Re: American Transmission Systems, Inc.  
Gauga County-138 kV Transmission Line Supply Project  
Case No. 07-171-EL-BTX

Dear Ms. Sipos:

Thank you for your concerns regarding the proposed American Transmission Systems, Inc. / Gauga County -138kV Transmission Line Supply Project. As with the consideration of all transmission projects, local and surrounding businesses, residents, municipalities and officials are invited to discuss the present and long-term economical and environmental feasibility of such projects.

Please be advised, the local public hearings have been postponed. This postponement is to allow both the Applicant and the Power Siting Staff an opportunity to review the impacts of the Maple Highlands Bike Trail right-of-way and utilization of an abandoned railroad corridor through the City of Chardon as a viable route selection for the proposed transmission line.

Once investigations of this route consideration are complete and the hearings re-open, the applicant will publish appropriate notice in local newspapers of general circulation in the area. Interested persons may testify at only one of the two local public hearings.

As we continue to appreciate all input into the siting process, your document will be shared with members of the Board and placed in the official docket for the case. Should you wish to view activity involving this application, visit our web site at [www.OPSB.ohio.gov](http://www.OPSB.ohio.gov). Again, the Board thanks you for your interest.

Very truly yours,

Klaus Lambek, Chief,  
Ohio Power Siting Board

**Office of Chairman  
P.U.C.O.**

Dear Sir:

Re: High Voltage Transmission Lines

Attached are several Petitions signed by over 350 persons. We wish to state that all these Petitioners are adamantly opposed to the construction of High Voltage Electrical Transmission Lines over the Maple Highlands Trail and through the City of Chardon, Ohio.

Maple Highlands Trail is a Public Park thoroughly enjoyed and used by hikers, bikers and skaters. High Voltage Lines should NOT be constructed through a Municipality, such as Chardon, destroying our public park lands, when alternate routes through less densely populated areas are available and even preferred by First Energy.

Thank you for your time and consideration of our Petitions.

Most sincerely,

Bonnie Sipos

**PETITION OBJECTING TO THE CONSTRUCTION OF HIGH VOLTAGE ELECTRICAL TRANSMISSION LINES OVER THE MAPLE HIGHLANDS TRAIL (OPERATED BY THE PARK DISTRICT) AND THROUGH THE CITY OF CHARDON.**

WHEREAS, the Ohio Power Siting Board is urging American Transmission Systems, Inc. to consider constructing high voltage transmission lines over the Maple Highlands Trail and through the City of Chardon, Ohio; and

WHEREAS, the proposed path of the high voltage transmission lines suggested by the Ohio Power Siting Board would begin at a location on Mayfield Road at its intersection with the Maple Highlands Trail, proceed into the City of Chardon along the trail and continue to its termination point on South Street; and it would then proceed generally following the abandoned railroad right-of-way line in a northerly direction across South Street near the Burlington Green Condominiums to Park Avenue in the vicinity of the former municipal service garage, continue behind Chardon Plaza to Water Street, continue along a path near the Burger King and car wash facilities to Center Street and then proceed from Center Street to First Energy's Fifth Avenue substation; and

WHEREAS, the construction of overhead transmission lines through the City of Chardon is not in the best interest of its citizens.

The undersigned **OPPOSE** construction of high voltage electrical transmission lines by American Transmission Systems, Inc. over the Maple Highlands Trail and through the City of Chardon.

**PETITION OBJECTING TO THE CONSTRUCTION OF HIGH VOLTAGE ELECTRICAL TRANSMISSION LINES OVER THE MAPLE HIGHLANDS TRAIL (OPERATED BY THE PARK DISTRICT) AND THROUGH THE CITY OF CHARDON.**

WHEREAS, the Ohio Power Siting Board is urging American Transmission Systems, Inc. to consider constructing high voltage transmission lines over the Maple Highlands Trail and through the City of Chardon, Ohio; and

WHEREAS, the proposed path of the high voltage transmission lines suggested by the Ohio Power Siting Board would begin at a location on Mayfield Road at its intersection with the Maple Highlands Trail, proceed into the City of Chardon along the trail and continue to its termination point on South Street; and it would then proceed generally following the abandoned railroad right-of-way line in a northerly direction across South Street near the Burlington Green Condominiums to Park Avenue in the vicinity of the former municipal service garage, continue behind Chardon Plaza to Water Street, continue along a path near the Burger King and car wash facilities to Center Street and then proceed from Center Street to First Energy's Fifth Avenue substation; and

WHEREAS, the construction of overhead transmission lines through the City of Chardon is not in the best interest of its citizens.

The undersigned **OPPOSE** construction of high voltage electrical transmission lines by American Transmission Systems, Inc. over the Maple Highlands Trail and through the City of Chardon.
