For purposes of this tariff, the service provided by the company is intrastate long distance telecommunications to Customers (Subscribers) who have entered into a service agreement with Indicom. The Company may in some cases, and only where specifically authorized, act as the Customer's agent in arranging for service requirements such as terminal equipment and Equal Access Dialing. For operator assisted calls or any other IXC service not provided by Indicom, the Company will contract with the Customer to provide access to underlying common carriers' facilities, through Equal Access Dialing or through facilities directly leased by the Company and connected at the Customer's premises. The Company will provide customer service and billing directly to its Customers.

### **2.2 Limitations**

This tariff does not apply to any services that may be offered by the Company other than those described herein, and does not apply to any services offered by other entities. Service may not be used for any unlawful purpose. Service to locations may be interrupted or discontinued without notice when the Company determines that such interruption or discontinuance is necessary or appropriate due to emergencies, hazardous conditions, damage to or fraudulent use of equipment or facilities of the Company or other causes.

There are no limits on the number or length of calls placed.

### **2.4 Interconnection with Other Carriers**

Interconnection with the facilities of other duly authorized and regulated communications common carriers will be permitted. Service furnished by Indicom is not part of a joint undertaking with such other carriers.

Customers will be charged for each completed call in accordance with the schedules or rates and charges set forth in this Section. ### **3.4 Operator Services**

Operator Assisted calls will be routed to an Operator Services Provider as agreed between the Company and the Customer, at Customer's option.

### **3.5 Directory Assistance**

The Company will process directory assistance/information calls on a per call basis. The directory assistance charge applies to each call regardless of whether the requested telephone number is obtained. Directory assistance/information calls are \$0.70. Directory assistance may be discounted according to term plan.

### **3.6 General Description of Service**

- a. Charges for Indicom service may be derived from one or more of the following elements:
- i) duration of call
  - ii) monthly usage
  - iii) term of contract
  - iv) distance
- b. Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call. This distance is determined by applying the formula below to the vertical and horizontal coordinates of the rate centers in question. The company uses the rate centers and associated coordinates that are produced by Bell Communications Research in their NPA NXX V & H Coordinates Tape and Bell's NECA Tariff No.4.
- $$\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}$$
- c. Service may be of two types: either Switched, in which case calls are originated on local business lines and routed to carrier via Equal Access Dialing and Feature Group D Access lines obtained by the relevant IXC from the Local Exchange Carrier, or Dedicated, in which calls are originated on a hard wired point to point circuit. Any product may entail a monthly recurring fee, agreed upon in advance with Customer.
- d. Metered Use Service offers the use of intercity communications facilities shared among multiple users. In order to use Indicom provided facilities of this nature, a subscriber must be a Customer under the Company's Tariff PUCO No. 1. The individual Customer's basic monthly charges for its use of these intercity facilities are based on the total time the Customer utilizes such facilities from each originating location and can vary, depending on the option chosen, with the distance of each call. Billing shall begin after approximately one minute and charges shall be billed from recorded call commencement (including all unanswered ringing).

May 20, 2008

Beginning on July 1, 2008, the prices, service descriptions, and the terms and conditions for long distance services that you are provided by Indicom will no longer be on file at the Public Utilities Commission of Ohio (PUCO).

This modification does not automatically result in a change in the prices, terms, or conditions of those services to which you currently subscribe. Indicom must still provide a customer notice at least fifteen days in advance of rate increases, changes in terms and conditions and discontinuance of existing services. Additionally, you will be able to view the company's future service offerings by requesting a copy of this information by contacting us at 800-929-4634 or writing to Indicom Customer Care, 777 East Eads Parkway, Greendale, IN 47025.

Since long distance services will no longer be on file with the Commission, this means that the agreement reached between the customer and the company, instead of the document on file at the PUCO, will now control new services or changes in service. This agreement, whether it is verbal or written, will still be subject to consumer protections required and enforced by the PUCO.

For any new services or changes in service, it will be important that you carefully review and confirm the price, terms and conditions.

If you have any questions about this matter, please call Indicom at the toll free number 800-929-4634 or visit us at [www.indicom.org](http://www.indicom.org). You may also visit the consumer information page on the PUCO's website at [puco.ohio.gov](http://puco.ohio.gov) for further information.

Sincerely,

Indicom Customer Services
