Following are basic descriptions, regulations and rates for on-net Telephone Service for Business customers within the service territory of Company. Additional descriptions, regulations and rates specific to a geographic serving area may apply and may be found on the associated Price Lists.

(T)

10.1 LOCAL EXCHANGE RATES

10.1.1 General

- A. Local Exchange Service is provided by means of station, wire, switching and other facilities, plant and equipment to enable the establishment of telephone communications between stations in the same or different serving area at monthly rates as set forth in this Section. The facilities, plant and equipment used to provide Local Exchange Service are also used in the furnishing of toll telephone services at rates applicable for such services from the Company providing the toll services.
- B. Basic Local Exchange Service means end user access to and usage of telephone company-provided services that enable a customer, over the primary line serving the customer's premises, to originate or receive voice communications within a local service area, and that consist of the following:
 - 1. Local dial tone service
 - 2. Touch-tone dialing service
 - 3. Access to and usage of 9-1-1 services
 - 4. Access to operator services and directory assistance
 - 5. Provision of a telephone directory and a listing in that directory
 - 6. Per call, caller identification blocking services
 - 7. Access to telecommunications relay service
 - 8. Access to toll presubscription, interexchange or toll providers or both, and networks of other telephone companies
