BQ. AT&T ONE RATE (CPMWM, CPMHE)

(T)

Beginning October 17, 2000 and ending April 30, 2002, AT&T will provide the plan rates specified below to eligible customers. New or existing AT&T residential customers who satisfy the following conditions can enroll in this plan: 1) are presubscribed to AT&T as their primary interexchange carrier, and 2) are presubscribed to AT&T as their primary intraLATA toll carrier. Customers must enroll in this offer by completing and returning an enrollment form provided by AT&T, calling an AT&T designated 800 number or by enrolling during a marketing contact with AT&T.

The intrastate AT&T One Rate is an add-on to the interstate AT&T One Rate, and the terms and conditions are contained within the consumer AT&T Service Guide CPM01005DD.

Eligible Calls - AT&T intrastate Dial Station calls are eligible for the plan rates.

Rates and Charges# - A Minimum Monthly Usage Charge applies to customers subscribing to this plan as specified in the Service Guide. Rates and service charges for calling card calls and operator-handled calls apply, as specified in Section 6.PL.

This plan is available where facilities and billing capabilities permit.

Material on this Sheet was previously found in Section 1.

CI. AT&T ONE RATE STATE PLAN (TLHGM/TLHGN/BLKF7)

(N)

A. General

This plan is offered in conjunction with AT&T's interstate Service Guide LSB04001DD. Terms and conditions contained within that Service Guide also apply.

This plan provides customers a local access line; unlimited direct dialed local, intraLATA toll, in-state long distance calling; a per minute rate 24 hours a day, seven days a week on all direct dialed station state-to-state calling; and a choice of three custom calling features for a monthly recurring charge.

Customers who have or choose AT&T as their Primary Carrier for local, intraLATA toll, and long distance service may enroll in this plan. Except as set out in Rate and Charges below, Customers of this plan who have been automatically moved to one of the former SBC Incumbent Local Exchange Carriers ("SBC ILEC") for their Local Telephone service shall be treated for all purposes under this plan as if they had AT&T as their Primary Carrier for Local Telephone service.

This plan provides unlimited minutes of direct dialed calling for residential voice service only. If it is determined that use is not consistent with residential voice applications, such as for internet access services, commercial facsimile or auto-dialing, resale, telemarketing or other non-residential uses, AT&T may immediately suspend, restrict, or cancel the customer's service.

If the customer's AT&T Main Billed Account has multiple lines associated with it, a Monthly Recurring Charge will apply to each line subscribed to this plan. Unlimited direct dialed local, intraLATA toll, and in-state long distance calling will not be combined with other access lines not subscribed to this plan. Usage charges for intraLATA toll and in-state long distance calls from multiple lines not subscribed to this plan will apply.

There will be no individual call detail on the AT&T billing statement that is associated with the direct dialed station local, intraLATA toll and in-state long distance calls that are included in this plan.

This plan is available where billing and technical capabilities exist.

CJ. AT&T UNLIMITED LOCAL TOLL CALLING (BLKZH)

(N)

A. GENERAL

This plan offers residential customers unlimited intraLATA toll direct dialed station calling 24 hours a day, seven days a week for a monthly recurring charge.

To participate in this plan the customer

- 1) must have been enrolled in the AT&T Expanded Call Plan Deluxe or the AT&T Local Service Overlay (TLHAT) and was automatically moved to this plan by AT&T;
- 2) Continuously maintain AT&T as a Primary Long Distance Carrier.
- 3) Continuously maintain AT&T or an AT&T affiliated local telephone company (i.e., the former SBC Incumbent Local Exchange Carriers) as the local exchange company.

This plan includes AT&T voice direct dialed station intraLATA toll calls that are 1) made from the home, 2) Billed to the main residential telephone account and 3) made without using an AT&T operator or an AT&T automated call processing system.

AT&T will provide the benefits of this plan until one or more of the following events occur:

- 1) AT&T changes and/or discontinues this plan.
- 2) If the customer continues to subscribe to AT&T as the Primary Long Distance Carrier, and AT&T is notified that the customer is no longer a subscriber to AT&T or an AT&T affiliated Incumbent Local Exchange Carrier as the Local Telephone Carrier, the customer's current intraLATA toll rates associated with the in-state long distance plan that the customer currently subscribes to will apply.
- 3) AT&T is notified that the customer is no longer a subscriber to AT&T as the Primary Long Distance Carrier. Discontinuance of this plan will be effective as of the date AT&T's records show that the customer is no longer a subscriber to AT&T as the Primary Long Distance Carrier.
- 4) The customer notifies AT&T that the subscriber wants to withdraw from this plan.

District Manager, Chicago, Illinois

P.U.C.O. No. 3  
OPTIONAL TOLL SERVICE

CJ. AT&T UNLIMITED LOCAL TOLL CALLING (BLKZH) (Cont'd)

(N)

A. GENERAL (Continued)

AT&T will bill for this plan based on the following:

- 1) If the main residential telephone account has multiple lines associated with it, a Monthly Recurring Charge will apply to each line associated with this plan. Unlimited direct dialed intraLATA toll calling will not be combined with other access lines that are associated with the main residential telephone account.
- 2) The following conditions apply to the Monthly Recurring Charge (MRC) component of this plan. The MRC is:
  - a. Billed in advance (two MRCs will be charged to the account in the first billing month, which apply to the month the customer enrolled as well as the next month).
  - b. Applied whether or not any calls are made.
  - c. Applied in full whether or not the billing period covers a full month.
- 3) This plan provides unlimited minutes of intraLATA toll direct dial calling for residential voice service only. If it is determined that any intraLATA toll usage is not consistent with residential voice applications, such as for Internet access services, commercial facsimile or auto-dialing, resale, telemarketing, or other non-residential uses, AT&T may immediately suspend, restrict or cancel the Customer's service without prior notice.
- 4) There will be no individual call detail on the AT&T billing statement that is associated with the unlimited direct dialed intraLATA toll calls that are included in this plan. For these calls, this means there will be no indication of originating or terminating points called, time of day called, or a list of the number of minutes called.

B. RATES AND CHARGES#

A Monthly Recurring Charge applies and includes unlimited calling of direct dialed station intraLATA toll calls made to residential telephone lines that are presubscribed to AT&T as the Primary Long Distance Carrier.

C. AVAILABILITY

This plan is available in limited areas. It is only available to customers who were automatically placed on this plan by AT&T by meeting the requirements described above. This plan is subject to billing and technical availability and is available where AT&T provides and issues the bill.

(N)

# Refer to the PRICE LIST for presently billed rates.

## 51. CASUAL CALLING SERVICES

## 51.1 Description

(N)

AT&T Casual Calling Services permit callers to access AT&T's switched network for completion of their intrastate long distance Dial Station calls by dialing carrier access code 1010288 or 1010345. Rates for 1010288 are specified in the Price List section of this tariff. Rates for 1010345 are specified in P.U.C.O. NO. 3, Section PL.6.

## 51.2 Non-Subscriber 1010288 Service

Non-Subscriber 1010288 Service is available for intrastate Dial Station calls placed from points within the state of Ohio and billed to the Customer's business telephone account that is not presubscribed to AT&T as the primary interexchange carrier. Access to Non-Subscriber 1010288 Service for Dial Station calls must be made by dialing carrier access code 1010288. The Customer is responsible for any 1010288 charges billed to the Customer's account regardless of how the carrier access code is dialed.

Non-Subscriber 1010288 Service does not include:

- conference calls,
- calls to AT&T Directory Assistance;
- calls to "00" INFO;
- calls completed via "00" INFO;
- calls to 800 and 900 telephone numbers;
- Telecommunications Relay Service calls;
- calls placed from cellular phones;
- calls made by Customers with Disabilities who are Certified as described in Custom Network Services-Service Guide located at:  
<http://www.att.com/serviceguide/business>.
- calls billed to a business telephone account for which presubscription to AT&T has been discontinued, but an active billing record for such account still exists in AT&T's billing system. These calls will be rated at Dial Station rates as described in the Price List for Commercial intrastate long distance. In addition, the Monthly recurring charge, as described in the Price List for Commercial intrastate long distance, applies in any month that a subscriber makes a call at these rates.

(N)

Issued: January 31, 2008

Effective: January 31, 2008

Filed under authority of Entry issued by the Public Utilities Commission of Ohio, in Case No. 90-9000-TP-TRF.

Carol Paulsen, Director  
San Antonio, TX

51. CASUAL CALLING SERVICES

51.2 Non-Subscriber 1010288 Service (Continued)

(N)

AT&T will also credit the charges for Non-Subscriber 1010288 Service reported by Customers during an F.C.C. reportable incident of service outage by another interexchange carrier. To receive either of these credits, Customers must contact AT&T through an 800 number designated for billing inquiries. Applicable Dial Station charges will apply for all completed calls for which a credit is received. The credit will be given either in the form of a bill credit, or a long distance Certificate, at AT&T's discretion.

51.2.1 Availability

The application of charges for Non-Subscriber 1010288 Service is subject to billing availability.

51.2.2 Rates and Charges

Usage charges and a per-call Service Charge apply to each completed call.

Service Charges associated with Non-Subscriber 1010288 Service apply in addition to all other applicable Service Charges and Surcharges.

Charges are applicable 24 hours-a-day, 7 days-a-week. Duration of each call is recorded in whole minutes, with partial minutes rounded up to the next whole minute (for example, a 45 second call will be billed as a one-minute call).

The rate schedules applicable to Non-Subscriber 1010288 Service are specified in the Price List of this tariff.

3.3 Non-Subscriber 1010345 Service

For description, applicable rates and charges see P.U.C.O. No. 3, Section 6.

(N)

Issued: January 31, 2008

Effective: January 31, 2008

Filed under authority of Entry issued by the Public Utilities Commission of Ohio, in Case No. 90-9000-TP-TRF.

Carol Paulsen, Director  
San Antonio, TX

52. INITIAL SUBSCRIPTION

52.1 Description

(N)

Initial subscription to AT&T for toll or instate long distance services is made through local service provider and AT&T does not yet have billing, name, address or any other account data to know that this is an AT&T pre-subscribed Customer. Notification from the local provider could take up to 45 days.

52.1.1 Credits

AT&T will credit the charges for Non-Subscriber 1010288 Service reported by newly presubscribed AT&T Customers during the period between pre-subscription and administrative processing of the new Customer.

52.1.2 Availability

The application of charges for Initial Subscription is subject to billing availability.

52.1.3 Rates and Charges

Usage charges apply to each completed call.

Charges are applicable 24 hours-a-day, 7 days-a-week. Duration of each call is recorded in whole minutes, with partial minutes rounded up to the next whole minute (for example, a 45 second call will be billed as a one-minute call).

The rate schedules applicable to Initial Subscription are specified in the Price List of this tariff.

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.4 FEATURES

The following feature descriptions are applicable to all AT&T Local Exchange Services Customers.

Optional features are available with AT&T Local Exchange Services. Customers may order features individually or as part of a Feature Package, as shown below. (Feature Packages are not available for ACC Business.) Monthly Recurring Charges associated with features are applied on a per-line basis, and are in addition to any other applicable charges. Usage charges also apply to some features. The Company is not responsible for the compatibility of products and services of outside vendors. The following optional features and feature packages may be ordered:

- A. Call Forward Busy - This feature allows the customer to designate a telephone number to which their calls will be forwarded to in the event that their number is already in use. The Customer assumes financial responsibility for all calling charges generated by the use of this feature.
- B. Call Forward Don't Answer - This feature allows the customer to designate a telephone number to which their calls are forwarded to after a predetermined time with no answer. The Customer assumes financial responsibility for all calling charges generated by the use of this feature.
- C. Call Forward Variable - This feature enables a customer to program their telephone to forward their calls to another telephone number. The Customer assumes financial responsibility for all calling charges generated by the use of this feature.
- D. Call Waiting/Cancel Call Waiting - The Call Waiting feature enables a customer already on a call to be notified of another call by the sound of a Call Waiting tone. The customer depresses the switchhook to answer the new call, placing the original call on hold. The Cancel Call Waiting feature enables a customer to deactivate the Call Waiting feature. There is no additional charge for the Cancel Call Waiting feature.

---

7. AT&T LOCAL EXCHANGE SERVICES

7.4 FEATURES (Cont'd)

- E. Speed Dialing 8 - This feature allows the customer to use 1-digit speed calling to complete calls. Up to 8 numbers can be stored in memory.
- F. Three-Way Calling - This feature allows the customer to connect a third party call to an existing call. The Customer assumes financial responsibility for all calling charges generated by the use of this feature.
- G. Caller ID - This feature permits the display of a caller's telephone number on a Customer Premise Equipment display unit. Calling party information may indicate the directory number of the calling party or show that the number of the calling party is private or unavailable.
- H. Caller ID Blocking-Per Line - A calling party may block the passage of his/her telephone number or associated main listed name to users of or subscribers to AT&T Local Exchange Services which utilize Signaling System 7 (SS7) technology.

The customer must contact the Telephone Company's business office to order Caller ID Blocking-Per Line. The purchase of Caller ID is not required. All calls automatically blocked when a customer subscribes to line blocking unless the blocking feature is deactivated.

If a customer subscribes to line blocking, he/she can deactivate blocking by dialing a special code (\*82) prior to placing a call. Blocking will be deactivated for that outgoing call only.

Caller ID Blocking-Per Line is provided without charge.

---

P.U.C.O. NO. 8

---

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.4 FEATURES (Cont'd)

- I. Caller ID Blocking-Per Call - Caller ID blocking is also available on a per call basis. Caller ID Blocking Per Call is automatically enabled for all customers with AT&T Local Exchange Services. The purchase of Caller ID is not required.

Caller ID Blocking-Per Call is activated by dialing a special code (\*67) prior to placing a call. Blocking will be activated for that outgoing call only.

Caller ID Blocking-Per Call is provided without charge.

- J. Caller ID with Name

This feature permits the display of a listed name associated with telephone number from which the call is being made. The name and number will be delivered to a customer-provided display device.

- K. Caller ID with Call Waiting

This feature provides customers the ability to see the number or the name of the calling party while engaged in a telephone conversation. Customers must subscribe to both Caller ID and Call Waiting features. When customers subscribe to Caller ID with Call Waiting, they receive the functionality of both Call Waiting and Caller ID along with an alert signal indicating that another caller is attempting to call. There is no additional charge for Caller ID with Call Waiting.

- L. Distinctive Ring Service

This feature enables the customer to have two telephone numbers assigned to a single analog line. Each telephone number will have a unique ringing pattern. Customers have the option of having the additional telephone number listed in the directory.

---

P.U.C.O. NO. 8

---

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.4 FEATURES (Cont'd)

## M. Anonymous Call Rejection (ACR)

This feature allows the subscriber to automatically reject calls from callers who block delivery of their name or telephone number. Customers activate Anonymous Call Rejection by pressing \*77. Customers cancel ACR by pressing \*87. It does not block calls from numbers that are unavailable.

Blocked calls or calls marked private are routed to an announcement that will indicate that the called party is not accepting calls from parties with private numbers. Anonymous Call Rejections will be automatically provisioned (free of charge) to all AT&T Local Service Caller ID services customers.

## N. Remote Access to Call Forwarding (RACF)

This feature allows a customer to activate/deactivate the automated transfer of their incoming calls to another telephone number. Users subscribing to RACF must also have or subscribe to Call Forward Variable feature. RACF requires a local dial-in telephone number be provided to the customer. Customer uses a four-digit PIN to access the call-forwarding feature. The user gains remote access to the Call Forward Variable feature from a touch-tone telephone at a remote location.

## O. Selective Call Rejection

This feature allows the customer to prevent calls from an unwanted caller whose number has been added to the customer's selective call rejection list. Customers can activate Selective Call Rejection by pressing \*60. Customers can cancel Selective Call Rejection by pressing \*80. Once activated, unwanted telephone numbers are routed to a recorded message informing the caller that the called party does not wish to accept their call. Up to 31 telephone numbers may be stored.

---

P.U.C.O. NO. 8

---

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.4 FEATURES (Cont'd)

## P. Call Transfer

This feature allows a subscriber to transfer an established call to any other line without requiring the assistance of an operator or attendant. The user is responsible for all usage charges associated with the transferred call for the duration of the call.

## Q. Call Trace

This feature permits the user to activate an immediate trace of a prank or harassing call by hanging up and dialing \*57. When Call Trace is initiated, the Customer's telephone number and the telephone number of the last received calling party number are captured and made available to the Customer's local law enforcement agency. After dialing \*57, the Customer receives a recording indicating the trace was successful. The Customer may then call Customer's local law enforcement agency to pursue further action. The Company does not represent that any local law enforcement officials will take action with regard to the traced call. The charge for Call Trace is assessed on a per use basis. The Customer will be charged only for successful traces.

In addition to, and not in limitation of, the provisions in Section 2 of this tariff, the Company's liability, if any, other than for its gross negligence or willful misconduct, with respect to any claim or suit brought by, or other legal remedies available to the Customer for damages associated with the success or failure of Call Trace, shall not exceed the charge that the Customer incurred for Call Trace. Except as provided above, the Customer indemnifies and saves the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the use of Call Trace.

---

Michael W. Tye, President  
Chicago, Illinois

P.U.C.O. NO. 8

---

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.4 FEATURES (Cont'd)

## R. Call Return

This feature redials the number of the most recent incoming call to the Customer's telephone number. This feature is activated when the user dials \*69. The number of the most recent incoming call will then be dialed for up to 30 minutes and the user will be signaled with a special ring if the called number becomes available. The user will be charged each time this feature is activated, regardless of whether the called party answers. Calls completed with this feature will be subject to all appropriate local, local toll and/or long distance charges. This feature cannot be activated when the number of the most recent incoming call has call or line blocking or is otherwise unavailable. The following limitations apply to the Call Return function:

- 3-Way Calling: Call Return will only work for the first party called, not for the second.
- Call Return will not work to call a customer who has Call Forwarding Variable, or to call a toll-free, 900 or private number.
- Repeat Dialing cannot be used right after Call Return is used, unless the user dials an outgoing call.

## S. Speed Dialing 30

This feature allows the customer to use two-digit speed calling to complete calls. Up to 30 numbers can be stored in memory. Speed Dialing 30 is only available with ACC Business Service, All In One Service and AT&T Business Network Service.\*

(T)

\*Effective April 15, 2007, Speed Dialing 30 is not available to newly subscribed AT&T Business Network customers.

Effective: April 15, 2007

Filed under authority of Entry issued by the Public Utilities Commission of Ohio, in Case No. 07-415-TP-ZTA

Michael W. Tye, President  
Chicago, Illinois

---

P.U.C.O. NO. 8

---

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.4 FEATURES (Cont'd)

## T. Remote Call Forwarding

Remote Call Forwarding (RCF) is a service whereby a call placed from a station (the originating station) to a customer's (the RCF customer) telephone number (the call forwarding location) is automatically forwarded by Company central office equipment to another station designated by the RCF customer (the terminating station). Calls forwarded with this feature will be subject to all appropriate local, local toll and/or long distance charges from the call forwarding location to the terminating station.

## Limitations:

- 1) Remote Call Forwarding service is offered subject to availability of suitable facilities.
- 2) RCF service is not offered where the terminating number is a coin or coinless pay telephone.
- 3) The Company does not guarantee identification of the originating telephone number to the Remote Call Forwarding customer.
- 4) Transmission quality may vary depending on the distance and routing necessary to complete a call. Since RCF service "tandems" two calls into one call, normal transmission quality is not assured for calls forwarded via RCF. Nonetheless, the resulting transmission performance will generally meet the RCF customer's voice-grade needs. Service arrangements which tandem more than two calls into one are more likely to result in unacceptable transmission quality; therefore, the Company will not knowingly forward calls via RCF to another telecommunications service arranged for permanent call forwarding. This policy can be administered only at the time RCF is ordered, and applies only in the forwarding direction.

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.4 FEATURES (Cont'd)

## U. Repeat Dialing

This feature allows the user to redial the last number dialed. To activate this feature, the user dials \*66. The last number dialed will then be redialed for up to 30 minutes and the user will be signaled with a special ring if the called number becomes available. The user will be charged each time this feature is activated regardless of whether the called party answers. Calls completed with this feature will be subject to all appropriate local, local toll and/or long distance charges. The following limitations apply to the Repeat Dial function when used with other features:

- Call Forwarding: Repeat Dialing may be denied when used to call numbers with Call Forwarding features.
- The following types of calls will be denied when Repeat Dialing is initiated: 911, 411, 611, Busy Line Verification calls, Directory Assistance calls, Operator Assisted calls, and Partial dials.
- The following types of calls may be marked invalid: 800, 900, and 20+ digit calls.
- 3-Way Calling: Repeat Dialing will only work for the first party called, not for the second.

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.4 FEATURES (Cont'd)

## W. Incoming Call Redirect Option

Incoming Call Redirect (ICR) provides automated redirection of incoming calls to a predesignated back-up site during T1 or PBX failures or when all trunks are busy. This option is available with DS1-Digital Facilities, ISDN PRI and Digital Trunks service only.

ICR can redirect all or only pre-selected DID numbers, depending on the customer's application. Calls are redirected to another set of telephone numbers (Destination Numbers), and can route to the LEC trunks at the same location or distant locations. A separate route index will be set up for the redirection of selected DID numbers. Redirected calls will route to a single number at the pre-designated back-up site, and will deliver the original calling number if the back-up site is configured for PRI and Calling Party Number. It is the responsibility of the customer to obtain any necessary permission for the use of any Destination Number.

If ICR is ordered at two or more sites that provide back up to one another, the back up telephone number cannot be a number which can be redirected.

ICR is limited to a maximum of ten simultaneous redirected calls per T1, a maximum of twenty-four simultaneous calls for trunk groups of one to four T1s, and a maximum of forty-eight simultaneous calls for trunk groups of five T1s or more. A maximum of two (2) trunk groups per location can be equipped with ICR.

Customers will be responsible for all usage charges associated with redirected calls.

## X. Original Called Number (OCN)

(T)

This feature, which must be ordered for specific ALS ISDN PRI trunks, places the callers original dialed digits into the OCN field of the selected ISDN message for inbound calls which have been forwarded one or more times. These ISDN messages, containing OCN information, will be transmitted over the designed Data-Channels (D-Channels, primary, secondary, and back up on the ISDN trunk.

7. AT&T LOCAL EXCHANGE SERVICES

7.4 FEATURES (Cont'd)

Y. Preferential Hunt

This feature enables incoming calls to a specific number within a hunt group to hunt over a unique hunting sequence of lines within the hunting group. The unique hunting sequence is other than that encountered when a caller dials the first telephone number in the hunt group. Preferential Hunt is available to customers with two or more lines.

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.13 AT&amp;T ALL IN ONE (Cont'd)

## B. Monthly Usage

AT&T Local Exchange Service Customers who select flat rate Local Exchange Services in conjunction with their use of AT&T All In One Plan A Flat Rate\* or Plan B Flat Rate service will be charged a per-line monthly flat rate that entitles the Customer to the use of the local business line and local calling at no additional charge up to a maximum of; (1) for AT&T All In One Plan A Flat Rate\* Service, 1,500 minutes of local calling in any billing period; or (2) for AT&T All In One Rate Plan B Service 1,450 minutes of local calling in any billing period. In billing periods in which such Customers exceed the designated maximum of local calling per-line available under the applicable plan, the Customer will be billed in full minute increments that is equal to the AT&T All In One Local Exchange Service usage rate, as stated in the Price List Fractional minutes will be rounded up to the next full minute increment. All lines at the customer's location must be scribed to the same plan.

AT&T All In One Advantage Plan and AT&T All In One Advantage Term Plan will be charged a flat monthly rate per-line that entitles the customer the use of the local business line, unlimited local calling, and optional features as described C. and D. following.

## C. AT&amp;T All In One Advantage Plan\*

(T)

Customers subscribing to AT&T All In One Advantage Plan must also subscribe to AT&T All In One Advantage Plan long distance service as described in AT&T's Business Services Guide and may not be ordered in conjunction with any other AT&T All In One Rate Plan.

The monthly recurring line charge includes unlimited local calling and the following features: Call Forward Busy, Call Forward Variable, Call Waiting, Speed Dialing 8 and Three Way Calling. Other local features, Directory Assistance, Operator Assisted and local one-time, per use, and monthly recurring charges are not included.

\*Effective November 5, 2007, AT&T All In One Advantage Plan (Month-to-Month) is not available to newly subscribed customers. Existing customers with AT&T All In One Advantage Plan in effect or on order prior to November 5, 2007 may continue service with their current plan. Existing customers may add new lines and/or features but will not be permitted to move from one local All In One plan to another. Additional new locations are not permitted in this state.

7. AT&T LOCAL EXCHANGE SERVICES

7.13 AT&T ALL IN ONE (Cont'd)

D. AT&T All In One Advantage Term Plan\*

Customers subscribing to AT&T All In One Advantage Term Plan must also subscribe to AT&T All In One Advantage Term Plan long distance service as described in AT&T's Business Services Guide and may not be ordered in conjunction with any other AT&T All In One Rate Plan. Customers must commit to a term of eleven consecutive months. Upon expiration of the term, the customer will continue to receive service at the same rates with no renewal or extension of the customer commitment required. However, rates and terms and conditions will be subject to change on or after June 7, 2007.

The monthly recurring line charge includes unlimited local calling and the following features: Call Forward Busy, Call Forward Variable, Call Waiting, Speed Dialing 8 and Three Way Calling. Other local features, Directory Assistance, Operator Assisted and local one-time, per use, and monthly recurring charges are not included.

1) Termination of Plan by Customer

If the customer terminates the plan prior to the expiration of the term period, the customer may be liable for a Termination Charge of \$75.00 per participating location.

\*Effective May 1, 2006, AT&T All In One Advantage Term Plan is not available to newly subscribed customers. Existing customers may add new lines but no new locations are permitted.

Material previously appearing on this page now appears on Page 54.

## P.U.C.O. NO. 8

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.14 AT&amp;T BUSINESS NETWORK

This section describes rates and charges for AT&T Local Exchange Services offered in conjunction with AT&T Business Network service. The AT&T Business Network Long Distance service is described in this state's Custom Network Services Tariff, P.U.C.O. No. 5.

## Rating of Calls

Individual calls will be measured with a minimum initial period of 1 minute and additional 1 minute increments.

## Usage Rates

AT&T Business Network usage rates are available only when the Calling Party Number is the same as the Billing Telephone Number (BTN) or the Local Account Number Identifier (LANI).

Effective September 3, 2003, local usage rates are no longer applicable for Cincinnati (LATA 922); rates will now be Flat Rated.

## Time Periods

Day, Evening and Night/Weekend rates apply as follows for AT&T Business Network calls:

	<u>From</u>	<u>To, But Not</u> <u>Including</u>	<u>Days Applicable</u>
Day	8:00 AM	5:00 PM	Monday - Friday
Evening	5:00 PM	11:00 PM	Sunday - Friday
Night/Weekend	11:00 PM	8:00 AM	All days
	8:00 AM	11:00 PM	Saturday
	8:00 AM	5:00 PM	Sunday

AT&T may begin billing customers the monthly recurring charges for access when the customer refuses or delays installation of service. If the customer reschedules or refuses service after 30 days of their Firm Commitment date, AT&T may bill the customer the monthly recurring charges for access beginning thirty-one (31) days after the original installation date.

AT&T may begin billing customers the monthly recurring charges for access as a result of the customer's vendor not showing up at the time of cutover. The first time the customer's vendor does not show up, the customer will be requested to reschedule a new date within 14 days. If the customer's vendor is a No Show twice, AT&T may begin billing the customer the monthly recurring charges for access.

Issued: May 31, 2006

Effective: June 30, 2006

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.15 DS-1 DIGITAL FACILITIES

## A. Description

DS-1 Digital Facilities is a digital service providing dedicated connections from an end user's digital Private Branch Exchange (PBX), key system, or hybrid device to the AT&T Local Service Switch Port.

The Customer may opt to utilize AT&T Local Exchange Services-DS-1 Digital Facilities for outgoing calls only (DOD), incoming calls terminated directly to an end user behind a PBX or capable key system (DID), a combination of both incoming calls to an attendant and outgoing calls (Two-way Combo), or a combination of both incoming calls directly to an end user and outgoing calls (DID/DOD). When DID or DID/DOD service is ordered, direct inward dialing (DID) numbers must be purchased from the Company. AT&T Local Exchange Services-DS-1 Digital Facilities is available where facilities and operating systems exist. AT&T Local Exchange Services-DS-1 Digital Facilities includes Touch-Tone.

DS-1 Digital Facilities may be provisioned as a standalone service or provisioned over an existing or new AT&T ACCU-Ring facility, Dedicated Entrance Facility (DEF) or Ultravailable Ring (UVN).

Customers utilizing AT&T Local Exchange Services-DS-1 Digital Facilities must subscribe to a sufficient number of DS1 facilities to adequately handle the volume of traffic offered (received or originated) without interfering with any of the services offered by the Company. The number of DS-1 facilities required to adequately handle such traffic will be determined by Company measurements. In the event that an inadequate number of DS-1 facilities cause interference, the Company shall have the right to discontinue service without prior notification to the Customer.

AT&T Local Exchange Services-DS-1 Digital Facilities is offered in conjunction with an associated long distance service offering provided by AT&T: AT&T Business Network or AT&T OneNet.

P.U.C.O. NO. 8

---

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.16 ISDN PRI

## A. Description

AT&T Local Exchange Services-ISDN PRI is an optional service arrangement for local exchange access based on the Primary Rate Interface (PRI) arrangement of the Integrated Services Digital Network (ISDN). AT&T Local Exchange Services-ISDN PRI is a high capacity access path for communications providing voice or data transmission over the Company's exchange network. AT&T Local Exchange Services-ISDN PRI is available where facilities and operating systems exist.

AT&T Local Exchange Services-ISDN PRI is an alternative for individual local exchange access loop services such as Direct Inward Dialing (DID) and Direct Outward Dialing (DOD). It can also be used as loop transport for circuit switched data.

ISDN describes the end-to-end digital telecommunications network architecture that provides for the simultaneous access, transmission, and switching of voice, data, and imaging services. These functions are provided via channeled transport facilities over a limited number of standard user-network interfaces. The ISDN architecture consists of digital switching systems that connect Primary Rate Interface (PRI) lines to their serving central office.

AT&T Local Exchange Services-ISDN PRI is provisioned on the 1.544 megabits per second (MBPS) bandwidth and uses ISDN architecture of 23 B or bearer channels and 1 D or data channel (Primary) or 24 B channels (Secondary) to provide the Customer with the capabilities of simultaneous access, transmission, and switching of voice, data, and imaging services via channeled transport.

---

P.U.C.O. NO. 8

---

7. AT&T LOCAL EXCHANGE SERVICES

7.20 ALS DIGITAL TRUNKS

Digital Trunks service is a fractional digital switched service that provides trunk connections from an end user's Private Branch Exchange or capable Key System to the Company Switch Port. Digital Trunks service is delivered via a DS-1 (1.544 Mbps) facility providing up to 23 voice-grade DSO communications channels.

The customer may opt to utilize Digital Trunks service for outgoing calls only (DOD), incoming calls only (DID), or a combination of both inbound and outbound calls. When the customer elects to utilize Digital Trunks service for both inbound and outbound calls, they may choose Two-Way service which allows incoming calls to an attendant only or they can elect to utilize DID/DOD service which allows incoming calls to be terminated directly to an end user behind a PBX or capable Key system. When DID or DID/DOD service is ordered, direct inward dialing (DID) numbers must be purchased from the Company. Per subscribed Rate Center, the customer is required to subscribe to a sufficient number of trunks or channels so as not to degrade the Company's network below an incoming call completion rate of 99%. The call completion rate is based on an average of the busy hours occurring during the customer's busiest hours during the billing cycle. Once the service has been established, the Company may require the customer to increase the number of trunks or channels to satisfy the call completion criteria listed above.

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.21 INTEGRATED ACCESS SERVICE\*

(T)

Integrated Access Service provides Local Voice Services on a customer's spare capacity AT&T channelized Static Integrated Network Access (SINA) or Frame Relay T1 or Frame Relay T1 access channels. The SINA or Frame Relay T1 or Frame Relay T1 access arrangement will include AT&T Local Services via Integrated Business Lines and Trunks and Integrated Digital Trunks. The service provides direct inward dialing capability as well as outward calling capabilities. Service charges are billed on a monthly basis, and are based on the service area in which the customer is located. The features and corresponding rates available for use with Business Lines and Trunks and Digital Trunks are also available for use with Integrated Access Service. There is no minimum channel size requirement for Integrated Access Service.

## A. Integrated Business Lines and Trunks Service

Integrated Business Lines and Trunks service provides a customer with one or more analog, voice-grade telephonic communications channel(s) that can be used to place or receive one call at a time. Integrated Business Lines and Trunks service is provided for connection to customer-provided single-line terminal equipment such as station sets or facsimile machines. Integrated Business Lines and Trunks service is offered as either business lines, key lines, or business trunks. Customers utilizing Integrated Business Lines and Trunks service must subscribe to a sufficient number of access lines to handle adequately the volume of traffic offered (received or originated) without interfering with any of the services offered by the Company.

For Integrated Business Trunks service, the customer's M24/Channel Bank must provide DS-0 analog connections to an analog trunk card. The Local Network Service interface to the customer will be the SINA T1 or Frame Relay T1 interface. Channel Bank is not included with Integrated Access Service.

For Integrated Business Lines service, the customer's M24/Channel Bank must provide individual analog line side interface to each of the customer's station equipment such as single line telephone sets. The Local Network Service interface to the customer will be the SINA T1 or Frame Relay T1 interface.

\*Effective April 15, 2007, Integrated Access Service is not available to newly subscribed AT&T Business Network customers.

## P.U.C.O. NO. 8

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.22 INTEGRATED NETWORK CONNECTION SERVICE (AT&amp;T LOCAL SERVICE ON INCS)\* (T)

AT&T Local Service on INCS provides one of the following services: DS-1 Digital Facilities, ISDN PRI, Business Lines or Digital Trunks over an Integrated Network Connection Service (INCS) access arrangement. Each individual customer location must be in an area where AT&T has the necessary facilities.

## A. Provisioning

The INCS access arrangement will connect to the customer's premises via a T1 line. The customer must provide compatible customer premise equipment (CPE), and interfaces to support the local voice line and trunk applications.

## B. Types of Service

Types of service delivery of INCS with ABN Local services are as follows:

- 1) DS-1 Digital Facilities - delivered as 24 (twenty-four) voice grade digital Channels.
- 2) ISDN PRI - delivers current functionality, excluding the delivery of Switched Digital Service with 64 KBPS End-To-End through the network.
- 3) Digital Trunks - delivered as 8-23 voice grade digital channels. If 24 digital channels are required, a DS-1 Digital facility must be used.
- 4) Business Lines - delivers switched local exchange service for customers with 8-24 analog DS0 Business Lines needs.

## C. Features

All standard requirements, capabilities and feature functionality that are available for use with DS-1 Digital Facilities, ISDN PRI, Business Lines and Digital Trunks are available for use with ABN on INCS at the rates and charges specified in the Price List.

\*Effective April 15, 2007, Integrated Network Connection Service is not available to newly subscribed AT&T Business Network customers. (N)

## 7. AT&amp;T LOCAL EXCHANGE SERVICES

## 7.24 ALTERNATE ENHANCED REDIRECT SOLUTION (AERS)

(T)

## A. Description

Alternate Enhanced Redirect Solution will provide customers the ability to redirect incoming telephone numbers in the event their primary location is unavailable. AERS also provides the additional capability to redirect incoming traffic to a predefined redirect option within two minutes of completing the control call. Customers will be able to define and control how to route critical calls in the event of an emergency.

AERS provides the capability for the customer to predefine redirect telephone numbers for each incoming telephone number at their location. Calls can be redirected to any ten-digit North American Number Plan (NANP) telephone including toll-free numbers. The customer controls when to invoke and when to restore AERS via a telephone number or control activation number. However, the customer cannot revise the predefined redirect options without a service order.

The customer can create up to nine options including eight redirect options for each Customer Group. A Customer Group is a list of incoming telephone numbers and the customer can have up to 20 Customer Groups per customer location dependent on the total number of telephone numbers being redirected.

When a redirect option is invoked, all incoming telephone numbers within the Customer Group will be redirected to their respective numbers. Customers must use service orders to update Customer Group telephone numbers or redirect options within the Customer Group.

The location that receives the redirected calls must have sufficient lines and associated facilities to handle the estimated or actual number of calls without interfering with the exchange or toll service. In the event that there is interference with exchange or toll service, AT&T reserves the right to disconnect any redirect option immediately.

The customer controlled redirect option is available for business lines and trunks as well as incoming telephone numbers to a PBX or other CPE.

## 9. AT&amp;T DIGITAL LINK

## 9.1 DESCRIPTION

## A. General

AT&T Digital Link is a Local Exchange Service which permits outward and inward local calling capability from a customer's premises utilizing Direct Outward Dialing (DOD), Direct Inward Dialing (DID), Originating Toll Free Service (8YY) and Main Listed Number (MLN)\* over dedicated digital facilities (as described in AT&T's Business Service Guide). The customer's premises must have a customer provided compatible Private Branch Exchange (PBX) system or multi-line terminating system to originate and terminate the calls. AT&T Digital Link also permits outward local calling capability from a customer's premises utilizing Direct Outward Dialing (DOD) over an external Local Exchange Company (LEC) provided Centrex Service. The customer will be responsible for obtaining all necessary Centrex Service Automatic Route Selection (ARS) reprogramming. DOD, DID, 8YY and MLN\* capability is available where facilities and operating systems exist.

AT&T Digital Link Service (ADL) supports both line and trunk applications for customers. The Company will determine whether a Customer requires a line or a trunk application based upon:

- 1) the quantity of telephone numbers at a customer location and
- 2) Customer's existing service requirements, unless Customer requests a change to existing requirements.

Line applications exhibit lower levels of network occupancy. With line applications there is commonly a relationship of one (1) telephone number per channel.

To adjust for the levels of Customer usage, AT&T will apply a ratio of DID Channel charges to telephone numbers. The specific ratio(s) to be applied is located in the Price List. The Customer may request a full facility charge as an alternative to multiple channel charges.

Trunk applications typically exhibit a multiple telephone numbers per channel relationship. Charges will apply in a ratio of one (1) DID Channel charge per trunk. The Customer may request a full facility charge as an alternative to multiple channel charges.

\* Main Listed Number (MLN) is not available for new installations after September 15, 2003.

13. PRISON COLLECT LOCAL SERVICE

13.1 DESCRIPTION

A. General

AT&T Prison Collect Local Service is an AT&T local service that permits inmates to place collect calls originated over the AT&T network from authorized telephone equipment in a Prison Administration controlled environment. Telephones subscribed for this service may be monitored or controlled by the Prison Administration for one or more of the following:

- duration of call
- call blocking
- time of day
- call detail reports
- number of calls placed per individual
- monitoring and recording of discrete phone conversations
- permission restrictions
- restriction lists

AT&T Prison Collect Local service is available at prisons in which Prison Administrators have selected AT&T as their primary carrier. This service may not be available in all locations.

AT&T Prison Collect Local Service includes Operator Station Collect calls placed to domestic locations. AT&T Prison Collect Local Service calls cannot be converted from a collect call to a Calling Card Call by the billed party.

AT&T provides a toll-free Customer assistance number that can be used to address all billing concerns and to request blocking/unblocking of called numbers.

GENERAL REGULATIONS

A. ESTABLISHING AND FURNISHING SERVICE (Cont'd)

3. Use of Service (Cont'd)

c. Resale and Sharing

The Company will not be responsible for the manner in which the use of MTS or charges are allocated to others by a customer who resells or shares service. All applicable rates and charges for Company service will be billed to the customer.

(T)

Service orders will be accepted from the customer. The Company will respond to repair and maintenance requests from others and, in such circumstances, the customer is responsible for any maintenance of service charge that may be billed by the Company.

4. Assignment or Transfer of Service

At the customer's wish, service may be assigned or transferred as follows, provided that no interruption or relocation results:

- a. To another individual, partnership, association or corporation, provided the assignee or transferee assumes all outstanding indebtedness for the service.
- b. To a receiver, trustee or other person appointed by a court or acting pursuant to law in bankruptcy, receivership, reorganization, insolvency, liquidation or other similar proceedings, provided the assignee or transferee assumes any unexpired portion of the initial contract period applicable to the service.

The regulations and conditions contained in this tariff concerning the establishment of service and the furnishing of service to customers applies to the assignee or transferee.

GENERAL REGULATIONS

A. ESTABLISHING AND FURNISHING SERVICE (Cont'd)

7. Termination of Service

The Company may terminate service in the event of service abandonment, nonpayment of any sum due, abuse or fraudulent use, other violations of the regulations of the Company or objection to the continuance of service made by any legitimate governmental authority.

Subsequent to the completion of an order to discontinue service, it will be reestablished only upon the basis of a new service application.

Abuse or fraudulent use includes but is not limited to:

- a. the use of service or facilities of the Company for any call intended to frighten, abuse, torment or harass;
- b. the use of profane or obscene language;
- c. impersonation with intent to defraud;
- d. interfering with the service of others in any way;
- e. use for any purpose other than communicating;
- f. transmitting a message or otherwise attempting to obtain service for oneself or others so as to avoid payment of the applicable MTS charges.
- g. unauthorized rearranging, tampering with or making connections to any service provided in this tariff.

GENERAL REGULATIONS

B. CUSTOMER OBLIGATIONS (Cont'd)

2. Payments (Cont'd)

- e. An administrative charge of \$25.00 is applied to the residential customer's bill respectively for each occasion that a check, bank draft, or electronic funds transfer is returned for the reason of insufficient funds or no account. When a local exchange company provides the billing function on behalf of the Company, the local exchange company's return check charge applies. (T)  
(T)

- f. The customer may be required to make a deposit of \$62.00 (for residential customers) to be held as a guarantee for the payment of service charges. When service is terminated, the amount of the deposit will be applied to any indebtedness to the Company for service charges. A deposit may be refunded or credited to the customer's account at any time prior to termination of service in accordance with OAC 4901:1-17-06. In case of a cash deposit, simple interest will be paid in accordance with Ohio Administrative Code 4901:1-17-05.

g. Charges for Fractional Months (T)

When service is established or a switched service is disconnected, or for any reason, a customer's billing date is changed, the charge for service for each fractional part of a current billing month is determined as follows:

- The charge for service is a pro rata share of the monthly charge.
- For purposes of administering this regulation, every month is considered to have thirty (30) days.

The foregoing provisions do not affect the regulations governing the minimum term of contract. (T)

B. CUSTOMER OBLIGATIONS (Cont'd)

2. Payments (Cont'd)

1. Credit Limits (Cont'd)

(4) Exceeded Credit Limit (Cont'd)

- LD: next direct-dialed call to be redirected to the service center.
- Wireless: next direct-dialed call to be redirected to the service center.
- IntraLATA toll: next direct-dialed call to be redirected to the service center.
- WorldNet: access denied and a message to appear on the screen instructing the customer to contact the service center.
- Calling Card: restrict; deny usage.

Access to local calling, emergency services (9-1-1), 800, 888 will not be affected by this restriction. Customers attempting to access restricted services will be automatically routed to either a recorded announcement or a service representative for information regarding service restoral.

An affected customer's service may be immediately restored upon payment being made while on line with a service representative.

- m. AT&T customers billed by SBC Ohio will follow the terms and conditions in SBC Ohio's commission approved Toll and Long Distance Availability Limit Plan (TRIMS) in Case No. 03-1149-TP-ZTA.

P.U.C.O. No. 3  
DEFINITIONS

A. DEFINITIONS OF TERMS

CASUAL USAGE

(T)

AT&T may limit a residential consumer's toll usage in order to protect the company from potential non-payment by non-subscribers utilizing AT&T's network. In the event access is restricted, customers attempting to access AT&T's network will be automatically routed to either a recorded announcement or a service representative for information regarding service restoral.

CENTRAL OFFICE

A switching unit of the exchange carrier providing telecommunications service to the subscribers connected thereto.

Customer Dialed 1+

Customer dialed 1+ denotes that situation where the customer dials "1" and continues to dial the called station.

Dial Station

Dial Station Service is where a residential customer originates the call from their home, it is billed to the customer's main billed account, and is made without the assistance of a Company operator or an automated call processing system.

Exchange

An exchange consists of one or more central offices with the associated plant used in furnishing communication service within a specified area, established by the local exchange carrier.

Instate Long Distance calling

Includes intraLATA (also known as Regional Toll or Local Toll) and interLATA calls.

Local Access and Transport Area (LATA)

A geographic area established for the provision and administration of communications service. It encompasses designated local exchange carrier exchanges which are grouped to serve common social, economic and other purposes.

(T)

A. DEFINITIONS OF TERMS (Cont'd)

Message

A communication between two or more points.

Message Telecommunications Service

Message Telecommunications Service (MTS) is that of furnishing facilities or telecommunications between stations in accordance with the regulations and price schedules specified in this tariff.

Rate Center

A point within an exchange from and to which mileage measurements are made in determining message telecommunications service and interexchange mileage prices. In general, a point is selected at the approximate center of the most densely populated portion of the exchange. There may be more than one rate center in an exchange.

Station

The term "Station" denotes the network control signaling unit and any other equipment which enables a customer to establish communications connections and to effect communications through such connections.

MESSAGE TELECOMMUNICATIONS SERVICE

---

A. APPLICATION

This tariff applies to Message Telecommunications Service, hereinafter referred to as MTS, furnished by AT&T COMMUNICATIONS OF OHIO, INC. between points within the State of Ohio, where: 1) instate dial station long distance calls are billed to the Customer's residential telephone account for which the initial subscription to AT&T is made through a local service provider other than AT&T, as specified in Section 6, following, and 2) calls are billed to the Customer's telephone account under the "Casual Calling Service" specified in this tariff.

(T)

The regulations contained in this section of the tariff supplement the regulations contained in all other sections of this tariff.

(T)

B. REGULATIONS

1. The regulations in Section 1 pertaining to payment for service, advance payments, construction charges, deposits, termination of service and broadcast of recorded conversations are applicable to MTS.

In addition, where this section refers to regulations, rates and charges in other sections of the Company's tariff, such sections and any future revisions or additions to them are made a part of this section.

2. The obligations of both Company and customer as described in Section 1 also apply to MTS. In addition, during an MTS or CUSTOM NETWORK SERVICE call, the customer should exchange identifying information with the called party to protect both their interests.

3. Authorized Connections

Equipment and facilities provided by the customer may be connected with facilities furnished by the Company for MTS.

---

Issued: APRIL 1, 2008

Effective: APRIL 1, 2008

MESSAGE TELECOMMUNICATIONS SERVICE

---

C. INITIAL SUBSCRIPTION

1. General

The rates, terms and conditions in this Section apply to instate long distance Dial Station calls placed by Customers whose initial subscription to AT&T is made through a local service provider and the Customer has not yet received an AT&T Consumer Services Agreement. AT&T will issue an AT&T Consumer Services Agreement to the Customer upon notification by the local service provider to AT&T that the Customer has subscribed to AT&T as their primary interexchange carrier.

The terms and conditions that apply to the Dial Station service provided under this Section will apply until the Customer of the service receives the AT&T Consumer Services Agreement or until the Customer directly contacts AT&T and enrolls in an AT&T Calling Plan, Promotion or Service Offering that is not provided under this tariff, whichever occurs first.

2. AT&T Dial Station Instate Long Distance

AT&T Dial Station instate long distance rates apply to calls billed to the Customer's residential telephone account for which the initial subscription to AT&T is made through a local service provider other than AT&T. Dial Station rates apply when:

- The person originating the call dials the telephone number desired and completes the call without the assistance of a Company Operator or the Company's automated operator system, and the call is billed to the calling station.
- The calling party cannot complete dial station call due to trouble on the telecommunications network, and chooses to re-dial the call.
- A calling party re-establishes a dial station call that has been involuntarily interrupted after the station has been reached.
- A Company Operator places a call for a calling party who identifies himself/herself as being handicapped and unable to dial the call because of his/her handicap,

San Antonio, Texas

P.U.C.O. No. 3  
MESSAGE TELECOMMUNICATIONS SERVICE

---

C. INITIAL SUBSCRIPTION (CONT'D)

2. AT&T Dial Station Instate Long Distance (Cont'd)

A Company Communications Assistant completes a call between persons with hearing and/or speech disabilities who use a Text Telephone (TT) or its equivalent and hearing persons who use an ordinary telephone (the completed call is rated and billed as a call from the calling station to the called station),

A Company Operator places a call because no automatic recording equipment is available for dial completion.

3. Rates and Charges

Rate Periods - The following rate periods are associated with Local toll and instate long distance Dial Station:

Peak Rate period - The Peak Rate period is 7:00 a.m. through 6:59 p.m. Monday through Friday.

Off-Peak Rate period - The Off-Peak Rate period is 12:00 a.m. through 6:59 a.m. and 7:00 p.m. through 11:59 p.m. Monday through Friday.

Weekend Rate period - The Weekend Rate period is 12:00 a.m. Saturday through 11:59 p.m. Sunday.

The time when connection is established, (determined in accordance with the time, standard or daylight saving, observed at the location of the rate center of the calling station) determines whether Day, Evening, or Night & Weekend prices apply.

In cases where a message begins in one price period and ends in another, the price in effect at the time the connection is established applies to the initial period. If a minute is split between two rate periods, the rate period applicable at the start of the minute applies to that entire minute. The duration of each call is recorded in whole minutes, with partial minutes rounded up to the next whole minute (for example, a 45 second call will be billed as a one-minute call). If the calculation for the charge results in a fractional charge, the fraction or amount will be rounded down to the nearest whole cent.

P.U.C.O. No. 3  
MESSAGE TELECOMMUNICATIONS SERVICE

---

C. INITIAL SUBSCRIPTION (CONT'D)

3. Rates and Charges (Cont'd)

Chargeable time ends when a calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the network or by the Company operator. Chargeable time does not include time lost because of faults or defects in the service.

When exchange telephone service used for MTS is connected through a service terminating arrangement or connecting arrangement at a customer's premises to a communications system, chargeable time for AT&T all calls begins when a call from the telecommunications network terminates in or passes through the first terminal equipment on that communications system. It is the customer's responsibility to furnish answer supervision so that chargeable time may begin.

D. CASUAL CALLING SERVICES

1. Description

AT&T Casual Calling Services permit callers to access AT&T's switched network for completion of local toll and instate long distance Dial Station calls by dialing carrier access code 1010288 or 1010345. The rates, terms and conditions specified in this Section apply to local toll and instate long distance calls billed under the following Non-Subscriber 1010288 Service, Lucky Dog 1010345 Service offerings, or any other AT&T-assigned carrier access codes.

The rates, terms and conditions contained in this Section apply in addition to the General Regulations specified in Section A2 preceding.

2. Non-Subscriber 1010288 Service

Non-Subscriber 1010288 Service provides for local toll and instate long distance Dial Station calls placed via carrier access code 1010288 and billed to the Customer's main billed domestic telephone account that is not pre-subscribed to AT&T as the primary interexchange carrier.

3. Lucky Dog 1010345 Service

Lucky Dog 1010345 Service provides for local toll and instate long distance Dial Station calls placed via carrier access code 1010345 and billed to the Customer's main residential domestic telephone account.

Material appearing on this sheet has been moved from Sheet 23.

E. NON-SUBSCRIBER 1010288 SERVICE

1. Description

Non-Subscriber 1010288 Service is available for local toll and instate long distance Dial Station calls placed from points within the state of Wyoming and billed to the Customer's domestic residential telephone account that is not presubscribed to AT&T as the primary interexchange carrier. Access to Non-Subscriber 1010288 Service for Dial Station calls must be made by dialing carrier access code 1010288. The Customer is responsible for any 1010288 charges billed to the Customer's account regardless of how the carrier access code is dialed.

Non-Subscriber 1010288 Service does not include: conference calls, calls to AT&T Directory Assistance, calls to "00"INFO, calls completed via "00"INFO, calls to 800 and 900 telephone numbers, Telecommunications Relay Service calls, calls placed from cellular phones, calls made by Customers with Disabilities and calls billed to a residential telephone account for which pre-subscription to AT&T has been discontinued but an active billing record for such account still exists in AT&T's billing system.

Calls billed to a residential telephone account for which pre-subscription to AT&T has been discontinued but an active billing record for such account still exists in AT&T's billing system will be rated at Dial Station rates as described in this tariff. In addition, the Monthly Recurring Charge applies in any month that a subscriber makes a call at these rates.

AT&T will credit the charges for Non-Subscriber 1010288 Service reported by newly presubscribed AT&T Customers during the period between pre-subscription and administrative processing of the new Customer. AT&T will also credit the charges for Non-Subscriber 1010288 Service reported by Customers during an F.C.C. reportable incident of service outage by another interexchange carrier.

To receive either of these credits, Customers must contact AT&T through an 800 number designated for billing inquiries. Applicable Dial Station charges will apply for all completed calls for which a credit is received. The credit will be given either in the form of a bill credit or a Long Distance Certificate, at AT&T's discretion.

The application of charges for Non-Subscriber 1010288 Service is subject to billing availability.

Material appearing on this sheet has been moved from Sheet 24.

E. NON-SUBSCRIBER 1010288 SERVICE (Cont'd)

2. Rates and Charges

Usage charges and a per call Service Charge apply to each completed call.

Service Charges associated with Non-Subscriber 1010288 Service apply in addition to all other applicable Service Charges and Surcharges.

Charges are applicable 24 hours-a-day, 7 days-a-week.

Duration of each call is recorded in whole minutes, with partial minutes rounded up to the next whole minute (for example, a 45 second call will be billed as a one-minute call).

The Non-Subscriber 1010288 per call Service Charge, listed in the Price List, is in addition to the usage rates.

F. LUCKY DOG 1010345 SERVICE

1. General

AT&T provides and will bill this calling plan under the brand name of Lucky Dog. Participating customers may access Lucky Dog service by dialing access code 1010345.

Lucky Dog 1010345 service is available for customer-dialed station-to-station calls billed to the customer's main billed account. The interstate terms and conditions that apply to this offer are described within AT&T's Tariff F.C.C. No. 27. Lucky Dog 1010345 service is furnished subject to billing availability.

2. Regulations

The general regulations specified in P.U.C.O. No. 3 also apply to Lucky Dog 1010345 service, except as specified otherwise under this section. Calls to Directory Assistance are also provided pursuant to the rates, terms and conditions found in the AT&T Consumer Service Guide. To access Directory Assistance using Lucky Dog 1010345 service, customers must use 1010345 access and also dial the area code (NPA) for the telephone number desired plus 555+1212.

Calls billed to a calling card, calls placed from a public or semipublic payphone, calls requiring operator assistance, Conference calls, mobile calls, calls to 500, 700, 800, 877, 888, and 900 numbers are not available under this plan.

The duration of a call which involves a fractional part of a minute will be rounded up to the next higher full minute. Rates apply to all times of day, seven days a week. Special Holiday rates does not apply to Lucky Dog service.

3. Discontinuance of Service

The following regulations apply in lieu of the regulations applicable to discontinuance of service specified in P.U.C.O. No. 3, Section 1.

Material appearing on this sheet has been moved from Sheet 52.

F. LUCKY DOG 1010345 SERVICE (Cont'd)

3. Discontinuance of Service (Cont'd)

The Company may discontinue or suspend a customer's Lucky Dog 1010345 service immediately and without notice pursuant to the following:

- (a) the customer refuses to furnish information to the Company regarding the Customer's credit-worthiness, its past or current use of communications services or its planned use of service(s); or
- (b) the customer provides false information to the Company regarding the customer's identity, address, credit-worthiness, past or current use of communications services, or its planned use of the Company's service(s); or
- (c) the customer states that it will not comply with a request of the Company for security for the payment for service(s) or advance payments, as specified in this tariff; or
- (d) the customer uses service to transmit a message, locate a person or otherwise give or obtain information without payment for the service; or
- (e) the customer uses the service of the Company for a message or messages, anonymous or otherwise, if in a manner reasonably to be expected to frighten, abuse, torment or harass another; or
- (f) the customer uses, or attempts to use service with the intent to avoid the payment, either in whole or in part, of the tariffed charges for the service by:
  - using or attempting to use service by rearranging; tampering with, or making connections to the Company's service not authorized by this tariff, or
  - false credit devices, electronic devices, or
  - any other fraudulent means or devices.
