Resolution No. 08-69

Dear Board Members,

The Parkman Township Board of Township Trustees, in support of our fellow Boards of Trustees in Huntsburg, Montville, and Thompson Townships, asks you to reconsider the use of SR 528 and Clay Street as proposed routes for the 138Kv transmission lines. It has come to our attention that there are routes with existing right of ways that would have less impact on residential property, farmland, wetlands, and timberland. The Parkman Board of Trustees acknowledges that there is a need for the 138Kv line and hopes that the Ohio Power Siting Board will take into consideration the will of the people, their property rights, and the preservation of farmland, wetlands and timberland.

Thank You,

Parkman Township Board of Trustees
