Office of Chairman
P.U.C.O.

Dear Mr. Schriber:

We the undersign, are supporters of the Geauga Park District, and wish to express our strong opposition to the First Energy's high voltage transmission line being built along the Maple Highlands Trail. We believe that placing the power lines along this trail would irreparably damage the area and the park trail, and endanger the health and well being of those that use the trail. Please consider a different route for the high voltage transmission line.
