If any Section(s) or Subsection(s) of this tariff differ or do not specifically list the Service Standard, or as they may be amended from time to time by the Commission, the Minimum Telephone Service Standards shall take precedence and supersede any tariff language. These rights and responsibilities include complaint handling, ordering or changing service, service repair, payment of bills, and disconnection and reconnection of service.

2.1.1 Scope

1. The Company undertakes to furnish communications service in connection with one-way and/or two-way information transmission between points within the State of Ohio under the terms of this Tariff.
2. Customers may use services and facilities provided under this Tariff to obtain access to services offered by other service providers. The Company is responsible under this Tariff only for the services and facilities provided herein, and it assumes no responsibility for any service provided by any other entity that purchases access to the Company network in order to originate or terminate its own services, or to communicate with its own customers.
3. The Company's obligation to furnish service or to continue to furnish service is dependent on its ability to obtain, retain and maintain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary poles lines, circuits and equipment and to provide for the installation of those facilities required incident to the furnishing and maintenance of that service.

In no event shall local exchange service be denied to any local exchange service Customer on grounds that the Customer has failed to pay for a type of service other than local exchange service.

Certain telecommunications services, as defined in the Ohio Revised Code, are subject to state sales tax at the prevailing tax rates, if the services originate or terminate in Ohio, or both, and are charged to a subscriber's telephone number or account in Ohio.

The Customer is responsible for the payment of all state, local and E911 taxes, surcharges, utility fees, or other similar fees (i.e., gross receipts tax, sales tax, municipal utilities tax) that may be levied by the governing body or bodies in conjunction with or as a result of the service furnished under this tariff. These charges may appear as separate line items on the Customer's bill, as opposed to be included in the rates contained in the tariff. Any such line item charges will be reflected in the Company's Tariff. The Company shall not assess separately any fees or surcharges, other than government-approved sales taxes, without seeking Commission approval under the appropriate procedures required by the Commission in Cause No. 89-563-TP-COI. ¹ Pending the conclusion of any challenge to a jurisdiction's right to impose a gross receipts tax, the Company may elect to impose and collect a surcharge covering such taxes, unless otherwise constrained by court order or direction, or it may elect not to impose and collect the surcharge. If it has collected a surcharge and the challenged tax is found to have been invalid and unenforceable, the Company will credit or refund such amounts to affected Customers, if the funds collected were retained by the Company or if they were delivered over to the taxing jurisdiction and returned to the Company.

Objections must be received by the Company within a reasonable time after statement of account is rendered, or the charges shall be deemed correct and binding upon the Customer. If an entity other than the Company imposes charges on the Company, in addition to its own internal costs, in connection with a service for which a Company Non-Recurring Charge is specified, those charges may be passed on to the Customer.

3. Custom Calling Features

Custom Calling Features are optional central office services furnished to individual line business and residence Customers. Custom Calling Features are available where facilities exist and operating conditions permit.

A. Feature Descriptions

Call Number Block (per call block): Allows the party placing an outgoing call to block the delivery, on a per call basis, of the caller's identifying information, his or her name and telephone number (TN) from caller ID display devices. (Exceptions to call number block are E911 and Toll Free Service.)

Call Number Block (per line block): Allows the party placing an outgoing call to always block their name and telephone number (TN) from the party receiving the call. (Exceptions to call number block are E911 and Toll Free Service.)

Call Trace: Allows a Customer who has been receiving harassing or annoying phone calls to have the number of the calling party recorded by the Company's switch and kept by the Company. Customer must then file a complaint with appropriate law enforcement agency. The law enforcement agency will be permitted access to the recorded information. However, the calling party information will not be disclosed to the Customer. This feature is only available on a per use basis.

Call Waiting: The subscriber, already involved in a call, receives a tone that another incoming call is waiting to be answered. The called party, hearing the call-waiting tone during the existing conversation, can choose to flash the hook-switch and connect to the incoming call. This feature includes Cancel Call Waiting which allows the subscriber to enter a code that disables the Call Waiting feature so that he or she will not hear a tone during a conversation with another party.

Call Waiting ID: Allows the subscriber to receive calling party information during call waiting. Call Waiting ID presents the subscriber with a set of options to treat the incoming call. These options include forwarding the call, placing the call on hold, sending the call to treatment, placing the existing call on hold and answering the incoming call, or answering the call and dropping the existing call. This feature requires specialized Customer Premises Equipment.
