Well thanks again for your rate increase?
Again the common folk will have to decide,
food or Utilities? This is outrageous already
enough is enough? How does big industry
expect the common people to run now days
I know they don't care, just get their + the
hell with ~~everybody~~ ^{everybody} else. 5.70 to 17.50
a month is a joke, Plus additional charges.

We the public are really paying money wise
and nobody cares. We try to conserve energy
with windows + door, insulation for what, now
were out all that money for what, higher bills.
I can't go to my boss and say I can't make it
or my salary is pay, and say I need 1,000.00 a month
more to survive, he'll fire me in a second. It is just
a shame what the world + government has become.
I am 65 yr old and glad my time is almost
up. There were supposed to be the best

time of our live, but its a complete nightmare,
on account of big business & government. You can
only drain people for so long. And I'll admit
its the people for being ~~so~~ stupid, they just
take it, without asking questions, why is all this
happening, the just sit back & take it, The
politicians dont give a damn, nobody cares, Congress is
getting such a kick back from oil, they dont care
if it goes to 20.00 a gallon, that is pocket change
to them. They cut back my 545. what can I do
about it? Nothing, I might lose my pension fund.
So everybody just keep raising everything until
America people run out of money. then what
are you going to do? Were ~~so~~ stupid we
dont have enough sense to get out of Iraq. We lose
men, build up the cities & hospital & schools, and this
is how they reward us. We should pull out today and
say the hell with you. You or you own ~~know~~ know. But
that make sense and the government dont have that.
So good luck on you.

rate over, you know you'll get it, sense
we have to say in it. Thank again. Rory
PS Thank also to congress for voting then selves aont big raise
