RE: In the matter of the Application of Little Miami Communications Corporation Detariffing and Related Action: PUCO Case No. 08-0002-TP-ATA

Dear Ms. Jenkins:

Enclosed are amended tariff sheets to be filed in connection with the above referenced matter on behalf of The Little Miami Communications Corporation. Please replace these amended sheets for those same sheets originally filed on January 2, 2008. These sheets include removing some of the paragraphs on the service location for non-residential services and on customer's rights and responsibilities, adding the extra sentence on customer's rights and responsibilities plus some miscellaneous changes.

Other changes include:

Fayetteville Exchange

- Section 2, Check Sheet 1, Sheets 15 & 16 are new to the filing. These sheets contain changes to Deposit language to comply with the MTSS rule changes. I have enclosed the current sheets as well.
- Section 4, Sheet 2 is new to the above filing. I have enclosed the current sheet as well.
- Section 5, Twenty-Second Revised Check Sheet 1 and Sixth Revised Sheet 32 are amended sheets for sheets that were filed on February 13, 2008, which was after the above Detariffing filing.
- Section 5, Sheet 16.1 is new to the above filing. I have enclosed the current sheet as well.
- Section 5, Per Call Blocking/Per Line Blocking originally filed under Second Revised Sheet 34 was revised back to First Revised Sheet 34.

Butlerville

- Section 2, Twenty-Fifth Revised Check Sheet 1 and Sixth Revised Sheet 26 are amended sheets for sheets that were filed on March 4, 2008 and February 13, 2008, which was after the above Detariffing filing.
- Section 2, Sheet 5.1 is new to the above filing. I have enclosed the current sheet as well.
- Section 2, Per Call Blocking/Per Line Blocking originally filed under Second Revised Sheet 28 was revised back to First Revised Sheet 28.
- Section 3, Check Sheet 1, Sheets 9C & 9D are new to the filing. These sheets contain changes to Deposit language to comply with the MTSS rule changes. I have enclosed the current sheets as well.

The TRF Number for Little Miami is 90-5025-TP-TRF.

Thank you for your assistance. If you have any questions, please do not hesitate to call.

Sincerely,

**2. Establishing Credit (Continued)**

**C. (Continued)**

4. An unpaid bill for previous toll service can be considered as a reason to deny service to an applicant seeking a new 1+ presubscription toll service account only when the unpaid bill is owed to the same telecommunications provider with whom the applicant is now seeking to establish or reestablish service and the class of service previously provided is the same as that the applicant is now seeking to establish or reestablish. If the previous unpaid bill is owed to a provider other than that with whom the applicant is seeking to establish service, the subsequent toll provider may not deny service on that basis alone, but may consider the applicant's unpaid debt, as well as any pertinent information obtained from a credit reporting bureau, in determining whether there exists a need to assess a toll deposit or take other measures to assure creditworthiness. Moreover, in no event shall local exchange service be denied to any local exchange service applicant on grounds that the service applicant has failed to pay for a type of service other than local exchange service.

- D. So long as it acts in a just, reasonable, and nondiscriminatory manner, a local service provider may, pursuant to a contract obligating it to do so, enforce the tariff-established credit and deposit policies of another telecommunications provider.

**E. Deposits**

1. Deposits for local service shall be calculated separately from deposits for toll service.
  - a. "The individual service history method" involves calculating the amount of the deposit based on the known or estimated service history of the individual who is being assessed a deposit.

**1. (Continued)**

**a. (Continued)**

- i. Under this method, the amount of a deposit assessed for local service shall not exceed two hundred and thirty percent of the estimated or, where the customer or service applicant has either an existing or a previous local service account billing history with the local service provider, the historic monthly average total charge for all regulated local services provided (or to be provided) to the customer by the company or companies on whose behalf the deposit is assessed.
  - ii. Under this method, the amount of a deposit assessed for toll service shall not exceed two hundred and thirty percent of the estimated or, where the customer or service applicant has either an existing or a previous toll service account billing history with the toll service provider, the historic monthly average total charge for all regulated toll services provided (or to be provided) to the customer by the company or companies on whose behalf the deposit is assessed.
2. Local service must be provided to local service applicants who are able to meet the deposit requirements for local service regardless of whether the applicant is able to meet the deposit requirements for toll service.
  3. So long as payment of a toll deposit is in no way made a condition precedent to a local service applicant obtaining or maintaining local service, the assessment of a separately calculated deposit for local service may occur within the same bill as any separately calculated deposit for toll service.
  4. Any initial or additional deposit assessed by a telecommunications provider shall be based only on the credit history for the same class of service as the applicant is seeking to establish.

F. ESTABLISHMENT AND FURNISHING OF SERVICE (Continued)

2. Establishing Credit (Continued)

C. (Continued)

1. An unpaid bill for previous toll service can be considered as a reason to deny service to an applicant seeking a new 1+ presubscription toll service account only when the unpaid bill is owed to the same telecommunications provider with whom the applicant is now seeking to establish or reestablish service and the class of service previously provided is the same as that the applicant is now seeking to establish or reestablish. Moreover, in no event shall local exchange service be denied to any local exchange service applicant on grounds that the service applicant has failed to pay for a type of service other than local exchange service.

- A. So long as it acts in a just, reasonable, and nondiscriminatory manner, a local service provider may, pursuant to a contract obligating it to do so, enforce the tariff-established credit and deposit policies of another telecommunications provider.

B. Deposits

The Company may, in order to safeguard its interest, require a deposit. The deposit will not exceed two hundred thirty per cent (230%) of the customer's average monthly bill based upon the customer's service account billing history for the same recurring regulated charges for the class of service seeking to be established with the telecommunications provider.

(C)

Deposits for new customers are calculated pursuant to Ohio Admin. Code 4901:1-5-05(B)(1)(a) or at the above method when the customer has a service account billing history.

<sup>1/</sup> Includes Touch-Call Service.

Effective August 12, 2007, the rates for Residential and Business customers who do not have Touch Call service will be grandfathered and will see no change in their monthly rate. Any subsequent change to service made by such a grandfathered customer, however, will result in the loss of the grandfathering exception and will require that customer to upgrade to Touch Call Service.

<sup>2/</sup> PBX and Key Trunk rates include hunt or rotary service feature.

<sup>3/</sup> This service offering is experimental and is limited to the first 85 residential customers in the three (3) exchanges requesting this service. There will be no additional charge for the first thirty (30) outgoing calls within the local area per month. For messages in excess of thirty (30), there is an additional charge of \$0.08 per message. No service connection charge will apply for the first time that a customer transfers to or from this service.

\* Rates for Tier 1 Core Services are capped at current rates. Rates for Tier 1 Non Core Services are capped at current rates until 09/10/09. After 09/10/09, Tier 1 Non-Core rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and call waiting, which are limited to a ten percent increase per year until they cap at double the initial rate. This pricing flexibility is in accordance with O.A.C. 4901: 1-4 and Alt Reg Case 07-848-TP-ALT effective 09/10/07.

**B. DESCRIPTION**

1. **Per Call Blocking**  
Enables customers to prevent the disclosure of their telephone number or name and number on a per call basis to the called party. This disclosure of the calling party's number or name and number can be prevented on a per call basis by dialing a preassigned access code before making a call. This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number or name and number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per the FCC Caller ID Order, Per Call Blocking is provided to all customers at no charge.

Per Call Blocking will be provided on calls originating from paystations used by the general public and party lines.

2. **Per Line Blocking**  
Prevents the disclosure of the customer's telephone number and name and number to the called party. Per Line Blocking is applicable on all outgoing calls placed from the customer's line. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per Line Blocking will be provided at no monthly charge on an optional basis to customers of non-published service.

(T)

**ADVANCED CALLING SERVICES**

**A. GENERAL**

1. The Company will offer Advanced Calling Services (ACS) to customers served by digital switches equipped with the new industry standard SS7 signaling protocol. These features are widely known as Custom Local Area Signaling Service (CLASS).
2. Advanced Calling Services (ACS) is comprised of a group of features described under B. which allows customers to efficiently manage the call flow generated over their Exchange Access Line(s). This management is possible only where the calling party's telephone number can be forwarded from the central office serving the called party. ACS features are optional services offered in addition to regular exchange service.
3. This tariff applies to residence access lines, except Caller ID-Basic and Call Trace, which apply to nonresidential access lines as well. All lines must be served by central offices where the Company has installed CLASS features and is furnished subject to the availability of facilities. Individual feature availability may differ by exchange. (C)  
(C)
4. ACS features will be functional under the following conditions:
  - a. When both the originating customer and the call terminating customer are served by the same central office.
  - b. When both the call originating customer and the call terminating customer are served from different central offices equipped for ACS and are linked by appropriate facilities.
  - c. Where the calling party's data can be forwarded from the central office originating the call to the terminating central office serving the called party.
  - d. If offering Caller ID - Deluxe, the Calling Name will be displayed only where the appropriate facilities are available to provide a match of Calling Name to Calling Number.
- 4A. Advanced Calling Services (ACS) may be offered to customers for trial use for a period not to exceed ninety (90) days. The dates of offering and duration of trial use will be determined by the Telephone Company. During trial use, the recurring charge for ACS will not apply to customers participating in the trial use offering. This offering is limited to one-party lines which are not already equipped with ACS added. A customer may participate only once during each trial use offering period. Customer requests for ACS trial use will be subject to availability of facilities.

Requests for promotional offerings will be filed with the Public Utilities Commission of Ohio not less than ten days prior to the effective date.

**INTEGRATED SERVICES DIGITAL NETWORK (ISDN) SERVICE  
BASIC RATE INTERFACE (BRI)**  
(Residence Only)

(C)

**A. GENERAL**

1. Integrated Services Digital Network (ISDN) describes the end-to-end digital telecommunications network architecture which provides for the simultaneous access, transmission and switching of voice, data, and video services. These functions are provided via channelized transport facilities. The ISDN architecture consists of digital switching systems which connect Basic Rate Interface (BRI) lines to their serving central office. Caller ID - Basic is included with this service.
2. BRI is an optional service arrangement which can be used in conjunction with a customer's Individual Line Residence service. It uses the ISDN architecture to provide the customer with the capabilities of simultaneous access, transmission, and switching of voice, data, and video services via channelized transport. In addition, BRI provides the customer with access to Circuit Switched Voice (CSV) Service, Circuit Switched Data (CSD) Service, and Packet Switched Data Service.
3. A BRI arrangement obtains its capabilities from a properly equipped telephone company central office switch. The BRI arrangement may consist of up to two "B" channels and one "D" channel (2B+D).
  - a. **"B" Channel:** The "B" Channel is a bi-directional synchronous channel capable of supporting 64 kilobit per second (kbps) of digital transmission of information between users. The "B" Channel will be configured to offer voice service, data service or voice/data service. One Primary Directory Number with one Primary Directory Listing for the first "B" Channel ISDN Service line is provided. Additional listings may be provided as specified for Additional Listing Service in the Directory Listings section of this Company's tariff.

**H. Establishing Credit (Continued)**

**APPROVED**

**3. (Continued)**

- d. An unpaid bill for previous toll service can be considered as a reason to deny service to an applicant seeking a new 1+ presubscription toll service account only when the unpaid bill is owed to the same telecommunications provider with whom the applicant is now seeking to establish or reestablish service and the class of service previously provided is the same as that the applicant is now seeking to establish or reestablish. If the previous unpaid bill is owed to a provider other than that with whom the applicant is seeking to establish service, the subsequent toll provider may not deny service on that basis alone, but may consider the applicant's unpaid debt, as well as any pertinent information obtained from a credit reporting bureau, in determining whether there exists a need to assess a toll deposit or take other measures to assure creditworthiness. Moreover, in no event shall local exchange service be denied to any local exchange service applicant on grounds that the service applicant has failed to pay for a type of service other than local exchange service.
- 4. So long as it acts in a just, reasonable, and nondiscriminatory manner, a local service provider may, pursuant to a contract obligating it to do so, enforce the tariff-established credit and deposit policies of another telecommunications provider.
- 5. Deposits
  - a. Deposits for local service shall be calculated separately from deposits for toll service.
    - 1. "The individual service history method" involves calculating the amount of the deposit based on the known or estimated service history of the individual who is being assessed a deposit.

Multi-Party, each access line	\$15.40	\$15.40	Tier 1 Core

<sup>1/</sup> Includes Tel-Tone Touch Calling Service. Effective August 12, 2007, the rates for Residential and Business customers who do not have Tel-Tone Touch Calling Service will be grandfathered and will see no change in their monthly rate. Any subsequent change to service made by such a grandfathered customer, however, will result in the loss of the grandfathering exception and will require that customer to upgrade to Tel-Tone Touch Calling Service.

\* Rates for Tier 1 Core Services are capped at current rates. Rates for Tier 1 Non Core Services are capped at current rates until 09/10/09. After 09/10/09, Tier 1 Non-Core rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and call waiting, which are limited to a ten percent increase per year until they cap at double the initial rate. This pricing flexibility is in accordance with O.A.C. 4901: 1-4 and Alt Reg Case 07-848-TP-ALT effective 09/10/07.

Total Talk Pack for non-residential customers can be found in the company's catalog located at [www.tdstelecom.com](http://www.tdstelecom.com).

Customers have certain rights and responsibilities under the minimum Telephone Service Standards (Ohio Adm. Code 4901:1-5). These safe guards can be found in the appendix to Ohio Adm. Code 4901:1-5-03, which is entitled "Telephone Customer Rights and Responsibilities". These rights and responsibilities include complaint handling, ordering or changing service, complaint handling, payment of bills, and disconnection and reconnection of service.

**TOTAL TALK PACK**

A. General

1. Total Talk Pack is an optional service package. The package permits a customer to receive services and features for a flat monthly rate, for each Total Talk Pack subscriber line provided. Total Talk Pack includes the following services<sup>1</sup>.
  - a. Residential One-Party Line (includes Touch Tone capability)
  - b. Three-Way Calling & Call Waiting (Custom Calling Services)
  - c. Caller ID Deluxe, Anonymous Call Rejection, & Priority Ringing (Advanced Calling Services)

B. Conditions and Limitations

1. Rules, regulations, and limitations as specified elsewhere in the Company's tariffs for each individual service will apply as part of this bundle.
2. Total Talk Pack customers may terminate their enrollment in the Plan at any time upon notice to the company.
3. Unless terminated by the Total Talk Pack customer or the Company, a customer will remain enrolled in the Plan, as amended from time-to-time, with any applicable changes in rate, for as long as the Plan continues to be offered by the Company.
4. Service Charges, as described in Section 6 of this tariff, apply to requests for new and additional Total Talk Pack lines, and moves of existing lines. Service Charges will not apply when the Total Talk Pack replaces existing Local Exchange Service or if the customer requests a change from the Total Talk Pack back to Local Exchange Service.
5. Total Talk Pack customers are not eligible for discounts or promotional offerings (outside of this bundle) associated with the Custom Calling and Advanced Calling Services included in the Plan, unless specifically provided for in a promotional offering.

<sup>1</sup> This package can only be purchased in conjunction with certain deregulated and/or de-tariffed services.

GENERAL EXCHANGE SERVICE

---

PER CALL BLOCKING/PER LINE BLOCKING

A. GENERAL

1. Customers may prevent the disclosure of their telephone number or directory name and number when placing calls to a party with service that reveals the calling party's number or name and number, by subscribing to either Per Call Blocking or Per Line Blocking.
2. Per Call Blocking and Per Line Blocking are provided according to the availability of facilities, features and central office equipment in locations determined by the Company. The features described will only operate on calls originating and terminating within suitably-equipped offices, or similarly equipped offices of interconnecting Local Exchange Companies.

B. DESCRIPTION

1. Per Call Blocking

Enables customers to prevent the disclosure of their telephone number or name and number on a per call basis to the called party. This disclosure of the calling party's number or name and number can be prevented on a per call basis by dialing a preassigned access code before making a call. This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number or name and number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per the FCC Caller ID Order, Per Call Blocking is provided to all customers at no charge.

Per Call Blocking will be provided on calls originating from paystations used by the general public and party lines.

2. Per Line Blocking

Prevents the disclosure of the customer's telephone number and name and number to the called party. Per Line Blocking is applicable on all outgoing calls placed from the customer's line. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per Line Blocking will be provided at no monthly charge on an optional basis to customers of non-published service.

GENERAL EXCHANGE SERVICE TARFFS

**ADVANCED CALLING SERVICES**

A. GENERAL

1. The Company will offer Advanced Calling Services (ACS) to customers served by digital switches equipped with the new industry standard SS7 signaling protocol. These features are widely known as Custom Local Area Signaling Service (CLASS).
2. Advanced Calling Services (ACS) is comprised of a group of features described under B. which allows customers to efficiently manage the call flow generated over their Exchange Access Line(s). This management is possible only where the calling party's telephone number can be forwarded from the central office serving the called party. ACS features are optional services offered in addition to regular exchange service.
3. This tariff applies to residence access lines except Caller ID-Basic and Call Trace, which applies to nonresidential access lines as well. All lines must be served by central offices where the Company has installed CLASS features and is furnished subject to the availability of facilities. Individual feature availability may differ by exchange.
4. ACS features will be functional under the following conditions:
  - a. When both the originating customer and the call terminating customer are served by the same central office.
  - b. When both the call originating customer and the call terminating customer are served from different central offices equipped for ACS and are linked by appropriate facilities.
  - c. Where the calling party's data can be forwarded from the central office originating the call to the terminating central office serving the called party.
  - d. If offering Caller ID - Deluxe, the Calling Name will be displayed only where the appropriate facilities are available to provide a match of Calling Name to Calling Number.
- 4A. Advanced Calling Services (ACS) may be offered to customers for trial use for a period not to exceed ninety (90) days. The dates of offering and duration of trial use will be determined by the Telephone Company. During trial use, the recurring charge for ACS will not apply to customers participating in the trial use offering. This offering is limited to one-party lines which are not already equipped with ACS added. A customer may participate only once during each trial use offering period. Customer requests for ACS trial use will be subject to availability of facilities.

(C)

(C)

Requests for promotional offerings will be filed with the Public Utilities Commission of Ohio not less than ten days prior to the effective date.

**INTEGRATED SERVICES DIGITAL NETWORK (ISDN) SERVICE  
BASIC RATE INTERFACE (BRI)**  
(Residence only)

(C)

**A. GENERAL**

1. Integrated Services Digital Network (ISDN) describes the end-to-end digital telecommunications network architecture which provides for the simultaneous access, transmission and switching of voice, data, and video services. These functions are provided via channelized transport facilities. The ISDN architecture consists of digital switching systems which connect Basic Rate Interface (BRI) lines to their serving central office. Caller ID - Basic is included with this service.
2. BRI is an optional service arrangement which can be used in conjunction with a customer's Individual Line Residence service. It uses the ISDN architecture to provide the customer with the capabilities of simultaneous access, transmission, and switching of voice, data, and video services via channelized transport. In addition, BRI provides the customer with access to Circuit Switched Voice (CSV) Service, Circuit Switched Data (CSD) Service, and Packet Switched Data Service.
3. A BRI arrangement obtains its capabilities from a properly equipped telephone company central office switch. The BRI arrangement may consist of up to two "B" channels and one "D" channel (2B+D).
  - a. **"B" Channel:** The "B" Channel is a bi-directional synchronous channel capable of supporting 64 kilobit per second (kbps) of digital transmission of information between users. The "B" Channel will be configured to offer voice service, data service or voice/data service. One Primary Directory Number with one Primary Directory Listing for the first "B" Channel ISDN Service line is provided. Additional listings may be provided as specified for Additional Listing Service in the Directory Listings section of this Company's tariff.

**H. Establishing Credit (Continued)**

**3. (Continued)**

- a. An unpaid bill for previous toll service can be considered as a reason to deny service to an applicant seeking a new 1+ presubscription toll service account only when the unpaid bill is owed to the same telecommunications provider with whom the applicant is now seeking to establish or reestablish service and the class of service previously provided is the same as that the applicant is now seeking to establish or reestablish. If the previous unpaid bill is owed to a provider other than that with whom the applicant is seeking to establish service, the subsequent toll provider may not deny service on that basis alone, but may consider the applicant's unpaid debt, as well as any pertinent information obtained from a credit reporting bureau, in determining whether there exists a need to assess a toll deposit or take other measures to assure creditworthiness. Moreover, in no event shall local exchange service be denied to any local exchange service applicant on grounds that the service applicant has failed to pay for a type of service other than local exchange service.

1. So long as it acts in a just, reasonable, and nondiscriminatory manner, a local service provider may, pursuant to a contract obligating it to do so, enforce the tariff-established credit and deposit policies of another telecommunications provider.

**2. Deposits**

The Company may, in order to safeguard its interest require a deposit. The deposit will not exceed two hundred thirty per cent (230%) of the customer's average monthly bill based upon the customer's service account billing history for the same recurring regulated charges for the class of service seeking to be established with the telecommunications provider.

Deposits for new customers are calculated pursuant to Ohio Admin. Code 4901:1-5-05(B)(1)(a) or at the above method when the customer has a service account billing history.
