SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.25 Premium X Options, (Cont'd.)

3.25.11 Premium X Option Eleven

This X Option is a per network user service that requires a minimum of 30 (thirty) users accessing the same network. This X Option consists of one voice line per user, or a minimum of thirty lines, and Dedicated Internet Access. This X Option also includes shared hosting space and the Customer's choice of end user shared hosting web applications. Customer must choose from one of the options below for the monthly minutes of domestic long distance usage: (A) 4,000 minutes, (B) 7,000 minutes, (C) 10,000 minutes, and (D) 25,000 minutes. The domestic long distance usage above these options will be billed at rates set forth in Company's Message Toll Service tariff for intrastate toll use or pursuant to the Terms and Conditions governing long distance service found on Company's website for interstate use. The MRC for each is listed below. This X Option includes a choice of a total of 10,000 minutes or 3,300 messages of local exchange calling if the customer chooses option A, B, or C, or 20,000 minutes or 6,500 messages of local exchange calling if the customer chooses option D. Additional local exchange usage will be billed at the rates set forth in the price list. The monthly minutes of use for local exchange and domestic long distance is total combined usage for all the users in this Option. International usage is provided under Company's Platinum Small Business Plan Pursuant to the Terms and Conditions governing international traffic found on Company's website.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.26 Business 2002, (Cont'd.)

3.26.3 Business Trunks

(T)

Business Trunk Service and the Optional Features that are listed in Section 20.3.4 are available to Customers who enter into Service Order Agreements to receive service after May 17, 2002. Business Trunk Service provides customers with access to and from the Public Switched Telephone Network (PSTN) for inbound, outbound or two-way call traffic. The trunk connection can be either analog or digital depending on the customer's requirements.

Analog trunk service is offered via standalone Private Branch Exchange (PBX) or Direct Inward Dial (DID) Trunks, while digital connections are provided through Digital Switched T-1 Service.

In-Only Trunks - A One-Way trunk that only allows traffic from the XO switching equipment to be transmitted to the customer's PBX.

Out Only Trunks - A One-Way Trunk that only allows traffic originating in the customer's PBX to be transmitted to the XO switching equipment.

Two-Way Trunks - A Trunk which allows traffic to be transmitted from either the customer's PBX or the XO switching equipment.

In-Only with DID Trunk - A One-Way trunk equipped with Direct Inward Dialing Service that allows traffic from the XO switching equipment to be transmitted to the customer's PBX.

Two-Way with DID Trunk - A Trunk equipped with Direct Inward Dialing Service that allows traffic to be transmitted from either the customer's PBX or the XO switching equipment. This Service will no longer be available to New Customers after May 1, 2004.

Direct Inward Dialing (DID) Service - a special trunking arrangement which permits incoming calls from the exchange network to reach a specific PBX station directly without an attendant's assistance.

Effective: December 24, 2005

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.26 Business 2002, (Cont'd.)

3.26.3 Business Trunks

(T)

A. PBX Analog Trunks

The PBX Analog Trunk provides a two-wire access loop from the customer premises to the serving central office. The transmission via this loop supports Clear Channel Capability where available. Call traffic in static Channels can be allocated for specific services, such as identified above.

B. Digital Switched T-1

Digital Switched T-1 service provides an intraexchange digital connection between the customers PBX (Private Branch Exchange) or Hybrid Key system and XO's Central office.

Each Digital Switched T-1 carries 24 channels over a standard digital transmission facility. The channels are used to carry circuit switched voice and data call traffic at channel signal rates of up to 64 Kbps per channel with a total of 1.544 Mbps dedicated bandwidth for each Digital Switched T-1 service. Channels can be allocated for specific services, such as Two Way Calling, Inbound or Outbound Calling, Direct Inward Dialing (DID) or Direct Outward Dialing. Digital Switched T-1 Service and/or its Features are provided subject to the availability and Service Capabilities of the Central Office Facilities. Customer must provide his or her own DTI (Digital Interface) Card. If Customer wishes to provision analog PBX trunk services, Customer must provide compatible digital to analog conversion equipment. All Channel Service Units (CSU's) are the responsibility of the Customer. Digital Switched T-1 service is not available for use by Commercial Mobile Radio Carriers, Private Mobile Radio Carriers or Interexchange Carriers, in the provision of service to their customers.

Digital Switched T-1 service is provisioned as either a:

- * Full Digital Switched T-1 with a Digital Switched Facility (Access Line) per T-1 and 24 channels or,
- * Fractional Switched T-1 with a Digital Switched Facility (Access Line) per T-1 and individual channels (minimum of 10 channels) are available in basic (A T1 facility that is equipped with In-Only, Out-Only, or Two-Way trunks) or advanced (A T1 facility that is equipped with In-Only with DID or Two-Way with DID trunks)

Effective: December 24, 2005

(T)

C. PBX Analog Trunk & Digital Switched T-1 Standard features

Each PBX Analog Trunk & Digital Switched T-1 includes the following features at no additional charge.

Hunting

Ascending Trunk Selection - Ascending Trunk Selection occurs when a switching unit selects from a Trunk Group the first available Trunk going from the first trunk of the trunk group, ascending to the last trunk of the Trunk Group. (example: hunting from the 1st trunk through last trunk on Trunk Group)

Descending Trunk Selection - Descending trunk selection occurs when a switching unit selects from a Trunk Group the first available Trunk going from the last trunk of the trunk group, descending to the first trunk of the Trunk Group. (example: hunting from last trunk of Trunk Group toward the 1st trunk of the Trunk Group).

Least Idle Trunk Selection ("LIDL") - LIDL trunk selection occurs when a switching unit selects from a Trunk group the Trunk that has been idle for the shortest period of time.

Most Idle Trunk Selection ("MIDL") - MIDL Trunk selection occurs when a switching unit selects from a Trunk group the Trunk that has been idle for the longest period of time.

Alternative Call Routing - Allows the customer to route calls to any service within the switch to handle calls in case of a disaster or for call overflow purposes. Typically a customer will route calls from one Trunk Group to another Trunk Group. Calls overflow to the Alternate Call Route when they encounter a busy condition. There are three types of busy conditions:

1. **Overflow Call Processing** - all trunks in the trunk group are busy.
2. **System Busy** - This busy condition is caused by network system problems, such as T1 Carrier being down or SS7 related problems.
3. **Manual Busy** - This condition is caused by the trunk group being manually taken down, typically to do maintenance on the customer side in the PBX or on the telecom side in the network switch.

3.26.5 Directory Assistance

Directory Assistance service provides a Customer with requested telephone numbers and/or addresses within the Customer's local calling area. Customers can reach a Directory Assistance Operator by dialing 411 or 555-1212. The Directory Assistance Operator will furnish up to three items per call or will let the Customer know if the requested information cannot be found. Customers will be charged for calls placed to Directory Assistance even when the requested information cannot be found.

A. A credit will be given for calls to Directory Assistance as follows:

- The Customer experiences poor transmission or is cut-off during the call; or
- The Customer is given an incorrect telephone number.

To obtain such a credit, the Customer must notify its Customer Service representative within 48 hours of placing the call to Directory Assistance.

B. Call Completion Feature - Customers using Company's Directory Assistance Service will have the option of completing calls through Company's Call Completion feature. At the Customer's request, the Directory Assistance Operator will connect the Customer to the requested telephone number. In addition to the per call charge for Directory Assistance listed above, Customers will be charged for duration of the completed call as follows:

Customers placing the call from a telephone line that is subscribed to Company local service will be charged according to Customer's current Company rate plan.

Other than the Directory Assistance per call charge and the applicable usage charges for the completed call, there is no additional charge for using this feature.

Effective: February 25, 2005

3.26.6 Operator Assistance

A Customer may obtain the assistance of a local operator to complete local exchange telephone calls in the following manner. The following per minute rate will apply for operator-completed calls in addition to the surcharges as specified in Section 3.26.6.A will apply:

Third Number Billing - Provides the Customer with the capability to charge a local call to a third number which is different from the called or calling party. The party answering at the third number has the option to refuse acceptance of the charges in advance or when queried by the operator.

Collect Calls - Provides the Customer with the capability to charge a call to the called party. On the operator announcement of a collect call, the called party has the option to refuse acceptance of charges in advance or when queried by the operator.

Calling Cards - Provides the Customer with the capability to place a call using a calling card with or without the assistance of an operator.

Person to Person - Calls completed with the assistance of an operator to a particular Station and person specified by the caller. The call may be billed to the called party.

Station to Station - Calls completed with the assistance of an operator to a particular Station. The call may be billed to the called party.

Effective: February 25, 2005

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.26 Business 2002, (Cont'd.)

3.26.6 Operator Assistance, (cont'd.)

A. Busy Line Verification and Interrupt Service - Busy Line Verification and Interrupt Service, which is furnished where and to the extent that facilities permit, provides the Customer with the following options:

1. **Busy Line Verification** - Upon request of the calling party, the Company will determine if the line is clear or in use and report to the calling party.
2. **Busy line Verification with Interrupt** - The operator will interrupt the call on the called line only if the calling party indicates an emergency and requests interruption.
3. **Rates** - Rates for Busy Line Verification and Interrupt Service, as specified below, will apply under the following circumstances:
 - (a) The operator verifies that the line is busy with a call in progress or is available for incoming calls.
 - (b) The operator verifies that the called number is busy with a call in progress and the Customer requests interruption. The operator will then interrupt the call, advising the called party the name of the calling party. One charge will apply for both verification and interruption.

Effective: February 25, 2005

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.26 Business 2002, (Cont'd.)

3.26.7 Directory Listings

The Company shall provide a single directory listing, termed the primary listing, in the telephone directory published by the local exchange provider in the Customer's exchange area of the Station number which is designated as the Customer's main billing number. Directory listing of additional Company Station numbers, other than the Customer's main billing number, associated with a Customer's service will be provided for an additional monthly recurring charge per listing.

- A.** The Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clearness of the listing or the identification of the Customer is not impaired thereby. When more than one line is required to properly list the Customer, no additional charge is made.
- B.** The Company may refuse a listing which is known not to constitute a legally authorized or adopted name, contains obscenities in the name, or any listing which, in the opinion of the Company, is likely to mislead or deceive calling persons as to the identity of the listed party, or is a contrived name used for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.
- C.** Each listing must be designated Government, Business, or Residence to be placed in the appropriate section of the directory. In order to aid the user of the directory, and to avoid misleading or deceiving the calling party as to the identity of the listed party, only business listings may be placed in the Business Section and only residential listings in the Residential Section. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.

3.26.7 Directory Listings, (cont'd.)

- D.** In order for listing to appear in an upcoming directory, the Customer must furnish the listing to the Company in time to meet the directory publishing schedule.
- E.** Directory listings are provided in connection with each Customer service as specified herein.

- 1. Primary Listing** - A primary listing contains the name of the Customer, or the name under which a business is regularly conducted, as well as the address and telephone number of the Customer. This listing is provided at no additional charge.
- 2. Additional Listings** - In connection with local exchange service, additional listings are available only in the name of Authorized Users of the Customer's service, as defined herein. Rates for additional listings are specified in Section 3.4.5.8 and 3.4.5.9.
- 3. Nonpublished Listings** - Listings that are not printed in directories nor available from Directory Assistance.

A Nonpublished Telephone Service will be furnished, at the Customer's request providing the omission or deletion of the Customer's telephone listing from the telephone directory and, in addition, the Customer's telephone listing will be omitted or deleted from the directory assistance records, subject to the provisions set forth in Section 2.1.4. Rates for Nonpublished Listings are specified in Sections 3.4.5.8 and 3.4.5.9.

- 4. Nonlisted Numbers** - A Nonlisted number will be furnished at the Customer's request, providing for the omission or deletion of the Customer's listing from the telephone directory. Such listings will be carried in the Company's directory assistance and other records will be given to any calling party. Rates for Nonlisted Numbers are specified in Sections 3.4.5.8 and 3.4.5.9.
- 5. Foreign Listings** - Where available, a listing in a phone directory which is not in the Customer's immediate calling area. The Customer will be charged the rates specified in the tariff published by the specific exchange carrier providing the Foreign Listings.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.27 XO Integrated Access Service II*

(C)

XO Integrated Access Service is a bundled service offering that requires the Customer to purchase, at the same customer location, local exchange service, message toll service and other unregulated services from the Company. The standard configuration involves having a single DS-1 to the Customer's premises. Service can also be provided via ISDN PRI. When ordering service via DS-1, the Customer must purchase a minimum of six (6) local exchange lines or trunks and utilize a total of at least fourteen (14) voice & data channels. The Customer must also enter into a one (1), two (2) or three (3) year service order agreement. Usage for all services is not included in the following rates. The Non-Recurring and Monthly Recurring (MRC) charges are specified below. MRCs listed below are for one (1) year term contracts, two and three year contracts receive an additional 5% and 10% discount, respectively.

A. Standard Features

XO Integrated Access Service Customers using Basic Business Lines may request the following optional features at no additional charge: Call Forward Variable, Call Forward Busy, Call Forward No Answer, Speed Calling, Call Waiting, Touchtone, and 3 Way Calling.

B. Non-Recurring Charges

For initial installation of XO Integrated Access Service over a single DS-1 or ISDN PRI, Customers will pay a non-recurring installation charge specified below. Installation charges for those Customers that purchase more than a DS-1 worth of capacity will be done on an Individual Case Basis (ICB). If a customer chooses to add additional local exchange lines or channels after installation of the initial service, the Company's regular non-recurring installation charges for local exchange service, as specified in 3.1 will apply.

**As of December 31, 2006, this product will only be available to current customers at their current location.*

3.29 Multi-Tenant Buddy Program

This program offers eligible Customers discounts on XO Services. In order to be eligible for this program, Customers must meet the criteria of either a "Referring Buddy" or a "Referred Buddy."

This program cannot be combined with any other special offer or promotion offered by XO.

3.29.1 Program Criteria

- A.** A Referring Buddy is a property management company of a multi-tenant building ("Serviceable Property") that refers potential subscribers located in that Serviceable Property to XO for XO Services. Referring Buddies must subscribe to XO Services for a minimum two year commitment in order to receive the discounts listed in section 23.2.1 below.
- B.** A Referred Buddy is a Customer who, as a result of being referred to XO by a Referring Buddy, receives XO Services at a Serviceable Property, for a minimum two year term commitment.

3.29.2 Program Discounts

- A.** A Referring Buddy will receive XO intraLATA and interLATA long distance service at a rate of \$0.05 per minute. Additionally, once the aggregate of the recurring revenue of all Referred Buddies of a Referring Buddy reaches and remains at \$3,000.00 per month, the Referring Buddy will receive a \$50 credit on its XO invoice for each additional potential subscriber referred to XO for XO Services that executes a contract with XO for XO Services.

A Referred Buddy will receive a 10% discount off monthly recurring and usage charges for the XO Services listed in this tariff. The discount only applies to standard XO services and pricing, and does not apply to Individual Case Basis arrangements, taxes, surcharges, or tax-like charges.

Effective: February 25, 2005

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.29 Multi-Tenant Buddy Program

3.29.3 Special Terms and Conditions for the Referring Buddy

- A.** As stated above, the Referring Buddy must subscribe to XO services for a minimum two year commitment. The Referring Buddy may terminate service upon thirty (30) days prior written notice without incurring liability for the early termination charges, specified in section 2.7 of this tariff, provided that the Referring Buddy has delivered written notice by facsimile or e-mail to XO establishing that the Referring Buddy's contract for property XO management services in the Serviceable Property has been terminated in its entirety and that the Referring Buddy no longer provides property management services to the Serviceable Property.
- B.** If neither the Referring Buddy nor XO cancel the service prior to the end of the term commitment, at the completion of the term commitment, XO will continue to provide service to the Referring Buddy on a month-to-month basis.

LOCAL EXCHANGE SERVICES

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.30 Foreign Exchange Service

(T)

Foreign Exchange Service is exchange service furnished from an exchange other than the one which normally serves the area in which the customer is located. Foreign Exchange Service is available when both the foreign rate center and the rate center in which the customer is located are served by a single switch and are supported by the same 911 selective router.

(T)

(T)

Foreign Exchange Service may be provided as Inbound Only, Outbound Only or Two-Way service. Foreign Exchange Service is available on the following services: Business Lines, Centrex Lines, Analog Trunks, Full Switched T1, Fractional Switched T1, ISDN-PRI and ISDN-BRI. See Section 20 of this Tariff for full product descriptions.

(T)

(T)

The local calling area that applies to Foreign Exchange Service is the same as that which regularly applies to other Company-provided local exchange access service bearing the same NPA-NXX designation.

(T)

3.30.1 Restrictions

Mixing of Foreign Exchange Service lines and non- Foreign Exchange Service lines within a service arrangement such as Hunting, PBX and ISDN Trunk Groups is allowed only when non-Foreign Exchange Service lines/trunks hunt to Foreign Exchange Service lines/trunks.

(T)

(T)

Customer must subscribe to Foreign Exchange Service for a minimum contract period of one year. Foreign Exchange Service is and it is co-terminus with the service to which it is terminated.

(T)

(T)

3.30.2 Rates

The pricing listed below is in addition to the local access service rates which regularly apply for exchange access service bearing the foreign exchange NPA-NXX. See Section 20 of this Tariff for applicable local rates. In addition, Customer will receive one foreign exchange directory listing at no charge.

Access Type	MRC	NRC	
	Max.	Max.	
Foreign Exchange Business Line	\$40.00	\$ 50.00	(T)
Foreign Exchange Centrex Line	\$40.00	\$ 50.00	
Foreign Exchange ISDN-BRI	\$40.00	\$ 50.00	(T)
Foreign Exchange Trunk (per DS0 channel)	\$40.00	\$50.00	(T)
Foreign Exchange Full Switched T1	\$1000.00	\$400.00	
Foreign Exchange ISDN-PRI	\$1000.00	\$400.00	(T)

LOCAL EXCHANGE SERVICES

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.31 Intercept and Number Referral Service

3.31.1 Intercept is an optional service employed after telephone service has been disconnected, whereby an automated system repeats the called number and provides the status of the telephone service. Intercept Service is available for published numbers and DIDs free of charge for the first 90 days of use. Intercept Service for published numbers in place longer than 90 days will be charged as outlined below. Intercept Service for unpublished numbers will be charged as outlined below from the start of the Number Referral Service.

3.31.2 Number Referral Service is an optional service employed after telephone service has been disconnected, whereby an automated system repeats the called number and provides callers with the new number. Number Referral Service is available for published numbers free of charge for the first 90 days of use. Number Referral Service for published numbers in place longer than 90 days will be charged as outlined below. Number Referral Service for unpublished numbers will be charged as outlined below from the start of the Number Referral Service.

3.32 Emergency Redundancy Routing

Emergency Redundancy Routing (ERR) enables a Customer to establish an alternate routing solution when an emergency causing a communication failure or "all trunks busy" condition occurs. ERR will automatically reroute voice traffic to a number predetermined by the Customer. ERR is available with ISDN PRI, Digital T-1, and all XOptions packages.

ERR is available on a per T-1 basis, for up to four T-1s per location. ERR is available where facilities permit. The Company's ability to redirect calls is dependent on the capabilities at the back-up site for ERR and redirecting large volumes of calls is not recommended.

Customer will be charged applicable non-recurring charges and monthly recurring charges. Customers will also be charged for any applicable usage charges incurred if the predetermined number is located outside of the Central Office of the ERR enabled telephone number.

3.33.2 Private Branch Exchange (PBX) Trunks

A. Service Description

PBX Trunk Service provides customers with access to and from the Public Switched Telephone Network (PSTN) for inbound, outbound or two-way call traffic.

Two-Way Trunks - A Trunk which allows traffic to be transmitted from either the customer's PBX or the Company switching equipment.

One-Way, out only - A One-Way Trunk that only allows traffic originating in the customer's PBX to be transmitted to the Company switching equipment.

One-Way, in only - A One-Way Trunk that only allows traffic from the Company switching equipment to be transmitted to the customer's PBX.

Direct Inward Dialing (DID) Service - A special trunking arrangement which permits incoming calls from the exchange network to reach a specific PBX station directly without an attendant's assistance.

3.34 Local Volume Discount

Local Volume is a discount plan based upon the Company's currently offered Local Services. Two plans are available, as outlined below. Customer must choose one plan upon execution of their service agreement.

3.34.1 Restrictions

3.34.1.1 The offer is available to New and Existing Customers who sign a minimum two (2) year commitment for XO Local service offerings.

3.34.1.2 The following Services are not included in the discount, but are included in the revenue commitment: XOptions, ISDN-BRI, Inbound PRI, Integrated Access, Gateway traffic, Residential Service, Operator Services, Resold Services, Carrier Local Term, DAL, IntraLATA usage, Labor and Non-Recurring Charges. All other products and usage types are included in the revenue commitment.

3.34.1.3 This offer applies only to those other Local products currently available.

3.34.1.4 Customers located in an area where the Company is collocated in the ILEC wire center serving the Customer are eligible for this offering. Other Customers may be eligible depending upon their service configuration.

3.34.1.5 All other commitments and/or restrictions, including early termination fees, associated with the applicable local product(s) apply.

3.34.2 Pricing

Two Price plans are available. Customers must choose one of the following plans when they sign their service contract.

3.34.2.1 **Aggregate Revenue Plan:** Customers who choose XO's Aggregate Revenue plan will receive discounts off their monthly Local MRC's & Local usage, based upon the actual amount of revenue billed each month. The amount of the discount may vary month to month.

Monthly Revenue	Discount
\$20,000-49,999	10%
\$50,000-124,999	15%
\$125,000-199,999	20%
Greater than \$200,000	25%

3.34 Local Volume Discount

3.34.2 Pricing

3.34.2.2 Aggregate Commitment Plan: Customers who choose XO's Aggregate Commitment Plan will receive the following discounts off their Local MRC's & Local usage, based upon the commitment level they choose. Discounts will be applied monthly. Failure to achieve the annual commitment level will result in a penalty equal to the difference between the actual amount billed and the selected commitment level. Inclusion of early termination liability by the company in its tariff or a contract does not constitute a determination by the Commission that the termination liability imposed by the company is approved or sanctioned by the Commission. Customers shall be free to pursue whatever legal remedies they may have should a dispute arise.

Annual Revenue Commitment	Discount
\$250,000-599,999	10%
\$600,000-1,499,999	15%
\$1.5M- 2,399,999	20%
Greater than \$2.4M	25%

3.34.0 Historic Invoices

The Company will furnish, upon Customer's request, copies of invoices which were originally issued to the Customer more than thirteen months prior to the request or copies of invoices that are available on-line, but that customer does not wish to retrieve from the available on-line system. Customers can request the invoice in one of two formats: electronic copy (portable data file/.pdf) or CSV/CD of Call Detail Record. Customer will be charged based on the format requested and on a per invoice basis.

<u>Format</u>	<u>Rate Per Invoice - Maximum</u>
Electronic	\$20.00
CSV/CD of CDR	\$50.00

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.36 Connection Charges

3.36.1 General

Connection Charges are nonrecurring charges which may apply to the following: (a) the installation of a new service; (b) the transfer of an existing service to a different location; (c) a change from one class of service to another at the same or a different location; or (d) restoral of service after suspension or termination for nonpayment. Connection Charges are listed with the service to which they apply or are provided in this Section.

The Company alone may make changes in the location of its lines and equipment. When it is found that a move or change of such lines or equipment has been made by others, the Connection Charge for the underlying service will apply as if the work had been done by the Company.

The Customer may be assessed a charge for any move, add or change of a Company service. Move, Add and Change are defined as follows:

Move - The disconnection of existing equipment at one location and reconnection of the same equipment at a new location in the same building or in a different building on the same premises.

Add - The addition of a service to existing equipment and/or service at one location.

Change - The change, including rearrangement or reclassification, of existing service at the same location.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.37 Exceptions to the Connection Charge

The Company may from time to time waive or reduce the connection charges as part of a promotion or trial.

3.38 Line Restoral Charge

A restoral charge applies each time a service is reconnected after suspension or termination for nonpayment pursuant to this tariff but before cancellation of the service.

Restoral Charge:(after company- initiated suspension, per line)	<u>Max</u> \$90.00
---	-----------------------

3.39 Emergency Redundancy Routing

Emergency Redundancy Routing (ERR) enables a Customer to establish an alternate routing solution when an emergency causing a communication failure or "all trunks busy" condition occurs. ERR will automatically reroute voice traffic to a number predetermined by the Customer. ERR is available with Digital PBX, Digital PBX Package, PRI Bundled Package, and True Business Total Communications and Digital Communications only.

ERR is available on a per T-1 basis , for up to four T-1s per location. ERR is available where facilities permit. The Company's ability to redirect calls is dependent on the capabilities at the back-up site for ERR and redirecting large volumes of calls is not recommended.

Customer will be charged applicable non-recurring charges and monthly recurring charges. Customers will also be charged for any applicable usage charges incurred if the predetermined number is located outside of the Central Office of the ERR enabled telephone number.

3.43 Central Office, Line and Trunk Features

3.43.1 General

The features in this Section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability; features may not be available with all classes of service. Transmission levels may not be sufficient in all cases. Central Office Calling Features are optional features of central office services furnished to individual line end users. The Company may furnish Central Office Calling Features where there is available central office equipment with the proper program updates as determined by the Company. Central Office Calling Features are only provided for basic access line services. The Customer will be billed a Service Order charge for each change or set-up of each occurrence a feature or group of features is added to the Customer's service.

3.43.2 Custom Calling Service Features

Custom Calling Service Features are optional telecommunication services offered as additions to regular telephone exchange service.

A. Definitions

Call Forwarding Variable - Allows the customer to activate and deactivate a transfer of all incoming calls to another dialable telephone number.

Call Forwarding/Busy Line Transfer - This feature automatically reroutes an incoming call to a Customer predesignated number when the called number is busy.

Call Forwarding/Alternative Answering - This feature automatically reroutes an incoming call to a Customer predesignated number when the called number does not answer within the number of rings programmed by the Company.

Call Waiting - Provides a tone to alert a customer with a call in progress that a second party is calling them, and allows the customer to answer the incoming call while holding the original connection.

Three-Way Calling - Allows the customer to add a third party to an established call without operator assistance.

Call Forwarding Busy Line/Alternate Answer - This feature automatically reroutes an incoming call to a customer predesignated number when the called number is busy or does not answer after a predetermined number of rings.

Effective: February 25, 2005

LOCAL EXCHANGE SERVICES

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.43 Central Office, Line and Trunk Features, (Cont'd.)

3.43.2 Custom Calling Service Features

A. Definitions

Call Forwarding Variable with Remote Access Forwarding- This feature allows the customer who also subscribes to call forwarding variable with the ability to activate, deactivate or change call forwarding from a remote location.

Remote Call Forwarding - Remote Call Forwarding (RCF) is a local exchange telecommunications service feature whereby all calls dialed to a telephone number equipped for RCF are automatically forwarded to another dialable exchange or 8XX Service telephone number. The calling party pays only the applicable charges to call the number equipped with an RCF feature, while the RCF Customer pays the applicable charges for the forwarded portion of the call.

Remote Call Forwarding service is offered subject to availability of suitable facilities. Remote Call Forwarding service is not offered where the terminating station is a coin telephone. The Company will not provide identification of the originating telephone number to the RCF Customer.

Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call. Therefore, the normal grade end-to-end transmission is not guaranteed on such calls. Remote Call Forwarding service is not represented as suitable for satisfactory transmission of data.

One directory listing in the Alphabetical Directory is provided without charge. Each Remote Call Forwarding feature allows for forwarding one call at a given time. An additional path is necessary for each additional call to be forwarded simultaneously.

Remote Call Forwarding service will only be provided when, in the judgment of the Company, the Customer subscribes to sufficient RCF features and facilities at the terminating location to adequately handle calls without interfering with or impairing any services offered by the Company.

Hunting - Line hunting which is provided subject to the availability of suitable central office facilities is an arrangement that groups together two or more main telephone exchange lines or trunks from the same central office so that incoming calls are automatically switched from the initial line, if in use, to the first non-busy line.

Effective: February 25, 2005

LOCAL EXCHANGE SERVICES

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.43 Central Office, Line and Trunk Features, (Cont'd.)

3.43.2 Custom Calling Service Features, (cont'd.)

B. Terms and Conditions

Custom Calling Service Features are offered only where facilities are available and properly provisioned.

Service Charges are not applicable when Custom or Advanced Custom Calling features are added to existing service if installed within 60 days of the date on which these features are initially offered from the serving central office.

Custom Calling Service Features will be provided in connection with all grades, types and classes of service, except for Coin or DID services and as indicated below for specific Custom Calling Service Features.

1. Call Forwarding

The Call Forwarding feature is not provided in connection with OUTWATS or INWATS services.

The quality of transmission of forwarded calls may vary depending on the distance and the routing necessary for the completion of a call. Therefore, the normal grade end-to-end transmission is not guaranteed on and forwarded calls.

If calls are transferred to a number served by the same or different central office switch, multiple calls will be transferred simultaneously provided there are sufficient facilities to accept the calls.

Effective: February 25, 2005

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.43 Central Office, Line and Trunk Features, (Cont'd.)

3.43.2 Custom Calling Service Features, (cont'd.)

B. Terms and Conditions, (continued)

2. Call Waiting

The Call Waiting feature is not provided in connection with OUTWATS.

3. Three-Way Calling

The Three-Way Calling feature is not provided in connection with INWATS.

The quality of transmission on three-way calls may vary depending on the distance and the routing necessary to complete the calls. Therefore, the normal grade end-to-end transmission is not guaranteed on any three-way call.

Effective: February 25, 2005

LOCAL EXCHANGE SERVICES

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.43 Central Office, Line and Trunk Features, (Cont'd.)

3.43.2 Custom Calling Service Features, (cont'd.)

C. Rates

On non-residence service, when two or more Custom Calling Service Features are provided on the same exchange service, a \$0.50 reduction in the monthly rates will apply for each such feature per exchange service.

1. Pay Per Use

Certain Custom Calling Services are also available on an optional Pay Per Use basis to customers that do not subscribe to the feature on a monthly basis. Such features are available on a Pay Per Use (per attempt) basis. The customer will be charged for each attempt to activate the service, unless the central offices are not properly equipped.

These features will be available on a Pay Per Use basis only from equipped central offices to residence and non-residence customers. However, these features are not available on a Pay Per Use basis to Centrex or PBX customers.

At the request of a customer that does not subscribe to the feature on a monthly basis, access to the feature on Pay Per Use basis may be blocked. Such blocking will be provided at no charge to the customer.

3.43.3 Advanced Custom Calling Features

A. General

1. Advanced Custom Calling Service as provided for in this Section is a telecommunications service that consists of one or more of the optional service features described herein.
2. Advanced Custom Calling Service is available to customers subscribing to residence and non-residence exchange services. It is not available to semi-public telephone service customers.
3. The service is offered from central offices where the Telephone Company has arranged the equipment for Advanced Custom Calling and is furnished subject to the availability of facilities. However, a feature cannot be successfully activated unless both the called and calling parties are served by, and the call is routed through, an appropriately equipped central office.
4. Service charges are not applicable when Custom or Advanced Custom Calling features are added to existing service if installed within 60 days of the date on which these features are initially offered from the serving central office.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.43 Central Office, Line and Trunk Features, (Cont'd.)

3.43.3 Advanced Custom Calling Features, (cont'd.)

B. Feature Description

Repeat Dialing (Automatic Recall) - This feature will enable a customer to reach a called party whose number is busy without having to continually redial the telephone number. The busy number will automatically be dialed, for a thirty (30) minute period, until it becomes available. The caller can make and receive calls during the 30 minute period that the busy number is being dialed. The caller will receive a special ring back when both numbers are freed for use. The feature can also be used to recall a called party after the conversation has been terminated.

Speed Dial 8 - This feature allows placing calls to eight (8) other phone numbers by dialing a one or two digit code rather than the complete phone number.

Speed Dial 30 - This feature allows placing calls to thirty (30) other phone numbers by dialing a one or two digit code rather than the complete phone number.

Effective: February 25, 2005

LOCAL EXCHANGE SERVICES

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.43 Central Office, Line and Trunk Features, (Cont'd.)

3.43.3 Advanced Custom Calling Features, (cont'd.)

B. Feature Description, (continued)

Calling Party Number Blocking - Calling Party Number Blocking provides telephone customers with the capability to prevent the disclosure of the calling telephone number on calls made to an exchange service equipped with Caller ID and other Advanced Custom Calling services where the calling party number may be disclosed. Calling Party Number Blocking is available on a per call basis for residence and non-residence customers, and for semi-public and public customers where facilities permit. Calling Party Number Blocking is available on a per line basis for residence and non-residence customers.

Per call Calling Party Number Blocking is accomplished by the customer dialing an activation code (*67 for Touch-Tone and 1167 for rotary dial pulse) prior to placing each call for which blocking is desired. Per call blocking is automatically provided without charge to all customers in central offices equipped to offer Caller ID or other Advanced Custom Calling Services where calling party number may be disclosed.

Per Line Calling Party Number Blocking automatically prevents the display of the calling telephone number on all calls dialed from an exchange service equipped with this option. It is not necessary to dial an activation code prior to placing the call. After being informed of their blocking options by the Telephone Company, customers may subscribe to Per Line Blocking. Per Line Calling Party Number Blocking is available free of charge to customers who have non-published service.

No business, organization or other person may use Calling Party Number Blocking where the primary purpose is to make telephone solicitation calls. The term "telephone solicitation" means the initiation of a telephone message primarily for the purpose of encouraging a person to purchase, rent, or invest in property, goods, or services or to donate to any charity or similar organization or entity without that person's prior express invitation or permission.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.43 Central Office, Line and Trunk Features, (Cont'd.)

3.43.3 Advanced Custom Calling Features, (cont'd.)

B. Feature Description, (continued)

Caller ID - Caller ID allows a customer to identify the telephone number from which a call is being made. The telephone number of the person initiating the call is displayed on a customer-provided display device. The customer-provided display device must conform with the Technical References TR-TSY-00030 and TR-TSY-00031. Caller ID is offered in appropriately equipped central offices.

Caller ID With Name and Number - Caller ID with Name works along with Caller ID and provides for the display of an incoming telephone number and listed name associated with that telephone number, on a customer-provided display device attached to the customer's (called party's) line or set. The customer-provided display device used to interface with Caller ID and Caller ID with Name and Number must conform with the industry Technical Reference Specifications, as used by the Company. (T)

Unless Calling Party Number Blocking is activated, the telephone numbers and names associated with all calls originating from appropriately equipped switches will be displayed. (T)

Caller ID with Name and Number is offered in appropriately equipped central offices and is available with individual non-residence and residence lines. (T)

Caller ID Privacy - Blocks the delivery of customer's Caller ID information on a per trunk group basis. Available with Digital PBX, PRI and Digital Total Communications services, except where there are restrictions.

Restrictions: There is no charge for social service or law enforcement agencies.

Effective: February 25, 2005

LOCAL EXCHANGE SERVICES

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.43 Central Office, Line and Trunk Features, (Cont'd.)

3.43.3 Advanced Custom Calling Features, (cont'd.)

B. Feature Description, (continued)

Automatic Callback - Automatically returns the last incoming call whether or not it was answered. To activate Automatic Callback, the customer dials a code. The network will then either attempt a callback, or in offices so equipped, the customer will hear an announcement of the telephone number of the last party that called. If the customer wishes to return the call immediately, voice prompts will instruct the customer to dial a certain digit and the call will automatically be returned. If the number is busy, Automatic Callback will continue to redial the number for up to 30 minutes.

If the caller uses per call or per line blocking, Automatic Callback will not complete the call or deliver the calling party's telephone number information.

This feature cannot be dialed from all telephone numbers. Automatic Callback will be provided where facilities permit.

Call Trace - This feature will, upon successful customer activation, automatically trace the telephone number used for the last call received by the customer. The customer must dial a Company-designated code, and activation must occur prior to the time that either another call or the call waiting tone is received by the customer. A recording will indicate if the trace was successful or not. Within five business days after the successful activation of Call Trace, the customer must contact the Company to arrange for the continued retention of the trace record. The traced number will not be provided to the Customer by the Company, but it will be provided to law enforcement officials. The practices of law enforcement officials vary, and the Company does not represent that any action will be taken by such officials with regard to the traced number. Call Trace will be available where facilities permit.

Effective: February 25, 2005

3.43 Central Office, Line and Trunk Features, (Cont'd.)

3.43.3 Advanced Custom Calling Features, (cont'd.)

B. Feature Description, (continued)

Distinctive Ring - Permits a customer to establish up to three telephone numbers on the same access line and to distinguish each number by distinctive incoming ring patterns. The billing telephone number is the "master" telephone number and the other telephone numbers are the "dependent" numbers. The standard ringing pattern is provided for a maximum of two dependent numbers. This service is available to non-hunting business lines only.

Message Waiting Indication - This feature allows a Customer to hear an audible interrupted dial tone indicating there is a message waiting.

Call Transfer - This feature gives the customer the capability of including another end user on an already established call. After establishing the call, the Customer may drop his connection without disconnecting the two end users. While the two parties are connected, access continues to be recorded and will be charged to the Customer, if applicable.

Custom Calling Feature Package - Package consists of the following features on the same line for up to 30 lines: Call Forwarding/Busy line transfer, Call Forwarding/Alternate Answering, Call Forwarding Variable, Call Transfer, Three-Way Calling and Message Waiting Indication.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.43 Central Office, Line and Trunk Features, (Cont'd.)

3.43.3 Advanced Custom Calling Features, (cont'd.)

D. Pay Per Use

1. Certain Advanced Custom Calling Services are also available on an optional Pay Per Use basis to customers that do not subscribe to the feature on a monthly basis. Such features are available on a Pay Per Use (per attempt) basis. An Automatic Callback activation is considered complete and billable after the feature is activated by dialing the first code, regardless of whether or not the call is returned, except in those cases where the calling number is not available from the network.

These features will be available on a Pay Per Use basis only from equipped central offices to residence and non-residence customers. However, these features are not available on a Pay Per Use basis to Centrex or PBX customers.

At the request of a customer that does not subscribe to the feature on a monthly basis, access to the feature on Pay Per Use basis may be blocked. Such blocking will be provided at no charge to the customer.

2. Rates - The following feature rates apply on a per attempt basis:

	<u>Max</u>
Call Trace (per successful trace)	\$10.00

3.44 Directory Assistance Service

Local Directory Assistance - Local Directory Assistance is a service where customers may request listing information for areas within their LATA or home NPA. There are no call allowances with Local Directory Assistance.

National Directory Assistance - National Directory Assistance is a service where customers may request listing information for areas outside their LATA or home NPA. There are no call allowances with National Directory Assistance.

3.44.1 Regulations

- A. The Company offers directory assistance service to its end users.
- B. The regulations and charges in this section apply to calls placed to local directory assistance to obtain telephone numbers of services located within the same local service area and National Directory Assistance to obtain numbers of services outside the local service area. The number of such telephone numbers furnished on each call shall be limited to two.

3.44 Directory Assistance Service, (Cont'd.)

3.44.1 Regulations, (cont'd.)

C. Except as otherwise specified herein, directory assistance calls from the following are not subject to the regulations and charges in this section.

1. Services furnished to the handicapped as follows:

a. Impaired persons

- 1) For purposes of this tariff, the definition of impaired refers to those persons with communication impairments, including those hearing impaired, deaf, deaf/blind, and speech impaired persons who have an impairment that prevents them from communicating over the telephone without the aid of a telecommunications device for the deaf.
- 2) Residential impaired customers or impaired members of a customers' household, upon written application and upon certification of their impaired status, which is evidenced by either a certificate from a physician, health care official, or state agency, or a diploma from an accredited educational institution for the impaired, may receive a discount off their message toll service rates, and, if they utilize telebraille devices, they may receive free access to local and intrastate long distance directory assistance. Additionally, TDD lines maintained by nonprofit organizations and governmental agencies, upon written application and verification that such lines are maintained for the benefit of the impaired may receive a discount off their message toll services rates.

3.44.1 Regulations, (cont'd.)

- C. Except as otherwise specified herein, directory assistance calls from the following are not subject to the regulations and charges in this section.

1. Services furnished to the handicapped as follows:

b. Visual or other physical handicapped

- 1) One residence service designated by a handicapped person who is unable to use a directory due to a visual or other physical handicap. Such person must make application to the Company for exemption and will be required to provide suitable proof of handicap. Such application shall be established by the following procedures:

A letter to the Company from a professional familiar with the person's visual or physical impairment stating that the person qualifies for the exemption; or The filling out of a prepared form made available by the Company by a professional familiar with the person's visual or physical impairment.

- 2) Exemption may be extended to one non-residence service, in lieu of a residence service where the handicapped person subscribes only to non-residence service which is located in the residence of said person.
- 3) In addition to the exemption provided in (a) above, exemption also may be extended to any telephone service used by the handicapped person when he is away from his residence. Such exemption is provided by means of special arrangements which must be made in advance with the Company. This exemption provides for the first 100 calls per month at no charge. Each additional call per month is charged for at the rate set forth herein.
- 4) For the purpose of this paragraph, a visual handicap may be defined as follows:

Visual acuity of 20/60 or worse with best refractive correction with best eye, or Visual field of 20 or less in diameter

3.45 Busy Verification and Interrupt Service

3.45.1 General

- A. Customers may obtain assistance in verifying if a called line is in use, or in interrupting a conversation in progress, by calling the Company operator.
- B. Verification and interrupt service is furnished where facilities permit. Person-to-person service is not offered and collect billing is not permitted.
- C. Verification and interrupt service is furnished to coin and non-coin customers.
- D. Centrex-CU numbers may not be verified or interrupted.
- E. Application of Charges
 - 1. A verification charge is applicable each time a customer requests a Company operator to determine whether or not a line is in use.
 - 2. An interrupt charge is applicable each time a customer requests a Company operator to interrupt a conversation or to verify that a line is in use and interrupt a conversation. The Operator shall inform the requesting caller of the charge before the verification is performed.
 - 3. No verification or interrupt charge will apply if the Company operator determines that there is trouble on the line, or if the requesting customer identifies the call as an emergency.
 - 4. An interrupt charge applies whenever the operator interrupts the conversation even though one or both of the parties interrupted refuses to terminate the conversation in progress.
 - 5. If the number verified is not in use, or as a result of interrupt the line is cleared, and, at the calling party's request, the operator completes the call, the applicable service charges apply as specified in the Operator Services section of this tariff in addition to the verification or interrupt charges.
 - 6. Time of day discounts and unused allowances, e.g., Measured Service and Message Service, will not be applied against Verification and Interrupt charges.

3.46 Operator-Handled Service

Operator-Handled service is that service requested of a telephone company operator, by the person originating a call.

- A. **Station-to-Station** calls are those calls where the person originating the call specifies to a company operator a particular telephone number to be reached.
- B. **Person-to-Person** calls are those calls where the person originating the call specifies to a telephone company operator a particular person to be reached, a particular mobile station to be reached through a mobile carrier operator, or a particular station, department or office to be reached through a private branch exchange attendant.
 - 1. When, after the telephone, mobile carrier operator, or private branch exchange system called has been reached and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other person or mobile station to be reached through a mobile carrier operator, or to any other station, department or office to be reached through a private branch exchange attendant, the call is charged for as person-to-person.
 - 2. Where the person originating the call wishes arrangements made in advance with a particular party or station for the establishment of a connection at a specified time (appointment call), the call is charged for as person-to-person.
 - 3. When at the request of the calling party the Company employs a messenger or other means to bring the called party to a telephone (messenger call), the call is charged for as person-to-person, and in addition to the charges for the message, a charge is made for the exact amount expended, if any, for messenger service.
- C. **Third Number Billed** calls are those calls where the person originating the call specifies to a company operator to bill the call to an authorized station, as determined by the Company, other than the station originating the call, or the station where the call is terminated.

3.47 Directory Listings

The Company shall arrange, at no charge, for the listing of the Customer's main billing telephone number in the directory(ies) published by the dominant Local Exchange Carrier in the area at no additional charge. At a Customer's option, the Company will arrange for additional listings at an additional charge. Specialized listing options are also available.

Listings are intended solely for the purpose of identifying subscribers telephone numbers, and as an aid to the use of telephone service. The listings of subscribers are arranged alphabetically and are not intended for special prominence of arrangement.

Listings must conform to the Company's specifications with respect to the directories. The Company reserves the right to reject listings when, in its sole judgment, such listings would violate the integrity of Company records and the directories, confuse individuals using the directory, or are otherwise deemed inappropriate or problematic.

Liability of the Company due to directory errors and omissions is as specified in Section 2 of this tariff.

3.48 Call Blocking

3.48.1 General

Call blocking is an optional service which provides residence and non-residence customers and Information Providers (Sponsors) with the capability to block the origination of direct dialed calls to all Sponsor Priced Audiotex Service (SPAS) or 976 provided by the Company and all other 976-like services including, but not limited to 900 special access services, whether provided by the Company or others.

3.48.2 Regulations

1. Call blocking will be provided only where the Company's central office can be feasibly modified to provide the service and where facilities and conditions permit.
2. Call blocking will be permitted from all residence and non-residence exchange services.
3. Call blocking is available only on customer-dialed station-to-station calls.
4. Call blocking is available only for all SPAS and 900 special access services and not for specific programs.
5. Call blocking may be requested by sponsors to prohibit access to 976/976-like services after notification by the Company that a residence or non-residence customer is delinquent in payment of calls to the sponsor's programs. Upon proof by the customer of payment or other satisfactory resolution of his or her residence or non-residence account, or upon notice by the sponsor, sponsor requested blocking will be removed by the Company.
6. Residence and non-residence customers obtaining service at a new location shall be afforded blocking of all SPAS and 900 special access services at no charge, even if they exercised an option to block all SPAS and 900 special access services at a previous location at no charge.
7. Requests by residence and non-residence customers to remove all SPAS and 900 special access services blocking must be submitted to the Company in written form.

3.49 Toll Free 8XX¹ Service

- A. Description** - Toll free 8XX Service provides the Customer with a telephone number within the toll free 8XX NPAs, enabling the Customer or User to receive incoming calls to that number which originate from any station on the public switched telecommunications network within the State of Ohio. All charges for incoming toll free 8XX calls are billed to the Customer. Toll free 8XX Service calls may be received over:
- 1. Company-Provided Access Services** - The Customer must designate one or more channels on a digital, dedicated access facility, for use in conjunction with the Company's toll free 8XX Service, prior to commencement of service. Service provided in this manner is Dedicated Toll Free 8XX; or
 - 2. Company Provided Exchange Access Lines** - Exchange Access Lines provided to the Customer by the Company can be pre-subscribed by the Customer to the Company's Switched Toll Free 8XX Service.
- B. General** - The toll free 8XX Service arrangement is an inward calling switched service which permits a call to be completed at the Customer's location without charge to the calling party. Access to the service is gained by an end user dialing a 10 digit telephone number (e.g., 800+NXX-XXXX) which will terminate at the Customer's location. The usage is billed on a flat rated basis. Toll free 8XX Service calls are billed in six (6) second increments, with an initial billing period of eighteen (18) seconds per call. A Minimum Average Time Requirement (MATR) of 30 seconds per call applies during the billing period, which if adjusted, will be billed as a nonrecurring charge. In addition, there is a nonrecurring and monthly recurring toll free 8XX Service number charge, which will be applied either on a "per toll free 8XX number" basis for shared access or on a "per routing arrangement" basis for dedicated access. Two types of toll free 8XX Service are offered by the Company.
- C. Switched Toll Free 8XX** calls are originated via shared-use facilities and are terminated via the Customer's LEC-provided local exchange access line.

1-Toll free 8XX includes the following toll free codes: 800, 888 and 877.

3.50 Calling Card Service

A. Description

Calling Card Service is provided to the Customer for use when away from its established service location. Access to the service is gained by dialing a Company-designated toll free 8XX access number (e.g., 800-NXX-XXXX), plus the Customer's/User's Calling Card authorization number and the called telephone number. The Calling Card can, where available, also be used to place operator-assisted and directory assistance calls, subject to the application of additional rates and charges.

Beyond these standard features, the Calling Card includes the following enhanced features: conference calling. The use of enhanced features is subject to separate rates and charges. Calling Card calls are billed in six (6) second increments, with an initial billing period of eighteen (18) seconds per call.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.51 DID Service for Voice Grade Channels

3.51.1 Description

DID Service provides the Customer with Direct Inward Dialing on designated voice-grade communications channels. DID Service is to be used in connection with the Customer's Private Branch Exchange (PBX) system. Dialed digits are transmitted for all incoming calls thereby allowing the Customer's PBX system to route incoming calls directly to individual stations by Customer-assigned DID telephone number. Each trunk provisioned for DID Service is automatically configured into a Hunting Arrangement. Charges for blocks of telephone numbers assigned pursuant to the North America Numbering Plan.

3.51.2 General

Standard Feature(s) - Each Company-provided Trunk for DID Service will automatically include Tone Dialing and a Hunting Arrangement at no additional charge to the Customer. The following service arrangement(s) are available:

One-Way Inbound

3.52 Access Recovery Charge

The Access Recovery Charge (ARC) is a monthly surcharge assessed in order to recover materially increased costs resulting from regulations adopted by the Federal Communications Commission *in the Matter of Unbundled Access to Network Elements and Review of the Unbundling Obligations of Incumbent Local Exchange Carriers*, (CC Docket 01-388 and WC Docket 04-313). The ARC is calculated by application of a percentage to each customer's total monthly recurring charges (MRCs). The ARC percentage to be applied will be determined by the customer's total MRCs on its monthly invoice. The chart below shows the ARC percentage that will be applied based on the MRCs.

3.54 Network Switched Services

3.54.1 General

Network Switched Services provide a Customer with a connection to the Company's switching network which enables the Customer to:

- a) receive calls from other stations on the public switched telephone network;
- b) access the Company's local calling service;
- c) access the Company's operators and business office for service related assistance; access toll-free telecommunications service such as 8XX NPA; and access 911 service for emergency calling; and
- d) access the service of providers of interexchange service. A Customer may presubscribe to such provider's service to originate calls on a direct dialed basis or to receive toll free service from such provider, or may access a provider on an ad hoc basis by dialing the provider's Carrier Identification Code (101XXXX).

Network Switched Service is provided via one or more channels terminated at the Customer's premises. Each Network Switched Service channel corresponds to one or more analog, voice-grade telephonic communications channels that can be used to place or receive one call at a time.

Connection charges as described in this tariff apply to all services on a one-time basis unless waived pursuant to this tariff or a promotional or trial offering.

3.54.2 Exchange Area Boundaries and Maps

The administration of exchange area boundaries shall be in accordance with Commission Rules.

Effective: February 25, 2005

3.57 Local Analog PBX Trunk Service

A. Description

Local Analog PBX Trunk Service provides the Customer with one or more, analog voice grade telephonic communications channels which can be used to place or receive one call at a time. Local calls on two-way trunks and DOD trunks are billed on a message or measured rate basis. DID trunks are arranged for one-way inward calling only.

B. General

An analog PBX Trunk, provides the Customer with a single, voice-grade communications channel. Each Trunk is to be used to connect the Customer's Private Branch Exchange (PBX) systems to the Public Switched Network (PSN). Each Trunk is automatically configured into a Hunting Arrangement along with other Company-provided Trunk Services. Each Trunk will, for an additional charge, be equipped with Direct Inward Dial (DID) capability. Charges for blocks of telephone numbers assigned pursuant to the North America Numbering Plan are reflected herein.

Standard Feature(s) - Analog PBX Trunks may include Touch Tone Dialing and a Hunting Arrangement at no additional charge to the Customer. The following service arrangements are available:

One-Way Inbound, One-Way Outbound, or Two-Way

3.58 Local Digital PBX Trunk Service

A. Description

Local Digital PBX Trunk Service provides a Customer with connection to the Company switch via a DS1 digital local loop connection operating at 1.544 Mbps and time division multiplexed into 24 analog voice grade telephonic communications channels. Digital PBX Trunks are provided for connection of Customer-provided PBX equipment or trunk capable key systems to the Company switch. Each Digital PBX Trunk has the following characteristics:

Terminal Interface:	Channel Bank or DSX-1 panel
Signaling Type:	Ground, E&M I, II, III
Start Dial Indicator:	Immediate Wink, Delay Dial, Dial Tone
Pulse Type:	Dual Tone Multi-Frequency (DTMF)
Directionality:	In-Bound Only, Out-Bound Only or Two Way, as specified by the Customer

B. General

Service to points within the local calling area is included in the charge for Local Digital PBX Trunk Service. Charges based on time periods and calendar days are provided herein. Nonrecurring connection and Service Order charges apply as described in Section 4 of this tariff.

Optional Feature(s) - DID Service capability as described within this tariff is available. Clear Channel capability as described in within this tariff is available. Applicable Nonrecurring charges apply as described in Section 4 of this tariff.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.59 Local ISDN-PRI Service

Local ISDN-PRI - Integrated Services Digital Network Primary Rate Interface (ISDN PRI) is a digital business service that provides PBX equipment and host computer access to a wide variety of switched services. These switched services include circuit switched voice (local calling, Message Toll Service, 800 and circuit switched data). Each ISDN PRI will allow connection of the aforementioned services via a single central office connection. This service allows PBX equipment and host computer type devices to connect to central office services in bulk quantity, rather than on a line by line or service by service basis. Local usage rates are as specified within Section 7.2.6 of this tariff.

Each ISDN PRI connection provides access from a Customer premises to the Company's circuit switched voice and circuit switched data via a 1.544 Mbps central office port termination and a 1.544 Mbps Digital Local Loop to the Customers premises. The Digital Local Loop is a DS1 with Clear Channel Capability. The rates and charges for the Loop are in addition to those for the ISDN PRI Port Connection. The central office port connection is provided in base capacities of twenty-three 64 Kbps "B" channels and one 64 Kbps "D" channel (23B+D). The "D" channel is used for out-of-band signaling and control of the "B" channels. Where technology permits, "D" channels can be shared by multiple ISDN PRI's for the same Customer. "B" channels can be dedicated to each circuit switched voice and circuit switched data service by type or they can be shared among service types by using the call by call feature.

Where appropriate facilities do not exist, Special Construction charges will apply, as describe within Section 9 of this tariff.

"B" Channel - "B" Channel (Bearer Channel) is a 64 Kbps digital channel capable of transporting circuit switched voice and circuit switched data.

"D" Channel - "D" Channel (Delta Channel) is a 64 Kbps digital channel used to transport signaling and control the B channels.

Out of Band Signaling - Out of Band Signaling is signaling that is separated from the channel carrying the circuit switched voice and data services.

Effective: February 25, 2005

LOCAL EXCHANGE SERVICES

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.59 Local ISDN-PRI Service, (Cont'd.)

Call by Call for Trunk Groups - Allows the circuit switched voice and data services enabled on the ISDN PRI to share "B" channels and arrange them as a single trunk group. This allows incoming and outgoing circuit switched voice and data calls to utilize "B" channels on a call by call basis. Without this capability, each service will have a dedicated "B" channel.

Incoming Calling Line Identification - All calling numbers presented to the services working on ISDN PRI can be delivered to the Customer's CPE, including calls made to Direct Inward Dialing Service telephone numbers. This feature is optioned on a per ISDN PRI Port basis only and is offered in appropriately equipped central offices.

Clear Channel Capability - The "B" channels on the ISDN PRI are clear, since all signaling and control functions are handled by the "D" channel. This allows all 64 kbps on each "B" channel to be used for Customer information over the ISDN PRI connection. Calls over the network may either by 56 kbps or 64 kbps depending on the public network in place between the ISDN PRI and the distant end of the call.

Digital Voice Transmission - All voice calls are transmitted using digital signaling.

Channel Configuration - Allows some or all B Channels to be dedicated to exchange and MTS, DID, or 800 Services. Multiple dedicated trunk groups can be established on the same primary port or group of primary ports.

Direct Inward Dialing Signal - Permits incoming dialed calls from the exchange network to reach a specific number serviced by Customer-premises equipment (CPE) without the assistance of an attendant. It also provides for the unique identification of the call based on digits sent to the CPE by the central office. The central office will outpulse digits to the CPE which can further process the calls as desired.

Equal Access - Allows the Customer to preselect an Intra and Interexchange Carrier for each circuit switched voice or circuit switched data trunk group. The carrier designation can be changed for applicable charges as shown in Section 4, Presubscription-2 (PIC) of this tariff.

A. Integrated Access Bundled Package*

(C)

Integrated Access Bundled Package provides a customer channelized high capacity (1.544 Mbps) facility¹ between a customer premises and its serving office for connection to services provided by Allegiance. Integrated Access Bundled Package allows a customer to integrate voice and data services on a single high capacity facility. The service characteristics and capabilities of the voice services described in this Section are as described in this tariff for multi line business service.

The customer selects a package of 12, 16, 20, or 23 voice lines for local exchange access. The balance of the facility's capacity is available for data applications. The rates herein are for the portion of the service dedicated to voice applications. Charges for nonregulated services and options will apply. The charges for voice lines are inclusive of appropriate End User Common Line Charges (EUCL), Touch Tone and Hunting.

Customers must sign a minimum one (1) year term agreement for Integrated Access Bundled Package. Full termination liabilities are assessed for early termination of service.

¹ Integrated Access Bundled Package will be delivered to customers over T-1 or HDSL access. The decision to use HDSL vs. T-1 is an engineering and provisioning decision made solely at the discretion of the Company and is made based on the availability of HDSL facilities. Customers who fall within reach of an Allegiance HDSL-equipped collocation may have Integrated Access Bundled Package delivered to them via HDSL.

**As of December 31, 2006, this product will only be available to current customers at their current location.*

B. Total Communications – 4 Base Line Package ¹

Total Communications is designed for customers that need high-speed Internet Access and have 4-20 voice channels. The base package includes 4 voice channels and 256K of Internet Access. Customers may increase the amount of voice channels in one-channel increments (up to a maximum of 20 total voice channels). Total Communications integrates voice and data services on a single high capacity facility. The service characteristics and capabilities of the voice services described in this Section are as described in this tariff for multi line business. The customer will select a package of 4 voice lines for local exchange access. The balance of the facilities capacity is available for additional voice or data applications. Charges for non-regulated services and options will apply in addition to the charges referenced below. The charges for voice lines are inclusive of appropriate End User Common Line (EUCL), Hunting, and Touch Tone Charges. Customers must sign a minimum (1) year term agreement for Total Communications. Full termination liabilities are assessed for early termination service. Inclusion of early termination liability by the company in its tariff or a contract does not constitute a determination by the Commission that the termination liability imposed by company is approved or sanctioned by the Commission. Customers shall be free to pursue whatever legal remedies they may have should a dispute arise.

Total Communications Service will be delivered to customers over T-1 or HDSL2 access. The decision to use HDSL2 vs. T-1 is an engineering and provisioning decision made solely at the discretion of the company and is made based on the availability of HDSL2 facilities. Customers who fall within the reach of an Allegiance HDSL2-equipped collocation may have Total Communications delivered to them via HDSL2.

- ¹- Product is no longer available to new customers.
² NRC applies only to add additional lines to existing service.

C. Total Communications – 6 Line Total Communications Package

Total Communications is designed for customers that need high-speed Internet Access and have 6-20 voice channels. The base package includes 6 voice channels and 256K of Internet Access. Customers may increase the amount of voice channels in one-channel increments (up to a maximum of 20 total voice channels). Total Communications integrates voice and data services on a single high capacity facility.

The customer will select a package of 6 voice lines for local exchange access. The balance of the facilities capacity is available for additional voice or data applications. Charges for non-regulated services and options will apply in addition to the charges referenced below. The charges for voice lines are inclusive of appropriate End User Common Line (EUCL), Hunting, and Touch Tone Charges.

Total Communications Service will be delivered to customers over T-1 or HDSL2 access. The decision to use HDSL2 vs. T-1 is an engineering and provisioning decision made solely at the discretion of the company and is made based on the availability of HDSL2 facilities. Customers who fall within the reach of an Allegiance HDSL2-equipped collocation may have Total Communications delivered to them via HDSL2.

¹ NRC applies only to add additional lines to existing service.

Effective: February 25, 2005

3.60 Integrated Services, (Cont'd.)

D. Total Communications – With Digital Handoff

Total Communications with Digital Handoff is designed for customers that need high-speed Internet Access and digital signaling on 6-20 voice channels. The base package includes 6 voice channels and 256K of Internet Access (Note: Internet access is governed by the Federal Communications Commission, the PUCO does not regulate it). The balance of the capacity is available for additional voice or data applications. Customers may increase the amount of voice channels in one-channel increments (up to a maximum of 20 total voice channels). Total Communications integrates voice and data services on a single high capacity facility.

The customer will be responsible for the connection from the Integrated Access Device to their equipment (no connection block will be provided with this service). Customers must digitally accept all of their channels. No more than two trunk groups will be provisioned for any given circuit. No custom calling features are available with this product. The available features are the same as those available with the company's Digital PBX product.

Charges for non-regulated services and options will apply in addition to the charges referenced below. The charges for voice lines are inclusive of appropriate End User Common Line (EUCL), Hunting, Touch Tone, and LNP charges. DID pricing can be found in Section 3.4.2 of this tariff. Customers must sign a minimum (1) year term agreement for Total Communications. Full termination liabilities are assessed for early termination of service. Inclusion of early termination liability by the company in its tariff or a contract does not constitute a determination by the Commission that the termination liability imposed by company is approved or sanctioned by the Commission. Customers shall be free to pursue whatever legal remedies they may have should a dispute arise.

LOCAL EXCHANGE SERVICES

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.61 Local Exchange Usage

Two types of local exchange usage are available: measured and message.

A. Measured Rate Services

The local usage charges are based upon four measured elements, i.e., the total number of outgoing local messages, the distance and the duration of each local message and the time of day each local message is originated, subject to the following:

1. Distance

The charges for local messages vary based on the airline distance (i.e., rate mileage) between the rate centers of the central offices serving the calling and called stations, determined in the same manner as message toll rate distances.

2. Duration

- a. A charge applies for the initial minute, or fraction thereof, and for each additional minute, or fraction thereof.
- b. A local message is considered as starting at the time telephone communication is established between the calling station and the called telephone number.
- c. Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by the automatic timing equipment in the telephone network.
- d. Chargeable time does not include time lost because of faults or defects in the service.

LOCAL EXCHANGE SERVICES

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.61 Local Exchange Usage, (Cont'd.)

A. Measured Rate Services, (cont'd.)

3. Time of Day

- a. Discounts apply to the total charges for local measured usage during certain time periods as outlined below:

No discount	8:00 AM to 9:00 PM*	Monday through Friday
50% discount	9:00 PM to 8:00 AM*	Monday through Friday
(All day Saturday, Sunday and Holidays)		

*To, but not including.

- b. The holidays on which a 50% discount applies are Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day and Labor Day, or on resulting legal holidays when Christmas, New Year's or Independence Day legal holidays fall on dates other than December 25, January 1, or July 4 respectively.
- c. In cases where a local measured usage begins in one time period and ends in another, the charges in effect at the time the message starts apply to the entire message.

B. Message Rate Services

Message Rate Service consists of fixed monthly rate for usage packages which include a monthly local usage allowance in the monthly rate. Each local call is charged on a message unit basis and an additional charge is made for local messages in excess of the allowance. The allowance, if not used during one month, is not credited to the customer's account for any other month that service is provided.

1. Rates and Charges - (Note: Access Line Monthly Rates apply in addition.)

Description	Usage Package Monthly
	Rate
Business Line	Max \$18.45
Business Trunk	\$30.00

(a) Local Message Allowances and Charges

The monthly rates for usage packages associated with message rate services include the number of local messages specified below:

1) Usage Package Allowances	Max
Residential	90
Business (All)	200

2) The charge per additional local message is:

Max	\$0.24

3.63 Special Construction

A. General

Subject to the agreement of the Company and to all of the regulations contained in this tariff, special construction of Company Facilities may be undertaken by the Company on a reasonable-efforts basis at the request of the Customer. Special Construction is that construction undertaken:

- A. where facilities are not presently available, and there is no other requirement for the facilities so constructed; or
- B. of a type other than that which the Company would normally utilize in the furnishing of its services; or
- C. over a route other than that which the Company would normally utilize in the furnishing of its services; or
- D. in a quantity greater than that which the Company would normally construct;
- E. on an expedited basis; or
- F. on a temporary basis until permanent facilities are available;
- G. involving abnormal costs; or
- H. in advance of its normal construction; or
- I. when the Company furnishes a facility or service for which a rate or charge deviates from those contained in this Company's tariffs.

B. Customer Acceptance

Rates and charges for special construction shall be determined and presented to the Customer for its approval prior to the start of construction. No construction will commence until and unless the Customer accepts in writing the rates and charges as presented by the Company.

Effective: February 25, 2005

LOCAL EXCHANGE SERVICES

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.63 Special Construction, (Cont'd.)

C. Cost Computation

Special Construction costs may include one or more of the following items to the extent that they are applicable:

- A. The installed cost of the facilities to be provided including estimated costs for the rearrangements of existing facilities. The installed cost includes but may not be limited to the cost of:
 - 1) equipment and materials provided or used;
 - 2) engineering, labor and supervision;
 - 3) transportation;
 - 4) rights of way; and
 - 5) shipping and delivery.
- B. cost of maintenance;
- C. depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage;
- D. administration, taxes and uncollectible revenue on the basis of reasonable average costs for these items;
- E. license preparation, processing and related fees;
- F. tariff preparation, processing and related fees;
- G. any other identifiable costs related to the facilities provided; or
- H. an amount for return and contingencies.

Effective: February 25, 2005

LOCAL EXCHANGE SERVICES

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.63 Special Construction, (Cont'd.)

D. Termination Liability

To the extent that there is no other requirement for use by the Company and where the Company cannot fully recover its cost(s) if the Customer disconnects a specially-constructed facility or service, a termination liability shall apply for facilities specially constructed at the request of the Customer. Inclusion of early termination liability by the company in its tariff or a contract does not constitute a determination by the Commission that the termination liability imposed by company is approved or sanctioned by the Commission. Customers shall be free to pursue whatever legal remedies they may have should a dispute arise.

1. The termination liability period is the estimated service life of the facilities provided.
2. The amount of the maximum termination liability is equal to the estimated amounts for:
 - A) Installed cost of the facilities provided including estimated costs for rearrangements of existing facilities and/or construction of new facilities as appropriate, less net salvage. The installed cost includes but may not be limited to the cost of:
 - 1) equipment and materials provided or used;
 - 2) engineering, labor and supervision;
 - 3) transportation;
 - 4) rights of way; and
 - 5) shipping and delivery.
 - B) license preparation, processing and related fees;
 - C) tariff preparation, processing and related fees;
 - D) cost of removal and restoration, where appropriate; and
 - E) any other identified costs related to the specially constructed or rearranged facilities.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.63 Special Construction, (Cont'd.)

D. Termination Liability, (cont'd.)

3. Calculating Termination Charges B Termination charges shall be computed in accordance with tariff regulations in Section 3.63 and 3.63 or contractual agreements in effect. The termination liability method for calculating the unpaid balance of a term obligation is obtained by multiplying the sum of the amounts determined as set forth herein by a factor related to the unexpired period of liability and the discount rate for return and contingencies. The amount determined herein shall be adjusted to reflect the redetermined estimated net salvage, including any reuse of the facilities provided. This amount shall be adjusted to reflect applicable taxes.

3.64 Non-routine Installation and/or Maintenance

At the Customer's request, non-routine installation may be provided by the Company. Non-routine installation may include, but not be limited to, installation and/or maintenance performed outside the Company's regular business hours, on an expedited basis outside of the standard installation intervals, involving special construction, or (at the Company's sole discretion and subject to any conditions it may impose) in hazardous locations. In such cases, charges based on the cost of labor, material, and other costs incurred by or charged to the Company will apply. The Customer may be charged a non-recurring charge to recover these costs incurred by the Company. These non-recurring charges will be determined on an ICB basis and will be agreed upon by the Customer and the Company. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

3.65 JustCom Service

JustCom Service is a bundled small business package of four exchange access lines. The product offers local usage, intrastate and interstate outbound and toll-free long distance usage, eight custom calling features and a directory listing for a single flat-rated price. JustCom Service is available to customers on a month to month basis with no term or volume requirement in accordance with the terms of use specified in 3.65.1 below. The Basic Package includes:

Four (4) basic business lines	Call Forward Variable*
Unlimited Local Calling	Speed Dial 30
Unlimited IntraLATA Minutes	Voice Mail
Unlimited InterLATA Minutes	Call Forward Busy*
Caller ID Name & Number	Call Forward No Answer*
3-Way Calling	
Call Waiting	

3.65.1 Terms of Use The following restrictions apply to JustCom Service:

- Call-center applications are prohibited, including, but not limited to, auto-dialers.
- Non-standard (e.g., excessive) internet connections and other data are prohibited. Services have been engineered to meet typical peak hour usage and anything beyond such use shall be considered non-standard.
- Any use not consistent with standard business use, as reasonably defined by the Company.

* Hunting may be substituted for the Call Forwarding features.

3.66 Historic Invoices

The Company will furnish, upon Customer's request, copies of invoices which were originally issued to the Customer more than thirteen months prior to the request or copies of invoices that are available on-line, but that customer does not wish to retrieve from the available on-line system. Customers can request the invoice in one of two formats: electronic copy (portable data file/.pdf) or CSV/CD of Call Detail Record. Customer will be charged based on the format requested and on a per invoice basis.

<u>Format</u>	<u>Rate Per Invoice - Maximum</u>
Electronic	\$20.00
CSV/CD of CDR	\$50.00
