COMPLAINT DESCRIPTION:

Do not allow Toledo Edison a rate increase. The top 5 executives make multi million dollar salaries and racking up huge profits of over a billion dollars.

For what, running a company with no competition like the rest of us have to deal with. The company has no incentives to trim cost because they can always go back to the PUCO, which they are in bed with to raise rates again. We have the highest utilities rates in the country and wonder why industry is leaving the area. I cannot believe such a proposal would be entertained.
