**APPLICATION OF CINCINNATI BELL TELEPHONE COMPANY LLC FOR
APPROVAL OF AN ALTERNATIVE FORM OF REGULATION OF BASIC LOCAL
EXCHANGE SERVICE AND OTHER TIER 1 SERVICES**

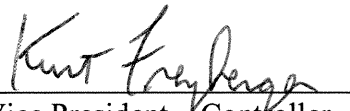

Cincinnati Bell Telephone Company LLC ("CBT"), the applicant in this proceeding, is a telephone company providing public telecommunications service to approximately 587,000 retail access lines in its local service area in the State of Ohio.

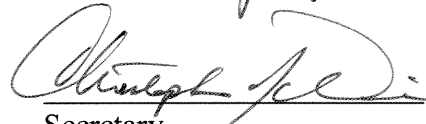

Applicant submits this application pursuant to Sections 4927.03 and 4927.04 Revised Code, for approval of an alternative form of regulation for Basic Local Exchange Service and other Tier 1 Services pursuant to Chapter 4901:1-4, Ohio Administrative Code.

Exhibits 1 through 5 are attached to this application and are incorporated herein.

The applicant requests the Commission to consider the proposals set forth in this application and to approve the applicant's alternative regulation proposal for Basic Local Exchange Service and other Tier 1 Services.

Respectfully submitted,

Vice President - Controller

Secretary

MEMORANDUM IN SUPPORT OF APPLICATION

CBT submits this memorandum in support of its Application filed in the above-captioned case. This Application, filed pursuant to R.C. § 4927.03 and Section 4901:1-4-09 of the Commission's rules, includes the forms, affidavits, supporting information and detailed analysis, proposed tariff revisions, and the proposed legal notice called for by that rule, as explained below.

Exhibit 1 – Compliance With Elective Alternative Regulation Commitments

As demonstrated by the Affidavit of Kurt A. Freyberger, Vice President – Controller of CBT, CBT fully complies with the elective alternative regulation commitments as required by divisions (A) and (B) of Section 4901:1-4-06 of the Commission's rules. CBT is in compliance with those requirements, as reflected in the rules and in the Company's application filed in Case No. 04-720-TP-ALT, which established the current elective alternative regulation plan.

Exhibit 2 – Exchange Areas/County Matrix

This exhibit identifies the exchanges included in the application and the county or counties in which each exchange is located. The competitive market test proposed for each exchange is Test 4, Ohio Admin. Code § 4901:1-4-10(C)(4).

Exhibit 3 – Supporting Information and Detailed Analysis

This exhibit presents the supporting information and detailed analysis demonstrating that CBT meets, on a telephone exchange basis, at least one of the competitive market tests as set forth in Section 4901:1-4-10(C) of the Commission's rules. This information is supported by the Verification of an officer of CBT, attesting to the veracity of the data upon which the application is premised, in compliance with the applicable rule, Ohio Admin. Code § 4901:1-4-09(B)(3).

CBT relies on competitive market test four for each of the exchanges. Test 4 states as follows:

An applicant must demonstrate that in each requested telephone exchange area that at least fifteen per cent of total residential access lines have been lost since 2002 as reflected in the applicant's annual report filed with the commission in 2003, reflecting data for 2002; and the presence of at least five unaffiliated facilities-based alternative providers serving the residential market.

Ohio Admin. Code § 4901:1-4-10(C)(4). The competitive proof for each exchange is described in Exhibit 3.

In order to demonstrate that it meets test 4, CBT examined its line loss data since 2002, relying on the annual report for that year, the annual report for the year 2007 and comparable data as of June 30, 2008. This data, summarized on Exhibit C-1, demonstrates the requisite 15% line loss in each exchange.

In collecting information on alternative provider activity in its exchanges, CBT reviewed and documented publicly available data, such as websites, information on wireless licenses, and interconnection agreements. Many carriers provide web tools that permit an inquiry about the availability of their services in specific areas by using telephone numbers or addresses. Those tools were used to identify the presence of a carrier in a CBT exchange.

In order to demonstrate that each competing carrier is actually providing residential service, CBT used service cancellation orders to conduct a telephone survey of a sample of

former customers to identify a number who obtain their home telephone service from Time Warner. CBT also used number porting data to identify customers who obtain their residential telephone service from wireless carriers. Those customers are shown on maps of each of the exchanges. CBT has identified customers who switched their residential service to at least five different unaffiliated alternative providers of residential service in each of the four exchanges, thereby satisfying competitive test (4).

Exhibit 4 – Proposed Tariff Modifications

CBT modified the structure of its tariff to implement the pricing flexibility rules set forth in division (A) of Section 4901:1-4-11 of the Commission's rules as a result of Case No. 06-1002-TP-BLS. The tariff modifications proposed in this case add the additional four exchanges to the two exchanges approved by the Commission in CBT's first BLS case.

Exhibit 5 – Proposed Legal Notice

CBT's proposed legal notice notifying the public of the filing of the application is included in the application. That notice provides that objections can be filed with the Commission consistent with division (F) of Section 4901:1-4-09 of the Commission's rules. The public notice will be published within seven days of the filing of the application in the legal notice section of a newspaper of general circulation in each county corresponding to the exchanges for which BLES alternative regulation is being requested, pursuant to Section 4901:1-4-09(B)(5) of the Commission's rules. CBT has conferred with the Commission staff regarding the content of the legal notice prior to commencing with the publication of the public notice, also in accordance with the applicable rule.

Conclusion

CBT has complied with all aspects of the Commission's rules in preparing and filing its application and it requests that the Commission grant its application on an automatic basis in accordance with the applicable rule.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Douglas E. Hart', written over a horizontal line.

AFFIDAVIT

I, Kurt A. Freyberger, an officer of Cincinnati Bell Telephone Company, LLC ("CBT"), verify that CBT fully complies with the elective alternative regulation commitments as required by paragraphs (A) and (B) of rule 4901:1-4-06 of the Administrative Code for large ILECs.

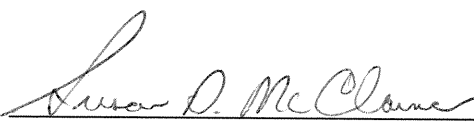

CBT provides advanced telecommunications service capability from all class five central offices in its traditional service territory which serve census tracts with a population density of five hundred or more people per square mile as defined by the 2000 census and deploys broadband, advanced telecommunications services upon customer demand within sixty days to any customer within 18,000 feet from a high density central office or a county seat central office.

CBT has implemented a lifeline program that provides eligible residential customers with the maximum contribution of federally available assistance.

SUPPORTING INFORMATION AND DETAILED ANALYSIS
DEMONSTRATING COMPLIANCE WITH COMPETITIVE MARKET TEST 4

CBT is applying for alternative regulation of basic local exchange service (“BLES”) and other Tier 1 services, pursuant to Revised Code § 4927.03 and Rules 4901:1-4-08 through 4901:1-4-12, for its Bethany, Harrison, Little Miami and Williamsburg exchanges. CBT relies upon competitive market test (4) for this application. Data supporting all of the requirements of test (4) is attached to this application. This detailed analysis of the data is intended to demonstrate how CBT meets the competitive market test in these exchanges. CBT applies the competitive market test individually as to each exchange for which it seeks alternative regulation.

I. Legal Standard for Alternative Regulation.

Rule 4901:1-4-10(C) provides that, if an applicant can demonstrate that at least one of the competitive market tests is satisfied in a telephone exchange area, the applicant will be deemed to have met the statutory criteria found in division (A) of section 4927.03 of the Revised Code for BLES and other Tier 1 services in that exchange area. In particular, test (4) provides:

An applicant must demonstrate in each requested telephone exchange area that at least fifteen per cent of total residential access lines have been lost since 2002 as reflected in the applicant’s annual report filed with the commission for 2002; and the presence of at least five unaffiliated facilities-based alternative providers serving the residential market.

The evidence presented by CBT herein demonstrates that it has lost at least 15% of its total residential access lines in the Bethany, Harrison, Little Miami and Williamsburg exchanges and that there are at least five unaffiliated facilities-based alternative providers serving the residential market in those exchanges.

II. CBT Satisfies Competitive Test (4) In Its Bethany, Harrison, Little Miami and Williamsburg Exchanges.

A. CBT Has Lost At Least Fifteen Percent of Its Total Residential Lines Since 2002.

Attached hereto as Exhibit 3-A is a chart showing CBT's total residential lines at the end of 2002 and 2007 and as of June 30, 2008 for its Bethany, Harrison, Little Miami and Williamsburg exchanges. The data for 2002 was contained in Schedule 28 to CBT's annual report filed with the Commission in 2003 and the data for 2007 was contained in Schedule 28 to CBT's annual report filed with the Commission in 2008. The data as of June 30, 2008 was obtained from the same sources and in accordance with the same methodology as is used for Schedule 28 of the annual report.

The calculations show that CBT lost 20.7% of its residential access lines in the Bethany exchange, 16.2% of its residential access lines in the Harrison exchange and 25.7% of its residential access lines in the Little Miami exchange as of December 31, 2007. While the access line loss had not yet reached 15% in the Williamsburg exchange as of December 31, 2007, it did as of June 30, 2008. CBT had lost 19.2% of its residential access lines in the Williamsburg exchange as of June 30, 2008. The June 30, 2008 data also confirms that the line loss in each of the other three exchanges had grown larger since December 31, 2007. This demonstrates compliance with the first requirement of test (4), the loss of more than 15% of residential access lines since 2002 in each of the four exchanges.

B. At Least Five Unaffiliated Facilities-Based Alternative Providers Serve The Residential Market.

For purposes of competitive test (4), an "alternative provider" means a provider of competing service(s) to the basic local exchange service offering(s), regardless of the technology and facilities used in the delivery of the services (wireline, wireless, cable, broadband, etc.). A

“facilities-based alternative provider” means a provider of competing service(s) to the basic local exchange service offering(s) using facilities that it owns, operates, manages or controls to provide such services, regardless of the technology and facilities used in the delivery of the services (wireline, wireless, cable, broadband, etc.). CBT’s data demonstrates that there are at least five such unaffiliated facilities-based providers in each of the Bethany, Harrison, Little Miami and Williamsburg exchanges.

1. Time Warner Provides Cable Telephone Service to Residential Customers in the Bethany, Harrison, Little Miami and Williamsburg Exchanges.

In its March 7, 2006 Opinion and Order establishing the final rules for alternative regulation of BLES, the Commission determined that customers view wireless, VoIP and cable telephony as substitutes for the ILECs’ BLES, thus these types of alternative providers compete against the ILECs’ provision of BLES. Time Warner provides residential telephone service over its cable network in the Bethany, Harrison, Little Miami and Williamsburg exchanges.

Time Warner Cable’s website has a tool that allows consumers to self-determine if cable telephone service is available at their location. CBT personnel used a random listing of residential telephone numbers and addresses from its base of customers in the Bethany, Harrison, Little Miami and Williamsburg exchanges and entered that information into Time Warner’s lookup tool. Attached as Exhibit 3-B is a map plotting a number of locations in CBT’s Bethany, Harrison, Little Miami and Williamsburg exchanges where Time Warner’s website reports the availability of its telephone service. These maps demonstrate that Time Warner Cable widely offers residential telephone service in CBT’s Bethany, Harrison, Little Miami and Williamsburg exchanges.

CBT also confirmed that Time Warner is actually providing facilities-based residential telephone service in widespread areas within CBT's Bethany, Harrison, Little Miami and Williamsburg exchanges. Numerous customers have switched their telephone service from CBT to Time Warner and, in the process, have ported their telephone numbers away from CBT. While Time Warner does not directly hold telephone numbers or handle the porting requests, it has engaged a CLEC that has an interconnection agreement with CBT as its agent, allowing it to port telephone numbers of customers requesting Time Warner telephone service.¹

When a CBT customer terminates service with CBT and ports their number to Time Warner Cable, that results in a disconnect order to CBT. Once a customer has completed the switch to a competing carrier, CBT retail is permitted to know that the customer has switched and can contact the customer for winback purposes. *In the Matter of Telecommunications Carriers' Use of Customer Proprietary Network Information and Other Customer Information*, CC Docket No. 96-115, Order on Reconsideration, released Sept. 3, 1999, FCC 99-223, ¶ 66.

CBT compiled a list of customers who disconnected their CBT service since 2002. CBT excluded from the list customers who had contacted CBT's retail division directly to cancel their service and those whom CBT had disconnected for non-payment. The remaining list of disconnected customers, which was derived without accessing any carrier data, were those most likely to have switched their residential service to a competing carrier. CBT then contacted a sample of those customers to 1) determine whether they were receiving telephone service from Time Warner; and 2) to identify the geographic location where such service is being provided. Exhibit 3-B also plots the location of customers in the Bethany, Harrison, Little Miami and

¹ Sprint Communications Company, L.P., Case No. 00-963-TP-NAG. CBT also has a direct interconnection agreement with Time Warner Cable Information Services (Ohio) LLC, Case No. 05-1320-TP-NAG, but Time Warner continues to submit orders and port numbers through Sprint and serves residential customers over its cable network that does not directly interconnect with CBT.

Williamsburg exchanges who disconnected their CBT residential service since 2002 and confirmed that they are receiving residential telephone service from Time Warner.

CBT attaches information obtained from Time Warner's Website in Exhibit 3-C, showing the residential services it offers in these exchanges.

CBT submits that this data proves that facilities-based residential telephone service is being provided by Time Warner in the Bethany, Harrison, Little Miami and Williamsburg exchanges, therefore, Time Warner constitutes an alternative provider for purposes of competitive test (4).

2. Five Wireless Companies Provide Residential Service in the Bethany, Harrison, Little Miami and Williamsburg Exchanges.

An indication of market presence for wireless carriers is holding a license from the FCC for the relevant area. CBT has reviewed the FCC's records of wireless licenses issued for the market areas that cover the Bethany, Harrison, Little Miami and Williamsburg exchanges. Attached as Exhibit 3-D is a summary of the wireless licenses issued by the FCC for the areas that include the Bethany, Harrison, Little Miami and Williamsburg exchange areas. These include the original A and B Block cellular licenses, currently used by AT&T Mobility² and Verizon,³ as well as a number of PCS licenses auctioned by the FCC in the 1990s that are currently held and/or used by Cincinnati Bell Wireless,⁴ AT&T Mobility, Verizon, T-Mobile, Sprint and Cricket,⁵ and the AWS and 700 MHz licenses auctioned in 2006 and 2008, respectively (AT&T Mobility and Cincinnati Bell Wireless).

² AT&T Mobility holds its cellular licenses through Cincinnati SMSA Ltd. Partnership and its PCS licenses through New Cingular Wireless PSC, LLC, entities that it controls.

³ Verizon holds its cellular licenses through New Par, an entity that it controls, and its PCS licenses through GTE Wireless of the Midwest, an entity it acquired in the merger between Bell Atlantic and GTE.

⁴ Even though it is one of the largest wireless providers in Southwest Ohio, because it is an affiliate of CBT, Cincinnati Bell Wireless is being ignored for purposes of the competitive analysis.

⁵ Cricket provides facilities-based wireless service using the network owned by Alaska Native Broadband 1 License, LLC.

Wireless licenses are issued for particular market areas. The original cellular licenses (now held by AT&T Mobility and Verizon Wireless) were issued for Cellular Market Areas or CMAs. CMA 023 includes all of Clermont, Hamilton and Warren Counties. CMA 145 includes all of Butler County. Together, these CMAs encompass all of CBT's Bethany, Harrison, Little Miami exchanges and all but a sliver of the Williamsburg exchange in Brown County. PCS licenses were issued for Major Trading Areas (MTAs) or Basic Trading Areas (BTAs), depending upon the particular type of license. MTA 018 includes the entire Cincinnati-Dayton region and, thus, includes all of the Bethany, Harrison, Little Miami and Williamsburg exchanges. BTA 081 contains a group of 21 counties, including Hamilton, Butler, Warren, Clermont and Brown Counties in Ohio and, thus, covers all four exchanges as well. BEA049 contains a group of eight counties, including Hamilton, Butler, Warren, Clermont and Brown, which cover the entirety of the four exchanges at issue.

Exhibit 3-E shows the geographic location of the four exchanges that are the subject of this application. The Bethany exchange is located entirely within Butler County. The Harrison exchange is located mainly in Hamilton County with a small portion in Butler County. The Little Miami exchange covers parts of Hamilton, Clermont and Warren Counties. The Williamsburg exchange is located mainly within Clermont County with a very small portion in adjacent Brown County. Exhibits 3-D and 3-E show that there are five unaffiliated wireless providers (AT&T Mobility, Verizon, T-Mobile, Sprint and Cricket) licensed to provide telephone service in each of the Bethany, Harrison, Little Miami and Williamsburg exchanges.

Another indication of the physical presence of facilities-based wireless providers is the fact that CBT has interconnection agreements with each of them for the physical interchange of telecommunications traffic. CBT has entered into and filed with the Commission

interconnection agreements with each of the five unaffiliated wireless providers identified above.⁶ Each of the physical interconnections with these carriers is active and traffic is being exchanged with each of them.

As the next step of its competitive analysis, CBT reviewed these wireless providers' websites to see where they claim to be providing service. Many of these carriers allow customers to lookup their address or zip code on a website to check for coverage. CBT selected addresses centrally located in each of the four exchanges and generated coverage maps. These maps, attached as Exhibit 3-F, show that each wireless carrier has coverage in each of the four exchanges. Comparing the areas shown on each of the coverage maps with CBT's exchange maps demonstrates that each wireless carrier's coverage area includes the Bethany, Harrison, Little Miami and Williamsburg exchanges.

CBT also confirmed that wireless carriers are actually providing residential service in each of the four exchanges by reviewing number porting data where residential telephone numbers were ported directly to a wireless carrier. Before using this data, however, CBT notified the five affected wireless carriers in writing that it planned to file this application and to use data that might be considered proprietary, giving them an opportunity to comment or object. These letters are included in this filing as Exhibit 3-G. CBT promised that any carrier specific data used in this case would be subject to a protective order precluding public disclosure of the information in a manner that would identify the carrier. CBT received only one response to those letters from a wireless carrier that had questions about the treatment of its data. That

⁶ Cincinnati SMSA Limited Partnership (AT&T Mobility), Case No. 95-0684-TP-AIA; SprintCom, Inc. (Sprint/Nextel), Case No. 01-2003-TP-AEC; Voicestream Wireless Corporation (T-Mobile), Case No. 01-2275-TP-NAG; Verizon Wireless, Case No. 04-1317-TP-NAG; Cricket Communications, Case No. 06-229-TP-NAG; Alaska Native Broadband 1 License LLC (Cricket), Case No. 06-0231-TP-NAG.

carrier consented to CBT's proposed use of its data so long as it received the strictest confidential treatment available under the Commission's rules.

CBT confirmed that each of the five competing wireless providers had in fact acquired residential customers from CBT⁷ in each of the Bethany, Harrison and Little Miami exchanges. Four of the wireless carriers had acquired residential customers from CBT in the Williamsburg exchange.⁸ Exhibit 3-H contains maps of each exchange plotting the residential locations of customers who "cut the cord" and ported residential telephone service to one of these wireless providers. The legend identifies each of the five wireless carriers anonymously in order to protect the proprietary information of the specific carrier in this filing. CBT will make available a key identifying the specific carriers subject to an appropriate protective order.

Also attached as Exhibit 3-I is a chart showing the number of former CBT residential customers who ported their numbers to each of the wireless carriers in each exchange. Ported residential numbers demonstrate a wireless carrier's presence in the exchange. CBT believes there are far more wireless-only customers because many customers merely disconnect their wireline connection or choose not to order one in the first place and instead rely on the number issued by their wireless service provider. For wireless carriers, the fact that they have a license and facilities, entered into an interconnection agreement with CBT, indicate publicly that they provide service and have ported former CBT residential telephone numbers onto their switch is strong evidence of the availability of service to residential customers in an exchange.

⁷ This information was obtained only from former CBT residential customers who cancelled landline service and ported their telephone number to a wireless carrier. There are undoubtedly many more customers who cancelled landline service in favor of wireless without porting their number or who never had landline service and use wireless service exclusively. CBT has no ready means of identifying those customers or counting them. In its most recent wireless competition report, the FCC estimated that 11.8% of adults lived in households with only wireless phones in 2006, up from 7.8% in the second half of 2005 and 3.5% in the second half of 2003. Annual Report and Analysis of Competitive Market Conditions With Respect to Commercial Mobile Services, WT Docket No. 07-71, FCC 08-28, released Feb. 4, 2008, at ¶ 292.

⁸ CBT also identified Time Warner customers in the Williamsburg exchange, so it has met the minimum requirement of five alternative providers providing residential service in that exchange.

Finally, CBT attaches as Exhibit 3-J information from each of the wireless providers showing services they offer in those exchanges.

The evidence demonstrates that there are at least five unaffiliated facilities-based alternative providers that serve residential customers in the Bethany, Harrison, Little Miami and Williamsburg exchanges.

III. CONCLUSION.

The preceding detailed analysis demonstrates that CBT has satisfied all of the elements of competitive test (4). CBT has lost at least 15% of its residential lines between 2002 and 2007 and/or June 30, 2008. There are at least five unaffiliated facilities-based alternative providers serving the residential market in each of the Bethany, Harrison, Little Miami and Williamsburg exchanges. CBT is in compliance with all of the requirements of its current EARP. Therefore, CBT has demonstrated that it qualifies for alternative regulation for BLES and other Tier 1 services.

- Voice Mail - password protected - get messages when you're home or away.

[Back to top](#)**Can I keep my current number?**

Yes, you can keep your current phone number when you switch. The only change is that you are now saving money.

[Back to top](#)**What calls are included in the unlimited package?**

You can call anyone, anytime, anywhere either locally or anywhere in the United States, Canada and US territories at no additional cost. Calls to international locations are extra but are billed at rates competitive with other major providers.

[Back to top](#)**Is the \$39.95 price a promotional rate?**

No, it is an ongoing rate for cable or Road Runner customers.

[Back to top](#)**Does it cost anything to switch to Digital Phone?**

No, there is no charge for switching to Time Warner Cable Digital Phone service. However, a one-time fee may be charged for installation or if you want to retain your current telephone number. Just call us anytime - we're here 24 hours a day 7 days a week - and we take care of everything. We also stand by our service with a 60-day money-back guarantee and complete 24 x 7 support. Plus, in most cases there's no charge for a service call. When's the last time your phone company fixed anything for no charge? So why wait? Call today!

[Back to top](#)**How much money will I save by switching to Digital Phone?**

Obviously this depends on your current bill. That's why we've provided you with a cost-savings calculator. Take a look, if it's more than \$39.95 per month, switch now.

[Back to top](#)**Does Digital Phone include 911?**

Yes, Digital Phone includes Enhanced 911. With Enhanced 911, your home address is automatically sent to your local dispatcher when you call 911.

[Back to top](#)**Is second line service available?**

Yes, second line service is available. You'll receive all the same great benefits and features as your first home phone line - including unlimited local and long distance calling! Add a second home phone line for only \$29.95 per month!

[Low International Rates](#)

Helpful Included Features

► Caller ID

See who's calling before you answer the phone. Protect your privacy - and your free time.

How: Use a Caller ID-enabled phone or an external Caller ID box.

What: When a call comes in, the identity of your caller appears onscreen.

And: Most Caller ID displays automatically log all incoming calls, so you can see any call you miss when you're away.

Notes:

- PRIVATE or ANONYMOUS means the caller doesn't want to be known in advance, and has blocked your Caller ID.
- UNKNOWN, OUT OF AREA or UNAVAILABLE means the caller's area or phone system doesn't support Caller ID.
- PAYPHONE means the caller is using a pay telephone.
- NO DATA SENT indicates a phone system problem.

► Caller ID Block (*67)

If you have chosen to reveal your identity when placing calls and wish to be anonymous for a particular call, press (*67) before you dial to block your identity from the other person's Caller ID.

How: Press (*67) before you call.

What: Block your identity from the Caller ID of the person you're calling.

Then: Included Caller ID is restored when you hang up.

► Caller ID Restore (*82)

If you have chosen to block your identity when placing calls and wish to reveal your identity for a particular call, press (*82).

How: Press (*82) before placing the call.

What: Your identity will be shown on the Caller ID of the people you call.

Then: When you hang up, your identity will revert to a blocked ID.

► Call Waiting

When you're on the phone and a second call comes in, a gentle "Beep!" tone alerts you.

What: A "Beep!" tone announces your second call.

What to do:

- To put the first call on hold and take the second, press FLASH or quickly press the switch hook.
- To put the second call on hold and go back to the first one, press FLASH or the switch hook again.
- If you hang up on one call, the phone will immediately ring to remind you that the other caller is still holding. Just pick up the phone to connect.
- If you don't answer the second call, it will go to Voice Mail. If you don't have Voice Mail the caller will simply hear the ring tone.

► **Cancel Call Waiting (*70)**

When you're making an important call and don't want any interruptions, press (*70) to temporarily turn off your included Call Waiting. When you hang up, included Call Waiting is automatically restored.

How: Press (*70) before you call.

What: Keep your next call clear of the included Call Waiting beep.

Then: Included Call Waiting is restored when you hang up.

And: During your call, incoming callers go directly to Voice Mail. If you don't have Voice Mail, they hear a busy signal.

► **Call Waiting ID**

You're on the phone when "Beep!" you have another call. (Is it important?) With included Call Waiting ID, the identity of your second caller flashes on your Call Waiting screen.

How: Use a Caller ID-enabled phone or an external Caller ID box.

What: When your phone is in use and a second call comes in, the second caller's identity appears on the screen.

What to do:

- To put the first call on hold and take the second, press FLASH or quickly press the switch hook.
- To put the second call on hold and go back to the first one, press FLASH or the switch hook again.
- If you hang up on one call, the phone will immediately ring to remind you that the other caller is still holding. Just pick up the phone to connect.

- If you don't answer the second call, it will go to Voice Mail. If you don't have Voice Mail, the caller will simply hear the ring tone.

► Call Forwarding (*72)

Now you can forward your calls to an alternate number by using Call Forwarding.

How:

- Press (*72); listen for three short beeps and then a dial tone; enter the 7 or 10-digit number where calls will be forwarded and wait for the confirmation tone.
- After the confirmation tone, the system will automatically place a courtesy call to the forward-to number. If the forwarded-to party answers the courtesy call, the feature is activated.
- If at set up time, the forward-to line is busy or there is no answer to the courtesy call, the feature is not activated. You can still activate Call Forwarding by repeating the activation procedure within two minutes of the first attempt.
- You will hear an error message if the forward-to number is invalid. Calls will continue to forward to the chosen number until deactivated.
- If you have Voice Mail, your calls and calls that would turn into Voice Mail will continue to go to the forward to number thereby bypassing Voice Mail.
- You must remember to deactivate Call Forwarding by pressing (*73) and waiting for the deactivation confirmation tone.

► Speed Dial (*74)

Now you can call frequently dialed phone numbers using just one digit.

How:

- Press (*74); listen for the stutter tone and choose a digit from 2 to 9.
- Enter the 7 or 10-digit number (dialing 1 first whenever it applies) that will be speed dialed and wait for confirmation tone.
- Press the chosen digit (from 2-9) followed by the # (pound) sign and the system will speed dial the telephone number that correlates to the

chosen digit.

- You can store up to eight numbers at one time.
- To change any of the stored numbers simply repeat the process with the new desired telephone number.

► **Anonymous Call Reject (*77)**

Allows you to block unwanted calls from callers who restrict sending their Caller ID information such as "Anonymous" callers.

- Dial *77 to activate and wait for the confirmation tone.
- All unidentified calls will then be rejected.
- You must Dial *87 to deactivate this feature.

Notes: Voice Mail subscribers who activate this feature along with Caller ID Block (*67) must use their Voice Mail access number, instead of their home phone number, to access the Voice Mail system from home.

► **Local Number Portability**

You can change your local service provider to Time Warner Cable Digital Phone service without changing your phone number.

► **Directory Listing & Directory Assistance Listing**

Digital Phone service includes a single listing in the main local directory and Directory Assistance (411) listing. During the order process you can choose to publish your name, number, and full address or just name, number, and city. Should you ever want to change your listing, simply contact a Time Warner Cable Customer Support representative.

► **Unlimited Usage**

Don't hesitate to pick up the phone. Any hour, day or night, make all the local,

in-state and domestic long distance calls you want, and talk as much as you like. No more calling plans, variable bills or extra charges. Digital Phone is service the way it should be.

How: Dial any local, in-state or domestic long distance number any time, any day. Includes all 50 states, Canada and select U.S. Territories.

And: Never worry about extra charges.

► Local Customer Service & Support (611)

Any time you need technical help with your Digital Phone features, service, or benefits, simply dial 611 from your Digital Phone service.

How: Dial 611 for answers to all your technical Digital Phone questions. Technicians will answer any time, day or night.

► Enhanced 911 (911)

In an emergency, it's hard to remember more than "911." So Enhanced 911 automatically transmits your address and telephone number to emergency services. Please note that Digital Phone service does not include back-up power. As in the case with a cordless phone, should there be a power outage, Digital Phone service, including the ability to access 911 services, will not be available until the power is restored.

How: Call 911.

What: Emergency service automatically receives your address.

► Inbound Call Restriction

You can restrict incoming calls that can incur extra charges such as collect calls. Contact a Time Warner Cable Customer Support Representative.

► Outbound Call Restriction

You can restrict outgoing calls that can incur extra charges such as international numbers, collect calling and third party calling. Contact a Time Warner Cable Customer Support Representative.

► 3-Way Calling

3-Way Calling allows you to add a third party to an existing conversation. How it works:

- Place your first call
- Once connected, use the "FLASH" button to put your first call on hold (If you don't have a FLASH button, press the "TALK" button or the press the "SWITCH HOOK" on your phone)
- When you hear the new dial tone, place your second call
- Once connected to your second call, hit the "FLASH" button again to connect all three parties
- Should your second party not answer, hit the "FLASH" button twice more to drop the 3-Way call

Privacy & Security

► Call Number Delivery

Digital Phone subscribers can choose how their name and telephone number will be displayed when calling others. During the order process you can decide what name you want displayed when calling others (your name and telephone number, modified name and telephone number or no display at all). What you choose will be displayed when the party being called has Caller ID equipment.

How: You can make this decision at the point of sale. If nothing is picked at the time of sale, the default setting is your billing name and phone number. You can also elect to be anonymous.

► Call Detail Record Online

As a Digital Phone Customer, just click on MY ACCOUNT and enter your user ID and password to access your Call Record. You can also request a written Call Record at anytime.

Convenience & Quality

► One Simple Bill

No more multiple bills for multiple services - Time Warner Cable brings Video, Digital Phone, and High-Speed Internet together on one convenient bill from one company.

Low-Cost EXTRA Features

► Voice Mail

For one low monthly fee, have your callers leave messages when you can't - or prefer not to - answer. All you need is your telephone.

How: To see if you have messages, simply pick up the phone. If you hear a special "Beep-Beep-Beep!" dial tone, simply call your Voice Mailbox, enter your PIN and listen to your messages.

What: Voice Mail automatically plays your recorded greeting and takes a message after a certain number of rings.

How We Compare

Q: Why did I receive the E9-1-1 communication (e-mail, letter, phone call) from Time Warner Cable?

A: Time Warner Cable wanted to remind you of certain aspects of the E9-1-1 service provided with your Digital Phone service. Don't worry; Time Warner Cable continues to provide fully Enhanced 9-1-1 service, and likewise continues to be forthcoming about all aspects of our service.

Q: So this is not a scam?

A: No. This is definitely not a scam. Time Warner Cable is requesting that all of our valued customers, like you, confirm their acknowledgement of these aspects of our E9-1-1 services.

Q: What is Enhanced 9-1-1 (E9-1-1)?

A: Enhanced 9-1-1 automatically transmits your address and telephone number to emergency services operators when you dial 9-1-1.

Q: What is the difference between 9-1-1 and E9-1-1?

A: E9-1-1 automatically transmits your address and telephone number to emergency services. With regular 9-1-1 you have to clearly tell the dispatcher your location, which can take valuable time in an emergency. Also, if for some reason your call is disconnected before you've finished relaying your information, emergency services will not know where you are located.

Q: Do I have to sign up for E9-1-1?

A: No, E9-1-1 is one of the many standard features that are included with Digital Phone service from Time Warner Cable. You get this feature automatically with your service.

Q: Has Time Warner Cable always offered E9-1-1, or is this a new feature?

A: Time Warner Cable has always provided E9-1-1 as one of the many standard features that are included with Digital Phone service.

Q: Isn't Time Warner Cable Digital Phone a VoIP service?

A: While Time Warner Cable Digital Phone is an IP-based telephony service, unlike most VoIP providers, Digital Phone service is managed over Time Warner Cable's private IP network so customers' calls never touch the public Internet.

Q: Are there technical problems with VoIP internet phone providers and 9-1-1?

A: Different VoIP based providers have different 9-1-1 capabilities but the important thing to know is that Time Warner Cable Digital Phone has always provided fully Enhanced 9-1-1 services.

Q: How does the E9-1-1 service provided by Time Warner Cable Digital Phone differ from the E9-1-1 service provided by (ILEC)?

A: There are two ways in which Time Warner Cable Digital Phone's E9-1-1 differs from what your previous phone company provided. First, the voice enabled cable modem used to provide Digital Phone service is electrically powered and, in the event of a power outage or Time Warner Cable network failure, the ability to access Enhanced 9-1-1 services will not be available. Second, the Digital Phone Terms of Service prohibit you from moving your voice enabled cable modem to a new location. If your modem is moved to another location or address, Enhanced 9-1-1 services will not operate properly because 9-1-1 operators will not be able to accurately identify the caller's location in an emergency. If you would like to establish service at a new location, you must call Time Warner Cable.

Q: In the communication I received, you asked me to dial a toll-free number or go to a web site? Why do I need to do that?

A: Time Warner Cable is asking you to call the toll-free number or go to the web site to acknowledge your review of the E9-1-1 Notice included in the communications. The toll-free number is 1.866.376.4911 The Web site address is www.TimeWarnerCable.com/E9-1-1 Your acknowledgement should take less than one minute to complete. We appreciate your participation.

Important Information About the Coverage Map

Map may include areas served by unaffiliated carriers, and may depict their licensed area rather than an approximation of the coverage there. Actual coverage area may differ substantially from map graphics, and coverage may be affected by such things as terrain, weather, foliage, buildings and other construction, signal strength, customer equipment and other factors. AT&T does not guarantee coverage. Charges will be based on the location of the site receiving and transmitting the call, not the location of the subscriber.

This map predicts and approximates our wireless coverage area outdoors, which may vary from location to location and may change without notice. It may include locations with limited or no coverage. Our maps do not guarantee service availability. Even within a coverage area, there are several factors, such as: network changes, traffic volume, service outages, technical limitations, signal strength, your equipment, terrain, structures, foliage, weather, and other conditions that may interfere with actual service, quality, and availability, including the ability to make, receive, and maintain calls. Multi-band (850/1900 MHz) GSM/GPRS handset required for access to 850 Roaming Coverage. Ask a T-Mobile sales representative or visit www.t-mobile.com/morecoverage for more information regarding handset requirements and T-Mobile 850 MHz coverage. 850 MHz roaming is offered through our roaming partners; some features (e.g. picture messaging, mobile to mobile) may not be available while roaming. These Coverage Locator depictions apply to the following calling plans:

Nationwide Calling Plans, America's Choice initiated (activated) on or after 2/21/2005, BroadbandAccess and INpulse.

These Coverage Locator maps are not a guarantee of coverage and may contain areas with no service. These maps reflect a depiction of predicted approximate wireless coverage of the Verizon Wireless Network and the network of other carriers. The coverage areas shown do not guarantee service availability, and may include locations with limited or no coverage. Even within a coverage area, there are many factors, including a customer's equipment, terrain, and proximity to buildings, foliage, and weather that may impact service. An all-digital device will not operate or be able to make 911 calls when digital service is not available. Some of the coverage area includes networks run by other carriers; some of the coverage depicted is based on their information and public sources and we cannot ensure its accuracy.

These maps reflect a depiction of predicted approximate wireless coverage of the Verizon Wireless Network and the network of other carriers. The coverage areas shown do not guarantee service availability, and may include locations with limited or no coverage. Even within a coverage area, there are many factors, including a customer's equipment, terrain, and proximity to buildings, foliage, and weather that may impact service. An all-digital device will not operate or be able to make 911 calls when digital service is not available. Some of the coverage area includes networks run by other carriers; some of the coverage depicted is based on their information and public sources and we cannot ensure its accuracy.

VIA OVERNIGHT MAIL

AT&T Wireless Services, Inc.
Attn: Senior Contract Manager
7277 – 164th Avenue NE
Redmond, Washington 98052

Dear Senior Contract Manager:

This letter is to advise wireless providers that, as part of a docket Cincinnati Bell Telephone Company LLC ("CBT") plans to open at the Public Utilities Commission of Ohio ("PUCO"), it intends to provide certain carrier data that may be considered carrier proprietary information. Specifically, CBT intends to request the PUCO to grant it pricing flexibility for Basic Local Exchange Service ("BLES") in certain of its Ohio exchanges, per the rules established in PUCO Case No. 05-1305-TP-ORD. CBT intends to file supporting data in aggregate form with its application but may also need to respond to more specific data requests from the PUCO Staff and other parties.

To satisfy the directive of Rule 4901:014-10(A) that CBT demonstrate at least one of the competitive market tests has been met, CBT believes it must provide certain alternative provider information to the PUCO. CBT will only file such information under the highest degree of protection available under PUCO's rules and will not disclose any carrier proprietary information publicly. Any provision of proprietary information to parties will be subject to a proprietary agreement or protective order. Moreover, any disclosure of proprietary information to the PUCO or its Staff will be subject to the protections afforded by Ohio law.

This notice is intended to comply with provisions contained in your interconnection agreement concerning the disclosure of proprietary information. If you have any objections after receipt of this notice, CBT requests that you serve them on CBT's counsel (Douglas E. Hart) by email (dhart@douglasshart.com) or fax (513-621-6981), no later than August 15, 2008.

Sincerely,

A handwritten signature in dark ink, appearing to read "Gary Peddicord", written over a horizontal line.

GoPhone® Pick Your Plan

All the benefits of wireless, without the surprises. This prepaid cell phone plan allows you to simply pay in advance for what you need. No long-term contracts, credit checks or deposits.

Highlights

- Refill your minutes 24/7
- Three ways to refill—prepaid cards, online, or over the phone
- Track your usage—You will receive a text message with your updated balance after each call.

AT&T Advantages

- Rollover® Balance™ lets you carry over your unused account balance when you refill before your balance expires, up to the account maximum.
- No long distance or roaming fees across our national service area.
- UNLIMITED Text Messaging and Web Browsing with MEdia Net options. Unlimited Talk (on most plans). [View and purchase Pick Your Plan feature packages.](#)

 [Plan Terms](#)

*Number of minutes is based on entire account balance being used for voice calls. Use of balance for data, text messaging, directory assistance, ringtones or other items will affect the number of minutes available. In certain areas, taxes or fees relating to E911 are debited from your account balance monthly and will affect the number of minutes available.

**Night and weekend minutes will be used before Mobile to Mobile minutes.

How it Works

Pick the rate plan that fits you best, then set up monthly, automatic payments with your credit card, debit card or checking account. Funds are deducted from your balance each time you make or receive a call or use features such as Text Messaging. If you need to make more calls or use up your balance during the month, just add additional funds to your account at any time—you'll pay the same per minute rate as your plan.

Adding Minutes to Your Account

- You'll receive a voice message indicating you have a low balance when you place a call with less than \$5 in your account.
- When your account reaches \$0, you can add funds or stop using the service until your next scheduled payment.
- If your balance gets low before your next monthly payment, you can add funds in increments of \$15 and \$25 24/7 using your credit/debit card or checking account.
 - Online: Visit <http://www.att.com/mygophone>
 - By phone: Call 611 from your wireless phone or 1-866-499-7888 from a landline phone

Included Features

Basic Voice Mail*	Caller ID
Call Forwarding*	Three-Way Calling*

GoPhone® Pay As You Go

All the benefits of wireless, without the surprises. This prepaid cell phone plan allows you to simply pay in advance for what you need. No long-term contracts, credit checks or deposits.

Highlights

- Refill your minutes 24/7
- Three ways to refill—prepaid cards, online, or over the phone
- Track your usage—You will receive a text message with your updated balance after each call.

AT&T Advantages

- Rollover® Balance™ lets you carry over your unused account balance when you refill before your balance expires, up to the account maximum.
- No long distance or roaming fees across our national service area.
- UNLIMITED Text Messaging, Nights & Weekends, and Web Browsing with MEdia Net options on select plans. View [Pay As You Go feature package details](#).

Earn up to \$20 for every \$100 you spend refilling your account! [View Pay As You Go Rewards details](#).

 [Plan Terms](#)

***Daily Access Fee:**

Daily access fee of \$1.00 for the Pay As You Go Unlimited Talk plan is assessed each day you use your phone for a voice call and is debited from your account balance the day after you use your phone.

How it Works

Because you are a new GoPhone Pay As You Go customer, we'd like to give you a \$10 airtime bonus. Simply add \$25 or more airtime within 7 days of activation and get a \$10 airtime bonus added to your account.

For your convenience, we will activate your GoPhone Pay As You Go account with a phone number local to your area. Your phone number will be on your packing slip and order confirmation that is included with your package.

When you receive your phone, go to <http://www.paygonline.com> and add \$25 airtime or more within 7 days of activation and get a \$10 airtime bonus added to your account. AT&T will send a text message to your phone when the \$10 airtime bonus is added to your account.

Certain restrictions apply. Activation of a GoPhone Pay As You Go account required. \$25 minimum must be added to account within 7 days of activation to qualify for bonus. See [GoPhone Pay As You Go Plan Terms for terms](#) and conditions.

Adding Funds To Your Account

For your convenience 24/7, you can add funds to your account in a variety of ways:

- Online: Visit www.myprepaidrefill.com and refill using a credit card, major debit card or electronic check.
- By phone: Add funds with credit card or with Pay As You Go card by calling 611 from your wireless phone or 800-901-9878, from any landline phone.
- In person: Purchase a Pay As You Go card or PIN from a nearby [replenishment location](#) nationwide.

Pay As You Go cards are available in these amounts:

Card Denomination	Expiration Period
\$15	30 days
\$25	90 days
\$50	90 days
\$75	90 days
\$100	365 days

One year expiration period on \$100 refill cards!**Included Features**

Basic Voice Mail*	Caller ID
Call Forwarding*	Three-Way Calling*
Call Waiting*	Nationwide Long Distance
International Calling^

Basic plans

Talk: Nights, Mon-Thurs. 9 p.m. - 7 a.m.; Weekends, Fri. 9 p.m. - Mon. 7 a.m.

Basic plans: Corporate, government or special discounts do not apply.

Standard features

All Sprint voice plans automatically come with these great features:

Voicemail: Your phone's answering service. Voicemail answers your calls and takes messages when you are not available.

Call Waiting: Like a second line for your phone, Call Waiting lets you decide whether to switch to the new call-or send it to Voicemail.

Caller ID: View the phone number of an incoming call, so you know who is calling before your answer. All unanswered calls automatically roll over to your Voicemail.

Caller ID Block: Block your phone number from appearing on the phone of the person you're calling.

Three-Way Calling: Talk to two people at the same time. You can initiate Three-Way Calling even if you didn't start the phone call (airtime and long-distance charges apply for both of the calls in your Three-Way Calling party).

Call Forwarding: Forward incoming calls to the phone number you specify. (\$0.20/minute).

Numeric Paging: Set your Voicemail to allow callers to send a numeric page to your phone.

Sprint 411: Access Directory Assistance. Just dial 411 from your Sprint or Nextel phone to get dinner reservations, movie listings, driving directions and more (\$1.79/call, airtime charges also apply).

Emergency Calls: Call 911 from anywhere in our network with no airtime charges.

Non-Emergency Calls: Report traffic accidents, motorist problems, careless drivers or other non-emergency incidents using special dialing numbers (such as #77, 311).

Rates & Fees: Monthly charges exclude taxes, Sprint Surcharges [incl. USF charge of up to 11.4% (varies quarterly), Administrative Charge (up to \$1.99/line/mo.), Regulatory Charge (\$0.20/line/mo.) & state/local fees by area]. Sprint Surcharges are not taxes or gov't-required charges and are subject to change. Details: sprint.com/taxesandfees.

FlexPaySM

All the perks of a monthly plan — and no deposits.

Welcome to FlexPay

Access your favorite wireless plan without worrying about deposits, activation fees, or surprise overages*. Just pay upfront for your phone, at full invoice price, along with your first month of service. Also, FlexPay won't let you go over your allotted monthly Whenever Minutes®. If you need more minutes, just deposit funds into your FlexAccountSM and keep talking at \$0.20 per minute. As a bonus, we start your FlexAccount with \$5.00†.

Get all the perks of a monthly plan

— with no deposits, no activation fees, and no surprise overages.

Talk on your terms

Purchase your phone at the suggested retail price and pay in advance for your rate plan — as a result, you eliminate the need for an annual contract. Or with credit approval, you can sign an annual contract and save immediately with discounts on T-Mobile phones.

Pick your favorite plan

With FlexPay, the choice is yours. Get unlimited nationwide calling to your favorite 5 people with myFaves®, or share a plan with the people you love with FamilyTime®. You'll always have nationwide long distance and roaming, and great coverage*.

Load up your FlexAccount

With a FlexAccount, you can buy and use fun extras, or if you run out of voice minutes provided by your rate plan, you can use your FlexAccount to purchase more minutes. Additional domestic minutes are \$0.20 each. Fun extras include games, icons, messaging, or music±. Your FlexAccount can be used to purchase and use the services and extras that aren't included in your monthly plan. Remember, we even start your FlexAccount with \$5.00†.

Bundle up and save

Bundles** are a great way to get more messaging for your money. Buy any one of these messaging bundles to save. If you go over the number of messages in your bundle, **standard messaging rates** will apply, and amounts will be deducted from your FlexAccount. **Please note: Be sure to keep funds in your FlexAccount to send and receive messages (a messaging capable device is required).**

FlexPay Bundles	Single Line	FamilyTime
400 Messages	\$4.99	\$9.99
1000 Messages	\$9.99	\$14.99
Unlimited Messages	\$14.99	\$19.95

Refill in several ways

You can **add funds to your FlexAccount** using Prepaid Refills in denominations of \$10, \$25, \$50, or \$100.

To add funds to your FlexAccount, just:

Shop online at **T-Mobile.com**

Dial ***ADD (*233)** or **(800) 937.8997** on your T-Mobile phone

Visit any **T-Mobile store**, we have over 120,000 of them

Visit **authorized dealers** in your local shopping area

Pay in several ways

To continue your service, payments are due at the beginning of your service cycle. You can log in to **My T-Mobile** or dial **#BAL# (#225#)** to check your current balance and due date. If you need to make a payment there are five methods by which you can pay:

by mail

through the automated customer care system

Dial: 611 or 1 (800) 937.8997

by logging in to **My T-Mobile**

through any **T-Mobile store** or kiosk

by transferring funds from your FlexAccount (You must be an account holder)

by EasyPay

With EasyPay, payments will be deducted automatically from your checking account or credit card, and we waive the \$4.99 per line monthly Control Charge.

± Separate additional charges apply to all downloads and services. Not available with all rate plans or on all devices. FlexAccount balance required to purchase.

† Subject to change. No refund for any FlexAccount deposit which may be provided by T-Mobile.

**Bundles not available for all customers.

*T-Mobile customers are bound by T-Mobile's Terms and Conditions. **General Terms:** Activation on a qualified T-Mobile rate plan and month-to-month or one- or two year agreement required; up front and monthly charges and fees may apply. Credit approval required for one-and-two year agreements. \$200/line early cancellation fee applies to one- and two-year agreements. \$4.99/line per month Control Charge (unless enrolled in EasyPay). Regulatory Programs Fee (not a tax or government-mandated charge) of 86¢ per line/month applies. Taxes approx. 6–28% of your monthly bill. FlexAccount balance required to use additional voice minutes, messages, and any other services not included in your monthly rate plan and features (such as international dialing, messaging and roaming, downloads, 411 and Internet services). Day/time of call rated and billed on a per minute basis. Additional minutes billed according to plan coverage. All messaging plans and rates apply to domestic messages sent or received (unless stated otherwise). **FlexAccount/Prepaid Refills:** You must purchase and deposit Prepaid Refill dollars into your FlexAccount to use additional domestic voice minutes (20¢/min.), domestic messages (15¢/msg.), and any other services not included in your monthly rate plan and features (such as international dialing, messaging and roaming, downloads, 411 and internet services). **myFaves.** myFaves-enabled handset required. myFaves allows unlimited nationwide calling to any five U.S. phone numbers (exclusions include 411, voicemail, toll-free, 900, calling card, customers' own numbers, numbers accessing 500 or more lines - other restrictions and exclusions may apply). myFaves numbers may be changed only once per calendar month. International calling and certain myFaves photographs/icons incur separate additional charges. **Abnormal Call Patterns:** Call duration and/or your continued eligibility for any service or rate plan may be limited or terminated for (a) consumer protection purposes, (b) abusive conduct or abnormal call pattern(s), or (c) significant roaming. **Discounted Device:** New activation and 1-or-2 year service agreement required. See Sales Associate or Pricing, Coverage, Services and Devices brochures, [T-Mobile's Terms and Conditions \(including mandatory arbitration\)](#), and [FlexPay Supplemental Terms and Conditions](#) at www.T-Mobile.com for additional rate plan information, charges for features and services, restrictions, and details.

Calling Plan Information

Important Calling Plan Information

Anytime Minutes, National IN Calling, Night & Weekend Minutes and Per-Minute Rate are for use from within the Nationwide Rate and Coverage Area.

- Unlimited Domestic Long Distance. (Airtime applies.)
- No domestic roaming charges. (Coverage not available in all areas)
- Unlimited Night & Weekend Minutes
Night Hrs: (M–F) 9:01 p.m.–5:59 a.m.
Wknd Hrs: 12:00 a.m. Sat.–11:59 p.m. Sun.

International Roaming

Make or receive calls while traveling internationally with rates starting as low as 69¢/minute. While at home, some international destinations can be reached using 10-digit direct dialing; international long distance rates apply in addition to airtime charges. Please visit www.verizonwireless.com/international for a list of North American Dialing Pattern countries and rates.

Mobile Web 2.0

Billing for Data Sent or Received. Mobile Web 2.0 is included in all Nationwide Calling Plans. Megabyte charges apply to Basic and Select Plans. Unless you subscribe to the V Cast VPak, V CAST Mobile TV Select or Premium Calling Plans, megabytes sent or received using Mobile Web (including advertising) will be aggregated each month, rounded up to the next megabyte, and billed at \$1.99/MB.

Rates are rounded to the nearest whole megabyte. One megabyte is equal to 1024 kilobytes. Application charges apply in addition to charges for data sent/received.

411 Connect®

\$1.49 per call plus airtime.

Detailed Billing

\$1.99 per month per number.

Required Equipment

GPS–capable CDMA tri–mode or all–digital phone with Verizon Wireless software.

Minimum Term, Activation and Early Termination Fees

- One– or two–year minimum term required per line.
- Activation Fee/line: \$35, except \$25 for secondary Family SharePlan® lines with two–year minimum term.
- Activation fees may vary or be waived for business customers that have a Major Account Agreement with Verizon Wireless.
- Early Termination Fee: Up to \$175 per line.

Taxes, Surcharges and Fees

- Tolls, taxes, surcharges and other fees, such as E911 and gross receipt charges, vary by market and as of January 1, 2008, add between 4% and 35% to your monthly bill and are in addition to your monthly access fees and airtime charges.
- Monthly Federal Universal Service Charge on interstate & international telecom charges (varies quarterly based on FCC rate) is 11.3% per line. Beginning **July 1, 2008** the Federal Universal Service Charge will be changing to 11.4% per line.
- The Verizon Wireless monthly Regulatory Charge is 7¢ per line.
- Monthly Administrative Charge (subject to change) is 70¢ per line. Beginning **May 1, 2008**, the monthly Verizon Wireless Administrative Charge for voice and email plans will increase from \$0.70 to \$0.85 per line.
- The Federal Universal Service, Regulatory and Administrative Charges are Verizon Wireless charges, not taxes. For more details on these charges, call 1–888–684–1888.

Important Information:

For more information, refer to the Customer Agreement or speak with a Sales Representative. Service is subject to the Customer Agreement, which you should read before activating service. Credit approval required. Billing, shipping and end-user address must be within the Verizon Wireless licensed and service areas where the wireless phone number is issued.

In some rare instances, dialing ***228** may alter your Calling Plan's Airtime Rate and Coverage Area. The accuracy of the roaming indicator on your phone cannot be guaranteed. Charges for calls will be based on the cell sites used and time of day at the telephone switching office that carries your call, which may be different than the time of day shown on your phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to next full minute. Unused allowance minutes lost. Charges start when you first press **SEND** or the call connects to a network on outgoing calls, and when the call connects to a network (which may be before it rings) on incoming calls. Time may end several seconds after you press **END** or the call otherwise disconnects. For calls made on our network, we only bill for calls that connect (which includes calls answered by machines). Calls to 'toll-free' numbers are toll-free; you will be billed airtime. Billing for airtime and related charges may sometimes be delayed. Delayed airtime will be applied against the included airtime for the month when you actually made or received the call, even though such charges may show up on a later bill. This may result in charges higher than you'd expect in the later month.

Unlimited Calling Plan

Plans are not eligible for monthly access discounts. Anytime minutes are for live calls between individuals.

Family SharePlan

Minimum of two lines required. Maximum of five lines. Only one line is the primary line. All lines must be activated on the same billing account and in the same market.

National IN Calling

You can talk with any of our customers anytime from within the America's and North America's Choice (in the United States and Puerto Rico) Rate and Coverage Area. If Caller ID is not present or Caller ID Block is initiated, National IN Calling does not apply to incoming calls and will apply to outgoing calls only. National IN Calling is not available to customers whose wireless exchange restricts the delivery of Caller ID or with fixed wireless devices with usage substantially from a single cell site. National IN Calling does not apply if Call Forwarding or No Answer/Busy Transfer features are activated or to data usage, including Push to Talk calls, Picture Messaging or Video Messaging, calls to check your Voice Mail and calls to Verizon Wireless customers using any of the VZGlobal services. National IN Calling does not apply in those areas of Louisiana and Mississippi where your phone's roaming indicator flashes.

Internet Access

Mobile Office Kits, PC Cards, PDAs or other wireless modem devices may not be used for Internet access without a subscription to select VZEmail or VZAccess plans.

Connecticut Customers: If you have any questions about your bill or concerns about your service, please call Customer Care at: 1-800-922-0204 or dial *611 from your wireless phone. If you are a Connecticut customer and we cannot resolve your issue, you have the option of contacting the Department of Public Utility Control (DPUC): Online: www.state.ct.us/dpuc Phone: 866-381-2355; Mail: Connecticut DPUC, 10 Franklin Square, New Britain, CT 06051.

Included Features

3-Way Calling

You can talk with two people at the same time with a three-way conversation on your wireless phone. Airtime and other charges, which may include toll or long distance charges, will apply for all simultaneous calls until you end one call.

Not available in some areas. Airtime applies to all simultaneous calls and to forwarded/transferred calls even if you send the call to wireline telephones.

411 Search®

Directory assistance with automatic call completion. An operator will assist you when you request numbers, addresses and information for anything from restaurants and movies to the nearest florist. Simply press 4-1-1 and SEND from your handset. **\$1.49 per call plus airtime.**

Per-call charge for 411 Search may vary when your phone's banner

displays "Extended Network" or "Roaming".

Basic Voice Mail

Voice Mail takes a caller's message when you can't answer the phone. You will receive a message-waiting indicator to let you know that a message has been left for you. Basic Voice Mail includes:

- 20 messages
- 3 minute maximum per message
- 21-day retention

For more capacity, you should consider signing up for Enhanced Voice Mail.

Not available in some areas. Airtime applies to message retrievals from your wireless phone. IN Calling does not apply to Voice Mail set-up or message retrievals. Voice Mailboxes not initialized within 60 days (45 days in some markets) of feature activation will be canceled. Your Verizon Wireless Voice Mailbox is not password protected until you initialize it by following the tutorial prompts to select a password and record a voice signature and personalized greeting. Verizon Wireless is not liable for missed Voice Mail messages or deletions of messages from your Voice Mailbox, even if you've saved them.

Call Forwarding

Forward your calls to another phone number, including your home or office number. Your wireless phone will not ring until you deactivate the service. Airtime applies to forwarded/transferred calls even if you send the call to wireline telephones. When forwarding calls to phone numbers outside your local calling area, you'll be billed for any toll, long distance, and airtime charges incurred. Additional per-minute charges may apply to all forwarded calls. This feature is also known as "Immediate Call Forwarding".

Not available in some areas. Airtime applies to all simultaneous calls and to forwarded/transferred calls even if you send the call to wireline telephones. When activated, all calls will be forwarded to another number until deactivated. The wireless phone will not ring. Long distance charges may be incurred. Airtime charges may apply. Customers will be charged for one minute of airtime when activating Call Forwarding.

Call Waiting

This feature lets you know when another caller is trying to reach you while you're on another call. You will hear a short tone. After you hear the Call Waiting tone, you'll have approximately 30 seconds to answer before the second caller hears a standard message or is forwarded to your Voice Mailbox. If you answer the call, airtime and other usual charges will apply to both calls until you end one call.

Not available in some areas. Airtime applies to all simultaneous calls and to forwarded/transferred calls even if you send the call to wireline telephones.

Caller ID/Caller ID Blocking

Caller ID allows you to see the caller's phone number before you take the call. Caller ID may display the number of the person calling on your wireless phone (for all unblocked numbers). It may also display the name of the person if you've stored it in your phone's memory. Calls can usually be returned by pressing one button.

Caller ID Blocking allows you to block your number from being displayed through Caller ID, and can either be done permanently or temporarily.

Caller ID is not available on all calls, on all equipment or in all areas.

Mobile Web 2.0

Get the latest news, sports, and weather. Play fantasy football. Bid with eBay.® Enjoy Mobile Banking for Bank of America Online Banking customers, and more.

Mobile Web 2.0 is included in all Nationwide Calling Plans. Megabyte charges apply on Basic and Select Plans. Unless you subscribe to the V Cast VPak, V CAST Mobile TV Select, or Premium Calling Plans, megabytes sent or received using Mobile Web (including advertising) will be aggregated each month, rounded up to the next megabyte, and billed at \$1.99/MB.†

†Rates are rounded to the nearest whole megabyte. One megabyte is equal to 1024 kilobytes. Application charges apply in addition to charges for data sent/received.

New Every Two®**Get a new wireless phone every two years!**

Sign up for and maintain two years of service on a digital plan of \$34.99 or higher to qualify for a free phone up to a \$50 or \$100 value, depending on the monthly access of your plan, or receive a credit of the same amount toward the purchase of a more expensive phone, with a two-year renewal.

How do you sign up for New Every Two?

You are automatically enrolled in our New Every Two program when you sign up for a two-year agreement on a calling plan with a monthly access of \$34.99 or higher. If you maintain service on a calling plan of \$34.99 or higher and fulfill your two-year term, you will qualify for a free phone. If your calling plan monthly access is \$79.99 or higher for the entire three months prior to completing your New Every Two phone upgrade, you will get up to \$100.00 toward the purchase of that phone. If your calling plan monthly access was between \$34.99 and \$79.98 at any time during the three

months prior to completing your New Every Two phone upgrade, you will get up to \$50.00 toward the purchase of that phone. When completing your New Every Two upgrade, you will need to renew your agreement for another two years on a calling plan with a monthly access of \$34.99 or higher.

You must retain the same wireless handset for 24 months in order to receive the full advantages of this program. If you choose to replace your handset at a discounted price, you will forfeit your benefits and be automatically reenrolled if you meet the requirements of the program.

Information for Existing Customers

If you enrolled in the program on or after 11/25/02, you must take advantage of the New Every Two offer within six months of becoming eligible; otherwise, you may be charged full retail price to upgrade your current handset. Discount amount will be applied toward the two-year Customer Agreement retail price. Secondary Family SharePlan® lines are not eligible to participate in the program. The New Every Two discount cannot exceed the price of the phone after rebates. If your 2-year Customer Agreement with a digital calling plan of \$34.99 or higher began on or after 6/02/03, you were automatically enrolled in the program. Customers who began their two-year agreements on or after 4/01/00 on a digital calling plan of \$35.00 or higher were also automatically enrolled in the program.

If you enrolled in the program prior to 2/05/06 and continued to meet the requirements of the program, you will be eligible for a free phone up to \$100, or a credit of up to \$100 toward a more expensive phone, when you become eligible for your next New Every Two upgrade (after which time you will be enrolled in the \$50/\$100 New Every Two program described in the brochure). New Every Two discount amounts and calling plan tiers subject to change at Verizon Wireless' sole discretion.

No Answer / Busy Transfer

You can have incoming calls answered by another phone whenever your wireless phone is busy or remains unanswered after three to six rings. With this option, your phone will ring unless you're on the phone.

When forwarding calls to phone numbers outside your local calling area, you'll be billed for any toll, long distance, and airtime charges incurred. Additional per-minute charges may apply to all forwarded calls.

Not available in some areas. Airtime applies to forwarded/transferred calls even if you send the call to wireline telephones.

Text Messaging

Fun, easy way to stay in touch. TXT Messaging is a two-way text messaging service. Send and receive text messages of up to 160 characters right on your two-way messaging-capable phone. **\$0.20 for messages received and \$0.20 for messages sent.** Bundle plans also

available. Sending and receiving text messages does not deduct from a calling plan's airtime allowance.

Not available in some areas.

Additional [Terms & Conditions](#) apply.

Unlimited Calling Plan

Plans are not eligible for monthly access discounts. Anytime minutes are for live calls between individuals.

Family SharePlan

Minimum of two lines required. Maximum of five lines. Only one line is the primary line. All lines must be activated on the same billing account and in the same market.

National IN Calling

You can talk with any of our customers anytime from within the America's and North America's Choice (in the United States and Puerto Rico) Rate and Coverage Area. If Caller ID is not present or Caller ID Block is initiated, National IN Calling does not apply to incoming calls and will apply to outgoing calls only. National IN Calling is not available to customers whose wireless exchange restricts the delivery of Caller ID or with fixed wireless devices with usage substantially from a single cell site. National IN Calling does not apply if Call Forwarding or No Answer/Busy Transfer features are activated or to data usage, including Push to Talk calls, Picture Messaging or Video Messaging, calls to check your Voice Mail and calls to

Verizon Wireless customers using any of the **VZ**Global services. National IN Calling does not apply in those areas of Louisiana and Mississippi where your phone's roaming indicator flashes.

Internet Access

Mobile Office Kits, PC Cards, PDAs or other wireless modem devices may not be used for Internet access without a subscription to select **VZ**Email or **VZ**Access plans.

Connecticut Customers: If you have any questions about your bill or concerns about your service, please call Customer Care at: 1-800-922-0204 or dial *611 from your wireless phone. If you are a Connecticut customer and we cannot resolve your issue, you have the option of contacting the Department of Public Utility Control (DPUC): Online: www.state.ct.us/dpuc Phone: 866-381-2355; Mail: Connecticut DPUC, 10 Franklin Square, New Britain, CT 06051.

ADDITIONAL CALLING PLAN INFORMATION

- **NEW! Messaging Bundle Available - \$10/month for Unlimited Mobile to Mobile Messaging with Verizon Wireless customers PLUS 250 additional messages***
- V CAST Music - 99¢ / song via PC; \$1.99 / song via phone; 99¢ download fee**
- Ringback Tones - 99¢ per month & \$1.99 per Ringback Tone/Year
- Picture and Video Messaging - 25¢ per message
- Mobile Web 2.0 - 99¢ per day of use (24-hour period)
- Domestic Long Distance Included (airtime charges apply)
- Domestic Roaming Rate is 20¢ Per Minute
- International Text Messaging - 25¢ per message sent, messages received are same as calling plan
- 411 Search - \$1.49 per call plus airtime
- Up to \$25 activation fee may apply.

* Always applies when sending and receiving instant messages. Also applies when sending and receiving Text Alerts and Text, Picture and Video Messages: (i) with non-Verizon Wireless customers in the United States and on participating networks in Canada, Mexico and Puerto Rico; and (ii) via email. Premium Messaging programs and International Messaging not included.

** A 99¢ download fee applies in addition to song price on 1st purchase in any 24-hour period - (phone purchases only). For songs purchased from the phone, a second copy of the song is available for download from the V CAST Music Online Store account on your PC. Browsing, previewing, and downloading music on your phone will not use airtime. See Prepay Customer Agreement brochure for complete terms and conditions.

IN Calling, Night Minutes, Weekend Minutes and Per-Minute Rate are for use from within the INpulse Rate and Coverage Area. Daily Access will be charged and deducted from your account only on days you make or receive calls and is valid until 11:59 p.m. Daily Access of \$0.99, \$1.99 or \$2.99, calls rated at per minute rate and other charges for available services on your INpulse plan may deplete balance prior to its expiration. You will not be able to make or receive voice calls if you do not have the amount required for your daily access. Your account balance will expire at 12:01 a.m. on the day stated at the time of replenishment. To carry your balance forward, simply refill your account before your expiration date. If balance expires, unused portion will be forfeited. Verizon Wireless will suspend your service when your account reaches \$0 or your account reaches the expiration date. Unlimited IN Calling, Night Minutes and Weekend Minutes are not available when your account has been suspended. Limit of 2 calling plan changes in a 30-day period.

Important Information:

All terms, conditions and obligations of the Verizon Wireless Prepay Customer Agreement and Calling Plan, which cover all the details of your prepay service, shall govern the terms of your service. Please read and understand this material before activating or using your phone. Verizon Wireless calling plans, rate areas, agreement provisions, business practices, procedures and policies are subject to change as specified in the Verizon Wireless Prepay Customer Agreement. Our liability is significantly limited. Customers must replenish their account by providing Verizon Wireless with another payment. Any balance remaining at expiration will be removed from the account. Your wireless number is subject to termination after the expiration period, at which time up to a \$35 account activation fee may apply to re-establish service. Existing Verizon Wireless prepay customers will forfeit any unused bonus minutes in their account when changing to an INpulse Calling Plan.

You will forfeit the money in your account if you activated service without a Refill Card and did not make a call within 60 days. You must initialize the account. If activating the account with a Refill Card, the card is not valid unless initialized (using the PIN) by the date marked on the back of the card.

Toll and airtime free numbers are **911**, **#PAY (#729)** and ***611**. If a charge depends on an amount of time used, we'll round up any fraction of a minute to the next full minute. Time starts when you first press **SEND** or the call connects to a network on outgoing calls and when the call connects to a network (which may be before it rings) on incoming calls. Time may end several seconds after you press **END** or the call otherwise disconnects. For calls that are made on our network, we only bill for calls that connect (which includes calls answered by machines). Charge per call for 411 Search may vary when not in the Verizon Wireless INpulse Rate and Coverage Area.

Service availability dependent on phone model. INpulse pricing not available with analog-only phones. Some Verizon Wireless services and features require a CDMA tri-mode or All-Digital phone with Verizon Wireless software. Included features and services may not be available when outside the INpulse Rate and Coverage Area. V CAST (Video & Mobile TV), New Every Two®, Extended Warranty, Wireless Phone Protection, Total Equipment Coverage, Roadside Assistance, Detailed Billing and Enhanced Voice Mail are not available on the INpulse Calling plans. Please see the INpulse brochures for full details of the INpulse service.

Text Bundles

Ability to send and receive Text, Picture, and Video Messages varies by phone model; check your phone's user guide for information on supported services. Unlimited Mobile to Mobile Messaging applies only to Text, Picture, and Video messages sent/received within the INpulse All-Digital Rate and Coverage Area from a Verizon Wireless customer's phone to another Verizon Wireless customer's phone and addressed to the recipient's 10-digit phone number. Instant Messages are not included as Mobile to Mobile messages in Unlimited Mobile to Mobile Messaging plan. Overage rate per message for Text, Picture, and Video Messages defaults to the rates of your current calling plan, except international text messages, which cost 25¢ per message sent. Rates for international text messages received are based on your current calling plan. Standard per message rates apply when sending, receiving and uploading Picture and Video Messages to Pix PlaceSM. Coverage limitation & map at verizonwireless.com.

IN Calling

If Caller ID is not present or Caller ID Block is initiated, IN Calling does not apply to incoming calls and will apply to outgoing calls only. IN Calling is not available to customers whose wireless exchange restricts the delivery of Caller ID or with fixed wireless devices with usage substantially from a single cell site. IN Calling does not apply if call forwarding or no answer/busy transfer features are activated or to data usage, calls to check your voice mail and calls to Verizon Wireless customers using Airfone Service or any of the VZGlobal services.

Get It Now

Use of Get It Now is subject to the Get It Now License and User Agreements. An approved Verizon Wireless INpulse Get It Now-capable phone and a connection in the INpulse All-Digital Rate and Coverage Area is required. Not all applications available with INpulse Calling Plans.

Additional fees apply. See www.verizonwireless.com/getitnow for more information. For Mobile Web, the services are charged at 99¢ per day only on the days it is used. You will have unlimited use of the services for a 24-hour period. Coverage limitations in maps at www.verizonwireless.com/coveragelocator

Refunds

REFUNDS WILL BE GRANTED WITHIN 30 DAYS OF THE ORIGINAL DATE OF PURCHASE WITH THE ORIGINAL SALES RECEIPT. AT THE TIME OF THE RETURN, THE CUSTOMER WILL RECEIVE A FULL REFUND FOR THE AMOUNT OF THE EQUIPMENT ONLY.

Connecticut Customers: If you have any questions about your bill or concerns about your service, please call Customer Care at: 1-888-294-6804 or dial *611 from your wireless phone. If you are a Connecticut customer and we cannot resolve your issue, you have the option of contacting the Department of Public Utility Control (DPUC): Online: www.state.ct.us/dpuc Phone: 866-381-2355; Mail: Connecticut DPUC, 10 Franklin Square, New Britain, CT 06051.

Additional INpulse Features

3-way Calling:

Talk with two people at the same time.‡

Call Forwarding:

Forward your calls to another number.‡

Caller ID:

No more surprises - see who's calling before you answer.*

Call Waiting:

Never miss another call.†

Carry-Over Minutes:

Refill your minutes before they expire and your existing balance will be carried forward.

Domestic Long Distance:

Use your talk time for long distance calls to anyone in the USA.†

Get It Now®:

Download games, ring tones and other cool stuff right to your wireless phone². Approved Verizon Wireless INpulse Get It Now handset required.

International Calling:

Call internationally with great rates.† Unlimited night minutes do not apply to international calls.

No Answer / Busy Transfer:

Transfer unanswered or busy calls to another number.‡

Verizon Wireless Minute Meter®:

Keeps you connected by telling you when to refill your minutes.

Voice Mail:

Holds up to 20 3-minute messages for 21 days. Dial *86 for message retrieval.¹

* Where available.

† Airtime charges apply.

‡ Airtime charges apply to all simultaneous calls and to forwarded/transferred calls even if you send the call to wireline telephones.

¹ Airtime charges apply to message retrievals from your wireless phone.

² Airtime and other service charges may apply.

Note 2: Tier 1-Noncore rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and Call Waiting, which are limited to a ten percent increase per year until they cap at the double initial rate. This pricing flexibility is in accordance with O.A.C. 4901:1-4 and Alt Reg Case No. 04-720, effective July 1, 2004.

Note 3: This tariff applies only to nonresidence accounts with three lines or less. See the Company's Nonresidence Service Agreement for nonresidence accounts with four or more lines, and for second and third line pricing in the Bethany, Cincinnati, Hamilton, Harrison, and Little Miami exchanges. Bethel, Clermont, Newtonsville, Reily, Seven Mile and Shandon Exchanges	1-Noncore	49.75	(C)

Note 1: Tier 1-Noncore rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and Call Waiting, which are limited to a ten percent increase per year until they cap at the double initial rate. This pricing flexibility is in accordance with O.A.C. 4901:1-4 and Alt Reg Case No. 04-720, effective July 1, 2004.

Note 2: This tariff applies only to nonresidence accounts with three lines or less. See the Company's Nonresidence Service Agreement for nonresidence accounts with four or more lines, and for second and third line pricing in the Bethany, Cincinnati, Hamilton, Harrison, Little Miami, and Williamsburg exchanges. LOCAL EXCHANGE SERVICES

E. RATES AND CHARGES - NONRECURRING CHARGES (Continued)

	<u>Tier</u> <u>(Note 1)</u>	<u>All Rate Bands</u>	
5. To change billing arrangements associated with exchange access lines (Continued)			
Nonresidence (Note 2)			
First Line			
Bethany, Cincinnati, Hamilton, Harrison, Little Miami, and Williamsburg Exchanges	1-Core (BLES Alt Reg)	\$ 12.25	(C)
Bethel, Clermont, Newtonsville, Reily, Seven Mile and Shandon Exchanges	1-Core	12.25	
Second and Third Lines			
Bethel, Clermont, Newtonsville, Reily, Seven Mile and Shandon Exchanges	1-Noncore	12.25	(C)

Note 1: Tier 1-Noncore rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and Call Waiting, which are limited to a ten percent increase per year until they cap at the double initial rate. This pricing flexibility is in accordance with O.A.C. 4901:1-4 and Alt Reg Case No. 04-720, effective July 1, 2004.

Note 2: This tariff applies only to nonresidence accounts with three lines or less. See the Company's Nonresidence Service Agreement for nonresidence accounts with four or more lines, and for second and third line pricing in the Bethany, Cincinnati, Hamilton, Harrison, Little Miami, and Williamsburg exchanges. C. RATES AND CHARGES (Continued)

1. Residence (Continued)

MAXIMUM				
<u>Custom Calling Services</u>	Tier (Notes 1 and 2)	Recurring Charge (Note 3)	Nonrecurring Charge (Note 4)	<u>USOC</u>
h. Call Waiting Deluxe	2	---	---	PKR
i. Call Waiting, each line				ESX
Bethany, Cincinnati, Hamilton, Harrison, Little Miami, and Williamsburg Exchanges	1-Noncore (BLES Alt Reg)	---	---	
Bethel, Clermont, Newtonsville, Reily, Seven Mile, and Shandon Exchanges	1-Noncore	\$ 12.00	\$ 17.00	

(C)

(C)

Note 1: Tier 1-Noncore (BLES Alt-Reg) rates are subject to Tier 2 pricing flexibility.

Note 2: Tier 1-Noncore rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and Call Waiting, which are limited to a ten percent increase per year until they cap at the double initial rate. This pricing flexibility is in accordance with O.A.C. 4901:1-4 and Alt Reg Case No. 04-720, effective July 1, 2004.

Note 3: The recurring charge is the monthly subscription rate except for pay-per-use services. For pay-per-use services, the recurring charge applies to each use of the service.

Note 4: Customers ordering a combination of Custom Calling Services on the same line, at the same time and at the same address will be billed only one nonrecurring charge. The applicable nonrecurring charge will be the higher of the applicable nonrecurring charges. There is no service activation or nonrecurring charge associated with services provided on a pay-per-use basis.

Bethany, Cincinnati, Hamilton Harrison, Little Miami, and Williamsburg Exchanges	1-Noncore (BLES Alt Reg)	\$ 12.37	(C)
Bethel, Clermont, Newtonsville, Reily, Seven Mile and Shandon Exchanges	1-Noncore	12.37	(C)
Fourth Line and Above	2	12.37	
All other residence services including bundled services	2	12.37	

Note 1: Tier 1-Noncore (BLES Alt-Reg) rates are subject to Tier 2 pricing flexibility.

Note 2: Tier 1-Noncore rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and Call Waiting, which are limited to a ten percent increase per year until they cap at the double initial rate. This pricing flexibility is in accordance with O.A.C. 4901:1-4 and Alt Reg Case No. 04-720, effective July 1, 2004.

Note 3: The initial charge applies when establishing or changing the above directory listings except in the following cases: a) when one or more exchange access lines are established; b) when changing from either 1) non-published service, 2) non-address service or 3) non-list service with a monthly rate to listed service.

Note 4: The monthly rate for primary listings is included in the exchange access line rate and charge.

EXHIBIT 5

**NOTICE OF APPLICATION OF CINCINNATI BELL TELEPHONE COMPANY LLC
FOR APPROVAL OF PRICING FLEXIBILITY OF BASIC LOCAL TELEPHONE
SERVICE AND OTHER TELEPHONE SERVICES**

Cincinnati Bell Telephone Company LLC (CBT) gives notice that on August 25, 2008, it filed an application (case number 08-1007-TP-BLS) with the Public Utilities Commission of Ohio (PUCO) seeking approval of alternative regulation, or pricing flexibility, of basic local telephone service, basic Caller ID service, and other telephone services in the Bethany, Harrison, Little Miami, and Williamsburg telephone exchanges which are located in whole or in part of Butler, Hamilton, Warren, Clermont, and Brown counties. CBT already has pricing flexibility for all services except basic local telephone service and basic Caller ID service, including bundled packages and long distance services.

In each telephone exchange area where CBT proves that competition exists, the company will be granted limited pricing flexibility. CBT's pricing flexibility for basic local telephone service will be limited to an annual increase of no more than \$1.25. The annual increase for basic Caller ID service will be limited to no more than 50 cents.

Other telephone services such as second and third line local telephone service access lines, call waiting, call trace, per line number identification blocking, and nonpublished number service currently have limited pricing flexibility. Where CBT proves there is competition, these services will not be subject to any rate cap and may be priced at market-based prices.

Any customer may provide the PUCO with a written statement objecting to the application by October 9, 2008. Such objections should be sent to PUCO, Attn: Docketing Division, 180 East Broad Street, Columbus, OH 43215-3793. Please reference case number 08-1007-TP-BLS in the objection. The PUCO will consider any objections received when reviewing the application. The PUCO will decide on the application within 120 days.

At this time, CBT is not changing prices. Rather CBT is requesting to be able to change prices in the future in response to the competitive market. If the PUCO grants CBT pricing flexibility, CBT must provide customers with 30 days notice prior to any rate increases. Lifeline telephone rates for low-income customers will not change as a result of this application.

Regardless of the outcome of this application, the PUCO retains regulatory oversight of service quality and consumer protections.

CERTIFICATE OF SERVICE

I hereby certify that a copy of the foregoing has been served electronically upon the Office of the Ohio Consumers' Counsel this 25th day of August, 2008, by e-mailing the same to David C. Bergmann at bergmann@occ.state.oh.us and Terry Etter at etter@occ.state.oh.us.

Douglas E. Hart

This foregoing document was electronically filed with the Public Utilities

Commission of Ohio Docketing Information System on

8/25/2008 3:11:19 PM

in

Case No(s). 08-1007-TP-BLS

Summary: Application of Cincinnati Bell Telephone Company LLC for Approval of an Alternative Form of Regulation of Basic Local Exchange Service and Other Tier 1 Services electronically filed by Mr. Douglas E. Hart on behalf of CINCINNATI BELL TELEPHONE COMPANY
