COMPLAINT DESCRIPTION:

Dominion East Ohio doesn't need a rate increase. They had \$15 million in profits and their executives make millions.

We live in a 800 sq ft home and last winter paid an average of \$300 per month in gas, to keep our house at 72 degrees. That's outrageous!!

Force the executives live on the Ohio average income of \$50,000 per year and see if they would be able to pay that kind of utility bill.

The chairman of the PUCO also needs to be forced to live on the Ohio average income. He'd be just as opposed to the rate increase.

God forbid not being able to pay your full bill every month, they threaten to cut off your service. Their request for a rate increase is utter bull!!!

Instead of an increase, how about cutting the salaries of the executives and the PUCO chair, and then cutting
