C. (Continued)

4. An unpaid bill for previous toll service can be considered as a reason to deny service to an applicant seeking a new 1+ presubscription toll service account only when the unpaid bill is owed to the same telecommunications provider with whom the applicant is now seeking to establish or reestablish service and the class of service previously provided is the same as that the applicant is now seeking to establish or reestablish. If the previous unpaid bill is owed to a provider other than that with whom the applicant is seeking to establish service, the subsequent toll provider may not deny service on that basis alone, but may consider the applicant's unpaid debt, as well as any pertinent information obtained from a credit reporting bureau, in determining whether there exists a need to assess a toll deposit or take other measures to assure creditworthiness. Moreover, in no event shall local exchange service be denied to any local exchange service applicant on grounds that the service applicant has failed to pay for a type of service other than local exchange service.

- D. So long as it acts in a just, reasonable, and nondiscriminatory manner, a local service provider may, pursuant to a contract obligating it to do so, enforce the tariff-established credit and deposit policies of another telecommunications provider.

E. Deposits

1. Deposits for local service shall be calculated separately from deposits for toll service.
 - a. "The individual service history method" involves calculating the amount of the deposit based on the known or estimated service history of the individual who is being assessed a deposit.

- i. Under this method, the amount of a deposit assessed for local service shall not exceed two hundred and thirty percent of the estimated or, where the customer or service applicant has either an existing or a previous local service account billing history with the local service provider, the historic monthly average total charge for all regulated local services provided (or to be provided) to the customer by the company or companies on whose behalf the deposit is assessed.

2. Local service must be provided to local service applicants who are able to meet the deposit requirements for local service regardless of whether the applicant is able to meet the deposit requirements for toll service.
 3. So long as payment of a toll deposit is in no way made a condition precedent to a local service applicant obtaining or maintaining local service, the assessment of a separately calculated deposit for local service may occur within the same bill as any separately calculated deposit for toll service.
 4. Any initial or additional deposit assessed by a telecommunications provider shall be based only on the credit history for the same class of service as the applicant is seeking to establish.
