Directory Assistance Service provides Customers assistance in determining telephone numbers. The per call rate for Directory Assistance is that set forth in Section 4.6 of this tariff.

A. Regulations

1. Direct dialed Directory Assistance Service calls are dialed by the Customer and completed without the assistance of an Operator. The services of an Operator are not to be used in connection with the completing of direct dialed Directory Assistance Service calls except in the following cases:
 - (a) To reach the called Directory Assistance Service number where direct dialing facilities are not available.
 - (b) To reach the called Directory Assistance Service number when attempts by the Customer to direct dial such a call cannot be completed.
 - (c) To only record the originating telephone number where no automatic recording equipment is available.
2. Customers placing a call to Directory Assistance may obtain the telephone number for a maximum of two listings per call. The Directory Assistance Charge applies whether or not the Directory Assistance bureau furnishes the requested telephone number(s) (e.g., where the requested telephone number is unlisted, non-published or no record can be found).

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.5 Service Offerings (Continued)****3.5.4 Directory Assistance Service (Continued)****A. Regulations (Continued)**

3. Charges for Directory Assistance Service are not applicable to handicapped Customers on calls placed from residence dial tone lines where a member of the Customer's household has been certified by a registered physician or a designated agency as unable to use a directory because of a visual or physical handicap, or from the business dial tone line of a certified handicapped Customer where assistance is otherwise not available.
4. Calls placed to Directory Assistance via an Operator, instead of direct dialed by the Customer, will be assessed an Operator Assisted Service Charge in addition to the Directory Assistance Per Call charge. This charge is billed at the Operator Assisted Service Charge rate as specified in Section 4.6 of this tariff.

B. Limitations

1. Carrier assumes no responsibility or liability for any errors in the information furnished. The caller shall indemnify Carrier and hold it free and harmless of and from any and all claims, demands or damages that shall arise from the use of the Service.
2. This Service is furnished solely for the telephone calling purposes of the caller.

C. Directory Assistance Call Completion Service

Directory Assistance Call Completion (DACC) service provides Customers with the option of having the call completed after they have received the requested telephone number from Directory Assistance. When multiple numbers are requested, only the last call can be completed. In addition to the normal Directory Assistance service charge, DACC usage charges apply. Rates for this service are located in Section 4.6.

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.5 Service Offerings (Continued)****3.5.5 Voice Intelligent Network - Enhanced Toll Free Service**

(T)

A. General

(N)

Voice Intelligent Network - Enhanced Toll Free (VIN-E800) Service allows a single, toll free number to terminate at multiple locations or service groups determined by a customized routing set. The toll free number may be terminated at a switched, dedicated or a combination of both locations. This service allows Customer to maintain a controlled call volume while providing various transfer features and other options including enhanced routing and interactive voice response. This service may be sold as a standalone product. Service is available where facilities and conditions permit.

Rates are found in Section 4.7.

B. Restrictions

Service provided over Wide Area Telephone Service (WATS) lines, mobile service, payphone lines, residential lines, and lines with handicap discounts are not eligible for this plan.

When a term commitment expires, Customer will have 30 days to select another Carrier service plan. If Customer fails to notify Carrier within this time frame, Carrier will place Customer at the intrastate/interstate minute of use rate listed in this Tariff. Customer must sign a contract to qualify for the discount plan. The feature charges will remain the same. The new rates will be effective on the first of the month following a 30-day grace period. When Customer disconnects this service, Message Referral is provided for the first four months at no charge. Referral beyond four months is not available.

C. Scope

1. This Rate Schedule is applicable, subject to availability of facilities, where Customer desires to employ Carrier VIN-E800 service within the conterminous United States, Guam, Puerto Rico, Mariana Islands, and U.S. Virgin Islands.
2. Responsible Organization (Resp Org): Underlying carrier will perform the function of Resp Org, which includes: a) search for and reservation of toll free numbers in the SMS/800; b) creating and maintaining the toll free number Customer record in the SMS/800; and c) provision of a single point of contact for trouble reporting.

(N)

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.5 Service Offerings (Continued)****3.5.5 Voice Intelligent Network - Enhanced Toll Free Service (Continued)**

(T)

D. Rating of Calls

(N)

Domestic calls will be sub-minute rated based on an initial period of 18 seconds, with the additional periods being billed in six-second increments thereafter.

E. Rate Determination

Customer's fixed rates are calculated by determining Customer's annual dollar commitment and the term of the agreement selected by Customer. Customer must select a one, two, or three-year term commitment and annual commitment levels of \$120,000, \$240,000, \$360,000, \$480,000, \$720,000, or \$960,000.

F. Minimum Revenue Commitment

If Customer does not achieve the annual commitment level, they will be assessed the incremental difference annually. For example, if Customer commits to \$240,000 annually and the actual long distance usage is \$200,000, then Customer will be billed for the \$40,000 shortfall. In addition, the current rates will be re-negotiated based on the new adjusted commitment level.

G. Early Termination Charges

If Customer terminates the contract prior to fulfillment of the term selected, an Early Termination Charge (ETC) of 40% of Customer's annual commitment will be billed to Customer for the number of years remaining under Customer-selected commitment.

Customer will not be liable for termination charges for a specified service if a new service of the same type and of equal or greater charges is ordered, and the order is received by Carrier during the same calendar year in which the original service is discontinued by Customer, provided the expiration date of the contract plan for the new service is on or after the expiration date of the terminated plan.

(N)

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.5 Service Offerings (Continued)****3.5.5 Voice Intelligent Network - Enhanced Toll Free Service (Continued)****H. Local Access Facilities**

Carrier will set up local access arrangements on behalf of Customer as requested for the Enhanced Toll Free services purchased. Any charges associated with the provisioning of the access circuits, including but not limited to, local access charges, coordination charges, access service order charges, or any other charge associated with gaining access from Customer premise to the Point-of-Presence (POP) will be considered access charges. This includes any Nonrecurring Charge (NRC) incurred in association with obtaining access regardless of the contract term. Any special construction or non-standard charges assessed by the company supplying the local access will also be the responsibility of Customer. Any such access charge as described above will be passed through to Customer in accordance with Carrier agreement.

I. Add-On Service

International service is an add-on to Carrier's interstate plan and will utilize rates for Enterprise Connections Service as defined in Carrier's International Rate Schedule 2. (T)
(T)

J. Enhanced Routing Features

Enhanced Routing provides routing and control features which Customer may utilize by VIN-E800 service. The routing features may be combined to create a customized routing plan for each Enhanced Routing number. Command Routing can be utilized to activate alternate routing plans by placing a call to designated Carrier personnel. The following are types of Enhanced Routing available to Customers:

1. Area Code Control

Area Code Control allows Customer to route calls placed on the same toll free number to differing terminating locations, can be switched or dedicated, based on the originating area code of the caller, and allows Customer to allow or block calls to a toll free number based on the originating area of the caller.

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.5 Service Offerings (Continued)****3.5.5 Voice Intelligent Network - Enhanced Toll Free Service (Continued) (T)****J. Enhanced Routing Features (Continued) (N)****2. Area Code Routing**

Area Code Routing enables Customer to have calls placed on the same toll free number routed differently based upon the originating area code of the caller.

A default routing is required for Area Code Routing. Permissible area codes include all area codes in the conterminous United States.

Upon request, Carrier will update a subscriber's Area Code Routing feature at no charge if the update is due to an area code split or a new area code being added to the North American Numbering Plan.

The proper usage rate based on point of call origination will be applied to each call.

3. Area Code/Exchange Control

Area Code/Exchange Control allows Customer to route calls placed on the same toll free number to different termination locations, can be switched or dedicated, based on the originating area code and exchange of the caller and allows Customer to block calls to a toll free number based on the originating area code and exchange of the caller.

4. Area Code/Exchange Routing

Area Code/Exchange Routing enables Customers to have calls placed on the same toll free number routed differently based upon the originating area code and exchange of the caller. Exchanges cannot be divided for routing purposes. This feature requires the Area Code Routing feature to identify the area codes and is not to be used as a stand-alone feature.

Default routing is required for Area Code/Exchange Routing. Customer will specify a separate routing for non-equal access calls when Automatic Number Identification (ANI) is not available. (N)

(N)

4. Area Code/Exchange Routing (Continued)

Permissible area codes include all area codes or exchanges in the conterminous United States, Guam, Puerto Rico, Mariana Islands, and U.S. Virgin Islands.

5. Time of Day Routing

Time of Day Routing allows Customer to have calls placed on the same toll free number routed to different locations during various times of the day.

Time of Day Routing will follow the national observance of daylight savings time.

The day may be divided into 15-minute increments, with up to 96 time intervals per 24-hour period. All time intervals must begin on the quarter clock hour.

Customer's time of day schedule must include the entire 24-hour day.

6. Day of Week Routing

Day of Week Routing permits Customer to have calls placed on the same toll free number routed to different locations based upon the day of the week. Day of Week Routing will follow the national observance of daylight savings time.

7. Day of the Year Routing

Day of the Year Routing allows Customer to have calls to the same toll free number routed to different locations on specified days of the year. Dates are stored in a month/day format. Customer must revise Day of the Year (N) Routing schedules annually.

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.5 Service Offerings (Continued)****3.5.5 Voice Intelligent Network - Enhanced Toll Free Service (Continued)****J. Enhanced Routing Features (Continued)****8. Call Allocation**

Call Allocation permits Customer to define routing of calls placed on the same toll free number on a percentage basis so that calls can be allocated to multiple locations. Percentages must be defined in whole numbers, with one percent as the smallest allocation percentage to any location. The total of all percentage allocations must be 100%.

9. Command Routing

Command Routing allows Customer to activate a different Enhanced Routing plan on command by placing a call to Carrier.

Customer may define up to 99 separate routing plans per toll free number.

Routing plans must be loaded in Carrier's network before they are available for activation on command.

Customer must have a minimum of two routing plans to be able to utilize this feature.

Command Routing charges do not apply if Customer uses the normal service order process to activate routing plans.

10. Dialed Number Identification Service (DNIS) - Is designed for applications where multiple toll free numbers must terminate over a single service group. The terminating switch outpulses up to 10 digits so the toll free number dialed can be identified. (C)

11. In-Band Real Time ANI Delivery - Delivers the originating phone number to the service agent as part of call set-up, thus giving the agent information about his or her caller either as the call is received or just before. In-Band is available with existing T-1 or DAL facilities. In equal access areas, 10 digits are provided. In non-equal areas, only the area code is provided. (N)

(N)

12. Out-Of-Band Real Time ANI Delivery - Delivers the originating phone number to the service agent as part of call set-up, thus giving the agent information about his or her caller either as the call is received or just before. Out-Of-Band is available with ISDN Service. In equal access areas, 10 digits are provided. In non-equal areas, only the area code is provided.

(N)

K. Interactive Toll Free Features

Interactive Toll Free (IVR) allows callers to access information in Customers computer database and to receive that information using an ordinary touch-tone phone. This system also enables callers to execute certain transactions without the intervention of customer service personnel. This feature can be expedited.

(T)

(T)

1. Call Referral

(T)

Call Referral transfers a call by connecting the caller to Customer's CPE. The call is routed based on caller-entered digits or by rotary default. Default routing, generally to a specified Customer location, must be specified or a generic default message will be played.

(T)

2. Busy/Ring-No-Answer Treatment

Busy/Ring-No-Answer allows Customer to specify how the call is to be routed if the Call Referral location is busy or does not answer. Different routing may be specified for a busy condition rather than for a Ring-No-Answer condition. The following routing treatments are available:

- (a) Attempt to complete the call to the same location,
- (b) Return to any point in the previous menu,
- (c) Route to new menu, and
- (d) Complete the call to a different location without any menu interaction.

Material omitted from this page now appears on Page 46.2.

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.5 Service Offerings (Continued)****3.5.5 Voice Intelligent Network - Enhanced Toll Free Service (Continued)****K. Interactive Toll Free Features (Continued)****3. Database Routing (T)**

Database Routing is used to specify routing based on either the digits a caller enters on the keypad or the caller's ANI.

4. Back to Menu (T)

Back to Menu returns the caller back to the menu or message announcement for further routing.

5. Caller Transfer (T)

Caller Transfer provides routing based on the digits entered by the caller to another toll free number.

6. Menu/Message Replay (T)

Menu/Message Replay allows the caller to return to a previous menu or announcement. The call may then be routed as appropriate.

7. Agent Transfer (T)

Agent Transfer allows the recipient of an Agent Transfer, who is eligible for Call Referral, to transfer a call to a Carrier toll free number. (M)
(M)

(a) Direct Transfer (N)

(Blind Transfer) Agent transfers a caller to an alternate destination without verifying answer supervision

(b) Two-way Agent Transfer

(Three-way Conference) Agent transfers a caller to an alternate destination, announces the call, and establishes a three-way conference with the caller and the secondary agent.

Agent Transfer is ordered as either two-way or three-way. Two-way permits an agent to perform only direct, and consult and transfer. Three-way permits an agent to perform direct, consult and transfer, and three-way conferences.

(N)

8. Security Codes

(T)

Security Codes allows Customer to provide a list of valid codes, which can be used to allow or deny a caller access to any routing.

(M)

how callers are using the application.)**

1. **Management Reports** - Provides information on call counts and call
transfer statistics. These reports provide a means for Customer to
measure the effectiveness of their application and manage resources.
Reports should be used to gauge caller activity, not for billing purposes.
Reports are available in standard format and include Call Referral Reports
and Agenda Transfer Reports.

2. **Marketing Reports** - Provides insight on caller responses within the course of an interactive call. These reports provide information about how callers use the application and provide a means for capturing caller touch-tone and Voice Recognition responses. Reports should be used to gauge caller activity, not for billing reconciliation. Reports are available in standard formats and include the Menu Count Report, Code Report, Survey Report, Daily Program Summary Report, and Hourly Program Summary Report.

3. **Raw Data Reports** - Available to Customers wanting to import call data into another source for manipulation (such as a spreadsheet) or into their internal information system. The data will be provided as a text file in a space, comma, or quote-delimited string.

M. **Other Reports** (These reports will provide information about the usage of the toll free number, including the volume of calls, call duration, and how a call is handled after it has gone through the IVR part of the enhanced routing system.)

1. **Near Real Time Call Detail Record Tool** - Provides information about the usage of toll free numbers. Reports can be created on the completion of calls, calling patterns and statistics including volume of calls, call duration and originating ANIs. CDRs are reported in GMT, also referred to as "Zulu" time.

2. **Non-Summarized CDRs** - "Raw" CDRs data includes originating date and time, originating calling number, call duration, call completion code, dialed number, translation number, information digits, final switch and trunk ID, treatment code and call status category (Call Completed, Dedicated Access Line (DAL) Busy, Ring No Answer (RNA), Abandoned, Busy/Blocked and other Incomplete).

3. **Status Code Summary Report** - Summarizes all calls that are presented, including (The total number of calls is also reported as percentages of the total for each category.): completed calls; calls that are busy at the DAL; calls that have been abandoned; calls that have received RNA; calls that were busy or blocked at the switch.
4. **Call Duration Summary Report** - Reflects completed calls only.
5. **NPA-NXX Report** - Reflects completed calls only; every NPA-NXX from which calls originate during the requested reporting period.
6. **Area Code (NPA) Report** - Reflects completed calls only; each NPA from which calls originate during the requested reporting period.
7. **Call Summary by Hour** - Reflects completed calls only; each NPA from which calls originate during the requested reporting period. These calls are shown in one-hour increments for a complete 24-hour period.

N. Additional Terms and Conditions of Service**1. Moves, Additions and Changes to Service**

Customer will incur a change charge for moving, adding, or changing service or features. This feature change charge will also be applied when Customer requests any logic change to the IVR program. Logic changes include, but are not limited to: adding or deleting a call referral, changing the rotary/time out instructions, changing message order, changing back to menu treatment, adding call entered codes (validated or unvalidated) or changing the caller entered codes from validated to unvalidated or vice versa, and adding, deleting, or changing a decision point. (N)

SECTION 4 - RATES AND CHARGES (Continued)**4.8 Frame Relay III Service**

This service is no longer available to new Customers.

(C)

Unless otherwise noted, the following rates and charges will remain in effect for the full term of Customer's contract.

A. Local Access Facilities

Carrier will setup access arrangements on behalf of Customer when full service Frame Relay III Service is purchased.

Access facilities arranged by Carrier will be billed to Customer at Carrier's costs. Any special construction or non-standard charges assessed by the company supplying the local access, or by the underlying provider connecting to the access provider, will also be the responsibility of Customer.

B. Port

Charges include a Nonrecurring Charge (NRC) and a Monthly Recurring Charge (MRC) based on the speed of the port connection (i.e., 56 Kbps to 1.544 Mbps). Charges apply per port for each frame relay access facility to the network supporting Frame Relay Service. Each port can accommodate multiple Permanent Virtual Circuits (PVCs). A port added to the network after initial installation will be considered a new element and the nonrecurring and monthly charges will both apply.

D. Virtual Network-to-Network Interface (NNI) Port

For each Virtual NNI Port, a NRC and a MRC are applied per LATA, based on the Virtual NNI Port speed required. The Virtual NNI Port must be large enough to accommodate the cumulative egress of all PVCs connected to the NNI. It will be at least as large as the sum of the CIRs for all PVCs connected to it and at least as large as the largest UNI port connected to it. The Virtual NNI Port should be approximately equal to or less than one third of the aggregate of the User to Network Interface port speeds connected to it.

H. Discount Plans

Carrier offers discounts based on the term of Customer's commitment to Carrier's service. Customers may subscribe to Frame Relay III Service for term plans for one, two or three years. The Monthly Revenue Commitment will be determined by the Monthly Recurring Charges (MRCs) before discounts. Discounts apply to MRCs for ports, PVCs (UNI, NNI, management), and Virtual NNI Ports. Discounts do not apply to local access facilities, NRCs, or expedite fees. (C)

For any term plan, the rates and term plan discounts will be fixed for the term at the discounts listed in this section, applicable when Customer subscribes to the service. The term will begin on the In-service date for the first circuit in the network.

NRC Waiver

For Customers who commit to a two or more year term, Carrier may waive NRCs for the ports, PVCs (UNI, NNI, management), Virtual NNI Ports, and/or standard local access facilities elements. The expedite fee will not be subject to the NRC waiver. If Customer terminates a term agreement within two years after installation of service, Customer will be assessed a pro rata amount of the credit for waived charges as well as any early termination charges per the Tariff for the applicable service.

(C)

SECTION 4 - RATES AND CHARGES (Continued)**4.8 Frame Relay III Service (Continued)****I. Contract Expiration (T)**

Upon contract expiration, the term will be automatically extended at the one-year term plan rates and discounts, unless 30 days prior to the end of the term, written notice is given to Carrier that Customer does not want an extension, or Customer subscribes to another term plan and the rates of the new term apply.

J. Additional Features (T)**Expedite Fee**

If Customer requests that an order for Frame Relay III Service be expedited, a charge of \$750.00 will apply per node.

(T)

4.9 Digital Private Line Service

(T)

This service is no longer available to new Customers.

Rates for Digital Private Line Service are based on mileage between Carrier's Points-of-Presence (POPs) and on bandwidth. Mileage calculation follows the formula in Section 2.15 above. A complete private line circuit includes the following elements.

Inter Office Channel - POP to POP transport.

Local Access Facilities - access line on both the originating and terminating ends of the circuit.

Central Office Connection - on both the originating and terminating ends of the circuit.

Access Coordination Fee (Optional) - on both the originating and terminating ends of the circuit.

4.9.1 Inter Office Channel

(T)

Charges include a NRC, a MRC, and a monthly per mile rate.

<u>Service Type</u>	<u>NRC</u>	<u>MRC</u>	<u>Per Mile Rate</u>
DS-0	\$ 100.00	\$ 305.00	\$.26
DS-1	500.00	2,900.00	3.60
DS-3	1,000.00	16,500.00	45.00

4.9.2 Local Access Facilities

(T)

Carrier will coordinate access arrangements for Customer. Access facilities arranged by Carrier will be billed to Customer at the rates found by referring to Carrier's Federal Rate Schedule 3. Any special construction or non-standard charges assessed by the company supplying the local access will also be the responsibility of Customer.

4.9.3 Central Office Connection

(T)

Central office connection charges apply on both the originating and terminating ends of a circuit, and are determined based on the type of access interconnected. The central office connection charge includes both a NRC and a MRC.

<u>Service Type</u>	<u>NRC (per end)</u>	<u>MRC (per end)</u>

4.9.5 Discount Plans

Carrier offers discounts based on the term of Customer's commitment to Carrier's service and based on Customer's total MRC volume of services ordered. To determine the applicable discount, add the monthly recurring charges (both fixed and mileage sensitive) for the inter office channel portion of all circuits ordered by Customer. Then, (T) see the following tables to determine the minimum monthly revenue commitment level for Customer. Depending on the length of the term Customer has selected, the (T) percentage discount will be applied to the inter office channel charges, by circuit type. For example, if Customer orders a DS-1 and a DS-3, totaling \$19,000 in monthly (T) recurring charges, for a one-year term, the discount on the inter office channel portion of the DS-1 circuit will be 34%, and the discount on the inter office channel portion of the DS-3 will be 13%.

Direct Line Service includes the following rate elements.

(M)

A. Inter Office Transport

NRC - There are no Nonrecurring Charges (NRC) associated with this service.

MRC - Charges include a Monthly Recurring Charge (MRC) outlined on the table below on a rate per DS-0 mile basis. The number of DS-0 channels in any given circuit determines DS-0 mileage.

1. Monthly Recurring Inter Office Transport Pricing for Protected Ring Service

<u>Tier</u>	<u>Protected Ring Service</u>	<u>5-Year Term Price</u>	<u>3-Year Term Price</u>	<u>2-Year Term Price</u>	<u>1-Year Term Price</u>	<u>Month-to- Month term Pricing*</u>

Tier 7	OC-48	.016	.019	.022	.022	.031

* Month to Month pricing is only available at the end of a contract term.

- The pricing in the above table is representative of dollar per DS-0 mile rates.
- The number of DS-0 channels in any given circuit determines DS-0 mileage.
- There is a minimum inter-office transport mileage requirement of 200 miles per circuit. Any circuit with mileage under 200 miles will be raised to meet the 200 mile minimum.
- For pricing purposes (3) DS-3 circuits will equate to 155 Mbps (OC-3).
- For pricing purposes (4) DS-3 circuits will equate to 200 Mbps (155 Mbps + 45 Mbps).
- For pricing purposes pricing will be based on an aggregate bandwidth.
- Bandwidth can only be aggregated through Tier 6. Example: (20) OC-12 circuits would be priced in Tier 6.
- OC-48 pricing is stand-alone and cannot be comprised of aggregated bandwidth. OC-48 pricing is not eligible for the Multi-Circuit/Multi-Term volume discount and does not count towards the Minimum Monthly Recurring Charge (MMRC).

Example: Customer purchases three DS-3 circuits and one OC-3 circuit. The aggregate bandwidth for the DS-3s would be 155 Mbps (per note above) plus the OC-3 bandwidth of 155 Mbps for a total bandwidth of 310 Mbps. This configuration would fall into the Tier 3 pricing structure.

SECTION 4 - RATES AND CHARGES (Continued)**4.15 Direct Line Service (Continued)**

(T)

B. Local Access Charges

(M)

Carrier will set up local access arrangements on behalf of Customer as requested for the Direct Line Service purchased. Any charges associated with the provisioning of the access circuits, including but not limited to, local access charges, coordination charges, access service order charges, or any other charge associated with gaining access from Customer premise to the Point-of-Presence (POP) will be considered access charges. This includes any NRCs incurred in association with obtaining access regardless of contract term. Any special construction or non-standard charges assessed by the company supplying the local access will also be the responsibility of Customer. Any such access charge as described above will be the responsibility of Customer.

C. Additional Facility Charges

Back-haul charges and tail circuit charges will also apply when Customer requests service to any location where the Direct Line POP cannot support the requested type of service. Any charges associated with provisions of such additional facilities, including but not limited to back-haul, tail circuits, or any other charges associated with transition to/from non-listed cities will be considered additional facilities charges. This includes any NRC incurred regardless of contract terms. Any special construction or non-standard charges assessed by the company supplying additional facilities will also be the responsibility of Customer. Any such charge as described above will be the responsibility of Customer.

D. Multi-Circuit/Multi-Term Discount Plan

Carrier offers discounts based on the term of Customer's commitment to Carrier's service, quantity of Direct Line Service circuits purchased by Customer on a given contract, and on Customer's total inter office transport MRC for Direct Line services.

The Multi-Circuit/Multi-Term Discount Plan will be applied only to the monthly recurring inter office transport charge for Direct Line Service circuits as described above. It does not apply to any other rate elements. Further, this discount only applies to the current contract and does not apply to any existing circuits purchased on prior contracts or any proposed future circuits not ordered at the time of contract signing. Discounts apply per contract and are not cumulative.

SECTION 4 - RATES AND CHARGES (Continued)**4.15 Direct Line Service (Continued)**

(T)

D. Multi-Circuit/Multi-term Discount Plan (Continued)

(M)

Eligibility for this discount plan requires all of the following conditions: contract term must be three or five years and must include three or more Direct Line Service circuits as described above. In addition, the MMRC for the inter-office transport must be \$60,000 or greater, comprised of DS-3 through OC-12 Direct Line Service circuits.

Customer contracts meeting all of the above requirements are entitled to a discount of 10% on five-year contracts and five percent on three-year contracts.

No other promotions or discounts apply to Direct Line Service with the exception of Competitive Response Promotion, found in Carrier's Federal Rate Schedule 3.

E. Expedite Fees

Carrier will charge Customer an expedite fee on a per order basis.

<u>Bandwidth</u>	<u>New Orders</u>	<u>Change Orders</u>
DS3	\$1,500	\$1,000

SECTION 4 - RATES AND CHARGES (Continued)**4.16 One Wide Area Network (One WAN) Service**

One WAN Service includes the following rate elements. The pricing elements for Options 1 and 2 (C) outlined in this Tariff are mutually exclusive. Customer must price their entire network via Option 1, Option 2 or a combination of Options 3 and 4. (C)

A. Option 1**1. Access (C)**

For UNI ports, Carrier will set up access arrangements on behalf of Customer for the (C) One WAN Service purchased. Any charges associated with the provisioning of the access circuits, including but not limited to, local access charges, coordination charges, access service order charges, or any other charge associated with gaining access from Customer premise to the Point-of-Presence (POP) will be considered "Access Charges". This includes a Nonrecurring Charge (NRC) incurred in association with obtaining access regardless of contract term. Any special construction or non-standard charges assessed by Company supplying the local access will also be the responsibility of Customer. Any such access charge as described above will be billed directly to Customer. (C)

2. UNI Port (C)

UNI port charges are subject to the speed of the port selected. A NRC and a Monthly (C) Recurring Charge (MRC), based on the speed of the port connection, apply per port for each access circuit connection to the network supporting this service. Each port can accommodate multiple Permanent Virtual Connections (PVCs). (C)

<u>Rate Element</u>	<u>NRC</u> <u>(\$/port)</u>	<u>MRC</u> <u>(\$/port)</u>	
DS-3	\$ 3,000	\$ 5,000	
OC-3c	4,000 (R)	14,000	
OC-12c	5,000 (R)	42,000	
OC-48c	10,000	80,000	(N)

NRCs are waived for contract terms of one year or more. (N)

SECTION 4 - RATES AND CHARGES (Continued)**4.16 One Wide Area Network (One WAN) Service (Continued)****A. Option 1 (Continued)****3. Permanent Virtual Connections**

The Permanent Virtual Channel Connection (PVCC) and Permanent Virtual Path Connection (PVPC) monthly charges are subject to the class of service parameters (C) and the transmission speed selected. The transmission speed selected for Constant Bit Rate (CBR), Variable Bit Rate-real time (VBR-rt) and Unspecified Bit Rate (UBR) is defined by Peak Cell Rate (PCR). The transmission speed selected for Variable Bit Rate-non real time (VBR-nrt) is Sustained Cell Rate (SCR). (C)

The transmission speed charges as outlined following are in 64 Kbps increments from (C) 64 to 1984 Kbps and 1 Mbps increments from 2 to 622 Mbps. (C)

B. Option 2

(M)

1. Local Access

Carrier will setup access arrangements on behalf of Customer when full service One WAN Service is purchased. Access facilities arranged by Carrier will be billed to Customer at the rates of the underlying carrier, (excluding any discounts and promotions run by carrier). Carrier will add a discount of 31% on DS-1 access only for MRCs. This discount will apply for each DS-1 access required. Any special construction or non-standard charges assessed by the company supplying the local access, or by the underlying provider connecting to the access provider, will also be the responsibility of Customer. Furthermore, if NxDS-1 access is required, Carrier will supply the necessary equipment at a charge to be determined on a case by case basis and subject to Customer's specific network configuration.

NxDS-1	Waived	31% discount off underlying carrier rates
DS-3	Up to \$4,000 credit	ICB
OC-3	Up to \$6,000 credit	ICB

2. Port

Port charges are subject to the speed of the port selected. A NRC and a MRC, based on the speed of the port connection, apply per port for each access circuit connection to the network supporting this service. Each port can accommodate multiple PVCs. The NRCs will be waived for two years or more contracts. (M)

3. Permanent Virtual Connections

The PVCC and PVPC monthly charges are subject to the selected class of service parameters and the transmission speed selected. The transmission speed selected for CBR is defined by PCR. The transmission speed selected for VBR-nrt is SCR. The monthly flat rate charge for UBR class of service parameters is the maximum charge regardless of the speed of transmission.

The transmission speed charges as outlined in the Price Matrix are \$/Mbps or \$/Kbps for these classes of service: CBR and VBR-nrt. UBR is a fixed flat rate regardless of the speed utilized. UBR price is a monthly flat rate and subject to the lower of the originating or terminating port. The transmission speeds are subject to the port speed. NRCs for permanent virtual connections PVCs will be waived for two years or more contracts.

SECTION 4 - RATES AND CHARGES (Continued)**4.17 Digital Private Line II Service**

Unless otherwise noted, the following rates and charges will remain in effect for the term of Customer's contract.

Rates for Digital Private Line II Service are based on mileage between Carrier's Points-of-Presence (POPs) and bandwidth. Mileage calculations are in Section 2.15. A "full service" (T) private line circuit includes the following elements.

Transport - interexchange carrier POP to interexchange carrier POP transport. (C)
Local Access Facilities - access line on both the originating and terminating ends of the circuit.

A. Transport (C)

Charges include a Nonrecurring Charge (NRC) and a Monthly Recurring Charge (MRC) that is either a minimum charge or a per mile rate, whichever is greater. Rates for mileage bands are based on a per circuit basis.

SECTION 4 - RATES AND CHARGES (Continued)**4.17 Digital Private Line II Service (Continued)****B. Local Access Facilities Charges**

- **Access Coordination Fee (ACF)** - Amount assessed per access circuit when Customer appoints Carrier as the single point of contact for their access. The ACF permits Carrier to recoup costs of designing and testing a circuit, generating and issuing Access Service Requests (ASRs), coordinating any other activity required to ensure timely installation. Additionally, the ACF assures Customer that Carrier will provide ongoing maintenance and trouble resolution for the life of the access arrangement.
- **Central Office Connection Fee (COC)** - Designed to recover Carrier's investment in the digital cross-connect equipment necessary to provide service, to recover costs associated with the management and maintenance of equipment and Carrier's testing, wiring, and cross-connecting of the circuit. COC fee is assessed per access circuit.

(D)

(D)

- **Local Access Facilities** - Carrier will setup access arrangements on behalf of Customer when full-service Digital Private Line II Service is purchased. Access facilities arranged by Carrier will be billed to Customer at Carrier's costs. Any special construction or non-standard charges assessed by the company supplying the local access will also be the responsibility of Customer.

Carrier must also set up access arrangements on behalf of Customer as requested for services purchased. Any charges associated with provisioning of the access service, including but not limited to, local access charges, coordination charges, access service order charges, or any other charges associated with gaining access from Customer premise to the POP will be considered "Access Charges". This includes any NRCs incurred in association with obtaining access regardless of contract term. C. Additional Discounts**Term Discount Plan**

Carrier will discount all MRCs for Digital Private Line II Service. This discount will be based on Customer's contract term. The following discounts will apply for transport only:

<u>Term Commitment</u>	<u>Discount Applied</u>
Two Year	10%
Three Year	15%

NRC Waiver

Carrier will waive all NRCs for transport and local access rates. To qualify for the NRC waiver, Customer must agree to a minimum term of two years or greater.

Expedite Charge

If Customer requests than an order for DDS 56 Kbps and DS-1 Service be expedited, a charge of \$750.00 will apply.

SECTION 4 - RATES AND CHARGES (Continued)**4.20 Frame Relay IV Service**

(T)

Unless otherwise noted, the following rates and charges will remain in effect for the full term of Customer's contract. (N)

A. Local Access Facilities

Carrier will establish access arrangements on behalf of Customer when Full Service Frame Relay IV Service is purchased.

Under the terms of the Full Service Agreement, Carrier will order access facilities. Coordination of installation, maintenance, repair, test and turn-up will be coordinated by Carrier with the company(ies) supplying the access services. Customer will be billed for the access at Carrier's costs. Any special construction or non-standard charges assessed by the company supplying the local access, or by the underlying provider connecting to the access provider, will also be the responsibility of Customer.

1. Local Access Coordination Charges

- Access Coordination Charges are applied on a per-access line basis.
- Access Coordination Charges are waived for contract terms greater than one year.

Nonrecurring Local Access Coordination Charges

DS-0	\$ 25
DS-1	50
DS-3	100

B. Low Speed Frame Relay Rate Schedules (DS-1 speed and below)**1. Low Speed National UNI Port**

Charges include a Monthly Recurring Charge (MRC) based on the speed of the port connection (i.e., 56 Kbps to 1.536 Mbps). Charges apply per UNI port for each Frame Relay access facility to the network supporting Frame Relay IV Service. Each port can accommodate multiple PVCs. A port added to the network after initial installation will be considered a new element and the total network MRC will be adjusted incrementally for that port. This interface transports data traffic to and from Customer's facilities to Carrier's network for transport to, for example, other Customer facility locations.

(N)

Charges include a MRC based on the speed of the port connection (i.e., 56 Kbps to 1.536 Mbps). Charges apply per port for each NNI Frame Relay internetwork connection supporting Frame Relay IV Service. This interface transports data traffic to and from Customer's LAN/WAN facilities or local Frame Relay network service to Carrier's interLATA interstate network for transport to, for example, other Customer facility locations.

5. Allowable CIR

The allowable CIR for any PVC is based on the lower speed of the two Frame Relay ports at either end of the PVC. This speed is termed the Line Speed. The allowable CIR for Low Speed Frame Relay is 75% of the Line Speed. For example, on a PVC with a 384 Kbps port and a 256 Kbps port, the Line Speed for determining the allowable CIR would be 256 Kbps. For this PVC, the highest allowable PVC/CIR would be 192 Kbps.

6. Maximum Burst

The Maximum Burst is the highest allowable bandwidth available on a PVC. The Maximum Burst available on a Low Speed PVC will be to the Line Speed, which is the lowest speed of the ports at either end of the PVC.

SECTION 4 - RATES AND CHARGES (Continued)**4.20 Frame Relay IV Service (Continued)**

(T)

B. Low Speed Frame Relay Rate Schedules (DS-1 speed and below) (Continued)

(N)

7. Oversubscription (Booking Factor)

Oversubscription occurs when the bandwidth of multiple PVCs are provisioned to a single port and the total of their CIR values exceeds the transmission speed for the port. The allowable Oversubscription is 300%. For example, a 64 Kbps port may have as much as 192 Kbps of PVC/CIR provisioned to that port.

For UNI ports provisioned with Oversubscription, the total available bandwidth for all PVCs is limited to the transmission speed of the port. During any given one-second interval, the total bandwidth available for CIR and Burst performance across all PVCs provisioned to a single port is limited to the capacity of the port, the port speed. Oversubscription should only be used in cases where the bursty nature of Customer's applications and simultaneous bandwidth demand permits such practice.

C. High Speed Frame Relay IV Service**1. National High Speed Frame Relay UNI Port**

Charges include a MRC based on the speed of the port connection (i.e., 4 Mbps to 44.736 Mbps). Charges apply per port for each Frame Relay access facility to the network supporting Frame Relay IV Service. Each UNI port can accommodate multiple PVCs. A port added to the network after initial installation will be considered a new element and the total network MRC will be adjusted incrementally for that port.

2. National High Speed Frame Relay NNI Port

The NNI port provided herein is not available where Customer LAN connectivity is required. When such LAN connectivity is required and facilities are available, Carrier will enter negotiations with Customer to provide an NNI port through an ICB arrangement.

(N)

4.20 Frame Relay IV Service (Continued)**C. High Speed Frame Relay IV Service (Continued)****5. Allowable CIR**

The allowable CIR for High Speed Frame Relay IV is 50% of the Line Speed. For example, on a PVC with a 6 Mbps port and a 10 Mbps port, the Line Speed for determining the allowable CIR would be 6 Mbps. For this PVC, the highest allowable PVC/CIR would be 3 Mbps.

6. Maximum Burst

For PVCs from 2 Mbps to 22 Mbps, which will always be provisioned between two High Speed Frame Relay (HSFR) ports, the Maximum Burst is 2 x CIR. For this parameter, the B_c , Committed rate, and the B_e , Excess rate, will be configured as equal variables ($CIR = B_c = B_e$, equal parameters). For example, a 4 Mbps PVC can burst to 8 Mbps and a 12 Mbps PVC can burst to 24 Mbps.

For circuits between two High Speed Frame Relay ports with Low Speed PVCs, the following burst rules apply:

- For PVCs with CIR of 1.152 Mbps or less, the Maximum Burst is 1.536 Mbps.
- For PVCs with CIR equal to 1.536 Mbps, the Maximum Burst is 2 times 1.536 Mbps.

7. Oversubscription (Booking Factor)

Oversubscription occurs when the bandwidth of multiple PVCs are provisioned to a single port and the total of their CIR values exceeds the transmission speed for the port. The allowable Oversubscription is 300%. For example, a 6 Mbps port may have as much as 18 Mbps of PVC/CIR provisioned to that port.

For UNI ports provisioned with Oversubscription, the total available bandwidth for all PVCs is limited to the transmission speed of the port. During any given one-second interval, the total bandwidth available for CIR and Burst performance across all PVCs provisioned to a single port is limited to the capacity of the port, the port speed. 4.20 Frame Relay IV Service (Continued)**D. Additional Charges****1. Expedite Fee**

Carrier may offer expedites for Frame Relay IV Service. Carrier does not guarantee a shortened installation interval will be achieved for every accepted expedite request. The expedite charge will be \$425.00 per node and will be applied to the first bill rendered for the circuit even if a shortened installation interval was not achieved.

E. Discount Plans

Carrier offers discounts based on the term of Customer's commitment to Carrier's service. Customers may subscribe to Frame Relay IV Service for term plans of one, two, three, and five years. The Monthly Revenue Commitment together with the term of the contract will determine the amount of the discount. The sum of the UNI and NNI ports, PVCs, and Access MRCs and the Expedite fees before discounts is the Monthly Revenue Commitment. Discounts do not apply to local access facilities, NRCs, or expedite fees.

For any term plan, the rates and term plan discounts will be fixed for the term of the contract at the discounts listed in the table below, applicable when Customer subscribes to the service. The term will begin on the in-service date of the first circuit in the network.

4.20 Frame Relay IV Service (Continued)**F. Other Discounts****1. NRC Waivers**

NRCs will be waived for all standard term contracts equal to or greater than one year for Ports and PVCs. NRCs are waived for Access Coordination charges for contract terms greater than one year. NRCs for Access Coordination on a one-year contract are specified in Section 4.20 A. 1.

NRC charges may be applied for Moves, Adds, and Changes (MAC) within one year of the normal termination of a contract. Additional circuits added during the contract will be incorporated into Customer's term plan and will have the same termination date as Customer's original plan, provided they are installed prior to the last 12 months of the contract.

G. Contract Expiration

Upon contract expiration, Carrier may continue service with charges at the expired contract rates or may apply tariff rates on a month-to-month basis until a new contract agreement is executed. Should Customer choose to terminate service, Customer must provide a written "Termination of Service" notification to Carrier 30 days prior to discontinuation of the service. Should Customer choose to commit to another term plan, the rates of that plan will then apply.

A. Charges for Service and Options

Customer agrees to purchase the Service during the applicable Service Period at the rates set forth below. The Rates to be applied each month will be based on the Customer's total combined Minutes of Use (MOUs) for Access Now and Event Meet Services during the month (Total Combined Monthly MOUs) for each separately billed account. Conferencing minutes of use will be determined and rated per conference per participant rounded up to the nearest full minute. The Total Monthly Minutes of Use shall be determined based solely on minutes of use of audio conferencing and will not include any minutes applicable to web conferencing, separately rated conferencing features or surcharges.

SECTION 6 - MISCELLANEOUS SERVICES (Continued)**6.4 Long Distance Dialer Calling Plan****6.4.1 Description of Service****A. General**

This service is no longer available to new Customers.

(N)

This service allows residential and business Customers to originate outbound long distance calls by automatically bypassing Customer's current long distance service provider using a Customer Premise Equipment (CPE) device called the long distance dialer. This service provides Customer with the ability to make intrastate intraLATA and intrastate interLATA long distance calls and does not affect Customers local calling service or any local calling features; nor does it affect inbound long distance calls. Customer is required to pay for the service in advance by using a credit card or purchasing a plan at a retail location.

If Customer uses a credit card, Customer must go to a web site or call a toll free number to register the dialer and select the desired calling plan.

The long distance dialer and calling plans can initially be purchased at various retail locations, over the internet, or via a toll free number. Once Customer has purchased the dialer, If he chooses to purchase service using a credit card, he must either go to a website or call a toll free number to register the dialer and select his desired calling plan. If Customer chooses to pay cash for his service, he must purchase the calling plan at a retail location, then either go to a web site or call a toll free number to register the dialer and the calling plan.

For continuing service, Customer can either purchase a plan at a retail location or have his credit card automatically charged for the next period of service.

If Customers credit card cannot be authorized for the appropriate amount, the system will try an additional four times to authorize the account, at which time Customer's account will not be registered for use.

B. Plan A

1. This plan is available to residential Customers only and features 44,640 minutes for a flat rate per month.

(D)

SECTION 6 - MISCELLANEOUS SERVICES (Continued)**6.4 Long Distance Dialer Calling Plan (Continued)****6.4.1 Description of Service (Continued)****B. Plan A (Continued)**

2. Plan A is limited to residential use only. If Customer uses Plan A for non-residential purposes such as for business or organization, or the business or organization of another (even if for non-profit), Carrier reserves the right to terminate service or change Customer to Plan B for which they qualify. Business or non-residential use includes, but is not limited to, use in connection with commercial facsimile, resale, three way calling, auto-dialing, mass communications equipment of any kind including, but not limited to computers or using or accessing the Internet or call center, or for call back, call sell, telemarketing or debit card services, or for calls to or from party lines, chat rooms, conference lines, or other similar types of services. Carrier may also determine that Customer is using Plan A in a business-like manner if making excessive calls and otherwise simulating business-like calling patterns. Excessive calling in a business or non-residential use includes, but is not limited to, calls totaling more than 90 minutes to one ANI within a 24-hour period or calls to more than 15 different ANIs within a 24-hour period. (T)

C. Plan B

1. This plan is available to residential and business Customers. Customers may choose a 225-minute plan, a 580-minute plan, a 1500-minute plan, a 3200-minute plan, or a 6650-minute plan.
2. Minutes expire six months after purchase of the plan. (D)
3. If Customer chooses to cancel the service, the minutes remaining will expire six months after the initial call. (T)
4. Calls may only be completed against an account that has a sufficient available balance. (T)
5. The initial billing period (minimum call duration) is one minute. (T)

SECTION 6 - MISCELLANEOUS SERVICES (Continued)**6.4 Long Distance Dialer Calling Plan (Continued)****6.4.1 Description of Service (Continued)****C. Plan B (Continued)**

6. Initial period rates are for connections of one minute or any fraction thereof. Usage is measured and rounded to the next higher one-minute increment. (T)
7. Carrier's equipment shall track call duration for rating purposes on a real-time basis. (T)
8. No charges apply for incomplete calls. If Customer believes he has been incorrectly billed for an incomplete call, Carrier shall, upon notification, investigate the circumstances of the call and issue a credit when appropriate. (T)
9. If Customer's credit card fails to authorize on a renewal, Customer's Long Distance Dialer Calling Plan will be suspended. If Customer has more than one Long Distance Dialer Calling Plan, all plans will be suspended if the credit card fails to authorize on a renewal. (T)

6.4.2 Device Features

- A. Device must be plugged into Customer's home telephone and works only from the telephone that is plugged into the device.
- B. Device is compatible with most standard or cordless telephones, fax machines, or DSL Service.
- C. Device works with most local calling features such as Call Waiting and Call Forwarding. However, Caller ID Block does not work when using the dialer.

SECTION 6 - MISCELLANEOUS SERVICES (Continued)**6.4 Long Distance Dialer Calling Plan (Continued)****6.4.3 Restrictions**

- A. This service is not available when calling from Alaska and Hawaii, but provides for outgoing calls to those states.
- B. Non-continental U.S. and international calls are not available with Plan A but can be made by purchasing Plan B.
- C. Operator services are not included in this service.
- D. If Customer cancels service prior to the end of the term, Customer will not receive a refund for any unused days on Plan A or unused minutes on Plan B.
- E. Calls to 900, 976 or other numbers used for pay-per-call services shall not be completed using this service.

6.4.4 Rates and Charges

Calls are rounded in one-minute increments.

SECTION 2 - REGULATIONS (Continued)**2.6 Restoration of Service**

The use and restoration of Service shall in all cases be in accordance with the priority system specified in Part 64, Subpart D, of the Rules and Regulations of the Federal Communications Commission.

2.7 Payment and Billing

(D)

2.7.3 If notice from Customer of a dispute as to charges is not reported to a customer service representative or received in writing by Carrier within one year after the date the charges are incurred, the billing will be considered correct.

2.7.4 Carrier shall promptly investigate all disputed charges and shall report its findings and disposition to Customer.

2.7.5 Customer is responsible for payment of all charges for services furnished. Upon nonpayment of any sum due or upon a violation of any of the conditions governing the furnishing of Service, Carrier may discontinue furnishing Service without incurring any liability.

2.7.6 The charges for calls are due upon presentation of the bill and are billed and collected by Carrier or its agent. All bill payments shall be credited within one business day of receipt by Carrier.

2.7.7 Monthly Charges

- A. Monthly charges may be billed a month in advance of service or in the current month and reflect the rates in effect as of the date of the invoice. Customer's invoice may contain charges from previous periods for service provided from the date of installation through the current invoice period or to reflect changes in rates.
- B. Monthly charges for all access service components billed by Carrier are billed in advance of service and reflect the rates in effect as of the date of the invoice. Customer's first invoice may contain charges from previous periods for service provided from the date of installation through the current invoice period.
- C. For the purpose of computing partial month charges, a month is considered to consist of 30 days.

SECTION 2 - REGULATIONS (Continued)**2.7 Payment and Billing (Continued)**

- 2.7.8** Customer shall be responsible for the payment of all charges for service provided under this Tariff, including unauthorized charges placed from its equipment. Customer shall be responsible for the payment of all excise, sales, use or other similar taxes that may be levied by a governing body or bodies in conjunction with or as a result of the service furnished under this Tariff.

(D)

2.7.10 Handling of Complaints

Carrier will promptly investigate any Customer complaint and provide an interim report to the PUCO Staff within ten business days of the date of receipt of the complaint. Carrier will provide an interim report to Customer when Customer complains directly to Carrier. Carrier will provide an interim report to Customer and PUCO Staff when the complaint has been referred to Carrier from the PUCO Staff. Depending upon the nature of the complaint, the resolution of some complaints may not be resolved within ten business days under this situation, Carrier will provide an interim report to Customer and Staff. If Customer disputes the report, Carrier will inform Customer that the PUCO Staff is available to mediate the complaint. Carrier will provide to Customer the necessary information for Customer to contact PUCO's Public Interest Center.

2.8 Deposits**2.8.1 General**

The fact that a deposit has been made in no way relieves Customer from complying with the requirement for prompt payment of bills on presentation. At such time as the Service is terminated, the amount of the deposit will be credited to Customer's account and any credit balance which may remain will be refunded. Such a deposit may be refunded or credited to Customer at any time prior to termination of the Service at the option of Carrier.

2.8.2 Credit Limits/Toll Usage Limits

When Customer's credit history is not known, Carrier may perform a credit assessment. Carrier may set toll usage limitations on applicants for service and existing Customers whose financial condition cannot be verified or is otherwise unacceptable to Carrier. Any required deposit or toll usage limits may be increased or decreased by Carrier as it deems appropriate in light of changing conditions. Deposit amount shall not exceed 230% of the statewide average bill amount for the class and type of service involved. Any initial or additional deposit assessed by Carrier shall be based only on the credit history for the same class of service as Customer is seeking to establish.

SECTION 2 - REGULATIONS (Continued)

2.8 Deposits (Continued)

2.8.3 Carrier will not deny service on credit worthiness grounds unless applicant is allowed to establish financial responsibility through every means available as provided in PUCO 4901:1-5 and 4901:1-17. When Carrier determines applicant must show financial responsibility, Carrier must inform applicant of all options available to meet the requirement.

2.8.4 If Carrier decides to furnish credit information acquired from its own experience with its own Customers to consumer reporting agencies, Carrier will comply with all of the requirements that consumer reporting agencies must follow in issuing credit reports within the meaning of the Federal Fair Credit Reporting Act.

2.9 Advance Payments

Carrier does not require or collect advance payments.

(C)

SECTION 2 - REGULATIONS (Continued)**2.10 Taxes****2.10.1 General**

Service may be subject to state and/or local taxes at the prevailing rates, if service originates and terminates in the state. Taxes are not included in the rates and charges listed herein.

Federal, state and local sales, use excise and other taxes, where applicable, shall be added to the charges contained herein, unless Customer provides a properly executed certificate of exemption from such taxes. It shall be the responsibility for Customer to pay these taxes and to accept the liability of any such unpaid taxes that may become applicable.

(D)

SECTION 2 - REGULATIONS (Continued)**2.11 Credit Allowances for Interruptions****2.11.1 Application - General**

A credit allowance is applicable to that portion of a call which is interrupted due to poor transmission (e.g., noisy circuit condition), one-way transmission (one party is unable to hear the other), or involuntary disconnection (cut-off) of the call caused by components of service. Customer may also be granted credit for reaching a wrong number.

To receive the proper credit, Customer must notify Carrier within 30 days and furnish the called number, the trouble experienced (e.g., cut-off, noisy circuit, reached wrong number, etc.), the class of call, and the approximate time the call was placed. Customer will receive credit equivalent to one minute. Charges will apply to the re-established call.

Credit allowances for a call does not apply for interruptions that are due to the failure of power, equipment or systems not provided by Carrier.

(D)

SECTION 2 - REGULATIONS (Continued)**2.12 Application for Service/Changed or Canceled Orders**

2.12 Carrier will charge for cancellation and change orders prior to the establishment of service. The amount of the charge will vary according to the status of the service order and the stage when cancellation occurred. In addition to any cancellation charge imposed by the Carrier, Customer will also be responsible for any charges incurred by Carrier which are imposed by a local access service provider for cancellation of an access service order.

2.12.1 Customer may change an application for service upon written notice to Carrier, subject (T) to acceptance and confirmation by Carrier. A charge shall apply to any change when the request is received by Carrier after notification by Carrier of the acceptance and confirmation. The charge will include the sum of the charges and costs incurred by Carrier for the service involved, including direct and indirect costs.

My Commission Expires:

Important Information from VSSI

Beginning April 2, 2008, prices, service descriptions, terms and conditions for certain telecom services that are provided by VSSI will no longer be on file with the Public Utilities Commission of Ohio (PUCO). The business services that will no longer be tarified are all retail telecom products or services offered to businesses by VSSI in Ohio. This modification does not automatically result in a change in the prices, terms or conditions of those services to which you currently subscribe. VSSI must still provide a notice at least fifteen days in advance of rate increases, changes in terms and conditions and discontinuance of existing services in Ohio. You will be able to view the company's service offerings in the Product Guide online at www.verizon.com/tariffs, or you can request a copy of this information by mail at: Verizon Business, Attention: VSSI, 6415 Business Center Drive, Highlands Ranch, Colorado 80130, or by calling toll-free 1-877-483-6222. Since these services will no longer be on file with the Commission, the agreement between the customer and the company will now control new services or changes in service, and will still be subject to consumer protections required and enforced by the PUCO. If the Service Period of your agreement expires, then pursuant to the agreement VSSI may charge its then-current month-to-month rates as set forth on its website. For any changes in service, you should carefully review and confirm the price, terms and conditions. If you have any questions about this matter, please call VSSI at the toll-free number 1-877-483-6222.
