## Comments:

Governor, I attended a meeting last Monday concerning the rate hikes that the gas company has applied for. All indications are that the PUCO is willing to grant the request. If the PUCO scheduled meetings around the state to hear the people then why didn't they wait until the meetings were complete and the people heard. Also why were none of the commissioners at the meeting? There could not possibly be anything more important than to attend to the people you appointed them to protect and serve. The meeting was held at 2PM in a room much too small. Working folks would have a hard time making it. You, sir, are responsible to make sure your appointees are serving the people of Ohio.

Response: Yes
