The Company undertakes to provide the services offered in this Tariff on the terms and conditions and at the rates and charges specified herein.

The Company's services and facilities are provided on a monthly basis unless otherwise indicated, and are available twenty-four hours per day, seven days per week. For the purpose of computing charges in this Tariff, a month is considered to have 30 days.

2.1.2. TERMS AND CONDITIONS

Customers may be required to enter into written service orders that may contain or reference a specific description of the service ordered, the rates to be charged, and the terms and conditions in this Tariff. The length of the service interruption will be computed on a continuous basis, Saturdays, Sundays, and holidays included. This rule does not apply if the out-of-service condition:
1. Occurs as a result of a negligent or willful act on the part of the subscriber;
 2. Occurs as a result of a malfunction of subscriber-owned telephone equipment or inside wire;

2.4. PAYMENTS AND CHARGES

2.4.1. ESTABLISHMENT AND REESTABLISHMENT OF CREDIT

The Company may require customers to establish financial responsibility as a condition precedent to establishing service. 2.4. PAYMENTS AND CHARGES (CONT'D)

2.4.2. BILLING AND COLLECTION

The customer is responsible for payment of all charges for equipment or facilities and services furnished by the Company to the customer.

The Company will comply with the Commission's Minimum Telephone Service Standards with regards to subscriber billing, as set forth in O.A.C. 4901:1-5-15.

The Company will establish a monthly billing date for each customer account. The Company will bill the customer directly each month for all charges incurred by and credits due to the customer under this Tariff. Recurring charges are billed monthly, in advance of the month(s) in which service is provided, except for usage sensitive charges, which will be billed monthly for the preceding billing period. Bills are due upon receipt, and payment must be received no later than the payment due date shown on the bill.

When the customer's service does not begin on the first day of the billing cycle or end the last day of the billing cycle, the charge for the fraction of the billing cycle in which service was furnished will be calculated on a pro rata basis, or a bill credit may be applied for the fraction of the billing cycle in which service was not furnished.

Partial payments applied towards any past due amount on a bill or the balance due on a disconnection notice shall be apportioned to past due regulated local service charges, then to any current local charges, before being applied to any toll or non-regulated charges unless the customer pays the entire amount past due or more. In that case any amount paid over the amount past due shall be applied first to current local charges.

The customer is responsible for notifying the Company either orally or in writing of any charges in dispute and the specific basis of such dispute. Upon notification of a dispute, the Company shall undertake an investigation of the disputed charges, per O.A.C. 4901:1-5-05. At the conclusion of the investigation, the Company shall notify the customer of any amount determined by the Company to be correctly charged and such amount shall become immediately due and owing.

2.4.4. ADVANCE PAYMENTS

The Company may require a customer to make an advance payment as a condition of continued or new service where special construction is involved. The Company reserves the right to require from an applicant for service advance payments of recurring and nonrecurring charges, estimated usage charges, and other charges and guarantees in such amount as may be deemed necessary by the Company for safeguarding its interests. The advance payment will not exceed an amount equal to the sum of the applicable nonrecurring charges plus charges for one month of service. In addition, where special construction is involved, the advance payment may also include an amount equal to the estimated nonrecurring charges for the special construction.

- G. No notice is required prior to disconnection when:
 - 1. An emergency may threaten the health or safety of a person, or the local service provider's distribution system. If service is disconnected, the Company shall act promptly to restore service as soon as possible;

 - 3. A subscriber tampers with facilities or equipment owned by the telecommunications provider.
- H. If a subscriber or a member of the subscriber's household demonstrates that disconnection of service would be especially dangerous to his/her health, the Company will consider this circumstance when offering extended payment arrangements to avoid disconnection. Payment arrangements shall be offered regardless of the credit class of the subscriber.
- I. When a residential subscriber's local service is disconnected for nonpayment, the Company will maintain the subscriber's access to emergency services for a period of at least fourteen (14) days following such disconnection.

4. SERVICE CONNECTION AND MAINTENANCE CHARGES

4.1. GENERAL

The Company's service is subject to nonrecurring service charges that apply to customer requests for connecting, moving or changing service. These charges are in addition to any other scheduled rates and charges that would normally apply under this Tariff.

(T)

Charges for the connection, move or change of service will apply for work being performed during the Company's normal business hours. If the customer requests that overtime labor be performed at a premises on the day or days of the week other than normal work hours or on holidays, or interrupts work once has it begun, an additional charge may apply based upon the additional cost involved. All changes in location of the customer's service from one premises to another, except as otherwise provided in this Section, are treated as new service connections with the appropriate Service Charges applying.

4.2. SERVICE CONNECTION AND LINE ACTIVATION CHARGES

4.2.1. DESCRIPTION OF CHARGES

A Service Connection Charge or Line Activation Charge applies when a customer requests establishment of new service. The requirement to install certain facilities or equipment, or the presence of such facilities or equipment, will determine whether the Service Connection Charge or the Line Activation Charge will apply.

Customers may select a deferred payment arrangement for the payment of local residential service installation charges. A deferred payment arrangement will allow such charges to be paid to the Company over a three-month period of time after installation.

- A. The Service Connection Charge applies per occurrence for the initial or subsequent installation of broadband facilities and equipment, and to any change of location of such facilities and equipment.
- B. The Primary Line Activation Charge applies per occurrence where existing broadband facilities and equipment (with sufficient capacity to meet the activation requirement) are available. Where existing facilities are not available, a Service Connection Charge applies in lieu of the Primary Line Activation Charge.

9. MESSAGE TELECOMMUNICATIONS SERVICE

9.1. GENERAL

Message Telecommunications Service (MTS) applies to all toll calls made between two or more rate centers that are furnished or made available by the Company over facilities within the state. MTS provides telecommunication beyond the local serving area. MTS charges cover the service furnished between the calling and called stations. MTS Service is available to customers located within the Company's service area who subscribe to Comcast Local Service as described in this Tariff. (T)

Charges for MTS calls are determined by the class of the call and the duration of the call. The total amount of the call will be rounded to the nearest cent if the computed rate of the call results in a fractional charge.

Charges for MTS calls apply to all intrastate intraLATA and interLATA calls, all times of day, seven days a week. Usage and service charge rates for Interstate and International calls are specified in the Comcast Service Guide located at <http://www.comcast.com/tariffs>. (T)
(T)

9.2. REGULATIONS

9.2.1. DESCRIPTION OF SERVICE

MTS is the furnishing of facilities for telecommunication between station lines in different local service areas in accordance with the terms, conditions, and rates specified in this Tariff. The Company does not undertake to transmit messages but furnishes the use of its facilities to its customers for communications.

Customers subscribing to the Integrated Offering, as specified in Section 5.1, must be presubscribed to the Company as their IntraLATA and InterLATA toll provider.

9.2.2. CLASS OF CALLS

Charges apply according to the class of call the calling party selects as defined below.

A. Dial Station

Dial Station charges will apply when the customer dials the desired telephone number without the assistance of a Company Operator and the call is billed to the calling number. This includes calls forwarded by call forwarding equipment.

9. MESSAGE TELECOMMUNICATIONS SERVICE

9.2. REGULATIONS (CONT'D)

9.2.2. CLASS OF CALLS (CONT'D)

A. Dial Station (Cont'd)

The Dial Station class of service also applies when the Operator:

1. Records the calling telephone number for areas without automatic recording equipment.
2. Reaches the called telephone number because of trouble on the network or because dial completion is not available.
3. Places a call for a calling party who is identified as being disabled and is unable to dial the call because of that disability.
4. Reestablishes a dialed call when there is a service fault that interrupts a call after the called person has been reached.

B. Operator Services

1. Operator Station

Operator Station rates apply when the customer places a call with the assistance of a Company Operator or mechanized response system.

2. Person-to-Person

Person-to-Person charges apply when the calling party specifies to the operator a particular person to be reached, or a particular station, department, or office to be reached through a PBX or Centrex attendant. After the called station has been reached, if the called party is unavailable and the calling party requests or agrees to speak to a party other than the party initially specified, the call is still billed as a Person-to-Person call. The calling party is responsible for identifying the party at the called station.

9. MESSAGE TELECOMMUNICATIONS SERVICE

9.2. REGULATIONS (CONT'D)

9.2.3. TIMING OF CALLS

- A. On Dial Station and Operator Station calls, the timing of a call begins when the calling and called stations are connected. Calls are timed in one-minute increments.
- B. On Person-to-Person calls the timing of a call begins when the calling person is connected to a specified person, station, or an agreed alternate.
- C. Chargeable time ends when the connection is terminated at any point.
- D. The timing of a call does not include time lost due to service faults or defects that are reported to the Company.
- E. MTS usage rates are applied on the basis of whole minute intervals. The billing interval is determined by rounding up partial minutes to the next whole minute.
- F. In cases where a calling plan is billed according to the time of day and a message begins in one price period and ends in another, the price for each minute is the price in effect at the beginning of each minute of usage.

9.2.4. TOLL BLOCKING

- A. The Company when providing toll service, may “universally” block access to all toll providers for nonpayment of regulated toll charges, so long as the blocked customer is not denied the right to select, through a presubscribed interexchange change (PIC) mechanism, any other 1+ presubscribed toll service provider who is obligated to provide such service under the terms of the Selective Access Policy.

9.2. REGULATIONS (CONT'D)

9.2.4. TOLL BLOCKING (CONT'D)

- B. Under the terms of the Selective Access Policy, the Company when providing toll service, may not deny establishment of 1+ presubscribed toll service on the grounds that the customer has failed to establish creditworthiness, if:
 - 1. the customer is able to establish creditworthiness using one of the means for doing so available under the Public Utilities Commission of Ohio's (PUCO) rules, or
 - 2. the Company, when providing toll service, exercising its own discretion, does not require the customer to establish creditworthiness (through any of the means available for doing so under the PUCO's rules), or
 - 3. the Company, when providing toll service, attempts to require the customer to establish creditworthiness using credit establishment procedures which do not comport with the PUCO's credit establishment policies and/or are not set forth within a PUCO approved tariff.
- C. When a prospective customer, who has previously been universally blocked for nonpayment of toll charges by another carrier, seeks to select the Company as his or her 1+ carrier of choice, the Company may, subject to our tariffed toll deposit policies and the Commission's rules on establishment of service (See Rules 4901:1-5-13 and 4901:1-5-14, Ohio Administrative Code, [O.A.C.]), require a deposit for toll service. This deposit shall be in accordance with Rule 4901:1-5-13 (B), O.A.C., but the Company, may negotiate a lower deposit.
- D. The Company may furnish credit information, acquired from the Company's own experiences with the customer, to consumer reporting agencies within the meaning of the Federal Fair Credit Reporting Act. The Company will follow all requirements that consumer reporting agencies must follow in issuing credit reports within the meaning of the Federal Fair Credit Reporting Act.
- E. Upon payment by the customer of all past due toll debt to the Company, the Company will remove the block and all 1+ dialing capabilities, including 10-XXX, will be restored.

These safeguards can be found in the Appendix to Ohio Administrative Code 4901:1-5-03, which is entitled "Telephone Customer Rights and Responsibilities". 2.1. UNDERTAKING OF THE COMPANY

2.1.1. GENERAL

The Company undertakes to provide the services offered in this Tariff on the terms and conditions and at the rates and charges specified herein.

The Company's services and facilities are provided on a monthly basis unless otherwise indicated, and are available twenty-four hours per day, seven days per week. For the purpose of computing charges in this Tariff, a month is considered to have 30 days.

Services, features and functions will be provided where facilities, including but not limited to billing capability and technical capability, are available without unreasonable expense to the Company, as determined in the Company's sole discretion.

2.1.2. TERMS AND CONDITIONS

Customers may be required to enter into written service orders that may contain or reference a specific description of the service ordered, the rates to be charged, and the terms and conditions in this Tariff. The customer may also be required to execute any other documents as may reasonably be requested by the Company in connection with the provisioning of broadband local service, such as medical certificates or third party verifications.

Service will be provided on a month-to-month basis at the then current rates unless terminated by either party. Any termination shall not relieve the customer of the obligation to pay any charges incurred under the service orders, if any, and this Tariff prior to termination. The customer's rights and obligations incurred under this Tariff, which by their nature extend beyond termination of service, shall survive such termination; e.g., usage charges billed after termination is requested.

The Company reserves the right to require from an applicant for service advance payments of recurring and nonrecurring charges, estimated usage charges, and other charges and guarantees in such amount as may be deemed necessary by the Company for safeguarding its interests. The advance payment will not exceed an amount equal to the sum of the applicable nonrecurring charges plus charges for one month of service. In addition, where special construction is involved, the advance payment may also include an amount equal to the estimated nonrecurring charges for the special construction.
