PUCO Docket 97-414-TP-UNC

Pursuant to the Commission's Entry of November 28, 2007 in the above Docket, Ridgeville Telephone Co. has met all the requirements for a fiber to the home (FTTH) project.

Attached is an invoice totaling \$20,246.54. We are deploying FTTH to our most rural customers first, all which reside in our ILEC territory. Our project has been written up by Embarq Logistics (attached). The rural project will encompass approximately 300 rural customers; 75 are currently being served by FTTH, with another 35 customers installed soon. 200 in-town customers will then follow shortly thereafter.

We believe this supports Governor Strickland's broadband initiative and will bring broadband Internet access to our rural area.

Respectfully,

A handwritten signature in dark ink, appearing to read "Kenneth Miller". The signature is fluid and cursive, with the first and last names being clearly legible.

Kenneth Miller, General manager
