July 31,

Dear Mr. Schriber:

I am concerned over the present location of the 138 kV transmission line that is now planned to be installed in the heart of Chardon, Ohio. The present location passes through the center of the city of Chardon. It will destroy the beauty of the city but more important, it will endanger the citizens.

I would ask that you urge them to consider an alternate route

Sincerely,

Donald D. Douglass
