RECEIVED-DOCKETING DIV

RE: **ATA Filing - Detariffing**
McLeodUSA Telecommunications Services, Inc. ("McLeodUSA")
90-9087-TP-TRF

Dear Docketing Division:

Enclosed please find an original and three copies of revised pages to McLeodUSA Telecommunications Services, Inc.'s ("McLeodUSA") Telephone Tariff No. 2. In this filing McLeodUSA is modifying the applicable pages to remove the Tier 2 services. The Check Sheets and Table of Contents were modified accordingly.

Enclosed you will find the following Exhibits:

- Exhibit A – current approved tariff pages;
- Exhibit B – proposed replacement tariff pages;
- Exhibit C – description and rationale.
- Exhibit D – explanation of website
- Exhibit E – copy of customer notices
- Exhibit F – affidavit attesting to distribution of customer notices

This filing has an Issue Date and Effective Date of April 16, 2008. Please file stamp the extra copy of the Detariffing Application and return it to me in the enclosed, self-addressed, stamped envelope. If you have any questions, please contact me at jredman-carter@mcleodusa.com or (319) 790-2250.

Sincerely,

Julia Redman-Carter
Regulatory Analyst

Part I - Tariffs

Please indicate the Carrier Type and the reason for submitting this form by checking the boxes below.

NOTE: All cases are ATA process cases, tariffs are effective the day they are filed, and remain in effect unless the Commission acts to suspend.

Carrier Type	<input type="checkbox"/> ILEC	<input checked="" type="checkbox"/> CLEC	<input type="checkbox"/> CTS
Business Tier 2 Services	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Residential & Business Toll Services	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Other Changes required by Rule (Describe in detail in Exhibit C)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Part II - Exhibits

Note that the following exhibits are required for all filings using this form.

Included	Identified As:	Description of Required Exhibit:
<input type="checkbox"/>	Exhibit A	The existing affected tariff pages.
<input type="checkbox"/>	Exhibit B	The proposed revised tariff pages.
<input checked="" type="checkbox"/>	Exhibit C	Matrix or narrative summarizing all changes proposed in the application, and/or other information intended to assist Staff in the review of the Application.
<input type="checkbox"/>	Exhibit D	Explanation of how the Applicant intends to comply with Rule 4901:1-6-05(G)(3) regarding disclosure of rates, terms, and conditions for detariffed services, including: <ul style="list-style-type: none"> citation to the appropriate Web Page if any, in accordance with rule 4901:1-6-05(G)(4), and/or copy of other materials and publications to be used to comply with 4901:1-6-05(G)(3).
<input checked="" type="checkbox"/>	Exhibit E	One-time customer notice of detariffing and related changes consistent with rule 4901:1-06-16(B), including where customers may find the information regarding such services as required by rule 4901:1-6-05(G)(3).
<input checked="" type="checkbox"/>	Exhibit F	Affidavit that the Customer Notice described in Exhibit C has been sent to Customers.

Part III. – Attestation

Registrant hereby attests to its compliance with pertinent entries and orders issued by the Commission.

AFFIDAVIT

Compliance with Commission Rules and Service Standards

I am an officer/agent of the applicant corporation, McLeodUSA, and am authorized to make this statement on its behalf.
Telecommunications Services, Inc.

(Name)

I attest that these tariffs comply with all applicable rules, including the Minimum Telephone Service Standards (MTSS) Pursuant to Chapter 4901:1-5 OAC for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules, including the Minimum Telephone Service Standards, as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on (Date) April 15, 2008 at (Location) Hiawatha, Iowa

2.0 General Rules and Regulations (cont'd)**2.5** Contract for Service

Installation of certain services may require a contractual agreement between a Customer and PAETEC. The contractual agreement specifies the terms and conditions of service not covered by this tariff. The contract does not alter the obligations of PAETEC to Customers as described in this tariff. The agreement may require the Customer to pay a minimum monthly fee ("MMF") wherein the Customer agrees, in writing, to pay for the duration of the term agreement, either the monthly recurring and usage charges, or the MMF amount, whichever is greater. Should the Customer choose to terminate their contract without cause prior to the agreed upon term, the Customer will be liable for the MMF specified in the contract multiplied by the number of months remaining in the term, unless Customer converts to another service provided by PAETEC with equal or greater term and MMF commitment. In the event PAETEC continues to provide service after the Customer contract is terminated or expires, then PAETEC shall continue to provide service to the Customer under the terms of the then applicable tariff and applicable terms of the expired contract under a month-to-month arrangement.

2.6 Application for Service**2.6.1** Information Required

When applying for service, each prospective Customer will be required to furnish McLeodUSA with the following information:

- A. The name of the party who will be responsible for payment for the service provided.
- B. The address or addresses or exact location of the premises where service is to be provided and billed.
- C. Any information required to make a proper determination of appropriate creditworthiness, as set forth in 4901:1-5-13 of the Ohio Administrative Code.

2.6.2 Initiation of Service

Service shall be deemed to be initiated upon the service activation date. For multi-location customers, service shall be deemed to be initiated upon service activation at the first location.

2.0 General Rules and Regulations (cont'd)**2.10 Disputes and Complaints (cont'd)****2.10.2 Complaint Procedures**

Inquiries, general questions, or complaints may be directed informally to McLeodUSA by telephone, in person, or in writing at McLeodUSA's office located at McLeodUSA Technology Park, One Martha's Way, P.O. Box 3177, Hiawatha, Iowa 52233. Business customers can reach McLeodUSA's customer service department by dialing toll-free: 1-800-593-1177. Residential customers can reach McLeodUSA's customer service department by dialing toll-free: 1-800-500-3543. McLeodUSA's customer service department accepts calls on a twenty-four-hour-a-day basis. Complaints concerning the charges, practices, facilities, or services of McLeodUSA will be investigated promptly and thoroughly. McLeodUSA will keep records of each complaint showing the name and address of the complainant, the date and nature of the complaint, its disposition, and all other pertinent facts dealing with the complaint that will enable McLeodUSA to review and analyze its procedures and actions for at least thirty (30) days. Each Customer may file with the Commission for resolution of disputes. Each complainant will be mailed a statement of the complainant's right to contact the Commission at:

One Martha's Way, P.O. Box 3177
Hiawatha, Iowa 52233

Issued under authority of the Public Utilities Commission of Ohio, dated March 16, 2000, in Case No. 99-972-TP-ACE.

3.0 Description of Services Offered**3.1 Local Service****3.1.1 Nature of Service**

Local Service is a service that allows customers to originate non-toll local calls at locations within the service areas in which McLeodUSA has been approved for certification for termination within the local calling area (including any applicable EAS areas) of those locations. Subject to service availability and the package selection by the customer, Local Service may include services in addition to those required for completion of non-toll local calls (including services which may not be subject to regulation under this tariff) which are purchased as part of a bundled package.

3.1.2 Availability

McLeodUSA offers local service in the areas in which it has been certified by the Ohio Public Utilities Commission and in which McLeodUSA has available required network facilities or is able to lease required network facilities to enable the offering of service. Some features may not be available in all areas, or may slightly vary between service areas contingent on network availability or configuration. McLeodUSA will provide the most feature rich version of a feature in the bundled Local Service package available in a given market depending on network availability or configuration.

3.1.3 Local Service Packages

The standard elements of local line packages consist of local dial tone and unlimited local calling unless otherwise noted in a Service specific description. Mandatory extended area service ("EAS") is provided where applicable for the prices set forth in the Rate Tables. Customers with multiple lines at a single location may purchase different Packages for each telephone line at a particular location. A Local Line Price Adjustment ("LLPA") is applied to recover the increased costs (rate increases to specific portions of Unbundled Network Elements (UNE's) purchased from suppliers) of providing local telecommunications service. A LLPA is applied to each business local line that was established prior to November 21, 2005 and is served via McLeodUSA switched facilities (see Section 6.1). The Local Line Price Adjustment will not be applied to new Preferred Advantage lines added to your account on or after November 21, 2005 if you are served via McLeodUSA switched facilities. A Local Line Price Adjustment is applied to each business local line that was established prior to January 19, 2006 and is not served via McLeodUSA local switching facilities (see Section 6.1). The Local Line Price Adjustment will not be applied to new Preferred Advantage lines added to your account on or after January 19, 2006 if you are not served via McLeodUSA local switching facilities. Business Customers purchasing a Business Package may select a long distance package of anytime minutes for each location, which shall be shared by all lines serving that Customer location. Business Customers purchasing Local Service Packages are also eligible to purchase a per minute long distance service that offers reduced long distance rates due to the purchase of bundled package of local and long distance services from McLeodUSA. Residential Customers shall select a long distance package of anytime minutes for each location, which shall be shared by all lines serving that Customer location.

3.0 Description of Services Offered

3.1 Local Service (cont'd)

3.1.4 Description of Features Included In Certain Local Service Packages.

Some features included in certain Local Service Packages may not be available in all areas, or may slightly vary between service areas contingent on network availability or configuration. McLeodUSA will provide the most feature rich version of a feature in the bundled Local Service package that is available in a given market *depending on network availability or configuration.*

Anonymous Call Rejection

Allows customer to automatically reject all calls that have been marked anonymous by the calling party. The call is routed to a denial announcement and subsequently terminated.

Blocking Services.

Blocking Services prevent certain call types from being completed. Blocking service examples include blocking outgoing 10XXX1+ or 900 or 976 calls.

Call Forwarding Busy/Don't Answer/Variable

Call forwarding is the ability to forward an incoming call to a preselected station if the called station is unable to receive the call. "Call forwarding busy" will forward the call if the called station is in use; "call forwarding don't answer" will forward the call after a predetermined number of rings; "call forwarding variable" will forward the call regardless of the status of the called station. For Business customers, Call Forwarding Busy/Don't Answer options are only available as optional services to a location at which the customer also currently purchases Voice Mail from McLeodUSA.

Call Screening

Allows customer to block incoming calls from up to a maximum of fifteen telephone numbers. (T)

Call Trace

Permits the tracing of the last call received and holds the results for later use by an authorized law enforcement agency. Results of call trace will be provided only to appropriate law enforcement personnel, and not to the customer.

Call Transfer

The ability to forward a call in progress to another station.

Issued: July 1, 2004

3.0 Description of Services Offered

3.1 Local Service (cont'd)

3.1.4 Description of Features Included In Certain Local Service Packages (cont'd)

Call Transfer Disconnect

Call Transfer Disconnect is the ability to transfer of calls to another line, disconnecting that call so that it frees up the original line.

Call Waiting

Call waiting is the ability of the called station to generate a tone when the called station is in use to alert the user that another call is waiting to connect with the called station.

Call Waiting ID

Call waiting ID is the ability to identify the party calling when on another call.

Caller ID Blocking

Provides a permanent indicator on a customer's line. Once the block is established on the customer's line, the private status can be deactivated by the customer by dialing a series of number before each call, to change the indicator from private to public. This one call unblock allows the name and number to be sent for that one call only.

Customers who choose per line blocking for the first time will not be charged the nonrecurring charge. New customers to the Caller ID serving area will be provided the same option. A customer requesting per line blocking will pay a nonrecurring charge for re-establishing line blocking.

The standard dialing pattern for per-call Called ID Blocking is *67 (1167 from a rotary telephone). The standard dialing pattern for a per-call unblocking is *82 (1182 from a rotary telephone).

Caller Identification

Allows for the automatic delivery of a calling party's name, telephone number (including non-published and non-listed telephone numbers) or both to the called customer. The number is displayed on customer provided equipment. McLeodUSA will provide the most feature rich version of caller identification in the bundled Local Service package available in a given market depending on network availability or configuration.

3.0 Description of Services Offered

3.1 Local Service (cont'd)

3.1.4 Description of Features Included In Certain Local Service Packages (cont'd)

Priority Call

Provides the end user with a distinctive ring when called from pre-selected telephone numbers. Calls other than from the selected numbers are received with a standard ring pattern. Toll Free, International and 900 numbers are not programmable with Priority Call.

(N)

(N)

Remote Access to Call Forward

This feature allows a user at a "remote" location to activate/deactivate the call forwarding feature. The user gains remote access to the call forwarding feature from a touch tone phone at a remote location. The RACF feature uses an announcement system to provide interactive voice message prompting, which allows customers to verify the forwarded-to directory number. Changes are accomplished by remotely calling an access number, entering the appropriate line and PIN information when prompted to do so, and making any desired changes.

Speed Calling

Permits placing calls to 8 or 30 telephone numbers dialing an abbreviated code.

Three-Way Calling

The ability to add a third line to an established conversation.

Toll Restriction

Toll Restriction provides for exchange access lines to be restricted from dialing billable toll calls. Attempted violation of the restrictions are routed to an announcement.

3.0 Description of Services Offered3.1 Local Service (cont'd)3.1.5 Intercept Services/Referral Recording

Intercept Services provide new number or explanatory information to callers dialing changed or disconnected numbers. The services include messages delivered either mechanically or by operator. Intercept services apply to temporary and permanently disconnected numbers. Basic Intercept and Referral Recording services are for periods up to 12 months for business customers and up to 3 months for residential customers.

(T)

(T)

(T)

(N)

Basic Intercept Service includes all intercept recordings that do not provide the new number information. New Number Referral Service includes all intercept recordings that provide the new number information.

|

(N)

3.1.6 Local T1 Service

The Local T1 product provide high capacity local access services, with up to 24 channels. The T1 can be configured for either two-way trunk side service (Standard Trunks), or one-way DID (DID capable) service. When DID service is ordered, direct inward dialing (DID) numbers must be purchased from the Company. Rate elements are a Module Rate Element, a Local Distribution Channel Rate Element, Optional Elements, and applicable surcharges and taxes.

3.1.7 Dynamic T-1

The Dynamic Local T1 product terminates into a customer-provided PBX or hybrid system, via a customer-provided DTI or channel bank. When DID/DOD service is ordered, direct inward dialing (DID) numbers must be purchased from the Company.

3.1.8 Dynamic PRI

This product is a facility-based Local PRI product. It provides businesses advanced ISDN PRI capabilities for a variety of switched and dedicated communications applications. ISDN PRI consists of twenty-three 64 Kbps B channels and one 64 Kbps D channel. The D channel is used for signaling and control of the B channels. Any spare bandwidth that is not used for voice trunks, can be used to provide point-to-point data products. The Dynamic PRI terminates into a customer-provided PBX or hybrid system, via a customer-provided Digital Trunk Interface (DTI) or channel bank. When DID/DOD service is ordered, direct inward dialing (DID) numbers must be purchased from the Company.

3.0 Description of Services Offered (cont'd)**3.1 Local Service (cont'd)****3.1.9 PRI**

This product, ISDN-PRI, provides voice and data communications capabilities via a 1.544 Mbps central office termination and a 1.544 Mbps end user's premises. The product also provides high capacity local access services, with up to 24 channels of which 23 channels are 64 Kbps B channels and one channel is a D channel at 64 Kbps. The D channel is used for signaling and control of the B channels. When DID service is ordered, direct inward dialing (DID) numbers must be purchased from the Company. Rate elements are an ISDN Rate Element, a Local Distribution Channel Rate Element, Optional Elements, and applicable surcharges and taxes.

3.1.10 Directories**3.1.10.A. Listing Service**

One listing, the Primary Listing, is provided without charge for each customer location. Where two or more exchange lines are served on a hunting service basis, only one Primary Listing for the group will be provided.

3.1.10.B. Directory Distribution

One local exchange directory will be provided to a customer for each customer location at the time directories are distributed by the incumbent local exchange carrier.

3.1.11 Calling Card

This service allows the Customer to make telephone calls from any non-Customer location such as a payphone by dialing an 800 access number and a personal identification number before dialing the telephone number of the called party. The charges resulting from use of the Calling Card are billed to the Customer's McLeodUSA account at the rates and charges set forth in the Rate Tables.

3.0 Description of Services Offered (cont'd)**3.1 Local Service (cont'd)****3.1.12 Integrated Services Digital Network (ISDN) Services**

Provides integrated voice/data communications capability for transmission and combination of circuit switched voice/data and packet switched data signals on an incoming and outgoing basis over a single ISDN line. This service requires two 64 Kbps "B" channels to transmit any combination of Circuit Switched Voice/Data or high speed Packet Switched Data and one "D" channel to carry network signaling and user originated Packet Switched data at speeds up to 9.6 Kbps (2B+D). It is available from specially equipped digital switching equipment located in the Company's central offices (or in the offices of a Company affiliated supplier/carrier) and where facilities permit and where capacity is available within specified distances from the serving central office. A maximum of 8 devices may be connected directly to an ISDN line and only 2 of these devices are permitted to access the two "B" channels.

3.1.13 Direct Inward Dial (DID) Service

DID is a service which permits incoming dialed calls to be dialed directly by a calling party station associated with a switching system located on the Carrier's Customer Premises. These lines support inbound calling traffic only.

3.0 Description of Services Offered (cont'd)

3.2 Directory Assistance

3.2.1 Nature of Service

Directory Assistance (DA) Service is defined as furnishing aid in obtaining telephone numbers.

3.2.2 Availability

DA is available to all Customers.

3.2.3 Maximum Number of Requests Per Call

Two (2) requests for a telephone number will be accepted per call to the DA operator. A telephone number that is not listed in the DA records will not be available to the Customer.

3.2.4 Operator Limitations

The Directory Assistance operator will not transfer, forward or redial a Customer's call to any other location for any purpose other than provision of DA service.

3.2.5 Persons and Locations Exempt from All DA Charges

Any Customer who is visually, physically or mentally handicapped in a way that makes the Customer unable to utilize a telephone directory shall be exempt from charges for DA. The Customer must provide McLeodUSA with certification of this condition. Certification from a doctor, psychologist, psychiatrist, county or state social service agency, or similar person or agency will be acceptable. The exemption is effective prospectively and also retroactively for the month prior to the presentation of the certificate to McLeodUSA.

3.0 Description of Services Offered (cont'd)

3.3 Operator Services

Operator Services is the furnishing of services for the completion of calls by consumers and customers pre-subscribed to company made with the assistance of a company operator within the state including aggregator sites and locations. Aggregator sites include, but are not limited to hotels/motels, hospitals, business, military establishments; and locations of public, semi-public, or private pay telephones. Note: Charges for these services are exempt when requested by authorized emergency personnel. Customers may receive bills directly from other operator service providers whose services the customer may use.

Busy Line Verification Surcharge – Charge to end-user to verify whether a telephone line is in use or has trouble.

Busy Line Verification Interrupt Surcharge – Charge to end-user to verify whether a telephone line is in use, and then to interrupt the end-users current phone call.

One Martha's Way, P.O. Box 3177
Hiawatha, Iowa 52233

Issued under authority of the Public Utilities Commission of Ohio, dated March 16, 2000, in Case No. 99-972-TP-ACE.

3.0 Description of Services Offered (cont'd)**3.3 Operator Services (cont'd)**

Calling Card Surcharge – This charge applies when a 0+ or 0- call is charged to a valid calling card. In order to control fraud, the company may refuse to accept a card that it determines or suspects to be invalid.

Collect Surcharge – This charge applies when an end-user requests the operator to bill the charges to the called station or party which agrees to pay for all charges.

General Assistance Surcharge - Charge to end-user to obtain information such as time of day, day of the week, area codes, international country and/or city codes.

Operator Dialed Surcharge - In addition to the per minute usage rates, an operator dialed surcharge also applies to each type of call. This is a charge that is assessed to the customer for having the operator dial the called number for them.

Payphone Surcharge – The Payphone surcharge applies to the following intrastate, state-to-state** and international** consumer calls placed from a public or semi-public payphone that are paid for by means other than depositing coins into the payphone: (T)
(T)

*calls billed to a third number

*collect calls

*calls billed to a calling card

*calls to Directory Assistance

*prepaid card service calls.

Person-to-Person Surcharge – Charge when the end-user specifies to the operator a particular party to be reached. If the original person, department, mobile station, extension, or office designated by the end-user is unavailable and the end-user requests or agrees to talk to any other party, the call is still charged as a Person-to-Person call.

Property Imposed Fee (PIF) – Per call charge imposed by property owner.

Third Party – The end-user requests the operator to bill the charges for a call to a number other than that of the called or calling party. The party receiving the charges agrees to pay for all charges.

**** The Commission does not regulate interstate or international calls. These are within the jurisdiction of the FCC.** (N)

3.0 Description of Services Offered (cont'd)3.4 Preferred Advantage® Conference Calling (cont'd)3.4.2.C Standard Services available (M)

With each of the two following standard services, clients have two options:

- Attended Call: Facilitator monitors the conference call to add any assistance that may be needed.
 - Unattended Call: No facilitator is present, but a facilitator is available at any time by pressing *O on the phone.
- (M)

3.4.2.D Basic Assisted and Event Conferencing Products (N)3.4.1.D.1 Toll Free Meet Me (M)

Participants call a pre-determined toll free number at a specified time. A conference call operator will greet the participants and ask for the name of the conference chairperson. Participants will be placed on music hold or into the open conference until all parties have arrived. Once all parties have arrived, the conference will be turned over to the chairperson. The conference fees are charged to the hosting organization.

3.4.1.D.2 Domestic Dial-Out

Conference Center facilitators dial-out to all participants prior to the scheduled conference. The hosting organization is charged the long distance and conference bridging fees.

(M)3.4.1.D.3 Local Meet Me (N)

Participants call a pre-determined toll free number at a specified time. A conference call operator will greet the participants and ask for the name of the conference chairperson. Participants will be placed on music hold or into the open conference until all parties have arrived. Once all parties have arrived, the conference will be turned over to the chairperson. Except for the LD toll charges, the conference fees are charged to the hosting organization. Each participant will be responsible for the long distance per minute charges that they incur while on the call.

3.4.1.D.4 Passcode

Passcode Conferencing provides an automated service that allows you to schedule a call in advance by a speaking to a reservationist. Each time a call is scheduled, a new access number and room number is provided to you.

3.0 Description of Services Offered (cont'd)3.5 Long Distance Interexchange and 800 Services

(M)(N)

McLeodUSA long distance services are interexchange telephone services that allow customers to originate and terminate interexchange calls at locations within the state of Ohio. A Customer must select McLeodUSA as their primary interexchange carrier for both Interstate and Intrastate long Distance. With the exception of Preferred Advantage® long distance services, usage charges are based on the duration and time of day of each call when applicable.

Where Customer's local service is provided by McLeodUSA, McLeodUSA offers reduced long distance pricing on a nondiscriminatory basis provided all Customer's local lines at a Customer location are served by McLeodUSA. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier.

McLeodUSA 800 services are inward WATS services that permit intrastate calls to a customer's station in one location from stations in diverse geographical locations, and for which the McLeodUSA customer is billed for the calls rather than the call's originator. Unless otherwise specified, all McLeodUSA 800 calls are subject to a 30-second average connect time (i.e., total monthly minutes of use divided by total monthly calls must equal at least 30 seconds) for a given terminating service group. All calls are rounded up to the next higher increment. In the event that 800 calls do not meet the 30-second average connect time requirement, billable usage will be increased by a surcharge equal to the necessary number of minutes at the average cost per minute to meet the 30-second requirement. In addition, Customers may also order Originating ANI Sorting, which provides the Customer with a detailed monthly analysis of the originating telephone numbers of those placing 800 calls. A Customer must select McLeodUSA as their primary interexchange carrier for both Interstate and Intrastate long Distance. With the exception of Preferred Advantage® toll Free services, usage charges are based on the duration and time of day of each call when applicable.

Long Distance and Toll Free Packages consist of a bucket anytime minutes used by the Customer for outgoing domestic long distance calls. Long distance minutes used in excess of the bucket of minutes shall be billed at the "overage rate per minute."

3.0 Description of Services Offered (cont'd)**3.5 Long Distance Interexchange Services (cont'd)**

Dedicated Select LD and Toll Free Plan provides dedicated inbound long distance services and outbound 1+ long distance services for business customers that bill over 50,000 minutes of long distance usage (i.e., both inbound and outbound Long Distance) per month per DAL from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL). Any McLeodUSA business customer that has a DAL has 3 months to "ramp up" their monthly DAL usage to 50,000 minutes per month per DAL. Beginning the fourth month of billing the customer will be assessed a \$500 shortfall charge per DAL if the customer does not bill more than 50,000 minutes per month per DAL from McLeodUSA

(N)

LD and Toll Free Plan w/o Local Access and LD and Toll Free Plan w/ Local Access provide switched inbound and outbound 1+ long distance services for Business Customers.

LD and Toll Free Select Plan w/o Local Access and LD and Toll Free Select Plan w/ Local Access provide switched inbound and outbound 1+ long distance to business customers with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling, calling card and international long distance usage.

(N)

Complete Long Distance provides switched outbound 1+ long distance in a 3,000 minute usage to domestic and Canadian terminations per ANI per month. No auto-dialers, modems or call generation equipment of any kind is permitted. A threshold of 3,000 maximum minutes per ANI per month will be treated as an indication of call generation equipment usage. Usage that exceeds 3,000 minutes per ANI per month will be billed at \$0.12 per minute for all minutes that exceed the 3,000 minute threshold. Call details for minutes that exceed the 3,000 minute threshold will appear on the monthly invoice, and the customer may request the call detail for the minutes that fall below the 3,000 minute threshold. This package is only available when combined with the Preferred Advantage Complete package. No other local packages are available with the Complete Long Distance plan. This plan is only available when McLeodUSA provides services using its own local switching facilities.

(N)

3.6 800 Services (cont'd)3.6.1 Description of Features Available with Toll Free ServiceBill to Term

Assigns billing records to a termination bill code.

Geo Routing

Allows a Toll Free number to terminate to a different terminations based on area of origination. Specified by State, LATA, NPA, NPA/NXX or ANI.

Message Referral

Provides the caller with a recording stating that the Toll Free number has been disconnected and/or refers them to a new number.

Percent Allocation

Routes calls to locations based on location size and percent of calls as defined by customer.

Repeat Caller

System tracks how many calls are received from any given ANI. Callers can be uniquely routed or blocked from the system based on a pre-determined number of calls.

Route Advance

Allows a Dedicated Access Line (DAL) to overflow to one POTS line.

Route Completion Overflow

Sets up Toll Free to overflow traffic to a pre-determined routing group.

Tailored Call Coverage

Allows the customer to customize call handling from specific originating areas at the area code or state level. Callers can hear options such as a busy signal, out of area messages, or be sent to a default location.

Time Routing

Customers can route calls based on Time of Day, Day of Week/Year, Holiday hours, Special Occasions, or any number of Time based Routing that takes effect automatically once set up.

Uniform Call Distribution

Provides uniform call distribution to multiple service centers in multiple locations.

3.0 Description of Services Offered (cont'd)

(Section 3.6 has been moved to sheet no. 65.1)

3.7 Promotional Offerings

McLeodUSA may from time to time engage in special promotions of limited duration. These promotions may be in the form of waiver or reduced recurring and nonrecurring fees, lowered usage charges, or other actions designed to attract new Customers or to increase existing Customer awareness of a particular service. All promotions will be offered on a non-discriminatory basis to eligible Customers.

3.8 Individual Case Basis (ICB) and Term and Volume Discounts

McLeod may offer individualized arrangements on a case-by-case basis where necessary to meet prices, terms, or conditions of service offered by competitors. In such cases, the prices offered by McLeod shall not exceed the prices for similar services contained in this tariff. In addition, a Customer signing a term service agreement to purchase certain term discount eligible services from McLeodUSA are eligible for a Term and Volume Discount. The Term and Volume Discount percentage may change from month to month if the Customer's monthly volume of charges for certain eligible services increases or decreases. Only eligible services purchased under a single service agreement count towards the applicable Term and Volume Discount. Discounts do not apply to any non-recurring charges, federal, state and local use, excise, sales and privilege taxes; applicable surcharges related to universal service programs, emergency telephone service (911/E911), telecommunications relay service for the hearing impaired; payphone surcharges; and other similar surcharges for required programs.

3.9 Market Expansion Line (MEL)

MEL is a service whereby a call placed from an exchange access service to a MEL customer's telephone number (the forwarded-to location) is automatically forwarded by telephone company serving office equipment to the customer's remote location. Terminating stations must have incoming call capability. MELs are available when used in conjunction with long distance or 800 Service. MELs are billed in one minute increments.

3.0 Description of Services Offered (cont'd)**3.10 Private Switch Automatic Location Identification (PS/ALI)**

This service is offered subject to the availability of appropriate facilities. It enables the customer to interface with the E911 database to provide address and location information for the stations that operate behind their switch. This information includes the PBX customers' names, addresses, and other location information which are associated with specific PBX station telephone numbers. The PS/ALI customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated, or a PBX owner/operator who has been required or who desires to provide PBX station specific location information to the E911 system. The PS/ALI customer must be authorized by the 911 jurisdiction to subscribe to PS/ALI service, and obtaining such authorization is the responsibility of the customer.

This service is offered as either Standard or Advanced. For Standard PS/ ALI, information is loaded and managed via McLeodUSA's existing interface to the database provider. For Advanced PS/ALI, the customer manages 911 information via a direct PC interface to the database provider.

3.11 Group Billing

This service is a unique invoice option for business customers with multiple locations. Group Billing allows customers to establish a tier system in which a main or "parent" account can have multiple sub or "child" accounts and pay the "child" invoices for all locations, some locations or no locations. Summary information is available to the "parent" for all "child" accounts and "child" accounts can receive individual invoice detail regardless of who is remitting payment. Group Billing can be used in partnership with McLeodUSA's Toll Free application.

At service set-up, customer must determine the locations responsible for payment remittance. Although "child" accounts may be responsible for payment, "parent" accounts are ultimately responsible for past due balances on "child" accounts. If a "child" account disconnects service, any past due balance will be transferred to the "parent" account. Payment disputes between "parent" and "child" accounts are not the responsibility of McLeodUSA.

4.0 Rate Schedules**4.1 Nonrecurring Charges****4.1.1 Early Termination Charges**

If a Customer terminates service prior to the expiration of the term of the contract (see Section 2.5) without cause, the Customer will be required to pay an early termination charge as set forth in the contract for service.

4.1.2 Third Party Vendor Charges

Customers may also be charged for certain charges incurred by McLeodUSA (at the Customer's instruction) in obtaining services from third party vendors. At the earliest opportunity, the Customer will be advised of the nature of the charges and the estimated amount of the charges.

4.1.3 Reconnection Fee

<u>Business</u>	<u>Residential</u>
<u>Max</u>	<u>Max</u>
\$95.00	\$95.00

This charge applies to reconnect service after service has been suspended and is due at the time services are restored. (T)
(T)

4.1.4 Nonsufficient Funds Charge (NSF Checks)

<u>Business</u>	<u>Residential</u>
<u>Max</u>	<u>Max</u>
\$30.00	\$30.00

Effective: August 29, 2006

BY: William A. Haas
Vice President and Deputy General Counsel
One Martha's Way, P.O. Box 3177
Hiawatha, Iowa 52233

Issued under authority of the Public Utilities Commission of Ohio, dated March 16, 2000, in Case No. 99-972-TP-ACE.

4.0 **Rate Schedules****4.1** **Nonrecurring Charges (cont'd)****4.1.6** **Trouble Isolation Charge**

Business	Residential
<u>Min - Max</u>	<u>Min - Max</u>
\$30.00-\$125.00	\$30.00-\$125.00

This charge applies when McLeodUSA dispatches either its own or ILEC personnel to a customer premises to test the line from the central office, up to the demarcation point, and the line tests clear (no trouble found in the Company facilities). No Trouble Isolation Charge shall apply if the customer subscribes to an inside wire maintenance plan with McLeodUSA.

4.1.7 **Bill Copies**

Business	Residential
<u>Min - Max</u>	<u>Min - Max</u>
\$1.00-\$25.00	\$1.00-\$25.00

Additional and alternate bill copies will be available upon a customer's request. An additional bill copy is a secondary copy of the customer's initial bill and an alternate bill copy is an additional bill sent to a different address other than the billing address.

4.1.8 **Access Recovery Surcharge:**

The Access Recovery Surcharge (ARS) is not a fixed monthly recurring charge. Rather, the ARS is a percentage of the business customer bill based on the total amount spent on services, less any taxes, surcharges or other non-qualifying fees. The charge will recover the costs related gaining access to incumbent networks. This fee is not a tax or charge imposed by a government entity. The ARS is calculated by application of a percentage to each business customer's total monthly recurring charges for all services (MRC). The ARS percentage to be applied will be determined by the business customer's total MRCs on its monthly invoice, based on the schedule outlined below.

Customer Account Monthly Recurring ARS

<u>MRC Revenue Tier</u>	<u>Charge %</u>	<u>Maximum</u>
\$0.00 to \$100.00	10.00%	20.00%
\$100.01 to \$200.00	9.00%	18.00%
\$200.01 to \$400.00	8.00%	16.00%
\$400.01 to \$800.00	5.00%	10.00%
\$800.01 to \$1,500.00	4.00%	8.00%
\$1,500.01 to \$2,500.00	3.00%	6.00%

This is a service provided as a part of the PRI product. It provides businesses advanced ISDN PRI service for both switched and dedicated communications applications. ISDN service consists of two 64 Kbps B channels and one 64 Kbps D channel. The D channel provides signaling control of the B channels. Any spare bandwidth that is not used for signaling can be used to provide point-to-point data products. The Dynamic PRI term is used to describe service provided to PBX or hybrid system, via a customer-provided Digital Trunk Interface (DTI) to the network. When DID/DOD service is ordered, direct inward dialing is provided to the customer based from the Company.

Dynamic PRI service is available where the necessary facilities are available on a 18, 36 or 60 month contract. The minimum number of channels required is 16 channels. Subsequent TIs installed have a 18 month term. All installations are subject to the approval of McLeodUSA. Installation charges are based on term and volume commitments of the customer.

5.0 Rates and Charges - Prices**5.1 Nonrecurring Charges****5.1.1 Early Termination Charges**

If a Customer terminates service prior to the expiration of the term of the contract (see Section 2.5) without cause, the Customer will be required to pay an early termination charge as set forth in the contract for service.

5.1.2 Third Party Vendor Charges

Customers may also be charged for certain charges incurred by McLeodUSA (at the Customer's instruction) in obtaining services from third party vendors. At the earliest opportunity, the Customer will be advised of the nature of the charges and the estimated amount of the charges.

5.1.3 Reconnection Fee

Business: \$3.55

Residential: \$25.00

This charge applies to reconnect service after service has been suspended and is due at the time services are restored. (T)

5.1.4 Non-sufficient Funds Charge (NSF Checks)

The NSF Check charge shall be \$20.00, or the highest amount permitted by law.

This charge applies when a check has been returned by the bank for non-payment.

5.1.5 IntraLATA PIC/LPIC Change Charge

Initial IntraLATA PIC/LPIC selections will be processed at no charge. Subsequent IntraLATA PIC/LPIC selections will be charged at the rates noted below. When subsequent IntraLATA PIC/LPIC change is performed simultaneously with an InterLATA PIC change, whether manual or electronic, one-half of the IntraLATA PIC/LPIC change will be waived.

If a PIC/LPIC change is initiated by an IXC on behalf of the Customer, and the Customer declines having made a change, and the IXC is unable to produce documentation of the change with a letter of agency signed by the Customer; then the Customer will be reassigned to its previously selected PIC/LPIC and the charge will be assessed by the IXC.

5.0 Rates and Charges - Price List (cont'd)**5.1 Nonrecurring Charges (cont'd)****5.1.11 Access Recovery Surcharge:**

(M)

The Access Recovery Surcharge (ARS) is not a fixed monthly recurring charge. Rather, the ARS is a percentage of the business customer bill based on the total amount spent on services, less any taxes, surcharges or other non-qualifying fees. The charge will recover the costs related to gaining access to incumbent networks. This fee is not a tax or charge imposed by a government entity. The ARS is calculated by application of a percentage to each business customer's total monthly recurring charges for all services (MRC). The ARS percentage to be applied will be determined by the business customer's total MRCs on its monthly invoice, based on the schedule outlined below.

Customer Account Monthly Recurring ARS

<u>MRC Revenue Tier</u>	<u>Charge %</u>
\$0.00 to \$100.00	10.00%
\$100.01 to \$200.00	8.00%
\$200.01 to \$400.00	6.00%
\$400.01 to \$800.00	5.00%
\$800.01 to \$1,500.00	4.00%
\$1,500.01 to \$2,500.00	3.00%
\$2,500.01 to Unlimited	0.00%

(M)

4.1.12 Non-Standard Report Request

An Order Charge (described and listed in this Section 5.1 of this tariff) will apply per report when a customer makes a non-standard report request, such as, but not limited to, Traffic Reports and AIS Detail Requests. An individual Order Charge will be applied for each report. Separate reports are required for each month or invoice, location and account.

5.0 Rates and Charges - Price List (cont'd)**5.3 Rate Tables (cont'd)****5.3.1 Rate Table 5: Long Distance and 800 Services**

(M)(N)

McLeodUSA long distance services are interexchange telephone services that allow customers to originate calls from their telephone line and terminate calls to domestic (intrastate and interstate) and international points. All long distance calls will be recorded and all calls billed using the Overage Rate. minutes will be billed in 6 second increments for business customers. All residential long distance calls will be recorded and billed in one-minute increments. All lines at a customer location must be PIC'd to McLeodUSA for long distance service. Intrastate rates will be applied to any call record where the originating carrier is not provided by the customer or the originating carrier.

The long distance service minutes included in the Long Distance and Toll Free plans apply to domestic intrastate calls, domestic interstate, extended calls (Alaska and Hawaii), NANP calls and to international calls as provided by McLeodUSA pursuant to federal regulation. All lines at a customer location must be PIC'd to McLeodUSA for long distance service package.

Dedicated Select LD and Toll Free Plan provides dedicated inbound long distance services and inbound 1+ long distance service for business customers that bill over 50,000 minutes of long distance usage (i.e., both inbound and outbound Long Distance) per month per DAL from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL). Any McLeodUSA business customer that has a DAL for 3 months to "ramp up" their monthly DAL usage to 50,000 minutes per month per DAL. Beginning the fourth month of billing the customer will be assessed a \$500 shortfall charge per DAL if the customer does not bill more than 50,000 minutes per month per DAL from McLeodUSA.

(M)(N)

5.3.4.A Rate Table 5.1.1: Dedicated Select LD and Toll Free Plan

This service is available to business customers that bill over 50,000 minutes of long distance usage per month (i.e., both inbound and outbound Long Distance) from McLeodUSA. A direct connection with the McLeodUSA network via a Dedicated Access Line (DAL) is required. DALs are either connected to a McLeodUSA switch or provided via an alternative vendor. This service can be provided where necessary facilities are available. This product is available for multiple locations, however, the monthly rates may vary due to state locations.

Pricing is based on per minute rates that incorporate the origination, transport and final termination of the customer's call. Calls are billed in 6-second increments, with a 6-second minimum. Customer has 3 months from the time of the DAL turn-up to ramp up to 50,000 minutes per month usage on that DAL. After that period, Customer will be subject to a charge of \$5.00 in any month in which Customer's total monthly long distance usage is less than 50,000 minutes. A recurring charge will also be assessed for the DAL circuit.

Intrastate rates will be applied to any call received where the originating ARI is not provided by the customer or originating carrier. Long Distance rates for Dedicated Select LD and Toll Free Plan long distance service require that a customer maintain an acceptable traffic distribution on its outgoing and incoming Long Distance calls. The total minutes of Long Distance calls must originate or terminate at least 80% of the time from or to end-user customers located in a local exchange in which a Regional Bell Operating Company ("RBOC") is the incumbent Local provider. McLeodUSA has the right to switch customer to a different LD plan and provide service on a month-to-month arrangement when any customer's Long Distance terminates less than 80% of the time to a LEC providing local service in an RBOC exchange. The toll free service is not available for any locations outside of the continental United States. Tailored Call Coverage and Route Overflow are available features.

Account Codes are available to provide customers auditing functionality for all long distance calls.

5.3.4.A	Rate	5.1.1.1 Toll Free	1 w/o	Access and LD and
	Toll	Access		

Intrastate rates will be applied to any call received where the originating LD plan is not provided by the customer or the originating LD plan is a Long Distance Free Plan w/o Local Access and LD and Toll Free w/ Local Access service. The customer must maintain an acceptable traffic distribution, including incoming long distance calls. The total minutes of Long Distance calls must be no more than 10% of the minutes from or to end user customer originated in a local area in which the regional Bell operating Company ("RBOC") is the incumbent local provider. RBOC has the right to switch customers to a different LD plan and provide service on a non-discriminatory basis. Any customer's Long Distance terminates less than 80% of the time to a LEP providing local service in the RBOC exchange.

The toll free service is not available for pay phone calls outside of the continental United States. All incoming toll free calls will be handled by the second line of the number.	Free features include:
listing of Customer's toll free number in the Yellow Pages.	Message referral that
provides a disconnect or referral message.	restricted areas of service;
geographic routing that permits customer to call from any area.	NPA of the caller; time
routing that permits customer to call from any area.	time specifications;
percent allocation routing that permits customer to call from any area.	based on a percentage
distribution and route advance notice.	mination for overflow.

5.0 Rates and Charges - Price List (cont'd)**5.3 Rate Tables (cont'd)****5.3.7 Rate Table 7: Local T1/PRI ISDN (cont'd)****5.3.7.F Rate Table 7.6: Preferred AdvantageSM Integrated Access Trunk****5.3.7.F.1 Product Description**

The McLeodUSA Preferred Advantage Integrated Access (IA) Trunk solution is a full service communications product combining local voice and data over a single On-Switch T1 or PRI dedicated facility. The customer is eligible for LD and Toll Free w/ Local Access pricing for calls carried by the same facility. An Integrated Access Device (IAD) will be placed at the customer's premise and allow for delivery and integration of each service to the end customer. The Base Package for this product is 6 voice lines plus 256K (4 channels) of High-Speed Internet access with 8 static IP addresses, of which 5 are usable. High Speed Internet, Secure Metro Connections (metro frame), or Secure City-to-City Connections (standard frame) can be added, in single channel (64K) increments to the base package. Pricing does not include the loop, port, or PVC charges associated with multi-node frame services. Additional IP addresses are available for an additional charge. This service is not offered on a month-to-month basis; the customer will be required to sign a contract with a term of at least 1 year to purchase the service. (T)

For this product, no separate charges apply for an End User Common Line (EUCL) charge, Local Number Portability (LNP), Presubscribed Interexchange Carrier Charge (PICC), Local Measured Service (LMS), or mandatory Extended Area Service (EAS). Taxes and surcharges associated with E911 and universal service programs will be applied in addition to the rates in this section. Features will be available subject to technical requirements.

This product is available where McLeodUSA facilities permit. The customer must use IAD terminal equipment that will be owned and supplied by McLeodUSA at no additional charge to the customer. Basic managed services are provided at no additional cost to the customer. These are: proactive monitoring of the IAD, initial configuration assistance (not including LAN configuration settings), on-site replacement in case of equipment failure which is not the fault of the customer, and firmware upgrades as necessary. Other services may be provided at additional charge. McLeodUSA will maintain initial IAD customer configurations at the time of initial service turn-up, but will not capture or retain incremental configuration changes. If the customer voluntarily powers down the IAD, a technician may need to be dispatched and additional charges to the customer will result.

Additional voice and data channels can be added either at the time of installation or during the term of the Service Agreement, and added channels will have a term commitment that terminates at the same time as the Service Agreement. No more than 14 additional channels (13 additional channels if the facility is a PRI facility) can be added to a single base package. No more than 1 trunk group can be associated with a PRI facility, and no more than 7 trunk groups can be associated with a T1 facility.

All or part of nonrecurring charges for this product may be waived in the case of customers making a minimum term commitment of (1) year and taking into consideration the number of channels maintained by Customer. Customers may agree to additional pricing for inside wiring work. Term and volume discounts may also be applied. (N)

Contract termination penalties as provided in the customer's Service Agreement will apply in the event that the customer does not maintain the Base Package for the term of the agreement. If the customer discontinues Integrated Access service with the company, McLeodUSA will retrieve the IAD and battery pack that had been deployed for the customer's use. The customer will incur additional charges in the event that the customer does not allow for the prompt retrieval of the IAD upon termination of service. (N)

This service is intended to be utilized in conjunction with a customer-provided Private Branch Exchange (PBX) or similar system, utilizing a customer-provided DTI or channel bank. The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done in-band. The customer shall be eligible for LD and Toll Free Plan w/ Local Access long distance rates on outbound toll services provided McLeodUSA. When Direct Inward Dial (DID) / Direct Outward Dial (DOD) service is ordered, DID numbers must be purchased from the Company. Where technically available, outbound calling ID number is a standard component of this service.

(T)

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer.

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Each Customer subscribing to the service is required to periodically perform such traffic studies as are necessary to confirm this fact, and to immediately inform McLeodUSA if those studies do not confirm the fact.

This service is intended to be utilized in conjunction with a customer-provided Private Branch Exchange (PBX) or similar system, utilizing a customer-provided DTI or channel bank. The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done out-of-band on a separate "D" channel, typically the 24th trunk on the digital T1 facility. The customer shall be eligible for LD and Toll Free Plan w/ Local Access long distance rates on outbound toll services provided by McLeodUSA. When Direct Inward Dial (DID) / Direct Outward Dial (DOD) service is ordered, DID numbers must be purchased from the Company. Where technically available, inbound and outbound calling ID number is a standard component of this service. (T)

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer.

Calling Party Name & Number is an included feature and allows the customer to receive this information from their call, assuming that their PBX system is capable of doing so, the calling ID party is served by a switch capable of passing that information, and the calling party has not blocked that information. This feature is offered where technically available

Call Transfer with Release is an included feature and allows the customer to transfer an inbound call on their PRI service to a person on an outbound trunk, then disconnect the call without the calling party and the party to which the call was transferred, being disconnected. This optimizes utilization on the customer PRI trunks. This feature is offered where technically available.

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Each Customer subscribing to the service is required to periodically perform such traffic studies as are necessary to confirm this fact, and to immediately inform McLeodUSA if those studies do not confirm the fact.

A Customer subscribing to this service is also prohibited from stripping, changing, or in any way manipulating the telephone number of the calling party associated with each individual call, and to maintain call records showing the originating numbers for each call, to the extent those originating numbers are passed to Customer with the call.

Eligibility: The PRIme Time Promotion is available for new and existing retail customers signing a term agreement of at least twenty-four (24) months for Preferred Advantage Dedicated Local T1 or PRI services. Existing retail Preferred Advantage Dedicated Local T1 or PRI customers who are currently under term agreement will be required to extend their term a minimum of two years in order to qualify for the promotional pricing. Promotional pricing may be used in conjunction with standard McLeodUSA Term and Volume Discounts.

The promotional period shall begin with the effective date of this tariff and end on March 31, 2008.

(T)
(T)

Promotion: This promotion reduces the monthly recurring price for eligible customers subscribing to McLeodUSA Preferred Advantage Dedicated Local T1 or PRI services. The promotional pricing applies to 12, 16, 20 or 24 channel T1 or PRI configurations. The PRIme Time Promotion is available in select Central Offices, depending on network capacity. When capacities are exhausted in a Central Office, the promotion will no longer be available in the impacted Central Office. The standard Preferred Advantage monthly and nonrecurring pricing will apply for all optional features, feature changes and order activity.

PRIme Time Promotional Pricing is \$420.00 and available in the following Central Offices.

7.0 Grandfathered Services/Products**Sections 7.4 through 7.32 will no longer be available to new customers as of January 1, 2003.****7.4 Basic Exchange Access Service - McLeodUSA Advantage**

(From Tariff No. 1, Section 2.3.4, page 66)

Basic Exchange Access Service provides the Customer with a single, voice-grade communications channel connecting the Customer's premises and the Company's, or the Company's designated Carrier's, central office. Basic Exchange Access Service provides the Customer with access to the switched network for purposes of placing and receiving calls.

Basic Exchange Access Service Customers are entitled to a voice-grade communications channel. Customers are not guaranteed a communications path capable of supporting data transmissions.

These charges apply to Basic Exchange Access Services in addition to the "additional charges"

7.5 Basic Exchange Access Services--Rate Schedule - McLeodUSA Advantage

(From Tariff No. 1, Section 2.3.5, page 66)

Rates for Basic Exchange Access Services are based upon class of service (as set forth in this tariff's "Definitions" section) and access area as defined in Section 2.2.2). All rates in this Section are applied monthly unless specifically identified otherwise. The below rates are for both line rates available with McLeodUSA Advantage. McLeodUSA Advantage consists of "bundled" line rates and "a la carte" line rates. Bundled rates are to be used for customers that have both McLeodUSA long distance service and local service. The a la carte rates are available to customers that have either McLeodUSA long distance service or local service, but not both.

	<u>Access Area</u>		
	<u>Area B</u>	<u>Area C</u>	<u>Area D</u>
	(min./max.)	(min./max.)	(min./max.)

7.0 Grandfathered Services/Products (cont'd)7.6 Additional Charges Applied to Basic Exchange Access Services

McLeodUSA Advantage

(From Tariff No. 1, Section 2.3.6, page 67)

In addition to the charges for Basic Exchange Access Services described above, the following charges apply to each individual Exchange Access Service line unless otherwise specified.

- (a) The End User Common Line Charge applies in addition to the monthly Basic Exchange Access Services rate described above.
- (b) The 911 telecommunications Service Surcharge.
- (c) Any applicable municipal, state or federal taxes, franchise fees or other charges.
- (d) Casual traffic charges that are derived from third party call (e.g., 10XXX, 900/976, third party calls initiated by Customer through Applicant's system) are trafficked over Applicant's system.

7.7 Residential Local Usage Service

7.0 Grandfathered Services/Products (cont'd)7.12 Resold Switched Access Service - Available only to carriers

(From Tariff No. 1, Section 2.4.4.1 - page 72)

Resold Switched Access Service, which is not available at this time to Customers for their use in furnishing their services to End Users, will provide a two-point communications path between a Customer's Premises and an End User's Premises. It will provide for the use of common terminating, switching, and transport facilities. Resold Switched Access Service will provide the ability to originate calls from an End User's Premises to a Customer's Premises, and to terminated calls from a Customer's Premises location to an End User's Premises. Rates and charges unique to resold service are not included at this time.

7.13 Optional Exchange Access Service Enhancement Features--Rate Schedule

(From tariff No. 1, Section 2.5.2 - pages 75-82.1.)

(Applicant is not offering residential services at this time)

Rates in this section are applied on a monthly basis unless otherwise specified:

	<u>Residence</u>	<u>Business</u>
	(min./max.)	(min./max.)
CALL WAITING	\$1.80-\$30.00	\$1.80-\$30.00
(Provides a tone signal when a second call is coming in on a busy line.)		
CALL FORWARDING - Variable	\$1.80-\$20.00	\$1.80-\$20.00
(Permits a Customer to automatically transfer all incoming calls to another dialable telephone number.)		
THREE-WAY CALLING	\$1.80-\$20.00	\$1.80-\$20.00
(Adds a third party to an established connection without operator assistance.)		
PER CALL BLOCKING	No Charge	No Charge
(Enables customers to prevent the disclosure of their telephone number on a per call basis to the called party. The disclosure of the calling party's number can be prevented on a per call basis by dialing *67 from a touch-tone phone, or 1167 from a rotary dial phone, to activate the block. All public and semi-public payphones of McLeodUSA will be equipped with Per Call Blocking.		
DISTINCTIVE RINGING	\$1.60-\$16.00	\$1.60-\$16.00
(Allows customers to designate several numbers that will be recognized immediately as important calls by means of a distinctive alerting signal. Up to ten telephone may be added to the screening list through an interactive dialing sequence. Incoming calls from these numbers will have a distinctive ring. For Customers with call waiting, a distinctive call waiting signal will be received if a call from one of the designated telephone numbers is waiting.)

7.0 Grandfathered Services/Products (cont'd)7.13 Optional Exchange Access Service Enhancement Features--Rate Schedule (cont'd)

	<u>Residence</u> (min./max.)	<u>Business</u> (min./max.)
PER LINE BLOCKING	\$0.01 - \$5.00	\$0.01 - \$5.00
(Enables customers to prevent the disclosure of their telephone number on all outgoing calls, without the necessity of an activation code. Per Line Blocking will be provided at no monthly charge on an optional basis to nonpublished customers at their discretion. Law Enforcement, domestic shelters, and other special agencies will be offered free Per Line Blocking. Per Line Blocking will not be available to public, semi-public, two-party & four-party customers.		
CALL SCREENING	\$1.85-\$12.00	\$1.85-\$12.00
(Customer can designate 10 numbers from which incoming calls will be connected to a pre-recorded announcement that calls are not being taken now.)		
CALLER ID	\$2.00-\$15.10	\$2.00-\$15.10
(This central office feature provides for the display of the incoming telephone number on a Customer provided display device attached to the Customer's telephone line or on a Customer-provided telephone or answering machine with a built-in display screen.)		
CALLER ID WITH NAME	\$1.00-\$10.00	\$1.00-\$10.00
(This central office feature is only offered to Customers being served by appropriately equipped central offices and subscribing to caller ID. This feature provides for the display of the listed name associated with the telephone number from which the call is being made.)		
CALLER ID WITH NUMBER	\$4.00-\$10.00	\$4.00-\$10.00
(This central office feature is only offered to Customers being served by appropriately equipped central offices and subscribing to Caller ID. This feature provides for the Display of the listed number from which the call is being made.)		
SPEED CALLING 6	\$2.00-\$10.00	\$2.00-\$10.00
(This feature gives the Customer the ability to pre-program their phone to store and dial 6 individual telephone numbers.)		
SPEED CALLING 30	\$2.00-\$10.00	\$2.00-\$10.00
(This feature gives the Customer the ability to pre-program their phone to store and dial 30 individual telephone numbers.)		
BUSY LINE TRANSFER	\$0.45-\$5.51	\$0.45-\$5.51
(In the event that the called telephone number is busy, this feature automatically forwards incoming calls to a predetermined telephone number served by the same central office switch, or provides inter-switch forwarding to a predetermined, dialable telephone number where technically available. Additional local usage charges can apply.

7.0 Grandfathered Services/Products (cont'd)**7.14 Basic Exchange Access Services – Rate Schedule**

(From Tariff No. 1, Section 2.0 - page 189.)

(McLeodUSA is not offering residential Services at this time) Rates for Basic Exchange Access Services are based upon class of service (as set forth in McLeodUSA Tariff No. 1 "Definitions" Section and access area as defined in McLeodUSA's Tariff No. 1, Section 2.2.2). All rates in this section are applied monthly unless specifically identified otherwise. The below rates are with McLeodUSA Advantage. McLeodUSA Advantage consists of "bundled" line rates and "a la carte" line rates. Bundled rates are to be used for customers that have both McLeodUSA long distance service and local service. The a la carte rates are available to customers that have either McLeodUSA long distance service or local service, but not both.

	<u>Access Area</u>		
	<u>Area B</u>	<u>Area C</u>	<u>Area D</u>
Residential Single Line	\$4.18	\$4.18	\$4.18
Residential Multi-Line	\$4.18	\$4.18	\$4.18

McLeodUSA Advantage**A. Bundled Line Rates**

<u>Business Single Line</u>	<u>Mo.-Mo.</u>	<u>18 Mo.</u>	<u>36 Mo.</u>	<u>60 Mo.</u>
Area B	\$15.95	\$14.83	\$14.35	\$14.04

7.0 Grandfathered Services/Products (cont'd)7.20 Feature Packages

(From Tariff No. 1, Section 3.2.1, pages 202-202.1.)

3 for \$5 Feature Package

Effective January 19, 2006, this 3 for \$5.00 feature package is only available to customers where their service is provided via McLeodUSA local switching platform.

(N)

(N)

This feature option is only available where McLeodUSA's facilities and equipment are available. Customers enrolling under an 18, 36 or 60 month term agreement will be eligible to select the 3 for \$5 feature option. A customer may select from 1-3 features at a monthly rate of \$5.00 per line. If a customer chooses to select only one feature on any line and the current price of that feature is less than \$5.00, the ala cart feature price will apply. If the customer has more than 3 features on a line, each additional feature will be charged at its current ala cart rate. No additional feature discounts will apply. Eligible features for this option include:

Busy Line Transfer
Alternate Answering

Call Forward Variable
Call Waiting

3-Way Calling
Speed Calling 30

Business Link feature package

Effective January 19, 2006, this Business Link feature package is only available to customers where their service is provided via McLeodUSA local switching platform.

(N)

(N)

The below features are in a feature package known as "Business Link" and is offered to business customers that sign an 18, 36 or 60 month term agreement. There is a \$10.00, per line, monthly charge to have this feature package. Any other features added to the customer's line outside of this package will be charged the "a la carte" rate. Only one feature package can be added per line.

Call Forwarding - Busy Line
Call Forwarding - Variable
3-Way Conference Calling

Call Forwarding - Don't Answer
Call Transfer Deluxe
Consultation Hold Message Waiting Indicator-Audible

7.20 Feature Packages (cont'd)
(From Tariff No. 1, Section 3.2.1, pages 202-202.1.)

Advantage Feature Package 2001A

If the following requirements are met, the customer is a "qualifying customer" for purposes of this feature package:

- a. The customer must have selected McLeodUSA as its presubscribed carrier for local, interLATA, intraLATA, and international services;
- b. The customer must purchase at least one data product (Web hosting, dial-up internet, or DSL) from McLeodUSA;
- c. The customer must enter into a 60-month agreement for services from McLeodUSA on or after May 1, 2001.

Qualifying customers who subscribe to Caller ID (Number Only) or Caller ID (Name and Number) service will receive a credit at least equal to the monthly price of the Caller ID option received, for each of the first three months of service. The credit above will apply automatically to qualifying customers who initially become McLeodUSA customers on or after May 1, 2001, and upon request to other lines and customers of McLeodUSA. This offer is limited to areas where the local, long distance, Caller ID, and data services mentioned above are available.

7.0 Grandfathered Services/Products (cont'd)7.21 Foreign District Service

(From Tariff No. 1, Section 2.11, page 96.)

Foreign District Service is a service by which a Customer can be provided the Company's Exchange Access Service from a district other than the one in which the Customer's premise is located. When a Customer subscribes to Foreign District service he/she will be considered to reside in the district he/she has chosen as the Foreign District for purposes of rating and billing the Company's services within this tariff. Price lists for these charges are in Section 7, Part 9.0. (Applicant is not offering residential services at this time.)

Foreign District Service--Rate Schedule

(Applicant is not offering residential service at this time)

The rate for Foreign District Service is (1) the usage rate in effect in the Foreign District for the class of service furnished, (2) the access rate for the access area in which the Customer is physically located; and (3) the following mileage charges:

	<u>Monthly Rate</u>	
	<u>Residence</u>	<u>Business</u>
	(min./max.)	(min./max.)
- Area Function Charge	\$9.00-\$40.00	\$9.00-\$40.00
- Interexchange Circuit per mile	\$2.00-\$14.00	\$2.00-\$14.00
- Interexchange Circuit Service Terminal	\$4.00-\$80.40	\$4.00-\$80.40

(From Tariff No. 1, Section 9.0, page 213.)

Foreign District Service--Rate Schedule

(McLeodUSA is not offering residential service at this time)

The rate for Foreign District Service is (1) the usage rate in effect in the Foreign District for the class of service furnished, (2) the access rate for the access area in which the Customer is physically located; and (3) the following mileage charges:

	<u>Monthly Rate</u>	
	<u>Residence</u>	<u>Business</u>
- Area Function Charge	\$14.50	\$14.50
- Interexchange Circuit per mile	\$4.03	\$4.03
- Interexchange Circuit Service Terminal	\$40.35	\$40.35

7.0 Grandfathered Services/Products (cont'd)

7.23 Wide Area ("WATS") and Message ("MTS") Toll Services

(From Tariff No. 1, Section 2.15.1, page 102)

The Company offers WATS and MTS intrastate interexchange long distance service utilizing switched or dedicated access arrangements between the Customers Premises and the Company's facilities for call origination. Call termination is completed through a combination of Company facilities and LEC switched access arrangements.

Timing of Calls

Long-distance usage charges are based on the actual usage of the Company Network. Chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when either party "hangs up" thereby releasing the network connection. Unless otherwise specified in this Tariff, the minimum call duration for billing purposes is sixty (60) seconds. In addition, unless otherwise specified in this Tariff, usage is measured thereafter in sixty (60) second increments and rounded to the next higher sixty (60) second period.

Minimum Call Completion Rate

A Customer can expect a call completion rate of not less than 90% during peak use periods for all Feature Group D services.

(From Tariff No. 1, Section 13.7, page 217.)

Dedicated outbound service permits outward calling to stations in diverse service areas. Dedicated outbound service is distinguished from other services by the existence of a dedicated, special access connection on one end. The Customer shall be responsible for all LEC charges.

Per minute, all periods:	\$0.1190 (residential and business)
--------------------------	-------------------------------------

Calling Card Service

(From Tariff No. 1, Section 13.8, page 220.)

Per call surcharge:	\$0.80
Per minute:	\$0.1390

Issued: November 20, 2002

Effective: December 20, 2002

BY: William A. Haas
Vice President and Deputy General Counsel
One Martha's Way, P.O. Box 3177
Hiawatha, Iowa 52233

Issued under authority of the Public Utilities Commission of Ohio, dated March 16, 2000, in Case No. 99-972-TP-ACE.

7.0 Grandfathered Services/Products (cont'd)7.25 800 Services

(From Tariff No. 1, Section 2.18, page 106.)

	<u>Min</u>	<u>Max</u>
Monthly charge per 800 line	\$0.01	\$20.00
Rates per minute	\$0.01	\$0.30

(From Tariff No. 1, Section 13.10, page 228.)

A. Monthly Charges

Members are charged \$10 per month per 800 line. Members ordering Area Code Blocking will be charged a one-time \$110.00 fee.

B. Usage-Sensitive Rates

All incoming calls are charged at the same rate regardless of point of origin. Day or peak rates are applicable from 8:00 a.m. to 5:00 p.m.

C. Rates Per Minute

\$0.1390

7.26 Residential Long Distance Service

(From Tariff No. 1, Section 2.19, page 106.)

This plan is available to residential customers. All calls will be billed using a one minute minimum initial period with one minute minimum additional increments. Contract term lengths are available in 18, 36 or 60 month intervals upon request.

	<u>Min</u>	<u>Max</u>
Outbound Interstate Rate	\$0.01	\$20.00

(From Tariff No. 1, Section 13.11, page 228.)

This plan is available to residential customers. All calls will be billed using a one minute minimum initial period with one minute minimum additional increments. Contract term lengths are available in 18, 36 or 60 month intervals upon request.

	<u>Per Minute</u>
Outbound Intrastate Rate	\$0.080
Toll Free Rate	\$0.220
Calling Card Charge	\$0.25

Surcharges

Calling Card Surcharge	\$0.35
Toll Free Service Surcharge	\$1.00

Issued: November 20, 2002

Effective: December 20, 2002

BY: William A. Haas
Vice President and Deputy General Counsel
One Martha's Way, P.O. Box 3177
Hiawatha, Iowa 52233

Issued under authority of the Public Utilities Commission of Ohio, dated March 16, 2000, in Case No. 99-972-TP-ACE.

7.0 Grandfathered Services/Products (cont'd)7.27 Dedicated Long Distance Service Plan 7-2000

(From Tariff No. 1, Section 13.14.1, page 236.2.)

These rates are available to customers signing a written agreement with McLeodUSA, and only for traffic carried over dedicated access services purchased from McLeodUSA. Rates under this plan will be billed with a six second initial period and six second additional increments. On a monthly basis, no more than 20% of the customer's traffic may originate or terminate at non-RBOC exchanges in order to qualify for these rates.

Inbound and Outbound Traffic

<u>Mo.-Mo.</u>	<u>18 Mos.</u>	<u>36 or 60 Mos.</u>
