RECEIVED-DOCKETING DIV

Docketing Case No.: Case No. 07-829-GA-AIR

Notes:

My concern is about the huge increase in natural gas prices for this coming winter. There does not seem to be a shortage, no hurricanes, no reason for this. How are we supposed to manage with the high cost of gas, food and utilities? I thought that the PUCO role is to protect the consumer and be our ombudsman.. What is the reason that Dominion and others have already increased their rates, and it's not even fall? Please, please, help us. We are retired and I'm sure Social Security isn't going to give out cost of living increases to cover all of the added increases the American people are experiencing...

Please docket the attached in the case number above.
