Comments:

Let me preface my comments by saying that I vote in every election and issue put to ballot. With todays' economy, I would like to know what the Governor thinks about the proposed rate increases for Dominion. I can't believe the PUCO would agree to this and I am now questioning what exactly the purpose of the PUCO is supposed to be? I had always thought they were put in place to protect the consumers of Ohio but this is not the case. As usual the PUCO does nothing but approve rate increases for the utilities. When was the last time the PUCO decided a utility didn't rate an increase? I had thought Ohio had an initiative to keep Technical, Science and Math jobs in Ohio, yet every time I turnaround the State Government does something that makes people want to leave the State not stay. The way the State is headed my family will also start looking out of State. There is no incentive for the Middle Class to stay in Ohio let alone in the Cleveland area where I live. This increase is a BAD idea for all of Ohio anyone who states otherwise has no clue what it is to be a tax paying citizen working just to pay bills.

Response: Yes
