To: PUCO of Ohio

Regarding Case # 07-0829-GA-AIR for the rate increase. I read online that it was at your suggestion and not theirs to almost triple the monthly service charge in spite of the record amount of profit they made. Is this how you serve the public, especially senior citizens on a fixed income and low income families who can not afford the heating bills as they are. It was not so long ago that the MCF charge was almost the same price as Dominion now charges just for transportation and you allow extra charges on top of all these. We get a few \$ increase and it is more than taken away by such business decisions as these apparently by people like the PUCO. These actions would seem to indicate who's side you are. Please reconsider the monthly increase you so quickly recommended to Dominion. This is an unfair solution to so many on fixed incomes. Their monthly charges are more than enough along with their transportation charges to make them the record profit they already make.

Sincerely,  
Thomas Price
